Report of Independent Auditors

To the Administrator of Johnson & Johnson Health and Welfare Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Johnson & Johnson Health and Welfare Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for plan benefits and of plan benefit obligations as of December 31, 2024 and the related statements of changes in net assets available for plan benefits and of changes in plan benefit obligations for the year ended December 31, 2024, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Health and Welfare Plan

Notes to Financial Statements

1. The Plan, Contributions and Benefits

The Plan, Benefits & Contributions

The following description of the Johnson & Johnson Health and Welfare Plan (the “Plan”) provides only general information about the Plan’s provisions. Participants should refer to the Plan document for a more complete description of the Plan’s provisions and benefits.

Description of the Plan

The Plan is subject to the provisions of the Employee Retirement Security Act of 1974, as amended (ERISA).

The Plan was established on January 1, 2024. Effective as of that date, the following legacy component plans were merged into the Plan:

	Total Amount Transferred In	
	Net Assets	Benefit Obligations
J&J Medical Benefits Plan for Salaried Employees	\$ 85,819,006	\$ 1,480,510,478
J&J Voluntary Employee Benefit Association Group Life Plan for Salaried Employees	518,563	-
J&J Voluntary Employee Benefit Association Group Accident Plan for Salaried Employees	2,600,815	-
J&J Long Term Disability Plan for Salaried Employees	34,890,893	14,470,000
	<u>\$ 123,829,277</u>	<u>\$ 1,494,980,478</u>

Participants in the legacy component plans will remain in the Plan under the respective legacy plan (subject to eligibility and other Plan terms, as in effect from time to time).

Employees are eligible to participate in the Plan on their first day of work, as described below. To be eligible to participate in the Plan (Health Benefits), retirees must retire directly from active employment (or disability) after reaching age 55, must have at least 10 years of pension credited service and must have been eligible for active medical plan benefits immediately prior to the date of retirement.

The Plan’s investments are held in the Johnson & Johnson Voluntary Employee Benefit Trust Fund (the “VEBA Trust”) and the Johnson & Johnson Group Life Benefit Trust (the “Group Trust”), (the “Trust” or “Trusts”). State Street Bank and Trust Company (“State Street”) and Bank of America, respectively, are the Trustees of the Trusts.

The Plan is administered by the Pension & Benefits Committee (the “Plan Administrator”) of Johnson & Johnson.

Health Benefits

The Plan provides health benefits (hospital, surgical, major medical, prescription drug, vision and dental) to participating U.S. employees (excluding employees located in Puerto Rico or Certain Retirees/Disabled Union Represented Employees) of Johnson & Johnson and its affiliated companies (the “Company” or “J&J”) who are full-time or qualified part-time employees, certain hourly employees and certain retirees. The Plan is a cafeteria plan allowing employees and retirees to select from various levels of coverage. Certain HMO programs, which employees can elect, provide fully insured health benefits. For those fully insured programs, the Plan has no obligation for benefits covered by the arrangement other than the payment of premiums due to the insurance company.

Employee contributions are based upon the cost of the coverage option selected. Employer contributions are premium or claim payments to the insurance companies in excess of employee contributions. Employee cost of coverage is based on the level of coverage selected, optional dependent coverage and salary level, if applicable, of the participant. The retiree contribution structure includes both in cost-sharing and level of future Company subsidy increase – for future

Notes to Financial Statements

Salaried/Non-Union retirees not eligible to retire (i.e. age 55 with 10 years of service) as of January 1, 2016. All other retiree contributions are governed by various formulas in place prior to this change.

Long Term Disability Benefits

The Plan provides monthly benefits to disabled participants equal to 60% of their basic monthly earnings at the time of disability subject to a maximum benefit of the Internal Revenue Service ("IRS") maximum of \$345,000, reduced by other disability income including primary Social Security and Workers' Compensation. The Plan covers salaried employees of the Company who are full time or qualified part time employees and certain hourly employees. Benefits begin on the later of 26 weeks following disability or the cessation of benefits under the Company's short-term disability plan. The Plan's service providers determine eligibility and continued eligibility to receive benefits.

Employee contributions are based on rates of monthly earnings as specified in the Plan document. Employer contributions are premium or claim payments to the insurance companies in excess of employee contributions.

Life Insurance Benefits

The Plan provides additional life insurance benefits to salaried employees of the Company who are full-time or qualified part-time employees and certain hourly employees. These benefits are in addition to basic life insurance benefits that are fully funded by the Company.

Employee contributions are based upon salary level, age, optional dependent coverage, and benefits chosen. Employer contributions represent contributions from the Company when employees' contributions are not sufficient to pay premiums to the insurance company.

Accident Benefits

The Plan provides accidental death and dismemberment benefits to salaried employees of the Company who are full-time or qualified part-time employees and certain hourly employees.

Employee contributions are based upon salary level, age, optional dependent coverage, and benefits chosen. Employer contributions represent contributions from the Company when employees' contributions are not sufficient to pay premiums to the insurance company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Employee Contribution Receivables

These amounts represent employee contributions withheld and remitted by the Company but not yet remitted to the Trusts or providers.

Investment Valuation and Income Recognition of the Trust(s)

The Plan's interest in the Trusts are stated at fair value.

The Trusts invest in varying assets such as temporary investments (cash and short-term investments).

The VEBA Trust also invests in Common Collective Trusts ("CCT"). The Plan's balance is reported in units of participation, which allows for immediate transfer in and out of the Trust. The purchase or redemption price of the units is determined by State Street ("Trustee"), based on the current fair

Johnson & Johnson

Health and Welfare Plan

Notes to Financial Statements

value of the underlying investments. The Trust's net asset value for a single unit is computed by adding the value of the investments, cash and other assets, and subtracting liabilities, then dividing the result by the number of units outstanding.

Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on the sale of investment securities are determined on the average cost method. Dividend income is recorded on the ex-dividend date. Interest income and administrative expenses are recorded on an accrual basis.

The Plan presents, in the Statement of Changes in Net Assets Available for Plan Benefits, the investment income for the Plan's interest in each Trust which consists of the Plan's unrealized appreciation and depreciation of the underlying investments, realized gains and losses on sales of investments and investment income.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America require the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent asset and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The actuarial present value of benefit obligations are reported based on certain assumptions pertaining to interest rates, inflation rates, employee compensation and demographics. Due to the changing nature of these assumptions, it is possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Trusts invest in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in risks could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

Payment of Benefits

Benefit payments are recorded upon distribution.

3. Plan Benefit Obligations

Current Payable Benefit Obligation

Health claims incurred by retired participants but not reported at year end are included in the postretirement benefit obligations in the Statement of Plan Benefit Obligations.

Plan obligations at December 31, 2024 for health claims incurred by active participants but not reported at that date are estimated by the Plan's actuary in accordance with accepted actuarial principles. Such estimated amounts are reported in the accompanying Statement of Plan Benefit Obligations.

The actuarial cost method used to calculate the long-term disability benefit is the term cost method. Under this method, the annual cost is assumed to be equal to the incurred liability that is expected to arise due to disabilities over the next year.

Johnson & Johnson

Health and Welfare Plan

Notes to Financial Statements

Long-term disability benefits have been calculated by an actuary. The more significant assumptions underlying the actuarial computations are as follows:

- Discount Rate: 4.76% for 2024
- Disability: A sliding scale increasing with age, based upon past history of the Plan
- Mortality and Termination after disabilities: For 2024: 2008 Group Long Term Disability Table

Postretirement Benefit Obligation

The postretirement medical benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employee service rendered to December 31, 2024. Postretirement medical benefits include future medical benefits expected to be paid to or for (1) currently retired or terminated employees and their beneficiaries and dependents, and (2) active employees and their beneficiaries and dependents after retirement from service with the Company. Prior to an active employee's full eligibility date, the postretirement medical benefit obligation is the portion of the expected postretirement medical benefit obligation that is attributed to that employee's service rendered to the valuation date. The Plan's postretirement medical benefit obligations are funded by contributions to the Plan.

The actuarial present value of the expected postretirement medical benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims cost per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The Plan's postretirement medical benefit obligation does not reflect an amount associated with the Medicare subsidy allowed under the Medicare Prescription Drug Improvement and Modernization Act of 2003 because the Plan is not directly entitled to the Medicare subsidy. The Company has included the effects of the Medicare subsidy in measuring its postretirement medical benefit obligation; therefore, the Plan's postretirement medical benefit obligation differs from that of the Company.

Health care cost trends are projected at annual rates, for participants Pre-65, grading from 7.2% Medical / Rx to 4.0% Medical / Rx by the year 2048, Post-65 (non-Medicare Advantage) grading from 8.6% Medical / Rx to 4.0%, by the year 2048, and Medicare Advantage grading from 9.6% Medical/Rx to 4.0% by the year 2034. The effect of a 1% annual increase in these assumed cost trend rates would increase the postretirement medical benefit obligation as of December 31, 2024, by approximately \$184,904,045.

The following were the other significant assumptions used in the valuations as of December 31, 2024:

- Weighted-average discount rate: 5.68% - 2024
- Average retirement age: Assumed to occur at stratified rates between ages 55 and 71
- Mortality: The Pri-2012 mortality table with separate annuitant and non-annuitant rates, with white collar adjustments, and with generational mortality improvements based on the Mercer developed Scale MMP-2021 for the December 31, 2024 valuations.
- Post Retirement Medical + Other

The foregoing assumptions are based on the presumption that the Plan will continue. Were the

Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement medical benefit obligation.

Fair Value Measurements

The Plan's valuation methodologies were applied to all of the Trusts' investments carried at fair value. Fair value is based upon quoted market prices, where available. If listed prices or quotes are not available, fair value is based upon models that primarily use, as inputs, market-based or independently sourced market parameters, including yield curves, interest rates, volatilities, equity or debt prices, foreign exchange rates and credit curves.

While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Valuation Hierarchy

FASB Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Quoted prices in active markets for identical assets and liabilities.
- Level 2 – Significant other observable inputs.
- Level 3 – Significant unobservable inputs.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for the investments measured at fair value:

- Short-term investment funds – Cash and quoted short-term instruments which are valued at the closing price or the amount held on deposit by the custodian bank where quoted prices are available in an active market and are classified as Level 1. Other investments are through investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in a market that is not active and classified as Level 2.
- Common Collective Trust(s) (CCTs) – The fair value of all CCT interests have been determined using NAV as a practical expedient. The NAV is based on the value of the underlying assets owned by the funds, minus its liabilities, and then divided by the number of shares outstanding. The CCTs are included in Investments measured at Net Asset Value. All of the CCTs are used for liquidity purposes for the Plan within the Trust(s). The CCTs are 100% invested in passive, fixed income funds that provide daily liquidity with 2-day prior notice for Plan Sponsor transactions. There are no unfunded commitments for any of the CCTs that the Trust(s) invests in.

5. Information Certified by Trustee

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information regarding the investments in the Trusts and the Plan's interest in the Trusts investment income presented in the accompanying financial statements was obtained by the Company and agreed to or derived from the information certified as complete and accurate by the Trustees.

6. Administrative Expenses

Administrative costs incurred by the Plan were for processing claims by independent service providers, trustee and investment management fees and various other consulting or advisory expenses. The Company pays all other administrative costs other than those specified above.

7. Tax Status

The Trusts funding certain benefits of the Plan obtained exemption letters from the Internal Revenue Service ("IRS") on June 30, 1989 for the VEBA Trust and August 16, 1994 for the Group Trust, stating that the Trusts are tax-exempt under the applicable requirements of the Internal Revenue Code ("IRC"). In addition, the Plan and the Trusts are required to operate in conformity with the IRC to maintain the tax-exempt status of the Trusts. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Trusts, as amended, are exempt from income taxes, other than unrelated business income tax, if any.

The Trusts may be subject to unrelated business income tax from time to time. No federal or state income taxes have been recorded in 2024 for unrelated business taxable income.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has concluded that as of December 31, 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. General Termination Priorities

Although it has not expressed an intent to do so, the Company has the right under the Plan to modify the benefits provided to, and contributions required of, participants, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination of the Plan, remaining assets would be distributed among its participants or their beneficiaries in the order and manner prescribed by ERISA. No assets of the Plan may revert to the Company or be used for purposes other than for the exclusive benefit of the Plan's participants.

9. Related Party Transactions

State Street manages the VEBA Trust's investment in short-term investment funds and CCTs and therefore, these transactions qualify as party-in-interest transactions. The total market value of these investments as of December 31, 2024 was, \$63,348,467.

10. Subsequent Events

Pursuant to an agreement executed on February 14, 2025, assets and obligations related to certain long term disability claims have been transferred to a group insurance contract issued by a third-party insurer. The value of assets and obligations transferred to the insurer was \$13,500,000.

The Plan has assessed subsequent events through August 14, 2025, the date the financial statements were available to be issued, and other than the above, has determined that no additional items require disclosure.
