Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

The Plan Administrator
Williams International Pension Plan for Employees
Pontiac, Michigan

Opinion

We have audited the accompanying financial statements of Williams International Pension Plan for Employees, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Williams International Pension Plan for Employees as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Williams International Pension Plan for Employees and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Williams International Pension Plan for Employees' ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Williams International Pension Plan for Employees' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Williams International Pension Plan for Employees' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions as of December 31, 2024 are presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

WILLIAMS INTERNATIONAL PENSION PLAN FOR EMPLOYEES

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

NOTE 1 - Description of Plan

The following brief description of the Williams International Pension Plan for Employees (“the Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General - Williams International Co., L.L.C. (“Company”) established a noncontributory defined benefit pension plan known as the Williams International Pension Plan for Employees (the “Plan”) in accordance with the provisions of Code Section 414(1)(2), to provide benefits for those eligible active, former and retired employees (and their beneficiaries) of the Company (and the related entities that have adopted the Plan) listed in the Plan agreement who were covered by and had accrued benefits under the prior Plan prior to such date. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan was frozen February 25, 2010. Effective March 1, 2010, all participant accrued benefits were frozen at their existing values and will not continue to accrue additional benefits. In addition, no new participants will be added to the Plan who did not meet the eligibility requirements prior to March 1, 2010.

The Plan entered into a contract with an insurance company dated March 15, 2015, to sell a portion of the pension plan assets and liabilities. The insurance company will make all future benefit payments to participants specified in the contract. In order to sell the assets and liabilities, the Plan paid a specified premium, which was transferred to the insurance company on December 9, 2014. The liability was assumed by the insurance company effective January 1, 2015.

Eligibility - An employee became a participant on January 1 of the calendar year in which the employee first completed 1,000 hours of service, provided the individual was employed on that date.

Funding policy - The Company’s general funding policy is to contribute amounts required under law plus discretionary amounts as appropriate. The contributions for 2024 and 2023 met the minimum funding requirements of ERISA.

Vesting - A participant shall be 100% vested in their accrued benefit upon accruing five “years of vesting service”.

Retirement age - Normal retirement age is the later of (a) age 65, or (b) in the case of a participant who commenced participation in the Plan after attaining age 60, the fifth anniversary of the date the participant commenced participation in the Plan.

WILLIAMS INTERNATIONAL PENSION PLAN FOR EMPLOYEES

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

NOTE 1 - Description of Plan - (Continued)

Pension Benefits - Employees are entitled to annual pension benefits beginning at normal retirement age (65) equal to the greatest of (1) 1.6% of final average earnings offset by 0.75% (approximately adjusted for social security retirement ages greater than age 65) of three-year final average earnings not in excess of social security covered compensation times credited service to a maximum of 30 years, (2) 0.8% of the final average earnings times credited service to a maximum of 30 years, (3) \$192 per year of credited service (maximum 30 years), or (4) the accrued benefits as of December 31, 1988, under the Williams International Pension Plan for Employees. The normal retirement benefits were frozen on March 1, 2010. The Plan permits early retirement at age 60 with five years of service at a reduced benefit amount. Employees may elect to receive their pension benefits in the form of a lifetime annuity or a joint and survivor annuity. If an employee terminates before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions. Any forfeited amounts shall be used to reduce employer contributions. If a participant is not eligible for a normal, delayed or early retirement benefit, but has five or more years of vesting service when the participant leaves employment, then the participant will have a vested right to a deferred vested benefit. This is calculated the same as a normal retirement benefit.

Contributions - Contributions to the Plan are made at the discretion of the Company, except that such contributions cannot be less than the minimum required contribution, determined in accordance with the applicable section of the Internal Revenue Code (IRC) and any other applicable, Federal statutes regarding satisfaction of actuarially determined minimum funding standards. Contributions to the Plan met the minimum funding standards for 2024 and 2023. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

Death Benefits - If an active married employee dies without being vested, no benefits will be paid. Should the employee be vested, the benefit arising will be payable under a 50% survivor form. This benefit is a monthly income for as long as the spouse lives. Should the employee die before attaining retirement age, the benefit will not be payable to the spouse until the earliest date the employee would be entitled to retire. Should the total present value of the benefits be less than \$5,000, a lump-sum distribution will be made to the surviving spouse.

Disability Benefits - If an active participant becomes totally and permanently disabled, he or she will be entitled to receive double (triple for females) Hunter's Disability rates; combined with Hunter's Disability Life Annuity Values.

WILLIAMS INTERNATIONAL PENSION PLAN FOR EMPLOYEES

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 2 - Summary of Significant Accounting Policies

Basis of accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Cash and Cash Equivalents - Cash and cash equivalents include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest.

Investment valuation and income recognition - Investments are carried at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits - Benefit payments to participants are recorded upon distribution.

Expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits.

Subsequent events - The Plan has evaluated subsequent events through September 30, 2025, the date the financial statements were available to be issued.

WILLIAMS INTERNATIONAL PENSION PLAN FOR EMPLOYEES

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

NOTE 3 - Funding Policy

The Company's funding policy is to make the minimum amount required by Sections 412 and 430 of the IRC plus any additional amounts deemed appropriate by the Company management. The Plan is subject to the minimum funding requirements of ERISA and the minimum/maximum funding requirements of the IRC. The Company's contribution for the years ended December 31, 2024 and 2023 complied with the minimum funding requirements of ERISA and the IRC. The Company made contributions in the amount of \$4,301,702 and \$3,082,764 for the years ended December 31, 2024 and 2023, respectively.

NOTE 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

WILLIAMS INTERNATIONAL PENSION PLAN FOR EMPLOYEES

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

NOTE 4 - Fair Value Measurements - (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fixed income funds - Valued at the daily closing price as reported by the fund. Fixed income funds traded in markets that are not considered active are valued based on quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Funds that trade infrequently and therefore have little or no price transparency are valued using the Plan's investment manager's best estimates. Redemption frequency is daily. Inputs include benchmark yields, base spreads and reportable trades.

Hedge Funds - Valued at the NAV as a practical expedient for fair value per share of the investments. Hedge Funds pursue multiple strategies to diversify risk and reduce volatility. The Plan is allowed to liquidate a quarter of the investments in this fund each calendar quarter.

Real Estate Limited Partnerships - Valued at the NAV as a practical expedient for fair value and the Company's ownership interest in partners' capital. The partnerships invest in commercial real estate within the United States as well as internationally. These investments can never be redeemed with the partnership. Distributions from each partnership are received as underlying investments of the partnership when the investments are liquidated. It is estimated that the underlying assets of the partnership will be liquidated over the next 2 to 5 years. The Plan does not anticipate the sale of any interest in these real estate limited partnerships prior to their liquidation date.

Private Equity Limited Partnerships - Valued at the NAV as a practical expedient for fair value and the Company's ownership interest in partners' capital. The private equity limited partnerships focus on investments in equity and debt securities in financial, medical, service and manufacturing industries. The Plan also invests in private equity partnerships that focus on investments in various pooled investment vehicles. These partnerships are permitted to invest both domestically and internationally across all sectors of the private equity market. These investments can never be redeemed with the partnership. Instead, the nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the partnership. If these investments were held, it is estimated that the underlying assets of the partnership would be liquidated over 4 to 12 years. Three of the partnerships included in this category require the general partner approval of a buyer before any sale of interest in the partnership can be completed. The Plan does not anticipate the sale of any interest in these private equity limited partnerships prior to their liquidation date.

NOTE 4 - Fair Value Measurements - (Continued)

(a) Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts represented in this table are intended to permit reconciliation of the fair value to the amounts presented in the Statements of Net Assets Available for Benefits.

The following is a summary of the fair value and unfunded commitments for the limited partnerships and hedge fund investments:

	<u>As of December 31, 2023</u>		<u>As of December 31, 2023</u>	
	<u>Net Asset Value</u>	<u>Unfunded Commitments</u>	<u>Net Asset Value</u>	<u>Unfunded Commitments</u>

Total	\$ <u>14,762,306</u>	\$ <u>63,790</u>	\$ <u>14,874,645</u>	\$ <u>63,790</u>

NOTE 5 - Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service stating the Plan is qualified under Section 401(a) of the Internal Revenue Code ("IRC"), and therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter, including amendments to comply with recent law changes. However, the Plan administrator believes the Plan has continued to operate in compliance with the applicable requirements of the IRC since the date of the determination letter.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and state authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

WILLIAMS INTERNATIONAL PENSION PLAN FOR EMPLOYEES

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 6 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to written notification to all interested parties and provisions set forth in ERISA. The PBGC also has the right to terminate the Plan subject to Section 4042 of ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order of priority indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the PBGC up to the applicable limitations.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pension. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

NOTE 7 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or vested terminated participants or their beneficiaries, beneficiaries of participants who have died, and present participants or their beneficiaries.

The actuarial present value of accumulated plan benefits was determined by the Plan's actuaries, Deloitte Consulting, LLP, relying on information provided by the Company. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust accumulated plan benefits as defined by the Pension Agreement to reflect the time value of money and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and expected date of payment. The computation of the actuarial present value of accrued plan benefits was made as of December 31, 2024 and 2023.

The following significant actuarial assumptions were used to determine the actuarial present value of accumulated Plan benefits for 2024 and 2023:

Actuarial cost method	Unit Credit Actuarial Cost Method
Rate of return	5.0% per annum for 2024 and 2023
Mortality	Average weighted mortality improvements MP-2024 for December 31, 2024 and MP-2023 for December 31, 2023
Normal retirement	Between age 60 and 70; average retirement age was 65

The most current actuarial present value of accumulated plan benefits information available as of December 31, 2024 and 2023 are as follows:

	<u>2024</u>	<u>2023</u>
Actuarial present value of accumulated Plan benefits		
Vested benefits		
Active participants	\$ 90,023,736	\$ 89,639,238
Participants with deferred benefits	7,093,313	8,772,716
All other participants with vested benefits	<u>13,677,127</u>	<u>15,825,679</u>
Total actuarial present value of accumulated Plan benefits	\$ <u>110,794,176</u>	\$ <u>114,237,633</u>

WILLIAMS INTERNATIONAL PENSION PLAN FOR EMPLOYEES

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 7 - Actuarial Present Value of Accumulated Plan Benefits - (Continued)

Changes in the actuarial present value of accumulated plan benefits are summarized as follows:

	2024	2023
Actuarial present value of accumulated plan benefits, as of January 1	\$ 114,237,633	\$ 117,027,198
Increase (decrease) during the year attributable to:		
Benefits accumulated and actuarial experience	(198,920)	198,424
Increase for interest due to decrease in discount period	5,493,432	5,635,766
Changes in actuarial assumptions and methods	-	-
Benefits paid	(8,737,969)	(8,623,755)
Net increase (decrease)	(3,443,457)	(2,789,565)
Actuarial present value of accumulated plan benefits, December 31	\$ 110,794,176	\$ 114,237,633

NOTE 8 - Related Party Transactions

Certain Plan investments are managed by Goldman Sachs, the Plan's custodian. Transactions involving these investments are considered party-in-interest transactions. Fees paid by the Plan for the investment management services totaled \$95,559 and \$85,389 for the years ended December 31, 2024 and 2023, respectively. These fees are considered indirect fees and are automatically deducted from the Plan's investment account. The Plan paid certain expenses related to the Plan's operations to various service providers and the Company paid certain expenses related to Plan operations. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

WILLIAMS INTERNATIONAL PENSION PLAN FOR EMPLOYEES

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 9 - Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 10 - Required Schedule Information

The following information pertains to the 2024 and 2023 financial statements schedules required under ERISA:

Williams International Pension Plan For Employees

Plan Provisions Summary

Effective Date of the Plan	January 1, 1969. The plan was last restated as of January 1, 2013 and amended through December 1, 2017.
Plan Year	January 1 to December 31
Eligibility for Participation	An employee becomes a participant on the January 1 of the calendar year in which he first completes 1,000 hours of service, provided he was employed on that date. The plan was closed to new employees hired on or after March 1, 2010.
Contributions	The employer contributes the total cost of the plan.
Benefit Service	A 12-month period during which the employee has completed 2,080 hours or more. An employee with less than 2,080 hours receives a proportionate credit calculated to the nearest 1/12th. No service is credited for less than 1,000 hours. Benefit service was frozen on March 1, 2010.
Vesting Service	A 12-month period during which the employee has completed 1,000 hours or more. No service is credited for less than 1,000 hours.
Annual Earnings	Employees' base annual pay (exclusive of overtime, bonuses, and commissions) computed for a 12-month period.
Final Average Annual Earnings	The average of the highest consecutive 5 years of annual earnings preceding date of retirement or termination. Final average earnings were frozen as of March 1, 2010.
Normal Retirement Date	The first of the month following the later of age 65 or, in the case of a Participant who commences participation in the Plan after attaining age 60, the fifth anniversary of the date the Participant commences participation in the Plan.
Normal Retirement Benefit	<p>The greater of (1), (2), (3), or (4)*</p> <p>(1) 1.6% of Final Average Earnings less 0.75% of 3-year Final Average Earnings not in excess of Covered Compensation multiplied by Credited Service up to 30 years. For participants with Social Security Normal Retirement Ages other than 65, the 0.75% offset is reduced in accordance with IRC Section 401(l).</p> <p>(2) 0.8% of the final average earnings times credited service to a maximum of 30 years.</p> <p>(3) \$192.00 per year of credited service (maximum 30 years).</p> <p>(4) The accrued benefit as of December 31, 1988, under the Williams International Corporation Pension Plan for Employees.</p> <p>* Normal Retirement Benefits were frozen on March 1, 2010.</p>
Covered Compensation	The average of the taxable wage bases in effect under the Social Security Act for the 35 calendar years ending with the year in which the employee attains Social Security retirement age.
Vesting	100% vesting after five years of service.
Retirement After Normal Retirement Date	The normal retirement benefit based on average annual earnings and service to actual retirement date

Williams International Pension Plan For Employees

Plan Provisions Summary

Early Retirement Eligibility	An employee with 5 or more years of service who has attained age 60 may retire the first day for the month following his termination date.
Early Retirement Benefit	The accrued benefit reduced 5/9% for each month actual commencement precedes the participant's Normal Retirement Age.
Deferred Vested Benefit	The accrued benefit payable at normal retirement date. The benefits may be payable at early retirement date but are reduced as per early retirement.
Disability Benefit	No additional benefits above the deferred normal retirement benefit are payable from this plan.
Pre-retirement Death Benefit	Spouses of married participants who are vested shall receive a preretirement survivor annuity. This annuity shall be payable for the lifetime of the participant's spouse in the same manner as if the 50% joint and survivor form of payment had been in effect on the day prior to the later of (1) the participant's date of death or (2) the earliest date on which the participant could have elected to receive retirement benefits if they had survived. Payment of the automatic preretirement survivor annuity shall commence as of the first day of the month in which occurs the later of the date in (1) or (2).
Normal Form of Benefit	Life annuity for single participants; actuarially equivalent joint and 50% survivor annuity for married participants.
Changes Since Prior Valuation	None.

Actuarial Methods for Funding and Present Value of Accrued Benefits

Liability Valuation Method

Funding Target and Target Normal Cost as Defined in PPA

The Funding Target is defined to be the present value of the benefits accrued or earned at the valuation date. The earned benefits include retirement-type benefits and ancillary benefits (1.430(d)-1(c)(1)(i)). If the amount of a benefit that is expected to be paid is neither a function of the accrued benefit at the time the benefit is expected to be paid nor a function of the participant's service at that time, then the portion of the benefit taken into account for purposes of determining the Funding Target for a plan year is based on the proportion of a participant's service as of the first day of the plan year relative to the service the participant will have when the participant decrements. The portion of the benefit that is taken into account in the Target Normal Cost is the increase in the proportional benefit for the plan year (1.430(d)-1(c)(1)(ii)(C)). The determination of the Funding Target and Target Normal Cost of a Plan for a plan year is not permitted to take into account any limitations or anticipated limitations under section 436 (1.430(d)-1(c)(1)(iii)).

The Target Normal Cost is the present value of all the benefits expected to accrue or to be earned during the year (benefits attributable to services performed in a prior year that are increased by reason of a compensation increase in the current year are treated as having accrued during the current year). Plan administrative expenses paid (or expected to be paid) from Actuarial Value of Assets for a plan year are not reflected in the determination of a plan's Funding Target for that plan year (1.430(d)-1(c)(2)), but are reflected in the determination of a plan's Target Normal Cost.

Generally if insurance contracts are held by the Plan, they are included in Actuarial Value of Assets and the related benefits are included in the liability. In the case of benefits that are funded through insurance contracts purchased from an insurance company licensed under the laws of a State, the Plan is permitted to exclude the benefits from the liability and the insurance policy from the assets, but only to the extent that the right to receive benefits is an irrevocable contractual right based on premiums paid prior to the valuation date (1.430(d)-1(c)(3)).

The determination of a Plan's Funding Target and Target Normal Cost for a plan year is based on Plan provisions that are adopted no later than the valuation date for the plan year and that become effective during that plan year. Section 412(d)(2) applies for purposes of determining whether a Plan amendment is treated as having been adopted on the first day of the plan year (including a Plan amendment adopted within two and one half months after the close of the plan year) (1.430(d)-1(d)).

For maximum deductible purposes, the cushion amount is equal to the sum of 50 percent of the Funding Target for the plan year and the amount the Funding Target for the plan year would increase if the Plan were to take into account increases in compensation which are expected to occur in succeeding plan years. If the Plan does not base benefits for service to date on compensation, increases in benefits which are expected to occur in succeeding plan years (determined on the basis of the average annual increase in benefits over the six preceding plan years) are taken into account in lieu of expected increases in compensation. For plans that have less than 100 participants, increases in benefits for highly compensated employees as a result of Plan amendments within the last two years are excluded from the calculation of the cushion amount.

Actuarial Methods for Funding and Present Value of Accrued Benefits

Asset Valuation Method

Actuarial Value of Assets are determined using the two-year averaging method as set forth in Notice 2009-22. Under this method, the Actuarial Value of Assets is the average of the fair market value of the assets on the valuation date and the adjusted fair Market Value of Assets determined as of the two prior determination dates. The adjusted fair Market Value of Assets as of a determination date is the Market Value of Assets on that date, increased by contributions that were not included in the plan's asset balance on the determination date and decreased by benefits and administrative expenses between that determination date and the valuation date plus an adjustment for expected earnings as the sum of the expected earnings separately determined for each period between the determination date and the valuation date. The calculated value is then further constrained to be no more than 110% of the Market Value of Assets plus discounted receivable contributions and no less than 90% of the Market Value of Assets plus discounted contributions.

Procedures

Financial and census data: Financial data was submitted by the Trustee and census data was submitted by the employer. Information provided was reviewed for internal consistency and we have no reason to doubt its substantial accuracy.

No benefits of materiality were excluded from the valuation of the liabilities.

The limitations of the Internal Revenue Code 415(b) and 401(a)(17) have been incorporated into our calculations.

No liability is included for participants who terminated without vesting in their benefit prior to the valuation date.

The employer provided us with the data on its employees as of the valuation date, but only those employees who have completed the Plan's eligibility requirements are included in the valuation of liabilities.

Actuarial Present Value of Accumulated Plan Benefits (ASC 960)

For active participants, the accrued pension benefits as of the valuation date and payable from the assumed retirement age were determined based on actual plan compensation history for each participant. For inactive participants, accrued benefits were either supplied by the Company or estimated. The Actuarial Present Value of Accumulated Plan Benefits was determined by multiplying the accrued pension benefits by single premium cost factors based on the applicable actuarial assumptions for accrued benefits.

Model Use

Actuarial Standard of Practice No. 56 – Modeling requires disclosure of certain information regarding the actuary's use of models when issuing actuarial reports for work performed on or after October 1, 2020. For this valuation, the liability calculations were determined using industry-leading defined benefit valuation software developed and maintained by a third-party vendor. The model was designed specifically for the measurement of defined benefit pension liabilities and the actuary has updated the applicable parameters for the specific plan provisions and assumptions selected for this valuation.

Method Changes Since Last Year

There were no method changes since the prior valuation.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
