Independent Auditor's Report

Fiduciary Plan Committee and Participants
Avidity Science Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Avidity Science Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of January 2, 2025, December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the period January 1, 2025 to January 2, 2025, and for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter-Plan Merger

As discussed in Note 1 to the financial statements, in connection with the acquisition of Avidity Science, LLC by ATS Corporation in September 2023, the Plan has merged into ATS Corporation 401K Retirement Plan effective January 1, 2025. Our opinion was not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i—schedule of assets (held at end of year), as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of Avidity Science Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering qualified employees of Avidity Science, LLC and the subsidiaries defined in the Plan document (the Company). Employees of the Company became eligible to participate in the Plan upon attaining the age of 18 and were allowed to participate in the Plan on the first business day immediately following the date of meeting the Plan's eligibility requirements. College students and leased employees, as defined, that are only employed by the Company on an intermittent basis, were not eligible to participate in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company has delegated administration of the Plan to the Fiduciary Plan Committee, which is responsible for oversight of the Plan.

Plan merger: In September 2023, ATS Corporation acquired 100% of the issued and outstanding equity interests of Avidity Science, LLC. In connection with this acquisition, the Plan was merged into ATS Corporation 401K Retirement Plan, effective January 1, 2025. Total assets of approximately \$37,698,000 were transferred into the control of ATS Corporation 401K Retirement Plan on January 2, 2025.

Contributions: Prior to the plan merger, participants could contribute a percentage of eligible compensation, as defined by the Plan, to the Plan. The Plan included an automatic enrollment provision whereby all eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate. Automatically enrolled participants had their deferral rate set at 5% of eligible compensation until changed by the participant. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers).

All active participants in the Plan were eligible for Company safe harbor matching contributions in an amount equal to 100% of the amount of the participant's elective deferrals that did not exceed 4% of the participant's eligible compensation.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts: Each participant's account were credited with the participant's contributions and the Company's safe harbor matching contributions, as well as allocations of forfeited nonvested accounts and Plan earnings. Participant accounts are charged with an allocation of Plan losses and administrative expenses that are paid by the Plan. Allocations are based on participants' eligible compensation, participant earnings, account balances or specified transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct their contributions and/or their account balances among the Plan's investment alternatives. All investments are participant directed.

Vesting: Participants are immediately vested in their contributions and the Company's safe harbor matching contributions, plus actual earnings thereon.

For Company contributions made prior to January 1, 2022, and earnings thereon, vesting in the Company's contributions and earnings thereon was based on years of continuing service. A participant was 100% vested after three years of credited service, upon death or disability during the term of employment, qualified retirement, or termination of the Plan.

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Forfeitures: Forfeitures are portions of participant account balances that participants surrender by terminating employment prior to becoming fully vested. At the Plan Sponsor's discretion, forfeited nonvested account balances are used as an additional discretionary contribution, used to partially fund the Company's contributions, or used to pay Plan expenses. As of January 2, 2025, December 31, 2024 and 2023, unallocated forfeitures were \$0, \$19,194, and \$38,166, respectively.

Notes receivable from participants: Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes were secured by the balance in the participant's account and bear interest at a rate as determined by the Plan Administrator. There were no notes receivable from participants as of January 2, 2025. Notes receivable from participants as of December 31, 2024, had interest rates ranging from 4.75% to 10.00%. The Plan provided for a maximum note period of five years unless the note was associated with the purchase of a participant's principal residence, in which case the note term may exceed five years. Principal and interest were paid ratably through payroll deductions.

Payment of benefits: Benefits under the Plan were paid upon normal retirement age, termination of service, death or permanent disability. A participant could elect to receive the value of the participant's vested interest in his or her account in a lump-sum payment or installment payments. In-service withdrawals could commence upon attaining the age of 59½. The Plan did not permit hardship withdrawals.

Risks and uncertainties: The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment valuation and income recognition: The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees were included in the unpaid principal balance. No allowance for credit losses has been recorded at January 2, 2025, December 31, 2024, or 2023. Delinquent notes receivable from participants were reclassified as distributions based upon the terms of the Plan document.

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2024.

Contributions: Contributions from Plan participants and the matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation.

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Administrative expenses: Certain expenses incurred in conjunction with the Plan are paid by the Company and are excluded from these financial statements. Certain asset management and administrative expenses of the Plan are charged against the Plan's investment results.

Subsequent events: The Company has evaluated subsequent events through October 8, 2025, the date the financial statements were available to be issued.

Note 3. Information Certified by Vanguard Fiduciary Trust Company

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements, obtained by management and agreed to or derived from information certified as complete and accurate by Vanguard Fiduciary Trust Company, a qualified institution:

	December 31 2024	December 31 2023
Investments at fair value:		
Mutual funds	\$ -	\$ 38,940,730
Common/collective trust fund	-	4,107,919
Notes receivable from participants	-	321,649
	<u>\$ -</u>	<u>\$ 43,370,298</u>

Vanguard Fiduciary Trust Company also certified to the completeness and accuracy of \$3,248,348 of net appreciation in fair value of investments, \$1,876,961 of interest and dividends related to the investments, \$1,871 of other income, and \$27,163 of interest income on notes receivable from participants for the year ended December 31, 2024.

Vanguard Fiduciary Trust Company did not certify the Plan's asset information as of January 2, 2025, nor for the period from January 1, 2025 to January 2, 2025.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Mutual funds are valued at quoted market prices for identical assets in active markets for shares held by the Plan at year-end.

Common/collective trust fund: The common/collective trust fund is a stable value fund that is composed primarily of fully benefit-responsive investment contracts. The common/collective trust is measured using the net asset value (NAV) per share practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Were the Plan to initiate a full redemption of the common/collective trust fund, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Note 4. Fair Value Measurements (Continued)

There were no Plan assets at fair value as of January 2, 2025. The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Description	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ -	\$ -	\$ -	\$ -
Investment measured at NAV (a):				
Common/collective trust fund				3,264,636
Total investments at fair value				<u>\$ 3,264,636</u>

Description	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	<u>\$38,940,730</u>	\$ -	\$ -	\$38,940,730
Investment measured at NAV (a):				
Common/collective trust fund				4,107,919
Total investments at fair value				<u>\$43,048,649</u>

(a) In accordance with Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent as a practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2024 and 2023. There were no investments reported at NAV per share practical expedient as of January 2, 2025. There are no participant redemption restrictions for these investments.

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	December 31, 2024	2023			
Common/collective trust fund:					
Vanguard Retirement Savings Trust	\$ 3,264,636	\$ 4,107,919	None	Daily	None

Note 5. Tax Status

The Plan adopted a preapproved plan document that has received an opinion letter from the IRS dated June 2020, stating that the form of the preapproved plan document was in compliance with applicable requirement of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements

Note 6. Related Party and Party-in-Interest Transactions

The Plan invested in funds managed by an affiliate of Vanguard Fiduciary Trust Company, the trustee of the Plan. Transactions with Vanguard Fiduciary Trust Company and its affiliates' are considered party-in-interest transactions. Fees for the investment management services were charged against investment results. These transactions are not considered prohibited transactions under ERISA regulations.

Note 7. Plan Termination

The Company had the right under the Plan document to discontinue its contributions and to terminate or partially terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions and related earnings. As a result of the Plan merger described in Note 1, all plan assets were transferred out of the Plan during the period from January 1, 2025 to January 2, 2025. The merger did not impact participant benefits as the benefit provisions were incorporated into ATS Corporation 401K Retirement Plan.

Note 8. Financial Statement Presentation

These financial statements include the years ended December 31, 2024 and 2023, and the period from January 1, 2025 to January 2, 2025. The Plan elected to defer the filing of its financial statements with its Form 5500 for the year ended December 31, 2024, as permitted by 29 CFR 2520.104-50, since the following Plan year ended January 2, 2025, is a short year of seven months or less. Accordingly, the Plan has included statements of net assets available for benefits as of January 2, 2025, December 31, 2024, and December 31, 2023, along with statements of changes in net assets available for benefits for the period from January 1, 2025 to January 2, 2025, and year ended December 31, 2024, as required by DOL regulations when such election is made.

Independent Auditor's Report

Fiduciary Plan Committee and Participants
Avidity Science Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Avidity Science Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of January 2, 2025, December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the period January 1, 2025 to January 2, 2025, and for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter-Plan Merger

As discussed in Note 1 to the financial statements, in connection with the acquisition of Avidity Science, LLC by ATS Corporation in September 2023, the Plan has merged into ATS Corporation 401K Retirement Plan effective January 1, 2025. Our opinion was not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i—schedule of assets (held at end of year), as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of Avidity Science Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering qualified employees of Avidity Science, LLC and the subsidiaries defined in the Plan document (the Company). Employees of the Company became eligible to participate in the Plan upon attaining the age of 18 and were allowed to participate in the Plan on the first business day immediately following the date of meeting the Plan's eligibility requirements. College students and leased employees, as defined, that are only employed by the Company on an intermittent basis, were not eligible to participate in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company has delegated administration of the Plan to the Fiduciary Plan Committee, which is responsible for oversight of the Plan.

Plan merger: In September 2023, ATS Corporation acquired 100% of the issued and outstanding equity interests of Avidity Science, LLC. In connection with this acquisition, the Plan was merged into ATS Corporation 401K Retirement Plan, effective January 1, 2025. Total assets of approximately \$37,698,000 were transferred into the control of ATS Corporation 401K Retirement Plan on January 2, 2025.

Contributions: Prior to the plan merger, participants could contribute a percentage of eligible compensation, as defined by the Plan, to the Plan. The Plan included an automatic enrollment provision whereby all eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate. Automatically enrolled participants had their deferral rate set at 5% of eligible compensation until changed by the participant. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers).

All active participants in the Plan were eligible for Company safe harbor matching contributions in an amount equal to 100% of the amount of the participant's elective deferrals that did not exceed 4% of the participant's eligible compensation.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts: Each participant's account were credited with the participant's contributions and the Company's safe harbor matching contributions, as well as allocations of forfeited nonvested accounts and Plan earnings. Participant accounts are charged with an allocation of Plan losses and administrative expenses that are paid by the Plan. Allocations are based on participants' eligible compensation, participant earnings, account balances or specified transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct their contributions and/or their account balances among the Plan's investment alternatives. All investments are participant directed.

Vesting: Participants are immediately vested in their contributions and the Company's safe harbor matching contributions, plus actual earnings thereon.

For Company contributions made prior to January 1, 2022, and earnings thereon, vesting in the Company's contributions and earnings thereon was based on years of continuing service. A participant was 100% vested after three years of credited service, upon death or disability during the term of employment, qualified retirement, or termination of the Plan.

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Forfeitures: Forfeitures are portions of participant account balances that participants surrender by terminating employment prior to becoming fully vested. At the Plan Sponsor's discretion, forfeited nonvested account balances are used as an additional discretionary contribution, used to partially fund the Company's contributions, or used to pay Plan expenses. As of January 2, 2025, December 31, 2024 and 2023, unallocated forfeitures were \$0, \$19,194, and \$38,166, respectively.

Notes receivable from participants: Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes were secured by the balance in the participant's account and bear interest at a rate as determined by the Plan Administrator. There were no notes receivable from participants as of January 2, 2025. Notes receivable from participants as of December 31, 2024, had interest rates ranging from 4.75% to 10.00%. The Plan provided for a maximum note period of five years unless the note was associated with the purchase of a participant's principal residence, in which case the note term may exceed five years. Principal and interest were paid ratably through payroll deductions.

Payment of benefits: Benefits under the Plan were paid upon normal retirement age, termination of service, death or permanent disability. A participant could elect to receive the value of the participant's vested interest in his or her account in a lump-sum payment or installment payments. In-service withdrawals could commence upon attaining the age of 59½. The Plan did not permit hardship withdrawals.

Risks and uncertainties: The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment valuation and income recognition: The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees were included in the unpaid principal balance. No allowance for credit losses has been recorded at January 2, 2025, December 31, 2024, or 2023. Delinquent notes receivable from participants were reclassified as distributions based upon the terms of the Plan document.

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2024.

Contributions: Contributions from Plan participants and the matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation.

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Administrative expenses: Certain expenses incurred in conjunction with the Plan are paid by the Company and are excluded from these financial statements. Certain asset management and administrative expenses of the Plan are charged against the Plan's investment results.

Subsequent events: The Company has evaluated subsequent events through October 8, 2025, the date the financial statements were available to be issued.

Note 3. Information Certified by Vanguard Fiduciary Trust Company

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements, obtained by management and agreed to or derived from information certified as complete and accurate by Vanguard Fiduciary Trust Company, a qualified institution:

	December 31 2024	December 31 2023
Investments at fair value:		
Mutual funds	\$ -	\$ 38,940,730
Common/collective trust fund	-	4,107,919
Notes receivable from participants	-	321,649
	<u>\$ -</u>	<u>\$ 43,370,298</u>

Vanguard Fiduciary Trust Company also certified to the completeness and accuracy of \$3,248,348 of net appreciation in fair value of investments, \$1,876,961 of interest and dividends related to the investments, \$1,871 of other income, and \$27,163 of interest income on notes receivable from participants for the year ended December 31, 2024.

Vanguard Fiduciary Trust Company did not certify the Plan's asset information as of January 2, 2025, nor for the period from January 1, 2025 to January 2, 2025.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Mutual funds are valued at quoted market prices for identical assets in active markets for shares held by the Plan at year-end.

Common/collective trust fund: The common/collective trust fund is a stable value fund that is composed primarily of fully benefit-responsive investment contracts. The common/collective trust is measured using the net asset value (NAV) per share practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Were the Plan to initiate a full redemption of the common/collective trust fund, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Note 4. Fair Value Measurements (Continued)

There were no Plan assets at fair value as of January 2, 2025. The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Description	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ -	\$ -	\$ -	\$ -
Investment measured at NAV (a):				
Common/collective trust fund				3,264,636
Total investments at fair value				<u>\$ 3,264,636</u>

Description	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	<u>\$38,940,730</u>	\$ -	\$ -	\$38,940,730
Investment measured at NAV (a):				
Common/collective trust fund				4,107,919
Total investments at fair value				<u>\$43,048,649</u>

(a) In accordance with Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent as a practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2024 and 2023. There were no investments reported at NAV per share practical expedient as of January 2, 2025. There are no participant redemption restrictions for these investments.

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	December 31, 2024	2023			
Common/collective trust fund:					
Vanguard Retirement Savings Trust	\$ 3,264,636	\$ 4,107,919	None	Daily	None

Note 5. Tax Status

The Plan adopted a preapproved plan document that has received an opinion letter from the IRS dated June 2020, stating that the form of the preapproved plan document was in compliance with applicable requirement of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 6. Related Party and Party-in-Interest Transactions

The Plan invested in funds managed by an affiliate of Vanguard Fiduciary Trust Company, the trustee of the Plan. Transactions with Vanguard Fiduciary Trust Company and its affiliates' are considered party-in-interest transactions. Fees for the investment management services were charged against investment results. These transactions are not considered prohibited transactions under ERISA regulations.

Note 7. Plan Termination

The Company had the right under the Plan document to discontinue its contributions and to terminate or partially terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions and related earnings. As a result of the Plan merger described in Note 1, all plan assets were transferred out of the Plan during the period from January 1, 2025 to January 2, 2025. The merger did not impact participant benefits as the benefit provisions were incorporated into ATS Corporation 401K Retirement Plan.

Note 8. Financial Statement Presentation

These financial statements include the years ended December 31, 2024 and 2023, and the period from January 1, 2025 to January 2, 2025. The Plan elected to defer the filing of its financial statements with its Form 5500 for the year ended December 31, 2024, as permitted by 29 CFR 2520.104-50, since the following Plan year ended January 2, 2025, is a short year of seven months or less. Accordingly, the Plan has included statements of net assets available for benefits as of January 2, 2025, December 31, 2024, and December 31, 2023, along with statements of changes in net assets available for benefits for the period from January 1, 2025 to January 2, 2025, and year ended December 31, 2024, as required by DOL regulations when such election is made.

Independent Auditor's Report

Fiduciary Plan Committee and Participants
Avidity Science Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Avidity Science Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of January 2, 2025, December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the period January 1, 2025 to January 2, 2025, and for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter-Plan Merger

As discussed in Note 1 to the financial statements, in connection with the acquisition of Avidity Science, LLC by ATS Corporation in September 2023, the Plan has merged into ATS Corporation 401K Retirement Plan effective January 1, 2025. Our opinion was not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i—schedule of assets (held at end of year), as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of Avidity Science Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering qualified employees of Avidity Science, LLC and the subsidiaries defined in the Plan document (the Company). Employees of the Company became eligible to participate in the Plan upon attaining the age of 18 and were allowed to participate in the Plan on the first business day immediately following the date of meeting the Plan's eligibility requirements. College students and leased employees, as defined, that are only employed by the Company on an intermittent basis, were not eligible to participate in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company has delegated administration of the Plan to the Fiduciary Plan Committee, which is responsible for oversight of the Plan.

Plan merger: In September 2023, ATS Corporation acquired 100% of the issued and outstanding equity interests of Avidity Science, LLC. In connection with this acquisition, the Plan was merged into ATS Corporation 401K Retirement Plan, effective January 1, 2025. Total assets of approximately \$37,698,000 were transferred into the control of ATS Corporation 401K Retirement Plan on January 2, 2025.

Contributions: Prior to the plan merger, participants could contribute a percentage of eligible compensation, as defined by the Plan, to the Plan. The Plan included an automatic enrollment provision whereby all eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate. Automatically enrolled participants had their deferral rate set at 5% of eligible compensation until changed by the participant. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers).

All active participants in the Plan were eligible for Company safe harbor matching contributions in an amount equal to 100% of the amount of the participant's elective deferrals that did not exceed 4% of the participant's eligible compensation.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts: Each participant's account were credited with the participant's contributions and the Company's safe harbor matching contributions, as well as allocations of forfeited nonvested accounts and Plan earnings. Participant accounts are charged with an allocation of Plan losses and administrative expenses that are paid by the Plan. Allocations are based on participants' eligible compensation, participant earnings, account balances or specified transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct their contributions and/or their account balances among the Plan's investment alternatives. All investments are participant directed.

Vesting: Participants are immediately vested in their contributions and the Company's safe harbor matching contributions, plus actual earnings thereon.

For Company contributions made prior to January 1, 2022, and earnings thereon, vesting in the Company's contributions and earnings thereon was based on years of continuing service. A participant was 100% vested after three years of credited service, upon death or disability during the term of employment, qualified retirement, or termination of the Plan.

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Forfeitures: Forfeitures are portions of participant account balances that participants surrender by terminating employment prior to becoming fully vested. At the Plan Sponsor's discretion, forfeited nonvested account balances are used as an additional discretionary contribution, used to partially fund the Company's contributions, or used to pay Plan expenses. As of January 2, 2025, December 31, 2024 and 2023, unallocated forfeitures were \$0, \$19,194, and \$38,166, respectively.

Notes receivable from participants: Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes were secured by the balance in the participant's account and bear interest at a rate as determined by the Plan Administrator. There were no notes receivable from participants as of January 2, 2025. Notes receivable from participants as of December 31, 2024, had interest rates ranging from 4.75% to 10.00%. The Plan provided for a maximum note period of five years unless the note was associated with the purchase of a participant's principal residence, in which case the note term may exceed five years. Principal and interest were paid ratably through payroll deductions.

Payment of benefits: Benefits under the Plan were paid upon normal retirement age, termination of service, death or permanent disability. A participant could elect to receive the value of the participant's vested interest in his or her account in a lump-sum payment or installment payments. In-service withdrawals could commence upon attaining the age of 59½. The Plan did not permit hardship withdrawals.

Risks and uncertainties: The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment valuation and income recognition: The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees were included in the unpaid principal balance. No allowance for credit losses has been recorded at January 2, 2025, December 31, 2024, or 2023. Delinquent notes receivable from participants were reclassified as distributions based upon the terms of the Plan document.

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2024.

Contributions: Contributions from Plan participants and the matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation.

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Administrative expenses: Certain expenses incurred in conjunction with the Plan are paid by the Company and are excluded from these financial statements. Certain asset management and administrative expenses of the Plan are charged against the Plan's investment results.

Subsequent events: The Company has evaluated subsequent events through October 8, 2025, the date the financial statements were available to be issued.

Note 3. Information Certified by Vanguard Fiduciary Trust Company

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements, obtained by management and agreed to or derived from information certified as complete and accurate by Vanguard Fiduciary Trust Company, a qualified institution:

	December 31 2024	December 31 2023
Investments at fair value:		
Mutual funds	\$ -	\$ 38,940,730
Common/collective trust fund	-	4,107,919
Notes receivable from participants	-	321,649
	<u>\$ -</u>	<u>\$ 43,370,298</u>

Vanguard Fiduciary Trust Company also certified to the completeness and accuracy of \$3,248,348 of net appreciation in fair value of investments, \$1,876,961 of interest and dividends related to the investments, \$1,871 of other income, and \$27,163 of interest income on notes receivable from participants for the year ended December 31, 2024.

Vanguard Fiduciary Trust Company did not certify the Plan's asset information as of January 2, 2025, nor for the period from January 1, 2025 to January 2, 2025.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Avidity Science Retirement Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Mutual funds are valued at quoted market prices for identical assets in active markets for shares held by the Plan at year-end.

Common/collective trust fund: The common/collective trust fund is a stable value fund that is composed primarily of fully benefit-responsive investment contracts. The common/collective trust is measured using the net asset value (NAV) per share practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Were the Plan to initiate a full redemption of the common/collective trust fund, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Note 4. Fair Value Measurements (Continued)

There were no Plan assets at fair value as of January 2, 2025. The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Description	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ -	\$ -	\$ -	\$ -
Investment measured at NAV (a):				
Common/collective trust fund				3,264,636
Total investments at fair value				<u>\$ 3,264,636</u>

Description	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	<u>\$38,940,730</u>	\$ -	\$ -	\$38,940,730
Investment measured at NAV (a):				
Common/collective trust fund				4,107,919
Total investments at fair value				<u>\$43,048,649</u>

(a) In accordance with Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent as a practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2024 and 2023. There were no investments reported at NAV per share practical expedient as of January 2, 2025. There are no participant redemption restrictions for these investments.

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	December 31, 2024	2023			
Common/collective trust fund:					
Vanguard Retirement Savings Trust	\$ 3,264,636	\$ 4,107,919	None	Daily	None

Note 5. Tax Status

The Plan adopted a preapproved plan document that has received an opinion letter from the IRS dated June 2020, stating that the form of the preapproved plan document was in compliance with applicable requirement of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Related Party and Party-in-Interest Transactions

The Plan invested in funds managed by an affiliate of Vanguard Fiduciary Trust Company, the trustee of the Plan. Transactions with Vanguard Fiduciary Trust Company and its affiliates' are considered party-in-interest transactions. Fees for the investment management services were charged against investment results. These transactions are not considered prohibited transactions under ERISA regulations.

Note 7. Plan Termination

The Company had the right under the Plan document to discontinue its contributions and to terminate or partially terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions and related earnings. As a result of the Plan merger described in Note 1, all plan assets were transferred out of the Plan during the period from January 1, 2025 to January 2, 2025. The merger did not impact participant benefits as the benefit provisions were incorporated into ATS Corporation 401K Retirement Plan.

Note 8. Financial Statement Presentation

These financial statements include the years ended December 31, 2024 and 2023, and the period from January 1, 2025 to January 2, 2025. The Plan elected to defer the filing of its financial statements with its Form 5500 for the year ended December 31, 2024, as permitted by 29 CFR 2520.104-50, since the following Plan year ended January 2, 2025, is a short year of seven months or less. Accordingly, the Plan has included statements of net assets available for benefits as of January 2, 2025, December 31, 2024, and December 31, 2023, along with statements of changes in net assets available for benefits for the period from January 1, 2025 to January 2, 2025, and year ended December 31, 2024, as required by DOL regulations when such election is made.
