The Plan Administrator
Consolidated Pension Plan of Tufts Medicine, Inc.
Burlington, Massachusetts

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit (Modified Cash Basis)

We have performed the audits of the financial statements (modified cash basis) of the Consolidated Pension Plan of Tufts Medicine, Inc. formerly (the "Pension Plan of Circle Health Inc.") (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion (Modified Cash Basis)

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements (Modified Cash Basis) section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion (Modified Cash Basis)

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements (Modified Cash Basis) section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements (Modified Cash Basis)

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements (Modified Cash Basis)

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit (Modified Cash Basis) section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to Financial Statements (Modified Cash Basis)

Note 1 - Description of the Plan

The following description of the Consolidated Pension Plan of Tufts Medicine, Inc. (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined benefit pension plan sponsored by Tufts Medicine, Inc. (formerly sponsored by Circle Health, Inc.) (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Plan Merger, Sponsorship Change, and Name Change

During May 2023, the Tufts Medicine Investment Subcommittee voted to merge the Tufts Medical Center, Inc. Retirement Program - Defined Benefit Plan (“Retirement Program Plan”) into the Plan and the sponsorship of the Plan to be transferred to Tufts Medicine, Inc., both of which were effective as of December 31, 2023.

Assets of the Retirement Program Plan along with a second qualified retirement benefit plan of the Plan Sponsor, the Tufts Medical Center, Inc. Retirement Program - Participant Contribution Plan (the “Participant Contribution Plan”), are generally combined in the Tufts Medicine, Inc. Master Trust (formerly “Tufts Medical Center, Inc. Master Trust”) (the “Master Trust”) with The Bank of New York Mellon/BNY Mellon, N.A. as trustee. Investment managers are appointed by the Tufts Medical Center, Inc. Investment Committee to invest Plan assets. The Plan administrator is Tufts Medical Center. During 2024, the remaining assets of the Consolidated Pension Plan of Tufts Medicine, Inc. which were not included in the Master Trust as of December 31, 2023 were merged into the Master Trust.

Effective January 1, 2024, the Plan was renamed the Consolidated Pension Plan of Tufts Medicine, Inc.

Eligibility

Effective December 31, 2016, all Plan benefit accruals were frozen and no new participants were allowed to enter the Plan.

Effective December 31, 2017, the Visiting Nurse Association of Greater Lowell, Inc. Pension Plan merged with and into the Consolidated Pension Plan of Tufts Medicine, Inc. and ceased to exist as a separate plan at that time. Members of this plan had to be hired and complete 1 year of service and attain age 21 by December 31, 2005 in order to participate in the Plan. Their benefit is equal to 1% of average monthly compensation times their years of service plus 1% of their average monthly compensation in excess of 1/12 of their covered compensation times their years of service through December 31, 2006 plus 0.5% of average monthly compensation times their years of service plus 0.5% of their average monthly compensation in excess of 1/12 of their covered compensation times their years of service after December 31, 2006 with a maximum of 25 years of service. Benefit accruals for participants as of December 31, 2017 were ceased. Benefits are subject to applicable permitted disparity rules.

Note 1 - Description of the Plan (Continued)

Eligibility (Continued)

Effective December 31, 2023, the Tufts Medical Center, Inc. Retirement Program - Defined Benefit Plan merged with and into the Consolidated Pension Plan of Tufts Medicine, Inc. and ceased to exist as a separate plan at that time. Participation by eligible participants in the Plan was contingent on participation in the Participant Contribution Plan as of October 1, 1989, and previously, participation in the Tufts Medical Center, Inc. Retirement Program - Contribution Plan. Effective January 1, 1995, the non-union staff were no longer eligible for the formula benefit structure, which froze the accrued benefit, and they were offered the cash balance benefit provided they contributed to a tax sheltered annuity plan. For new hires, participation was contingent upon completion of one year of participation service and contributions to a tax sheltered annuity plan. Effective January 1, 2005 for non-union staff and August 1, 2005 for union contracted nurses, the Tufts Medical Center, Inc. Retirement Savings Plan - 403(b) (the "403(b) Plan") was established whereby eligible employees may contribute a percentage of their pre-tax salaries to the 403(b) Plan and receive an employer match after completing the service requirements. As of August 1, 2005, the Plan was frozen to new participants, and all prior participants in the Plan were eligible to participate in the 403(b) Plan. Participants became fully vested as of December 31, 2005. Effective January 1, 2018, the Plan was amended to freeze benefits effective February 28, 2018 and as of that date all current participants stopped accruing benefits. In addition, any participants that were accruing benefits prior to January 1, 2018 were credited with three years of service.

Funding Policy

Contributions to the Plan are made solely by the Company based on actuarial calculations made by the Plan's actuaries and are subject to the minimum funding requirement of ERISA. Plan sponsor contributions amounted to \$867,303 during the year ended December 31, 2024. No Employer contributions were made during the year ended December 31, 2023 as the minimum required contributions were met by applying funding balances.

Vesting

Each eligible employee with the final pay benefit or members of the cash balance benefit prior to January 1, 2008 become fully vested under the Plan after the completion of five years of service. Eligible employees who were participants prior to January 1, 1985 are 100% vested in their benefits. Each eligible employee with the cash balance benefit after January 1, 2008 becomes fully vested upon completion of three years of service. Participants that were a part of the Visiting Nurse Association of Greater Lowell, Inc. Pension Plan vest upon completion of five years of service. Participants that were accruing benefits prior to January 1, 2018 were credited with three years of service and became fully vested. As noted above, the participants in the Tufts Medical Center, Inc. Retirement Program - Defined Benefit Plan became fully vested as of December 31, 2005.

CONSOLIDATED PENSION PLAN OF TUFTS MEDICINE, INC.

Notes to Financial Statements (Modified Cash Basis)

Note 1 - Description of the Plan (Continued)

Pension Benefits (Provisions applicable to former participants of the Consolidated Pension Plan of Tufts Medicine, Inc.)

Prior to January 1, 2000, the Plan provided eligible employees with a final pay benefit equal to 1% of the member's average final compensation times their years of service plus 0.65% of the excess of their average final compensation over their covered compensation times their years of service not to exceed 35 years.

On January 1, 2000, all eligible employees hired on or after this time became eligible for a cash balance benefit. Participants receiving the final pay benefit made an irrevocable election to continue to receive the final pay benefit or begin receiving the cash balance benefit. For participants who elected to start receiving the cash balance benefit, their benefit under the final pay plan was determined as of January 1, 2000 based on a lump-sum equivalent.

Eligible employees rehired after January 1, 2000 receive the cash balance benefit. Eligible employees who were hired prior to October 15, 2003 become eligible for the Plan upon completion of 1 year of service and attaining age 21. Employees hired on or after October 15, 2003 are not permitted to participate.

Each plan year, eligible employees who receive the cash balance benefit receive a compensation credit based on their eligible compensation for the plan year. The compensation credit that participants receive is based on their age and vesting service as of the end of the plan year for which the credit applies. The compensation credit is as follows for plan years through December 31, 2016:

<u>Age and Service as of Plan Year End</u>	<u>Compensation Credit Percentage</u>
Less than 30	2.0%
30 but less than 40	2.5%
40 but less than 50	3.0%
50 but less than 60	3.5%
60 and over	4.0%

CONSOLIDATED PENSION PLAN OF TUFTS MEDICINE, INC.

Notes to Financial Statements (Modified Cash Basis)

Note 1 - Description of the Plan (Continued)

Pension Benefits (Provisions applicable to former participants of the Consolidated Pension Plan of Tufts Medicine, Inc.) (Continued)

In addition, each plan year eligible employees who receive the cash balance benefit receive an interest credit. The interest credit rate is the annual interest rate on 30-year treasuries times their account balance at the beginning of the year. For members who begin taking their benefit during a plan year, their interest credit will be multiplied by the number of months prior to their benefit commencement date.

The Plan permits early retirement with an actuarially reduced benefit for employees who have attained age 55. Their benefit is reduced based on the difference between their early retirement date and normal retirement date. Their benefit is reduced by 1/12 of each of the 1st three years and 1/24 for each of the next 7 years early.

Participants who were a part of the Visiting Nurse Association of Greater Lowell, Inc. Pension Plan can elect to retire early and receive a reduced benefit. Their benefit is reduced by 1/15 for each of the 1st five years and 1/30 for the next 5 years early. Participants who elect early retirement after age 62 and upon completing 25 years of service will not have their benefit reduced.

The normal form of benefit is a life annuity for unmarried participants and joint and survivor annuity for married participants. However, participants may also elect to take their benefit in the form of a life annuity, a 66 2/3% joint and survivor annuity with 10 years certain, cash refund annuity, 10 years certain and life, 15 years certain and life, and, as of January 1, 2008, participants can also take a 75% joint and survivor annuity. Participants with the cash balance benefit may also elect to take a lump-sum distribution.

Pension Benefits (Provisions applicable to former participants of the Tufts Medical Center, Inc. Retirement Program - Defined Benefit Plan)

Under the formula benefit structure and cash balance benefit, vested terminated participants are eligible to receive a normal retirement benefit at age 65. Benefits may be elected on a reduced basis at any time after age 55 by participants with at least 5 years of service. Participants must begin receiving benefit payments by age 70-1/2 years.

In the event of death prior to retirement of a participant who has met the requirements for vesting or early or normal retirement, a death benefit may be paid to his/her surviving spouse in accordance with the provisions of the Plan document. A participant who becomes totally and permanently disabled after completing 10 years of vesting service and who receives Social Security disability benefits shall continue to earn retirement benefits until age 65 (unless the participant elects an early retirement date), based on compensation in the year preceding disability.

Notes to Financial Statements (Modified Cash Basis)

Note 1 - Description of the Plan (Continued)

Pension Benefits (Provisions applicable to former participants of the Tufts Medical Center, Inc. Retirement Program - Defined Benefit Plan) (Continued)

Benefits under the formula benefit structure for union contract nurses are based on average compensation over the highest five consecutive years of participation in the Plan. The annual pension is equal to: (1) 1.12% of the participant's average compensation plus .63% of average compensation above covered compensation, multiplied by: (2) years of service up to 25 years plus one-half of the excess of years of service over 25 years, less (3) the equivalent value of a participant's balance under the Participant Contribution Plan. Covered compensation is Social Security covered compensation rounded to the nearest \$600, computed for an individual who reached the age of 65 in the year of termination.

The accrued benefits frozen at December 31, 1994 for non-union staff are payable in monthly installments, plus a cash balance benefit if the participant had elected to enroll in the Tax Shelter Annuity Plan.

For the cash balance benefit, Tufts Medical Center made matching contributions up to a limit of the first 3% of a participant's salary. A cash balance account is maintained for each participant and is funded by both matching credits and interest credits. The cash balance benefit is equal to the cash balance account (the sum of all matching and interest credits) converted to an actuarially equivalent single life annuity commencing on the first day coinciding with or following the normal retirement date. Tufts Medical Center eliminated matching contributions effective December 31, 2004. Effective January 1, 2005, the 403(b) Plan was established whereby eligible participants may contribute a percentage of their pre-tax salaries to the 403(b) Plan.

Effective March 28, 2005, accrued benefits with a cash value equal to or less than \$5,000 are distributed in a lump sum upon termination of employment. If the accrued benefit exceeds \$5,000, the cash balance portion, if any, may be distributed as a lump sum at the request of the terminated participant.

For accrued benefits with a cash value in excess of \$5,000, there are seven optional forms of benefit payment for participants who start annuity payments at age 55 or beyond. These options are: Life Annuity, Joint and 50% Surviving Spouse, Joint and 66-2/3% Surviving Spouse, Joint and 75% Surviving Spouse, Joint and 100% Surviving Spouse, 10-Year Certain and Continuous, and 15-Year Certain and Continuous.

As directed by the Plan administrator (at the participant's option), the trustee will pay an annuity benefit for a retiring participant, with monthly payments equal to an amount determined pursuant to the payment election.

Administrative Expenses

Plan related expenses, including actuarial, investment management-related, and audit expenses, are paid by the Plan.

CONSOLIDATED PENSION PLAN OF TUFTS MEDICINE, INC.

Notes to Financial Statements (Modified Cash Basis)

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared under the modified cash basis of accounting. The Plan's investments are valued at their fair value as of December 31, 2024 and 2023 and contributions are recorded on a cash basis when the trustee receives them. This is a comprehensive basis of accounting other than generally accepted accounting principles.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles under the modified cash basis of accounting requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits as of the date of the financial statements and the actuarial present value of accumulated plan benefits as of the benefit information date, the changes in net assets available for benefits during the reporting period, the changes in actuarial present value of accumulated plan benefits, and when applicable, the disclosures of contingent assets and liabilities as of the date of the financial statements. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants or beneficiaries are recorded when paid.

Actuarial Method

The estimated actuarial present value of accumulated plan benefits was determined using the traditional unit credit cost method.

Investments, Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment trustee and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Cash and Cash Equivalents

The Plan considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents.

CONSOLIDATED PENSION PLAN OF TUFTS MEDICINE, INC.

Notes to Financial Statements (Modified Cash Basis)

Note 2 - Summary of Significant Accounting Policies (Continued)

Plan Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Reclassifications

Certain amounts reported in the 2023 financial statements have been reclassified to conform to the 2024 presentation. There was no effect on previously reported net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2025, the date the financial statements were available to be issued, and noted no items requiring disclosure in the financial statements. No significant matters were identified for disclosure during the evaluation.

Note 3 - Information Certified by Trustee and Custodian

Plan investments are managed by The Bank of New York Mellon/BNY Mellon, N.A. ("BNY Mellon") the trustee and custodian. The fair value of all investments and all related investment transactions as of and for the years ended December 31, 2024 and 2023, including interest, dividends and net appreciation in fair values, are reported to the Plan and certified as complete and accurate by BNY Mellon, the trustee of the Plan.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

CONSOLIDATED PENSION PLAN OF TUFTS MEDICINE, INC.

Notes to Financial Statements (Modified Cash Basis)

Note 4 - Fair Value Measurements (Continued)

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds and Exchange Traded Funds (ETFs)

Valued at the daily closing price as reported by the fund. Mutual funds and ETFs held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds and ETFs held by the Plan are deemed to be actively traded.

Common/Collective Trusts

Valued at the NAV of units of the collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily with one day's notice. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments.

Hedge Funds

Hedge funds are valued by calculating the NAV of each investment by multiplying the investment's total capital from audited financial statements by the Plan's ownership percentage in that investment. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. Redemption rights, including the ability to withdraw from an investment within 15-90 days and fees related to such withdrawal, vary based on each individual investment.

Limited Partnerships

Limited partnerships are valued by calculating the NAV of each investment by multiplying the investment's total capital from audited financial statements by the Plan's ownership percentage in that investment. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. Redemptions may be processed monthly with 2-30 business days' notification.

The value of the Plan's interest in the Master Trust is determined with reference to the value of the Master Trust's underlying assets. The following tables set forth, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2024 and 2023:

Note 6 - Interest in Master Trust

Certain of the Plan's investment assets are held in a trust account with the trustee and consist of an undivided interest in an investment account of the Master Trust, a master trust established by Tufts Medical Center and administered by the trustee. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income or loss less actual distributions and allocated administrative expenses. Use of the Master Trust permits the commingling of trust assets with the assets of the Participant Contribution Plan for investment and administrative purposes. Although assets of both plans are commingled in the Master Trust, the trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income or loss of the investment assets is allocated by the trustee to each participating plan based on the relationship of the investment assets of each plan to the total of the investment assets of the participating plans.

Note 7 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments expected to be paid to (i) retired or terminated participants or their beneficiaries, (ii) beneficiaries of deceased participants, and (iii) presently employed participants or their beneficiaries for their service under the Plan's provisions up to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuarial firm and results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment (by means of analyzing factors such as death, disability, withdrawal, or retirement) between the valuation date and the expected payment date.

The significant actuarial assumptions underlying the actuarial computation of the present value of accumulated plan benefits for contributions are as follows:

	2024	2023
Interest rate	5.30%	6.80%
Mortality	Pri-2012 Mortality Table	Pri-2012 Mortality Table
Average retirement age	Age 65	
Form of payment	Lump sum payable at retirement - Cash balance component Life Annuity - All other components	

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024.

The actuarial present value of accumulated plan benefits as of January 1, 2024 is as follows:

Vested benefits:	
Participants currently receiving payments	\$ 144,795,948
Other participants	<u>112,158,162</u>
Total vested benefits	256,954,110
Nonvested benefits	<u>-</u>
Total actuarial present value of accumulated plan benefits	\$ <u>256,954,110</u>

CONSOLIDATED PENSION PLAN OF TUFTS MEDICINE, INC.

Notes to Financial Statements (Modified Cash Basis)

Note 7 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2024 resulted from the following:

Actuarial present value of accumulated plan benefits at beginning of year	\$ <u>69,085,525</u>
Change from year to year:	
Interest due to decrease in the discount period	4,527,453
Benefits paid	(5,010,665)
Actuarial losses	(422,076)
Assumption changes	9,242,312
Plan amendments (reflects plan merger)	<u>179,531,561</u>
Change for the year	<u>187,868,585</u>
Actuarial present value of accumulated plan benefits at end of year	\$ <u>256,954,110</u>

Note 8 - Plan Termination

The Company intends to continue the Plan indefinitely but reserves the right to terminate the Plan at any time. Upon termination, the Plan's assets would be allocated for the benefit of Participants and beneficiaries in the manner specified by the Plan and in accordance with ERISA.

If the Plan was terminated, certain benefits under the Plan would be insured by the Pension Benefit Guaranty Corporation (PBGC). Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. The PBGC guaranteed up to \$6,397 per month for plans terminating in 2024 and \$6,750 per month for plans terminating in 2023 (assuming 65 years of age and a straight-life annuity). Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

In the event that the Plan is terminated, the assets then remaining, after providing for the administrative expenses of the Plan, would be allocated first to Participants, spouses or beneficiaries receiving benefits at least three years prior to the termination date; next, to pay all other insured benefits as provided for under Title IV, Section 4D44 of ERISA; then to provide all other vested benefits under the provisions of the Plan that are not insured under ERISA; and, finally, to provide all other accrued benefits for Participants who were not vested as of the date of Plan termination.

CONSOLIDATED PENSION PLAN OF TUFTS MEDICINE, INC.

Notes to Financial Statements (Modified Cash Basis)

Note 9 - Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events such as an international conflict which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 10 - Related-Party Transactions and Party-In-Interest Transactions

During the years ended December 31, 2024 and 2023, the Plan invested in a registered investment company managed by BNY Mellon, the trustee and custodian of the Plan. Transactions in such investments qualify as party-in-interest transactions. In addition, fees paid to the auditor of the Plan qualify as party-in-interest transactions. Cash paid related to recordkeeping services provided by BNY Mellon was \$20,621 and \$59,826 for the years ended December 31, 2024 and 2023, respectively.

Note 11 - Tax Status

The Plan obtained its latest determination letter on March 15, 2021, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan was amended subsequent to the most recent determination letter, the Plan administrator and the Plan's tax counsel believe the Plan is designed, and is currently being operated, in compliance with the applicable sections of the IRC. Accordingly, no provision for income taxes has been included in these financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Tufts	<i>Part A and Part B benefits:</i>, 75% are assumed to elect a single life annuity, and 25% are assumed to elect a 50% joint and survivor annuity. <i>Cash balance benefit:</i> 80% of participants are assumed to elect lump sum payments while the remaining 20% are assumed to elect annuities. For those electing annuities, 75% are assumed to elect a single life annuity, and 25% are assumed to elect a 50% joint and survivor annuity. For participants with a PCP balance, it is assumed that the balance is received as a single lump sum with the net DB Plan benefit payable to the participant. Any prior transfers from the PCP to the DB Plan are reflected through census data and asset value updates annually such that the added liability and asset value for such transfers is measured on a consistent basis.
Percent married	80%. Used to value pre-retirement surviving spouse benefits and in determining the optional form to be elected upon commencement.
Spouse age	Wife three years younger than husband.
Covered pay	Not applicable.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 6.60% for 2024, 6.80% for 2023 and 5.90% for 2022 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with the plan sponsor regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor through its third-party administrator furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor or its trustee, BNY Mellon. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with Tufts Medicine, Inc., the following assumptions were made for missing or apparently inconsistent data elements:

- Missing beneficiary information was populated based on prior valuation information.
- Missing benefit information for inactive participants was populated based on prior valuation information and if not available, valuation assumptions were used.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	
• Circle Health	The plan credits interest to cash balance accounts using the 30-year Treasury rate from the November of the prior year, but with a minimum interest credit rate of 2.60%. Tufts Medicine has selected an expected future cash balance crediting rate of 4.00% through 2026 and 5.25% thereafter. After examining historical variability in this rate, we believe that the selected assumption is reasonable based on future expectations consistent with other economic assumptions used, including the discount rate and expected return assumption.
• Tufts	The plan credits interest to cash balance accounts using the 10-year Treasury, but with a minimum interest credit rate of 3.00%. Tufts Medicine has selected an expected future cash balance crediting rate of 4.00% through 2026 and 4.75% thereafter. After examining historical variability in this rate, we believe that the selected assumption is reasonable based on future expectations consistent with other economic assumptions used, including the discount rate and expected return assumption.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration, and trustee fees to be paid from the trust).
Assumed return for asset smoothing	The assumed return of 6.80% for 2023 and 5.90% for 2022 for the legacy Circle Health plan and 6.20% for 2023 and 5.40% for 2022 for the legacy Tufts Medicine plan used for asset smoothing is the expected gross return on assets assumption chosen by the client with the help of their investment advisers for the prior fiscal year reporting under U.S. GAAP. We understand it is the client's best estimate and have reviewed documentation from the investment advisors supporting the assumption for reasonableness.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on plan experience, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2021 and adjusted to reflect recent experience.
Benefit commencement date for deferred benefits:	
• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer.
• Deferred vested benefit	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, and currently there is not enough information to support an alternative assumption.
Form of payment	Forms of payment assumed were based on an experience study conducted in 2021.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality table used to calculate the funding target and target normal cost was updated, reflects the latest mortality improvement scale, and was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by the IRS under IRC §430.
- The cash balance account conversion mortality table was updated to the 2024 mortality table prescribed under IRC §417(e)(3).

Benefit

commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55.
- Deferred vested benefit Circle Health

For the Cash Balance benefit, lump sums are assumed to be paid immediately upon termination of employment.

For the Final Average Pay benefit, annuities are assumed to be paid at age 65.

Tufts

The later of age 65 or termination of employment
- Retirement benefit Upon termination of employment.

Form of payment

- Circle Health *For participants of the Cash Balance plan:*

80% of active participants are assumed to elect lump sum payments while the remaining 20% are assumed to elect annuities. For those electing annuities, 100% of single participants elect a single life annuity, 80% of married participants elect a 66 2/3% joint and survivor annuity with 10 years certain, and 20% of married participants elect a single life annuity. 100% of deferred vested participants are assumed to elect lump sum payments.

Annuities were valued using the mortality table prescribed under IRC §417(e)(3) and interest rates equal to the assumed cash balance interest crediting rate.

For participants of the Final Pay plan:

100% of single participants elect a single life annuity, 80% of married participants elect a 66 2/3% joint and survivor annuity with 10 years certain, and 20% of married participants elect a single life annuity.

Tufts	<i>Part A and Part B benefits:</i>, 75% are assumed to elect a single life annuity, and 25% are assumed to elect a 50% joint and survivor annuity. <i>Cash balance benefit:</i> 80% of participants are assumed to elect lump sum payments while the remaining 20% are assumed to elect annuities. For those electing annuities, 75% are assumed to elect a single life annuity, and 25% are assumed to elect a 50% joint and survivor annuity. For participants with a PCP balance, it is assumed that the balance is received as a single lump sum with the net DB Plan benefit payable to the participant. Any prior transfers from the PCP to the DB Plan are reflected through census data and asset value updates annually such that the added liability and asset value for such transfers is measured on a consistent basis.
Percent married	80%. Used to value pre-retirement surviving spouse benefits and in determining the optional form to be elected upon commencement.
Spouse age	Wife three years younger than husband.
Covered pay	Not applicable.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 6.60% for 2024, 6.80% for 2023 and 5.90% for 2022 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with the plan sponsor regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor through its third-party administrator furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor or its trustee, BNY Mellon. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with Tufts Medicine, Inc., the following assumptions were made for missing or apparently inconsistent data elements:

- Missing beneficiary information was populated based on prior valuation information.
- Missing benefit information for inactive participants was populated based on prior valuation information and if not available, valuation assumptions were used.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	
• Circle Health	The plan credits interest to cash balance accounts using the 30-year Treasury rate from the November of the prior year, but with a minimum interest credit rate of 2.60%. Tufts Medicine has selected an expected future cash balance crediting rate of 4.00% through 2026 and 5.25% thereafter. After examining historical variability in this rate, we believe that the selected assumption is reasonable based on future expectations consistent with other economic assumptions used, including the discount rate and expected return assumption.
• Tufts	The plan credits interest to cash balance accounts using the 10-year Treasury, but with a minimum interest credit rate of 3.00%. Tufts Medicine has selected an expected future cash balance crediting rate of 4.00% through 2026 and 4.75% thereafter. After examining historical variability in this rate, we believe that the selected assumption is reasonable based on future expectations consistent with other economic assumptions used, including the discount rate and expected return assumption.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration, and trustee fees to be paid from the trust).
Assumed return for asset smoothing	The assumed return of 6.80% for 2023 and 5.90% for 2022 for the legacy Circle Health plan and 6.20% for 2023 and 5.40% for 2022 for the legacy Tufts Medicine plan used for asset smoothing is the expected gross return on assets assumption chosen by the client with the help of their investment advisers for the prior fiscal year reporting under U.S. GAAP. We understand it is the client's best estimate and have reviewed documentation from the investment advisors supporting the assumption for reasonableness.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on plan experience, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2021 and adjusted to reflect recent experience.
Benefit commencement date for deferred benefits:	
• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer.
• Deferred vested benefit	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, and currently there is not enough information to support an alternative assumption.
Form of payment	Forms of payment assumed were based on an experience study conducted in 2021.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality table used to calculate the funding target and target normal cost was updated, reflects the latest mortality improvement scale, and was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by the IRS under IRC §430.
- The cash balance account conversion mortality table was updated to the 2024 mortality table prescribed under IRC §417(e)(3).

Pension Plan of Circle Health

Plan Provisions

Effective date and most recent amendment

The plan was restated January 1, 2020 and most recently amended merge the Tufts Medical Center Retirement Program – Defined Benefit Plan into this plan and update the name to the Consolidated Pension Plan of Tufts Medicine, Inc.

Circle Health resolved as of September 27, 2016 to freeze the accruals of future benefits under the Plan effective December 31, 2016.

The plan was merged with the Visiting Nurse Association of Greater Lowell, Inc. Pension Plan effective December 31, 2017.

The 2021 group annuity purchase transitioned plan obligations to an insurance company for most retirees who were receiving monthly benefits of \$1,000 or less from the plan.

Effective December 31, 2023, the Plan was amended to reflect the Tufts Medical Center, Inc. Retirement Program – Defined Benefit Plan merging into the Pension Plan of Circle Health. No benefits or provisions changed in light of this amendment.

Covered employees

All employees.

Participation date

Every eligible employee who was a participant in the Plan on December 31, 1999 and who did not elect to be covered under the terms of the cash balance plan continues to be covered under the terms of the final pay plan. No employee who becomes a participant in the Pension Plan of Circle Health, Inc. on or after January 1, 2000 will earn a pension benefit under the terms of the final pay plan.

Employees hired between January 1, 2000 and October 15, 2003 are eligible to participate in the cash balance plan.

Effective October 15, 2003, the plan was closed to new participants and any employee hired on or after October 15, 2003 is not eligible to earn benefits under this plan. No new participants shall be granted entry to the Plan after December 31, 2016 regardless of date of hire.

Vesting service One year of vesting service is credited for each 12 months of employment (i.e., vesting service is said to be determined on an “elapsed time” basis).

Benefit service One year of benefit service is credited for each plan year in which the participant completes at least 1,994 hours of service. A participant who completes fewer than 1,994 hours of service during the plan year is credited with a partial year of service based on the number of hours in the table below:

Hours of Service	Years of Benefit Accrual Service
1,994 or more	1
1,821 – 1,993	11/12
1,648 – 1,820	10/12

781 – 953	5/12
608 – 780	4/12
434 – 607	3/12
261 – 433	2/12
173 – 260	1/12
172 or fewer	0

No participant shall earn additional Years of Benefit Accrual Service after December 31, 2016.

Pensionable pay Total compensation includes any employee pre-tax contributions under IRC §125, §402(a)(8), §402(h), and §403(b). Compensation is limited to \$200,000 as indexed per IRC §401(a)(17).

Pensionable pay for the final pay plan is annualized based on the benefit service accrual for the year, provided hours worked in the year were at least 954.

Pensionable pay after December 31, 2016 is not considered in the determination of plan benefits.

Average earnings For the final pay plan, the average compensation paid to a participant during the five consecutive plan years out of the last ten years of participation which provides the highest such average.

Average earnings are frozen effective December 31, 2016.

Normal retirement date (NRD) Age 65.

Monthly pension benefit

- Final pay plan One-twelfth of the sum of (a) and (b) below:

 (a) 1% of final average earnings multiplied by years of benefit service
 (b) 0.65% of the excess of final average earnings over the Social Security Average Wage times years of benefit service, to a maximum of 35 years

Accrued benefit

- Final pay plan The monthly pension benefit the participant has accrued based on final average earnings, the Social Security Average Wage, and benefit service as of the date of determination.
- Cash balance plan The monthly benefit payable at age 65 is based upon the value of the cash balance account. The cash balance account is converted to an accrued benefit payable as an annuity as of the pension start date and in accordance with applicable IRS regulations using the IRS interest rate and IRS mortality table as defined by the Plan. For this purpose, the Plan defines the IRS interest rate using the same basis as the interest crediting rate.

Cash balance account

The sum of the initial account balance and all compensation credits and interest credits awarded throughout the period of plan participation. An initial account balance was established as of January 1, 2000 for each active plan participant equal to the actuarially equivalent lump sum value of the December 31, 1999 accrued benefit under the final pay plan determined using the IRS interest rate and IRS mortality table (as such terms are defined by the Plan) in effect for the 2000 plan year.

Compensation credit

As of 12/31 of each plan year (or as of a participant's date of termination, retirement, or death, if earlier), a participant's cash balance account is credited with an annual compensation credit equal to a percentage of the participant's compensation for that year (while a participant) based upon the sum the participant's age and vesting service (as an employee) as follows:

Age + Service	Percent of Compensation
Less than 30	2.0
30 – 39	2.5
40 – 49	3.0
50 – 59	3.5
60 or more	4.0

Effective December 31, 2016, additional Compensation Credits will not be added to participants' cash balance accounts

Benefits Paid Upon the Following Events

Normal retirement	The monthly pension benefit determined as of NRD.
Early retirement	The accrued benefit reduced 1/12 for each year of the first three years and 1/24 for each of the next seven years' payments commencing after age 55 and prior to age 65. Prior to age 55 for the cash balance plan, the plan's actuarial equivalence is used.
Postponed retirement	The monthly pension benefit determined as the greater of the accrued benefit at time of postponed retirement or the actuarial equivalent of the benefit accrued as of normal retirement.
Vested termination	The accrued benefit calculated at the date of termination and payable at age 65.
Disablement	
Final pay plan	Continued benefit service accruals from the date of disability until the earlier of the end of disability or the normal retirement date. For periods after the date of disability, annual compensation is assumed to be no greater than 120% of the salary rate in effect one year prior to disability.
Cash balance plan	Continued compensation credit and interest credit accruals from the date of disability until the end of disability or normal retirement. For periods after the date of disability, annual compensation is assumed to be no greater than 120% of the salary rate in effect one year prior to disability.
Preretirement death	
Final pay plan	For married participants and those with children under the age of 18, the spouse's benefit is calculated as though the participant had retired on the date of death and had elected to receive an early retirement pension on the first day of the next calendar month in a reduced amount payable for life with a provision that 66-2/3% of such reduced amount would be continued after death to the spouse as the duly designated beneficiary.
Cash balance plan	The cash balance account as of the last day of the month in which the death of the participant occurs is paid to the beneficiary.

Other Plan Provisions

Forms of payment	If the participant has no spouse as of the date payments begin, then the monthly pension benefit as described above is paid as a life annuity with the option of a 10 year certain annuity, 15 year certain annuity, or cash refund. Otherwise, benefits are paid in the form of a 66 2/3% joint and survivor annuity with 10 years certain or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the Plan. Actuarial equivalence is based on the 1983 GAM Mortality Table for Males set back 4 years, projected to 1988 with Scale H and a 9.5% interest rate. Optional forms are a single life annuity, a 66 2/3% joint and survivor annuity with 10 years certain, a 10-year or 15-year certain and life annuity, or a cash refund annuity and 75% Joint and Survivor annuity options. A single lump sum payment is also available for participants in the Cash Balance plan.
Pension Increases	None.
Plan participants' contributions	None.
Maximum limits on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

The Visiting Nurse Association of Greater Lowell, Inc. Pension Plan

Plan Provisions

The most recent amendment reflected in the following plan provisions was to enact the group annuity purchase during 2021

The Visiting Nurse Association of Greater Lowell, Inc. Pension Plan merged with the Pension Plan of Circle Health effective December 31, 2017.

The 2021 group annuity purchase transitioned plan obligations to an insurance company for most retirees who were receiving monthly benefits of \$1,000 or less from the plan.

Covered employees All employees who are not per diem, hired on or before December 31, 2005, employees of the Affiliated Employer.

Participation date An eligible employee shall become a participant upon becoming age 21 and attaining one year of eligibility service effective as of the first day of the month coinciding with or next following the date on which such employee met the eligibility requirements, provided the employee was still employed as of such date.

If an employee, who has satisfied the plan's eligibility requirements and would otherwise have become a participant, shall go from a classification of a noneligible employee to an eligible employee, such employee shall become a participant on the date such employee becomes an eligible employee or, if later, the date that the employee would have otherwise entered the plan had the employee always been an eligible employee.

If an employee, who has satisfied the Plan's eligibility requirements and would otherwise become a participant, shall go from a classification of an eligible employee to a noneligible class of employees, such employee shall become a participant in the plan on the date such employee again becomes an eligible employee, or, if later, the date that the employee would have otherwise entered the plan had the employee always been an eligible employee.

In no event shall an employee begin or resume active participation in the plan after December 31, 2017.

The participant may elect the benefit to be paid in the form of a reduced monthly pension payable over the life of the beneficiary, with the provision that, if the participant's designated beneficiary dies prior to completion of 120 monthly payments, such months payments shall be continued to the participant's beneficiary until the monthly payments made to the participant's designated beneficiary and the participant's beneficiary shall total 120.

Other Plan Provisions

Forms of payment A participant who is married shall receive the value of all of such participant's benefits in the form of a joint and survivor annuity. Following the participant's death, the spouse shall receive 66 2/3% of the rate at which such benefits were payable to the participant. The benefit is guaranteed for 120 payments.

The participant may elect to receive a smaller annuity benefit with continuation of payments to the spouse at a rate of 75% of the rate payable to the participant.

An unmarried participant shall receive the value of such participant's benefit in the form of a life annuity.

Pension Increases None.

Plan participants' contributions None.

Maximum limits on benefits and pay All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Tufts Part A

Plan Provisions

Originally adopted January 1, 1984. The plan was restated January 1, 2013 and most recently amended to merge this plan into the Pension Plan of Circle Health and rename the merged plan the Consolidated Pension Plan of Tufts Medicine, Inc.

The plan sponsor froze future accruals and provided a service enhancement for active participants effective February 28, 2018.

The 2021 group annuity purchase transitioned plan obligations to an insurance company for most retirees who were receiving monthly benefits of \$1,000 or less from the plan.

Covered employees Employees who:

- (a) As of December 31, 1994, were either 65 or older, or age 55 or older with 5 or more years of benefit service, and elected to maintain the prior benefit structure, or
- (b) Is a member of a collective bargaining unit.

Part A eligible employees will become Part A participants as of the next January 1 coinciding with or following the date on which he or she commences making participant contributions under the Participant Contribution Plan.

Effective February 28, 2018, all benefit accruals are frozen.

Definitions

Annual compensation W-2 compensation plus employer contributions, to a tax-sheltered annuity, and to a Section 125 plan. If the participant worked less than 2,000 hours in a year after 1983, the amount above is multiplied by the ratio of 2,000 to the hours of service worked for that year.

Compensation earned after February 28, 2018 will not be used in the determination of benefits.

Average annual compensation Average of the highest five consecutive years' Annual Compensation

Covered compensation Social Security covered compensation rounded to the nearest \$600, calculated for an individual who reached age 65 in the year of termination.

Covered compensation amounts are frozen effective February 28, 2018.

SCHEDULE SB ATTACHMENTS

Benefit service

Benefit service from the prior plan, plus one year for each year after 1983 in which a participant completes 2,000 hours of service and a fraction of a year for a year after 1983 in which a participant completes less than 2,000 hours of service. If a participant completes less than 2,000 hours of service in a calendar year after 1983:

- (i) If an employee becomes a participant or if benefits commence during that year, the participant will be credited with 1/12 of a year of benefit service for each month or partial month of service during that year;
- (ii) Otherwise, the participant will be credited with (1) 1/12 of a year of benefit service multiplied by (2) the number of hours of service earned as a participant divided by 167 and rounded to the nearest integer.

Participants who were active and accruing on February 28, 2018 will be credited with a benefit service enhancement equivalent to three times the number of hours worked in 2016.

Effective February 28, 2018, benefit service accruals are eliminated for all participants.

Schedule A benefit

Amount set opposite individual participants names in the Schedule A attached to the plan document which is the annuity equivalent determined as of December 31, 1983, of the individual's contributions and earnings under a prior tax-qualified defined benefit plan which was distributed to the individual.

Participant Contribution Plan

The Participant Contribution Plan is a 401(a) money purchase type plan to which employees must contribute on a post-tax basis in order to be eligible for Part A benefits under the defined benefit plan. Annual contributions required to the plan are 1% of compensation up to \$6,600 and 2% of compensation over \$6,600. Contributions can be made on a payroll deduction basis.

Effective February 28, 2018, contributions to the Participant Contribution Plan are no longer required as future benefit accruals were eliminated.

Participant Contribution Plan benefit

The Participant Contribution Plan account balance converted to an actuarially equivalent annuity at retirement based on the mortality table and interest rates with a two-month (November) lookback, as prescribed under IRC §417(e)(3).

Tufts Part B

Plan Provisions

Originally adopted January 1, 1995. The most recent amendment reflected in the following plan provisions was to merge this plan into the Pension Plan of Circle Health and rename the merged plan the Consolidated Pension Plan of Tufts Medicine, Inc.

The 2021 group annuity purchase transitioned plan obligations to an insurance company for most retirees who were receiving monthly benefits of \$1,000 or less from the plan.

Covered employees Part B of the plan has no ongoing benefit accruals. No new employees are eligible to participate in the plan.

Eligibility for participation Employees not eligible for continuing Part A benefits who have completed one year of service and are at least 21 years old may elect to earn a Cash Balance Benefit by making compensation reduction contributions under the Tax Sheltered Annuity Plan.

As of January 1, 2005, Part B is frozen.

Definitions

Normal retirement date (NRD) First of month coinciding with or next following the attainment of age 65 with five years of pension service.

Tax sheltered annuity plan Employees are required to make matchable compensation reduction contributions to the Tax Sheltered Annuity Plan in order to be eligible to receive matching compensation credits to the cash balance account (see Applicable Percentage for Matching Compensation Credits).

As of January 1, 2005, Part B is frozen.

Participant Contribution Plan The Participant Contribution Plan is a 401(a) money purchase type plan for which contributions for Part B participants were frozen as of December 31, 1994. The account balances are allowed to grow with earnings distributed to individual accounts through retirement or termination.

Participant Contribution Plan Benefit The Participant Contribution Plan account balance converted to an actuarially equivalent annuity at retirement based on the mortality table and interest rates with a two-month (November) lookback, as prescribed under IRC §417(e)(3).

Matching compensation credits

Matching Compensation Credits:

- (a) For a participant on December 31, 1994 who is age 50 or older on January 1, 1995, 200% of the participant's Matchable Compensation Reduction Contributions up to 2.0% of the participant's compensation, and 100% of the participant's Matchable Compensation Reduction Contributions in excess of 2.0% of the participant's compensation;
- (b) For a participant on December 31, 1994 who is age 40 or older but not age 50 or older on January 1, 1995, 150% of the participant's Matchable Compensation Reduction Contributions up to 2.0% of the participant's compensation, and 100% of the participant's Matchable Compensation Reduction Contributions in excess of 2.0% of the participant's compensation;
- (c) For each other participant not described in (a) or (b) above, 100% of the participant's Matchable Compensation Reduction Contributions.

Matching Compensation Credits were eliminated effective December 31, 2004.

Matchable compensation reduction contributions

Pre-tax compensation reduction contributions made by the participant each plan year under the Tax Sheltered Annuity Plan up to 3.0% of the participant's compensation.

Cash balance benefit

Cash balance account expressed as an actuarially equivalent single life annuity commencing on the first day of the month coinciding with or next following his or her NRD.

Cash balance account

The purpose of the Cash Balance Account is to determine the Cash Balance Benefit. Each Cash Balance Account will consist of Matching Compensation Credits prior to December 31, 2004 and Interest Credits.

Interest credits

The sum of (1) 3.0%, and (2) two-thirds (2/3) of the excess, if any, of the net percentage increase in the value of the assets of the trust fund over 3.0%. Effective December 31, 2004, for plan years beginning after December 31, 2004, the interest credits will be equal to the yield on 10-year Treasury Notes effective on the close of business on the last business day in the month of October preceding such plan year. The interest credit is made at the end of the plan year and applied to the Cash Balance Account at the beginning of the plan year.

Schedule SB, Part V Summary of Plan Provisions

Pension Plan of Circle Health

Plan Provisions

Effective date and most recent amendment

The plan was restated January 1, 2020 and most recently amended merge the Tufts Medical Center Retirement Program – Defined Benefit Plan into this plan and update the name to the Consolidated Pension Plan of Tufts Medicine, Inc.

Circle Health resolved as of September 27, 2016 to freeze the accruals of future benefits under the Plan effective December 31, 2016.

The plan was merged with the Visiting Nurse Association of Greater Lowell, Inc. Pension Plan effective December 31, 2017.

The 2021 group annuity purchase transitioned plan obligations to an insurance company for most retirees who were receiving monthly benefits of \$1,000 or less from the plan.

Effective December 31, 2023, the Plan was amended to reflect the Tufts Medical Center, Inc. Retirement Program – Defined Benefit Plan merging into the Pension Plan of Circle Health. No benefits or provisions changed in light of this amendment.

Covered employees

All employees.

Participation date

Every eligible employee who was a participant in the Plan on December 31, 1999 and who did not elect to be covered under the terms of the cash balance plan continues to be covered under the terms of the final pay plan. No employee who becomes a participant in the Pension Plan of Circle Health, Inc. on or after January 1, 2000 will earn a pension benefit under the terms of the final pay plan.

Employees hired between January 1, 2000 and October 15, 2003 are eligible to participate in the cash balance plan.

Effective October 15, 2003, the plan was closed to new participants and any employee hired on or after October 15, 2003 is not eligible to earn benefits under this plan. No new participants shall be granted entry to the Plan after December 31, 2016 regardless of date of hire.

Definitions

Vesting service One year of vesting service is credited for each 12 months of employment (i.e., vesting service is said to be determined on an “elapsed time” basis).

Benefit service One year of benefit service is credited for each plan year in which the participant completes at least 1,994 hours of service. A participant who completes fewer than 1,994 hours of service during the plan year is credited with a partial year of service based on the number of hours in the table below:

Hours of Service	Years of Benefit Accrual Service
1,994 or more	1
1,821 – 1,993	11/12
1,648 – 1,820	10/12
1,474 – 1,647	9/12
1,301 – 1,473	8/12
1,128 – 1,300	7/12
954 – 1,127	6/12
781 – 953	5/12
608 – 780	4/12
434 – 607	3/12
261 – 433	2/12
173 – 260	1/12
172 or fewer	0

No participant shall earn additional Years of Benefit Accrual Service after December 31, 2016.

Pensionable pay Total compensation includes any employee pre-tax contributions under IRC §125, §402(a)(8), §402(h), and §403(b). Compensation is limited to \$200,000 as indexed per IRC §401(a)(17).

Pensionable pay for the final pay plan is annualized based on the benefit service accrual for the year, provided hours worked in the year were at least 954.

Pensionable pay after December 31, 2016 is not considered in the determination of plan benefits.

Average earnings For the final pay plan, the average compensation paid to a participant during the five consecutive plan years out of the last ten years of participation which provides the highest such average.

Average earnings are frozen effective December 31, 2016.

Normal retirement date (NRD) Age 65.

Monthly pension benefit

- Final pay plan One-twelfth of the sum of (a) and (b) below:
 - (a) 1% of final average earnings multiplied by years of benefit service
 - (b) 0.65% of the excess of final average earnings over the Social Security Average Wage times years of benefit service, to a maximum of 35 years

Accrued benefit

- Final pay plan The monthly pension benefit the participant has accrued based on final average earnings, the Social Security Average Wage, and benefit service as of the date of determination.
- Cash balance plan The monthly benefit payable at age 65 is based upon the value of the cash balance account. The cash balance account is converted to an accrued benefit payable as an annuity as of the pension start date and in accordance with applicable IRS regulations using the IRS interest rate and IRS mortality table as defined by the Plan. For this purpose, the Plan defines the IRS interest rate using the same basis as the interest crediting rate.

Cash balance account

The sum of the initial account balance and all compensation credits and interest credits awarded throughout the period of plan participation. An initial account balance was established as of January 1, 2000 for each active plan participant equal to the actuarially equivalent lump sum value of the December 31, 1999 accrued benefit under the final pay plan determined using the IRS interest rate and IRS mortality table (as such terms are defined by the Plan) in effect for the 2000 plan year.

Compensation credit

As of 12/31 of each plan year (or as of a participant's date of termination, retirement, or death, if earlier), a participant's cash balance account is credited with an annual compensation credit equal to a percentage of the participant's compensation for that year (while a participant) based upon the sum the participant's age and vesting service (as an employee) as follows:

Age + Service	Percent of Compensation
Less than 30	2.0
30 – 39	2.5
40 – 49	3.0
50 – 59	3.5
60 or more	4.0

Effective December 31, 2016, additional Compensation Credits will not be added to participants' cash balance accounts

Benefits Paid Upon the Following Events

Normal retirement	The monthly pension benefit determined as of NRD.
Early retirement	The accrued benefit reduced 1/12 for each year of the first three years and 1/24 for each of the next seven years' payments commencing after age 55 and prior to age 65. Prior to age 55 for the cash balance plan, the plan's actuarial equivalence is used.
Postponed retirement	The monthly pension benefit determined as the greater of the accrued benefit at time of postponed retirement or the actuarial equivalent of the benefit accrued as of normal retirement.
Vested termination	The accrued benefit calculated at the date of termination and payable at age 65.
Disablement	
Final pay plan	Continued benefit service accruals from the date of disability until the earlier of the end of disability or the normal retirement date. For periods after the date of disability, annual compensation is assumed to be no greater than 120% of the salary rate in effect one year prior to disability.
Cash balance plan	Continued compensation credit and interest credit accruals from the date of disability until the end of disability or normal retirement. For periods after the date of disability, annual compensation is assumed to be no greater than 120% of the salary rate in effect one year prior to disability.
Preretirement death	
Final pay plan	For married participants and those with children under the age of 18, the spouse's benefit is calculated as though the participant had retired on the date of death and had elected to receive an early retirement pension on the first day of the next calendar month in a reduced amount payable for life with a provision that 66-2/3% of such reduced amount would be continued after death to the spouse as the duly designated beneficiary.
Cash balance plan	The cash balance account as of the last day of the month in which the death of the participant occurs is paid to the beneficiary.

Other Plan Provisions

Forms of payment	If the participant has no spouse as of the date payments begin, then the monthly pension benefit as described above is paid as a life annuity with the option of a 10 year certain annuity, 15 year certain annuity, or cash refund. Otherwise, benefits are paid in the form of a 66 2/3% joint and survivor annuity with 10 years certain or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the Plan. Actuarial equivalence is based on the 1983 GAM Mortality Table for Males set back 4 years, projected to 1988 with Scale H and a 9.5% interest rate. Optional forms are a single life annuity, a 66 2/3% joint and survivor annuity with 10 years certain, a 10-year or 15-year certain and life annuity, or a cash refund annuity and 75% Joint and Survivor annuity options. A single lump sum payment is also available for participants in the Cash Balance plan.
Pension Increases	None.
Plan participants' contributions	None.
Maximum limits on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

The Visiting Nurse Association of Greater Lowell, Inc. Pension Plan

Plan Provisions

The most recent amendment reflected in the following plan provisions was to enact the group annuity purchase during 2021

The Visiting Nurse Association of Greater Lowell, Inc. Pension Plan merged with the Pension Plan of Circle Health effective December 31, 2017.

The 2021 group annuity purchase transitioned plan obligations to an insurance company for most retirees who were receiving monthly benefits of \$1,000 or less from the plan.

Covered employees All employees who are not per diem, hired on or before December 31, 2005, employees of the Affiliated Employer.

Participation date An eligible employee shall become a participant upon becoming age 21 and attaining one year of eligibility service effective as of the first day of the month coinciding with or next following the date on which such employee met the eligibility requirements, provided the employee was still employed as of such date.

If an employee, who has satisfied the plan's eligibility requirements and would otherwise have become a participant, shall go from a classification of a noneligible employee to an eligible employee, such employee shall become a participant on the date such employee becomes an eligible employee or, if later, the date that the employee would have otherwise entered the plan had the employee always been an eligible employee.

If an employee, who has satisfied the Plan's eligibility requirements and would otherwise become a participant, shall go from a classification of an eligible employee to a noneligible class of employees, such employee shall become a participant in the plan on the date such employee again becomes an eligible employee, or, if later, the date that the employee would have otherwise entered the plan had the employee always been an eligible employee.

In no event shall an employee begin or resume active participation in the plan after December 31, 2017.

Definitions

Vesting service A participant becomes vested after five years of service.

Tufts Part A

Plan Provisions

Originally adopted January 1, 1984. The plan was restated January 1, 2013 and most recently amended to merge this plan into the Pension Plan of Circle Health and rename the merged plan the Consolidated Pension Plan of Tufts Medicine, Inc.

The plan sponsor froze future accruals and provided a service enhancement for active participants effective February 28, 2018.

The 2021 group annuity purchase transitioned plan obligations to an insurance company for most retirees who were receiving monthly benefits of \$1,000 or less from the plan.

Covered employees Employees who:

- (a) As of December 31, 1994, were either 65 or older, or age 55 or older with 5 or more years of benefit service, and elected to maintain the prior benefit structure, or
- (b) Is a member of a collective bargaining unit.

Part A eligible employees will become Part A participants as of the next January 1 coinciding with or following the date on which he or she commences making participant contributions under the Participant Contribution Plan.

Effective February 28, 2018, all benefit accruals are frozen.

Definitions

Annual compensation W-2 compensation plus employer contributions, to a tax-sheltered annuity, and to a Section 125 plan. If the participant worked less than 2,000 hours in a year after 1983, the amount above is multiplied by the ratio of 2,000 to the hours of service worked for that year.

Compensation earned after February 28, 2018 will not be used in the determination of benefits.

Average annual compensation Average of the highest five consecutive years' Annual Compensation

Covered compensation Social Security covered compensation rounded to the nearest \$600, calculated for an individual who reached age 65 in the year of termination.

Covered compensation amounts are frozen effective February 28, 2018.

Benefit service	Benefit service from the prior plan, plus one year for each year after 1983 in which a participant completes 2,000 hours of service and a fraction of a year for a year after 1983 in which a participant completes less than 2,000 hours of service. If a participant completes less than 2,000 hours of service in a calendar year after 1983: (i) If an employee becomes a participant or if benefits commence during that year, the participant will be credited with 1/12 of a year of benefit service for each month or partial month of service during that year; (ii) Otherwise, the participant will be credited with (1) 1/12 of a year of benefit service multiplied by (2) the number of hours of service earned as a participant divided by 167 and rounded to the nearest integer. Participants who were active and accruing on February 28, 2018 will be credited with a benefit service enhancement equivalent to three times the number of hours worked in 2016. Effective February 28, 2018, benefit service accruals are eliminated for all participants.
Schedule A benefit	Amount set opposite individual participants names in the Schedule A attached to the plan document which is the annuity equivalent determined as of December 31, 1983, of the individual's contributions and earnings under a prior tax-qualified defined benefit plan which was distributed to the individual.
Participant Contribution Plan	The Participant Contribution Plan is a 401(a) money purchase type plan to which employees must contribute on a post-tax basis in order to be eligible for Part A benefits under the defined benefit plan. Annual contributions required to the plan are 1% of compensation up to \$6,600 and 2% of compensation over \$6,600. Contributions can be made on a payroll deduction basis. Effective February 28, 2018, contributions to the Participant Contribution Plan are no longer required as future benefit accruals were eliminated.
Participant Contribution Plan benefit	The Participant Contribution Plan account balance converted to an actuarially equivalent annuity at retirement based on the mortality table and interest rates with a two-month (November) lookback, as prescribed under IRC §417(e)(3).

Matching Compensation Credits:

- (a) For a participant on December 31, 1994 who is age 50 or older on January 1, 1995, 200% of the participant's Matchable Compensation Reduction Contributions up to 2.0% of the participant's compensation, and 100% of the participant's Matchable Compensation Reduction Contributions in excess of 2.0% of the participant's compensation;
- (b) For a participant on December 31, 1994 who is age 40 or older but not age 50 or older on January 1, 1995, 150% of the participant's Matchable Compensation Reduction Contributions up to 2.0% of the participant's compensation, and 100% of the participant's Matchable Compensation Reduction Contributions in excess of 2.0% of the participant's compensation;
- (c) For each other participant not described in (a) or (b) above, 100% of the participant's Matchable Compensation Reduction Contributions.

Matching Compensation Credits were eliminated effective December 31, 2004.

Matchable compensation reduction contributions

Pre-tax compensation reduction contributions made by the participant each plan year under the Tax Sheltered Annuity Plan up to 3.0% of the participant's compensation.

Cash balance benefit

Cash balance account expressed as an actuarially equivalent single life annuity commencing on the first day of the month coinciding with or next following his or her NRD.

Cash balance account

The purpose of the Cash Balance Account is to determine the Cash Balance Benefit. Each Cash Balance Account will consist of Matching Compensation Credits prior to December 31, 2004 and Interest Credits.

Interest credits

The sum of (1) 3.0%, and (2) two-thirds (2/3) of the excess, if any, of the net percentage increase in the value of the assets of the trust fund over 3.0%. Effective December 31, 2004, for plan years beginning after December 31, 2004, the interest credits will be equal to the yield on 10-year Treasury Notes effective on the close of business on the last business day in the month of October preceding such plan year. The interest credit is made at the end of the plan year and applied to the Cash Balance Account at the beginning of the plan year.
