Independent Auditor's Report

To the Board of Trustees and Plan Management of Shannon & Wilson, Inc. Eligible Individual Account Plan

Opinion

We have audited the accompanying financial statements of Shannon & Wilson, Inc. Eligible Individual Account Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Shannon & Wilson, Inc. Eligible Individual Account Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Shannon & Wilson, Inc. Eligible Individual Account Plan (the Plan/EIAP) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a stock bonus/profit sharing plan, which constitutes an eligible individual account plan under Section 407(d)(3) of the Employee Retirement Income Security Act of 1974 (ERISA), covering all eligible employees of Shannon & Wilson, Inc. (the Employer). Eligible employees include those who are 21 years of age or older and have completed one year of service in which they have worked at least 1,000 hours. The Employer is the Plan's sponsor and administrator. The Board of Trustees of the Plan is comprised of certain members of the Employer's management and is responsible for oversight of the Plan. The Plan is subject to the provisions of ERISA. The participant account records are maintained by the Employer.

Employer Contributions

The Employer may make discretionary contributions to the Plan. During 2024, the Employer's contributions included \$812,494 of the Employer's Class A common stock and \$651,210 of cash contributions. Participants who are 60 years of age or older or whose employment status has changed to temporary, seasonal, or intermittent during the year are prohibited by the terms and conditions of the Shannon & Wilson, Inc. Shareholder Agreement (the Agreement), the terms of which are incorporated by reference into the plan document, from receiving allocations of Class A common stock. As a result, cash contributions received by the Plan, if any, for these participants are invested in Class B common stock. In addition, the Employer may make discretionary profit sharing contributions to the Plan. During 2024, the Employer elected not to fund any profit sharing contributions to the Plan.

Investments

The Plan's investments consist of shares of the Employer's Class A (voting) and Class B (nonvoting) common stock. The Employer's common stock held by the Plan is subject to the terms and conditions of the Plan. Class A common stock is converted to Class B common stock in a participant's account upon the occurrence of a triggering event as defined by the Plan. Triggering events include, among other matters, a participant's death, disability, termination of employment, reaching age 65 and retirement. At the participant's direction, EIAP investments may be transferred to another qualified plan sponsored by the Employer; the Shannon & Wilson, Inc. Profit Sharing Retirement and 401(k) Plan and Trust (the 401(k) Plan).

Participant Accounts

As applicable, each participant's account is credited with the transfers from the 401(k) Plan, an allocation of the Employer's contributions, if any, and related earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan, continued

Transfers

As allowed under the Plan, participants under 60 years of age may transfer into the Plan all or part of their fully vested account balances from the 401(k) Plan, subject to limitations as defined by the Plan. Participants may direct this transfer once each year and the funds transferred are used to acquire Class A common stock. Furthermore, the Plan receives cash contributions and dividends (as further described below). Cash received by the Plan is immediately transferred to the 401(k) Plan and invested in the affected participants' accounts, as the Plan does not hold cash on behalf of participants. As a result, at year end, an amount may be pending transfer to the 401(k) Plan for the value of the cash received. In addition, a participant may choose to divest their investments in the Plan and transfer their account balance to the 401(k) Plan. Additionally, those participants who are eligible to receive a distribution of their account balance are first required to divest their investments in the Plan and transfer their account balance to the 401(k) Plan, where the distribution is processed.

Vesting

All participants are fully vested in their Class A and Class B common stock balances. Vesting in the Employer's profit sharing contributions, if any, is based on years of service. A year of service is defined as 1,000 hours worked during a plan year. A participant vests in accordance with a 3-year cliff vesting schedule. In the event an employee dies, becomes disabled, or reaches the Plan's normal retirement age (65), they become fully vested in their account.

Payment of Benefits

Each participant may select one of the distribution methods as defined by the Plan. Distributions of cash are effected through a transfer to the 401(k) Plan and subsequent distribution in accordance with the election of the participant.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Cash

Cash consists of monies held by the trust that due to timing have yet to be invested or disbursed. The cash balance, at times, may exceed federally insured limits.

Investment Valuation and Income Recognition

The Class A common stock of the Employer is valued as determined by the formula provided in the Plan document which approximates fair value to determine the most recent per share price as of December 31 (the Valuation Date). The per share fair value for Class A common stock, as determined by the formula in the Plan document, was \$122.42 and \$102.23, per share as of December 31, 2024 and 2023, respectively.

Notes to Financial Statements

2. Summary of Accounting Policies, continued

Investment Valuation and Income Recognition, continued

The per share value for Class B common stock was \$10 per share as of December 31, 2024 and 2023, which approximates fair value. This value represents the agreed upon price per Class B share at which the Employer will repurchase the shares from the Plan. See Note 3 for discussion of fair value measurements.

Investment transactions occurring during the year are recorded at the preceding Valuation Date's value. Appreciation in fair value of Class A common stock is a direct result of the change in the valuation of the share price of the Employer's common stock. Class B shares earn a 2% dividend annually. Dividend income is accrued on the ex-dividend date. A Class B dividend receivable is accrued within the accompanying statements of net assets available for benefits at December 31, 2024 and 2023 in the amounts of \$37,891 and \$59,001, respectively. The Class B dividends were paid in January 2025 and 2024, respectively.

Payment of Benefits

Benefits are recorded when paid. Distribution of benefits under the Plan are effected through a transfer of assets to the 401(k) Plan and subsequent distribution in accordance with the election of the participant.

Administrative Expenses

The Employer pays the Plan's administrative expenses.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Significant estimates were used in the valuation of the Company's common stock (see Note 3). Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2025 the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Shannon & Wilson, Inc. Eligible Individual Account Plan

Notes to Financial Statements

3. Fair Value Measurements, continued

The three levels of the fair value hierarchy under the Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Investment in Shannon & Wilson, Inc. common stock: Valued using the formula specified in the Plan document for establishing fair value. The formula uses 108% of the Employer's per-share book value of the stock as of the Valuation Date, which is a Level 3 input in the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of its financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

3. Fair Value Measurements, continued

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2024:

	Class A	Class B	Total
Balance, beginning of year	\$ 29,591,500	\$ 3,850,797	\$ 33,442,297
Employer contributions	1,463,703	-	1,463,703
Participant transfers from the 401(k) Plan	2,048,890	-	2,048,890
Participant transfers to the 401(k) Plan	(1,199,546)	(3,162,893)	(4,362,439)
Triggering event conversions	(1,199,954)	1,199,954	-
Unrealized gain	6,062,949	-	6,062,949
Dividend income	-	37,891	37,891
Balance, end of year	<u>\$ 36,767,542</u>	<u>\$ 1,925,749</u>	<u>\$ 38,693,291</u>

4. Risks and Uncertainties

As previously described, the Plan's investments consist solely of shares in the Employer's common stock. Due to the level of risk associated with investment in the Employer's common stock and uncertainties inherent in the estimations and assumptions used to determine the fair value of the Employer's common stock, it is at least reasonably possible that changes in the value of the Employer's common stock could occur in the near term and that such changes could materially affect participants' account balances and the amounts as reported in the financial statements.

5. Related-Party and Party-In-Interest Transactions

The Plan's investments are shares of the Employer's common stock issued by the Employer. Investments in these stocks qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Shannon & Wilson, Inc. Eligible Individual Account Plan

Notes to Financial Statements

7. Tax Status

The Employer has adopted a plan document that has received an opinion letter from the IRS dated October 7, 2014, stating that the Plan document was in compliance with the applicable requirements of the Code. Although the Plan has been amended since receiving the determination letter, plan management believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by the IRS; however, there are currently no audits in progress for any tax periods.

8. Benefit Obligations

Included in net assets available for benefits as of December 31, 2023, is an amount of Class A common stock allocated to a participant who has elected to transfer to the 401(k) Plan, which had yet to be settled by the Employer. Plan assets allocated to this participant was \$276,208 at December 31, 2023. A receivable for the pending transfer is recorded within the accompanying statement of net assets available for benefits at December 31, 2023. The transfer was settled in January 2024. There are no amounts allocated to withdrawing participants at December 31, 2024.
