## INDEPENDENT AUDITOR'S REPORT

The Participants and Administrator of  
The Mentholatum Company Pension Plan for Employees  
Employed in the United States of America

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements**

We have performed an audit of the financial statements of The Mentholatum Company Pension Plan for Employees Employed in the United States of America (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

### **Opinion**

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion of the 2024 Financial Statements**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the 2024 Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the 2024 Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Other Matters**

### **2024 Supplemental Schedules Required by ERISA**

The supplemental schedules of schedule H, line 4i - schedule of assets (held at end of year) and schedule H, Line 4j – schedule of reportable transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Auditor's Report on the 2023 Financial Statements**

Predecessor auditors performed an audit of the 2023 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 11, 2024 indicated that (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2023 supplemental schedule, other than the information in the 2023 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2023 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by the institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

# THE MENTHOLATUM COMPANY PENSION PLAN FOR EMPLOYEES EMPLOYED IN THE UNITED STATES OF AMERICA

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of The Mentholatum Company Pension Plan for Employees Employed in the United States of America (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

**General:** The Plan is a defined benefit plan and is sponsored by The Mentholatum Company (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective July 1, 2006, the Plan was frozen to new entrants. Effective February 28, 2015, the Plan was amended to cease accrual of accredited service and eligible earnings for purposes of participants accruing normal retirement benefits. Participants will continue to accrue service for purposes of receiving an unreduced early retirement at age 62 and with 30 years of service, as defined.

The Retirement Plan Committee is responsible for oversight of the Plan and the Retirement Plan Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

**Funding:** Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts computed by the Plan's actuary to fund at least the minimum funding calculation. The method and the actuarial assumptions utilized have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. The Company did not make any contributions during the years ended December 31, 2024 or 2023. The Plan has met the minimum funding requirement for the years ending December 31, 2024 and 2023.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

**Pension Benefits:** Eligible employees become fully vested after five years of service, as defined by the Plan. The Plan is frozen, and no new employees are eligible to participate in the Plan. The Plan provides for normal retirement benefits upon reaching age 65. The Plan also has provisions for early retirement, deferred vested, disability and survivor benefits for those participants who are eligible to receive such benefits. Benefits are payable in the form of lump-sum payment, a joint survivor annuity, a single life annuity, or other optional forms. Benefits are calculated based on a participant's length of service and the average of the highest five consecutive years of eligible earnings during the ten years immediately prior to the participant's normal retirement date.

**Death and Disability Benefits:** If an active employee dies at age 65 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. If an active or disabled participant with vested benefit dies before their annuity starting date, a benefit is payable to the surviving spouse determined as if the participant had retired immediately preceding their death and elected the 50% contingent annuitant option. This benefit will be reduced if, on the date of death, the participant had not attained normal retirement age. Active employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting:** The accompanying financial statements are prepared on the accrual basis of accounting.

**THE MENTHOLATUM COMPANY PENSION PLAN FOR EMPLOYEES  
EMPLOYED IN THE UNITED STATES OF AMERICA**

**NOTES TO FINANCIAL STATEMENTS**

---

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Use of Estimates:** The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition:** The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits and Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee of the Plan. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Administrative Expenses:** The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

**Payment of Benefits:** Benefit payments to participants are recorded upon distribution.

**Reclassifications:** Certain 2023 amounts have been reclassified to confirm with the 2024 presentation.

**Subsequent Events:** These financial statements have not been updated for subsequent events occurring after October 14, 2025, which is the date these financial statements were available to be issued.

**NOTE 3. FAIR VALUE MEASUREMENTS**

Financial Accounting Standards Board (FASB), *Accounting Standards Codification* (ASC) 820, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820, are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)**

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 or 2023.

**Mutual Funds:** Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	<b>Assets at Fair Value as of December 31, 2024</b>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

**NOTE 4. GUARANTEED INTEREST CONTRACT**

The Plan has a guaranteed interest contract (GIA) with New York Life Insurance Company, an affiliate of John Hancock Trust Company LLC (John Hancock) to support the funding of the defined benefit obligations. Under the terms of the contract, the Company deposits a minimum contribution sufficient so that the account is at least equal to the minimum fund liability. The minimum fund liability is the minimum amount which would be required to provide benefits guaranteed to be paid by New York Life Insurance Company should discontinuance of the Plan occur. New York Life Insurance Company maintains the contributions in an unallocated fund to which it adds interest and charges for withdrawals and administrative expenses.

New York Life Insurance Company determines the crediting interest rate by considering many factors, including economic and market conditions, the general interest rate environment and the expected and actual return within the account. The crediting rate may not be less than the lesser of 3.00% or a rate that is not less than 1.00% and determined by using the six-month average of the five-year Constant Maturity Treasury Rate as reported by the Federal Reserve, minus 1.25%. The average annualized interest rate credited was 3.35% and 2.88% for the years ended December 31, 2024 and 2023, respectively. The crediting rate is reviewed on a semi-annual basis for resetting. The Plan's ability to receive amounts due in accordance with the investment contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against its value for credit risk of the contract issuer or otherwise. If the contract is discontinued the guaranteed deposit account balance will be reduced by the premium required to purchase annuities for the participants who have New York Life Insurance Company guaranteed payments. The amount of the premium will be based on the annuity purchase rates contained in the contract.

EMPLOYED IN THE UNITED STATES OF AMERICA**

**NOTES TO FINANCIAL STATEMENTS**

---

**NOTE 4. GUARANTEED INTEREST CONTRACT (CONTINUED)**

The contract is considered fully benefit-responsive and is therefore reported at contract value in accordance with ASC 960, which represents contributions made under the contract, plus accrued interest, less applicable charges.

In the event of contract termination, the guaranteed deposit account balance may be reduced by the premium required to purchase annuities for participants with guaranteed benefits, based on annuity purchase rates specified in the contract.

**NOTE 5. ACTUARIAL PRESENT VALUE OF ACCUMULATED BENEFITS**

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered to date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and, (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death and termination of employment - are included, to the extent they are deemed attributable to employee service provided up to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2025 were (a) life expectancy of participants as the prescribed mortality assumption under Section 430(h)(3)-1 of the Internal Revenue Code using the generational mortality option was used for the year ended December 31, 2024 (b) PPA effective interest rate of 5.50%, (c) 90% of male employees and 60% of female employees are married to an eligible spouse and (d) assumed retirement age based on employment service. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025. Had the valuations been performed as of December 31, 2024 there would be no material differences.

The following is a summary of the actuarial present value of accumulated benefits determined as of December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Vested benefits:		
Participants or beneficiaries currently receiving payment	\$ 13,270,422	\$ 12,544,453

**NOTE 6. FINANCIAL CERTIFICATION**

The following financial information relating to the Plan's assets at December 31, 2024 and 2023, as well as income and transactions for the years then ended, has been derived from information provided by Manulife John Hancock Retirement and has been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent accountants.

	<u>2024</u>	<u>2023</u>
<b>Investments at fair value:</b>

Interest income	\$ 50,381	\$ 41,445
Net appreciation in fair value of investments	\$ 2,052,111	\$ 2,911,200

**NOTE 7. PARTY-IN-INTEREST TRANSACTIONS**

The Plan's investments are maintained in investment funds managed by John Hancock, the custodian of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Administrative fees are paid by the Plan for custodial, investment advisor and recordkeeping fees, which qualify as party-in-interest transactions.

**NOTE 8. RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amount reported in the statements of net assets available for benefits.

**THE MENTHOLATUM COMPANY PENSION PLAN FOR EMPLOYEES  
EMPLOYED IN THE UNITED STATES OF AMERICA**

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 8. RISKS AND UNCERTAINTIES (CONTINUED)**

Plan contributions are made and the actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates and inflation rates, and demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**NOTE 9. TAX STATUS**

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 23, 2018 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in process.

**NOTE 10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500**

Schedule SB, Part V: statement of actuarial assumptions and methods

**Plan name:** The Mentholatum Company Pension Plan for Employees Employed in the United States of America      **EIN:** 16-0709461  
**Plan sponsor:** The Mentholatum Company      **PN:** 002

**Actuarial cost method**

**Funding target and target normal cost**

An actuarial cost method allocates the expected cost of a pension plan on a year-by-year basis. The primary objective is to accumulate enough assets prior to each participant's retirement to provide the promised pension benefits.

The Pension Protection Act of 2006 (PPA) requires plan sponsors to use the Traditional Unit Credit actuarial cost method in which the estimated accrued benefit is based on service and, if applicable, earnings as of the valuation date. The funding target is equal to the actuarial present value of all accrued benefits as of the valuation date. The target normal cost is the actuarial present value, as of the valuation date, of the expected increases in projected accrued benefits attributable to service expected to be completed during the plan year (i.e., if applicable, one year's salary growth is reflected in the determination of target normal cost).

For tax deduction purposes, the funding target may reflect the value of future pay increases on accrued benefits, if applicable.

**PPA discounting method**

The plan sponsor must choose between full yield curve spot rates or a segmented yield curve of 24-month average corporate bond rates. If the segmented yield curve is selected, the plan sponsor can use either the rates as of the month of the valuation or as of a lookback month, up to 4 months prior to the valuation date. If the full yield curve is selected, the rates as of the month of valuation must be used.

For purposes of this valuation, the following discounting method was used and is assumed to be approved by the plan sponsor:

**September 2023 segment rates, adjusted so each segment rate is no less than the applicable minimum percentage\* of the corresponding 25-year average segment rate for the calendar year that contains the first day of the plan year and no more than the applicable maximum percentage\*\* of that 25-year average segment rate. The 25-year average cannot be less than 5.0% prior to application of the corridor.**

**Asset valuation method**

Plan assets for purposes of this actuarial valuation are valued under the asset averaging method, including, if applicable, discounted receivable contributions. The value is equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value (including expected earnings) for the two earlier annual determination dates. Expected earnings are calculated using a rate no greater than the third segment rate of the segmented yield-curve in effect at the beginning of each valuation year. The resulting average value must be fall between 90 and 110 percent of the fair market value of assets on the valuation date.

\* Minimum is 95% through 2030, decreasing 5% per year beginning in 2031 until 70% is reached in 2035

\*\* Maximum is 105% through 2030 and increasing 5% per year beginning in 2031 until 130% is reached in 2035

# Actuarial assumptions

## Economic Assumptions

PPA Segment Rates	Funding Target	Maximum Deductible Funding Target	PBGC Funding Target
- Segment 1: Up to Year 5	4.75%	3.62%	5.01%
- Segment 2: Years 5-20	4.87%	4.46%	5.13%
- Segment 3: Years 20+	5.59%	4.52%	5.15%
Expected return on plan assets		5.50%	
ASC 960 Discount Rate		5.50%	
Annual rates of increase:

- ASC 960	Pri-2012 Total Dataset Mortality with Scale MP-2021

Terminations:	Rates vary by service, as follows:

	9	4.0%
	10	3.0%
	11	2.0%
	12	1.0%
	13 & over	0.0%

Disability: None

## Actuarial assumptions

Retirement: Age 62 or the completion of 30 years of service, if later, but not beyond age 65. Participants at or beyond this age are assumed to retire immediately.

### Miscellaneous Assumptions

Expenses: Equal to prior year's actual administrative expenses plus the current year's estimated PBGC premium.

Percent Married: 90% of Males, 60% of Females

Spouse's Age: Wives assumed to be 3 years younger than husbands

Benefit Payment Form: All participants are assumed to elect the life annuity with 60 payments guaranteed option.

### Rationale for Significant Assumptions

#### Economic assumptions

- **Expected return on plan assets:** The assumption was selected by the client with input from their investment advisor. We believe the assumption is reasonable as it falls within a reasonable range of expected returns for the plan's asset allocation based on capital market assumptions.
- **ASC 960 discount rate:** This assumption is based on the expected return on plan assets assumption.

#### Demographic Assumptions

- **ASC 960 mortality:** The mortality base table and projection scale is based on the most recent mortality table and improvement scale published by the Society of Actuaries and in our judgement, adequately reflects expected mortality rates as of the measurement date. The SOA elected not to release a new mortality scale for 2023 which would have included mortality data affected by the COVID-19 pandemic, but instead will continue to study emerging mortality experience and assess what mortality improvement scale options might be considered to be implemented in the future. As such, we have decided not to reflect any adjustments to the most recent mortality improvement scale. The plan's relatively small size would not support a credible mortality study.
- **Termination** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in termination patterns are not expected.

## Actuarial assumptions

- **Retirement:** We believe that this assumption is representative of anticipated future experience. It is consistent with early retirement subsidies in the plan. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in retirement patterns are not expected.

### Miscellaneous assumptions

- **Expenses:** The assumption is based on the expectation of expenses to be paid out during the plan year, based on actual PBGC expenses projected for the year, and assuming non-PBGC related expenses will be similar to the prior year.
- **Form of Payment:** All optional forms are actuarially equivalent, and the assumption is based on the normal form of payment.
- **Spouse's Age and Percent Married:** The employer does not have enough credible data to analyze spousal demographics. These assumptions are based on the actuary's experience with similar plans.
