Independent Auditor's Report

To the Plan Trustee, Plan Administrator,
and ESOP Committee
Tanimura & Antle, Inc. Employee
Stock Ownership Plan

Opinion

We have audited the financial statements of Tanimura & Antle, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024 and 2023 and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023 and the changes in net assets available for benefits for the year ended December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As explained in Note 4, the financial statements include investments valued at \$153,523,711 at December 31, 2024 and \$168,960,000 at December 31, 2023, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by a third-party appraiser. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Plan Trustee, Plan Administrator,
and ESOP Committee
Tanimura & Antle, Inc. Employee
Stock Ownership Plan

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2024 and reportable transactions for the year ended December 31, 2024 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

To the Plan Trustee, Plan Administrator,
and ESOP Committee
Tanimura & Antle, Inc. Employee
Stock Ownership Plan

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description of Tanimura & Antle, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Plan was established effective January 1, 2017. The Plan operates as a leveraged employee stock ownership plan with a cash or deferred arrangement, as described by Internal Revenue Code Section 401(a), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC or the "Code") of 1986, as amended.

General

The Plan is available to employees age 18 years or older who have been credited with at least 1,000 hours of service, have completed one full year (or 1,000 hours) of service by the end of the plan year (12-month period), and are employed as of the last day of the plan year, except in the case of retirement, disability, or death. The Plan is not available to contractors, leased employees, employees covered by a collective bargaining arrangement, or nonresident aliens under H-2A visas. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The ESOP committee of Tanimura & Antle, Inc. (the "Company" or the "Plan Sponsor") administers the Plan. Joel Phillips (the "Plan Trustee") serves as trustee, and Principal Financial Group (Principal) maintains the Plan's records.

In February 2017, the Plan purchased 13,200,000 shares of company common stock using the proceeds of borrowings from the Company for a \$120,000,000 note payable, or approximately \$9.09 per share. After the stock purchase, the Plan was the owner of 30 percent of all issued and outstanding company common stock. The note payable was paid in full during 2024 (see Note 6). As the note payable to the Company was repaid, an appropriate percentage of common stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Internal Revenue Code. The borrowing was collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the year ended December 31, 2024 present separately the assets and liabilities and changes therein pertaining to the following:

- a. The accounts of employees with the rights in allocated common stock (allocated)
- b. Common stock not yet allocated to employees (unallocated)

Administration

The Plan's assets, which consist principally of Tanimura & Antle, Inc. common shares, are held by the trustee of the Plan.

Contributions

The Company is obligated to make contributions in cash to the Plan that, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additional discretionary contributions may be made at the discretion of the Company. For the year ended December 31, 2024, the Company made discretionary contributions of \$396,444. Employees are not allowed to contribute to the Plan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released; discretionary contributions; the earnings, losses, and changes in fair value of investments; forfeitures; and plan expenses.

December 31, 2024 and 2023

Note 1 - Plan Description (Continued)

Vesting

Employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

<u>Years of Credited Service in the Plan</u>	<u>Vesting Percentage</u>
Less than 2	- %
2	20
3	40
4	60
5	80
6 or more	100

A participant's account becomes 100 percent vested upon up death, retirement due to disability, plan termination, or after qualifying for retirement (later of obtaining age 65 and fifth anniversary of becoming a participant).

Forfeitures

If a participant terminates employment for any reason other than retirement, disability, or death, the nonvested portion of the participant's account balance is forfeited and is to be allocated to the other plan participants based upon their proportionate shares of eligible compensation subject to certain limits. A five-consecutive-year break in service is required prior to forfeiture if no distribution of fully vested balance is made. Forfeitures will first be charged against a participant's other investment account, with any balance then charged against the stock account. There were no unallocated forfeiture balances at December 31, 2024 and 2023, and \$1,816,352 of forfeitures was incurred or reallocated during the year ended December 31, 2024.

Benefit Payments

A participant's vested account balance will not be distributable until the participant dies, suffers a disability and terminates employment, attains normal retirement age and terminates employment, or terminates employment for any other reason. Distributions are paid in cash to employees as soon as administratively feasible, subject to certain limitations and restrictions, in accordance with the plan document. If a participant terminates employment with the Company, the value of the participant's vested account balance is less than \$1,000, and the participant does not provide specific instructions, the plan administrator shall direct the Plan Trustee to distribute the value of the vested balance in a single lump sum directly to the participant. If the value of the participant's vested balance is greater than \$1,000 but less than \$5,000, and the participant does not provide specific instructions, the plan administrator shall direct the Plan Trustee to distribute the vested account balance to a direct individual retirement account (IRA) in the participant's name. If the value of the participant's vested account balance exceeds \$5,000, the participant must consent to any distribution of the account balance until the participant reaches normal retirement age or age 65.

Unless otherwise required under minimum distribution rules or other plan requirements, distributions will be made in the following manner: (a) a lump-sum payment if the participant's vested balance is \$10,000 or less; (b) equal annual installments not exceeding five years if the participant's balance is greater than \$10,000; or, (c) if the account value exceeds \$1,380,000 (2024 IRS amount), the installments can be extended an additional five years.

December 31, 2024 and 2023

Note 1 - Plan Description (Continued)

Voting Rights

Each participant is entitled to give confidential instructions to the Plan Trustee as to how to vote the shares allocated to his or her account with respect to any proposed corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all of the assets of a trade or business of the Company. The Plan Trustee votes the shares for all other matters that may come before the Company.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investments in company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their accounts. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the 6th year, the percentage changes to 50 percent.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Party-in-interest and Related Party Transactions

The Plan invests in company common stock and has indebtedness to the Company. These are related party and party-in-interest transactions. In addition, the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method.

December 31, 2024 and 2023

Note 2 - Summary of Significant Accounting Policies (Continued)

Investments are held by the Plan Trustee. Investments in company stock are carried at estimated fair value based upon an independent appraisal. The appraisal at December 31, 2024 and 2023 was based upon a combination of the market approach that used comparable company and guideline transaction multiples of enterprise value-to-earnings before interest and taxes (EBIT) and enterprise value-to-earnings before interest, taxes, depreciation, and amortization (EBITDA), as well as an income approach that used a discounted cash flow technique. The appraiser took into account historical and projected cash flows and net income, return on assets, return on equity, market comparables, and estimated fair value of company assets and liabilities. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Common stock appreciation is reflected in the fair value of the common stock and allocated on a per share basis, as defined by the Plan. After estimating the fair value, a discount for lack of marketability was applied to calculate the estimated fair value, and a discount for lack of control was also considered. The valuation as of December 31, 2024 and 2023 was \$17.70 and \$12.80, respectively, per share.

The valuation process involves the Plan Trustee's selection of an independent appraiser under contract for a term of one year with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the audited financial statements of the Company, interim financial statements, and internal projections. The appraiser prepares a preliminary report that the ESOP committee of the Company reviews in detail and the Plan Trustee reviews in detail, discusses, and approves. The results of this process are documented in a final report that is delivered to the Plan Trustee.

The money market fund is valued based on quoted market prices reported in active markets. See Note 4 for additional information.

Benefit Payments

Benefits are recorded when paid. There were benefit payments due to terminated participants not paid totaling \$16,805,361 and \$9,296,374 as of December 31, 2024 and 2023, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 13, 2025, which is the date the financial statements were available to be issued.

Note 3 - Investments in Common Stock

The Plan's investments in company stock at December 31, 2024 and 2023 are presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Company common stock - Shares	8,673,656	-	6,314,900	6,885,100
Company common stock - Cost	\$ 78,843,533	\$ -	\$ 57,408,184	\$ 62,591,816
Company common stock - Fair value	\$ 153,523,711	\$ -	\$ 80,830,722	\$ 88,129,278

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using an independent third-party appraisal, which was based upon a combination of the market approach that used comparable company and guideline transaction multiples of enterprise value-to-EBIT and enterprise value-to-EBITDA, as well as an income approach that used a discounted cash flow technique.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2024 and 2023:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2024

There were no unfunded commitments or redemption restrictions on the investments described above.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6 - Note Payable - Employer

The Plan held a note payable to the Company that was to be paid in equal annual installments of principal plus interest at 2.81 percent until December 2034. On January 12, 2024, the Plan entered into a redemption agreement with the Company in which the Plan redeemed 4,484,356 shares of the company stock held in the Plan to the Company at a price of \$14.75 per share, for a total redemption value of \$66,144,251. In exchange, the Company canceled the remaining balance of the note payable, which consisted of \$66,000,000 in principal and \$144,251 in accrued interest. The redemption transaction resulted in full satisfaction and termination of the note payable and related security interests. The remaining 2,400,744 unallocated shares were released and allocated to participants. Company common stock shares totaling 0 and 6,885,100 are collateral for the note payable as of December 31, 2024 and 2023, respectively.
