Independent Auditors' Report

To the Plan Participants and Plan Administrator of the
Preston Memorial Hospital Corporation Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Preston Memorial Hospital Corporation Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Preston Memorial Hospital Corporation Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Preston Memorial Hospital Corporation Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Preston Memorial Hospital Corporation Retirement Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Preston Memorial Hospital Corporation Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Preston Memorial Hospital Corporation Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Preston Memorial Hospital Corporation Retirement Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of the Preston Memorial Hospital Corporation Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan established effective January 1, 1985, as restated January 1, 2011. Prior to the plan freeze, the Plan covered all employees of Preston Memorial Hospital Corporation (the Organization) who have completed 1,000 hours of service per year and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Board of Directors is responsible for oversight of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

Effective December 31, 2001, the Organization froze the Plan. No new participants have been able to enter the Plan after December 31, 2001. Although participants that were participating in the Plan prior to it being frozen no longer accrue benefits, they are still eligible to receive the benefits they accrued prior to December 31, 2001.

Funding Policy

The Plan's funding policy is for the Organization to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met in 2024. The Plan has a minimum required contribution of \$88,153 for the 2024 Plan year. The Plan utilized its credit balance in order to satisfy their required contribution for 2024. The Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Pension Benefits

Plan participants are entitled to their plan benefits after terminating employment with vested rights. Participants become vested in the Plan upon completion of at least five years of service or attainment of the normal retirement age (65), although the Plan does allow for early retirement at the age of 55. If employees terminate before rendering the required years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Organization's contributions. Upon becoming vested, participants are entitled to retirement benefits in the form of direct monthly payments to participants who have completed five or more years of service beginning at normal retirement age (65) equal to a percentage of their average compensation times all years of service since 1984, to a maximum of 20 years. Upon termination of employment, pension payments are normally paid in the form of a monthly annuity payable for their lifetime or, if married, in the form of a qualified joint or survivor annuity.

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Organization, as provided by the plan document. Expenses that are paid directly by the Organization are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

Notes to Financial Statements

December 31, 2024 and 2023

Subsequent Events

Subsequent events were evaluated through October 14, 2025, the date the financial statements were available to be issued.

Recent Regulatory Update

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2024, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuations been performed as of December 31, 2023, there would be no material differences. The significant actuarial assumptions used in the valuations were:

1. Discount rate: 4.50%
2. Mortality: Pri-2012 Amount - Weighted Morality Table (generational, not static) projected by Scale MP-2021 sex-distinct, with separate rates pre- and post-commencement.
3. Retirement age: 65

The change in actuarial assumptions included a decrease in discount rate from 5.18% to 4.96%, an update to the most-recent available mortality table (Pre-2012, as describe above), and an increase to the expected long-term rate of return on plan assets from 4.50% to 5.00%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

Money market fund: Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Total	\$ 3,912,339	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 3,912,339

5. Concentrations

A concentration is defined as an investment representing 10% or more of the total investment value as of December 31, 2024 and 2023. There were two individual investments that represented a concentration of investments as of December 31, 2024 and 2023.

6. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, PNC Bank, National Association, the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2024. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

7. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with PNC Bank, National Association, the Trustee of the Plan. Contributions are held and managed by PNC Bank, National Association, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Organization. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

8. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

9. Tax Status

The IRS has determined and informed the Organization by a letter dated January 6, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Employees Valued

Only participants as of the valuation date as reported by the plan sponsor were valued.

Salary Scale

None assumed, due to the plan freeze as of December 31, 2001.

Assumptions Regarding Future Service Accruals

For active participants, hours worked in each future year are assumed to be at least 1,000 such that Vesting Service continues to accrue.

Mortality Rates

Funding: Pri-2012 Mortality Table as described under Regulation §1.430(h)(3)-1 (static, not generational) projected by modified Scale MP-2021, sex-distinct, with the same blended rates pre- and post-commencement.

ASC 715-30: Pri-2012 Amount-Weighted Mortality Table (generational, not static) projected by Scale MP-2021, sex-distinct, with separate rates pre- and post-commencement.

ASC 960-20: Pri-2012 Amount-Weighted Mortality Table (generational, not static) projected by Scale MP-2021, sex-distinct, with separate rates pre- and post-commencement.

Retirement Rates

Active participants are assumed to retire at the later of age 65 or their age as of the valuation date, if older.

Termination Rates

None assumed.

Disability Rates

None assumed.

Assumptions Made in Valuing Spousal Benefits

All employees included in the valuation are assumed to be married. The wife is assumed to be the same age as the husband.

Assumptions Made Regarding Death Benefits

Commencement of all pre-retirement death benefits have been assumed to be deferred to the participant's normal retirement date.

Assumptions Made Regarding Payment Form

All participants are assumed to receive a straight life annuity which is actuarially equivalent to all other payment forms.

Provisions Not Valued

The disability benefit and post-termination death benefit for active participants, as well as the death benefit for terminated vested participants, have not been valued. Due to the small liability added by these benefits, they have been deemed to be immaterial for valuation purposes.

Accrued and Vested Benefit Measurements

Unless noted above or categorized as not to be valued as a vested benefit for purposes of measuring liability for the determination of premiums under the Pension Benefit Guaranty Corporation insurance program, all benefits under the plan have been valued.

Provision for Expenses

The administrative expenses expected to be paid from plan assets have been included in the Target Normal Cost for minimum contribution purposes. Expected expenses for the current plan year are assumed to be equal to the actual expenses for the previous plan year.

Actuarial Cost Method

Funding: The actuarial cost method prescribed by applicable regulations is the Unit Credit cost method. Under this cost method, a liability is calculated for each participant as of the valuation date equal to the present value of the accrued benefit as of the valuation date. The liabilities are referred to as the Funding Target. The present value of benefits earned during the plan year following the valuation date is calculated for each active participant who has not reached normal retirement age and is expected to earn a benefit during the year. This present value is the individual participant's Target Normal Cost. The plan's total annual Funding Target and Target Normal Cost are the sums of the amounts for individual participants. Estimated plan administrative expenses expected to be paid from plan assets in the upcoming year are also included as part of the Target Normal Cost.

ASC 715-30: The actuarial cost method prescribed by ASC 715 is the Projected Unit Credit cost method. Under this cost method, a liability is calculated for each active participant as of the valuation date equal to the present value of the accrued benefit as of the valuation date, but reflecting a projection of future increases in compensation until the assumed retirement date. For inactive participants, such as separated participants with deferred vested benefits and retirees, a liability is calculated for each such participant as of the valuation date equal to the present value of the accrued benefit, reflecting no future increases in pay. The liabilities are referred to as the Projected Benefit Obligation, or PBO. The present value of benefits earned during the plan year following the valuation date is calculated for each active participant who has not reached normal retirement age and is expected to earn a benefit during the year. This present value is the individual participant's Service Cost. The plan's total annual PBO and Service Cost are the sums of the amounts for individual participants.

ASC 960-20: The actuarial cost method prescribed by ASC 960 is the Unit Credit cost method. Under this cost method, a liability is calculated for each participant as of the valuation date equal to the present value of the accrued benefit as of the valuation date. The liabilities are referred to as the Present Value of Accumulated Plan Benefits, or PVAB. The plan's total annual PVAB is the sum of the amounts for individual participants.

Low-Default-Risk The actuarial cost method used to determine the Low-Default-Risk liability is the Unit Credit cost method.

Assessment:

Attribution of Accrued Benefits: The accrual of benefits outlined in the plan document has been reflected in the attribution of benefits under the actuarial cost methods for funding and accounting purposes above.

Asset Method

Funding: Market value of all trust investments plus any discounted receivable contributions as of the valuation date.

ASC 715-30: Market value of all trust investments is used.

ASC 960-20: Market value of all trust investments plus any receivable contributions for the prior plan year.

At-Risk Assumptions

Since the prior year's Funding Target Attainment Percentage is greater than 70%, at-risk liabilities have not been valued.

ASC 715-30 Measurement Date

The last day of the fiscal year, December 31.

Fiscal Year

The 12-month period ending each December 31.

Rationale for the Selection of Assumptions

Assumptions that in our judgement have a significant effect on the measurements contained in this report are categorized below, along with information and analyses that support the determination that the assumption is reasonable.

Assumptions Selected by the Actuary

Retirement decrement rates: This assumption was selected due to the small size of the population and the lack of credible data to provide a more detailed assumption. We monitor gains and losses annually to ensure the assumption is reasonable.

Expected return on plan assets: This rate is selected based on the outlook for returns within the main classes of investments (those being debt, equity, and cash), considering past experience as well as current market expectations over an appropriate timeframe. We confer with the plan's asset advisors, when possible, to gather input for the assumption and their opinion as to its reasonableness.

Discount rate: For purposes of measuring the low-default-risk obligation, this assumption is set to reflect the return on low-default-risk securities and to reflect the incidence of future cash flows from the plan, appropriately.

Assumptions Selected by Other Parties (other than prescribed assumptions or methods set by law)

Discount rate, assumed return on assets, and mortality: With respect to the ASC-715 valuation within this report, these primary assumptions are selected by the employer. However, we make recommendations to the employer using the methods and parameters required by the accounting standard and common practices within the audit profession. As a result of the employer following our recommendations, these assumptions do not conflict with our judgement and are reasonable for the purposes of the measurement.

Assumptions Selected by Other Parties (which are prescribed or set by law)

For assumptions prescribed or set by law, we offer no opinion or analysis on the reasonableness of the assumptions.

Changes in Assumptions since the Last Actuarial Valuation

Funding: The three-tiered segment interest rates used to determine the Funding Target Liability last year were 4.75%, 5.00%, and 5.74%. These rates were updated to the rates required for the current plan year and also reflect all applicable funding relief legislation. The mortality tables for the Funding Target Liability were updated as required under Regulation §1.430(h)(3)-1.

ASC 715-30: The discount rate was decreased from 5.18% to 4.96%, the mortality table was updated to the most-recent available table (Pri-2012, as detailed above), and the expected long-term rate of return on plan assets was increased from 4.50% to 5.00%. All other methods and assumptions are the same as those used in the preparation of the 2023 fiscal year expense information.

ASC 960-20: The discount rate and expected long-term rate of return on plan assets were increased from 4.50% to 5.00% and the mortality table was updated to the most-recent available table (Pri-2012, as detailed above).

Justification for Changes in Funding Actuarial Assumptions

For funding calculation purposes, no assumption changes, other than those prescribed by law, were made, therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any “Change in Actuarial Assumptions” on the 2024 Schedule SB.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of Plan Provisions

Plan Sponsor

Preston Memorial Hospital Corporation

EIN/PN

31-1097818 / 001

Effective Date

January 1, 1985. Last restated effective January 1, 2011 and last amended on December 20, 2013.

Plan Year

The 12-consecutive month period beginning each January 1.

Participation

An employee becomes a participant in the plan on the January 1 or July 1 coincident with or next following the attainment of age 21 and the completion of one Qualifying Year of Service. Effective December 31, 2001, the plan is closed to new entrants.

Compensation

Compensation is defined as income reported by the employer to the IRS for federal income tax purposes, including amounts contributed by the employer pursuant to a salary reduction agreement which are includable in the gross income of the participant under Sections 125, 401(e), 402(h), or 403(b) of the Internal Revenue Code.

Average Monthly Compensation

The average of the monthly Compensation for the 60 consecutive months that produce the highest average. If a participant has less than 60 months of employment, then the Average Monthly Compensation is the average of the monthly Compensation for all months of employment with the employer. Effective December 31, 2001, Average Monthly Compensation was frozen.

Qualifying Year of Service

An eligibility computation period during which an employee completes at least 1,000 hours of Service.

Service

A full year of Service is credited for each Plan Year during which an employee works at least 1,000 hours. Effective December 31, 2001, Service for purposes of determining accrued benefits was frozen.

Vesting Service

An employee earns Vesting Service credit for all years of Service as defined above. All participants shall be vested according to the following schedule:

Years of Service	Vesting Percentage
Less than 5	0
5 or more	100

All Participants shall be 100% vested upon their death.

Benefit Service

An employee earns Benefit Service credit for years of Service beginning on the later of their date of employment or January 1, 1985 and ending on the earlier of their date of termination of employment or December 31, 2001 (due to the plan freeze effective as of the same date).

Accrued Benefit

A monthly life annuity commencing at age 65 equal to (1) times (2) as follows:

- (1) 1.5% of Average Monthly Compensation times years of Benefit Service projected to normal retirement (not to exceed 20 years).
- (2) The ratio (not to exceed one) of the participant's years of Benefit Service actually earned over the years of Benefit Service projected to normal retirement.

Accrued benefits were frozen as of December 31, 2001 for all participants.

Normal Retirement Benefit

Eligibility

First of the month coincident with or immediately following attainment of age 65 or, if later, the fifth anniversary of plan participation.

Monthly Benefit

The Accrued Benefit calculated at the normal retirement date.

Delayed Retirement Benefit

Eligibility

First of the month coincident with or immediately following termination of employment after the participant's normal retirement date.

Monthly Benefit

At the end of each Plan Year of continued employment (through the delayed retirement date), the participant's benefit is determined as the greater of the Accrued Benefit as of the close of the Plan Year (or delayed retirement date) or the Accrued Benefit as of the close of the prior Plan Year, actuarially increased to the close of the Plan Year (or delayed retirement date).

Early Retirement Benefit

Eligibility

Attainment of age 55 with 10 years of Vesting Service.

Monthly Benefit

The Accrued Benefit determined as of the normal retirement date, reduced by one fifteenth of one percent (1/15th) for each of the first five years by which commencement precedes the participant's normal retirement date, and is reduced further by one thirtieth of a percent (1/30th) for each of the next five years by which commencement precedes the participant's normal retirement date.

Disability Benefit

Eligibility

Becoming permanently disabled (as determined by a licensed physician) while employed and after having met the requirements to become a participant in the plan.

Disability Benefit (continued)

Monthly Benefit

The Accrued Benefit as of the date of disability, reduced for commencement prior to the participant's normal retirement date. The Accrued Benefit will be reduced by the same factors used to reduce the Early Retirement Benefit as shown above, however, if the Disability Benefit is to commence prior to age 55, the benefit will be reduced further from age 55 to the age at commencement using the plan's actuarial assumptions.

Termination Benefit

Eligibility

Termination of employment prior to retirement with at least 5 years of Vesting Service.

Monthly Benefit

The vested Accrued Benefit commences in full at age 65, or if the participant has at least 10 years of Service, in a reduced amount at any time after attainment of age 55, reduced in accordance with the Early Retirement Benefit provisions.

Pre-Retirement Death Benefit

Eligibility

The deceased participant must have attained a vested right to a benefit from the plan prior to their date of death.

Monthly Benefit for Participants who Die Prior to their Earliest Retirement Date

The monthly benefit payable to the participant's surviving beneficiary is a lifetime annuity commencing at the earliest date that the participant would have been eligible to retire. The benefit is equal to the benefit that would be paid to the beneficiary, calculated as if the participant separated from service on the date of death, survived to the earliest retirement age under the plan, retired electing a 50% joint & survivor annuity, and died the next day.

Monthly Benefit for Participants who Die After their Earliest Retirement Date

The monthly benefit payable to the participant's surviving beneficiary is a lifetime annuity commencing on the first of the month after the participant's death. The benefit is equal to the benefit that would be paid to the beneficiary, calculated as if the participant retired on the date of death, elected a 50% joint and survivor annuity, and died the next day.

Normal Form of Benefit

Life annuity – A monthly benefit payable for the life of the participant. No payments are made after the participant dies.

Unless the participant and the spouse elect otherwise, a married participant will receive a 50% joint & survivor annuity, actuarially equivalent to the Normal Form of Benefit.

Optional Forms

Life annuity – This form provides monthly payments for the life of the participant. All benefit payments cease upon the death of the participant.

50%, 66⅔%, 75%, or 100% joint & survivor annuity – These forms provide reduced monthly payments during the participant's lifetime with monthly payments to the surviving beneficiary after the participant's death equal to 50%, 66⅔%, 75%, or 100%, respectively, of the amount paid during the participant's lifetime. The payments are actuarially equivalent to the Normal Form of Benefit and all payments cease upon the later of the participant's or the beneficiary's death.

Optional Forms (continued)

Lump sum payment – A one-time payment is available equal to the actuarial equivalent of the Normal Form of Benefit. This optional form of payment is only available if the present value of the Accrued Benefit is less than or equal to \$5,000.

Annuity forms of payment are converted from the life annuity form using the 1984 Unisex Pension Mortality table set back three years and 7.50% interest. Lump sum forms of payment are converted from the normal form using the Commissioner's Standard Mortality Table as outlined under IRS Code Section 417(e) and the three-tiered segment interest rates as outlined under IRS Code Section 417(e), for the month of November in the calendar year preceding the year of determination.

Benefits Available as a Lump Sum

This plan pays only relatively small benefit amounts (benefits with a present value less than \$5,000) in the form of a lump sum payment.

Maximum Benefit Limit

Plan benefits are limited to the Internal Revenue Code Section 415 maximum benefit amount.

Maximum Compensation Limit

Compensation is limited to the IRS Code Section 401(a)(17) maximum compensation amount that can be recognized for benefit calculation purposes.

Changes in Plan Provisions since the Last Actuarial Valuation

None.
