Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **CROWE LLP**

(2) EIN: **35-0921680**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		75000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒

INDEPENDENT AUDITOR'S REPORT

To the Administrator of
Honeywell Retirement Earnings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Honeywell Retirement Earnings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Honeywell Retirement Earnings Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of the Plan

The Honeywell Retirement Earnings Plan (the “Plan”), which is sponsored by Honeywell International Inc. (the “Company”), is a defined benefit pension plan which provides retirement benefits to certain employees of the Company. On or after January 1, 2013, all non-union hourly and salaried employees joining the Company for the first time, and all rehires with more than one year break in service, are not eligible to participate in the Plan. Effective August 1, 2015, all rehires, regardless of the length of their break in service, are ineligible to accrue additional pension benefits post rehire. Eligible employees of the Company generally become fully vested upon completion of three or five years of service depending on the Plan formula. Effective April 1, 2018, employees that transferred from foreign affiliates to a participating employer in the United States and union employees who transferred to a non-union position were not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The following description of the Plan provides only general information. Plan participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Regular Benefits

Traditional Plan Formulas

The Plan provides for regular retirement benefits for participants who have attained the normal retirement age. Normal retirement age is generally the latter of the fifth anniversary of the date upon which an employee became a participant in the Plan or age sixty-five, or as provided by the applicable Plan supplement. Monthly annuity benefits are based on benefit formulas that are related to the participant’s final average compensation or fixed dollar amount, and years of service, as well as in certain situations, a level of integration with the participant’s social security benefit. The Plan also provides for early retirement benefits, at reduced benefit amounts, for those participants who meet the age and service requirements for early retirement while still accruing benefits under the Plan. Effective December 31, 2015, final average compensation was frozen for all non-union participants. The final average compensation was also frozen for certain union participants as of the date specified in the Collective Bargaining Agreement.

Retirement Earnings Plan Formula

The Retirement Earnings Plan formula is based on the participant’s final average compensation times the annual percentage and years of service, dependent upon the participants’ group plan. Participants in the Retirement Earnings Plan formula can elect to receive their benefit in a single lump-sum.

Cash Balance Formula

An account, for recordkeeping purposes only, has been established and is maintained for each participant in a cash balance formula. A participant’s account balance shall equal the sum of their initial account balance, if any, pay-based credits and interest credits. A pay-based credit shall be credited to each participant’s account as prescribed by the applicable formula. The amount credited will be equal to a percentage of the participant’s compensation. The account of each participant will also be increased by the interest credit percentage in effect for the applicable period as prescribed by the applicable formula.

Survivor Benefits

Eligible participants shall be deemed to have automatically elected the joint and survivor benefit option as prescribed by their applicable Plan supplement which provides for reduced benefits for the life of the participant and for the life of the surviving spouse. Election of other joint and survivor annuities (as prescribed by their applicable Plan supplement), single life annuity or other allowable options are also permitted under the Plan.

Notes to Financial Statements

December 31, 2024 and 2023

Disability Benefits

Participants who meet their applicable Plan supplement's definition of disabled are eligible to receive disability benefits upon meeting the age and service requirements.

Administration

The administration of the Plan, which includes determining administrative actions and interpreting and applying the Plan's provisions, is performed by the Company ("Plan Administrator"). The Plan Administrator is assigned with the right to settle claims or debts, and to defend any claims arising from the operation of the Plan. The Plan Administrator is also responsible for advising The Northern Trust Company (the "Trustee") regarding benefits that become payable.

Annuity Purchase

On October 25, 2023, the Company entered into an agreement with Pacific Life Insurance Company and Pacific Life & Annuity Company to purchase a group annuity in connection with the settlement of liabilities associated with certain participants under the Plan in the amounts of \$415,780,956, net of refunds of \$6,033,600. Refunds were received in May 2024. Pacific Life Insurance Company and Pacific Life & Annuity Company assumed all participant benefits beginning January 1, 2024.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The majority of the assets of the Plan are held in the Honeywell International Inc. Master Retirement Trust (the "Master Trust") by the Trustee (see Note 5). Master Trust investments are stated at fair value as further described in Note 6. The Plan's interest is based on the beginning of year value of the Plan's interest in the Master Trust plus current year contributions and allocated investment income less withdrawals and allocated investment loss and expenses. Investments in investment contracts held outside the Master Trust are stated at fair value.

Investment income (loss) is allocated proportionately to the participating plans by the Trustee on a basis equivalent to each plan's proportionate share in the Master Trust.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future payments that are attributable, under the Plan's provisions, to the services employees have rendered to the Company through the valuation date. The actuarial present value of accumulated plan benefits is determined by an enrolled actuary and represents the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money through discounts for interest and the probability of payment.

Honeywell Retirement Earnings Plan

Notes to Financial Statements

December 31, 2024 and 2023

The actuarial cost method used for purposes of the December 31, 2024 and 2023 valuations was the Standard Unit Credit Cost Method. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) current employees or their beneficiaries. Benefits payable under all circumstances, retirement, death, disability, and termination of employment, are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

The significant actuarial assumptions used in the valuations as of December 31, 2024 and 2023 were as follows:

Mortality: Pri-2012 mortality table with a generational projection from 2012 using Scale MP-2021 for December 31, 2024 and 2023.

Retirement age: Graded from age 49 to 70. The retirement age assumption for terminated vested participants is age 64 at December 31, 2024 and 2023.

Discount rate (settlement rate): The 2024 and 2023 valuations assumed a settlement rate of 5.57% and 4.97%, respectively.

The actuarial assumptions used are based on the presumption that the Plan will continue. If the Plan were to be terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Expenses

All expenses relating to the Plan are paid by the Plan.

Payment of Benefits

Benefit payments to participants or their beneficiaries are recorded upon distribution by the Trustee.

3. Funding Policy

Company contributions to the Plan are based on annual actuarial valuations performed by an enrolled actuary and are transferred to the Trustee at the appropriate due date. The Company makes contributions to the Plan in amounts that are at least equal to the minimum funding requirements under ERISA. The Company can elect to make voluntary contributions in excess of the minimum funding requirements. Contributions can be made in cash and/or in Honeywell Common Stock. Contributions were not required by ERISA in 2024 and the Company also did not make a voluntary contribution in 2024.

4. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan at any time, subject to the provisions set forth in ERISA. In the event the Plan terminates, accrued benefits up to the date of such termination will become non-forfeitable. After providing for Plan expenses, any assets remaining will be distributed in accordance with ERISA. Any residual assets may be distributed to the Company if all liabilities with respect to retired members, surviving beneficiaries, and active and vested members have been satisfied.

The Plan is insured by the Pension Benefit Guaranty Corporation ("PBGC"). In the event of termination, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions; however, the PBGC does not guarantee all types of plan benefits and the amount of benefit protection is subject to certain limitations. Should the Plan terminate, the payment of certain benefits not covered by the PBGC will depend on the sufficiency of the Plan's assets.

5. Interest in the Honeywell International Inc. Master Retirement Trust

The Plan's investments are principally held in the Master Trust, which was established for the investment of assets of the Plan and several other Honeywell sponsored retirement plans. Each participating plan has an undivided interest in the Master Trust. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 92.71% and 92.74%, respectively. Company contributions and benefit payments are identified with each participating plan, whereas investment income (loss), Trustee fees and administrative expenses for the investment management of the Master Trust are allocated proportionately to the participating plans by the Trustee on a basis equivalent to the proportionate units of participation.

The Master Trust and the Plan's interest in the Master Trust is comprised of the following types of investments, at fair value, as of December 31, 2024:

	2024 Master Trust Balances	Plan's Interest in Master Trust Balances
Investments at fair value:

Honeywell Retirement Earnings Plan

Notes to Financial Statements

December 31, 2024 and 2023

Investment income (loss) for the Master Trust for the year ended December 31, 2024 is as follows:

Net appreciation in fair value of investments	\$ 582,813,323
Interest and dividends	568,848,437
Investment management fees and other administrative expenses	<u>(56,609,551)</u>
Total investment income (loss)	<u>\$ 1,095,052,209</u>

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year. From time to time, investment managers may use derivative financial instruments including forward foreign currency exchange contracts and futures contracts. Derivative instruments are used primarily to mitigate exposure to equity risk and interest rate fluctuations as well as manage the investment composition within the portfolio.

Futures Contracts

Futures contracts are agreements to buy or sell a financial instrument for a set price in the future. The Master Trust enters into futures contracts to gain exposure to certain markets. Sufficient cash or cash equivalents are held by the Master Trust to cover the notional value of the futures contracts. Initial margin deposits are made upon entering into futures contracts which can be in cash, certain money market instruments, treasury securities or other liquid, high grade debt securities. During the period the futures contracts are open, changes in the market price of the contracts are recognized as unrealized gains or losses by "marking-to-market" at the end of each trading day. Variation margin payments on futures contracts are received or made, depending upon whether unrealized gains or losses are incurred. When the contract is closed, the Master Trust records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transactions and the Master Trust basis in the contract. Use of futures contracts subjects the Master Trust to risk of loss in excess of the amounts shown on the Statements of Net Assets Available for Benefits for futures contracts, up to the notional values of the futures contracts.

Futures contracts outstanding as of December 31, 2024 are as follows:

6. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Honeywell Retirement Earnings Plan

Notes to Financial Statements

December 31, 2024 and 2023

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Common Stocks and Short-Term Investments

Common stocks and short-term investments are valued at the closing price reported in the active market in which the individual securities are traded. As quoted prices are available in an active market for these securities, they are classified within Level 1 of the valuation hierarchy. Short-term investments also include unrealized depreciation of \$52,157,038 for the year ended December 31, 2024 related to the futures contracts included as part of Note 5. The short-term investments also include commercial paper of \$744,795,444 and \$2,866,792,464 at December 31, 2024 and 2023, respectively. The commercial paper is valued either by using pricing models, bids provided by brokers or dealers, quoted prices of securities with similar characteristics or discounted cash flows. Such securities are classified within Level 2 of the valuation hierarchy.

U.S. Government Securities, Non U.S. Government Securities, Corporate Bonds, Mortgage- and Asset-Backed Securities, and Insurance Contracts

U.S. Government Securities, Non U.S. Government Securities, Corporate Bonds, Mortgage and Asset-Backed Securities, and Insurance Contracts are valued either by using pricing models, bids provided by brokers or dealers, quoted prices of securities with similar characteristics or discounted cash flows. Such securities are classified within Level 2 of the valuation hierarchy.

Derivatives

Exchange traded futures contracts are based on the closing price on the exchange for which the futures contracts are traded. As such, these derivative instruments are classified within Level 1 of the valuation hierarchy.

Private Equity/Debt Funds, Hedge Funds, and Real Estate Funds

The investments in private equity/debt funds, hedge funds, and real estate funds are valued quarterly using the estimated value based on the Net Asset Value ("NAV") provided by the investment advisor and/or general partner and as such, these investments are excluded from the valuation hierarchy.

Collective Trust Fund

The fund seeks to maintain a one dollar per share unit value and is valued based on the net asset value as reported daily by the investment manager. The collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

Direct Private Investments and Real Estate Properties

Investments in real estate properties are valued based upon property valuations as estimated by the investment advisors or third-party appraisers who apply discounted cash flow, direct capitalization and/or sales comparison methodologies. For investments in direct private investments, management or general partners/other third parties apply comparable transaction multiples and/or comparable trading multiples, where such comparable multiples are available and appropriate, and/or a discounted cash flow analysis, where appropriate, to estimate fair value.

Notes to Financial Statements

December 31, 2024 and 2023

Management establishes valuation processes and procedures to ensure that the valuation techniques for investments are fair, consistent and verifiable. In determining the reasonableness of the methodology used to estimate fair value, management evaluates a variety of factors including the investment manager's assumptions, economic conditions and industry and market developments. Investments in real estate properties and direct private investments are all classified within Level 3 of the valuation hierarchy. For the year ended December 31, 2024, purchases of direct private investments totalled \$109,427,028 and purchase of real estate properties totalled \$10,207,036. For the year ended December 31, 2024, sales and settlements of direct private investments totalled \$144,495,935 and sales and settlements of real estate properties totalled \$730,605.

The following table presents the Master Trust's assets measured at fair value as of December 31, 2024, within the fair value valuation hierarchy.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents information regarding the Plan's real estate properties level 3 investments and the valuation techniques used by the investment advisor or third-party appraiser (as described in Note 6) to measure their fair values, and the significant unobservable inputs and the ranges used for such inputs. This table is not intended to be all-inclusive, but rather provides information on the significant unobservable Level 3 inputs as provided by the investment advisor or third-party appraiser at December 31, 2024 and 2023:

<u>Instrument</u>	<u>Fair Value</u>	<u>Principal Valuation Method</u>	<u>Range of Significant Unobservable Inputs</u>	<u>Significant Input Values</u>

Real estate - properties	\$1,053,644,994	Discounted cash flow	Discount rate Capitalization rate	5.75% - 9.50% 5.25% - 8.25%

The Master Trust also holds certain direct private equity and debt investments valued at \$1,441,934,473 and \$1,394,085,622 at December 31, 2024 and 2023, respectively. The valuation process for such investments is described in Note 6. Such investments are with third parties who maintain the direct relationship with the underlying companies. As a result, management does not have access to all significant inputs which the third parties have utilized in arriving at a valuation.

Fair Value of Investments that Calculate Net Asset Value

The Master Trust uses NAV to determine the fair value of all the underlying investments which (a) do not have readily determinable fair values and (b) either have the attributes of an investment company or prepare their financial statements consistent with the measurement principles of an investment company.

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2024 and 2023, respectively.

7. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2024 and 2023 and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by The Northern Trust Company (the trustee of the Plan).

8. Deposit Administration Contracts

The Plan has two deposit administration contracts (“DAC”) with Brighthouse Life Insurance Company (formerly known as Metlife Insurance Company). These DACs provide for a variable return on principal invested while the contracts are in force. During the year ended December 31, 2024 and 2023, the average variable return on principal invested in the DACs were 4.87% and 3.65%, respectively.

9. Receivable from AUSA Life Insurance Company, Inc.

An allocated Guaranteed Annuity Contract was purchased to cover the benefit obligation associated with a select group of Eltra (former subsidiary of the Company) employees. The liability for the contract was assumed by AUSA Life Insurance Company, Inc. The assets supporting this contract are held in trust and managed by The Northern Trust Company. The Plan is required to maintain assets representing 106% of the current benefit obligation of the Eltra employees. Investment income in excess of this liability is a receivable of the Plan, and as such is included in the Statements of Net Assets Available for Benefits.

10. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 10, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan Administrator and the Plan’s tax counsel believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC. The Master Trust is entitled to an exemption from federal income taxes under the provisions of Section 501(a) of the IRC. Accordingly, no provision for federal income taxes has been made.

Honeywell Retirement Earnings Plan

Notes to Financial Statements

December 31, 2024 and 2023

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. As of December 31, 2024 and 2023, the Company has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan Administrator believes it is no longer subject to tax examinations for years prior to 2021.

11. Risks and Uncertainties

Company contributions and the actuarial present value of accumulated plan benefits are based on certain assumptions pertaining to interest, investment and inflation rates, and employee demographics, all of which are subject to change. Due to the level of uncertainty inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan's and the Master Trust's investment securities, including derivatives, are exposed to various risks, such as interest rate, liquidity, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term which could materially affect the amounts reported in the December 31, 2024 and 2023 Statements of Net Assets Available for Benefits.

12. Party-in-Interest

Certain Master Trust investments consist of units in investment funds managed by the Trustee and are considered party-in-interest investments.

The Master Trust also holds investments in Honeywell common stock valued at \$3,541,502,742 and \$3,287,832,751 at December 31, 2024 and 2023, respectively. The Master Trust earned dividends of \$68,512,848 on Honeywell common stock for the year ended December 31, 2024.

Custody fees paid to the Trustee, recordkeeping fees paid to Aon Hewitt, and audit fees for the year ended December 31, 2024 also qualify as party-in-interest transactions.

13. Subsequent Events

Effective October 31, 2025, the Plan Sponsor is spinning-off its advanced materials business into a new Company named Solstice Advanced Materials Inc. As part of that transaction, the Board is establishing the Solstice Advanced Materials Retirement Earnings Plan. Certain employees who are currently participating in the Honeywell Retirement Earnings Plan will transfer to the Solstice Advanced Materials Retirement Earnings Plan under the same terms and conditions of the Honeywell Retirement Earnings Plan. The assets and liabilities of those participants will be transferred to the Solstice Advanced Materials Retirement Earnings Plan and all future benefits will be paid from the Solstice Advanced Materials Retirement Earnings Plan.

The Plan has evaluated subsequent events for recognition and disclosure through October 14, 2025, which is the date the financial statements were available to be issued.

Valuation Compensation	2023 pensionable earnings (without bonus component) is rolled forward one year with the pay increase assumption. Target bonus percentages are then applied.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the 401(a)(17) compensation limit of \$345,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Unreported Deceased Survivor Assumption	10%
Expected Return on Assets	
2022 Plan Year	6.40% The applicable third segment rate limitation is 5.92%.
2023 Plan Year	6.75% The applicable third segment rate limitation is 5.74%.
2024 Plan Year	7.00% The applicable third segment rate limitation is 5.59%.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Provisions—Affiliated

Participation in Plan

Hourly employees at Rocky Mount, NC became participants on the later of January 1, 1987 and date of hire.

Employees hired before 2000 who were active on October 1, 2000 had the one-time option of electing the Retirement Earnings formula. Employees hired after 1999 participate in the Retirement Earnings formula.

Eligibility for Benefits

Normal Pension

Age 65.

Early Pension

Age 55 and 10 years of service.

Disability Pension

Ten years of service.

Deferred Vested Pension

Five years of service.

Preretirement Spouse's Benefit

Five years of service.

Amount of Pension

Normal Pension

A monthly benefit equal to one-twelfth of the sum of 1.4% of Annual Pay for each calendar year of service.

Early Pension

Accrued benefit reduced 4% for each year that retirement precedes age 62.

Disability Pension

Accrued benefit payable immediately.

Deferred Vested Pension

Normal pension deferred to age 65. An early pension may be taken, but the benefit is reduced 6% per year for payment before age 65.

Preretirement Spouse's Benefit

50% of the employee's accrued benefit, payable immediately.

Disability Pension Ten years of service.

Deferred Vested Pension Five years of service.

Preretirement Spouse's Benefit Five years of service.

Amount of Pension

Normal Pension Basic Benefit
1.2% of final average monthly pay (using highest three years of last ten years) multiplied by all years of service.

Minimum Benefit A dollar amount multiplied by years of service (varies by location; see Plan Information table).

In addition, a flat monthly benefit is payable (varies by location; see Plan Information table).

Early Pension Under types (1) and (2), an unreduced normal retirement benefit. Under type (3) the benefit is reduced 3% for each year that payments commence prior to age 65. The flat benefit is also payable.

Disability Pension The accrued benefit payable immediately, subject to a minimum per month (varies by location; see Plan Information table). The flat benefit is also payable.

Deferred Vested Pension Accrued benefit payable at age 65; reduced 6% per year that payment commences prior to age 65.

Preretirement Spouse's Benefit For vested active employees, the surviving spouse automatically receives one half of the employee's accrued benefit, payable immediately. The flat benefit is also payable.

For terminated vested employees whose payments have not commenced, a benefit deferred to the participant's earliest retirement age equal to one half of the joint and 50% survivor benefit which would have been payable to the participant. An actuarial reduction is made in a participant's accrued benefit for this optional benefit.

Former Oak Materials Plan participants and Signal Research employees are subject to proration rules under the Allied Salaried Plan. The date used for proration is January 1, 1988 for Oak Materials and January 1, 1989 for Signal Research.

Early Pension

With 80 points, the basic benefit is computed as for normal retirement, except that the 0.4% benefit based on excess pay is discounted by 3.0% for each year that early retirement precedes age 62.

Under 60 points retirement, the basic benefit is computed as for normal retirement, discounted by 3% for each year that early retirement precedes age 62.

The minimum benefit before offset is reduced 3% for each year that early retirement precedes age 62, and the offset is multiplied by a fraction the numerator of which is service at retirement and the denominator of which is projected service at age 65. The offset is also reduced 6 2/3% for each of the first five years that early retirement precedes age 65 and 3 1/3% for each year in excess of five.

Disability Pension

Accrued benefit payable immediately. If LTD and Social Security are available, benefit is deferred to age 65 with credit for time on disability (maximum 18 months).

Deferred Vested Pension

Accrued benefit payable at age 65 (except that the offset is prorated as for early retirement); reduced 6 2/3% for each of the first five years and 3 1/3% for each year in excess of five for early commencement.

Preretirement Spouse's Benefit

For vested active employees, one half of the employee's accrued benefit, payable immediately.

No additional benefits accrue after March 31, 2007.

Upon attaining his or her normal retirement date a non-exempt Nebraska City Plan participant shall upon his retirement be eligible for a pension equal to (a) less (b):

- (a) \$17.00 multiplied by years and months of credited service.
- (b) The benefit accrued to August 15, 1988 (the date that The Singer Company sold American Meter Company).

Upon attaining his or her normal retirement date all other participants shall, upon his or her retirement be eligible for a pension which shall be equal to (a) less (b) below:

- (a) $\frac{3}{4}\%$ of the first \$550 of average monthly compensation plus $1\frac{1}{8}\%$ of the excess, the sum multiplied by years and months of credited service.
- (b) The benefit accrued to August 15, 1988 (the date that The Singer Company sold American Meter Company).

**Monthly Preretirement Spouse
Death Benefit**

Any married participant whose pension has not commenced and who has completed at least five years of service has preretirement death benefit coverage.

The spouse of a participant who dies while the preretirement death benefit coverage is in effect receives a lifetime monthly pension payable immediately (starting at the employee's earliest early retirement date, if later) equal to 50% of the participant's retirement pension computed in accordance with the provisions of the "normal retirement" pension described above, reduced for the 50% joint and survivor annuity form and early commencement, if applicable. Effective January 1, 1994, the cost of this coverage is provided by the plan. Previously, the benefit payable to either the participant or the spouse was further reduced by $\frac{1}{100}$ of 1% multiplied by the number of months that preretirement death benefit coverage was in effect for each month from age 45 through 54, and $\frac{6}{100}$ of 1% for each month from age 55 through age 64.

Plan Provisions—Bendix Salaried

Participation in Plan

Salaried employees of former Bendix Companies. For employees of Honeywell Technology Solutions Inc. (BFEC), some benefits are not available—see specific descriptions.

Employees hired before 2000 who were active on October 1, 2000 had the one time option of electing the Retirement Earnings formula. Employees hired after 1999 participate in the Retirement Earnings formula.

Friction Materials employees (including new hires) continue to participate in the Bendix Salaried formula.

Effective December 31, 2015, the formula was amended to freeze pensionable pay for all participants.

Eligibility for Benefits

Normal Pension

Age 65 and five years of vesting service.

Early Pension

(1) Age 55 with five years of vesting service.

(2) Age plus vesting service equals 80 points.

Disability Pension

Immediate eligibility upon qualifying disability of five months.

Deferred Vested Pension

Amount of Pension

Normal Pension

The basic benefit is the difference between (1) and (2):

(1) 2% of Average Salary for each year of service up to 25 years, plus 1/2% for each year in excess of 25.

(2) 2% of the Primary Social Security Benefit for each year of service up to 25 years.

The alternative minimum benefit is 3/4% of Average Salary plus \$8, for each year of service up to 30.

In addition, a Medicare Part B Premium supplement of \$8.20 per month is payable to any retiree (except terminated vested retirees) or eligible surviving spouse age 65 or older.

Early Pension

The benefit is computed as for normal retirement with the following reductions:

Basic Benefit

Part (1) is reduced by 2% for each of the first five years plus 4% for each year in excess of five by which retirement date precedes age 65, subject to a maximum reduction of 25% if the employee has 80 "points."

The Social Security offset is applied only when Social Security is actually available (currently age 62) and is then reduced 6 2/3% per year for the first three years by which the later of retirement date and age 62 precedes the age for unreduced Social Security benefits. If the age for unreduced Social Security benefits is greater than age 65, the offset is further reduced 5% per year for up to another two years.

Alternative Minimum Benefit

Reduced by 7.2% for each of the first five years plus 4.8% for each year in excess of five by which retirement date precedes age 65, except that if the employee has at least 80 "points," this reduction does not apply and a \$385 monthly supplement is added prior to eligibility for Social Security (currently age 62).

Disability Pension

A participant will accrue service (maximum 18 months) while disabled, up to an overall maximum of 25 years, for purposes of determining a normal or early retirement benefit when otherwise eligible, at the participant's election.

Deferred Vested Pension

Projected monthly pension, commencing at age 65, based on Average Salary prior to termination and on projected service to age 65, multiplied by the ratio of service at termination to projected service at age 65. If eligible, an early pension may be taken, but the benefit is reduced for early commencement.

Preretirement Spouse's Benefit

Where death occurs after the employee had satisfied the requirements for vesting, the spouse's benefit is subject to a minimum calculated as if the employee had retired early and elected a joint and 50% survivorship option, payable at the later of employee's death and earliest retirement age.

If a terminated vested participant dies before benefit commencement, spouse automatically receives 50% of the employee's accrued benefit, reduced for early retirement, survivorship option, and coverage. Benefit is payable at later of employee's death and earliest retirement age.

Postretirement Survivor's Benefit

A lump sum benefit equal to 15% of average salary (prorated for service less than ten years at retirement), with a minimum of \$2,000, is paid upon death after retirement. (Not applicable to BFEC retirements after January 1, 1992.)

Plan Provisions—Grimes Retirement

Participation in Plan

Salaried employees at locations historically covered by the Grimes Aerospace plan.

Employees hired before 2000 who were active on October 1, 2000 had the one time option of electing the Retirement Earnings formula. Employees hired after 1999 participate in the Retirement Earnings formula.

Effective December 31, 2015, the formula was amended to freeze pensionable pay for all participants.

Eligibility for Benefits

Normal Pension

Age 65.

Early Pension

A participant may retire prior to his normal retirement date at age 55 with five years of benefit service.

Disability Pension

Ten years of benefit service.

Deferred Vested Pension

Five years of benefit service.

Preretirement Spouse's Benefit

Five years of benefit service.

Amount of Pension

Normal Pension

The greatest of (1), (2), or (3):

(1) 1% of Final Average Earnings below the Covered Compensation Breakpoint, plus 1.35% of Final Average Earnings above the Covered Compensation Breakpoint, multiplied by years of Benefit Service (maximum 35).

(2) Accrued benefit under prior plan formula as of December 31, 1990.

(3) Accrued benefit under prior plan formula as of December 31, 1988, plus future service accruals under formula (1) above from December 31, 1988. Total Benefit Service is limited to 35 years.

Honeywell Retirement Earnings Plan
EIN: 22-2640650 PN: 201

Early Pension

For that portion of the benefit determined using the 1%/1.35% covered compensation formula, the accrued benefit is reduced as follows:

(1) For employees with at least five but less than ten years of Vesting Service, the benefit is reduced actuarially from age 65:

Age	Early Retirement Factor
65	1.000
64	0.897
63	0.807
62	0.727
61	0.657
60	0.595
59	0.540
58	0.491
57	0.447
56	0.408
55	0.372

(2) For employees with at least 10 but less than 30 years of Vesting Service, the benefit is reduced by 4% per year from age 65.

(3) For employees with 30 or more years of Vesting Service, the benefit is reduced 4% per year from age 62.

For that portion of the benefit determined using prior plan formulas, the benefit is reduced according to the prior plan early retirement factors.

Disability Pension

A participant shall be treated as an active participant for up to 18 months, receiving compensation at the same rate in effect immediately prior to disability, until the earlier of age 65 and termination of disability benefits.

Deferred Vested Pension

Accrued benefit payable at age 65; reduced actuarially for commencement.

Preretirement Spouse's Benefit

A benefit deferred to the participant's earliest retirement age equal to one half of the joint and 50% survivor benefit which would have been payable to the participant.

Amount of Pension

Normal Pension

For all participants at Lawrence, KS, and the Chandler groups, pension equity amount equals the sum of:

- (1) Final Average Compensation times the sum of the Percentage Credits earned for each year of Credited Service (see table below), plus
- (2) Final Average Compensation in excess of one half of the Social Security Wage Base times the sum of the Integration Percentage Credits earned for each year of Credited Service (see table below).

Attained Years of Vesting Service	Annual Percentage Credits	Annual Integration Percentage
For each of the first 5 years	3.0%	1.5%
For years 6–10	4.0%	2.0%
For years 11–15	6.0%	3.0%
For more than 15 years	10.0%	5.0%

In addition, the pension equity benefit payable cannot be less than the projected pension equity benefit payable at normal retirement age assuming constant Final Average Compensation and continuous employment to normal retirement age times the ratio of Credited Service over projected Credited Service at normal retirement age.

The pension equity amount calculated above is payable in the form of a lump sum.

Plan Provisions—Pittway Retirement

Participation in Formula

Nonunion employees become Participants on the January 1 coinciding with or next following completion of three months of service if they complete at least 1,000 hours of service during their first year of employment.

A one time irrevocable election was extended to employees at locations that offer the Retirement Earnings formula of this plan. The election entitled covered employees to elect to cease participating in the Legacy plan as of December 31, 2004, and instead become covered by the Retirement Earnings formula under this Plan as of January 1, 2005. This election applied to future credited service under the Plan only. Employees hired after December 31, 2004 automatically participate in the Retirement Earnings formula.

Effective December 31, 2015, the formula was amended to cap pensionable pay at 2015 levels for all participants.

Effective Date

The original effective date of the Plan is January 1, 1975. Latest amendments are effective January 1, 2002.

Amount of Pension

Normal Pension

The normal retirement benefit shall be an annuity, payable monthly. The gross monthly benefit is equal to the greater of (a) and (b) plus (c):

- (a) 0.75% of Prior Service Compensation up to \$12,000, plus 1.25% of such compensation in excess of \$12,000, times credited service at January 1, 1975.
- (b) The actuarial equivalent life annuity based on a Participant's Credited Assets at Normal Retirement date. A full year of interest will be granted for any partial year of six months or more, while no interest will be credited for partial years which are less than six months.
- (c) 1.2% of Plan Compensation up to the maximum Social Security Wage Base plus 2.0% on pay above for each year of credited service after January 1, 1975 and before January 1, 1989. Effective January 1, 1989, 1.2% of Plan Compensation up to Covered Compensation and 1.85% above Covered Compensation, for the first 35 years of credited service and 1.2% of Plan Compensation for each year of credited service over 35. Effective January 1, 1994, benefits were increased 20% for active participants.

Early Pension

The monthly pension is computed on the same basis as a normal retirement pension, considering service and compensation to the participant's actual date of retirement. The pension is reduced 6.67% per year for each of the first five years and 3.33% for each of the next five years by which commencement precedes normal retirement date.

Disability Pension

The disability benefit is computed on the same basis as a normal retirement pension, considering service and compensation at time of disability and actuarially reduced for commencement prior to normal retirement date. The form of payment is a life annuity prior to age 55 and an actuarially reduced 50% joint and survivor annuity for married participants upon the attainment of age 55.

Deferred Vested Pension

The benefit is computed on the same basis as a normal retirement pension, considering service and compensation to the date of termination.

If the participant has satisfied the service requirements for early retirement, he/she can elect to commence benefits between his/her early retirement date and normal retirement date. The benefit will be reduced as for early commencement.

Preretirement Survivor's Benefit

An automatic special preretirement survivor benefit is in effect for an employee who is eligible for a deferred vested or early retirement benefit, that pays a survivor benefit to the spouse in the event of death prior to retirement. The spouse benefit will be determined on the assumption that the employee retired on the date of his death and elected the automatic 50% joint and survivor benefit.

Normal Form of Payment

With Spouse

Automatic 50% joint and survivor annuity unless rejected in writing.

Without Spouse

Single life annuity.

Optional Forms of Payment

A participant can elect a certain and life annuity, full cash refund, joint and survivor (50%, 66 2/3% or 100%), a social security equalization, lump sum, or any other form of pension actuarially equivalent to a life annuity.

Plan Provisions—Prestone

Effective Date

August 26, 1994.

Participation in Plan

All eligible employees who were members on August 25, 1994 of the Retirement Program for Employees of First Brands Corporation become plan participants on August 26, 1994.

Employees hired after August 25, 1994 and before 2000 who were active on October 1, 2000 had the one time option of electing the Retirement Earnings formula. Employees hired after 1999 participate in the Retirement Earnings formula.

Effective December 31, 2015, the formula was amended to freeze pensionable pay for all participants.

Eligibility for Benefits

Normal Retirement

The first day of the month coincident with or next following the participant's 65th birthday.

Early Retirement

The first day of the month coincident with or next following the date as of which the participant has attained age 50 and completed ten years of service.

Unreduced Retirement

Earliest of (1), (2), (3), or (4):

- (1) Attainment of age 65.
- (2) Attainment of age 62 with ten years of credited service.
- (3) Attainment of age 60 with 30 years of credited service.
- (4) The sum of age and credited service equals 85 (85 point rule).

Disability Retirement

Completion of ten years of service.

Vesting

Completion of five years of credited service.

Schedule SB Attachment (Form 5500)—2024 Plan Year

Honeywell Retirement Earnings Plan

EIN: 22-2640650 PN: 201

Amount of Pension

Normal Retirement

Greater of (1) or (2), minus (3):

- (1) 1.2% of Final Earnings times years of credited service, plus \$144.
- (2) 1.5% of Final Earnings times years of credited service less the product of:
 - (a) Estimated Social Security Benefit and
 - (b) A factor determined to be the least of 1.5% times credited service, 50%, or the maximum offset based on IRS integration rules in effect at actual retirement.
- (3) Prior Plan Benefit.
 - (a) A minimum benefit is also payable in some cases.

Early Pension

The Normal Retirement Benefit, calculated without regard to the Prior Plan Benefit, reduced by 5% per year for each year early, minus the Prior Plan Benefit. The number of years early is the lesser of:

- (1) The difference between the date the participant would be eligible for unreduced benefits (excluding the 85 point rule) and the Early Retirement Date, or
- (2) The difference between 85 and the sum of the participant's age and credited service on the Early Retirement Date.

Disability Pension

Normal Retirement Benefit, based upon credited service to date of termination.

Prior Plan Pension

The accrued benefit as of July 1, 1986 under the Retirement Program Plan for Employees of Union Carbide Corporation and Its Participating Subsidiaries. Early commencement factors shall be calculated in the same manner as those under the prior plan; however, no service after July 1, 1986 shall be taken into account.

Schedule SB Attachment (Form 5500)—2024 Plan Year
Honeywell Retirement Earnings Plan
EIN: 22-2640650 PN: 201

Deferred Vested Pension

The Normal Retirement Benefit, based upon credited service to date of termination. Benefits are reduced by 6 2/3% for each of the first three years and 5% for each additional year that commencement precedes age 65. For purposes of the Deferred Vested Benefit, the Estimated Social Security Benefit is calculated as a prorata portion of the projected age 65 amount, assuming for Social Security purposes, that earnings remain level until retirement.

Preretirement Spouse's Benefit

50% of the benefit which would have been payable to the employee if he had retired at the date of death (but not less than 25% of the accrued benefit) payable until death, or in the case of dependent children, until age 23 if earlier.

Normal Form of Payment

Life annuity if single; reduced 50% surviving spouse annuity if married.

Optional Forms of Payment

Actuarially equivalent 50% survivor annuity providing benefits to a dependent parent for life or a dependent child to age 23 after the participant's death; actuarially equivalent level income option providing increased benefits to age 62 and decreased benefits thereafter, so that total income including Social Security benefits remain approximately level; and a lump sum for those who terminate after 10/31/2023.

Definitions

Final Earnings

Average of the highest three consecutive years' earnings out of the last ten prior to termination date.

Estimated Social Security Benefit

The estimated Social Security benefit based on the law in effect at actual retirement, assumed to commence at the later of retirement or age 62.

Plan Provisions—PSTG Hourly

Applicable Group

All employees who were Members in the plan prior to January 1, 1975 continue to participate in this plan. Other employees become Members if they have completed six months of service on January 1, 1975 or on the January 1st following completion of six months of service provided they complete at least 1,000 hours of service during their first year of employment. Employees hired after April 1, 2010 participate in the Pension Equity formula. Employees hired after February 28, 2013 are not eligible for a pension benefit.

Effective Date

The original effective date of the Plan is January 1, 1974. These provisions reflect improvements negotiated through February 28, 2018 and the plant was closed shortly thereafter.

Eligibility for Benefits

Normal Pension

Age 65.

Early Pension

Age 55 and ten years of service.

Disability Pension

Immediate.

Deferred Vested Pension

Five years of service.

Preretirement Spouse's Benefit

Five years of service.

Amount of Pension

Normal Pension

The normal retirement benefit shall be an annuity, payable monthly. The gross monthly benefit is equal to the sum of (a), (b), (c), (d) and (e):

- (a) 0.50% of Prior Service Compensation up to \$7,800 plus 1.00% of such compensation in excess of \$7,800, times credited service at January 1, 1974.
- (b) 0.75% of annual basic pay up to the maximum Social Security Wage Base plus 1.50% (1.10% effective 1/1/1989) on pay above for each year of credited service after January 1, 1974 and before January 1, 1999.

Schedule SB Attachment (Form 5500)—2024 Plan Year

Honeywell Retirement Earnings Plan

EIN: 22-2640650 PN: 201

- (c) 0.90% of annual basic pay up to the maximum Social Security Wage Base plus 1.10% on pay above for each year of credited service after January 1, 1999 and before January 1, 2001.
- (d) 1.00% of annual basic pay up to the maximum Social Security Wage Base plus 1.50% on pay above for each year of credited service after January 1, 2001 and before April 1, 2007.
- (e) 1.50% of annual basic pay up to the maximum Social Security Wage Base plus 1.50% on pay above for each year of credited service after April 1, 2007.

For participants with more than 35 years of service, no additional benefit for pay over the Social Security Wage Base.

Early Pension

The monthly pension is computed on the same basis as a normal retirement pension, considering service and compensation to the participant's actual date of retirement. The pension is actuarially reduced for commencement prior to the normal retirement date. Commencement is deferred for one year unless elected when first eligible.

Disability Pension

The disability benefit is computed on the same basis as a normal retirement pension, considering service and compensation at time of disability and actuarially reduced for commencement prior to normal retirement date. The form of payment is a life annuity prior to age 55 and an actuarially reduced 50% joint and survivor annuity for married participants upon the attainment of age 55.

Deferred Vested Pension

The benefit computed on the same basis as a normal retirement pension, considering service and compensation to the date of termination.

Schedule SB Attachment (Form 5500)—2024 Plan Year

Honeywell Retirement Earnings Plan

EIN: 22-2640650 PN: 201

If the participant has satisfied the service requirements for early retirement, he/she can elect to commence benefits between his/her early retirement date and normal retirement date. The benefit will be actuarially reduced for early commencement. Early commencement is deferred one year unless elected when first eligible.

Preretirement Survivor's Benefit

An automatic special preretirement survivor benefit is in effect for an employee who is eligible for a deferred vested or early retirement benefit which pays a survivor benefit to the spouse in the event of death prior to retirement. The spouse benefit will be determined on the assumption that the employee retired on the date of his death and elected the automatic 50% joint and survivor benefit.

Normal Form of Payment

With Spouse

Automatic 50% joint and survivor annuity unless rejected in writing.

Without Spouse

Single life annuity.

Optional Forms of Payment

A participant can elect either a certain and life annuity, full cash refund, joint and survivor (50%, 66 2/3% or 100%), a social security equalization, lump sum or any other form of pension actuarially equivalent to a life annuity. These annuities are actuarially equivalent to the single life annuity.

Definitions

Member

Any employee of the System Sensor Division of Pittway Corporation who receives compensation on an hourly basis, who is a member of the collective bargaining agreement, and meets the eligibility requirements for entry into the plan.

Years of Vesting Service

A Plan Year in which 1,000 hours of service is completed. Prior to January 1, 1975 vesting service is years and completed months of employment rounded to the nearest year.

Honeywell Retirement Earnings Plan
EIN: 22-2640650 PN: 201

Normal Pension (continued)

The Normal Retirement Benefit shall not be less than:

- (1) In the case of employees at Garrett, the larger of:
 - (a) \$20.00 times Credited Service or
 - (b) 1% of Average Final Compensation times Credited Service.
- (2) In the case of any other participant, 1.25% of Average Final Base Pay times Credited Service.

Normal Pension (continued)

For a participant who holds a Garrett Secured Benefit Account, his Normal Retirement Benefit shall be offset by the value of the account balance not transferred to this plan. The offset value is equal to the accumulated value at the normal retirement date divided by 153.31.

Effective 7/1/2000, a participant with a Garrett Secured Benefit Account will never receive less than the benefit based on service since January 1, 1984 without any offset for his account balance.

Early Pension

The Early Retirement Benefit is equal to the Normal Retirement Benefit, with the Primary Social Security offset not to exceed 50% of the Primary Social Security benefit times the ratio of his Credited Service to Credited Service at normal retirement date, reduced by 1/3 of 1% for each of the first 60 months his retirement age precedes age 60 and further reduced by an actuarial equivalent reduction for months in excess of 60.

Disability Pension

Same as the Early Pension but with the reduction on minimum (nonintegrated) benefits limited to 50%.

Deferred Vested Pension

Normal Pension deferred to age 65. If eligible, an early pension may be taken but the benefit is actuarially reduced for payment before age 65.

Preretirement Survivor's Benefit

For employees eligible for early retirement, one half of the single life annuity the participant would have received had he retired immediately preceding his death. If not survived by a spouse, his dependents shall share the benefit equally until age 21.

Plan Provisions—UOP

History of the Plan

Effective December 30, 1940, a company known as Universal Oil Products Company and subsequently known as UOP Inc. ("Former UOP Inc.") established and thereafter maintained a pension plan for certain of its employees and for certain employees of certain of its divisions and subsidiaries including a division known as the Process Division. Such pension plan, which had been known as UOP Pension Plan ("Former UOP Pension Plan"), along with other like pension plans maintained by Former UOP Inc., was as of January 1, 1984 merged into a pension plan maintained by The Signal Companies Inc., of which Former UOP Inc. was then a subsidiary, and which plan was known as The Signal Companies Inc. Retirement Plan ("Signal Plan").

Effective December 29, 1984, the Process Division became, by corporate action, the sole operating unit of Former UOP Inc., which along with certain of its subsidiaries, namely UOP Process International Inc. and UOP Management Service Inc., are hereafter referred to as "1984 UOP Inc."

As of August 22, 1988, the interests in the Signal Plan of employees and former employees of 1984 UOP Inc. and of certain employees and former employees of the Engineered Materials Research Center of AlliedSignal Inc., which was the parent corporation of 1984 UOP Inc. and of all such Research Center until August 22, 1988, were transferred to this plan which was established effective August 22, 1988 as a pension plan for the continuation and the restatement of such interests of such employees and such former employees and which was named UOP (Allied Signal) Retirement Income Plan.

As of June 1, 1989, several changes in plan provisions were made (principally, changing from a final 5 year average pay formula to a 3 year average pay formula and extending early retirement to participants age 50 with ten years service), the plan was renamed "UOP Pension Plan" and two plans were merged into this plan: UOP (Union Carbide) Retirement Income Plan, and Katalistiks International, Inc. Pension Trust.

Effective August 1, 2001, 32 former employees of BP Amoco (BPA) joined UOP and became immediate participants in the UOP Pension Plan.

A summary of the plan provisions is shown on the following pages.

Effective December 31, 2015, the formula was amended to freeze pensionable pay for all participants.

Eligibility for

Participation

All U. S. dollar paid employees who have worked at least 1,000 hours in one year, excluding bargaining employees unless participation is part of the agreement.

Retirement Benefits

Age 65, or age 50 with 10 years.

Disability Benefits

Ten years of service.

Termination Benefits

Five years of service.

Death Benefits

Five years of service.

Amount of Benefits

At Retirement

Accrued benefit (except for (2)(ii), which is unreduced) reduced by 4% for each year by which commencement precedes age 60.

At Disability

Unreduced benefit accrued through date of commencement. Maximum 18 months of service while on disability.

At Termination

Accrued benefit payable at age 65, or, if 10 years service, reduced by 6% for each of the first five years by which commencement precedes age 65 and by 4% for each of the next ten years.

At Death

(1) On the death of a participant eligible for retirement, the surviving spouse is entitled to an annuity equal to 50% of the annuity which the deceased employee would have received had he retired the day before death.

Schedule SB, line 24—Change in Actuarial Assumptions

- Optional payment form election percentages for Retirement Earnings were updated to better match recent experience. The lump sum election percentage increased 5% and the life annuity election percentage decreased 5%.
- Optional payment form election percentages for Traditional Formulas were updated to include an unlimited lump sum option. The lump sum election percentage was set to 80% and the other optional forms were decreased proportionately. This change was made to account for a plan amendment that allows all Traditional Formula participants who terminate after 10/31/2023 to elect an unlimited lump sum payment form.
- Withdrawal rates for Traditional formulas were updated to better match recent experience.
- A change in the unlimited expected rate of return on assets from 6.75% to 7.00%.
