Opinion

We have audited the accompanying financial statements of Precision Metal Industries, Inc. ESOP 2012 (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

INDEPENDENT AUDITOR'S REPORT

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

INDEPENDENT AUDITOR'S REPORT

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

PRECISION METAL INDUSTRIES, INC. ESOP 2012
NOTES TO FINANCIAL STATEMENTS

Note 1 - Plan Description

The following description of the Precision Metal Industries, Inc. ESOP 2012 (the Plan) provides only general information. Participants should refer to the Plan agreement for more complete information.

General

The Plan, originally effective as of January 1, 2012, and most recently amended and restated effective January 1, 2022, was established by Precision Metal Industries, Inc. (the Company or Employer). The Plan operates as a non-leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7), and the regulations thereunder, of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by Pension Investors as of December 31, 2024. The trustee of the Plan is an individual appointed by the Board of Directors of the Company. The Plan holds 100 percent of the Company's common stock at December 31, 2024.

Eligibility

Employees of the Company are eligible to participate in the Plan once they have attained age 18 and completed one year of service, defined as 1,000 hours of service. Participants must be employed on the last day of the Plan year to be eligible for an allocation of Company contributions for such year. Employees covered by a collective bargaining agreement, leased employees and non-resident aliens without United States income are not eligible to participate in the Plan.

Contributions

Employer contributions may be paid in cash or shares of Company stock and are determined annually at the discretion of the Company's Board of Directors. Participant contributions are not allowed by the Plan. Contributions are subject to limitations as set forth in the IRC. The Company did not make any contributions to the Plan during the year ended December 31, 2024.

Payment of Benefits

Benefits are paid in cash. Payment of benefits upon termination of service, retirement, or disability, where a participant has an account balance exceeding \$10,000 will be made in equal annual installments over a period of five years. Participants with an account balance of less than \$10,000 will receive distribution of benefits in a single lump sum. Payment of benefits upon death will be made in annual installments over a period of five years unless otherwise elected by the beneficiary, as defined by the Plan. Distributions due to retirement, disability, or death will commence no later than the close of the Plan year following the Plan year in which the event occurred. Distributions due to termination from service for other reasons will commence no later than the close of the sixth Plan year following the Plan year in which employment is terminated.

Administrative Expenses

Administrative expenses may be paid by either the Plan or the Company as provided by the Plan agreement. Expenses that are paid by the Company are excluded from these financial statements. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.

PRECISION METAL INDUSTRIES, INC. ESOP 2012
NOTES TO FINANCIAL STATEMENTS

Plan Termination

The Company reserves the right to terminate the Plan at any time subject to Plan provisions. In the event the Plan is terminated, the rights of each participant to his or her account on the date of such termination will become non-forfeitable and the interest of each participant in the trust fund will be distributed to such participant, or his or her beneficiary, at the time prescribed by the Plan terms and the IRC.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of the Company's contributions and an allocation of forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company, as of the last day of the Plan year, will receive an allocation. Plan earnings or losses are allocated to each participant's account based on account balances. Allocations of contributions and forfeitures are based on a participant's eligible compensation, relative to total eligible compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Upon attainment of normal retirement age, as defined and while an employee, participants will be 100 percent vested in their accounts. Upon termination of service with the Company for any other reason, participants will vest in their account balances based on total years of service with the Company as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less Than Two Years	0%
Two Years	20%
Three Years	40%
Four Years	60%
Five Years	80%
Six Years or More	100%

Voting Rights

The trustee of the Plan holds the voting rights on all Company stock held by the Plan. However, participants are entitled to direct the trustee of the Plan to vote those shares allocated to the participant's account on such matters as approval or disapproval of corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all the assets of a trade or business, or other similar transactions prescribed by regulation. The trustee is permitted to vote any unallocated shares held by the Plan as well as any allocated shares for which a participant has failed to give timely voting instructions.

Put Option

Under federal income tax regulations, employer stock held by the Plan and its participants that is not readily tradable on an established market or is subject to trading limitations must include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to a participant during a 60-day period, as defined, or, if the put is not exercised within such 60-day period, it will be exercisable for an additional 60-day period in the next Plan year. The Company can pay for the purchase of the stock in either a single payment or five equal annual installments with interest set at a reasonable rate, as determined by the Company's Board of Directors. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash for shares owned.

PRECISION METAL INDUSTRIES, INC. ESOP 2012
NOTES TO FINANCIAL STATEMENTS

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. The value of the shares of the Company stock elected to be diversified by the participant will be either distributed directly to the participant or invested in one or more of at least three alternative investment options available under the Plan, as directed by the participant.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures of terminated non-vested account balances allocated to remaining participants at December 31, 2024, totaled approximately 181 shares for \$13,459.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash Concentration

Cash is maintained in a bank deposit account and, at times, may exceed federally insured limits. The Plan places its funds with a high credit quality financial institution and does not believe it is exposed to any significant credit risk on cash.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion and disclosure related to fair value measurements.

Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. Dividends, if any, are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Payments of Benefits

Benefit payments are recorded when paid.

**PRECISION METAL INDUSTRIES, INC. ESOP 2012
NOTES TO FINANCIAL STATEMENTS**

Subsequent Events

The Plan has evaluated subsequent events through October 1, 2025, which is the date the financial statements were available to be issued. No material events have occurred since December 31, 2024, that require recognition or disclosure in the financial statements.

Note 3 - Tax Status

The Plan adopted a non-standardized pre-approved employee stock ownership plan, which received a favorable opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, in which the IRS stated that the pre-approved plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, the Plan meets the criteria for qualification under the IRC, and the related trust is tax exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, as of December 31, 2024, there are no audits for any tax periods in progress.

Note 4 - Investments

The Plan's investments in the Company's common stock at December 31 are as follows:

	<u>2024</u>	<u>2023</u>
Investment in Precision Metal Industries, Inc. Common Stock:		
Number of Shares	173,378	194,172
Cost	\$ -	\$ -
Fair Value as Determined by Appraisal	\$ 11,470,687	\$ 14,430,834

At December 31, 2024 and 2023, all of the shares of common stock held by the Plan have been allocated to participant accounts.

Note 5 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

PRECISION METAL INDUSTRIES, INC. ESOP 2012
NOTES TO FINANCIAL STATEMENTS

Level 2—Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023:

■ **Precision Metal Industries, Inc. Common Stock**

The fair value of Company common stock held by the Plan is determined based upon an independent appraisal. The value of the stock is based upon a combination of the market and income valuation techniques and includes a discount for lack of marketability consistent with prior years. The appraiser considered historical and projected cash flows and net income, return on assets, return on equity and market comparables. This data was compiled from the Company's financial statements and management's projections as well as other industry and economic data. The fair value of the Company's stock at December 31, 2024 and 2023, was \$66.16 and \$74.32 per share, respectively.

The appraisal policies and procedure are reassessed at least annually to determine if the current valuation techniques remain appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of the Company's common stock could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

PRECISION METAL INDUSTRIES, INC. ESOP 2012

Investments, at Fair Value	<u>\$ 14,708,651</u>	<u>\$ 277,817</u>	<u>\$ -</u>	<u>\$ 14,430,834</u>

For the year ended December 31, 2024, the Plan issued 19,924 shares of Level 3 Company common stock valued at \$1,480,755. There were no purchases of Level 3 assets during the year ended December 31, 2024. For the year ended December 31, 2024, 870 shares of Level 3 Company common stock valued at \$64,627 were transferred to Level 1 interest-bearing cash.

Note 6 - Related-Party Transactions

The Plan's investments include common stock of the Company, a related-party.

Note 7 - Risks and Uncertainties

The Plan invests primarily in the Company's common stock, which is exposed to various risks, such as interest rate, credit, and overall market volatility, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the Company's common stock and to uncertainties inherent in estimates and assumptions, it is reasonably possible that changes in the value of the Company's common stock will occur in the near-term and that such changes could materially affect the participant account balances and the amounts reported in the statements of net assets available for benefits.
