Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: WIPFLI LLP

(2) EIN: 39-0758449

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Independent Auditor's Report

To the Plan Administrator
voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan
Elgin, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

"Wipfli" is the brand name under which Wipfli LLP and Wipfli Advisory LLC and its respective subsidiary entities provide professional services. Wipfli LLP and Wipfli Advisory LLC (and its respective subsidiary entities) practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations, and professional standards. Wipfli LLP is a licensed independent CPA firm that provides attest services to its clients, and Wipfli Advisory LLC provides tax and business consulting services to its clients. Wipfli Advisory LLC and its subsidiary entities are not licensed CPA firms.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan

Notes to Financial Statements

Note 1: Description of Plan

The following description of the voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan (the "Plan"), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit non-contributory plan covering substantially all non-union employees of voestalpine High Performance Metals Corporation and any of its affiliated companies whose Board of Directors have passed a resolution to adopt the Plan, collectively referred to as the Company. Employees hired prior to September 30, 2002, were eligible to participate on the January 1st after they complete six months of service and reach age 20-1/2. The Plan was amended effective September 30, 2002, to freeze the Plan with respect to new participants and accrual of benefits. As a result, no additional benefits have been accrued and no additional employees have become participants since September 30, 2002. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Funding

The Plan is entirely funded by the Company and employee contributions are not permitted. The Company's funding policy is to make contributions each year in an amount at least equal to the minimum contribution required, as determined by the Plan actuary, to meet the ERISA minimum funding requirements. The Company's contribution for the years ended December 31, 2024 and 2023 met the minimum funding requirements of ERISA.

The American Rescue Plan Act of 2021 (ARP) was passed on March 11, 2021. This legislation modifies rules regarding the calculation of required contributions for qualified benefit plans. The key provisions of the ARP included an increase to the prescribed interest rates used for determining the funding target liability and an extension of the amortization period for shortfall amortization bases to fifteen years. The Company is applying the higher prescribed interest rates beginning with the 2021 Plan year, which reduces the funding target liability and thus the minimum required contribution.

Pension Benefits

Participants with five or more years of service, as defined by the Plan, are entitled to annual pension benefits beginning at the normal retirement age of 65. The annual benefit payable is equal to 0.625% of final "average compensation," as defined by the Plan, plus 0.625% of final "average compensation" in excess of "covered compensation," as defined by the Plan, multiplied by the participant's years of credited service, as defined by the Plan, not to exceed 35 such years. The Plan permits early retirement beginning at age of 55 if the participant has completed at least 15 years of service or if the participant's combined age and years of service equals 80. However, benefits under this option will be less than those if retirement had occurred at the normal age of 65.

voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan

Notes to Financial Statements

Note 1: Description of Plan (Continued)

Pension Benefits (Continued)

The normal form of benefit payment is a single-life annuity if the participant is unmarried when benefits begin or a 50% joint and survivor annuity if the participant is married when benefits begin. Participants may also elect to receive their benefits in the form of a 10 or 15 year certain and continuous option or a 75% or 100% joint and survivor annuity with either a spouse or non-spouse beneficiary. If the value of a participant's benefit is \$1,000 or less, payment will be made in a single sum as soon as practicable after the participant terminates employment.

If participants terminate employment prior to rendering 5 years of service, they forfeit the right to receive their accumulated plan benefits. Forfeitures arising will be applied to reduce the cost of the Plan.

Death and Disability

Death benefits are payable on behalf of any participant who dies after having earned a vested percentage of his/her accrued pension. If a participant dies while vested either before or after termination of employment but before benefits commence, an eligible spouse will be entitled to receive a lifetime income, commencing as of the earliest date the participant would have been first eligible to receive any retirement income had he/she terminated employment but not died. Such income shall be equal to 50% of the reduced retirement income to which the participant would have been entitled in the form of a 50% joint and survivor annuity. Upon death, the payment form under the option selected (50%, 75% or 100% joint and survivor or 10 or 15 year certain and continuous option) will determine the death benefit payable.

If a participant's employment terminates prior to normal retirement age due to total disability, the participant will be considered to be 100% vested and entitled to a benefit beginning at age 65. The participant can begin receiving reduced benefits at age 55 if they had completed at least 15 years of service. The participant's benefit will be determined under the formula but will be based upon the credited service the participant would have earned if they had remained employed until age 65 or the date the benefits commence if before age 65.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in accordance with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from these estimates.

voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan

Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

The Plan pays various service providers for Plan investment and administrative expenses. Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment-related expenses are allocated proportionately to Plan participants based on their account balances and are included in net investment income.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2025, which is the date the financial statements were available to be issued.

Note 3: Information Prepared and Certified by the Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedules, including investments at fair value, non-interest bearing cash held at December 31, 2024 and 2023, and net appreciation in fair value of investments, and dividends for the years ended December 31, 2024 and 2023, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by John Hancock Trust Company LLC, the Custodian of the Plan. The accompanying supplemental schedule Schedule H, Line 4i -Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024, have been derived from data certified by the Custodian.

Notes to Financial Statements

Note 4: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual and Money Market Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund - Values using net asset value (NAV) as provided by the administrator of the fund as a practical expedient. NAV is determined using the estimated fair values of the underlying assets held in the fund at year end. The use of NAV as fair value is deemed appropriate since the collective trust fund allows for daily redemption and does not have a finite life, unfunded commitments relating to this type of investment, or significant restrictions on redemptions.

voestalpine High Performance Metals Corporation Non- Union Employees' Pension Plan

Notes to Financial Statements

Note 4: Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2024 and 2023:

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 5,619,789	\$ -	\$ -	\$ 5,619,789
Total investment assets in the fair value hierarchy	\$ 5,619,789	\$ -	\$ -	\$ 5,619,789
Investment assets measured at NAV (a)				368,331
Total investments at fair value				\$ 5,988,120

	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 5,238,134	\$ -	\$ -	\$ 5,238,134
Money market	421,144	-	-	421,144
Total investment assets in the fair value hierarchy	\$ 5,659,278	\$ -	\$ -	\$ 5,659,278
Investment assets measured at NAV (a)				325,783
Total investments at fair value				\$ 5,985,061

(a) In accordance with GAAP, certain investments that are measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amount presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

voestalpine High Performance Metals Corporation Non- Union Employees' Pension Plan Notes to Financial Statements

Note 5: Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries, (ii) beneficiaries of employees who have died, and (iii) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawals, or retirement) between the benefit information date and the expected date of payment. Benefits payable under all circumstances (i.e., retirement, death, disability or termination of employment) are included, to the extent they are deemed attributable to employee service rendered prior to the valuation date.

The actuarial present value of accumulated plan benefits as of January 1, 2024 is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefits	\$ 5,565,825
Other vested benefits	1,778,737

Total actuarial present value of accumulated plan benefits	\$ 7,344,562
--	--------------

The changes in the actuarial present value of accumulated plan benefits between January 1, 2023 and January 1, 2024 are due to the following:

Actuarial present value of accumulated plan benefits at January 1, 2023	\$ 7,575,786
---	--------------

Increase (decrease) during the year attributed to:

Interest on benefits for the year	363,887
Additional benefits earned, including actuarial gains and losses	8,337
Benefit payments	(603,448)

Actuarial present value of accumulated plan benefits at January 1, 2024	\$ 7,344,562
---	--------------

Significant actuarial assumptions used in the January 1, 2024 actuarial computations are described below:

Funding Method:	Traditional Unit Credit Actuarial Cost Method
Discount Rate:	5.00% per year
Mortality Basis:	Pri-2012 Total Dataset Mortality table with Scale MP-2021
Retirement Age:	65, age after 5 years of service, or present age for active employees, if higher on the valuation date. Inactive participants not in pay status are assumed to retire at age 65.

voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan

Notes to Financial Statements

Note 5: Actuarial Present Value of Accumulated Plan Benefits (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuations been performed as of December 31, 2023 there would be no material differences.

Note 6: Party in Interest Transactions

Certain Plan investments are managed by John Hancock Trust Company LLC. John Hancock Trust Company LLC is the Custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. John Hancock Retirement Plan Services, LLC, an affiliate of a Custodian of the Plan, provides administrative and actuarial services to the Plan. Transactions with respect to these assets and services qualify as party-in-interest transactions. In addition, the Plan pays various service providers for certain Plan investment and administrative services. These transactions also qualify as party-in-interest transactions.

Note 7: Income Tax Status

The Plan obtained its latest determination letter on June 20, 2017, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested, normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination subject to a statutory ceiling and certain phase-ins on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

voestalpine High Performance Metals Corporation Non-Union Employees' Pension Plan

Notes to Financial Statements

Note 9: Risks and Uncertainties

Plan minimum funding requirements and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the Plan's financial statements.

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Plan's statements of net assets available for benefits.

Actuarial cost method

Funding target and target normal cost

An actuarial cost method allocates the expected cost of a pension plan on a year-by-year basis. The primary objective is to accumulate enough assets prior to each participant's retirement to provide the promised pension benefits.

The Pension Protection Act of 2006 (PPA) requires plan sponsors to use the Traditional Unit Credit actuarial cost method in which the estimated accrued benefit is based on service and, if applicable, earnings as of the valuation date. The funding target is equal to the actuarial present value of all accrued benefits as of the valuation date. The target normal cost is the actuarial present value, as of the valuation date, of the expected increases in projected accrued benefits attributable to service expected to be completed during the plan year (i.e., if applicable, one year's salary growth is reflected in the determination of target normal cost).

For tax deduction purposes, the funding target may reflect the value of future pay increases on accrued benefits, if applicable.

PPA discounting method

The plan sponsor must choose between full yield curve spot rates or a segmented yield curve of 24-month average corporate bond rates. If the segmented yield curve is selected, the plan sponsor can use either the rates as of the month of the valuation or as of a lookback month, up to 4 months prior to the valuation date. If the full yield curve is selected, the rates as of the month of valuation must be used.

For purposes of this valuation, the following discounting method was used and is assumed to be approved by the plan sponsor:

December 2023 segment rates, adjusted so each segment rate is no less than the applicable minimum percentage* of the corresponding 25-year average segment rate for the calendar year that contains the first day of the plan year and no more than the applicable maximum percentage of that 25-year average segment rate. The 25-year average cannot be less than 5.0% prior to application of the corridor.**

Asset valuation method

Plan assets for purposes of this actuarial valuation are valued under the asset averaging method, including, if applicable, discounted receivable contributions. The value is equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value (including expected earnings) for the two earlier annual determination dates. Expected earnings are calculated using a rate no greater than the third segment rate of the segmented yield-curve in effect at the beginning of each valuation year. The resulting average value must be fall between 90 and 110 percent of the fair market value of assets on the valuation date.

* Minimum is 95% through 2030, decreasing 5% per year beginning in 2031 until 70% is reached in 2035

** Maximum is 105% through 2030 and increasing 5% per year beginning in 2031 until 130% is reached in 2035

Annual rates of increase:			
- Salaries		N/A	
- Future Social Security wage bases		N/A	
- Statutory limits on compensation and benefits		N/A	

Demographic Assumptions

Mortality:	
- Funding Target	IRS 2024 Small Plan Combined Static Mortality Table
- ASC 960	Pri-2012 Total Dataset Mortality Table with Scale MP-2021
Terminations:	None
Disability:	None
Assumed Retirement Age:	Age 65, age after 5 years of service or present age, whichever is higher on the valuation date. Inactive Participants not in pay status are assumed to retire at age 65.

Miscellaneous Assumptions

Form of Payment:	Life Annuity
Percent Married:	80% of participants are assumed to be married
Spouse's Age:	Wives assumed to be 3 years younger than husbands
Expenses:	Equal to prior year's actual non-PBGC related expenses plus current year's expected PBGC premium

Rationale for significant assumptions

Economic assumptions

- **Expected return on plan assets:** The assumption was selected by the client with input from their investment advisor. We believe the assumption is reasonable as it falls within a reasonable range of expected returns for the plan's asset allocation based on capital market assumptions.
- **ASC 960 discount rate:** This assumption is based on the expected return on plan assets assumption.

Demographic Assumptions

- **ASC 960 mortality:** The mortality base table and projection scale is based on the most recent mortality table and improvement scale published by the Society of Actuaries and in our judgement, adequately reflects expected mortality rates as of the measurement date. The plan's relatively small size would not support a credible mortality study.
- **Termination/Retirement:** We believe that this assumption is representative of anticipated future experience. Historically this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in termination patterns are not expected.

Miscellaneous assumptions

- **Expenses:** The assumption is based on the expectation of expenses to be paid out during the plan year, based on actual PBGC expenses projected for the year, and assuming non-PBGC related expenses will be similar to the prior year.
- **Form of payment:** The assumption is based on the normal form of payment. Historically this assumption has not produced significant gains or losses for the plan.
- **Spouse's age and percent married:** The employer does not have enough credible data to analyze spousal demographics. These assumptions are based on the actuary's experience with similar plans.

Summary of plan provisions

Summary of plan provisions

Effective Date:	The effective date of the Plan is January 1, 1956. The Plan has been subsequently amended and was revised and completely restated effective January 1, 1976. The latest Plan restatement was effective January 1, 2007. The Plan Year is from January 1 to December 31. The Pension Plan for Employees of Stora Kopparberg Corporation was originally adopted on March 1, 1964 and merged into this Plan effective January 1, 1977.
Eligible Employee:	Any Employee who meets the Eligibility Requirements except Union employees and employees whose income is from sources not within the United States.
Eligibility Requirements:	Age: 20.5 Service: One Year of Service
Plan Entry Date:	An eligible employee will enter the plan on January 1 coincident with or next following the date in which the employee has met the eligibility requirements.
Year of Service:	12-consecutive month computation period in which an employee is credited with 1,000 or more hours of service. Eligibility: Computation period commences on the date in which the employee first completes an hour of service for the employer. Benefit Accrual: Computation period commences on January 1. . An Employee shall not earn any Credited Service after September 30, 2002. Vesting: Computation period commences on January 1.
Normal Retirement Date:	Later of age 65 or age after five years of service with benefits payable as of the first day of the month on or next following normal retirement date.

Summary of plan provisions

- Average Compensation:** The highest annual average of basic rates of pay as of each January 1 during any five consecutive years within the 10-year period to normal retirement date (beginning after 1974 for participants who are employees of Uddeholm Steel Corporation and from 1977 for participants who were employees of Stora Kopparberg Corporation of December 31, 1976).
- Covered Compensation Level:** The average of the maximum wages which may be taxed for Social Security purposes each year. Service for benefit calculation does not extend beyond September 30, 2002. There are no benefit accruals after that time.
- Normal Retirement Benefit:** A participant's annual retirement income will be equal to 0.625% of average pay plus 0.625% of average pay in excess of the Social Security covered compensation level, multiplied by years and months of service not to exceed 35 such years. Former participants in the Jamison Steel Corporation Profit-Sharing Plan will also receive the benefit which can be provided from their profit-sharing account plus interest.
- Participants shall not accrue any additional benefits under the Plan after September 30, 2002.
- Normal Form of Benefit:** Straight life annuity (until the exhaustion of a participant's former contributions, if any).
- Postponed Retirement Benefit:** If employment is continued beyond the Normal Retirement age, a participant's postponed retirement date will be the first day of the month after he or she actually retires.
- Benefits are accrued to actual retirement date.
- Early Retirement Benefit:** First day of any month after attainment of age 55 and the completion of 15 years of service with the Company, or age 55 with 10 years of service for participants who were in the Pension Plan for Employees of Stora Kopparberg Corporation. The accrued benefit is determined under the same pension formula used for a normal retirement based upon average pay, covered compensation and service as computed on the early retirement date. Such accrued benefit is reduced by 6 2/3% for each year of commencement between age 60 and 65, and by 3 1/3% for each additional year between age 55 and 60.

Summary of plan provisions

Death Benefit:

No benefits are payable under the Plan in the event of death of a participant who has not earned a vested percentage of their accrued benefit.

In the event of death after a participant has earned a vested percentage of their accrued pension, but while employed by the Company, and before age 65, an eligible spouse will be entitled to receive a lifetime income, commencing as of the earliest date the participant would have been first eligible to receive any retirement income had he terminated employment but not died. Such income shall be equal to 50% of the reduced retirement income to which the participant would have been entitled had he elected the Joint and 50% Survivor Annuity Option with his spouse as his beneficiary. This pre-retirement death benefit is not payable if a participant is single, is not survived by his spouse, or if his spouse dies before payments have commenced.

If a participant continues employment with the Company after his normal retirement date, in the event of his death while still employed, his spouse will be entitled to the income payable as if he retired under either the Joint and 100% Survivor Option with the written acknowledgement and consent of his spouse, or the 180 Month Certain and Continuous Option, whichever he selects. The 180 Month Certain and Continuous Option is extended to him without regard to his marital status and is applicable to any person designated as his beneficiary. If a participant fails to select between these options or to designate a beneficiary when eligible to do so, his spouse, if living at the time of his death, will be designated as beneficiary and automatically covered under the Joint and 100% Survivor Option. If at the time of his death, the participant did not have a spouse or had not designated a beneficiary; his estate will automatically be named as beneficiary under the 180 Month Certain and Continuous Option.

In the event of a participant's death after his employment terminated but before the actual commencement of retirement income, his spouse will be entitled to receive, commencing as of the earliest date he would have been eligible to receive his retirement income had he not died, a lifetime income equal to 50% of the reduced retirement income to which he would have been entitled had he elected the Joint and 50% Survivor Option.

Upon death after the commencement of retirement income, the payment form under the option selected will determine the death benefit payable.

Summary of plan provisions

Termination Benefit:

If a participant terminates employment before qualifying for retirement benefits, in addition to 100% of the accrued pension benefit from his contributions, if any, the participant will be entitled to a 100% vested interest in his accrued pension benefit provided he completed at least 5 full years of service with the company. A participant's accrued pension benefit will be determined under the Plan's pension formula in the same manner as for early retirement.

All Böhler-Uddeholm Corporation employees who transferred to Uddeholm Stainless Corporation on January 1, 1984, regardless of their years of service as of December 31, 1983 are provided at that date full vesting in their benefit, the then calculated accrued pension benefit receivable from the Uddeholm Corporation Pension Plan.

Optional Forms of Benefit:

- Life Only
- 10 Year Certain & Continuous
- 15 Year Certain & Continuous
- Joint & 50% Survivor
- Joint & 75% Survivor
- Joint & 100% Survivor
