Independent Auditor's Report

RSM US LLP

ESOP Committee and Plan Participants
ARCO Holdings Employee Stock Ownership Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ARCO Holdings Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter—Investments in Common Stock

As discussed in Note 5, the financial statements include an investment representing approximately 100% and 98% total assets, respectively, as of December 31, 2024 and 2023, respectively, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair values, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental Schedule H, part iv, line 4i—schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ARCO Holdings Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Plan Description and Basis of Presentation

The following brief description of ARCO Holdings Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

ARCO National Holdings, Inc. (the Company) established the Plan effective as of January 1, 2019. The Plan was designed and operates as a leveraged employee stock ownership plan (ESOP) designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the ESOP Stock Ownership Committee, which is appointed by the Board of Directors of the Company, who acts as the Plan Administrator and as the Plan's agent for service of legal process and performs the day-to-day administration of the Plan as provided in the Plan documents. An individual member of an independent trust company serves as the Plan's Trustee.

On December 31, 2019, the Plan purchased 647,353 shares of the Company's common stock with a loan of \$160,834,853. The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated common stock (allocated) and (b) common stock not yet allocated to employees (unallocated).

Eligibility: Employees of the Company are generally eligible to participate in the Plan after they worked at least 1,000 hours during such plan year and are at least 18 years of age.

Contributions: The Company is obligated to make contributions in cash to the Plan that, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Payment of benefits: Distributions on account of death, permanent disability or retirement are made in a lump sum in the plan year following the event. Distributions for other separations from service depend on the vested balance of the participant's account. If the participant's vested account does not exceed \$7,000, the participant's account will be paid out in a lump sum as soon as administratively practicable in the first plan year following that in which the participant terminates employment. If a participant's vested balance exceeds \$7,000, distributions are paid at the earlier of (a) the end of the fifth plan year following the termination of employment or (b) the end of the plan year in which the participant attains normal retirement age. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares under certain conditions as prescribed by the Plans.

Administrative expenses: As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. To date, the Company has paid the operating expenses, which are excluded from these financial statements.

ARCO Holdings Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Plan Description and Basis of Presentation (Continued)

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Voting rights: Each participant (under certain circumstances that are mandated by the Code) is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Vesting: If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. A year of service is defined as a plan year during which an employee works at least 1,000 hours. The vesting schedule for participants is as follows:

Years of Service	Vested Percentage
Less than one year	0%
One	20%
Two	40%
Three	60%
Four	80%
Five	100%

All participants shall become 100% vested upon the attainment of normal retirement age, death or permanent disability.

Put option: Under federal income tax regulations, employer securities held by the Plan and its participants that are not readily tradable on an established market, or are subject to trading limitations, include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end.

Forfeitures: Plan forfeitures may be used to pay Plan expenses or allocated to eligible participants in the same manner as Company contributions to eligible participants, at the discretion of the ESOP Committee. The amount of forfeitures as of December 31, 2024 and 2023, were insignificant, and the forfeitures used in 2024 were also insignificant.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Allocations: The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation and income recognition: The shares of Company common stock are reported at fair value. See Note 5 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Dividend income consists primarily of S corporation distributions from the Company. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average-cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of benefits: Benefit payments are recorded when paid.

Debt service transfer: During 2024, the prior year accrued allocated employer contributions receivable and allocated dividends receivable and current year cash contributions were applied to debt service. This is reported as a transfer from the allocated accounts to the unallocated accounts on the statement of changes in net assets available for benefits.

Company dividends: The Company declared no dividends to the ESOP during the year ended December 31, 2024.

Subsequent events: Management has evaluated potential subsequent events through October 14, 2025, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Custodian

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified by the custodian of the Plan. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and ERISA-required supplemental schedules related to the following assets:

	December 31	
	2024	2023
Common stock, ARCO National Holdings, Inc.:		
Fair value	\$ 266,402,140	\$ 260,145,277
Cost	158,978,683	160,834,853
Interest-bearing cash	252,967	137,691

The custodian also certified to the completeness and accuracy of \$34,542 of interest income and \$9,259,094 of net appreciation in fair value of ARCO National Holdings, Inc.'s common stock for the year ended December 31, 2024.

All assets and liabilities of the Plan are nonparticipant-directed and all changes in Plan net assets are detailed on the statement of changes in net assets available for benefits.

Note 4. Investment in the Company Stock

The Plan's investments in the Company stock at December 31, 2024 and 2023, are presented in the following tables:

Note 5. Fair Value Measurements

Accounting guidance on fair value measurements and disclosures, establishes a framework for measuring the fair value of assets and liabilities using a hierarchy system, and expands disclosures about fair value measurement. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts business.

The Plan's statement of net assets available for benefits contains Plan investments that are recorded at fair value on a recurring basis. The three-level valuation hierarchy for disclosure of fair value is as follows:

Level 1: Valuations are derived from quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Valuations are derived from significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3: Valuations are derived from significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

When available, quoted market prices are used to determine the fair value of investments held in the Plan and such items are classified within Level 1 of the fair value hierarchy. A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. The level to which an asset or liability is classified is based upon the lowest level of input that is significant to the fair value measurements. There were no transfers in or out of Level 3 assets during the year ended December 31, 2024.

Interest-bearing cash: Interest-bearing cash is valued at carrying value, which approximates fair value.

Common stock, ARCO National Holdings, Inc.: The fair value of shares of stock in ARCO National Holdings, Inc. is based on an independent appraisal. See description of the valuation method disclosed later in Note 5. As such, these shares are classified within Level 3 of the hierarchy.

Financial assets measured at fair value on a recurring basis as of December 31, 2024 and 2023, are as follows:

	December 31, 2024			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Interest-bearing cash	\$ 252,967	\$ 252,967	\$ -	\$ -

Note 5. Fair Value Measurements (Continued)

	December 31, 2023			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Interest-bearing cash	\$ 137,691	\$ 137,691	\$ -	\$ -
Common stock, ARCO National Holdings, Inc.	260,145,277	-	-	260,145,277
	<u>\$ 260,282,968</u>	<u>\$ 137,691</u>	<u>\$ -</u>	<u>\$ 260,145,277</u>

The following table represents the Plan's Level 3 financial instruments at December 31, 2024 and 2023, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs:

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs
	2024	2023		
Common stock, ARCO National Holdings, Inc.	\$ 266,402,140	\$ 260,145,277	Income	EBITDA Revenue Discount rate Weighted average cost of capital Discount for lack of marketability
			Market	Public comparables EBITDA multiple Discount for lack of marketability

The fair value of the common stock, ARCO National Holdings, Inc., held by the Plan is valued at fair value based upon an independent appraisal. In the appraisal, the valuation is determined utilizing a weighted average between the four approaches identified above. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and fair value of the Company's assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in the values of common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2024 statement of net assets available for benefits.

Notes to Financial Statements

Note 7. Loan Payable

During the year ended December 31, 2019, the Plan entered into loans payable with the selling shareholders of the Company which were subsequently assigned to the Company. The proceeds from the loan payable were used to purchase Company common stock. The resulting term loan agreement with the Company is collateralized by the unallocated shares of the Company common stock. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payment, plus all future years' principal and interest payments. The agreement provides for the loan to be paid back annually, with the final payment plus any accrued interest due December 2078. The loan bears an interest rate of 2.07%. The outstanding balance of the loan payable to the Company at December 31, 2024 and 2023, was \$105,524,782 and \$110,488,458 respectively.

Approximate aggregate contractual maturities of the loan payable during future plan years are as follows:

Years ending December 31:	
2025	\$ 1,093,000
2026	1,116,000
2027	1,139,000
2028	1,157,000
2029	1,187,000
Thereafter	99,833,000
	<u>\$ 105,525,000</u>

Note 8. Tax Status

The trust established under the Plan is qualified under the appropriate section of the Internal Revenue Code (IRC) and intends to continue as a qualified plan and tax-exempt trust. The Internal Revenue Service (IRS) has determined and informed the Plan Sponsor, by a letter dated October 10, 2020, that the Plan, as designed, is qualified under the appropriate section(s) of the IRC. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

U.S GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Related-Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has indebtedness to the Company. These are related-party and party-in-interest transactions. Such parties are parties in interest under ERISA.

Note 10. Plan Termination

The Company reserves the right to terminate the Plan at any time subject to the provisions of the Plan and ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Upon such termination of the Plan, distribution of any unallocated amounts will be made to each participant in the fund in the ratio that his or her allocated account bears to the total of the accounts of all participants. Upon termination of the Plan, the ESOP Stock Ownership Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loans.
