Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

To the Plan Administrator
The Bureau of National Affairs, Inc. Employees' Retirement Plan
Arlington, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Bureau of National Affairs, Inc. Employees' Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of The Bureau of National Affairs, Inc. Employees' Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Independent Auditors' Report (continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Bureau of National Affairs, Inc. Employees' Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Bureau of National Affairs, Inc. Employees' Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

Independent Auditors' Report (continued)

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Bureau of National Affairs, Inc. Employees' Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Bureau of National Affairs, Inc. Employees' Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedules of Assets (Held at End of Year) as of December 31, 2024 and Reportable Transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

Independent Auditors' Report (continued)

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Form of payment	<p>It is assumed that 25% of employees will elect to receive a lump sum at retirement, 50% of the remaining employees who are married will elect to receive their pension on the 50% Joint and Survivor basis, and that the remaining employees will elect to receive their pension for life only. All employees who terminate employment entitled to a Deferred Vested Pension are assumed to receive an annuity at age 65.</p> <p>The valuation of lump sum distributions is based on the PPA segment interest rates with ARPA corridors, if applicable, mandated by the Pension Protection Act of 2006 for the September preceding the valuation date and the PPA 2024 Optional Combined Mortality Table (unisex).</p>
Percent married	<p>For purposes of valuing the pre-retirement surviving spouse's benefit, it is assumed that 55% of employees are married</p>
Spouse age	<p>The male spouse is 3 years older than the female spouse.</p>
Timing of benefit payments	<p>Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.</p>
Unused sick leave	<p>It is assumed that each employee accrues unused sick leave during his period of service after the valuation date at the same rate that the accrued unused sick leave in the period before the valuation date. Unused sick leave is frozen as of December 31, 2019.</p>
Plan compensation/salary	<p>Compensation is the gross amount paid including cast profit sharing (but excluding severance payments) prior to any pre-tax contribution under the Stock Purchase Plan or any Section 125 plan. Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	Middle of year decrement timing.

Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Bloomberg Industry Group regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Bloomberg Industry Group and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Mercer, the plan sponsor's third party administrator, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

In consultation with the plan sponsor, the following assumptions were made for missing or apparently inconsistent data elements:

- Beneficiary gender and date of birth were assumed for retirees with contingent benefits whose beneficiary information was not provided. Beneficiary gender is assumed to be the opposite of the participant's, and males are assumed to be 3 years older than females.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Administrative expenses

Administrative expenses are set equal to the actual expenses paid from the trust the preceding year and represent the plan sponsor's best estimate of future experience.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Disabled Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination Termination rates were based on an experience study conducted in 2012 based on experience from 2007 through 2011, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Disability Disability rates were based on an experience study conducted in 2012 based on experience from 2007 through 2011, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement Retirement rates were based on an experience study conducted in 2012 based on experience from 2007 through 2011, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Pre-retirement death benefit Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because the plan allows benefits to start then unless the spouse elects otherwise. Because the benefits include a subsidy for early commencement it is assumed that spouses will not elect to defer which is the plan sponsor's best estimate of future experience.

Deferred vested benefit Deferred vested participants' assumed commencement age is a single age based on the plan sponsor's best estimate of future experience.

Form of payment The percentage of retiring participants assumed to elect single life annuities, joint and survivor annuities, and lump sums are based on observed experience over the period 2007 through 2011.

Marital assumptions

- **Percent married** The assumed percentage married is based on the percentage married observed among retired participants in 2012 and is the plan sponsor's best estimate of future experience.
- **Spouse age** The assumed spouse age is based on the percentage married observed among retired participants in 2012 and is the plan sponsor's best estimate of future experience.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2022 to September 2023, and subsequently revised by applying the corridors of ARPA to determine minimum funding requirements and benefit restrictions.
- The base mortality table and mortality scale used to calculate the funding target and target normal cost were updated as required by guidance issued by IRS under IRC §430.
- The assumed plan-related expenses added to the target normal cost were changed from \$1,335,000 for 2023 to \$1,383,000 for 2024. The method to determine the assumed plan-related expenses is unchanged.
- The lump sum interest rate assumption was updated to match the segment rates used to calculate the funding target and target normal cost. The lump sum mortality assumption was updated to reflect the PPA 2024 optional combined mortality table (unisex).

Change in methods since prior valuation

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective December 31, 2019.

Coverage and Participation

Each employee will become a participant upon completion of one year of service, provided that if the employee is a Part-time employee he or she also is credited with at least 1,000 hours of service in the applicable year. Employees employed on or after September 1, 2010 are excluded from participating in the plan. The plan is frozen for all active employees effective December 31, 2019.

Definitions

Plan Year

The twelve-month period ending December 31.

Final Average Considered Compensation

Total compensation averaged over those five Plan Years of his or her last ten Plan Years which results in the highest average. Compensation beyond December 31, 2019 is not included in Final Average Considered Compensation.

Accrued Pension

Pension benefits under the Plan are based on the employee's Accrued Pension, which is equal to 1.22% of his or her final average considered compensation multiplied by his or her years of service. In determining an employee's years of service for purposes of calculating his Accrued Pension, he or she will be credited with an additional ½ year of service for each 500 hours of unused sick leave. Effective January 1, 2002, compensation after December 31, 1998 is limited to \$200,000 (as indexed in each calendar year).

Under the Plan, individual accounts are maintained for participants based on their participation in this Plan prior to 1976 and in certain other former plans of BNA. No contribution was made to these accounts after 1975. Minimum pension, termination and death benefits are also provided under this Plan based on the value of these individual accounts.

SCHEDULE SB ATTACHMENTS

Effective January 1, 2002, a minimum benefit is provided based upon the accrued benefit as of December 31, 2001 plus the accrued benefit determined under the benefit formula as of January 1, 2002 applied to year of service after January 1, 2002.

Effective December 31, 2019, accrued pension benefits under the plan are frozen. Unused sick leave as of December 31, 2019 was converted to ½ year of service for each block of 500 hours. No future service will be credited under the plan.

Normal retirement date (NRD) First of the month coincident with or following the day on which the participant attains age 65, or any first of the month thereafter.

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Special Early Pension	Age plus service totals 85 or more.
Early retirement	Age 55 and 15 years of service, or age 50 and 20 years of service, or effective January 1, 2003: age 50 and 15 years of service and age plus service totals 70 or more.
Postponed retirement	Retirement after NRD.
Vested termination	5 years of service, age 65 if earlier.
Disability	Age 55 or 20 years of service.
Death Benefits for Spouses of Participants in Active Service	Spouse of an employee who dies in service after becoming eligible for an immediate pension, provided that the spouse was married to the employee at least 1 year prior to date of death.
Death Benefits for Spouses of Participants Prior to Benefit Commencement	Spouse of an employee who dies in service after becoming eligible for a Vested Pension but prior to becoming eligible for an immediate pension, provided that the spouse was married to the employee at least 1 year prior to his or her death.

Benefits Paid Upon the Following Events

Normal retirement	Accrued Pension payable on the first day of the month following termination of employment.
Special Early Pension	Accrued Pension payable on the first day of the month following termination of employment.
Early retirement	Accrued Pension payable of the first day of the month following termination of employment, reduced by $\frac{1}{4}$ of 1% for each month between early retirement date and normal retirement date.
Vested termination	Accrued Pension. The value of the deferred monthly pension will be paid in a lump sum amount on the first day of the calendar quarter following the participant's termination of employment. If such lump sum amount is more than \$5,000 (\$3,500 for distributions before February 12, 1998), the participant has the option to receive the Vested pension commencing at his or her age 65, or if he or she has 15 or more years of service at date of termination the option of having his or her Vested Pension commence at age 55 in a reduced amount.
Disablement	Accrued Pension payable on the first day of the month following termination of employment. If the participant has less than 10 years of service at retirement, the benefit is reduced by $\frac{1}{4}$ of 1% for each month between actual retirement date and normal retirement date.
Death Benefits for Spouses of Participants in Active Service	50% of the pension that would have been payable to the employee if he or she had retired on the date of death, payable on the first day of the month following the death of the employee.

Death Benefits for Spouses of Participants Prior to Benefit Commencement

50% of the pension that would have been payable to the employee if he or she had terminated on the date of death, survived to his or her earliest benefit commencement date and then elected to have the pension commence in the normal form, payable on the first day of the month that the employee would have been eligible for an immediate pension.

The above summary is for the sole purpose of stating the principal Plan provisions on which the valuation is based. Entitlement to benefits under the Plan is determined under the terms and provisions of the Pension Plan document.

Other Plan Provisions

Forms of Benefit

The pension of an employee who has a spouse to whom he or she has been married for at least one year at his or her retirement is payable in the form of a reduced benefit to the pensioner with provision for a continuation of 50% of this reduced pension to his or her surviving spouse, unless the employee elects not to receive his or her pension in this form. The pension to each other employee is payable in the form of a Life Annuity. Plan option factors are based on 7% interest and the Basic Group Annuity Table for 1951 projected to 1965 by Projections Scale C set back 5 years in the case of the Participant and without set back in the case of a Beneficiary.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	Middle of year decrement timing.

Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Bloomberg Industry Group regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Bloomberg Industry Group and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Mercer, the plan sponsor's third party administrator, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

In consultation with the plan sponsor, the following assumptions were made for missing or apparently inconsistent data elements:

- Beneficiary gender and date of birth were assumed for retirees with contingent benefits whose beneficiary information was not provided. Beneficiary gender is assumed to be the opposite of the participant's, and males are assumed to be 3 years older than females.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Administrative expenses

Administrative expenses are set equal to the actual expenses paid from the trust the preceding year and represent the plan sponsor's best estimate of future experience.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Disabled Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination Termination rates were based on an experience study conducted in 2012 based on experience from 2007 through 2011, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Disability Disability rates were based on an experience study conducted in 2012 based on experience from 2007 through 2011, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement Retirement rates were based on an experience study conducted in 2012 based on experience from 2007 through 2011, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Pre-retirement death benefit Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because the plan allows benefits to start then unless the spouse elects otherwise. Because the benefits include a subsidy for early commencement it is assumed that spouses will not elect to defer which is the plan sponsor's best estimate of future experience.

Deferred vested benefit Deferred vested participants' assumed commencement age is a single age based on the plan sponsor's best estimate of future experience.

Form of payment The percentage of retiring participants assumed to elect single life annuities, joint and survivor annuities, and lump sums are based on observed experience over the period 2007 through 2011.

Marital assumptions

- **Percent married** The assumed percentage married is based on the percentage married observed among retired participants in 2012 and is the plan sponsor's best estimate of future experience.
- **Spouse age** The assumed spouse age is based on the percentage married observed among retired participants in 2012 and is the plan sponsor's best estimate of future experience.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2022 to September 2023, and subsequently revised by applying the corridors of ARPA to determine minimum funding requirements and benefit restrictions.
- The base mortality table and mortality scale used to calculate the funding target and target normal cost were updated as required by guidance issued by IRS under IRC §430.
- The assumed plan-related expenses added to the target normal cost were changed from \$1,335,000 for 2023 to \$1,383,000 for 2024. The method to determine the assumed plan-related expenses is unchanged.
- The lump sum interest rate assumption was updated to match the segment rates used to calculate the funding target and target normal cost. The lump sum mortality assumption was updated to reflect the PPA 2024 optional combined mortality table (unisex).

Change in methods since prior valuation

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective December 31, 2019.

Coverage and Participation

Each employee will become a participant upon completion of one year of service, provided that if the employee is a Part-time employee he or she also is credited with at least 1,000 hours of service in the applicable year. Employees employed on or after September 1, 2010 are excluded from participating in the plan. The plan is frozen for all active employees effective December 31, 2019.

Definitions

Plan Year

The twelve-month period ending December 31.

Final Average Considered Compensation

Total compensation averaged over those five Plan Years of his or her last ten Plan Years which results in the highest average. Compensation beyond December 31, 2019 is not included in Final Average Considered Compensation.

Accrued Pension

Pension benefits under the Plan are based on the employee's Accrued Pension, which is equal to 1.22% of his or her final average considered compensation multiplied by his or her years of service. In determining an employee's years of service for purposes of calculating his Accrued Pension, he or she will be credited with an additional $\frac{1}{2}$ year of service for each 500 hours of unused sick leave. Effective January 1, 2002, compensation after December 31, 1998 is limited to \$200,000 (as indexed in each calendar year).

Under the Plan, individual accounts are maintained for participants based on their participation in this Plan prior to 1976 and in certain other former plans of BNA. No contribution was made to these accounts after 1975. Minimum pension, termination and death benefits are also provided under this Plan based on the value of these individual accounts.

SCHEDULE SB ATTACHMENTS

Effective January 1, 2002, a minimum benefit is provided based upon the accrued benefit as of December 31, 2001 plus the accrued benefit determined under the benefit formula as of January 1, 2002 applied to year of service after January 1, 2002.

Effective December 31, 2019, accrued pension benefits under the plan are frozen. Unused sick leave as of December 31, 2019 was converted to ½ year of service for each block of 500 hours. No future service will be credited under the plan.

Normal retirement date (NRD) First of the month coincident with or following the day on which the participant attains age 65, or any first of the month thereafter.

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Special Early Pension	Age plus service totals 85 or more.
Early retirement	Age 55 and 15 years of service, or age 50 and 20 years of service, or effective January 1, 2003: age 50 and 15 years of service and age plus service totals 70 or more.
Postponed retirement	Retirement after NRD.
Vested termination	5 years of service, age 65 if earlier.
Disability	Age 55 or 20 years of service.
Death Benefits for Spouses of Participants in Active Service	Spouse of an employee who dies in service after becoming eligible for an immediate pension, provided that the spouse was married to the employee at least 1 year prior to date of death.
Death Benefits for Spouses of Participants Prior to Benefit Commencement	Spouse of an employee who dies in service after becoming eligible for a Vested Pension but prior to becoming eligible for an immediate pension, provided that the spouse was married to the employee at least 1 year prior to his or her death.

Benefits Paid Upon the Following Events

Normal retirement	Accrued Pension payable on the first day of the month following termination of employment.
Special Early Pension	Accrued Pension payable on the first day of the month following termination of employment.
Early retirement	Accrued Pension payable of the first day of the month following termination of employment, reduced by $\frac{1}{4}$ of 1% for each month between early retirement date and normal retirement date.
Vested termination	Accrued Pension. The value of the deferred monthly pension will be paid in a lump sum amount on the first day of the calendar quarter following the participant's termination of employment. If such lump sum amount is more than \$5,000 (\$3,500 for distributions before February 12, 1998), the participant has the option to receive the Vested pension commencing at his or her age 65, or if he or she has 15 or more years of service at date of termination the option of having his or her Vested Pension commence at age 55 in a reduced amount.
Disablement	Accrued Pension payable on the first day of the month following termination of employment. If the participant has less than 10 years of service at retirement, the benefit is reduced by $\frac{1}{4}$ of 1% for each month between actual retirement date and normal retirement date.
Death Benefits for Spouses of Participants in Active Service	50% of the pension that would have been payable to the employee if he or she had retired on the date of death, payable on the first day of the month following the death of the employee.

Death Benefits for Spouses of Participants Prior to Benefit Commencement

50% of the pension that would have been payable to the employee if he or she had terminated on the date of death, survived to his or her earliest benefit commencement date and then elected to have the pension commence in the normal form, payable on the first day of the month that the employee would have been eligible for an immediate pension.

The above summary is for the sole purpose of stating the principal Plan provisions on which the valuation is based. Entitlement to benefits under the Plan is determined under the terms and provisions of the Pension Plan document.

Other Plan Provisions

Forms of Benefit

The pension of an employee who has a spouse to whom he or she has been married for at least one year at his or her retirement is payable in the form of a reduced benefit to the pensioner with provision for a continuation of 50% of this reduced pension to his or her surviving spouse, unless the employee elects not to receive his or her pension in this form. The pension to each other employee is payable in the form of a Life Annuity. Plan option factors are based on 7% interest and the Basic Group Annuity Table for 1951 projected to 1965 by Projections Scale C set back 5 years in the case of the Participant and without set back in the case of a Beneficiary.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

Independent Auditors' Report

To the Plan Administrator
The Bureau of National Affairs, Inc. Employees' Retirement Plan
Arlington, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Bureau of National Affairs, Inc. Employees' Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of The Bureau of National Affairs, Inc. Employees' Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Independent Auditors' Report (continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Bureau of National Affairs, Inc. Employees' Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Bureau of National Affairs, Inc. Employees' Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

Independent Auditors' Report (continued)

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Bureau of National Affairs, Inc. Employees' Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Bureau of National Affairs, Inc. Employees' Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedules of Assets (Held at End of Year) as of December 31, 2024 and Reportable Transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

Independent Auditors' Report (continued)

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

(1) DESCRIPTION OF PLAN

The following description of The Bureau of National Affairs, Inc. Employees' Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the text of the Plan for a more complete description of the Plan's provisions.

The Plan is a noncontributory, defined benefit pension plan covering substantially all employees of The Bureau of National Affairs, Inc. (the "Company"). Originally established in 1951, the Plan was amended in 1971 to consolidate and revise several predecessor plans. The Plan provides for pension, death, and disability benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). A nondiscretionary trust has been established with PNC Bank as trustee and custodian of the Plan's assets. SEI, as investment adviser, makes all decisions within the guidelines approved by the Plan's investment committee. Participation in the plan is limited to employees hired before September 1, 2010. The Plan was amended to reflect a delayed plan freeze with no additional accruals for all active employees (management and guild) effective December 31, 2019. For management employees, the delayed plan freeze was announced on November 27, 2018. For guild employees, the union ratified the delayed freeze plan amendment on January 18, 2019.

Employees were eligible to participate in the Plan upon completion of one year of service. The Plan provides for five-year cliff vesting (i.e., 100% vesting occurs after five years of service).

Normal retirement benefits commence on a participant's 65th birthday. A participant also has the option of choosing delayed retirement, regular early retirement or special early retirement ("Rule of 85"). The Plan also has provisions for disability retirement. Annual retirement benefits are equal to 1.22% for each year of service times the participant's average annual compensation for the five years of highest compensation in the last ten years of service. Accumulated unused sick leave is credited to service at the rate of one-half year for each 500 hours. Regular early retirement benefits are reduced by .25% for each month by which the early retirement date precedes the normal retirement date. Under delayed retirement, benefits are credited for service past age 65.

Retirement benefits are paid as an annuity or a lump sum. For married employees, annuity benefits are in the form of a 50% joint and survivor pension. For single employees, annuity benefits are in the form of a life annuity. All participants, however, may choose 50%, 75%, or 100% joint and contingent annuitant options, or life and 10-year certain, or life and 15-year certain options.

Participants who terminate their employment prior to retirement for reasons other than death or disability have a nonforfeitable interest in their vested retirement benefits, which is the actuarial present value of their vested pension. The value of these benefits is payable in one lump-sum payment. However, if the actuarial present value exceeds \$5,000, participants have the option of receiving benefits in the form of an annuity.

(2) SUMMARY OF SIGNIFICANT ACTUARIAL AND ACCOUNTING POLICIES

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to current and former (retired, disabled, terminated, or deceased) employees and/or their beneficiaries.

The most recent actuarial valuation of accumulated plan benefits for funding purposes in compliance with ERISA is as of December 31, 2024 and 2023.

Summary of Accumulated Plan Benefits as of December 31, 2024 and 2023

	2024	2023
Actuarial present value of accumulated plan benefits:

**THE BUREAU OF NATIONAL AFFAIRS, INC.
EMPLOYEES' RETIREMENT PLAN**

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. A summary of significant actuarial assumptions underlying the actuarial computations is as follows:

Expected Long-Term Rate of Return	6.5% in 2024; 7.5% in 2023.
Mortality	Based on the PRI-2012 Employee, Healthy Retiree, and Contingent Survivor Mortality Tables for males and females projected generationally using MP-2020 for males and females in 2024. Based on the PRI-2012 Employee, Healthy Retiree, and Contingent Survivor Mortality Tables for males and females projected generationally using MP-2020 for males and females in 2023.
Employee Turnover	A scale of rates based on age and years of service.
Retirement Age	40% of employees who qualify for unreduced retirement benefits before age 65 under the "Rule of 85" provision will retire when first eligible under that provision and the balance of employees will retire at various ages from 55 to 70.
Accrued Sick Leave	Employees accrue unused sick leave in the period after the valuation date at the same rate that they accrued unused sick leave in the period before the valuation date. Unused sick leave is frozen as of December 31, 2019.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. An experience study was performed in 2012 and the results were incorporated into the actuarial assumptions used to calculate the obligations of the Plan with annual consideration of whether conditions have changed that would be expected to produce different results in the future.

The Plan maintains its records and prepares its financial statements on the accrual basis of accounting. Accordingly, purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The fair value of the shares of mutual funds owned by the Plan is based on quoted net asset values on the last business day of the Plan year. Money market funds and cash are reported at cost, which approximates fair value. Certain U.S. government securities are valued using pricing models maximizing the use of observable inputs for similar securities. All other investments are reported by the trustee at fair value using quoted market values. Benefits paid to participants are recorded upon distribution.

**THE BUREAU OF NATIONAL AFFAIRS, INC.
EMPLOYEES' RETIREMENT PLAN**

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

It is the policy of the Company to fund the actuarially determined normal cost plus an amount for past service sufficient to fully fund past service cost over a period of 5 to 30 years, subject to funding limitations. The Company made a \$2,052,000 contribution for 2024 and a \$3,473,000 contribution for 2023. The Plan is in compliance with the minimum funding standards of ERISA for both 2024 and 2023.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

The Plan has evaluated subsequent events through October 15, 2025, the date the financial statements were available to be issued, and did not note any events that would require disclosure.

(3) **PRIORITIES UPON TERMINATION OF THE PLAN**

In the event of termination of the Plan, all accrued benefits of participants under the Plan shall be fully vested and nonforfeitable. The assets of the plan would be allocated to the participants and their beneficiaries in accordance with the requirements of ERISA and distributed at such time or times and in such manner as is determined by the trustee. The Company has not expressed any intent to terminate the Plan.

Generally, the Pension Benefit Guaranty Corporation ("PBGC") guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and there is a statutory ceiling on the benefit protection provided. The PBGC guarantees vested benefits at the level in effect on the date of Plan termination, which is up to a maximum of \$7,431.82 per month for 2025.

(4) **FINANCIAL INFORMATION CERTIFIED BY THE TRUSTEE**

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained a certification from the trustee of the Plan that all of the information provided by them is complete and accurate. PNC Bank is the trustee. Certain information related to investments included in the accompanying financial statements and ERISA-Required supplemental schedules, including investments held at December 31, 2024 and 2023, and net appreciation in fair value of investments and interest and dividend income for the years then ended is presented in reliance solely upon this certification.

(5) **PARTY-IN-INTEREST TRANSACTIONS**

Certain Plan investments are managed by affiliates of SEI. SEI is the investment advisor as defined by the Plan. Fees paid to SEI amounted to \$476,389 for 2024. During 2024, the Plan paid fees to other service providers, which amounted to \$330,957 for custodial services, \$50,000 for consulting services, \$38,325 for accounting services, and \$151,723 for actuarial services. Fees paid to SEI amounted to \$726,286 for 2023. During 2023, the Plan paid fees to other service providers, which amounted to \$351,858 for custodial services, \$37,500 for consulting services, \$34,000 for accounting services, and \$115,410 for actuarial services.

(6) FAIR VALUE MEASUREMENTS

The Plan values certain assets and liabilities using the methods of fair value as described in Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* ("ASC 820"). ASC 820 discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost) and utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

The asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair values of Plan assets as of December 31, 2024 and 2023 were as follows:

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
U.S. government securities	\$27,423,938	\$ ---	\$ ---	\$27,423,938

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

(7) ADMINISTRATIVE COSTS

Administrative costs paid by the Plan include trustee fees, actuary fees, accounting fees, and PBGC insurance premiums. The Company pays certain administrative costs, including legal fees that are not charged or allocated to the Plan.

(8) TAX STATUS

The Plan Sponsor received a favorable determination letter from the Internal Revenue Service ("IRS") on July 24, 2017 indicating that the Plan is qualified under the applicable requirements of the Internal Revenue Code and therefore the Plan's net investment income is exempt from income taxes. It is the belief of the Plan's management that the Plan, as amended and restated and as it is currently operated, remains qualified under the applicable provisions of the Internal Revenue Code as of December 31, 2024. Therefore, no provision for income taxes is included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
