REPORT OF
WILLIAM WOODS UNIVERSITY
403(b) DC PLAN
DECEMBER 31, 2024 AND 2023

INDEPENDENT AUDITOR'S REPORT

To the Trustees of the
William Woods University 403(b) DC Plan
Fulton, Missouri

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of the William Woods University 403(b) DC Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2008. As further discussed in Note 3, because of inadequacies in the Plan's records prior to 2008, we were unable to perform sufficient auditing procedures with respect to participants' individual account balances totaling \$9,763,974 accumulated from the inception of the Plan through December 31, 2007, or to satisfy ourselves as to the basis on which participants' equity was stated as of December 31, 2007, or the propriety of the distributions to participants who terminated during the years then ended. Accordingly, we were unable to determine the extent to which the accompanying financial statements may have been affected by these conditions. The estimated remaining unaudited balance of participants' individual accounts prior to 2008 was approximately \$2,363,000 as of December 31, 2024.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedule of assets held at year end as of December 31, 2024, and the supplemental schedule of delinquent participant contributions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* section of our report, it is inappropriate to, and we do not, express an opinion on the supplemental schedules referred to above.

WILLIAM WOODS UNIVERSITY
403(b) DC PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the William Woods University 403(b) DC Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General: The Plan is a 403(b) defined contribution plan covering employees of William Woods University (the University). The Plan was established January 1, 1988, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: All employees, except students and employees who normally work less than 20 hours per week, are eligible to participate in the Plan. There is no age or service requirement to be eligible to make elective deferrals. Employees who have attained the age of 21 and completed one year of service are eligible to receive University contributions.

Contributions: Participants may contribute a portion of pretax and post-tax annual compensation, as defined in the Plan, not to exceed 100% of compensation or maximum amounts specified by the Internal Revenue Service (IRS), in accordance with a participant salary deferral agreement. Participants who are at least 50 years of age may make an additional contribution to the Plan, not to exceed \$7,500 for 2024 and 2023, under certain conditions. Participants may also contribute amounts representing rollover distributions from other qualified plans. The University may make a discretionary employer matching contribution to participant accounts each year. The University made discretionary employer matching contributions of 100% of employee deferrals up to 4% of eligible compensation during 2024 and 2023. Participants direct the investment of contributions into various investment options offered by the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the University's contributions, and (b) Plan earnings, and charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are automatically 100% vested in the portion of their accounts resulting from participant salary deferrals. Participants who entered the Plan prior to July 1, 2011, are also 100% vested in the University's contributions. Effective July 1, 2011, the Plan was amended to change the vesting in the University's contributions for newly eligible participants. Participants entering the Plan on or after July 1, 2011, vest in the University's contributions at a rate of 0% until three years of service. After three years of service, participants become 100% vested in the University's contributions.

Forfeitures: If a participant's employment is terminated prior to normal retirement, the unvested portion of their account balance is forfeited. Forfeitures can be used to pay the Plan's administrative expenses or used to reduce the University's contributions to the Plan. During the years ended December 31, 2024 and 2023, forfeitures used to pay administrative expenses were \$4,782 and \$6,812, respectively. During the years ended December 31, 2024 and 2023, forfeitures used to reduce the University's matching contributions were \$11,214 and \$9,668, respectively. Remaining forfeitures to be used to pay future plan expenses or reduce matching contributions were \$2,765 and \$1,723 at December 31, 2024 and 2023, respectively.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate that is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are payable ratably through payroll deductions.

Distribution of benefits: Distributions to plan participants are generally made to a participant after the participant's termination of employment. A participant may receive a distribution in the form of a lump-sum amount equal to the value of the participant's vested interest in his or her account, a partial payment, annuity, or installment payments.

Administration: Principal Life Insurance Company serves as the Plan's third-party administrator and provides general professional and administrative services related to the Plan. Principal Trust Company (Principal), TIAA-CREF, and The Variable Annuity Life Insurance Company (VALIC) function as the Plan's record-keepers and custodians. Certain administrative and record-keeping costs are being absorbed by the University. The University's Board of Trustees is responsible for the oversight of the Plan. The Plan's Retirement Plan Committee determines the appropriateness of the Plan's investment offerings, monitors the investment performance, and reports to the University's Board of Trustees as needed.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Valuation of investments: Investments are reported at fair value, except for fully benefit-responsive contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Purchases and sales of securities are recorded on a trade date basis. Realized investment gains and losses are determined on the specific identification basis. Dividends are recorded on the declaration date. Interest is recorded when earned. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities of the Plan are exposed to various risks, such as interest rates, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Contributions: Contributions from plan participants and the contributions from the University are recorded in the year which the employee contributions are withheld from compensation.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the University. Expenses that are paid by the University are excluded from these financial statements. Certain administrative functions are performed by officers and employees of the University. No officer or employee receives compensation from the Plan for these services. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events: Events that have occurred subsequent to December 31, 2024, have been evaluated through October 13, 2025, which represents the date the Plan's financial statements were approved by management and, therefore, available to be issued.

3. TAX STATUS

Effective October 1, 2019, the Plan was amended and restated to adopt a pre-approved plan document sponsored by Principal Life Insurance Company. The IRS has determined and informed Principal Life Insurance Company by a letter dated March 31, 2017, that the prototype non-standardized 403(b) plan as amended through March 4, 2015, is in a form acceptable under section 403(b) of the Internal Revenue Code (IRC). The University may rely on the opinion letter issued by the IRS for the prototype plan as evidence that the Plan is qualified under the applicable sections of the IRC. The Plan is relying on the opinion letter.

Principal Life Insurance Company amended the hardship withdrawal provisions in the prototype plan effective January 1, 2019, including eliminating the requirement to suspend participant elective deferrals after taking a hardship withdrawal. Effective January 1, 2022, the Plan was amended to change the employer matching contribution from a required matching contribution of 100% of employee deferrals up to 4% of eligible compensation to a discretionary employer matching contribution. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

In 2007, the DOL, the IRS and the Pension Benefit Guaranty Corporation published final regulations significantly changing rules and regulations governing 403(b) plans. One of the key changes eliminated the limited reporting previously allowed. Prior to 2009, plan level records were not required to be maintained. Effective in 2009, 403(b) plans are required to submit plan level financial information and are subject to audit. As a result of the regulations in effect prior to 2009, the custodians did not maintain sufficient records to provide evidence to support its balances as of December 31, 2007.

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. TERMINATED PARTICIPANTS

Net assets available for benefits at December 31, 2024 and 2023, included \$11,234,958 and \$10,086,591, respectively, allocated to the accounts of individuals who, as of or prior to that date, had withdrawn from participating in the operations of the Plan, generally as a result of terminating employment. These amounts may be paid within the next year, at the request of the participants. These participants receive no further contributions but do receive allocations of investment income and Plan expenses.

6. CERTIFICATION OF INVESTMENT INFORMATION

Certain information in the accompanying financial statements and the ERISA-required supplemental schedule of assets held at year-end related to investments held as of December 31, 2024 and 2023, and net appreciation in fair value of investments, dividend income, and interest income for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA-CREF, Principal, and VALIC, qualified institutions.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. FAIR VALUE OF INVESTMENTS

Plan investments are held in custodial accounts managed by TIAA-CREF, Principal, and VALIC, the Plan's custodians, and are unsecured. Therefore, these transactions qualify as party-in-interest transactions.

A fair value hierarchy is used that prioritizes the inputs to valuation techniques used to measure fair value of balances that are required or permitted to be measured at fair value for reporting in financial statements. The hierarchy gives the highest priority to the unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to the unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|---|
| Level 1 | Valuation is based upon quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access. |
| Level 2 | Valuation is based upon quoted prices for similar assets or liabilities in active markets, quoted market prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Observable inputs may include interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. |
| Level 3 | Valuation is based on methodologies that are unobservable and significant to the fair value measurement. These may be generated from model-based techniques that use at least one significant assumption based on unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of valuation methodologies used for assets recorded at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund on an active market which is based on the underlying net asset value (NAV) of shares held by the Plan at year-end. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Insurance company general account: The TIAA Traditional Annuity is valued at contract value, which approximates fair value based on analysis performed by the insurance company. Contract value equals the amounts contributed or transferred, less any withdrawals or transfers out, plus accrued interest. Liquidity restrictions apply to the TIAA Traditional Annuity account such that transfers and distributions must be made over a period of up to 10 annual installments.

Pooled separate account: The unit value of TIAA Real Estate pooled separate account is calculated daily and is derived from the market value of the underlying real estate holdings or other real estate-related investments. The TIAA Real Estate pooled separate account is registered with the SEC.

The TIAA Real Estate pooled separate account invests in real estate and real estate related investments. Its investments are valued at NAV. Although the underlying investments of the pooled separate account cannot be quickly sold and converted to liquid asset, the TIAA general account provides a liquidity guarantee to meet participant redemption, transfer or cash withdrawal requests varying from one to three days. Redemptions out of the investment are limited to once per quarter.

Variable annuity contracts: Valued at the NAV of shares held by the Plan at year-end. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. There are no conditions or terms limiting redemption of these funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below present the Plan's assets measured at fair value on a recurring basis as of December 31, aggregated by the level in the fair value hierarchy within which those measurements fall:

	Level 1	Level 2	Level 3	Total
2024				
Mutual funds	\$ 18,526,654	\$ -	\$ -	\$ 18,526,654
Pooled separate account	96,790	-	-	96,790

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2024 and 2023:

	Insurance Company General Account	
	2024	2023
Balance, January 1	\$ 1,405,825	\$ 1,375,134
Interest income	62,409	66,777
Purchases	2,695	350,788
Sales	<u>(159,621)</u>	<u>(386,874)</u>
Balance, December 31	<u>\$ 1,311,308</u>	<u>\$ 1,405,825</u>

Level 3 Quantitative Information - The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
December 31, 2024 TIAA Traditional Annuity	\$ 1,311,308	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.00% - 6.50%
December 31, 2023 TIAA Traditional Annuity	\$ 1,405,825	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.25% - 6.75%

Level 3 Qualitative Information – The Plan has processes and controls in place to ensure that fair value is reasonably estimated. TIAA-CREF provides a fair value estimate for these investments as described above. Valuation approaches are reviewed on an ongoing basis and revised as necessary based on changing market conditions to ensure values represent a reasonable exit price.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of the years ended:

December 31, 2024	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Variable annuity contracts	<u>\$ 147,608</u>	n/a	Daily	None
December 31, 2023	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Variable annuity contracts	<u>\$ 130,491</u>	n/a	Daily	None

8. PLAN LOANS

Participants are allowed to borrow directly from TIAA-CREF. Plan loans are issued directly from funds owned by TIAA-CREF and not directly from a participant's account. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. The outstanding balance of these loans was \$0 and \$34 at December 31, 2024 and 2023, respectively. Principal and interest are paid directly to the custodian, and these plan loans are not reflected in the Plan's financial statements.

9. INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Plan holds traditional investment contracts with TIAA-CREF, Principal and VALIC through the TIAA Traditional – Benefit Responsive Account, the Principal Fixed Income Guaranteed Option, and the VALIC Fixed Account Plus. These contracts meet the fully benefit-responsive investment contract criteria and, therefore, are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan’s ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following: the Plan’s failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code; premature termination of the contracts; Plan termination or merger; changes to the Plan’s prohibition on competing investment options; and bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan’s normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuers to terminate the contracts with the Plan and settle at an amount different from contract value. Examples of such events include the following: an uncured violation of the Plan’s investment guidelines; a breach of material obligation under the contract; a material misrepresentation; and a material amendment to the agreement without the consent of the issuer.

10. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include transactions with fiduciaries or employees of the Plan, any person providing services to the Plan, an employer whose employees are covered by the Plan, a person who owns 50% or more of such an employer, and relatives of parties-in-interest. The Plan has various parties-in-interest. Investments are held with parties-in-interest and certain fees are paid to parties-in-interest.

11. PROHIBITED TRANSACTIONS

The DOL considers late deposits to be nonexempt prohibited transactions. During the year ended December 31, 2024, the University inadvertently failed to remit certain February, March, June, and July 2024 employee deferrals totaling \$57,200 to the Plan within the time frame required by the DOL under plan asset rules. The University remitted the delinquent employee deferrals to the Plan in March 2024, June 2024, and July 2024. No determination of any missed earnings due to the Plan has yet been made.

During the year ended December 31, 2023, the University inadvertently failed to remit certain May 2023 employee deferrals totaling \$3,529 within the time frame required by the DOL under plan asset rules. The University remitted the late employee deferrals to the Plan in May 2023. Missed earnings totaling \$14 were remitted to the Plan in September 2024.
