Independent Auditors' Report

The Board of Trustees
AUS, Inc. Employee Stock Ownership Plan
Mt. Laurel, New Jersey

Opinion

We have audited the financial statements of AUS, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of AUS, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of AUS, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about AUS, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of AUS, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about AUS, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control–related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

AUS, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

(1) Description of Plan

The following description of the AUS, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which was effective October 1, 2000, is a defined contribution employee stock ownership plan and operates as an employee stock ownership plan. The Plan covers all eligible employees of AUS, Inc. and all participating subsidiaries (the Company). The Plan requires employees to have attained the age of 21 years and complete 1,000 hours of service in the current plan year to become a participant in the current year allocations. Employees are not eligible for the Plan if they are covered by a collective bargaining agreement or are a non-resident alien. The Plan also requires participants to be employed with the Company as of December 31 or retired after reaching age 65 to participate in the current year's contributions and allocations. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended and is designed to comply with Section 4975(e)(7) and the regulations there under of the Internal Revenue Code of 1986, as amended. Effective January 1, 2016, the plan was amended and restated.

Contributions

Each plan year, contributions to the Plan may be made at the option of the Company, with no limitations in years when the Company has current or accumulated losses, provided the employer contributes amounts as may be required to repay the principal amount of and interest on any loan outstanding for the purpose of the acquisition of company stock.

Participant Accounts

Each participant has two accounts under the Plan.

The participant's Company Stock Account will be credited with (a) the participant's allocated number of shares of company stock purchased and paid for by the Plan, (b) participant's proportionate share of forfeitures of previously allocated company stock from terminated participants who were not vested, and (c) stock dividends, if any, on company stock held in the participant's company stock account.

The participant's Other Investment Account is an accumulation of (a) proportionate share of the net income (or loss) of the Trust, (b) proportionate share of the net increase or decrease in the fair value of Trust assets other than company stock, (c) proportionate share of employer contributions in other than company stock, (d) proportionate share of forfeitures in other than company stock, and (e) cash dividends on company stock in the participant's Company Stock Account.

AUS, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

(1) Description of Plan, Continued

Participant Accounts, Continued

Employer contributions of cash and stock will be allocated to participants in the proportion that each such participant's compensation, as defined by the Plan, bears to the total compensation of all such participants for that year.

Vesting

Participants, who are employees of the Company are vested as follows:

<u>Years of Credited Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more years	100%

Death, Retirement, and Disability

A participant's interest in his or her account balance shall vest in full as a result of death prior to retirement, or as a result of retirement or disability, as defined by the Plan.

Payment of Benefits

On termination of service, a vested participant will receive the full value of their account in equal installments of whole shares over a five-year period and cash for any remaining shares.

Company stock distributed to a participant is subject to a right of first refusal in favor of the Company. If the company stock distributed cannot be readily sold, then the participant will have two 60-day put options to the Company, requiring the Company to purchase the stock at a price equal to its fair market value, as defined by the Plan.

Administrative Expenses

The Company, at its option, pays the majority of administrative costs incurred by the Plan.

AUS, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

(1) Description of Plan, Continued

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Plan Termination

Although it has not expressed any intent to do so, the Company, by appropriate notice to the trustee, may terminate the Plan in its entirety subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Put Options

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

The Plan allows participants the opportunity to move part of the value of their investment in company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of post 1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

(2) Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is determined by an annual independent appraisal. See Note 6 for discussion of fair value measurements.

Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 15, 2025, the date the financial statements were available to be issued.

(3) Administration of Plan Assets

The trustee of the Plan holds the Plan's assets, which consist principally of the Company's common shares and cash held in a bank account.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income, if any, and makes distributions to participants.

Administrative and trustee functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan for services rendered. The Company has retained the services of a professional ESOP management company to oversee the accounting and legal compliance of the Plan.

(4) Investments

The Plan's investments at December 31, 2024 and 2023 are summarized in the following table:

	2024	2023
AUS, Inc. Common Stock shares:		
Number of shares	43,319	39,381
Cost	\$ 14,634,275	\$ 12,831,230
Fair Value	\$ 18,064,023	\$ 15,004,161

At December 31, 2024, the employer contribution receivable of \$1,500,366 represents the purchase of 3,598 additional shares of AUS, Inc. common stock to occur in 2025.

(5) Accounts Withdrawn or Forfeited

Participants who terminate employment prior to fully vesting in the Plan forfeit any and all unvested allocated contributions. Such forfeitures are redistributed to the Plan participants or used for permitted plan obligations. Participants rehired within a five year period can elect to repay the vested distribution over a period of up to five years. When the repayment is completed, their account is credited with the total number of shares they had on their date of termination. The number of shares forfeited and allocated to other participants was 87.58256 and 238.53688 in 2024 and 2023, respectively. There were no forfeited non-vested accounts to be allocated to participant accounts in future years as of December 31, 2024 and 2023.

(6) Fair Value Measurements

The Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(6) Fair Value Measurements, Continued

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2024 and 2023, there were no significant transfers into or out of Level 3.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

The fair value of AUS, Inc. common stock, which is not publicly traded, held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based on two basic approaches, market-based and earnings-based, consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparable and selected valuation ratios.

The Employee Benefits Administration Committee, under the supervision of the Company's Board of Directors, determines the fair value measurement policies and procedures in consultation with the Company's chief financial officer.

(6) Fair Value Measurements, Continued

Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Description	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
AUS, Inc. common stock	\$ -	\$ -	\$ 18,064,023	\$ 18,064,023

Description	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
AUS, Inc. common stock	\$ -	\$ -	\$ 15,004,161	\$ 15,004,161

The table sets forth a summary of changes in the fair value of the plan's level 3 assets for the year ended December 31, 2024:

	AUS Common Stock
Balance, beginning of year	\$ 15,004,161
Unrealized gain related to assets still held at year end	1,559,484
Benefits paid to participants	(1,267,592)
Transfers to affiliated plan	(116,658)
Purchases	2,884,628
Balance, end of year	\$ 18,064,023

The following table set forth a summary of quantitative information about Level 3 fair value measurements:

	Fair Value	Principal Valuation Technique	Unobservable Inputs	Interest Rate
AUS, Inc. Common Stock	\$ 18,064,023	Market Based	Market prices of comparable publicly traded stocks	N/A
			Comparative transaction data relating to the sale or purchase of companies in their entirety	N/A
		Earnings Based	Weighted Average Cost of Capital	18%

(7) Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rates, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan maintains a cash balance at a financial institution. The account at the financial institution is insured by the Federal Deposit Insurance Corporation for up to \$250,000.

(8) Related Party Transactions and Party-In-Interest Transactions

The Plan invests in Company common stock. These are related party and party-in-interest transactions. As described in Notes 1 and 3, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

(9) Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the plan, the Employee Benefits Administration Committee directs the trustee to pay all liabilities and expenses of the ESOP and to sell shares of financial common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code (IRC).

(10) Tax-Exempt Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 24, 2017, that the Plan and related trust established under the Plan is tax exempt, under the appropriate sections of the IRC. The plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The Plan administrator has reviewed and evaluated its tax positions taken in its previously filed annual reports and returns with the Internal Revenue Service and Department of Labor, and those expected to be filed in the future, and has concluded that in the event of an examination by regulatory authorities, the Plan's positions would prevail based upon the technical merit of such positions. Therefore, the Plan has concluded that no further benefits or liabilities are required to be recognized or disclosed in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
