RETIREMENT BENEFITS COMMITTEE
MONTEREY BAY AQUARIUM RETIREMENT PLAN
Monterey, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of **MONTEREY BAY AQUARIUM RETIREMENT PLAN (the Plan)**, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date of this report.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Monterey Bay Aquarium Retirement Plan

Notes to the Financial Statements

Note 1 - Plan Description:

The following description of the Monterey Bay Aquarium Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Monterey Bay Aquarium Foundation (the Aquarium) to provide benefits to eligible employees, as defined in the Plan document. The Plan was established in 1983. In October 2018, the Aquarium adopted the Fidelity Workplace Services LLC 403(b) Volume Submitter Plan with a restatement effective date of January 1, 2010. The Plan is a tax shelter annuity plan invested mainly in mutual funds and annuity contracts. The Plan was most recently amended effective January 1, 2023, to change the automatic deferral rate increase to February 1st of each year. The Plan Administrator has been designated by the Board of Trustees to be the Retirement Benefits Committee (RBC). The Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code (the Code) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

On December 29, 2022, the SECURE Act 2.0 was signed into law. The new law makes changes to include provisions intended to expand coverage, increase retirement savings, increase the age at which retirees must begin taking required minimum distributions from IRA and 403(b) accounts, change catch-up contributions, and simplify and clarify retirement plan rules. Most of the provisions in the SECURE Act 2.0 legislation are optional and many require regulatory guidance prior to implementation. The Plan continues to operate under required legislative and regulatory requirements. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and Internal Revenue Service guidance.

Eligibility

All employees are eligible to enter the Plan as soon as administratively practical following their date of hire as an employee of the Aquarium.

Contributions

Participants may make salary deferral contributions not to exceed the amount allowable under current federal income tax regulations. All eligible participants who did not have at least a 4% affirmative election on file on January 1, 2014 were automatically enrolled into the Plan to have 4% of their eligible compensation deferred into the Plan unless the participant elected to have a different rate or no salary deferral contributions made. Seasonal or temporary employees are excluded from automatic deferrals.

Monterey Bay Aquarium Retirement Plan

Notes to the Financial Statements

The Plan was amended effective January 1, 2017 whereby a participant who has made less than 10% (but at least 1%) elective deferrals will be deemed to have his or her deferral rate increase automatically by 1% each year until his or her deferral rate reaches 10%, unless he or she affirmatively elects otherwise each year. Such an increase shall occur on February 1st of each year.

Employees are eligible to receive discretionary Aquarium matching and nonelective contributions beginning the first day of the month following completion of six months of service with the Aquarium. The Aquarium approved discretionary matching contributions under the Plan at a rate equal to 100% of a participant's elective deferrals, up to 4% of eligible compensation per pay period. In addition, the Aquarium approved nonelective contributions of 5% of eligible compensation for all eligible employees.

The definition of "eligible employee" does not include hourly non-benefitted employees of the Aquarium for purposes of the employer contribution. The Aquarium's discretionary nonelective contributions require no deferral contribution from the employee.

Participants may rollover amounts representing distributions from other qualified plans.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Aquarium's matching contributions, the Aquarium's non-elective contributions, Plan earnings or losses, and Plan fees. Only expenses charged directly to the Plan by the Plan Custodians are charged to a participant's account. All other Plan expenses are paid from the forfeiture account or by the Aquarium.

Vesting

Participants are immediately vested in their employee contributions, including rollovers of funds from other qualified retirement plans, and earnings thereon. Prior to January 1, 1994, participants were immediately vested in the Aquarium's contributions. For participants hired after December 31, 1993 and terminated prior to February 1, 2020, the portion of the participants' accounts attributable to the Aquarium's contributions becomes 20% vested after two years of credited service as defined in the Plan. Each year thereafter, an additional 20% is vested until the participant is 100% vested at six years. For participants hired after December 31, 1993 and active as of January 31, 2020 as well as participants hired after January 31, 2020, the portion of the participants' accounts attributable to the Aquarium's contributions becomes 20% vested after one year of credited service as defined in the Plan. Each year thereafter, an additional 20% is vested until the participant is 100% vested at five years.

Monterey Bay Aquarium Retirement Plan

Notes to the Financial Statements

Participant Investment Options

Upon enrollment in the Plan, a participant must direct employee contributions to any of the selected investments as made available through Fidelity Management Trust Company (Fidelity). If a participant does not designate an investment option for the participant's automatic or Aquarium contributions, participants' contributions are placed with Fidelity Freedom Lifecycle Funds based on the participant's age and assuming normal retirement age as defined in the Plan document. Participants may change their investment options any time throughout the year (subject to specific limitations placed by certain investment funds).

Notes Receivable from Participants and Policy Loans

Notes Receivable from Participants (Participant Loans with Fidelity)

The Plan allows participants to borrow from their Fidelity fund accounts not less than \$1,000 and up to the lesser of \$50,000 or 50% of their Fidelity vested account balance. The loans are secured by the participant's remaining vested balance. Such loans bear interest at a fixed rate of 1% above the prime rate of interest published in The Wall Street Journal on the last business day of the calendar quarter prior to the loan approval. Loans must be repaid to the Plan within a five-year period, unless the loan is used for the purchase of a principal residence in which case the maximum repayment period is 15 years. A participant may have only one loan outstanding at one time and no more than one loan can be approved in any 12-month period. Prior loans must be paid off before a new loan can be requested. Outstanding loans at December 31, 2024 carry interest rates that range from 4.25% to 9.50% with various maturities through September 2037.

Policy Loans to VALIC participants

The Plan allows participants to borrow directly from Variable Annuity Life Insurance Company (VALIC) using their fixed account as security for the loan, subject to annuity contract and plan provisions as described in the preceding paragraph. The terms are the same as the notes receivable from participants; however, the interest rate is determined by VALIC and payments are made directly to VALIC. The Plan Administrator has concluded that these loans are not plan assets and that such arrangements are exempt transactions. At December 31, 2024 and 2023, there were 12 and 14 plan loans outstanding respectively, totaling \$297,737 and \$329,186 respectively, carrying interest rates that range from 2.00% to 3.00%. All of the policy loans are in default as of December 31, 2024.

Payment of Benefits

A participant with a vested account of \$1,000 or less upon termination of employment receives his or her vested balance paid out in a lump sum distribution. A participant with a vested account over \$1,000 may, upon termination of service due to severance from employment or death, elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Upon disability, hardship, or attaining age 59 ½, a participant may elect to receive a lump-sum amount equal to the value of the participant's account. The individual agreements governing the investment options may further restrict the payout options.

Monterey Bay Aquarium Retirement Plan

Notes to the Financial Statements

There were no participant requests to withdraw from the Plan as of December 31, 2024 or 2023 that had not been paid as of those dates.

Forfeitures

Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and applied to pay reasonable Plan expenses or reduce future Aquarium contributions. If the non-vested portion of a terminated participant's account is forfeited because of a full distribution of the participant's vested interest, and the participant is reemployed by the Aquarium before a five consecutive year break-in-service, the forfeited non-vested portion of the plan can be fully restored by repaying the vested amount that was distributed to the participant no later than five years from re-employment date. Furthermore, the service credit, up to the date of previous termination of employment, is restored for future vesting in the participant's account. As of December 31, 2024 and 2023 forfeited non-vested accounts totaled \$22,905 and \$31,793, respectively. In 2024, employer contributions were reduced by \$294,573 from forfeited non-vested accounts.

Plan Custodians

The Plan approved vendors are Fidelity Management Trust Company (Fidelity) and The Variable Annuity Life Insurance Company or VALIC, (collectively, the Custodians).

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Monterey Bay Aquarium Retirement Plan

Notes to the Financial Statements

Investment Valuation and Income Recognition

Investments of the Plan are held by the Custodians and invested based solely upon instructions received from participants. The Plan's investments are reported at fair value as of the last day of the Plan year, except for fixed annuity contracts which are reported at contract value as described in Note 5. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Benefit Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, Custodians, and insurance companies. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The market volatility of equity-based investments may substantially impact the value of such investments at any given time. It is likely that the value of the Plan's investments, both in total and in individual participant accounts, has fluctuated since December 31, 2024.

Management fees and operating expenses charged to the Plan by the Custodians are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation (depreciation) in fair value of investments.

Notes Receivable from Participants (Participant Loans)

Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are recorded as distributions based upon the terms of the Plan document.

Contributions

Contributions from Plan participants and the matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation.

Benefits to Participants

Benefits to participants are recorded when paid.

Monterey Bay Aquarium Retirement Plan

Notes to the Financial Statements

Administrative Expenses:

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Aquarium. Expenses that are paid by the Aquarium are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan Administrator has evaluated subsequent events from December 31, 2024 through October 14, 2025, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Note 3 - Certified Information:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company and Variable Annuity Life Insurance Company (the Custodians of the Plan).

Note 4 - Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Monterey Bay Aquarium Retirement Plan

Notes to the Financial Statements

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable annuity contracts: Valued at the NAV per share as reported by each Fund, based on the market values of the underlying mutual fund investments. The amount or frequency of transfers of all or part of the account value between various investment options during the purchase or the payout period is not limited for transactions less than \$5,000. However, to hinder short-term trading, if an investor sells fund shares valued at \$5,000 or more, whether through an exchange, transfer, or any other redemption, the investor will not be able to make a purchase of \$5,000 or more in that same fund for 30 calendar days. This policy applies only to investor-initiated trades of \$5,000 or more and does not apply to the plan-level or employer-initiated transactions; purchase transactions involving transfers of assets or rollovers; retirement plan contributions, loans and distributions; Roth IRA conversions or IRA recharacterizations; systematic purchases or redemptions; or trades of less than \$5,000. Withdrawals of all or a portion of the account value may be done at any time during the purchase period if it's allowed under federal and state law and allowed under the plan. There are no restrictions regarding the frequency or minimum amount of the withdrawals.

Notes to the Financial Statements

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024.

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Mutual Funds	\$ 94,170,951	\$ 94,170,951	\$ -	\$ -
Total assets in the fair value hierarchy	94,170,951	\$ 94,170,951	\$ -	\$ -
Investments measured at net asset value (a)	<u>4,645,505</u>			
Investments at fair value	<u>\$ 98,816,456</u>			

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023.

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Mutual Funds	\$ 88,522,044	\$ 88,522,044	\$ -	\$ -

Investments measured at net asset value (a)	<u>4,514,862</u>			
Investments at fair value	<u>\$ 93,036,906</u>			

(a) In accordance with Accounting Standards Codification Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

Monterey Bay Aquarium Retirement Plan

Notes to the Financial Statements

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2024 and 2023, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2024

<u>Categories</u>		<u>Number of Funds</u>	<u>Valuation</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Variable annuity contracts	(a)	37	\$ 4,645,505	No limit	1 Business Day
Total			\$ 4,645,505		

December 31, 2023

<u>Categories</u>		<u>Number of Funds</u>	<u>Valuation</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Variable annuity contracts	(a)	36	\$ 4,514,862	No limit	1 Business Day
Total			\$ 4,514,862		

There were no unfunded commitments as of December 31, 2024 and 2023.

(a) The significant investments in this category include equity fund variable annuities that seek growth of capital through investment in common stocks and equity-related securities. These variable annuities are invested in a diversified portfolio selected to track the overall market for common stocks publicly traded primarily in the United States, as represented by a broad stock market index, and a diversified portfolio of common stocks that present the opportunity for exceptional growth.

Note 5 - Fixed Annuity Contracts:

The Plan has traditional fixed annuity guaranteed investment contracts with VALIC totaling \$2,594,975 as of December 31, 2024 and \$3,452,844 as of December 31, 2023, and New York Life Insurance Company (NY Life) totaling \$2,612,238 as of December 31, 2024 and \$3,355,203 as of December 31, 2023. VALIC and NY Life maintain the contributions in a general account. The respective account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. VALIC and NY Life are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Monterey Bay Aquarium Retirement Plan

Notes to the Financial Statements

The crediting interest rate is based on a formula agreed upon with the issuer. For VALIC contracts, the interest rate may not be less than 3% on accounts established before January 1, 2004. For VALIC contract accounts established January 1, 2004 through December 31, 2010 the interest rate may not be less than 2%. Effective January 1, 2011, contracts issued to new participants have an indexed guaranteed minimum rate ranging from 1.00% - 2.30%. Such interest rates are reviewed on a monthly basis for resetting. For NY Life contracts, the interest rate may not be less than 3% and is reset every January 1 and July 1. The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

These investment contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value, which is the relevant measure because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the Custodians, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuers' ability to meet their financial obligations. The issuers' ability to meet their contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuers to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Note 6 - Related-Party Transactions and Party-in-Interest Transactions:

Certain Plan investments are managed by affiliates of the Custodians of the Plan, therefore, these transactions qualify as party-in-interest transactions.

Monterey Bay Aquarium Retirement Plan

Notes to the Financial Statements

Plan investments are managed by either an affiliate of the Custodians or an investment company registered under the Investment Company Act of 1940, contracted by the Custodians. Any purchases and sales of these investments are open market transactions at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the party-in-interest prohibition.

Certain administrative functions are performed by officers and employees of the Aquarium. No such officer or employee receives compensation from the Plan for such functions.

Fidelity provides certain administrative services to the Plan pursuant to a Record Keeping Agreement with the Plan which are included in Administrative expenses in the Statement of Changes in Net Assets Available for Benefits. Fidelity receives revenue from mutual fund service providers for services Fidelity provides to the funds. This revenue is used to offset certain amounts owed to Fidelity for the administrative services to the Plan.

Note 7 - Plan Termination:

Although the Aquarium has not expressed any intent to do so, the Aquarium has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, all participants immediately become 100% vested in their entire account.

Note 8 - Tax Status:

The Plan has adopted a volume submitter plan from Fidelity Workplace Services LLC (FWS), an affiliate of Fidelity. The FWS plan has received a favorable opinion letter dated August 7, 2017 from the Internal Revenue Service as to the form of the plan being acceptable under Section 403(b) of the Internal Revenue Code (the Code). This opinion on the acceptability of the form of the plan is not a ruling or determination as to whether the Plan qualified under Code section 403(b). The Plan has been amended since receiving the opinion letter. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Monterey Bay Aquarium Retirement Plan

Notes to the Financial Statements

Note 9 - Risks and Uncertainties:

The Plan provides for various investment options in any combination of mutual funds, or variable and fixed annuity contracts offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

The Fidelity Freedom 2040 K6 investment represented approximately 15% and 13% of Plan assets as of December 31, 2024 and 2023, respectively.
