Independent Auditor's Report

To the Plan Administrator of
CSG Consultants, Inc. Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of CSG Consultants, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of CSG Consultants, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of CSG Consultants, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about CSG Consultants, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of CSG Consultants, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about CSG Consultants, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

CSG Consultants, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of the CSG Consultants, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

CSG Consultants, Inc. ("the Company, Employer") established the Plan effective as of January 1, 2017. The Plan operates and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by an independent third-party administrator and an independent professional ERISA fiduciary serves as the Plan's Trustee.

The Plan was most recently restated in January 2021 and in November 2022, the Plan was further amended to allow for in-service withdrawals, as well as to allow for prevailing wage employees to receive prevailing wage contributions and update the eligibility and participatory characteristics of prevailing wage employees.

The Plan purchased a portion of Company common shares by issuing a note payable to the Company and holds the stock in a trust established under the Plan. The note is to be repaid over a period of 30 years by fully deductible Company contributions to the Plan. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC code.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service provided they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year. No portion of a participant's prevailing wages account shall be used to purchase employer stock.

Contributions

Each Plan year, discretionary nonelective contributions are determined by the Company's Board of Directors, subject to the rights of the Company to suspend, reduce, or discontinue contributions as provided for in the Plan. Contributions may be made in cash, shares of common stock of the Company or a combination of both. Employee contributions are not permitted.

Payment of Benefits

Distributions on account of death, disability, or retirement are made as soon as administratively feasible following the event beginning not later than one year after the close of the Plan year in which such event occurs. If the total vested value of a participant's account is \$7,000 or less, the distribution shall be made in a lump sum. Distributions of accounts exceeding \$7,000 will be made in substantially equal installments over a period of five years. If the total balance of the participant's accounts exceeds \$1,080,000, the period over which distribution is to occur may be increased by one year, up to five additional years, for each \$215,000 (or fraction thereof).

Distributions for terminations for reasons other than death, disability, or retirements commence in the fifth Plan year following the separation from service and are made in five annual installments if the vested value exceeds \$7,000, or in the Plan year following the event if the vested value is \$7,000 or less. The amount to be distributed is based upon the value of the account as of the appropriate valuation date, as defined in the Plan. Distributions are made in cash or, in the form of Company common stock plus cash for any fractional share of common stock, or a combination of each. The distribution policy is determinable by the Board of Directors, who has the capacity to change the current distribution policy from time to time as determined.

Administrative Expenses

As provided in the Plan agreement, administrative expenses will be paid by the Trust, however, the Company may elect to pay such expenses directly. The Company shall pay all expenses in connection with the design, establishment or termination of the Plan.

CSG Consultants, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Voting Rights

All Company stock to be held by the Trust will be voted by the Trustee in accordance with instructions from the Plan Committee; however, participants are entitled to direct the Trustee as to the voting of any voting shares of stock allocated to their account with respect to any vote required for the approval or disapproval of any corporate merger, recapitalization, liquidation, dissolution, sale of substantially all of the assets of a trade or business, or other similar transaction. In accordance with instructions from the Plan Committee, the Trustee shall vote any unallocated shares held by the Trust as well as any allocated shares for which a Participant has failed to give timely voting direction.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of the Company's discretionary contributions and, on the last day of each plan year, an allocation of the Company's common stock shares released from the unallocated account, as well as forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated, as defined in the plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

Vesting

If a participant's employment with the Company is terminated for any reason other than retirement, permanent disability, or death, vesting in their contributions is based on years of continuous service. A participant is 20% vested after two years of credited service and continues to vest in increments of 20% until 100% vested after six years of credited service.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least 10 years (a "Qualified Participant"). During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of their investment in Company common stock, less any shares previously diversified, and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth and subsequent years, the percentage amount that can be withdrawn increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total compensation for the Plan year. During the year ended December 31, 2024, the Plan reallocated 5,571 shares of Company common stock valued at \$36,434, forfeited by terminated participants, to remaining participants in the Plan. There were no forfeited nonvested accounts to be allocated to participants in future years as of December 31, 2024 and 2023.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

CSG Consultants, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets (deficit) available for benefits.

3. Party-In-Interest Transactions

The Company is obligated to make contributions in cash to the Plan which at least equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its note payable to the Company. During the year ended December 31, 2024, the Company made a contribution of \$3,249,591 to the Plan.

Certain Plan investments are managed by Charles Schwab Bank. Any purchases and sales of these funds are performed in the open market at fair value. These are related party and party-in-interest transactions. As described in Note 1, the Company may pay certain plan expenses. The Plan has a number of service providers. Such parties are parties in interest under ERISA.

4. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. In the event of Plan termination, participants will become 100% vested in their accounts including employer contributions. Upon termination of the Plan, the Plan Administrator shall direct the Trustee to pay all liabilities and expenses of the Plan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by Plan terms and the IRC.

Notes to Financial Statements
December 31, 2024 and 2023

5. Company Common Stock

The allocation of the Plan's common stock in CSG Consultants, Inc. between allocated and unallocated shares at December 31, 2024 and 2023, is as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	420,550	557,700	377,891	600,359
Cost	\$20,636,150	\$27,363,850	\$18,543,062	\$29,456,938
Estimated fair value	\$ 2,750,402	\$ 3,647,353	\$ 7,531,360	\$11,965,162

6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

CSG Consultants, Inc. Common Stock: Valued at the estimated fair value based on an independent appraisal. This appraisal was based upon a combination of the discounted cash flow and guideline public company methods. In applying the discounted cash flow methodology, the appraiser considered projected cash flow and net income, EBITDA, return on assets, return on equity, market comparable, and estimated fair value of Company assets and liabilities. The stock is included in the fair value table below as a Level 3 asset.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Money Market Funds: Valued at the quoted net asset value of shares held by the Plan at year-end.

7. Tax Status

The IRS has determined and informed the Company by a letter dated October 17, 2019, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving this letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Purchase of Company Stock and Related Party Transactions

In December 2022, the majority shareowners sold the Company's 987,250 issued shares of common stock to the ESOP Trust for a total purchase price of approximately \$48,000,000. The purchase was financed with a cash payment of \$13,873,437 and \$34,126,563 from a note payable between the Plan and the Company ("ESOP Note"). Unallocated shares are collateral for the loan. The ESOP Note bears interest at 4.34% and is scheduled to mature in December 2051, with no prepayment penalty if paid in advance. The amount owed under the ESOP Note is \$26,595,780 and \$28,417,295 as of December 31, 2024 and 2023, respectively.

Future estimated minimum loan principal payments for the two loans are as follows for the year ending December 31, 2024:

2025	\$ 888,560
2026	939,132
2027	979,891
2028	1,022,418
2029	1,066,791
Thereafter	21,698,988
	<u>\$ 26,595,780</u>

9. Administration of Plan Assets

The Plan's assets, which consist principally of Company common stock, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. As provided by the Plan agreement, all administrative expenses will be paid by the Company if not paid from Trust assets. To date, the Company has paid all expenses to establish and maintain the Plan.

10. Subsequent Events

The Plan evaluated subsequent events through October 13, 2025, the date on which the accompanying financial statements were available to be issued, and has determined that there are no additional subsequent events that occurred requiring adjustment to or disclosure in the financial statements.
