Report of Independent Auditors

The Trustee and Plan Administrative Committee of
Goodfellow Bros. Employee Stock Ownership Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Goodfellow Bros. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Goodfellow Bros. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Goodfellow Bros. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Goodfellow Bros. Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Goodfellow Bros. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Goodfellow Bros. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Goodfellow Bros. Employee Stock Ownership Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following brief description of the Goodfellow Bros. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

History and general – Goodfellow Civil Corp., (the Company), established the Plan effective January 1, 2023. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Company with appropriate officers of the Company authorized and directed by the board of directors of the Company to work with counsel to accomplish the purposes of the Company in administering the Plan. Argent Trust Company serves as an independent third-party trustee of the Plan (the Trustee).

On December 31, 2023, the Plan purchased 100% of the Company's common stock from the selling shareholders through notes payable, which were then reassigned to the Company. After the reassignment, the Plan had a note payable to the Company for the full purchase price (Note 7) and holds the stock in a trust established under the Plan. The stock was purchased at a price of \$5.00 per share, for an aggregate purchase price of \$500,000.

The borrowing is collateralized by the unallocated shares of Company stock. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities therein pertaining to:

- a. The accounts of employees with rights in allocated stock (Allocated) and
- b. Stock not yet allocated to employees (Unallocated).

Eligibility – Employees of the Company are eligible to participate in the Plan following the completion of at least one year of service in which they work 1,000 hours. Eligible participants must have at least 1,000 hours of service and be employed on the last day of the Plan year to receive Company stock allocations or contributions for that year, unless the Participant did not meet these requirements due to normal retirement, death, or disability during the Plan year.

Company contributions – The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, if any, equal the amount necessary to enable the Plan to make the regularly scheduled payments of principal and interest due on its note payable. The Company may also make contributions to fund benefit payments to terminated or retired participants. Employee contributions are not permitted. The Company approved contributions of \$40,310 for the Plan year ended December 31, 2024. Amounts were paid on in May 2025.

Goodfellow Bros. Employee Stock Ownership Plan

Notes to Financial Statements

Participant accounts – The Plan is a defined contribution plan under which a separate individual account is established for each participant. As of the last day of each Plan year, each participant’s account receives an allocation of shares of the Company’s common stock released by the Trustee from the unallocated account and forfeitures of terminated participants’ nonvested accounts. Annual allocations of common stock and forfeitures are based on a ratio of each participants compensation to total compensation of all participants. Appreciation or depreciation in the value of Company stock is allocated to each participant’s Company stock account based on the ratio of the participant’s Company stock account balance to all participants’ Company stock account balances.

Vesting – Participant accounts vest according to the following schedule:

<u>Credited Years of Service</u>	<u>Percentage Vested</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

A participant’s account shall fully vest upon retirement, death, or disability.

Forfeitures – Nonvested portions of terminated participants’ accounts shall be forfeited after the participant incurs a five-year break in service. The forfeitures shall be allocated to eligible participants as of the allocation date of the Plan year in which the forfeitures occur. There were no shares forfeited or reallocated to eligible participants in 2024.

Payment of benefits – Distributions shall be made in accordance with the Plan’s distribution policy when a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. In general, a participant’s account will be distributed in cash through liquidation of shares at a price representative of the fair market value of the stock. In the event Company stock is distributed, it will be subject to repurchase by the Company within a time frame defined by the Plan. If a participant’s account balance is less than \$1,000, it will be distributed in cash to the participant, unless otherwise directed by the participant. If the account balance is between \$1,000 and \$5,000 it will be paid as a direct rollover to an individual retirement account designated by the Trustee unless otherwise directed by the participant. Accounts in excess of \$5,000 may remain in the Plan or be distributed based on participant direction.

Diversification – Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in the Company stock into investments that are more diversified. Participants who are at least age 55 and have at least 10 years of participation in the Plan may elect to diversify a portion of their account. Due to the 10-year participation rule, the diversification provisions will commence January 1, 2033, for eligible participants enrolled in the Plan when it was formed on January 1, 2023. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares in their account less all amounts previously diversified. In the sixth year, the percentage increases to 50%.

Goodfellow Bros. Employee Stock Ownership Plan

Notes to Financial Statements

Voting rights – In general, shares of Company stock are voted by the Trustee as further described in the Plan document. With respect to certain corporate matters such as a merger, consolidation, recapitalization, liquidation, dissolution, or sale of substantially all assets of a trade or business, each participant is entitled to direct the Trustee as to the voting of shares of Company stock allocated to his or her account. In those matters, unallocated shares or participant shares without a proxy statement will be voted by the Trustee as directed by the Administrative Committee. The Trustee is required to vote all shares in a manner determined by the Trustee to be consistent with ERISA.

Plan termination – Although the Company has expressed no intent to do so, it reserves the right to terminate the Plan at any time, subject to the Plan provisions. Upon complete or partial termination of the Plan, the entire interest of each of the affected participants shall become 100% vested and be distributed in accordance with the Plan provisions and the IRC. Upon termination of the Plan, the Company shall direct the Trustee to pay all liabilities and expenses of the trust fund and through approval of the board of directors of the Company to sell shares of stock held in the unallocated account to the extent it determines such sale to be necessary in order to repay the loan.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation – Investments are reported at fair value. See Note 6 for discussion of fair value measurements.

Income recognition – The net appreciation of Company common stock consists of both the realized gains or losses and unrealized appreciation and depreciation of allocated and unallocated Company stock.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – The Company pays the administrative expenses of the Plan.

Allocations – The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Subsequent events – The Plan has evaluated subsequent events through October 14, 2025, which is the date the financial statements were available to be issued.

Goodfellow Bros. Employee Stock Ownership Plan

Notes to Financial Statements

Note 3 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated February 12, 2025, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 4 – Administration of Plan Assets

The Plan assets, which consist of Company common stock, are held by the Trustee of the Plan.

Company contributions will be held and managed by the Trustee, which invests cash received and makes benefit payments to participants. The Trustee will also administer the payment of interest and principal on the loan using the Company contributions to the trust.

Certain Plan administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 5 – Investments

The Plan's investment in Company stock is presented in the following table for the year ended December 31:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Company common stock				
Number of shares	-	100,000	-	100,000
Cost	\$ -	\$ 500,000	\$ -	\$ 500,000
Fair value per share	\$ -	\$ 476.43	\$ -	\$ 68.32
Fair value	\$ -	\$ 47,643,000	\$ -	\$ 6,832,000

Note 6 – Fair Value Measurements

The Plan has adopted authoritative guidance on fair value measurements. The guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date.

Goodfellow Bros. Employee Stock Ownership Plan Notes to Financial Statements

The Plan classified its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly;

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table discloses by level the fair value hierarchy as of December 31:

	Fair Value Measurement at December 31, 2024			
	Level 1	Level 2	Level 3	Total
Company Common Stock	\$ -	\$ -	\$ 47,643,000	\$ 47,643,000
	Fair Value Measurement at December 31, 2023			
	Level 1	Level 2	Level 3	Total
Company Common Stock	\$ -	\$ -	\$ 6,832,000	\$ 6,832,000

The fair value of the Company common stock held by the Plan was valued at fair value as of December 31, 2024 and 2023, based upon an independent appraisal. This appraisal was based upon a combination of the market and discounted cash flow valuation techniques. The appraiser took into account historical and projected cash flow and net income, weighted average cost of capital, market comparables, and other factors including a discount for lack of marketability.

Description	Valuation Techniques	Unobservable Inputs
Company common stock	Discounted cash flow	Weighted average cost of capital Terminal growth rate Long-term EBITDA Discount for lack of marketability
	Market approach	Revenue and EBITDA multiples Discount for lack of marketability

Goodfellow Bros. Employee Stock Ownership Plan

Notes to Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7 – Note Payable

In 2023, the Plan entered into a note payable totaling \$500,000 with the Company. The proceeds of the note were used to purchase the Company's outstanding common stock. Unallocated shares are collateral for the note. The agreement provides for the note to be repaid over 20 years. The note bears interest at 5.03% per annum.

The scheduled principal payments for the duration of the note are as follows:

2025	\$	30,996
2026		16,633
2027		17,469
2028		18,348
2029		19,271
Thereafter		<u>397,283</u>
	\$	<u><u>500,000</u></u>

Note 8 – Related Party and Party in Interest Transactions

The Plan invests in Company common stock and has indebtedness with the Company. These are related party and party in interest transactions. The Company pays all administrative expenses. The Plan has several services providers. Such providers are parties in interest under ERISA.

Note 9 – Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 10 – Reconciliation to Form 5500

The Form 5500 has certain items that differ from amounts shown in the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.
