## INDEPENDENT AUDITOR'S REPORT

The Plan Administrator of the  
Pension Plan for Employees of Baptist Health Richmond:

### Opinion

We have audited the financial statements of the Pension Plan for Employees of Baptist Health Richmond (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Supplemental Schedules Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 and schedule of reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2024 AND 2023, AND FOR THE YEAR ENDED  
DECEMBER 31, 2024

---

### 1. DESCRIPTION OF THE PLAN

The following description of the Pension Plan for Employees of Baptist Health Richmond (the “Plan”) is provided for general purposes only. Participants should refer to the plan document for a more complete description of the Plan’s information.

**General**—The Plan is a noncontributory defined benefit plan covering employees of Baptist Health Richmond, Inc. (the “Company”) who have completed one year of service and attained age 21. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). New York Life Insurance Company (“New York Life”) serves as the Plan custodian.

Effective December 31, 2004, the Plan was frozen to new entrants and no new participants are allowed into the Plan subsequent to that date. Effective December 31, 2007, the Plan ceased benefit accruals based upon compensation; however, years of service continue to be credited for the purposes of determining vesting.

**Pension Benefits**—Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to 40% of their average annual earnings as of December 31, 2007, less 50% of their primary social security benefit reduced by 1/15th for each year, or part of a year, by which their years of credited service at normal retirement age are less than 15 years.

Participants may generally elect to receive reduced benefits upon early retirement at age 55, provided they have at least 5 years of service. Accrued benefits are ordinarily payable as an annuity over the participant’s lifetime or under certain other annuity options. Benefits are also payable in a lump sum under certain circumstances.

**Death Benefits**—The spouse of a participant will receive a 50% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 50% of the participant’s monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits. No benefits are payable under the Plan if a participant dies after his or her benefits have become payable under the Plan unless a survivorship benefit is elected.

**Vesting**—Eligible employees are fully vested upon completion of five years of vesting service.

### 2. SUMMARY OF ACCOUNTING POLICIES

**Basis of Accounting**—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

**Use of Estimates**—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

**Risks and Uncertainties**—The Plan provides various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

**Insurance Immediate Participation Contract**—FASB ASC 960-325-35-3 states that insurance contracts (ex., deposit administration contracts, IPG contracts and as defined in the FASB ASC glossary) should be presented in the same manner as specified in the annual report filed by a plan with certain governmental agencies pursuant to ERISA. This is consistent with the requirements of Form 5500. The current Form 5500 permits unallocated insurance contracts to be reported at either current value or as determined on Schedule A, Insurance Information, that is contract value. This is an exception to the general requirement of FASB ASC 960 that plan investments be presented at fair value. The Plan's immediate participation guarantee contract with New York Life is stated at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to purchase annuities and pay administrative expenses. New York Life matches similar groups of its contractual liabilities with assets to support those liabilities through segmentation of its general account, which is comprised of a variety of investments. Investment income earned by those segmented assets is then allocated directly to that segment. The immediate participation guarantee contract is comprised of two funds, the fixed dollar fund and the pension fund. The pension fund is subject to a minimum balance provision based upon the aggregate estimated present values of all pension benefits to which pensioners are entitled under the contract. Any amounts needed to maintain the minimum balance are transferred from the mutual fund or fixed dollar fund portion of Plan assets. Interest is credited at the rate used to calculate the minimum balance as of the preceding December 31. Such rate is determined based on the rate of investment income earned by New York Life since the preceding December 31. This investment represents a concentration of credit risk as it represents 100% of net assets available for benefits as of December 31, 2024 and 2023.

**Payment of Benefits**—Benefit payments to participants are recorded upon distribution.

**Administrative Expenses**—Administrative expenses may be paid by the Company or the Plan, at the Company's discretion as provided by the Plan document. For the year ended December 31, 2024, administrative expenses of \$32,812 were paid by the Plan relating to benefit payment administration expenses. The Company provides accounting and other administrative services to the Plan at no charge.

**Subsequent Events**—No events have occurred after December 31, 2024, but before October 14, 2025, the date the financial statements were available to be issued that require consideration as adjustments to or disclosures in the Plan’s financial statements.

### **3. FUNDING POLICY**

Contributions to provide benefits under the Plan are made solely by the Company. The Company’s funding policy is to make cash contributions to the Plan in amounts as determined by the Plan’s independent actuary. The Company met the minimum funding requirements of ERISA for the year ended December 31, 2024. No employee contributions are permitted.

### **4. ACCUMULATED PLAN BENEFITS**

Accumulated plan benefits are those future periodic payments that are attributable under the Plan’s provisions to the compensation, and services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries and (2) present employees or their beneficiaries. Benefits payable as a result of retirement, death, disability or termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by independent actuaries. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the valuations as of December 31, 2024 and 2023 were:

- Mortality basis: 2024—Pri-2012 employee and retiree tables for males and females with no collar adjustments and Pri-2012 contingent survivor tables for current beneficiaries, with generational projection scale MSS-2024; and 2023—Pri-2012 employee and retiree tables for males and females with no collar adjustments and Pri-2012 contingent survivor tables for current beneficiaries, with generational projection scale MSS-2023
- Retirement, Withdrawal, and Benefit Commencement Age: Various ages based on age-related probability scales
- Discount rate: 4.40% for 2024 and 4.10% for 2023

The actuarial present value of accumulated plan benefits as of December 31, 2024 and 2023, is as follows:

	<b>2024</b>	<b>2023</b>
Actuarial present value of accumulated Plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 13,185,125	\$ 13,537,140
Other participants	<u>5,901,202</u>	<u>6,763,773</u>
Vested benefits	19,086,327	20,300,913
Nonvested benefits	<u>3,843</u>	<u>12,396</u>
Total actuarial present value of accumulated Plan benefits, at December 31, 2024 and 2023, respectively	<u>\$ 19,090,170</u>	<u>\$ 20,313,309</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2024, is as follows:

Actuarial present value of accumulated plan benefits—December 31, 2023	\$ 20,313,309
Increase (decrease) during the year attributable to:	
Benefits accumulated	(225,840)
Benefits paid	(1,264,430)
Interest due to the decrease in the discount period	804,765
Changes in actuarial assumptions	<u>(537,634)</u>
Actuarial present value of accumulated plan benefits—December 31, 2024	<u>\$ 19,090,170</u>

The foregoing actuarial assumptions are based upon the presumption that the Plan continues indefinitely. If the Plan were to be terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

## 5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plan investment is held by New York Life, which is the custodian of the Plan, and the Plan invests in an investment sponsored by New York Life. Fees for administrative services recorded by the Plan to New York Life Investment Management, LLC, a wholly owned subsidiary of the custodian, were \$32,812 for 2024. The Company provides certain administrative services at no cost to the Plan.

## 6. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated October 27, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

## **7. PLAN TERMINATION**

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

**Rationale for economic assumptions**

- The expected investment return is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's *Capital Markets Outlook* for the plan's current asset mix. The expected return on assets assumption is net of an adjustment of 12 bps for expenses to be paid from plan assets.
- The expense assumption is based on prior experience for administrative expenses and expectation that future experience is similar.

**Rationale for demographic assumptions**

- The withdrawal rates are based on an experience study from 2010 to 2014 and the expectation that future patterns will not differ significantly from the period studied.
- The retirement rates are based on an experience study from 2010 to 2014 and the expectation that future patterns will not differ significantly from the period studied.
- The benefit commencement age for current and future vested deferred participants are based on an experience study from 2010 to 2014 and the expectation that future patterns will not differ significantly from the period studied.

**Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**

- The assumed forms of payment are based on an experience study from 2010 to 2014 and the expectation that future patterns will not differ significantly from the period studied.

**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

**Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all eligible employees as of the prior valuation date.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan participates in a group annuity contract which covers benefits for participants receiving benefits. The plan recognizes the liabilities for participants receiving benefits and the value of the group annuity contract is considered part of plan assets.

**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

The weighted average retirement age is the total for the number of retirements multiplied by retirement age and divided by the total number of retirements, rounded to the nearest age. It should be noted that while only integral values are shown in the table, the content of each cell, including decimal portions, is used in the calculations.

**Schedule SB, Part V — Summary of Plan Provisions****Summary of major plan provisions**

Effective date and plan year	Original plan: January 1, 1979 Restated plan: January 1, 2016 Plan year: January 1
Status of the plan	Employees hired on or after January 1, 2005 are not eligible to participate in the plan. All benefit accruals were frozen effective December 31, 2007.
Significant events that occurred during the year	None
<b>Definitions</b>	
• Covered employees and participation	An employee is eligible to participate in the plan on the first day of the month following age 21 and the completion of 1 year of service. Employees hired on or after January 1, 2005 are not eligible for the plan.
• Vesting service	Each year of service in which a participant completes 1000 hours of service.
• Credited service	Each year of service in which a member completes 1000 hours of service.
• Accrued benefit	The projected normal retirement benefit is based on service at normal retirement date and average earnings at date of calculation. Social Security benefits recognize constant future earnings. The annual accrued retirement benefit is the projected benefit prorated based on service at date of calculation, but will not be less than \$600. The accrued benefit has been frozen as of December 31, 2007.
<b>Normal retirement</b>	
• Eligibility	Age 65.
• Benefit	Annual income of 40% of average earnings less 50% of primary Social Security benefits, reduced 1/15 for service less than 15 years. In no event will the annual income be less than \$600.
<b>Early retirement</b>	
• Eligibility	Age 55 and 5 years of service.
• Benefit	Accrued retirement benefit reduced 1/180 for each of the first 60 months and 1/360 for each of the next 60 months that benefit commencement date precedes age 65.
<b>Late retirement</b>	
• Eligibility	The first day of any month after age 65.
• Benefit	The greater of: a) Accrued benefit based on earnings and service to late retirement date, and b) Accrued benefit at age 65 actuarially increased to the late retirement date.
<b>In-service retirement</b>	
• Eligibility	Age 62 with 5 years of service or age 65 and PRN employment status.
• Benefit	Early retirement benefit commencing while still employed.
<b>Deferred vested</b>	
• Eligibility	After 5 years of vesting service.

**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2016, are included in this valuation:

- Most recent plan amendments included:** See above.
- Plan amendments excluded:** None
- Late retirement increases:**
  - Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
  - Deferred vested participants:* Current deferred vested participants over normal retirement age are valued excluding the late retirement actuarial increase.
- Disability:** The plan has no disability provision.
- IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.

**Schedule SB, Part V — Summary of Plan Provisions**

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

**Plan provisions specific to funding****Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* None.
  - *Plan amendments:* See above.
  - *Prohibited payments:* None.
  - *Benefit accruals:* The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

**Plan provision changes since prior valuation**

None.

**Schedule SB, line 32 — Schedule of Amortization Bases**

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by the Pension Protection Act of 2006 (PPA) took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.
