Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **KPMG LLP**

(2) EIN: **13-5565207**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X

Independent Auditors' Report

To the Plan Participants and Plan Administrator
American Society of Mechanical Engineers Defined Contribution Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of American Society of Mechanical Engineers Defined Contribution Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. generally accepted accounting principles.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2024 and 2023

(1) Description of Plan

The following brief description of American Society of Mechanical Engineers Defined Contribution Pension Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions. The Plan was effective January 1, 2006.

(a) General

The Plan is a defined contribution 403(b) retirement plan covering substantially all employees of American Society of Mechanical Engineers (ASME) hired after December 31, 2005. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent amendments. Effective January 1, 2017, the Plan was frozen to new participants.

(b) Eligibility and Service Rules for Participation

Effective January 1, 2017, the Plan was amended and new participants were prohibited from entering the Plan.

(c) Contributions

Effective January 1, 2017, the Plan was amended to discontinue employer contributions. In addition, the Plan does not accept eligible rollover distributions from another employer's 403(b), governmental 457(b), qualified retirement, pension, profit sharing plan or an individual IRA Rollover account.

(d) Participant Accounts

Each participant's account is credited with earnings on investments. Participant accounts are charged with an allocation of administrative charges that are paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

(e) Vesting

Effective January 1, 2017, upon freezing the Plan all participants became 100% vested in the Plan contributions.

(f) Loans to Participants

Loans are not permitted in the Plan.

(g) Forfeitures

Forfeitures are the nonvested amounts in the accounts of participants who are terminated from service. If there are any forfeitures in a given year, they are used to pay plan expenses. At December 31, 2024, and 2023, forfeited nonvested accounts totaled \$75 and \$71, respectively.

(h) Distributions

In order for a participant to be eligible for a distribution, they must either: sever employment with ASME or incur a disability. Individuals with account balances of \$1,000 or less will be paid a lump sum distribution. For balances in excess of \$1,000, the participant can choose to receive payment in one

ENGINEERS DEFINED CONTRIBUTION PENSION PLAN**

lump sum, a partial distribution or an annuity. If an annuity is chosen, a surviving spouse will receive 50% of the annuity payments that were received by the participant before his/her death.

Effective January 1, 2020, pursuant to the Setting Every Community Up for Retirement Enhancement Act (SECURE Act), the age at which required minimum distributions must begin was increased from 70½ to 72.

(i) Investment Options

Participants have various investment options in which to allocate their balances, which are described as follows:

- TIAA Traditional Annuity is one of the investment options that represents insurance contracts issued by TIAA which guarantees principal and a contractually specified interest rate to account participants. The account offers the opportunity for higher returns through additional amounts that may be declared on a year by year basis by the TIAA Board of Trustees. The fund invests in individual bonds, commercial mortgages, real estate, stocks and other assets selected by specialized teams that target different sectors of the marketplace. The portfolio follows specific guidelines with respect to major asset classes, sectors, industries, property types, geographic regions, individual issuers/borrowers, foreign holdings, liquidity, quality and derivatives.

The TIAA Traditional Annuity contracts held by the Plan include the Retirement Annuity (RA), Group Retirement Annuity (GRA) and Retirement Choice (RC) contracts. These contracts have liquidity restrictions and are nonbenefit-responsive annuity contracts.

- College Retirement Equities Fund (CREF) also offers a variety of funds. There are eight investment portfolios, including stock, global equities, growth, equity index, bond market, inflation-linked bond, social choice and money market funds. The CREF accounts fund variable annuity contracts issued by CREF.
- TIAA Access Annuity is a variable annuity product that is funded through TIAA Separate Account VA-3 (VA-3), a separate investment account of TIAA. VA-3 invests in proprietary and nonproprietary mutual funds.
- TIAA Real Estate Account (REA) is a separate account of TIAA and is considered a pooled separate account. REA invests mainly in real estate and real estate-related investments.
- Various mutual funds are also investment options. These mutual funds are invested in both debt and equity securities.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP), requires the Plan management to make estimates and

**AMERICAN SOCIETY OF MECHANICAL
ENGINEERS DEFINED CONTRIBUTION PENSION PLAN**

Notes to Financial Statements

December 31, 2024 and 2023

assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 6 for discussion of fair value measurements.

The TIAA Traditional Annuity is a nonbenefit-responsive investment contract and is reported at contract value by TIAA. The contract value approximates fair value. The contract value of the TIAA Traditional Annuity equals the accumulated cash contributions and interest credited to the Plan's contracts, less any withdrawals.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis and represents earnings from the TIAA Traditional Annuity. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Administrative Expenses

The administrative expenses charged by TIAA to plan participants are \$15,237 and \$13,953 for the years ended December 31, 2024, and 2023, respectively.

(3) Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the balance of participant accounts will be distributed in a lump sum or by delivery of a fully paid annuity contract as permitted by IRS regulations.

(4) Income Tax Status

A tax determination letter program is not available for 403(b) employee benefit programs through the IRS. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believes that the Plan is qualified and tax exempt.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2020.

ENGINEERS DEFINED CONTRIBUTION PENSION PLAN**

Notes to Financial Statements

December 31, 2024 and 2023

(5) Investments – Unaudited Information Prepared and Certified by TIAA

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by TIAA and was not subjected to any auditing procedures performed by the independent auditors except for comparing such information to information included in the Plan’s financial statements and supplemental schedule.

TIAA has certified to the completeness and accuracy of the investments included in the financial statements and supplemental schedule as of December 31, 2024, and 2023 and investment activity included in the financial statements for the years then ended.

(6) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs. (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted or published prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value and investment strategies. There have been no changes in the methodologies used at December 31, 2024, and 2023.

(a) Variable Annuity Accounts – CREF Accounts

CREF accounts invest principally in equity securities, fixed income instruments and short term investments in accordance with each portfolio’s investment objectives. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources. CREF Money Market Account holdings are generally valued at amortized cost. Each account determines its

**AMERICAN SOCIETY OF MECHANICAL
ENGINEERS DEFINED CONTRIBUTION PENSION PLAN**

Notes to Financial Statements

December 31, 2024 and 2023

unit value each day. Unit values are available at TIAA.org on a daily basis and are considered Level 1 in the fair value hierarchy. Accumulation units in CREF Accounts are available for transactions at the closing accumulation unit value on any day the New York Stock Exchange (NYSE) is open for business. In an effort to reduce market timing and excessive trading, participants will not be permitted to make electronic transfers back into that same account through a purchase or exchange for 90 calendar days, if a purchase, sale and repurchase within that account is made within a sixty-day period, other than for the CREF Money Market Account.

(b) Variable Annuity Accounts – TIAA Access Annuity

Subaccount unit values are calculated daily and are available on the TIAA website, TIAA.org on a daily basis and are considered Level 1 in the fair value hierarchy. The underlying investments are generally valued using market quotations obtained from independent pricing services. There are no investment restrictions for the access accounts. The TIAA Lifecycle was renamed Nuveen Lifecycle May 1, 2024.

(c) TIAA Real Estate Account

The TIAA REA value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. Unit values are calculated each day and are posted at TIAA.org, and are considered Level 1 in the fair value hierarchy.

Accumulation units in the REA are available for transactions at the closing accumulation unit value on any day the NYSE is open for business. Transfers out of the REA are limited to one per calendar quarter. Although the underlying assets of the REA cannot be quickly sold and converted to liquid assets, the TIAA General Account provides the REA with a liquidity guarantee, i.e., TIAA ensures that the REA has funds available to meet participant redemption, transfer or cash withdrawal requests executed at quoted unit values.

(d) TIAA Traditional Annuity

These investments are valued at contract value, which is equal to contributions plus interest, less withdrawals and fees. As these investments are contract based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. Contract value approximates fair value.

Guaranteed annuity contracts are not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable.

The guaranteed annual interest rate for the TIAA Traditional Annuity is 3.00% for all premiums remitted since 1979 under all TIAA Traditional Annuity accumulating contracts plus additional amounts established by TIAA on a year-to-year basis. The average yield and crediting interest rates were approximately 4.61% for 2024 and 4.85% for 2023 respectively. Both the one-year total return and the yield credited to participants for 2024 and 2023 are net of annual fees. For both 2024 and 2023, the annual fees were 0.00%. The crediting interest rate is calculated on a daily basis.

ENGINEERS DEFINED CONTRIBUTION PENSION PLAN**

Notes to Financial Statements

December 31, 2024 and 2023

(e) Mutual Funds

These investments are valued at fair value based on quoted market prices. Quote prices of mutual funds are reported based on the net asset values of the shares held by the Plan and are generally based on fair value of the underlying assets.

(f) Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model based valuation techniques may require the transfer of financial instruments from one fair value level to another. For the years ended December 31, 2024, and 2023, there were no transfers in or out of the levels.

The following table includes by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024. There are no Plan assets included in Level 2 of the fair value hierarchy:

(7) Related Party Transactions

Certain Plan investments as of December 31, 2024, and 2023 are held and managed by TIAA and, therefore, these transactions qualify as party in interest transactions. Fees are indirect in nature and are paid by Plan participants, net of investment income. Fees paid by the Plan to TIAA for the investment management services amounted to \$13,088 and \$11,583 for the years ended December 31, 2024, and 2023, respectively. Fees paid by the Plan to TIAA for recordkeeping and distribution fees amounted to \$15,237 and \$13,953 for the years ended December 31, 2024, and 2023, respectively.

**AMERICAN SOCIETY OF MECHANICAL
ENGINEERS DEFINED CONTRIBUTION PENSION PLAN**

Notes to Financial Statements

December 31, 2024 and 2023

(8) Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

The TIAA Traditional Annuity represents approximately 17% and 19% of the Plan's net assets available for benefits, as of December 31, 2024, and 2023, respectively, and represent an obligation from TIAA to repay as amounts come due. There are no reserves against contract value for credit risk of contract issuer or otherwise. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value are probable.

(9) Subsequent Events

Management has evaluated, for potential recognition and disclosure, events subsequent to December 31, 2024 through October 13, 2025, the date the financial statements were available to be issued. There are no significant subsequent events which would require recognition or disclosure in the accompanying financial statements.
