Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BDO USA, P.C.**

(2) EIN: **13-5381590**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X

Independent Auditor's Report

The Plan Administrator
Jack in the Box Inc. Retirement Plan
San Diego, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Jack in the Box Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2024 and 2023 stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, and Schedule H, Line 4j, Schedule of Reportable Transaction for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial

statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agrees to or are derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

1. Description of Plan

The following brief description of the Jack in the Box Inc. (the Company or the Plan Sponsor) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established effective October 21, 1985, last amended and restated effective January 1, 2022, and is a noncontributory defined benefit plan which provides for retirement and death benefits for employees of the Company meeting certain eligibility and service requirements. The Plan is subject to certain provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

A Jack in the Box Inc. employee shall become a participant on the January 1 or July 1 coinciding with or following satisfaction of the Plan's age and service eligibility requirements. The Plan was restated effective January 1, 1989 and merged with the Foodmaker, Inc. Cash Balance Plan for Restaurant Hourly Employees as of December 31, 1990. Subject to various transitional rules, restaurant hourly employees who meet the Plan's eligibility requirements are covered by the Plan. Participants are credited with a year of vesting service for any Plan year in which they have at least 1,000 hours of service. Participants are considered fully vested upon reaching age 65 while employed with the Plan Sponsor or upon completion of five years of service.

Effective December 31, 2010, the Plan was closed to employees hired or reemployed by, or transferred to, the Plan Sponsor after December 31, 2010, and as of December 31, 2015, all benefit accruals under the Plan had ceased.

Subject to certain restrictions, the Plan Sponsor makes contributions to the Plan and has the authority and responsibility for the general administration of the Plan. The Chairperson of the Company's Board of Directors is authorized to appoint the members of the Administrative Committee. The Administrative Committee executes the administration of the Plan.

The Northern Trust Company (the Trustee), as trustee, has the authority to hold, manage and protect the assets of the Plan in accordance with the provisions of the Plan and a separate trust agreement. Additionally, The Bank of New York Mellon/BNY Mellon, N.A. serves as a trustee for certain investments held with Willis Towers Group (WTW) as disclosed in Note 3.

Contributions

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. An actuarial firm calculates the minimum required contribution to be made each year. There was no required minimum contribution in 2024 and 2023.

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Jack in the Box Inc. Retirement Plan

Notes to Financial Statements

Pension Benefits

The benefits formula under the Plan for administrative and restaurant hourly employees is 1% of Final Average Pay times years of benefit service, as defined in the Plan document, plus 0.4% of Final Average Pay, as defined in the Plan document, in excess of Covered Compensation, as defined in the Plan document, times years of benefit service. The years of benefit service used in the 0.4% portion of the formula is limited to a maximum of 35 years. Maintenance/equipment technicians and warehouse and distribution employees also accrue benefits under the Plan beginning at the normal retirement age of 65. Participants are entitled to annual pension benefits equal to those benefits accrued through December 31, 1972 plus 1.25% of the participants' annual earnings for each plan year of continuous service subsequent to December 31, 1972. There are maximum and minimum limitations to the above-described benefits and disability benefits if a participant becomes disabled. As of December 31, 2015, all benefit plan accruals under the Plan had ceased.

The Plan permits early retirement at ages 55-64, subject to certain eligibility requirements, as set forth in the Plan. Benefits received prior to normal retirement age are reduced by amounts determined in the Plan document. In addition, the Plan provides for certain death benefits and disability benefits if a participant dies or becomes disabled.

Group Annuity Contract with Southern & Western Life Assurance Company

In September 2023, the Plan entered into a single premium group annuity contract with Southern & Western Life Assurance Company (Southern & Western) under which the Plan paid Southern & Western \$14,389,000 to purchase a group of annuity contracts for certain annuitants. The annuity contracts provide for monthly annuity benefit payments as defined in the group annuity contract. Amounts under the group annuity contract that have been allocated and applied to the purchased annuities (that is, Southern & Western is obligated to pay the related pension benefits) will be excluded from the Plan's net assets and the accumulated benefit obligation.

Plan Termination

In the event the Plan terminates, the net assets of the Plan are to be allocated to provide benefits in the following priority:

1. Benefits attributable to participant contributions.
2. Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, up to the applicable limits.
4. All other vested and nonforfeitable benefits.
5. All other benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits

Jack in the Box Inc. Retirement Plan

Notes to Financial Statements

under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency of the Plan's net assets to provide accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could materially differ from those estimates.

Investments Valuation and Income Recognition

Investments are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and the trustee.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

Cash Equivalents

Cash equivalents are comprised of commercial paper, short-term bills and notes, and short-term investment funds, which are valued at unadjusted quoted market prices.

Equity Securities

As of December 31, 2024 and 2023, there is an investment held in a collective investment trust, and is valued at the net asset value (NAV) of units held. The fund is primarily invested in domestic and international equities, and also invests in other vehicles like private funds, common stocks, and other equity type securities issued throughout the world. The NAV, as provided by the trustee of the CIT, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the CIT less its liabilities. This practical expedient is not used when it is determined to be probable that the CIT will sell for an amount different than the reported NAV.

Jack in the Box Inc. Retirement Plan

Notes to Financial Statements

Fixed Income

Fixed income investments are comprised of corporate bonds traded on national securities exchanges, valued at unadjusted quoted market prices, as well as securities traded in markets that are not considered active, which are valued based on quoted market prices, broker/dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Certain investments are held in collective investment trusts, valued at net asset value per share as a practical expedient to estimate fair value.

Other fixed income securities are comprised of other commingled funds invested in registered securities which are valued at the unadjusted quoted price in an active market or exchange and long-duration U.S. government/credit funds which are valued based on observable inputs, which include quoted market prices in active markets for similar securities, valuations based on commonly quoted benchmark interest rates, maturities, ratings and/or securities indices. Certain investments are held in collective investment trusts and valued at net asset value per share as a practical expedient to estimate fair value.

Alternatives

The alternative investment consists primarily of an investment in asset classes other than stocks, bonds, and cash. As of December 31, 2024 and 2023, there is an investment held in a collective investment trust, and is valued at net asset value per share as a practical expedient to estimate fair value. Alternative investments held in the collective investment trust include equity securities of companies located outside the United States in developed and emerging markets, fixed income securities, short-term investments and affiliated funds, as well as exchange traded funds, future contracts and forward foreign currency contracts. Alternative investments can also include commodities, hedge funds, private equity, managed futures, and derivatives.

Real Estate

Real estate are investments in a real estate investment trust and a collective investment trust for purposes of total return. Funds invested include a real estate fund that is composed primarily of real estate investments owned directly or through partnership interests and mortgage loans on income-producing real estate, and a collective investment trust that invests in public and private debt and equity investments in a range of real asset strategies, including but not limited to real estate, infrastructure, timberland, and agriculture/ farmland. Redemptions are restricted based on available cash. The real estate funds includes an open-end, perpetual, commingled real estate debt fund comprised of real estate loans secured by income-producing commercial real estate. Real estate investments are valued based on net asset value per share as a practical expedient to estimate fair value, or prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurements.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses represent amounts incurred for recordkeeping services and other administrative type services are paid by both the Plan and Company as provided in the Plan

Jack in the Box Inc. Retirement Plan

Notes to Financial Statements

document. Personnel within the Company perform various administrative services for the Plan. The payroll and related overhead costs associated with these services are not included as Plan expenses. Most administrative expenses of the Plan, including recordkeeping, consulting, investment management, legal, PBGC premiums, actuarial and audit fees, are paid by the Plan which totaled \$1,563,741 and \$1,906,423 for the years ended December 31, 2024 and 2023, respectively.

3. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2024 or 2023. A description of the valuation methodologies used for assets measured at fair value is in Note 2.

The methods described in Note 2 may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(1) The JPMCB Strategic Property Fund is composed primarily of real estate investment owned directly or through partnership interests and mortgage loans on income-producing real estate. Redemptions are restricted based on available cash.

(2) The WTW GT Real Assets Fund redemptions are restricted based on available cash.

There are no unfunded commitments for any of the investments measured at NAV.

4. Certified Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee and The Bank of New York Mellon/BNY Mellon, N.A. (BNY), qualified institutions, have certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate.

December 31,	2024	2023
Investments, at fair value	\$ 191,778,802	\$ 175,884,420
Accrued interest and dividends	12,400	32,076
Interest and dividend income	293,685	752,824
Net appreciation of fair value of investments	1,621,930	15,350,179

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules. The investment values contained in Note 3 and the supplemental schedules have also been certified as complete and accurate by the Trustee and BNY.

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future payments that are attributable under the Plan's provisions to services rendered by the participants under the Plan's provisions. Accumulated plan benefits include benefits expected to be paid to retired or terminated participants or their beneficiaries, beneficiaries of participants who have died and active participants or their beneficiaries. Benefits are based on average earnings, length of service, and covered compensation. The vested status for active participants is based on the valuation date for calculating accumulated plan benefits. All benefits payable under the Plan shall be payable only from the Trust.

An actuarial firm calculates the actuarial present value of accumulated plan benefits by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The accumulated plan benefit information as of January 1, 2024 is as follows:

Actuarial Present Value of Accumulated Plan Benefits

Vested Benefits:

Participants currently receiving payments	\$ 135,522,480
Vested terminated participants	122,094,934
Active participants	23,285,254
Nonvested benefits	768,638

Total Actuarial Present Value of Accumulated Plan Benefits	\$ 281,671,306
---	-----------------------

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the computations of the actuarial present value of accumulated plan benefits been performed as of December 31, 2023, there would be no material differences.

Changes in Accumulated Plan Benefits

Present Value of Accumulated Benefits, January 1, 2023	\$ 315,583,233
Actuarial gain	(2,371,689)
Increase in interest due to decrease in discount period	15,350,147
Actual benefits paid	(29,199,921)
Change in assumptions	(17,690,464)
Net Decrease	(33,911,927)
Present Value of Accumulated Benefits, January 1, 2024	\$ 281,671,306

Jack in the Box Inc. Retirement Plan

Notes to Financial Statements

Significant assumptions underlying the January 1, 2024 actuarial computations are:

Expected Rate of Return	5.60%
Mortality	Healthy Mortality is based on Pri-2012 combined mortality base table with separate contingent annuity mortality rates used following the death of the retiree (Approach 2 as defined in the Society of Actuaries' report on Pri-2012). The base mortality table is projected forward generationally using MP-2021, with blue collar adjustments for hourly participants for this measurement. This is unchanged from the prior valuation.
Retirement	A percentage at each age over a period from retirement ages of 55 to 69.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The decrease in the present value of accumulated benefits due to changes in assumptions is due primarily to the increase in discount rate from 5.10% to 5.60%.

6. Tax Status

The Plan obtained its latest determination letter on September 2, 2014, in which the Internal Revenue Service (IRS) states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter, however, the Plan Sponsor and Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Concentrations, Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

The Plan invests in various investment options that invest in securities of foreign companies, which involve special risk and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Jack in the Box Inc. Retirement Plan

Notes to Financial Statements

As of December 31, 2024 and 2023, there were four and three investments, respectively, each year held that individually accounted for more than 10% of total investments. See the supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at December 31, 2024.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

8. Related-Party and Party in Interest Transactions

During the 2024 and 2023 Plan years, the Northern Trust Company managed certain Plan investments. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules under ERISA.

9. Subsequent Events

In accordance with ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 14, 2025, the date the financial statements were available to be issued and has determined that there were no material events requiring recognition or disclosure.

Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 4.50% for 2022 and 5.10% for 2023 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Jack in the Box Inc. regarding the likelihood that these benefits will be paid.

WTW has reviewed the plan provisions with Jack in the Box Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays benefits with a present value up to \$20,000 in a single lump sum payment. Such lump sums are not explicitly valued as such; rather, such participant benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

The following assumptions were made for missing or apparently inconsistent data elements:

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	Plan-related expenses are estimated by actual administrative and investment expenses paid in the prior year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates differ by age, service and work group because of expected differences in termination rates by age, service and work group.
Disability	<p>Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.</p> <p>Assumed disability rates differ by gender because of expected differences in disability rates by gender.</p>
Retirement	<p>Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.</p> <p>Assumed retirement rates differ by work group because of expected differences in retirement rates by work group.</p>

Change in assumptions since prior valuation

- The full corporate bond yield curve used to calculate the funding target was updated to the current valuation date as required by IRC §430.
- The mortality assumption used to calculate the funding target reflects the latest mortality table and improvement scale and was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430
- The assumed plan-related expenses added to the target normal cost were changed to \$1,906,423 for 2024 from \$1,938,365 for 2023 and remains based upon the actual administrative and investment related expenses for the prior year. The amounts reflect accrued expenses.

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2024

The average retirement age for Line 22 was calculated by creating a hypothetical life table with retirement as the only decrement, and then computing the average retirement age for the table. The average weighted retirement age shown on Line 22 of the Schedule SB is indicative of the average weighted retirement age for Administrative participants, as the majority of the plan population is comprised of Administrative participants.

Other Plan Provisions

Forms of payment

Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.

Optional forms are a 75% joint and survivor annuity, a 100% joint and survivor annuity, a five-year or ten-year certain and life annuity, a level income form of payment, or (for married participants) a life annuity.

Actuarial equivalence is based on 8% interest and UP84 mortality. For small payments (under \$20,000), lump sums use actuarial equivalence as defined in Section 417(e)(3) of the Internal Revenue Code.

Pension Increases

None

Plan participants' contributions

None

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. This limit is indexed annually. Benefits were frozen effective December 31, 2015.

The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions. Willis Towers Watson is not aware of any future plan changes which are required to be reflected.
