Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BDO USA, PC**

(2) EIN: **13-5381590**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Independent Auditor's Report

The Retirement Plan Board
Advance Pension Plan
New York, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Advance Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Advance Pension Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Advance Pension Plan (the Plan) of Advance Publications, Inc. and Subsidiaries (the Company, the Plan Sponsor, or Plan administrator) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all employees of the Company who are not covered by a collective-bargaining agreement. The Plan was adopted effective January 1, 1976 and has since been amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Freeze

At various dates in 2009 to 2011, the participating companies in the Plan amended their individual plan provisions to freeze all future service credits for existing participants. After the freeze dates, the participants continue to vest in accordance with the applicable Plan provisions. The amount of a participant's accrued benefit or normal or late retirement pension, as applicable, shall be determined as of the freeze dates, as though such date was the participant's date of termination of employment. All new employees hired by the participating companies after the freeze dates will not be allowed to become participants in the Plan.

Pension Benefits

Participants' vesting dates, amounts of pension, and normal retirement dates are based on the individual plan provisions of the participating companies in the Plan.

Expenses

Administrative expenses are paid by the Plan, as provided in the Plan document. Certain other administrative and advisory fee expenses in 2024 and 2023 were paid by the Company and are excluded from these financial statements.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

Investment Valuation and Income Recognition

The Plan retains an interest in the Advance Publications, Inc. Master Trust (Master Trust). The Master Trust is a collective investment of the assets of participating employee benefit plans of the Company. The Master Trust's assets are allocated among participating plans by assigning each plan those transactions (primarily contributions and benefit payments) that can be specifically identified, and by allocating among participating plans, in proportion to the fair value of assets assigned to each plan, income and expenses resulting from the collective investment of the assets of the Master Trust.

Advance Pension Plan

Notes to Financial Statements

The Master Trust holds investments in registered investment companies (mutual funds), common/collective trust funds, separately managed accounts, partnerships/joint venture interests, investment contracts with insurance companies, fund of funds, and private equity funds, all of which are reported at fair value in accordance with GAAP.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) in the fair value of investments includes the Master Trust's gains and losses on investments bought and sold as well as held during the year. The Plan's investment assets are not guaranteed as to principal or interest, and their values vary depending upon the performance of the underlying investments.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management of the Plan to make estimates and assumptions that affect the reported amount of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

3. Funding Policy

The Company's funding policy is to make regular contributions each year in such amounts that are necessary to maintain the Plan on a sound actuarial basis and to meet or exceed the minimum funding standard as set forth in employee benefit and tax laws. The Company's contributions have met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

Effective December 16, 2020, minimum funding methods for the Plan for Plan years beginning on and after January 1, 2019 reflect the alternative minimum funding standards under the Internal Revenue Code (the Code) Section 430(m) applicable to eligible community newspapers plans and eligible newspaper plan sponsors.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest)

Advance Pension Plan

Notes to Financial Statements

and the probability of payment (by means of decrements, such as for death, disability, withdrawal, and retirement) between the valuation date and the expected date of payment.

The present value of accumulated plan benefits, as determined by the Plan's independent actuary, Mercer (US) Inc., is as follows:

January 1, 2024

Vested Benefits

Participants currently receiving payments	\$ 722,147,935
Other participants	353,354,950

Total Vested Plan Benefits	1,075,502,885
-----------------------------------	----------------------

Nonvested Accrued Benefits	353,282
-----------------------------------	----------------

Total Actuarial Present Value of Accumulated Plan Benefits	\$ 1,075,856,167
---	-------------------------

The changes in the actuarial present value of accumulated plan benefits, as determined by the independent actuary, are as follows:

Year ended January 1, 2024

Accumulated Plan Benefits, beginning of year	\$ 1,127,934,891
---	-------------------------

Increase (decrease) during the year attributable to:

Benefits accumulated, net of gains (losses)	5,837,401
Increase due to the decrease in the discount period	79,515,026
Benefits paid	(125,048,386)
Changes in actuarial assumptions	(12,382,765)

Net Decrease	(52,078,724)
---------------------	---------------------

Actuarial Present Value of Accumulated Plan Benefits, end of year	\$ 1,075,856,167
--	-------------------------

The significant actuarial assumptions used in the valuations as of January 1, 2024 were:

- Interest rate of 7.50% per annum in 2024.
- Retirement age of 65, adjusted for probabilities of early retirement withdrawal.
- Assumed mortality rates based on Pri-2012 mortality table using Scale MP-2021 with no collar adjustments.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan were expected to be completely terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuations been performed as of December 31, 2023, there would be no material differences.

Advance Pension Plan

Notes to Financial Statements

The Plan is not considered an “at-risk plan” for the 2024 Plan year.

5. Certified Investment Information

Certain information disclosed in the accompanying financial statements, related to investments as of December 31, 2024 and 2023, and investment income from the Master Trust for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by JPMorgan Chase Bank, N.A., a qualified institution.

6. Interest in Master Trust

The Plan’s investments are in a Master Trust, which was established for the investment of assets of the Plan and other plans sponsored by Advance Publications, Inc. and Subsidiaries. The assets of the Master Trust are held by JPMorgan Chase Bank, N.A., the Plan’s trustee. Each participating plan has an undivided interest in the Master Trust.

At December 31, 2024 and 2023, the Plan’s interest in the net assets of the Master Trust was approximately 97% and 97%, respectively. Total investment income (including net appreciation (depreciation) in the fair value of investments) and administrative expenses of the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The following tables summarize net assets and investments of the Master Trust, as well as the Plan’s interest in the Master Trust:

7. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of an asset or liability is based on the assumptions that market participants would use in pricing the asset or liability. Valuation techniques consistent with the market approach, income approach, and/or

Advance Pension Plan

Notes to Financial Statements

cost approach are used to measure fair value. The Master Trust follows a three-tiered fair value hierarchy when determining the inputs to valuation techniques. The fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels in order to maximize the use of observable inputs and minimize the use of unobservable inputs. The levels of the fair value hierarchy are as follows:

Level 1 - This level consists of inputs that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - This level consists of quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - This level consists of assets or liabilities whose significant value drivers are unobservable.

The following is a description of the valuation methodologies for the Master Trust assets measured at fair value:

Registered Investment Companies (mutual funds) - Mutual funds are valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Master Trust at year-end. Mutual funds are redeemable daily, and exchange-traded mutual funds may be traded at any time on the exchange that they primarily trade. There are no restrictions on redemptions. However, a fee may be charged if the Master Trust only holds the security for a short period of time. Mutual funds are classified as Level 1 investments.

Common/Collective Trust Funds (excluding funds of funds) - Common/collective trust funds are valued at the NAV as determined by the respective collective trust fund as of the valuation date, which approximates fair value. A daily NAV is available from the issuer. Common/collective trust funds are generally classified as Level 1 investments. Some common/collective trust funds are recorded using NAV as a practical expedient for fair value and are not assigned a fair value hierarchy level.

Separately Managed Accounts - Separately managed accounts are comprised of investments in mutual funds and fixed-income securities. These accounts are valued at fair value based on the fair market value of the underlying investments and are classified as either Level 1 or Level 2 based on the underlying investments. The accounts hold a small amount of cash equivalents, which are valued on a per-unit market value basis as determined by the issuer.

Fund of Funds, Private Equity Funds, Hedge Funds, and Partnership/Joint Venture Interests - Fund of funds, private equity funds, hedge funds, and partnership/joint venture interests are valued at NAV, which is calculated by the fund manager and is based on the valuation of the underlying investments, which include inputs such as cost, operating results, discounted future cash flows, and market-based comparable data. As the funds are recorded using NAV as a practical expedient for fair value, they are not assigned a fair value hierarchy level.

Investment Contracts with Insurance Companies - Investment contracts with insurance companies are valued at fair value based on the fair market value of the underlying investments of short-term

Advance Pension Plan

Notes to Financial Statements

securities and fixed-income securities as of the valuation date. As the funds are recorded using NAV as a practical expedient for fair value, they are not assigned a fair value hierarchy level.

There were no changes in methodologies used at December 31, 2024 and 2023.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's investment assets measured at fair value on a recurring basis:

8. Risks and Uncertainties

The Plan, through the Master Trust, invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur (including in the near term) and that

Advance Pension Plan

Notes to Financial Statements

such changes could materially affect amounts reported in the statements of net assets available for benefits.

The Plan, through the Master Trust, invests indirectly in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Party-in-Interest Transactions

Certain Plan investments are managed by JPMorgan Chase Bank, N.A., which is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services are included in administrative expenses, as shown in the statements of changes in net assets available for benefits.

10. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan Sponsor by a favorable determination letter dated August 9, 2017 that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. In the opinion of the Plan administrator, the Plan and its underlying trust are designed and have operated in compliance with the applicable provisions of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of the termination of the Plan, the Plan document provides that the net assets shall be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA, which is generally as follows:

- (a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit

Advance Pension Plan

Notes to Financial Statements

that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.

- (b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency), up to applicable limitations (described below).
- (c) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefits protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2024, that ceiling, which is adjusted periodically, is \$7,108 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single life annuity and are 65 years old at the time of retirement or Plan termination (whichever occurs later). For younger or older annuitants or for those who elect to receive their benefits in some form more valuable than a single life annuity, the corresponding ceilings are actuarially adjusted.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and on the level of benefits guaranteed by the PBGC.

12. Subsequent Events

For the purposes of determining the effect of subsequent events on these financial statements, management has evaluated events subsequent to December 31, 2024 and through October 14, 2025, the date on which the financial statements were available to be issued and has determined no such subsequent events have occurred that would require adjustments or disclosures as stated herein.

Mortality sponsor elections		
• Healthy participants	Section 430(h)(3) prescribed separate generational annuitant and nonannuitant mortality tables for the 2024 plan year funding valuations, in accordance with IRS regulation 1.430(h)(3)-1. These tables are based on the Society of Actuaries Pri-2012 mortality tables projected with mortality improvement using adjusted scale MP-2021 which limits annual improvement to 0% for 2020-2023 and 0.78% thereafter.	
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.	
Other economic assumptions		
• Expected investment return	5.69% per year for 2022 (limited to third segment rate of 8.00%) 7.04% per year for 2023 (limited to third segment rate of 8.00%) 6.81% per year for 2024 (limited to third segment rate of 8.00%)	
• Expenses	\$11,240,000 added to current year normal cost	

Rationale for economic assumptions

- Expected investment return – The expected investment return is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's January 2024 Capital Markets Outlook for the plan's current asset mix. The expected return on asset assumption is net of an adjustment of 5 basis points for investment and trading expenses assumed to be paid from plan assets.
- Expenses – Assumed plan-paid expenses are based on estimated 2024 actuarial fees and PBGC premiums.

Rationale for demographic assumptions

- **Mortality** – Prescribed assumption and based on plan sponsor's PPA election.
- **Withdrawal** – The withdrawal rates are based on an experience study undertaken in 2020 using data from 2014 through 2018.
- **Disability incidence** – The disability incidence is based on the 1985 Pension Disability Study which was based primarily upon Social Security experience and is broken down into four classes based upon occupation. Class 1 is described as "professional, administrative, supervisory sales, and clerical" which best describes the plan's workforce.
- **Retirement age** – The retirement rates are based on an experience study undertaken in 2020 using data from 2014 through 2018.
- **Benefit commencement age** – The benefit commencement age assumption is based on an experience study undertaken in 2020 using data from 2014 through 2018.
- **Form of payment** – The form of payments assumption is based on an experience study undertaken in 2020 using data from 2014 through 2018.

Actuarial methods**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as required by IRC Section 430.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan has insurance contracts. Benefits and assets connected to insurance contracts are included in the valuation data.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum funding methods**

Effective December 16, 2020, minimum funding methods for the Advance Pension Plan for plan years beginning on or after January 1, 2019 reflect the alternative minimum funding standards under Code Section 430(m) applicable to eligible community newspapers plans.

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided under the plan's amended and restated plan document, which was adopted on December 15, 2016, effective as of January 1, 2016 (or such other effective date specified in the plan document restatement), are included in this valuation.

- **Most recent plan amendments included:**
 - Amendment to the Plan, effective January 1, 2024, increasing automatic small benefit cashouts to \$7,000.
- **Plan amendments excluded:** None.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **Advance Pension Plan history and effective date:** Effective as of December 31, 1997, Advance Publications, Inc. merged all qualified defined benefit pension plans maintained by employers within the controlled group for non-union eligible employees (the "Prior Plans") into the Advance Publications, Inc. Circulation Department Pension Plan. Effective as of January 1, 1998, the merged plan was renamed the Advance Pension Plan.
- **Participating Employers and Eligible Employees:** The participating employers are listed in the attached benefit provisions. Employees eligible to participate in the plan are common-law employees of the employers, excluding:
 - Leased employees.
 - Employees covered by a collective bargaining agreement which does not provide for participation in the plan.
 - Individuals engaged in any aspect of distribution of newspapers or magazines unless they are compensated on an hourly or salaried basis. In no event is compensation substantially based upon (i) the difference between the wholesale and retail rate of the newspaper and magazine,

Schedule SB, Part V — Summary of Plan Provisions

- (ii) the number of copies or items delivered, (iii) the number of delivery locations served, or (iv) a flat payment to be considered as compensation based on an hourly or salaried basis.
- Individuals engaged in any aspect of the preparation of written or photographic material submitted for publication in a newspaper or magazine unless they are compensated on an hourly or salaried basis. In no event is compensation substantially based upon (i) a per article or per photograph fee, (ii) the number of words written, (iii) the number of photographs, slides, negatives or rolls of film submitted, or (iv) a flat payment to be considered as compensation based on an hourly or salaried basis.
- Individuals who are a signatory to, or engaged by a company or other entity that is a signatory to, a contract, letter agreement or other document that acknowledges his or her status as an independent contractor not entitled to benefits under the plan or were not otherwise classified by the employer as a common law employee and with respect to whom the employer does not withhold income taxes and file Form W-2 with the Internal Revenue Service and does not remit social security program to the Federal government.
- **Plan Year:** The plan year is the calendar year.
- **Type of Plan:** The plan is a Defined Benefit Pension Plan.
- **Administration:** The plan is administered by the Advance Local Media LLC Retiree Service Center, a division of Advance Local Media LLC.
- **Employer Contributions:** The employer contributes in such amounts and at such times to be consistent with plan objectives and government regulations.
- **Participant Contributions:** Currently contributions from participants are neither required nor permitted, although participant contributions have been required in the past for some participants under the Prior Plans.
- **Maximums on Benefits and Pay:** All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limit automatically as such changes become effective. In determining benefit accruals for plan years beginning after December 31, 2001, the compensation limit for years before January 1, 2002 is \$150,000 for 1996 or earlier; \$160,000 for 1997, 1998 and 1999; and \$170,000 for 2000 and 2001. The \$200,000 limit as indexed applies to years beginning in 2002 or later.
- **Benefits:** The benefit provisions for the eligible employees of each participating employer in the plan follow.
- **Actuarial equivalence:** Unless noted otherwise, Code Sec. 417(e) mortality table and an interest rate of 7.50%. For any lump sum distribution, actuarial equivalence is determined using the Code Sec. 417(e) mortality table and applicable Sec. 417(e) interest rate.
- **Frozen Accruals:** The plan was frozen as to all future benefit accruals as of July 1, 2010, or earlier for certain Appendices as set forth below.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions****Advanced Publications, Inc. and Advance News Service, Inc.**

Status of the plan	The plan was frozen effective May 15, 2009. There will be no future benefit accruals or new participants after May 15, 2009. Participants shall continue to earn vesting service.
Significant events that occurred during the year	None.
Definitions	
• Employees included	Advance Publications, Inc. and Advance News Service, Inc.
• Participation	Employees become participants on the later of attaining the age of 18 or completing one year of service. Participation begins on the earlier of the first day of the first plan year after the employee has satisfied participation requirements or the date six months after the participation requirements have been met.
• Vesting service	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 2,080 service hours as a participant, provided that any participant who accrues less than 2,080 service hours but at least 1,000 service hours during the plan year shall receive a pro rata service credit for that plan year, and any participant who accrues less than 1,000 service hours in the plan year in which his participation commences or the plan year in which he terminates employment, shall receive a pro rata credit for those plan years.
• Pensionable earnings	Earnings considered are the participant's straight-time wages including sales commissions, bonuses, and auto fringe benefits, but excluding overtime, other forms of taxable fringe benefits, and other remuneration. However, unless the plan's actuary determines the following reduction to be unnecessary, the monthly compensation for the associate publisher, editor, advertising director, production superintendent and controller shall not be any greater than his or her total compensation multiplied by the percentage of the average that compensation bears to total compensation for all other participants employed by the employer.
• Accrued benefit	A participant's accrued pension payable at normal retirement date and determined as of any given date as an amount, under the life only form is equal to the sum of A and the larger of B or C, subject to the minimum provisions of D as follows: A. The result obtained by multiplying service credits by 1% of the first \$550 plus 1-½% of the excess over \$550 of a participant's average monthly compensation (AMC). AMC is one-twelfth the sum of the compensation received by the participant from January 1, 1993 (or date of participation, if later) to the given date excluding years in which the participant completes 12 months of employment but less than 1,000 service hours, divided by the service credits earned during that period.

Schedule SB, Part V — Summary of Plan Provisions

- B. \$3.00 multiplied by the number of years of service credits earned from January 1, 1993 (or date of participation, if later) to such given date.
- C. 1/10th of 1% of the participant's AMC multiplied by the number of years of service credits earned from January 1, 1993 to such given date.
- D. The accrued pension at any given date with respect to a participant who will have at least 20 years of service credits at his normal or late retirement date shall not be less than the greater of \$100 or the product of 33-⅓% of the participant's AMC at normal retirement date (such average compensation to be used for the years subsequent to the given date shall be the average of the monthly compensation of the participant for the 10 year period prior to the given date) with such product reduced by \$45.00; with the applicable amount so determined multiplied by a fraction having a numerator equal to the participant's service credits on the given date and a denominator equal to the sum of his service credits on the given date plus the years and a fraction from the given date to his normal or late retirement date. However, if the participant is for any year a Highly-Compensated Employee, this minimum benefit shall not be applicable after December 31, 1992.

Normal retirement

- **Eligibility** A participant's normal retirement date is the date he attains age 65 and completes five years of vesting service; this date is no later than age 65 and the fifth anniversary of his participation in the plan. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
- **Benefit** A participant's normal retirement benefit is equal to his accrued pension determined as of his normal retirement date.

Early retirement

- **Eligibility** As of November 1, 2008, a participant is eligible for early retirement upon attaining age 55 with 10 years of vesting service. For a participant whose severance date occurs prior to November 1, 2008, there is no early retirement pension.
- **Benefit** The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced to the actuarial equivalent of the benefit beginning at normal retirement date.

Late retirement

- **Eligibility** A participant who retires after his or her normal retirement date.
- **Benefit** Any participant may defer retirement beyond his normal retirement date. A participant's late retirement benefit is equal to his accrued pension determined as of his late retirement date.

Schedule SB, Part V — Summary of Plan Provisions

Deferred vested	
• Eligibility	Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service or the attainment of age 65.
• Benefit	A participant shall be entitled to a deferred vested benefit. Such benefit shall be his accrued pension payable at his normal retirement date.
Pre-retirement death	
• Eligibility	A death benefit is payable to the eligible spouse of either a vested active participant who dies or a participant who has terminated with a deferred vested benefit who dies before benefit payments commence.
• Benefit	The benefit, payable at what would have been the participant's normal retirement date, is equal to 50% of the participant's accrued benefit at the date of his death reduced for 50% Joint and Survivor coverage. However, a participant with 10 years of vesting service dies after attaining age 55, the benefit is payable immediately with no reduction for early commencement.
Form of benefits	
• Automatic form for unmarried participants	Single-Life Annuity
• Automatic form for married participants	Qualified Joint and 50% Survivor Annuity
• Optional forms	• Single-Life Annuity for married participants • Qualified Joint and 75% Survivor Annuity for married participants • Lump Sum
• Optional form conversion factors	Actuarial equivalence.
Miscellaneous	
• Maximum compensation	Not applicable.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415 in effect when plan benefits were frozen.

• Participation	Salaried employees become eligible to participate on the January 1 or July 1 coincident with or next following the attainment of age 18 and the completion of one year of service (1,000 service hours in a 12-month period).
• Vesting service	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he is a participant and completes at least 1,000 service hours. Further, in the year in which an employee terminates his employment, he shall receive one-half year of credited service if employment terminated prior to July 1, and one full year of credited service if employment terminated after June 30. An employee will receive one-half year of credited service if initial participation commences on July 1 and he completes at least 1,000 service hours. A Paul Scherer Employee shall be entitled to receive service credited prior to the date he or she becomes an eligible Employee.
• Pensionable earnings	Earnings considered are the participant's calendar year W-2 earnings excluding taxable fringe benefits.
• Final average earnings	Average monthly compensation is obtained by dividing by 60 the total compensation of a participant during the five consecutive calendar years in which compensation was the highest within the last 10 completed calendar years.
• Covered compensation	The Covered Compensation Amount is one-twelfth (1/12) of the average of the Social Security Taxable Wage Bases for the 35-year period ending with the year in which you would reach Social Security Retirement Age.
• Accrued benefit	A participant's accrued pension payable at normal retirement date and determined as of any given date is equal to his normal retirement pension based on the participant's average monthly compensation to date and his service credits at his normal retirement date, to a maximum of 35. Such pension amount is to be multiplied by a fraction, the numerator of which is the participant's service credits to date (without 35-year limit) and the denominator of which is his total service credits at his normal retirement date (without 35-year limit).
Normal retirement	
• Eligibility	A participant's normal retirement date is the date he attains age 65 and completes five years of vesting service; this date is no later than age 65 and

	the fifth anniversary of his participation in the plan. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
• Benefit	A participant's normal retirement benefit is the single life pension equal to the sum of A and B, multiplied by C as follows: • is 31.5% of the participant's average monthly compensation up to covered compensation. • is 52.5% of the participant's average monthly compensation in excess of covered compensation. • is a fraction the numerator of which is service credits at normal retirement date not in excess of 35 and the denominator of which is 35. The accrued benefit is reduced by the vested benefit under Paul Scherer & Company LLP Pension Plan, if any.
Early retirement	
• Eligibility	A participant is eligible for early retirement upon attaining age 55 with five years of vesting service.
• Benefit	The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced by $\frac{1}{2}$ of 1% for each month commencement precedes his normal retirement date.
Late retirement	
• Eligibility	Any participant may defer retirement beyond his normal retirement date. A participant's late retirement benefit is equal to his accrued pension determined as of his late retirement date.
• Benefit	For those over age 60 at January 1, 1989, this benefit shall not be less than the formula amount frozen at normal retirement date; but increased by stated percentages each year after age 65 to reflect deferred payment. Percentages are 12% per year from 65 to 69; 15% per year from 69 to 72; and 20% per year thereafter.
Deferred vested	
• Eligibility	Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
• Benefit	Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated participant requests commencement of his accrued pension as of any month within the 10 year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced by $\frac{9}{12}$ of 1% for each partial or complete month (not to exceed 36 months) by which payments begin before normal retirement date, plus $\frac{6}{12}$ of 1% for each partial or complete month (not to exceed 48 months) by which payments begin before age 62, plus $\frac{4}{12}$ of 1% for each partial or complete month (not to exceed 36 months) by which payments begin before age 58.

- iii. 1/10th of 1% of the participant's average monthly compensation (1/12th of straight-time wages, including year-end bonuses and severance pay, but excluding overtime, taxable fringe benefits and other remuneration) paid to the participant from January 1, 1993 to the given date multiplied by the number of years of service credits earned from January 1, 1993 to such given date.
- iv. The accrued pension at any given date with respect to a participant who will have at least 20 years of service credits at his normal or late retirement date shall not be less than the greater of \$100 or the product of 33-1/3% of the participant's average monthly compensation (1/12th of straight-time wages, including year-end bonuses and severance pay, but excluding overtime, taxable fringe benefits and other remuneration) from January 1, 1993 to his normal (or late) retirement date (such average compensation to be used for the years subsequent to the given date shall be the average of the monthly compensation of the participant for the ten year period prior to the given date) with such product reduced by \$45.00; with the applicable amount so determined multiplied by a fraction having a numerator equal to the participant's service credits on the given date and a denominator equal to the sum of his service credits on the given date plus the years and a fraction from the given date to his normal (or late) retirement date. However, if the participant is for any year a Highly-Compensated Employee, this minimum benefit shall not be applicable after December 31, 1992.

Notwithstanding the foregoing, a participant who is an Employee on December 31, 1993 and who has earned a benefit in any year prior to 1994 on pay in excess of \$150,000, will have his benefit based upon the greater of (a) and (b) as follows:

- a. the participant's accrued benefit as of December 31, 1993 using the \$200,000 compensation limit as described in Section 2.1(h) of the Plan, as indexed, plus the participant's accrued benefit attributable to plan years after December 31, 1993 using the \$150,000 compensation limit described in Section 2.1(h) of the Plan, as indexed.
- b. the participant's accrued benefit based on all service using the \$150,000 compensation limit described in Section 2.1(h) of the Plan, as indexed.

The amount of a participant's accrued benefit shall be determined as of the freeze date, May 15, 2009.

Schedule SB, Part V — Summary of Plan Provisions

	pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
• Benefit	A participant's normal retirement benefit, payable as a 50% Surviving Spouse annuity unless he elects otherwise, is the actuarial equivalent of the single life form of his accrued pension.
Early retirement	
• Eligibility	A participant is eligible for an early retirement benefit upon attaining age 62 with ten years of service.
• Benefit	The benefit, payable at the participant's normal retirement date, is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced to the actuarial equivalent of the benefit beginning at normal retirement.
Late retirement	
• Eligibility	Any participant may defer retirement beyond his normal retirement date.
• Benefit	A participant's late retirement benefit, payable as a 50% Surviving Spouse annuity unless he elects otherwise, is equal to his accrued pension determined as of his late retirement date.
Deferred vested	
• Eligibility	Upon termination of employment for a reason other than death and following the completion of at least five years of service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
• Benefit	Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated with at least 10 years of service requests commencement of his accrued pension as of any month within the 3-year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced to its actuarial equivalent.
Death	
• Eligibility	A death benefit is payable to the eligible spouse of either a vested active participant who dies or a participant who has terminated with a deferred vested benefit who dies before benefit payments commence.
• Benefit	The benefit, payable at what would have been the earliest date the participant could have begun receiving benefits from the plan, is equal to 50% of the participant's accrued benefit at the date of his death reduced for 50% Surviving Spouse coverage and early payment, if applicable.
Form of benefits	
• Automatic form for unmarried participants	Single-Life Annuity
• Automatic form for married participants	Qualified Joint and 50% Survivor Annuity
• Optional forms	• Single-Life Annuity for married participants • Qualified Joint and 75% Survivor Annuity for married participants • Lump Sum

• Employees included	The following sub-divisions of the Herald Publishing Company, LLC: Ann Arbor News, Bay City Times, Booth Corporate, Michigan Business Review, Flint Journal, Grand Rapids Press, Jackson Citizen Patriot, Kalamazoo Gazette, Muskegon Chronicle, Saginaw News and Valley Publishing.
• Participation	Employees become eligible to participate on the date of attainment of age 18 and the completion of one year of service (1,000 service hours in a 12-month period).
• Vesting service	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 1,000 service hours. Employees receive service credit retroactively to date of hire when they become a plan participant. Any participant who accrues less than 1,000 service hours in the plan year in which he terminates employment, receives a pro rata service credit for that year. In addition, effective January 1, 1987, hourly employees receive prior service credit back to January 1, 1982 (at the earliest), for consecutive calendar years in which they accrued 1,000 hours of service.
• Pensionable earnings	For salaried employees, compensation is straight-time wages including sales commissions and bonuses, but excluding 53rd week of pay, overtime, taxable fringe benefits and travel bonuses. For hourly employees, compensation is straight-time wages including overtime, shift differential, commissions and part-time premiums.
• Average monthly earnings	One twelfth (1/12) of the sum of compensation earned for the period beginning as of the later of January 1, 1993, or the date the employee becomes an eligible employee and ending at termination or retirement date, divided by the years of credit earned during that period. Average monthly compensation shall be determined in accordance with the following: A. Compensation for any plan year during such period in which the eligible employee completes less than 1,000 service hours shall not be considered in determining his or her average monthly compensation. B. If the eligible employee completes at least 1,000 service hours in his or her or her year of hire or year of termination then the years of credits used in the divisor for such year shall be equal to the number of days worked by such employee in such year over 365.25.

Schedule SB, Part V — Summary of Plan Provisions

	C. The number of days worked in (B) above shall include days paid for accrued vacation time.
• Accrued benefit	A participant's accrued pension payable at normal retirement date and determined at any given date as an amount, under the life only form is equal to the sum of A and the larger of B and C, subject to the minimum provisions of D as follows: A. The result obtained by multiplying service credits by 1.17% of the first \$833.33 plus 1-½% of the excess over \$833.33 of the participant's average monthly compensation (AMC). AMC is one-twelfth of the sum of compensation received by the participant from January 1, 1993 (or date of hire, if later), to the given date, excluding years in which the employee completes less than 1,000 service hours, divided by the service credits earned during that period. B. \$3.00 multiplied by number of years of service credits earned from January 1, 1993 (or date of hire, if later) to such given date. C. 1/10 of 1% of the participant's AMC multiplied by the number of years of service credits earned from January 1, 1993 to such given date. D. The accrued pension at any given date with respect to a participant who has at least 20 years of service credits shall not be less than the greater of \$8.00 multiplied by all years of service credit, or the product of 33-⅓% of the participant's AMC less \$45.00 (if the participant has never been a Highly Compensated Employee after December 31, 1992).
Normal retirement	
• Eligibility	A participant's normal retirement date is the date he attains age 65 and completes five years of vesting service; this date is no later than age 65 and the fifth anniversary of his participation in the plan. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
• Benefit	The participant's normal retirement benefit is equal to his accrued pension determined as of his normal retirement date.
Early retirement	
• Eligibility	A participant is eligible for an early retirement benefit upon attainment of age 55 and completion of 10 years of vesting service.
• Benefit	The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced by ⅓ of 1% for each month commencement precedes the first day of the month following age 62.
Late retirement	
• Eligibility	Any participant may defer retirement beyond his normal retirement date.
• Benefit	A participant's late retirement benefit is equal to his accrued pension determined as of his late retirement date.
Deferred vested	
• Eligibility	Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service or the attainment of age 60, a participant shall be entitled to a deferred vested benefit.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated participant with at least 10 years of vesting service requests commencement of his accrued pension as of any month within the 10-year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced by 1/3 of 1% for each month commencement precedes the first day of the month following age 62.
Pre-retirement death	
• Eligibility	A death benefit is payable to the eligible spouse of a vested active employee who dies or who has terminated with a deferred vested benefit who dies before payments commence.
• Benefit	The benefit is payable at what would have been the earliest date the participant could have begun receiving benefits from the plan and is equal to 50% of the participant's accrued benefit at the date of his death reduced for 50% Joint and Survivor coverage and early payment if applicable.
Form of benefits

Schedule SB, Part V — Summary of Plan Provisions**Deferred vested**

• Eligibility	Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit. Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
• Benefit	Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated participant with at least 10 years of vesting service requests commencement of his accrued pension as of any month within the 10-year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced to its actuarial equivalent. A participant entitled to a deferred vested benefit whose present value does not exceed \$7,500 is entitled to elect to receive such value in a lump sum payment as soon as practicable following termination of employment. Such a participant must waive his rights to the immediate single life pension, if single, or the qualified joint and survivor annuity, if married.

Pre-retirement death

• Eligibility	A death benefit is payable to the eligible spouse (or children, if there is no eligible spouse) of either a vested active participant who dies or a participant who has terminated with a deferred vested benefit who dies before benefit payments commence. Payments can begin as early as the first day of the month following death.
• Benefit	Payments can begin as early as the first day of the month following death. The amount of the benefit is equal to 50% of the participant's accrued benefit at the date of his death reduced for 50% Joint and Survivor coverage and early payment, if applicable. The children's benefit must begin immediately

• Employees included	Newspaper Support Services, Inc., API Network LLC and Religion News Service LLC
• Participation	Salaried employees become eligible to participate on the January 1 or July 1 coincident with or next following the attainment of age 18 and the completion of one year of service (1,000 service hours in a 12-month period).
• Vesting service	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he is a participant and completes at least 1,000 service hours. Further, in the year in which an employee terminates his employment, he shall receive one-half year of credited service if employment terminated prior to July 1, and one full year of credited service if employment terminated after June 30. An employee will receive one-half year of credited service if initial participation commences on July 1 and he completes at least 1,000 service hours.
• Pensionable earnings	Earnings considered are the participant's calendar year W-2 earnings excluding taxable fringe benefits.
• Final average earnings	Average monthly compensation is obtained by dividing by 60 the total compensation of a participant during the five consecutive calendar years in which compensation was the highest within the last 10 completed calendar years.
• Covered compensation	The average of the taxable wage bases in effect for each calendar year during the 35-year period ending with the last day of the calendar year in which the Participant attains Social Security Retirement Age.
• Accrued benefit	A participant's accrued pension payable at normal retirement date and determined as of any given date is equal to his normal retirement pension based on the participant's average monthly compensation to date and his service credits at his normal retirement date, to a maximum of 35. Such pension amount is to be multiplied by a fraction, the numerator of which is the participant's service credits to date (without 35-year limit) and the denominator of which is his total service credits at his normal retirement date (without 35-year limit).

Schedule SB, Part V — Summary of Plan Provisions**Normal retirement**

• Eligibility	A participant's normal retirement date is the date he attains age 65 and completes five years of vesting service; this date is no later than age 65 and the fifth anniversary of his participation in the plan. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
• Benefit	A participant's normal retirement benefit is the single life pension equal to the sum of A and B, multiplied by C as follows: A. is 31.5% of the participant's average monthly compensation up to covered compensation. B. is 52.5% of the participant's average monthly compensation in excess of covered compensation. C. is a fraction the numerator of which is service credits at normal retirement date not in excess of 35 and the denominator of which is 35.

Early retirement

• Eligibility	A participant is eligible for early retirement upon attaining age 55 with five years of vesting service.
• Benefit	The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced by $\frac{1}{2}$ of 1% for each month commencement precedes his normal retirement date.

Late retirement

• Eligibility	Any participant may defer retirement beyond his normal retirement date.
• Benefit	A participant's late retirement benefit is equal to his accrued pension determined as of his late retirement date.

Deferred vested

• Eligibility	Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
• Benefit	Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated participant requests commencement of his accrued pension as of any month within the 10-year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced by $\frac{9}{12}$ of 1% for each partial or complete month (not to exceed 36 months) by which payments begin before normal retirement date, plus $\frac{6}{12}$ of 1% for each partial or complete month (not to exceed 48 months) by which payments begin before age 62, plus $\frac{4}{12}$ of 1% for each partial or complete month (not to exceed 36 months) by which payments begin before age 58.

Pre-retirement death

• Eligibility	A death benefit is payable to the eligible spouse of either a vested active employee who dies or a participant who has terminated with a deferred vested benefit who dies before payments commence.
• Benefit	The benefit, payable at what would have been the earliest date the participant could have begun receiving benefits from the plan, is equal to

• Participation	Employees become participants on the later of attaining the age of 18 or completing one year of service (1,000 service hours in a 12-month period). Participation begins on the earlier of the first day of the first plan year after the employee has satisfied participation requirements or the date six months after the participation requirements have been met.
• Vesting service	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 1,950 service hours as a participant, provided that any participant who accrues less than 1,950 service hours but at least 1,000 service hours during the plan year shall receive a pro rata service credit for that plan year, and any participant who accrues less than 1,000 service hours in the plan year in which his participation commences or the plan year in which he terminates employment, shall receive a pro rata credit for those plan years.
• Pensionable earnings	Earnings considered are the participant's straight-time wages including advertising sales bonuses and other bonuses, but excluding overtime and taxable fringe benefits.
• Final average earnings	Average monthly compensation is obtained by dividing by 60 the total compensation of a participant during the five consecutive calendar years in which compensation was the highest within the last 10 completed calendar years. No calendar year shall be disregarded.
• Accrued benefit	A participant's accrued pension payable at normal retirement date and determined as of any given date as an amount, under the life only form is equal to the sum of A and the larger of B or C, subject to the minimum provisions of D as follows: A. The result obtained by multiplying service credits by 1% of the first \$550 plus 1-½% of the excess over \$550 of a participant's average monthly compensation (AMC). AMC is one-twelfth of the sum of the compensation received by the participant from January 1, 1993 (or date of participation, if later) to the given date, excluding years in which the participant completes 12-months of employment but less than 1,000 service hours, divided by the service credits earned during that period. B. \$3.00 multiplied by the number of years of service credits earned from January 1, 1993 (or date of participation, if later) to given date.

Schedule SB, Part V — Summary of Plan Provisions

-
- C. 1/10th of 1% of the participant's AMC multiplied by the number of years of service credits earned from January 1, 1993 to such given date.
- D. The accrued pension at any given date with respect to a participant who will have at least 20 years of service credits at his normal or late retirement date shall not be less than the greater of \$100 or the product of 33- $\frac{1}{3}$ % of the participant's AMC at normal retirement date (such average compensation to be used for the years subsequent to the given date shall be the average of the monthly compensation of the participant for the 10 year period prior to the given date) with such product reduced by \$45.00; with the applicable amount so determined multiplied by a fraction having a numerator equal to the participant's service credits on the given date and a denominator equal to the sum of his service credits on the given date plus the years and a fraction from the given date to his normal or late retirement date. However, if the participant is for any year a Highly-Compensated Employee, this minimum benefit shall not be applicable after December 31, 1992.
-

Normal retirement

-
- Eligibility A participant's normal retirement date is the date he attains age 65 and completes five years of vesting service; this date is no later than age 65 and the fifth anniversary of his participation in the plan. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
-
- Benefit A participant's normal retirement benefit is equal to his accrued pension determined at normal retirement date.
-

Early retirement

-
- Eligibility A participant is eligible for early retirement upon attaining age 55 with 20 years of vesting service.
-
- Benefit The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced to the actuarial equivalent of the benefit beginning at normal retirement date. A participant is eligible for a special early retirement benefit upon attaining age 62 with 30 years of vesting service in which case payments will be reduced by 5/9 of 1% for each month commencement of benefits precedes normal retirement date.
-

Late retirement

-
- Eligibility Any participant may defer retirement beyond his normal retirement date.
-
- Benefit A participant's late retirement benefit is equal to his accrued pension determined as of his late retirement date.
-

Deferred vested

-
- Eligibility Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
-
- Benefit Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated participant with at least 20 years of service requests commencement of his accrued pension as of any month
-

Schedule SB, Part V — Summary of Plan Provisions

	within the 10 year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced to its actuarial equivalent.
Pre-retirement death	
• Eligibility	A death benefit is payable to the eligible spouse of either a vested active employee who dies, or a participant who has terminated with a deferred vested benefit who dies before payments commence.
• Benefit	The benefit, payable at what would have been the earliest date the participant could have begun receiving benefits from the plan, is equal to 50% of the participant's accrued benefit at the date of his death reduced for 50% Joint and Survivor coverage and early payment, if applicable. In the case of an active participant (including a participant who dies while on authorized leave for disability) who dies after completing 20 years of vesting service, the benefit is payable immediately and will not be reduced to reflect early payment. If the participant dies before age 55 after completing 20 years of vesting service, the benefit is payable immediately, however, the reduction for 50% Joint and Survivor coverage will be as if the participant were age 55 at date of death. In the case of a participant who dies after the occurrence of his or her severance date and who had attained age 62 and completed 30 years of vesting service, the benefit is payable immediately and will be reduced 5/9 of 1% for each month commencement precedes normal retirement date.

• Participation	Salaried employees in the Business Office of the employer who complete 1,000 service hours in a calendar year become eligible to participate on the January 1 or July 1 coincident with or next following the later of attainment of age 18 or date of hire.
• Vesting service	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 2,080 service hours as a participant, provided that any participant who accrues less than 2,080 service hours but at least 1,000 service hours during the plan year shall receive a pro rata service credit for that plan year, and any participant who accrues less than 1,000 service hours in the plan year in which his participation commences or the plan year in which he terminates employment, shall receive a pro rata credit for those plan years.
• Pensionable earnings	Earnings considered are the participant's straight-time wages, excluding overtime, sales commissions, bonuses, taxable fringe benefits, auto reimbursements/vouchers and payment work.
• Final average earnings	Average monthly compensation is obtained by dividing by 60 the total compensation of a participant during the 60 calendar months in which compensation was the highest within the last 120 completed calendar months. For any calendar year in which the participant is both employed for the full 12 months and completes less than 2,080 service hours, compensation is annualized.
• Accrued benefit	A participant's accrued pension payable at normal retirement date and determined as of any given date is equal to his normal retirement pension based on the participant's average monthly compensation to date and his service credits at the given date.
Normal retirement	
• Eligibility	A participant's normal retirement date is the date he attains age 65 and completes five years of vesting service; this date is no later than age 65 and the fifth anniversary of his participation in the plan. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
• Benefit	A participant's normal retirement benefit is the five-year certain and life pension equal to the greater of A or B or C, as applicable:

Schedule SB, Part V — Summary of Plan Provisions

- A. 1.425% times average monthly compensation times years of service credits, up to 35.
- B. \$8.00 times years of service credits (maximum 35) for a participant with at least 10 years of service credits at retirement, but not greater than 50% of the participant's average monthly compensation.
- C. For participants with 35 or more years of service credits, the greater of B or 45% of average monthly compensation (to a maximum benefit of \$450).

Early retirement

- **Eligibility** A participant is eligible for early retirement upon attaining age 55 with five years of vesting service.
- **Benefit** The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, for participants who retire or terminate on or after January 1, 2000, the benefit is reduced 0.1% per month from age 62 to 65 and 0.4% per month from age 55 to 62 of the benefit beginning at normal retirement date.

Late retirement

- **Eligibility** Any participant may defer retirement beyond his normal retirement date.
- **Benefit** A participant's late retirement benefit is equal to his accrued pension determined as of his late retirement date.

Deferred vested

- **Eligibility** Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
- **Benefit** Such benefit shall be his accrued pension payable at his normal retirement date.

Disability

- **Eligibility** A participant is eligible for a disability benefit at any age prior to 65 with 10 years of vesting service and satisfactory medical evidence.
- **Benefit** The benefit is payable immediately without reduction for early commencement and is equal to his accrued pension.

Pre-retirement death

- **Eligibility** A death benefit is payable to the eligible spouse of either a vested active employee who dies or a participant who has terminated with a deferred vested benefit who dies before payments commence.
- **Benefit** The benefit, payable at what would have been the earliest date the participant could have begun receiving benefits from the plan, is equal to 50% of the participant's accrued benefit at the date of his death reduced for 50% Joint and Survivor coverage and early payment, if applicable.
The plan provides a lump sum death benefit for the participant's beneficiary equal to one times the participant's annual rate of base pay, if the participant dies while actively employed. The lump sum benefit cannot exceed the present value of the accrued benefit. The plan provides for coordination of

of 33-⅓% of the participant's AMC at normal retirement date (such average compensation to be used for the years subsequent to the given date shall be the average of the monthly compensation of the participant for the 10 year period prior to the given date) with such product reduced by \$45.00; with the applicable amount so determined multiplied by a fraction having a numerator equal to the participant's service credits on the given date and a denominator equal to the sum of his service credits on the given date plus the years and a fraction from the given date to his normal or late retirement date. However, if the participant is for any year a Highly-Compensated Employee, this minimum benefit shall not be applicable after December 31, 1992.

Normal retirement

- **Eligibility** A participant's normal retirement date is the date he attains age 65 and completes five years of vesting service; this date is no later than age 65 and the fifth anniversary of his participation in the plan. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
- **Benefit** A participant's normal retirement benefit is equal to his accrued pension determined at normal retirement date.

Early retirement

- **Eligibility** A participant is eligible for early retirement upon attaining age 62 with 10 years of vesting service.
- **Benefit** The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced to the actuarial equivalent of the benefit beginning at normal retirement date; provided, however, for a participant who terminates employment after age 62 with 40 years of vesting service, there is no reduction for early commencement.

Late retirement

- **Eligibility** Any participant may defer retirement beyond his normal retirement date.
- **Benefit** A participant's late retirement benefit is equal to his accrued pension determined as of his late retirement date.

Deferred vested

- **Eligibility** Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
- **Benefit** Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated participant with at least 10 years of vesting service requests commencement of his accrued pension as of any month within the 3-year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced to its actuarial equivalent.

The entry date is retroactive to the January 1 following date of hire, if the employee completes 1,000 service hours in the first 12 months following date of hire. If 1,000 hours is not completed within the first 12 months, the employee will become a participant on the date in the first calendar year after the employee completes 1,000 service hours.
• Vesting service	All periods of service as an employee are considered as service for the plan year in which the employee completes 1,000 hours. For vesting purposes, any period prior to age 18 is not included.
• Credited service	A participant shall receive one service credit for each plan year in which he completes at least 1,000 service hours as a participant. In the year of termination, if the participant completes less than 1,000 service hours, then service is prorated by dividing days worked until termination by 365.
• Pensionable earnings	Earnings considered are the participant's W-2 earnings for a calendar year, excluding buyout payments, fringe benefit automobile allowances, group life imputed income and imputed loan interest.
• Final average earnings	Average monthly compensation is obtained by dividing by 60 the total compensation of a participant during the 60 consecutive calendar months in which compensation was the highest within the last 120 completed calendar months.
• Covered compensation	The average of the taxable wage bases in effect for each calendar year during the 35-year period ending with the last day of the calendar year in which the Participant attains Social Security Retirement Age.
• Accrued benefit	A participant's accrued pension payable at normal retirement date and determined as of any given date is equal to his normal retirement pension based on his final average compensation and covered compensation at the given date and service credits at his normal retirement date (determined by assuming the participant works continuously at full time from such given date to his normal retirement date). Such pension amount is to be multiplied by a fraction, the numerator of which is the participant's service credits to date (with 30-year limit) and the denominator of which is his total service credits at his normal retirement date (with 30-year limit).

Schedule SB, Part V — Summary of Plan Provisions**Normal retirement**

• Eligibility	A participant's normal retirement date is the date he attains age 65. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
• Benefit	A participant's normal retirement benefit is the single life pension equal to the sum of A, B, and C (where total of years of service credits in A, B, and C may not exceed 30 so that years in excess of 30 replace the earliest service credits), subject to the minimum provisions of D as follows: A. For each year of service credit accrued on and after January 1, 1989, 1.05% times average monthly compensation up to covered compensation plus 1.70% of any average monthly compensation in excess of covered compensation. B. For each year of service credit earned on and after January 1, 1977, and before January 1, 1989, 0.85% times average monthly compensation up to covered compensation plus 1.50% of any average monthly compensation in excess of covered compensation. C. For each year of service credit earned before January 1, 1977, 0.60% times average monthly compensation up to covered compensation plus 1.25% of any average monthly compensation in excess of covered compensation. D. The minimum benefit is \$10 times service credits, up to 30 years.

Early retirement

• Eligibility	A participant is eligible for early retirement who has reached age 55 and completed 10 years of vesting service, or after attainment of age 62.
• Benefit	The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the pension can commence anytime following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced to the actuarial equivalent of the benefit beginning at normal retirement date.

Late retirement

• Eligibility	Any participant may defer retirement beyond his normal retirement date.
• Benefit	A participant's late retirement benefit is equal to his accrued pension determined as of his late retirement date.

Deferred vested

• Eligibility	Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
• Benefit	For each year of service credit accrued on and after January 1, 1989, 1.05% times average monthly compensation up to covered compensation plus 1.70% of any average monthly compensation in excess of covered compensation.

Disability

• Eligibility	A participant is eligible for a disability benefit at any age prior to age 65 if Social Security disability payments are awarded. Benefits are payable at

	normal retirement date based on continued accruals of service credits while disabled and the rate of pay at disability.
• Benefit	A participant who qualifies for early retirement may commence benefits prior to normal retirement date, in which case accruals will stop at the commencement date and payments will be actuarially reduced.
Pre-retirement death	
• Eligibility	A death benefit is payable to the eligible spouse of either a vested active employee who dies or a participant who has terminated with a deferred vested benefit who dies before payments commence.
• Benefit	The benefit is equal to 50% of the participant's accrued benefit, payable at what would have been the participant's normal retirement date and commenced to receive a deferred vested pension, reduced for 50% Joint and Survivor coverage.
Form of benefits	
• Automatic form for unmarried participants	Single-Life Annuity
• Automatic form for married participants	Qualified Joint and 50% Survivor Annuity
• Optional forms	• Single-Life Annuity for married participants • Single-Life Annuity with 120 Months Guaranteed • Joint and 50%, 75%, or 100% Survivor Annuity • Lump Sum
• Optional form conversion factors	Actuarial equivalence.
Miscellaneous	
• Maximum compensation	Not applicable.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415 in effect when plan benefits were frozen.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions****The Times-Picayune, L.L.C.**

Status of the plan	The plan was frozen effective May 15, 2009. There will be no future benefit accruals or new participants after May 15, 2009. Participants shall continue to earn vesting service.
Significant events that occurred during the year	None.
Definitions	
• Employees included	The Times-Picayune, L.L.C.
• Participation	Salaried employees or employees classified as “occasionals” who have attained age 21 and have at least one year of service (1,000 service hours in a 12-month period) are eligible to participate. Participation starts on the first day of the plan year after eligibility requirements are met, but not later than six months after the requirements are met.
• Vesting service	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 1,950 service hours as a participant, provided that any participant who accrues less than 1,950 service hours but at least 1,000 service hours during the plan year shall receive a pro rata service credit for that plan year, and any participant who accrues less than 1,000 service hours in the plan year in which his participation commences or ends shall receive a pro rata credit for that plan year.
• Pensionable earnings	Earnings considered are the participant's straight-time wages including bonuses and commissions, but excluding overtime, and any other extra pay.
• Final average earnings	Average monthly compensation is obtained by dividing by 60 the total compensation of a participant during the 60 consecutive calendar months in which compensation was the highest within the last 120 completed calendar months. No calendar year shall be disregarded. For any calendar year in which the participant is both employed for the full 12 months and completes less than 1,950 service hours, compensation is annualized.
• Accrued benefit	A participant's accrued pension payable at normal retirement date and determined as of any given date is equal to his normal retirement pension based on his average monthly earnings to date and his service credits at his normal retirement date (determined by assuming the participant works continuously at full time from such given date to his normal retirement date). Such pension amount is to be multiplied by a fraction, the numerator of which is the participant's service credits to date and the denominator of which is his total service credits at his normal retirement date.
Normal retirement	
• Eligibility	A participant's normal retirement date is the date he attains age 65 or the fifth anniversary of his participation in the plan, if later. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	A participant's normal retirement benefit is equal to the sum of A, B, and C as follows: A. 1.02% of the participant's average monthly compensation multiplied by the participant's service credits not exceeding 35 years. B. 1.67% of the participant's average monthly compensation multiplied by the participant's service credits in excess of 35 years. C. 0.65% of the excess of the participant's average monthly compensation over the current monthly integration level multiplied by the participant's service credits not exceeding 35 years. The annual integration level for 1989 was \$16,968. The integration level increases each year in accordance with the published changes in the Nationwide Average Wage as computed by the Social Security Administration for the year preceding the increase. The benefit for the first 35 years of service credits is not less than 1.08% of the participant's average monthly compensation as of December 31, 1988 multiplied by the years of service credits not exceeding 35 years plus 1.67% of the participant's average monthly compensation as of December 31, 1988 multiplied by years of service credits in excess of 35 years.
Early retirement	
• Eligibility	A participant is eligible for early retirement upon attaining age 55 with 15 years of vesting service.
• Benefit	The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced by 1/15 per year for the first five years and 1/30 per year for the next five years prior to age 65 (prorated for months).
Late retirement	
• Eligibility	Any participant may defer retirement beyond his normal retirement date.
• Benefit	A participant's late retirement benefit is equal to his accrued pension determined as of his late retirement date.
Deferred vested	
• Eligibility	Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service, a participant shall be entitled to a deferred vested benefit.
• Benefit	Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated participant with at least 15 years of vesting service requests commencement of his accrued pension as of any month within the 10-year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced by 1/15 per year for the first five years and 1/30 per year for the next five years prior to age 65 (prorated for months). A participant entitled to a deferred vested benefit whose present value does not exceed \$7,500 is entitled to elect to receive such value in a lump sum payment as soon as practicable following termination of employment. Such a participant must waive his right to a single life pension, if single, or, if married, the Qualified Joint and Survivor annuity.

Schedule SB, Part V — Summary of Plan Provisions

Pre-retirement death	
• Eligibility	A death benefit is payable to the eligible spouse or beneficiary of either a vested active participant who dies or a participant who has terminated with a deferred vested benefit who dies before benefit payments commence. Payments commence as early as the first day of the month following death.
• Benefit	The amount of the benefit is equal to 50% of the participant's accrued benefit at the date of his death reduced for 50% Joint and Survivor coverage and early payment, if applicable. A non-spouse beneficiary must begin receiving payments immediately.
Form of benefits	
• Automatic form for unmarried participants	Single-Life Annuity
• Automatic form for married participants	Qualified Joint and 50% Survivor Annuity
• Optional forms	• Single-Life Annuity for married participants • Single-Life Annuity with 60, 120, or 180 Months Guaranteed • Joint and 50%, 75%, or 100% Survivor Annuity • Social Security Level Income Option • Lump Sum
• Optional form conversion factors	Actuarial equivalence.
Miscellaneous	
• Maximum compensation	Not applicable.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415 in effect when plan benefits were frozen.

Effective date and plan year	Original plan: January 1, 1981 Restatement Effective Date: January 1, 2007 Plan year: Calendar year
Status of the plan	The plan was frozen effective March 31, 1995.
Significant events that occurred during the year	None.
Definitions	
• Employees included	MetroVision, Inc.
• Participation	Former employees of MetroVision, Inc. became eligible to participate on the later of attaining the age of 18 or completing one year of service. Participation begins on the earlier of the first day of the first plan year after the employee has satisfied participation requirements or the date six months after the participation requirements were met. Does not include employees of Lincoln Technical, Lincoln Non-Technical, Fremont, Nebraska or Sheridan Divisions. No employees were added after March 31, 1995.
• Service considered	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 1,950 service hours, provided that any participant who accrues less than 1,950 service hours but at least 1,000 service hours during the plan year shall receive a pro rata service credit for that plan year, and any participant who accrues less than 1,000 service hours in the plan year in which his participation commences shall receive a pro rata credit for that plan year.
• Pensionable earnings	Earnings considered are the participant's straight-time wages including year-end bonuses and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration.
• Final average earnings	1965 – The Compensation earned during 1965, divided by the number of months employed in 1965. 1966 and later – The average compensation earned from January 1, 1966, until termination date or retirement date.
• Accrued benefit	A participant's accrued pension is the monthly pension amount determined as of any given date as an amount, under the life only form, equal to the sum of A and B, subject to the minimum provisions of C as follows: A. The accrued pension for service credits earned prior to January 1, 1966 is calculated by multiplying 1% of the first \$550 plus 1-¼% of the excess over \$550 of a participant's 1965 average monthly compensation (1/12th of straight-time wages including year-end bonuses and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration paid to the participant in 1965) by the number of years of such service credits earned prior to January 1, 1966.

Schedule SB, Part V — Summary of Plan Provisions

- B. The accrued pension for service credits earned after December 31, 1965 is calculated, as of any given date, by multiplying 1% of the first \$550 plus 1-½% of the excess over \$550 of a participant's average monthly compensation (1/12th of straight-time wages including year-end bonuses and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration) paid to the participant from January 1, 1966 to the given date by the number of years of service credits earned from January 1, 1966 to such given date.
- C. The accrued pension at any given date with respect to a participant who will have at least 20 years of service credits at his normal or late retirement date shall not be less than the greater of \$100 or the product of 33-⅓% of the participant's average monthly compensation (1/12th of straight-time wages including year-end bonuses and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration) from January 1, 1966 to his normal (or late) retirement date (such average compensation to be used for the years subsequent to the given date shall be the average of the monthly compensation of the participant for the 10-year period prior to the given date) with such product reduced by \$45.00; with the applicable amount so determined multiplied by a fraction having a numerator equal to the participant's service credits on the given date and a denominator equal to the sum of his service credits on the given date plus the years and a fraction from the given date to his normal (or late) retirement date. However, if the participant is for any year a Highly-Compensated Employee, this minimum benefit shall not be applicable after December 31, 1992.

Notwithstanding the foregoing, a participant who is an Employee on December 31, 1993 and who has earned a benefit in any year prior to 1994 on pay in excess of \$150,000, will have his benefit based upon the greater of D and E as follows:

- D. The participant's accrued benefit as of December 31, 1993 using the \$200,000 compensation limit as described in Article 2.1(m) of the plan, as indexed, plus the participant's accrued benefit attributable to plan years after December 31, 1993 using the \$150,000 compensation limit described in Article 2.1(m) of the plan, as indexed.
- E. The participant's accrued benefit based on all service using the \$150,000 compensation limit described in Article 2.1(m) of the plan, as indexed.

Benefits were frozen and no further accruals were granted as of March 31, 1995 for all participants except those at Oakland County in the Michigan Division whose benefits were frozen on June 30, 1995.

Normal retirement

- **Eligibility** A participant's normal retirement date is the date he attains age 65 and completes five years of service; this date is no later than age 65 and the fifth anniversary of his participation in the plan. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	A participant's normal retirement benefit, payable as a 50% Joint and Survivor annuity unless he elects otherwise, is the actuarial equivalent of the single life form of his accrued pension.
Early retirement	
• Eligibility	A participant is eligible for an early retirement benefit upon the attainment of age 55 with 10 years of service.
• Benefit	The benefit, payable at his normal retirement date, is equal to the accrued pension. Should he elect to begin payments before his normal retirement date, the participant's benefit would be reduced to the actuarial equivalent of the benefit at normal retirement date.
Late retirement	
• Eligibility	Any participant may defer retirement beyond his normal retirement date.
• Benefit	A participant's late retirement benefit, payable as a 50% Joint and Survivor annuity unless he elects otherwise, is equal to his accrued pension determined as of his late retirement date.
Deferred vested	
• Eligibility	Upon termination of employment for a reason other than death and following the completion of at least five years of service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
• Benefit	Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated participant with at least 10 years of service requests commencement of his accrued pension as of any month within the 10-year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced to its actuarial equivalent.
Pre-retirement death	
• Eligibility	A death benefit is payable to the eligible spouse of either a vested active employee who dies, or a participant who has terminated with a deferred vested benefit who dies before payments commence.
• Benefit	The benefit is payable at what would have been the earliest date the participant could have begun receiving benefits from the plan and is equal to 50% of the participant's accrued benefit at the date of his death reduced for 50% Joint and Survivor coverage and early payment, if applicable.

The participant's accrued benefit as of December 31, 1993 using the \$200,000 compensation limit as described in Article 2.1(m) of the plan, as indexed, plus the participant's accrued benefit attributable to plan years after December 31, 1993 using the \$150,000 compensation limit described in Article 2.1(m) of the plan, as indexed.
- E. The participant's accrued benefit based on all service using the \$150,000 compensation limit described in Article 2.1(m) of the plan, as indexed.

Benefits were frozen as of March 31, 1995 and no further accruals were granted.

Normal retirement

- **Eligibility** A participant's normal retirement date is the date he attains age 65. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
- **Benefit** A participant's normal retirement benefit, payable as a 50% Joint and Survivor annuity unless he elects otherwise, is the actuarial equivalent of the single life form of his accrued pension.

Early retirement

- **Eligibility** A participant is eligible for an early retirement benefit upon the attainment of age 55 with 15 years of service.
- **Benefit** The benefit, payable at his normal retirement date, is equal to the accrued pension. Should he elect to begin payments before his normal retirement date, the participant's benefit would be reduced by 6.67% for each of the first five years and 3.33% for each of the second five years the benefit start date precedes his normal retirement date.

Late retirement

- **Eligibility** Any participant may defer retirement beyond his normal retirement date.
- **Benefit** A participant's late retirement benefit, payable as a 50% Joint and Survivor annuity unless he elects otherwise, is equal to his accrued pension determined as of his late retirement date.

Schedule SB, Part V — Summary of Plan Provisions**Deferred vested**

• Eligibility	Upon termination of employment for a reason other than death and following the completion of at least five years of service or attainment of age 65, a participant shall be entitled to a deferred vested benefit.
• Benefit	Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated participant with at least 15 years of service requests commencement of his accrued pension as of any month within the 10-year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced by 6.67% for each of the first five years and 3.33% for each of the second five years the benefit start date precedes his normal retirement date.

Pre-retirement death

• Eligibility	A death benefit is payable to the eligible spouse of either a vested active employee who dies, or a participant who has terminated with a deferred vested benefit who dies before payments commence.
• Benefit	The benefit is payable at what would have been the earliest date the participant could have begun receiving benefits from the plan and is equal to 50% of the participant's accrued benefit at the date of death reduced for 50% Joint and Survivor coverage and further reduced by 6.67% for each of the first five years and 3.33% for each of the second five years that the first payment date precedes his normal retirement date, if applicable.

Status of the plan	Effective January 11, 1999, all benefit accruals were frozen.
Significant events that occurred during the year	None.
Definitions	
• Employees included	Advance Direct, Inc.
• Participation	Any employee will become eligible to participate on the 1st of January or the 1st of July following the completion of one year of service. As of January 11, 1999, there are no active employees covered under this plan.
• Service considered	An eligibility year of service is a 12-month period of service. All periods of service as an employee are considered as service for the plan. On or after January 11, 1999, no active employees will be participants in this plan.
• Pensionable earnings	For any calendar year, all compensation paid by the employer; provided, however, that prior to July 1, 1995, compensation means all compensation paid by the employer less overtime earnings. Amounts contributed under this plan and any nontaxable fringe benefits provided by the employer shall not be considered salary.
• Final average earnings	Average monthly compensation is obtained by dividing by 60 the total compensation of a participant during the 60 consecutive calendar months in which compensation was the highest within the last 120 completed calendar months.
• Covered compensation	The average of the taxable wage bases in effect for each calendar year during the 35-year period ending with the last day of the calendar year in which the Participant attains Social Security Retirement Age.
• Participant Contributions	Prior to December 31, 1996, 1.5% of compensation. No contributions required or permitted thereafter.
• Accrued benefit	Normal retirement benefit calculated using service credits, average monthly compensation, covered compensation and the 36-month average compensation up to the Social Security wage base as of the calculation date. A participant, who was in the prior plan as of December 31, 1996, should never have an accrued benefit less than the sum of accrued benefit from accumulated contributions plus accrued benefit using service credits earned after December 31, 1996.
Normal retirement	
• Eligibility	A participant's normal retirement date is the date he attains age 65. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
• Benefit	A participant's normal retirement benefit is payable as a 10-year certain and life annuity for unmarried participants or actuarial equivalent 50% Joint and

Schedule SB, Part V — Summary of Plan Provisions

Survivor annuity with 10 years certain for married participants. For members of the prior plan on December 31, 1978, the benefit is the greater of A plus B, and C.

For employees who become members of the prior or current plan on and after January 1, 1979, the benefit is equal to C.

- A. For future service on and after January 1, 1944, 1.25% of compensation paid to the participant during the years of participation in prior plan and this plan to participant's normal retirement date.
- B. For service prior to January 1, 1944, with respect to participants on January 1, 1944, 1.25% of the compensation paid to the participant prior to January 1, 1944, excluding the first three years of compensation received from the employer.
- C. The excess of (i) over (ii), subject to the limitation of item (iii).
 - i. 1.25% of average monthly compensation multiplied by service credits.
 - ii. 0.325% multiplied by the lesser of covered compensation and the 36-month average of compensation up to the Social Security wage base multiplied by service credits (maximum 35).
 - iii. The accrued benefit for participants in plans prior to December 31, 1988, December 31, 1996 or December 31, 1997, shall not be less than their accrued benefit as of that date determined under the provisions in effect at that date.

Early retirement

- **Eligibility** A participant is eligible for an early retirement benefit upon attainment of age 55. New participants after December 31, 1996 must complete five years of service.
- **Benefit** The benefit is payable at his normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced to the actuarial equivalent of the benefit beginning at normal retirement date.

Late retirement

- **Eligibility** Any participant may defer retirement beyond his normal retirement date.
- **Benefit** A participant's late retirement benefit, payable as a 50% Joint and Survivor annuity with 10 years certain unless he elects otherwise, is his accrued pension determined as of his late retirement date.

Deferred vested

- **Eligibility** Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service, a participant shall be entitled to a deferred vested benefit.
- **Benefit** The normal retirement benefit attributable to employee contributions is 100% vested at all times. Participants prior to January 1, 1997, are 100% vested in all benefits. Such benefit shall be his accrued pension payable at his normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions**Pre-retirement death**

• Eligibility	A death benefit is payable to the eligible spouse of either a vested active employee who dies, or a participant who has terminated with a deferred vested benefit who dies before payments commence.
• Benefit	In the event of the death of a <u>married vested participant</u> prior to retirement, his spouse shall be entitled to a survivor annuity commencing on the first of the month following the participant's death or 55th birthday, if later. The amount of the annuity shall be the accrued benefit reduced for early commencement and further reduced for the Joint and Survivor form. The annuity is guaranteed for 10 years, after which time 50% of the annuity shall continue for the life of the spouse. In the event of the death of a <u>non-married vested participant</u> after age 55, a death benefit will be paid equal to the accrued benefit (reduced for early commencement) to the participant's beneficiary monthly for the 120 month guaranteed period. Payment of such benefit shall commence as of the first day of the month following the participant's death. In the event of the death of a <u>non-married vested participant</u> prior to age 55, a death benefit will be paid to the participant's beneficiary in an amount equal to the accumulated contributions account. Payment of such a benefit shall be made in a single lump sum as soon as practicable following the participant's death.

Form of benefits

• Automatic form for unmarried participants	Single-Life Annuity with 10-year certain
• Automatic form for married participants	A reduced pension payable during the lifetime of the employee with 50% of this reduced pension continuing to his surviving spouse following his death provided, however, that the 50% reduction will not take place until 10 years of payments have been received such that the combined benefit is the actuarial equivalent of the single life pension with 10 years certain.
• Optional forms	• Single-Life Annuity with 10-year Certain for married participants • Qualified Joint and 75% Survivor Annuity for married participants • Joint and 50% or 100% Survivor Annuity with 10-year Certain • Lump Sum
• Optional form conversion factors	Actuarial equivalence.

Miscellaneous

• Maximum compensation	Not applicable.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415 in effect when plan benefits were frozen.

The provisions of the Prior EMI Plan shall only apply to participants under the Prior EMI Plan as of December 31, 1997. There have been no accruals under these provisions since that date. There are no active employees covered under these provisions.
Significant events that occurred during the year	None.

Definitions

• Employees included	Advance Entertainment Corporation
• Participation	Employees become eligible to participate on the later of attaining the age of 18 or completing one year of service. Participation begins on the earlier of the first day of the first plan year after the employee has satisfied participation requirements or the date six months after the participation requirements have been met. There are no active participants.
• Service considered	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 1,950 service hours, provided that any participant who accrues less than 1,950 service hours but at least 1,000 service hours during the plan year shall receive a pro rata service credit for that plan year, and any participant who accrues less than 1,000 service hours in the plan year in which his participation commences shall receive a pro rata credit for that plan year.
• Pensionable earnings	Earnings considered are the participant's straight-time wages including year-end bonuses, and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration.
• Final average earnings	1975 Average Monthly Compensation: The average compensation during 1975, divided by the number of months employed in 1975. 1976 and later - The average compensation, earned from January 1, 1976, until termination date or retirement date.
• Covered compensation	The average of the taxable wage bases in effect for each calendar year during the 35-year period ending with the last day of the calendar year in which the Participant attains Social Security Retirement Age.
• Accrued benefit	A participant's accrued pension is the monthly pension amount determined as of any given date as an amount, under the life only form, equal to the sum of A, B, and the larger of C or D, subject to the minimum provisions of E as follows:

Schedule SB, Part V — Summary of Plan Provisions

-
- A. The accrued pension for service credits earned prior to January 1, 1966 is calculated by multiplying 1% of the first \$550 plus 1-¼% of the excess over \$550 of a participant's 1975 average monthly compensation (1/12th of straight-time wages including year-end bonuses, and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration paid to the participant in 1975) by the number of years of such service credits earned prior to January 1, 1966.
- B. The accrued pension for service credits earned after December 31, 1965 is calculated, as of any given date, by multiplying 1% of the first \$550 plus 1-½% of the excess over \$550 of a participant's average monthly compensation (1/12th of straight-time wages including year-end bonuses, and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration) paid to the participant from January 1, 1976 to the given date by the number of years of service credits earned from January 1, 1966 to such given date.
- C. \$3.00 multiplied by the number of years of service credits earned from January 1, 1976 to the given date.
- D. 1/10th of 1% of the participant's average monthly compensation (1/12th of straight-time wages including year-end bonuses, and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration) paid to the participant from January 1, 1976 to the given date multiplied by the number of years of service credits earned from January 1, 1976 to such given date.
- E. The accrued pension at any given date with respect to a participant who will have at least 20 years of service credits at his normal (or late) retirement date shall not be less than the greater of \$100 or the product of 33-⅓% of the participant's average monthly compensation (1/12th of straight-time wages including year-end bonuses, and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration) from January 1, 1976 to his normal (or late) retirement date (such average compensation to be used for the years subsequent to the given date shall be the average of the monthly compensation of the participant for the 10-year period prior to the given date) with such product reduced by \$45.00; with the applicable amount so determined multiplied by a fraction having a numerator equal to the participant's service credits on the given date and a denominator equal to the sum of his service credits on the given date plus the years and a fraction from the given date to his normal (or late) retirement date. However, if the participant is for any year a Highly-Compensated Employee, this minimum benefit shall not be applicable after December 31, 1992.

Notwithstanding the foregoing, a participant who is an employee on December 31, 1993 and who has earned a benefit in any year prior to 1994 on pay in excess of \$150,000, will have their benefit based upon F and G as follows:

- F. The participant's accrued benefit as of December 31, 1993 using the \$200,000 compensation limit as described in Article 2.1(m) of the plan, as indexed, plus the participant's accrued benefit attributable to plan years after December 31, 1993 using the \$150,000 compensation limit described in Article 2.1(m) of the plan, as indexed.

In addition, effective January 1, 2007, any employee employed by The Patriot-News Co. as of January 1, 2007, who was also a Prior Patriot Editorial Plan Participant, shall be covered under these provisions of the plan. |
| • Vesting service | All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours. |
| • Credited service | A participant shall receive one service credit for each plan year beginning on or after January 1, 2006, for which the eligible employee accrues at least 1,820 service hours as a participant, provided that any participant who accrues less than 1,820 service hours but at least 1,000 service hours during the plan year shall receive a pro rata service credit for that plan year. Any participant who accrues less than 1,000 service hours in the plan year in which participation commences or employment terminates shall receive a pro rata credit for that plan years. Service credits prior to January 1, 2006, shall be determined in accordance with the Prior Patriot Editorial Plan. |
| • Pensionable earnings | For any calendar year beginning on or after January 1, 2006, earnings considered are the participant's straight-time wages including bonuses, sales commissions and auto fringe benefits, but excluding overtime, other forms of taxable fringe benefits and other remuneration. For calendar years prior to January 1, 2006, earnings shall be determined under the provisions of the Prior Patriot Editorial Plan. |
| • Accrued benefit | A participant's accrued pension payable at normal retirement date and determined as of any given date as an amount, under the life only form is equal to the sum of A and the larger of B or C, subject to the minimum provisions of D as follows:
A. The result obtained by multiplying service credits by 1% of the first \$550 plus 1-½% of the excess over \$550 of a participant's Average Monthly Compensation (AMC). AMC is one-twelfth of the sum of the |

Schedule SB, Part V — Summary of Plan Provisions

compensation received by the participant from January 1, 1993 (or date of participation, if later) to the given date, excluding years in which the participant completes 12 months of employment but less than 1,000 service hours, divided by the service credits earned during that period.

- B. \$3.00 multiplied by the number of years of service credits earned from January 1, 1993 (or date of participation, if later) to such given date.
- C. 1/10th of 1% of the participant's AMC multiplied by the number of years of service credits earned from January 1, 1993 to such given date.
- D. The accrued pension at any given date with respect to a participant who will have at least 20 years of service credits at his normal or late retirement date shall not be less than the greater of \$100 or the product of 33- $\frac{1}{3}$ % of the participant's AMC at normal retirement date (such average compensation to be used for the years subsequent to the given date shall be the average of the monthly compensation of the participant for the 10-year period prior to the given date) with such product reduced by \$45.00; with the applicable amount so determined multiplied by a fraction having a numerator equal to the participant's service credits on the given date and a denominator equal to the sum of his service credits on the given date plus the years and a fraction from the given date to his normal or late retirement date. However, if the participant is for any year a Highly-Compensated Employee, this minimum benefit shall not be applicable after December 31, 1992.

In no event shall a participant's Normal Retirement Pension be less than his or her accrued benefit as of June 30, 2006, determined under the provisions of the Prior Patriot Editorial Plan as in effect on June 30, 2006.

Normal retirement

- **Eligibility** A participant's normal retirement date is the date he attains age 65 and completes five years of vesting service; this date is no later than age 65 and the fifth anniversary of his participation in the plan. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
- **Benefit** A participant's normal retirement benefit is equal to his accrued pension determined as of his normal retirement date.

Early retirement

- **Eligibility** A participant is eligible for early retirement upon attaining age 62 with 30 years of service. A participant is eligible for early retirement upon:
 - Attaining age 62 with five years of vesting service.
 - Attaining age 60 with 35 years of vesting service.
- **Benefit** The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced by $\frac{1}{3}$ of 1% for each month commencement precedes his normal retirement date. A participant is eligible for an unreduced early retirement benefit upon attaining age 60 with 35 years of vesting service.

Late retirement

- **Eligibility** Any participant may defer retirement beyond his normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	A participant's late retirement benefit is equal to his accrued pension determined as of his late retirement date.
Deferred vested	
• Eligibility	Upon termination of employment for a reason other than death and following the completion of at least five years of vesting service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
• Benefit	Such benefit shall be his accrued pension payable at his normal retirement date.
Pre-retirement death	
• Eligibility	A death benefit is payable to the eligible spouse of either a vested active employee who dies or a participant who has terminated with a deferred vested benefit who dies before payments commence.
• Benefit	The benefit, payable at what would have been the earliest date the participant could have begun receiving benefits from the plan, is equal to 50% of the participant's accrued benefit at the date of his death reduced for 50% Joint and Survivor coverage and early payment, if applicable. However, if such a participant with 10 years of vesting service dies after attaining age 55, the benefit is payable immediately and shall be reduced by $\frac{1}{3}$ of 1% for each month commencement precedes his normal retirement date.
Form of benefits	
• Automatic form for unmarried participants	Single-Life Annuity
• Automatic form for married participants	Qualified Joint and 50% Survivor Annuity
• Optional forms	• Single-Life Annuity for married participants • Single-Life Annuity with 25 Months Guaranteed • Qualified Joint and 75% Survivor Annuity for married participants • Lump Sum
• Optional form conversion factors	Actuarial equivalence.
Miscellaneous	
• Maximum compensation	Not applicable.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415 in effect when plan benefits were frozen.

Effective date and plan year	Original plan: January 1, 1944 Restatement Effective Date: January 1, 2007 Plan year: Calendar year
Status of the plan	All benefit accruals were frozen and all active participants began to accrue benefits under the Condé Nast Publications, Inc. provisions of the plan.
Significant events that occurred during the year	None.
Definitions	
• Employees included	The New Yorker Magazine, Inc.
• Participation	This plan covers only former employees of the New Yorker Magazine, Inc. Employees become eligible to participate on the January 1st or July 1st following the completion of one year of service. There are no active employees.
• Service considered	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 1,820 service hours, provided that any participant who accrues less than 1,820 service hours during a full plan year shall receive a pro rata service credit for that plan year. No service credit shall be earned after December 31, 1998.
• Pensionable earnings	For any calendar year, all compensation paid by the employer; provided, however, that prior to July 1, 1995, compensation means all compensation paid by the employer less overtime earnings. Amounts contributed under this plan and any nontaxable fringe benefits provided by the employer, shall not be considered salary.
• Final average earnings	Average monthly compensation is obtained by dividing by 60 the total compensation of a participant during the 60 consecutive calendar months in which compensation was the highest within the last 120 completed calendar months. Average monthly compensation must cover a period of no less than three years (or periods of employment if shorter) and if a participant worked less than 1,820 hours, compensation shall be adjusted to reflect the equivalent for 1,820 hours.
• Employer Contributions	The employer contributes in such amounts and at such times to be consistent with plan objectives and government regulations.
• Participant Compensation	Prior to July 1, 1996, 1.5% of compensation. No contributions required or permitted thereafter.
• Accrued benefit	For participants of the plan on December 31, 1978, the accrued benefit is the greater of A plus B, and C. For employees who become participants on and after January 1, 1979, the accrued benefit is equal to C. For Authors and Artists under contract and who became participants of the plan on January 1, 1981, the accrued benefit is equal to C(i).

Schedule SB, Part V — Summary of Plan Provisions

-
- A. For future service on and after January 1, 1944, 1.25% of the compensation paid to the participant during the years of his participation.
- B. For service prior to January 1, 1944, with respect to participants on January 1, 1944, 1.25% of compensation paid to the participant prior to January 1, 1944, excluding the first three years of compensation received by the participant.
- C. The excess of (i) over (ii).
- 1.25% of average monthly compensation multiplied by years of credited service.
 - The product of .325% multiplied by the lesser of covered compensation and final three-year average compensation up to Social Security wage base, multiplied by years of credited service (maximum of 35 years).

For participants prior to December 31, 1988, item C shall not be less than the benefit accrued to December 31, 1988, based on plan provisions effective at that date.

Normal retirement

- **Eligibility** A participant's normal retirement date is the date he attains age 65. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
 - **Benefit** A participant's normal retirement benefit, payable as a 50% Joint and Survivor annuity with 120 months guaranteed unless he elects otherwise, is the actuarial equivalent of the single life with 120 months guaranteed form of his accrued pension.
-

Early retirement

- **Eligibility** A participant is eligible for early retirement upon attaining age 55. Participants on and after July 1, 1996, must also complete five years of vesting service.
 - **Benefit** The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced by 1/180 for each of the first 60 months and 1/360 for each of the next 60 months by which early retirement precedes normal retirement.
-

Late retirement

- **Eligibility** Any participant may defer retirement beyond his normal retirement date.
 - **Benefit** A participant's late retirement benefit, payable as a 50% Joint and Survivor annuity with 120 months guaranteed unless he elects otherwise, is his accrued pension determined as of his late retirement date.
-

Deferred vested

- **Eligibility** Upon termination of employment for a reason other than death and following the completion of at least five years of service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit. Such benefit shall be his accrued pension payable at his normal retirement date.
-

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	A participant who was a participant in the prior plan as of June 30, 1996 or who had ever been a participant in the prior plan prior to June 30, 1996, shall be 100% vested in his or her accrued benefit. However, if a vested terminated participant requests his accrued pension as of any month within the 10-year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced by 1/180 for each of the first 60 months and 1/360 for each of the next 60 months by which early retirement precedes normal retirement.
Pre-retirement death	
• Eligibility	A death benefit is payable to the eligible spouse or beneficiary of either a vested active participant who dies or a participant who has terminated with a deferred vested benefit who dies before benefit payments commence.
• Benefit	The benefit, payable at what would have been the earliest date the participant could have begun receiving benefits from the plan, is equal to 50% of the participant's accrued benefit at the date of his death reduced for 50% Joint and Survivor with 120 months guaranteed coverage and early payment, if applicable.

Definitions

• Employees included	The Globe Democrat Publishing Company, a division of The Herald Publishing Company, LLC
• Participation	Participants who were vested at March 1, 1984, will qualify to receive benefits under the plan. There are no active participants.
• Service considered	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 1,000 service hours. A participant designated as regular part-time shall receive one service credit for each plan year in which he accrues at least 390 service hours. Service credits were frozen as of March 1, 1984.
• Pensionable earnings	Participant's straight-time wages, but excluding overtime, bonuses, taxable fringe benefits, and other remuneration.
• Final average earnings	1965 average monthly compensation: the compensation earned during 1965 divided by the number of months employed in 1965; 1966 and later: the average compensation earned from January 1, 1996, until the earlier of termination date, retirement date or March 1, 1984.
• Accrued benefit	The amount computed as under normal retirement benefit, except that monthly earnings used for years subsequent to a specified date are an average of monthly earnings for the 10-year period prior to such date, multiplied by a fraction equal to the number of years of service credits completed from date of participation to the specified date divided by the number of years of service credits from date of participation to normal retirement date. For members who have completed at least 20 years of service credit, a minimum monthly benefit equal to the greater of (A) \$100 or (B) 33-1/3% of his average monthly earnings from January 1, 1966, or date he became a participant, to the specified date reduced by \$45.

Normal retirement

• Eligibility	A participant's normal retirement date is the date he attains age 65. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
• Benefit	The sum of past service monthly benefit, if any, and future service monthly benefit, as follows:

Schedule SB, Part V — Summary of Plan Provisions

- Past Service Monthly Benefit: 1% of the first \$550 of 1965 earnings, as defined in the plan, plus 1-¼% of such earnings in excess of \$550 multiplied by the number of years of service credits earned prior to January 1, 1966.
- Future Service Monthly Benefit: 1% of the first \$550, plus 1-½% in excess of \$550 of a participant's average monthly compensation (the monthly average of all compensation excluding overtime and bonuses) for each plan year of membership subsequent to the later of December 31, 1965, or date of participation.
- Participants with more than 30 years of service credits have their pension based on the 30 years' highest average monthly compensation. The number of years of service credits for both the future service monthly benefit and the past service monthly benefit is limited to 30.
- Minimum Benefit: If a participant has at least 20 years of service credits at normal retirement date, the total monthly pension shall not be less than the greater of (a) \$100 or (b) 33-⅓% of his average monthly compensation from January 1, 1966, or the date of participation, to normal retirement date reduced by \$45.

Early retirement

- Eligibility

A participant is eligible to retire early if:

 - He has completed 10 years of service and has attained age 55; or
 - If employed on or after his 55th birthday, completes five years of service after that date.
- Benefit

The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence anytime following early retirement and prior to the participant's normal retirement date. In such case the benefit is reduced as follows:

Age at annuity starting date	
date	Reduction factor
65	1.00
64	0.920
63	0.850
62	0.785
61	0.725
60	0.675

• Employers included	MetroVision, Inc.
• Participation	Employees become eligible to participate on the later of attaining the age of 18 or completing one year of service. Participation begins on the earlier of the first day of the first plan year after the employee has satisfied participation requirements or the date six months after the participation requirements have been met. Includes employees of Lincoln Technical, Lincoln Non-Technical, Fremont, Nebraska and Sheridan Divisions. There are no active employees.
• Service considered	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 1,950 service hours, provided that any participant who accrues less than 1,950 service hours but at least 1,000 service hours during the plan year shall receive a pro rata service credit for that plan year, and any participant who accrues less than 1,000 service hours in the plan year in which his participation commences shall receive a pro rata credit for that plan year.
• Pensionable earnings	Earnings considered are the participant's straight-time wages including year-end bonuses and sales commissions, but excluding overtime, taxable fringe benefits, and other remuneration.
• Accrued benefit	A participant's accrued pension is the monthly pension amount determined as of any given date as an amount, under the life only form, equal to the sum of A and B, subject to the minimum provisions of C as follows: A. The accrued pension for service credits earned prior to January 1, 1966 is calculated by multiplying 1% of the first \$550 plus 1-¼% of the excess over \$550 of a participant's 1965 average monthly compensation (1/12th of straight-time wages including year-end bonuses and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration paid to the participant in 1965) by the number of years of such service credits earned prior to January 1, 1966. B. The accrued pension for service credits earned after December 31, 1965 is calculated, as of any given date, by multiplying 1% of the first \$550 plus 1-½% of the excess over \$550 of a participant's average monthly compensation (1/12th of straight-time wages including year-end bonuses and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration) paid to the participant from January 1,

Schedule SB, Part V — Summary of Plan Provisions

1966 to the given date by the number of years of service credits earned from January 1, 1966 to such given date.

- C. The accrued pension at any given date with respect to a participant who will have at least 20 years of service credits at his normal or late retirement date shall not be less than the greater of \$100 or the product of 33- $\frac{1}{3}$ % of the participant's average monthly compensation (1/12th of straight-time wages including year-end bonuses and sales commissions, but excluding overtime, taxable fringe benefits and other remuneration) from January 1, 1966 to his normal (or late) retirement date (such average compensation to be used for the years subsequent to the given date shall be the average of the monthly compensation of the participant for the 10-year period prior to the given date) with such product reduced by \$45.00; with the applicable amount so determined multiplied by a fraction having a numerator equal to the participant's service credits on the given date and a denominator equal to the sum of his service credits on the given date plus the years and a fraction from the given date to his normal (or late) retirement date. However, if the participant is for any year a Highly-Compensated Employee, this minimum benefit shall not be applicable after December 31, 1992.

Notwithstanding the foregoing, a participant who is an employee on December 31, 1993 and who has earned a benefit in any year prior to 1994 on pay in excess of \$150,000, will have his benefit based upon the greater of D and E.

- D. The participant's accrued benefit as of December 31, 1993 using the \$200,000 compensation limit as described in Article 2.1(m) of the plan, as indexed, plus the participant's accrued benefit attributable to plan years after December 31, 1993 using the \$150,000 compensation limit described in Article 2.1(m) of the plan, as indexed.
- E. The participant's accrued benefit based on all service using the \$150,000 compensation limit described in Article 2.1(m) of the plan, as indexed.

Normal retirement

- **Eligibility** A participant's normal retirement date is the date he attains age 65 and completes five years of service; this date is no later than age 65 and the fifth anniversary of his participation in the plan. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
- **Benefit** A participant's normal retirement benefit, payable as a 50% Joint and Survivor annuity unless he elects otherwise, is the actuarial equivalent of the single life form of his accrued pension.

Early retirement

- **Eligibility** A participant is eligible for early retirement upon attaining age 55 with 10 years of service.
- **Benefit** The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal

Schedule SB, Part V — Summary of Plan Provisions

	retirement date. In such case, the benefit is reduced to the actuarial equivalent of the benefit beginning at normal retirement date.
Late retirement	
• Eligibility	Any participant may defer retirement beyond his normal retirement date.
• Benefit	A participant's late retirement benefit, payable as a 50% Joint and Survivor annuity unless he elects otherwise, is his accrued pension determined as of his late retirement date.
Deferred vested	
• Eligibility	Upon termination of employment for a reason other than death following the completion of at least five years of service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
• Benefit	Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated participant with at least 10 years of service requests commencement of his accrued pension as of any month within the 10-year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced to its actuarial equivalent. All active participants on March 31, 1995 became vested as of this date.
Pre-retirement death	
• Eligibility	A death benefit is payable to the eligible spouse of a participant who has terminated with a deferred vested benefit who dies before payments commence.
• Benefit	The benefit is payable at what would have been the earliest date the participant could have begun receiving benefits from the plan and is equal to 50% of the participant's accrued benefit at the date of his death reduced for 50% Joint and Survivor coverage and early payment, if applicable.
Form of benefits	
• Automatic form for unmarried participants	Single-Life Annuity
• Automatic form for married participants	Qualified Joint and 50% Survivor Annuity
• Optional forms	• Single-Life Annuity for married participants • Qualified and Joint 75% Survivor Annuity for married participants • Lump Sum
• Optional form conversion factors	Actuarial equivalence.
Miscellaneous	
• Maximum compensation	Not applicable.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415 in effect when plan benefits were frozen.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions****The Newhouse Broadcasting Corporation**

Effective date and plan year	Original plan: January 1, 1976 Restatement Effective Date: January 1, 2007 Plan year: Calendar year
Status of the plan	Effective January 2, 1984, all accruals were frozen.
Significant events that occurred during the year	None.
Definitions	
• Employers included	The Newhouse Broadcasting Corporation
• Participation	Any person employed in the Syracuse Division Radio Department, the Harrisburg Division Radio Department, or the Birmingham Division Radio Department shall become eligible to participate on the later of attaining the age of 25 or completing one year of service. Participation begins on the earlier of the first day of the first plan year after the employee has satisfied participation requirements or the date six months after the participation requirements have been met. No new participants were allowed to come into the plan after January 2, 1984 and no additional service credit was granted to any active participant after this date.
• Service considered	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 2,080 service hours, provided that any participant who accrues less than 2,080 service hours but at least 1,000 service hours during the plan year shall receive a pro rata service credit for that plan year, and any participant who accrues less than 1,000 service hours in the plan year in which his participation commences shall receive a pro rata credit for that plan year. No service credits shall accrue after January 2, 1984 for participants from the Syracuse Division Radio Department, or after January 10, 1983 for participants from the Birmingham Division Radio Department, or after August 1, 1982 for participants from the Harrisburg Division Radio Department.
• Pensionable earnings	Earnings considered are the participant's straight-time wages including year-end bonuses, through January 2, 1984, or January 10, 1983, or August 1, 1982, as appropriate.
• Accrued benefit	A participant's accrued pension is the monthly pension amount determined as of any given date as an amount, under the life only form, equal to the sum of A and B, subject to the minimum provision of C as follows: A. The accrued pension for service credits earned prior to January 1, 1966 is calculated by multiplying 1% of the first \$550 plus 1-¼% of the excess over \$550 of a participant's 1965 average monthly compensation (1/12th of straight-time wages including year-end bonuses paid to the

Schedule SB, Part V — Summary of Plan Provisions

participant in 1965) by the number of years of such service credits earned prior to January 1, 1966.

- B. The accrued pension for service credits earned after December 31, 1965 is calculated, as of any given date, by multiplying 1% of the first \$550 plus 1-½% of the excess over \$550 of a participant's average monthly compensation (1/12th of straight-time wages including year-end bonuses) paid to the participant from January 1, 1966 to the given date by the number of years of service credits earned from January 1, 1966 to such given date.
- C. The accrued pension at any given date with respect to a participant who will have at least 20 years of service credits at his normal retirement date shall not be less than the greater of \$100 or the product of 33-⅓% of the participant's average monthly compensation (1/12th of straight-time wages including year-end bonuses) from January 1, 1966 to his normal retirement date (such average compensation to be used for the years subsequent to the given date shall be the average of the monthly compensation of the participant for the 10-year period prior to the given date) with such product reduced by \$45.00; with the applicable amount so determined multiplied by a fraction having a numerator equal to the participant's service credits on the given date and a denominator equal to the sum of his service credits on the given date plus the years and a fraction from the given date to his normal retirement date.

However, if the participant is for any year a Highly-Compensated Employee, this minimum benefit shall not be applicable after December 31, 1992.

Notwithstanding the foregoing, a participant who is an employee on December 31, 1993 and who has earned a benefit in any year prior to 1994 on pay in excess of \$150,000, will have their benefit based upon D and E as follows:

- D. The participant's accrued benefit as of December 31, 1993 using the \$200,000 compensation limit as described in Article 2.1(m) of the plan, as indexed, plus the participant's accrued benefit attributable to plan years after December 31, 1993 using the \$150,000 compensation limit described in Article 2.1(m) of the plan, as indexed.
- E. The participant's accrued benefit based on all service using the \$150,000 compensation limit described in Article 2.1(m) of the plan, as indexed.

Benefits were frozen as of January 2, 1984 and no further accruals were granted.

Effective date and plan year	Original plan: January 1, 1990 Restatement Effective Date: January 1, 2007 Plan year: Calendar year
Status of the plan	Effective February 29, 2000, all accruals were frozen.
Significant events that occurred during the year	None.

Definitions

• Employers included	The Newark Morning Ledger Company (prior to October 1, 2002, under the prior plan, New Jersey Newsphotos, Inc.)
• Participation	An employee who had reached the age of 18 completing one year of service as of the effective date shall participate as of that date. Other employees become participants on the later of attaining the age of 18 or completing one year of service. Participation begins on the earlier of the first day of the first plan year after the employee has satisfied participation requirements or the date six months after the participation requirements have been met. Any employee who was not a participant of the plan as of February 29, 2000 shall never become a participant. There are no active employees.
• Service considered	All periods of service as an employee are considered as service for the plan excluding any period prior to age 18 or any calendar year in which the employee completes less than 1,000 service hours.
• Credited service	A participant shall receive one service credit for each plan year in which he accrues at least 2,080 service hours, provided that any participant who accrues less than 2,080 service hours but at least 1,000 service hours during the plan year shall receive a pro rata service credit for that plan year, and any participant who accrues less than 1,000 service hours in the plan year in which his participation commences shall receive a pro rata credit for those plan years. After February 29, 2000, no participant or former participant will earn service credits.
• Pensionable earnings	Earnings considered are the participant's straight-time wages including year-end bonuses, but excluding overtime, other forms of bonuses, taxable fringe benefits, and other remuneration. No earnings after February 29, 2000 will be considered.
• Final average earnings	Average monthly compensation is obtained by dividing by 60 the total compensation earned during the 60 consecutive months in which compensation was the highest within the last 120 months.
• Accrued benefit	A participant's accrued pension is his monthly pension amount determined as of any given date equal to his normal retirement pension based on the participant's average monthly earnings and his service credits to such date. Notwithstanding the foregoing, a participant who is an employee on December 31, 1993 and who has earned a benefit in any year prior to 1994 on pay in excess of \$150,000, will have his benefit based upon the greater of A and B as follows:

Schedule SB, Part V — Summary of Plan Provisions

-
- A. The participant's accrued benefit as of December 31, 1993 using the \$200,000 compensation limit as described in Section 2.1(h) of the plan, as indexed, plus the participant's accrued benefit attributable to plan years after December 31, 1993 using the \$150,000 compensation limit described in Section 2.1(h) of the plan, as indexed.
- B. The participant's accrued benefit based on all service using the \$150,000 compensation limit described in Section 2.1(h) of the plan, as indexed.
-

Normal retirement

- **Eligibility** A participant's normal retirement date is the date he attains age 65, or if he joined the company after age 60, it is the fifth anniversary of the date he commenced participation in the plan. Payment of a normal retirement pension commences as of the first day of the month coincident with or next following the participant's normal retirement date.
-
- **Benefit** If single, a participant's normal retirement benefit is payable as a Single life annuity and is equal to the sum of A and B below. If married, a participant's normal retirement benefit is payable as a 50% Joint and Survivor annuity, unless he elects otherwise, and is the actuarial equivalent of a single life pension equal to the sum of A and B:
 - A. 1.0% of the participant's average monthly compensation with the result multiplied by the participant's years of service credits not exceeding 20 years.
 - B. .25% of the participant's average monthly compensation multiplied by the participant's service credits in excess of 20 years.
-

Early retirement

- **Eligibility** A participant is eligible for early retirement upon attaining age 55 with 10 years of service.
-
- **Benefit** The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any time following early retirement and prior to the participant's normal retirement date. In such case, the benefit is reduced to the actuarial equivalent of the benefit beginning at normal retirement date.
-

Late retirement

- **Eligibility** Any participant may defer retirement beyond his normal retirement date.
 - **Benefit** A participant's late retirement benefit, payable as a 50% Joint and Survivor annuity unless he elects otherwise, is his accrued pension determined as of his late retirement date.
-

Deferred vested

- **Eligibility** Upon termination of employment for a reason other than death and following the completion of at least five years of service or the attainment of age 65, a participant shall be entitled to a deferred vested benefit.
-
- **Benefit** Such benefit shall be his accrued pension payable at his normal retirement date. However, if a vested terminated participant with at least 10 years of service requests commencement of his accrued pension as of any month within the 10-year period preceding his normal retirement date, his accrued pension shall commence as of the date requested but shall be reduced to its

• Automatic form for married participants	Qualified Joint and 50% Survivor Annuity
• Optional forms	• Single-Life Annuity for married participants • Qualified and Joint 75% Survivor Annuity for married participants • Lump Sum
• Optional form conversion factors	Actuarial equivalence.
Miscellaneous	
• Maximum compensation	Not applicable.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415 in effect when plan benefits were frozen.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions****Random House Inc.**

Effective date and plan year	Original plan: April 29, 1980 Restatement Effective Date: January 1, 2007 Plan year: Calendar year
Status of the plan	Effective June 30, 1998, all benefit accruals were frozen.
Significant events that occurred during the year	None.
Definitions	
• Employers included	Random House, Inc., RCA Corporation and Subsidiary Companies and Penguin Random House.
• Participation	Employees who were members of the RCA Plan as of April 29, 1980. Otherwise, employees become participants the first of the month following one year of employment. Effective June 30, 1998, no employee shall be allowed to become a participant.
• Service considered	All periods of service as a contributing member are considered service for the plan.
• Credited service	A participant shall receive one month of service credit for each month (or partial) during which he has made whatever employee contributions may have been required. In addition, active participants at January 1, 1976, and January 1, 1981, receive additional benefit credit for certain pre-membership waiting periods.
• Pensionable earnings	Earnings considered are the participant's salary and wages, including overtime and premium pay; sales commissions (or the amount of the drawing account), but only to the extent such commissions, fees and draw do not cause compensation for the year to exceed \$100,000; amounts paid under sales compensation plan; and bonuses and Random House, Inc. Incentive Plan payments.
• Final average earnings	Average monthly compensation is determined by dividing by 60 the total compensation of a participant during the five consecutive calendar years in which compensation was the highest within the last 10 completed calendar years.
• Employee Contributions	The employer contributes in such amounts and at such times to be consistent with plan objectives and government regulations.
• Participant Contributions	3% of annual earnings in excess of \$9,000. Contributions may cease at normal retirement date if the employee so elects. Interest is credited at 5% through December 31, 1987, and at 120 percent of the federal midterm rate for the first month of the plan year for subsequent plan years.
• Accrued benefit	A participant's accrued pension is his monthly pension amount determined as of any given date equal to his normal retirement pension based on the participant's average monthly earnings to date and his service credit at the given date. Participants of the Morgan-Grampian (Fodors) Pension Plan who were merged into and elected to become participants of this plan have benefits calculated under the Random House formula. Fodors service is recognized

Schedule SB, Part V — Summary of Plan Provisions

for both vesting service and benefit credit. The December 31, 1986 Fodors accrued benefit is included in the plan and applies as a minimum.

Some former employees of Crown Publishing became eligible for the plan as of January 1, 1989. Service with Crown prior to January 1, 1989, is recognized for eligibility for plan participation and for vesting service. Benefits earned for service prior to January 1, 1989, were frozen and vested at December 31, 1988, under the Crown Publishers Pension Trust.

Benefits for all participants were frozen as of June 30, 1998 and no further service accruals, except for purposes of calculating a disability retirement pension, were granted.

Normal retirement

- **Eligibility** A participant's normal retirement date is the date he attains age 65 provided, however, that for a participant who was a participant of the RCA Prior Plan on January 1, 1979, his or her normal retirement age is the first day of the month following attainment of age 65.
- **Benefit** A participant's normal retirement benefit, payable as a 50% Joint and Survivor annuity unless he elects otherwise, is the actuarial equivalent of the five-year certain and life pension equal to the larger of:
 - Final Average Formula: A monthly benefit for each year of service credit to a maximum of 35 years equal to 1.2 % of the first \$833.33 of participant's average monthly compensation plus 1.5% of the participant's average monthly compensation in excess of \$833.33 plus 1.5% of the participant's average monthly compensation for years of service credit in excess of 35 years. A minimum benefit of \$10 per year of service credit applies.
 - Career Average Formula: A monthly benefit which is equal to 1-1/8% of the first \$550 of earnings plus 2% of earnings in excess of \$550, in each year of plan membership after 1970. Other formulas apply for earlier years. Available to employees hired by Random House before March 1, 1980 and is frozen as of December 31, 1988.

Notwithstanding the foregoing, a participant who is an employee on December 31, 1993 and who has earned a benefit in any year prior to 1994 on pay in excess of \$150,000, will have his benefit based upon the greater of A and B as follows:

 - A. The participant's accrued benefit as of December 31, 1993 using the \$200,000 compensation limit as described in Article 2.1(m) of the plan, as indexed, plus the participant's accrued benefit attributable to plan years after December 31, 1993 using the \$150,000 compensation limit described in Article 2.1(m) of the plan, as indexed.
 - B. The participant's accrued benefit based on all service using the \$150,000 compensation limit described in Article 2.1(m) of the plan, as indexed.

Early retirement

- **Eligibility** A participant is eligible for early retirement upon attaining age 55 with five years of service.
- **Benefit** The benefit is payable at the participant's normal retirement date and is equal to his accrued pension. However, the benefit can commence at any
