## **Independent Auditor's Report**

To the Plan Administrator and Participants  
Avail Technologies, Inc. Employee Stock Ownership Plan  
State College, Pennsylvania

### **Opinion on the 2024 Financial Statements**

We have audited the financial statements of Avail Technologies, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion on the 2024 Financial Statements**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the 2024 Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

## **Responsibilities of Management for the 2024 Financial Statements (continued)**

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the 2024 Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance, and; therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **2024 Supplemental Schedule Required by ERISA**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

### **Other Matter - Auditor's Report on the 2023 Financial Statements**

The 2023 financial statements of the Plan were audited by predecessor auditors whose report, dated October 1, 2024, expressed an unmodified opinion on those financial statements.

Notes to Financial Statements

December 31, 2024 and 2023

### **Note 1 - Description of Plan**

The following description of the Avail Technologies, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for more complete information.

#### **General**

Avail Technologies, Inc. (the Corporation) established the Plan effective as of January 1, 2009. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Avail Technologies, Inc. Employee Ownership Trust (the Trust) was established to hold and invest the assets of the Plan. All assets acquired under this Plan as a result of borrowings, Corporation contributions, income, and other additions to the Trust will be administered, distributed, forfeited, and otherwise governed by the provisions of the Plan.

An officer of the Corporation serves as the Plan Administrator. Two officers of the Corporation are designated as co-trustees under the Plan. Their purpose is to hold and oversee the assets conveyed to the Trust on behalf of the Plan.

#### **Eligibility**

Employees of the Corporation are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such plan year and are at least 21 years of age. Employees become a participant in the Plan on the first day of January once satisfying the eligibility requirements. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Corporation contributions for such year.

#### **Contributions**

No contributions are made by participants. The Corporation may contribute a discretionary contribution, to be determined each year. The contribution may be in shares of the Corporation's common stock or in cash. The discretionary contribution totaled \$870,072 for the year ended December 31, 2024. Contributions are subject to certain IRS limitations.

#### **Participant Accounts**

Each participant's account is credited with allocations of (a) the Corporation's contribution, (b) plan earnings, and (c) forfeitures of terminated participants' nonvested accounts, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The employer contribution is allocated to eligible participants according to the ratio each participant's eligible compensation for the plan year bears to the total eligible compensation of all participants for the plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements

December 31, 2024 and 2023

### Note 1 - Description of Plan (continued)

#### Vesting

Vesting is determined on a graded scale starting at 20% after two years of credited service and increasing 20% per year for each additional year of credited service until attaining 100% vesting after six years of credited service, based on the following vesting schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2 years	0 %
At least 2, but less than 3 years	20
At least 3, but less than 4 years	40
At least 4, but less than 5 years	60
At least 5, but less than 6 years	80
6 years or more	100

#### Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2024 totaled \$67,918.

#### Payment of Benefits

If a participant dies, incurs a disability, or is an employee of the Corporation on or after the participant attains normal retirement age (defined as the later of age 65 or the third year of the participant's entry date) the participant's accrued benefit shall be fully vested and nonforfeitable. Distribution of the participant's accrued benefit shall commence no later than the 60<sup>th</sup> day after the latest of the close of the plan year in which:

- The participant attains the earlier of age 65 or normal retirement age;
- The 10<sup>th</sup> anniversary of the year in which the participant became a participant in the Plan; or
- The participant's separation from service

Distributions are made in the form of cash or the Corporation's common stock and will be paid in installments over a five-year period.

If the value of the participant's vested accrued benefit does not exceed \$1,000, the participant will receive a cash-out lump-sum distribution and does not require the participant's consent.

### **Note 1 - Description of Plan (continued)**

#### **Put Option**

Under federal income tax regulations, the Corporation stock that is held by the Plan and its participants, and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Corporation buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the appraised value of the stock. The Corporation can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

#### **Diversification**

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Corporation common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. If a participant elects to diversify their stock, they may have the option of transferring their eligible shares into another qualified retirement plan including the Corporation's 401(k) Retirement Plan. The elections to diversify are made subsequent to year-end based upon the shares of employer stock in the participant's account as year-end.

#### **Voting Rights**

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the co-trustees prior to the time that such rights are to be exercised. The co-trustees are not permitted to vote any allocated share for which instructions have not been given by a participant. The co-trustees are required, however, to vote any unallocated shares on behalf of the collective best interest of the plan participants and beneficiaries. At December 31, 2024, there were no unallocated shares of the Corporation's common stock.

### **Note 2 - Summary of Significant Accounting Policies**

#### **Basis of Accounting**

The accompanying financial statements are prepared on the accrual basis of accounting.

#### **Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

### **Note 2 - Summary of Significant Accounting Policies (continued)**

#### **Investment Valuation and Income Recognition**

The shares of Corporation common stock are reported at fair value. See Note 3 for a discussion of the fair value measurements. The Plan Administrator, under the supervision of the Corporation's Board of Directors, determines fair value measurement policies and procedures.

Dividend income, if any, is accrued on the ex-dividend date. Purchases and sales of securities, if any, are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

#### **Payment of Benefits**

Benefits are recorded when paid.

#### **Administrative Expenses**

As provided in the plan agreement, administrative expenses may be paid either by the Plan or by the Corporation. The Corporation has historically paid the operating expenses for the Plan, which are excluded from these financial statements.

### **Note 3 - Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

### Note 3 - Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at December 31, 2024 and 2023.

The fair value of the Avail Technologies, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. For 2024 and 2023, the appraisal was based upon commonly accepted valuation approaches and methods. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparable, and applicable discounts and premiums.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Fair Value Measurements at December 31, 2024			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Common stock, Avail Technologies, Inc.	\$ -	\$ -	\$ 21,912,740	\$ 21,912,740

	Fair Value Measurements at December 31, 2023			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Common stock, Avail Technologies, Inc.	\$ -	\$ -	\$ 11,241,480	\$ 11,241,480

### Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2024 and 2023, there were no significant transfers in or out of Level 3.

### Note 3 - Fair Value Measurements (continued)

#### Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs
	December 31, 2024	December 31, 2023		
Common stock	\$ 21,912,740	\$ 11,241,480	Income approach, discounted future net cash flows method	Weighted average cost of capital and discounts for lack of marketability

### Note 4 - Tax Status

The Plan has received a determination letter from the IRS dated August 19, 2013, stating that the Plan is qualified under the IRC and; therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### Note 5 - Plan Termination

The Corporation reserves the right to terminate the Plan at any time, subject to plan provisions. Upon termination of the Plan, the Plan Administrator directs the co-trustees to pay all liabilities and expenses of the Trust. Subsequently, the interest of each participant in the Trust will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan's terms and the IRC.

### Note 6 - Risks and Uncertainties

The Plan's investments consist of the Corporation's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

### **Note 7 - Related Party and Party-In-Interest Transactions**

The Plan invests in the Corporation's common stock. These are related party and party-in-interest transactions. As described in Note 2, the Corporation pays all plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

### **Note 8 - Subsequent Events**

Plan management has evaluated subsequent events through October 7, 2025. This date is the date the financial statements were available to be issued. The following material event subsequent to December 31, 2024 was noted:

On January 2, 2025, GreatBanc Trust Company was appointed as the sole trustee of the Trust.

No other material events subsequent to December 31, 2024 were noted.
