Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **CHERRY BEKAERT LLP**

(2) EIN: **56-0574444**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

Report of Independent Auditor

To the Participants and Plan Administrator
Hilton Hotels Retirement Plan
McLean, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Hilton Hotels Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2024, and Schedule of Reportable Transactions – Form 5500, Schedule H, Part IV, Line 4j for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Hilton Hotels Retirement Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of the Hilton Hotels Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document, as amended and restated, and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan sponsored by Hilton Domestic Operating Company Inc. (Hilton, the Company and the Plan Sponsor) and certain affiliates and hotel properties managed, or formerly managed, by Hilton (the Participating Employers) that adopted the Plan. The Plan was established effective in 1951. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was amended and restated in its entirety effective January 1, 1976 to reflect the application of ERISA to the Plan. During 1999, an amendment was approved which provides for benefit increases to participants. The amendment provides that the benefits attributable to each participant will be the greater of the benefit determined under the original formula or the new formula added by the amendment. The benefit increase was retroactive and was applied to benefits paid to all current retirees. On September 26, 2002, there was an amendment which modified the provisions of the 1999 plan amendment in the manner requested by the Internal Revenue Service (IRS). During 2003, Hilton received a favorable determination letter that the 1999 and 2002 plan amendments satisfy the requirements of Section 401(a) of the Internal Revenue Code (the Code). The Plan has been amended to reflect all required legislative and regulatory changes. The Plan was amended on April 1, 2018 to revise the claims review process. The Plan was amended and restated effective January 1, 2022 to incorporate all previously adopted amendments under one restated Plan document to align the terms of the plan with administrative practices and statutory provisions related to the SECURE Act. The plan was most recently amended on October 1, 2024 to include the purchase of an annuity contract from an insurer by December 31, 2024. This contract will provide all Plan benefits to designated participants, with payments beginning January 1, 2025. The total net premium paid by the Plan to the insurer was \$52,758,365.

The Plan is administered by a committee (the Plan Administrator). Effective August 5, 2010, the Plan Administrator and named fiduciary of the Plan is the Global Benefits Administrative Committee. The Bank of New York Mellon (the Qualified Institution) serves as the qualified institution of the Plan's assets. TELUS Health (previously LifeWorks) serves as the recordkeeper of the Plan.

Effective December 31, 1996, Hilton's Board of Directors approved a resolution to freeze entry into the plan and freeze benefit accruals for all eligible employees of Hilton. Trust assets will be used to pay benefits due to eligible employees in the Plan for services rendered through December 31, 1996.

Effective January 1, 2007, the Hilton Hotels Retirement Plans, as adopted by the Participating Employers, were merged into the Plan to form a multiple employer plan (the Merger). Under the multiple employer plan, each sponsor's actuarial obligations are separately computed and each sponsor's assets are separately tracked. On December 18, 2008, the IRS issued a favorable determination letter covering the Plan, as restated, to reflect the Merger, and issued an updated favorable determination letter on November 21, 2013.

Eligibility

Prior to December 31, 1996, employees of the Participating Employers became participants in the Plan upon the completion of one year of eligible service, as defined under the terms of the Plan, and attainment of age 21, provided they were not covered by a collective bargaining agreement (unless such agreement provided for participation).

The Plan limits pension benefits for highly compensated employees.

Vesting

A participant became fully vested in their normal retirement benefit, as defined under the terms of the Plan, after attaining five years of service, or upon reaching their normal retirement age, as defined under the terms of the Plan given they are then employed by a Participating Employer. For participants who terminated employment with a Participating Employer prior to January 1, 1989, ten years of vesting service was required to become fully vested in their retirement benefits. Participants who were fully vested in the Plan as of December 31, 1996, or became fully vested in the Plan subsequent to December 31, 1996, are entitled to the benefits they earned through December 31, 1996.

The Plan provides that participants in the Plan whose compensation is determined on an hourly rate vest in one full year of service upon completing 870 hours of service. Additionally, eligible employees whose compensation is determined on a basis other than an hourly rate would vest in one full year of service upon completing 750 hours of service. For periods before January 1, 2003, both of these requirements were previously set at 1,000 hours of service. The amendment was effective January 31, 2003 and applies only to individuals who are participants in the Plan on or after the effective date of the amendment.

Benefits

Participants with five or more years (10 years or more if terminated before January 1, 1989) of credited service are entitled to annual pension benefits beginning at age 65. The Plan permits early retirement benefits at ages 55 through 64 for participants with at least five years of credited service who are employed on or after November 1, 2003, or who have a deferred vested benefit as of that date. Before November 1, 2003, at least ten years of credited service were required to receive an early retirement benefit.

The normal retirement benefit is the greater of the benefits determined under (1) or (2) below:

1. If at least 34 years of benefit service have been completed as of December 31, 1983, the greater of (a) or (b) below, or if less than 34 years of benefit service, the computation follows (b), reduced by 50% of the Primary Social Security Benefit and any other Integrated Benefits, as defined in the Plan:
 - a. 1.5% of average monthly compensation multiplied by years of benefit service up to a maximum of 60% of average monthly compensation;
 - b. 2% of average monthly compensation multiplied by years of benefit service up to a maximum of 25 years, plus 0.5% of average monthly compensation multiplied by years of benefit service in excess of 25 years, up to a maximum of 60% of average monthly compensation.

In the case of early retirement or termination before normal retirement date, the Primary Social Security Benefit is calculated by assuming the participant receives no wages after such retirement or termination (or December 31, 1996, if earlier).

2. If at least 34 years of benefit service have been completed as of December 31, 1983, the greater of (a) or (b) below, or if less than 34 years of benefit service, the computation follows (b). This amount is then multiplied by a fraction, the numerator of which is the participant's benefit service at the earlier of his termination date or December 31, 1996, and the denominator of which is the participant's Potential Years of Benefit Service, as defined in the Plan. The result is then reduced by any Integrated Benefits not related to Social Security benefits:
 - a. 1.5% of average monthly compensation multiplied by Potential Years of Benefit Service, but not more than 60% of average monthly compensation, less 50% of the Potential Primary Social Security Benefit; or
 - b. 2% of average monthly compensation multiplied by Potential Years of Benefit Service up to a maximum of 25 years plus 0.5% of average monthly compensation for each of the next 20 Potential Years of Benefit Service over 25 years, less 50% of the Potential Primary Social Security Benefit.

In the case of early retirement or termination before normal retirement date, the Potential Primary Social Security Benefit is calculated by assuming earnings remain constant from the actual date of termination (or December 31, 1996, if earlier) to age 65 at the rate of pay in effect upon termination.

The normal retirement benefit cannot be less than the minimum benefit. The minimum benefit amount is \$150 per month (prorated to termination date where applicable) minus any applicable Integrated Benefits as described in the Plan document.

Due to the freeze on benefits as of December 31, 1996, earnings after that date will not be included in the calculation of the participants' pension benefits.

A participant may elect one of the following forms of payment: straight life annuity, 50% joint and survivor annuity, 66 2/3% joint and survivor annuity, 75% joint and survivor annuity, age 62 level income option, age 62 level income option with a 50%, 66 2/3% or 75% joint and survivor annuity and 10-year certain benefit option. At retirement, the automatic form of benefit payment for unmarried participants is the straight life annuity.

Upon termination of employment, participants with vested accrued benefits that have a lump sum actuarial value that exceeds \$1,000 but does not exceed \$5,000 will have their benefit rolled over to an individual retirement account established by the Plan, unless the participants elect within the time frames established by the Plan Administrator to receive the benefit as a lump sum cash distribution or a direct rollover. If a terminated participant's vested accrued benefit does not exceed \$1,000, such benefit will be paid as a lump sum payment as soon as administratively feasible.

If a vested married participant dies prior to the participant's Annuity Starting Date, as defined, the surviving spouse is eligible for a benefit. This death benefit is a 50% joint and survivor monthly benefit that would have been payment if the employee had retired effective on the first day the participant could have elected to receive the participant's benefit or the participant's date of death, if later.

If a participant with a minimum of 15 years of benefit service becomes totally and permanently disabled while actively employed and terminates due to the disability, benefits will be paid based upon the average monthly compensation and years of benefit service at the time of disability, reduced according to the formula used in the event of early retirement.

Funding

The Company and Participating Employers contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the Code and ERISA minimum funding requirements. The Plan has met the minimum funding requirements for the years ended December 31, 2024 and 2023.

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan which consist primarily of qualified institution fees, Pension Benefit Guaranty Corporation (PBGC) fees, investment management fees, actuarial fees, legal fees and audit fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Expenses relating to the purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses are paid by the Company and the Participating Employers on behalf of the Plan.

Plan Termination

Although the Company has not expressed an intention to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the Plan document.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated plan benefits and may also depend on the financial condition of the Company and the level of benefits guaranteed by PBGC as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets of the Plan and the PBGC guarantee, while other benefits may not be provided at all.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price).

In accordance with Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

- Level 1:* Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.
- Level 2:* Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, or inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3:* Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits are adjusted for early retirement, joint survivor annuity options, disability and death prior to retirement. Benefits payable under all circumstances including, retirement, disability, death and termination of employment, are included to the extent they are deemed attributable to employee service rendered by the valuation date.

Risks and Uncertainties

The Plan provides for various investment options in investment securities, which are exposed to risks, including interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably feasible that changes in the values of investment securities will occur in the near term. These changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

3. Information Certified by the Qualified Institution (Unaudited)

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments at fair value as of December 31, 2024 and 2023, and net appreciation/depreciation in fair value of investments, was obtained from information supplied to the Plan Sponsor and certified as complete and accurate by the Qualified Institution.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

4. Fair Value Measurements

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the valuation methodologies used for assets measured at fair value:

- *Collective Trust Funds:* These investments are public investment vehicles valued using the net asset value (NAV) as a practical expedient of estimating fair value provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. The Plan holds several common collective trust funds that allow for daily liquidity with a range of 1-30 additional days' notice required for redemption. None of the funds have unfunded commitments as of and for the years ended December 31, 2024 and 2023.

The method described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in methodologies used at December 31, 2024 and 2023.

In accordance with ASC 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The Plan's investments at fair value (in thousands) are \$240,405 and \$302,718 for December 31, 2024 and 2023, respectively.

5. Accumulated Plan Benefits

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of January 1, 2024, is as follows (in thousands):

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefits	\$	189,482
Other participants		73,679
		263,161

Non-vested benefits		350
---------------------	--	-----

Total actuarial present value of accumulated benefits	\$	263,511
---	----	---------------------

The change in accumulated plan benefits for the year beginning January 1, 2024 are as follows (in thousands):

Actuarial present value of accumulated plan benefits at beginning of year	\$ 274,683
Increase (decrease) during the year attributed to:	
Benefits accumulated	—
Actuarial gains/losses	598
Decrease in discount period	17,739
Benefits paid	(24,143)
Change in actuarial assumption	(5,366)
Net increase (decrease)	(11,172)
Actuarial present value of accumulated plan benefits at end of year	\$ 263,511

Significant assumptions underlying the actuarial valuation are as follows:

- a. Assumed rate of return on investments 7.00%.
- b. Mortality rates are based on Pri-2012 table with the MP-2021 scale.
- c. Average retirement age is 64 years of age.

The change in actuarial assumption was driven by an additional year added to the mortality improvement table and a decrease in assumed plan-related expenses.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumption and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. Party-in-interest Transactions

Certain of the Plan's assets are invested in funds managed by the Qualified Institution of the Plan, or the actuary and investment consultant, Willis Towers Watson. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

7. Tax Status of the Plan

The Plan has received a determination letter from the IRS dated November 21, 2013, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code, and therefore believes the Plan is qualified and that the related trust is tax exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process.

8. Subsequent Events

Management has evaluated subsequent events for the Plan through October 14, 2025, the date that the financial statements were available to be issued.

On October 2, 2025, the Plan entered into an annuity purchase agreement with Pacific Life Insurance Company for approximately \$73.2 million. This transaction was executed to transfer the obligation for future benefit payments of certain participants to Pacific Life, thereby settling a portion of the Plan's projected benefit obligations.

Late Retirement

For those active or deferred vested participants over normal retirement age, benefits are assumed to commence 6 months after valuation date. Benefits are increased through the participant's required annuity start date based on the plan's actuarial equivalence. Benefits payable between the

At-risk assumptions

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the life annuity form of payment.

Cash flow

- Timing of benefit payments Annuity payments are payable monthly at the beginning of the month. Lump sums are assumed to be paid at the beginning of 2024.

Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Market value of assets	Value of “allocated” plan assets based on total multiple employer plan assets, allocated in accordance with 414(l), using 4044 assumptions plus any contributions receivable.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued.
Change in assumptions and methods since prior valuation	The segment rates used to calculate the funding target and target normal cost were updated from September 2022 to September 2023 with applicable interest rate stabilization. The mortality table used to calculate the funding target and target normal cost was updated to IRS prescribed mortality tables with generational projection, as required by guidance issued by IRS under IRC §430. As a result of the experience study completed in 2023, retirement rates, termination rates, deferred vested commencement age, form of payment assumption and marriage assumption were updated. The assumed plan-related expenses added to the target normal cost were changed from \$3,845,800 for 2023 to \$2,978,500 for 2024.

Sources of Data and Other Information

The plan sponsor through its third party administrator, furnished participant data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with the plan sponsor, assumptions were made for missing or apparently inconsistent data elements. These are described in the January 1, 2024 Actuarial Valuation Census Data Report.

Assumptions Rationale

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan Administrative expenses	Administrative expenses are set equal to sponsor's best estimate for administrative expenses for the current year (not including PBGC premiums) and adding the expected PBGC premiums for the coming year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2023 based on experience from 2018 through 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability was deemed to represent an insignificant portion of the plan's obligation and was therefore ignored which increases the value of benefits related to other demographic assumptions such as termination and retirement.
Retirement	Retirement rates were based on an experience study conducted in 2023 based on experience from 2018 through 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

SCHEDULE SB ATTACHMENTS

Benefit commencement date for deferred benefits:

- **Preretirement death benefit** Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer.
- **Deferred vested benefit** Deferred vested participants' assumed commencement age is a single age based on the results of an experience study conducted in 2023 based on observed experience from 2018 through 2022.

Form of payment The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience over the period 2018 through 2022.

Percent married The assumed percentage married is based on the percentage married observed among retired participants in 2018 through 2022.

Spouse age The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

Effective Date	1951. Amended and restated as of January 1, 2022. This plan was a single employer plan through the end of the 2006 plan year. Effective December 31, 2006, this plan was merged into the Hilton Domestic Operating Company, Inc. multiple employer plan. The plan was most recently amended as of April 1, 2018.
Employers	Hilton and any subsidiary or affiliated company properly designated as being eligible to be included in the plan, and adopting the plan by appropriate action.
Employees Eligible for Participation	Employees who were covered under the plan immediately preceding January 1, 1976 were participants in the plan on and after that date. Any other employee became a participant on (i) attaining age 21 and (ii) completing 1,000 hours of service during the 12-month period commencing on his date of hire or a plan year following his date of hire provided that he is not included in a collective bargaining unit (unless the plan is extended to employees in such bargaining units). No new participants can enter the plan after December 31, 1996.

Definitions

Vesting service	A participant is credited with one year of vesting service for each plan year in which he has completed 1,000 or more hours of service, plus the vesting service to which he was entitled under the prior plan; periods of leave of absence or temporary layoff will be included.
Benefit service	A participant is credited with 1/12 of a year of benefit service for each calendar month beginning January 1, 1976 in which he is employed by a participating employer and has at least 1,000 hours of service in the plan year (except the plan year in which he terminated), plus the benefit service to which he was entitled under the prior plan; periods of leave of absence for military service or other reasons certified by the Committee will be included. No additional benefit service is accrued after December 31, 1996.
Projected benefit service	The amount of benefit service a participant would have at age 65 assuming continuous employment from date of hire. Projected benefit service is not limited to the period prior to December 31, 1996.
Earnings	Total compensation, less certain compensation, paid to an employee by an employer that is subject to employer tax under the Federal Insurance Contributions Act. Included will be earnings that would have been considered during periods of leave of absence for which benefit service credit is granted based on the rate applicable at the time the leave is granted.
Final average earnings	The greater of the monthly average of: (1) Earnings during the five consecutive calendar years out of the last ten calendar years immediately preceding termination, or December 31, 1996, if earlier, that produce the highest average, or (2) Earnings for the 60 consecutive months immediately preceding termination or December 31, 1996, if earlier.

**Primary Social
Security benefit**

The monthly primary insurance amount payable to a participant at the later of age 65 or the actual retirement date under the Social Security Act, as amended, in effect on the earlier of normal retirement date or the date employment with an employer ceases, recognizing compensation from an employer only. In the case of early retirement or termination before normal retirement date, the participant is assumed to receive no future wages. Amounts considered under the plan were frozen December 31, 1996.

**Normal retirement
date (NRD)**

First of month coinciding with or next following the later of the participant's 65th birthday and the earlier of completion of five years of vesting service or the fifth anniversary of participation.

Monthly pension benefit

The greatest of the monthly average of (1), (2), (3), and (4) minus any other Hilton qualified pension plan (including any such plan established by the New York Hotel Association or pursuant to any collective bargaining or other agreement):

- (1) 1-1/2% of Final Average Earnings multiplied by years of benefit service through December 31, 1983 (with a maximum of 40 years if terminate after 1986), less 50% of the primary Social Security benefit
- (2) 2% of Final Average Earnings multiplied by years of benefit service up to a maximum of 25 years plus ½% of Final Average Earnings for each of the next 20 years of service over 25 years, less 50% of the primary Social Security benefit
- (3) \$150, multiplied by the ratio (not to exceed one) of service at termination and service the participant would have received if employed until Normal Retirement Date
- (4) The greater of (a) and (b) minus (c) below. This entire amount is multiplied by benefit service at the earlier of termination date or 12/31/1996 divided by projected benefit service at Normal Retirement Date:
 - (a) If the Participant had completed 34 or more Years of Benefit Service as of December 31, 1983, 1-1/2% of Final Average Earnings multiplied by years of projected benefit service through December 31, 1983 (with a maximum of 40 years)
 - (b) 2% of Final Average Earnings multiplied by years of projected benefit service up to a maximum of 25 years plus ½% of Final Average Earnings for each of the next 20 years of projected benefit service over 25 years
 - (c) 50% of the primary Social Security benefit. In the case of early retirement or termination before normal retirement date, the primary Social Security benefit is calculated assuming earnings remain constant from the actual date of termination (or December 31, 1996, if earlier) to age 65 at the rate of pay in effect upon termination

Monthly preretirement spouse benefit The amount that would have been payable to the spouse if the participant had retired on the first day of the month in which the participant would have been eligible to receive benefits, having elected a 50% joint and survivor annuity with the spouse named as survivor. Monthly payments will begin as of the first day of the month following the participant's earliest date of eligibility to receive benefits determined as if he had not died, and will continue for the spouse's life.

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing five years of vesting service.
Postponed retirement	Retirement after NRD.
Deferred vested	Termination for reasons other than death or retirement after completing five years of vesting service. A participant who has completed five or more years of credited service may elect to receive the benefit beginning as of the first of any month after attainment of age 55.
Preretirement spouse benefit	Death of active participant while entitled to a vested benefit, with a surviving spouse, provided the participant has been married to the same spouse for at least one year before death.
Disability retirement date	Permanent incapacity to engage in any remunerative occupation after completing 15 years of vesting service

Monthly Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD.
Early retirement	Monthly pension benefit determined as of the early retirement date, reduced 0.25% for each of the first 60 months that commencement of payments precedes NRD, and 0.4167% for each additional month that commencement of payments precedes the first of the month coinciding with or next following the participant's 60th birthday.
Postponed retirement	Monthly pension benefit determined as of normal retirement date increase with the plan's actuarial equivalence factors to actual retirement date, provided the benefit will not be less than the amount that would have been payable had the participant retired at age 65.
Termination with deferred vested benefit	Monthly pension benefit determined as of termination date, reduced by 7 actuarially equivalent factors if payments commence before the participant's NRD. For participants with more than 20 years of vesting service at termination, the reduction is 0.25% for the first 60 months and 0.4167% for each additional month the early retirement date precedes the NRD. Termination benefits commencing after normal retirement age are increased using the plan's actuarial equivalence through the earlier of the participant's required annuity start date or commencement date. Termination benefits that were to have been paid between the participant's required annuity start date and actual commencement date are accumulated using the plan's actuarial equivalence
Disability retirement	Monthly pension benefit determined as of disability retirement date, reduced by 0.25% for each of the first 60 months that commencement of payments precedes the participant's NRD, and 0.4167% for each additional month by which commencement precedes the first of the month coinciding with or next following the participant's 60 th birthday. If vesting service at termination is less than 20 years the benefit will be the actuarial equivalent of the normal retirement benefit.
Death with preretirement spouse's benefit	Monthly preretirement spouse's benefit is payable.
Forms of payment	Normal form: Actuarially equivalent 50% joint and survivor (J&S) annuity if married on date payments commence; life annuity if single.

Kifafi Litigation Final Judgment Plan Provisions

Plan Formula Change	The final judgment increased benefits for certain participants and former participants in order to comply with the 133-1/3% accrual rule. The effect of the plan amendment on individual participants was documented in a true-up list approved by the Court. A portion of the increased benefit for each participant was allocated to pay attorney fees on behalf of the participant. Ongoing benefits are net of the attorney fee adjustment.
Accumulation Interest Rate	The accumulation interest rate and methodology used to provide interest as necessary on retroactive plan payments is 6% per year through the judgment date of August 31, 2011 and 0.10% thereafter.
