Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **CLARK, SCHAEFER, HACKETT & CO.**

(2) EIN: **31-0800053**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒

Independent Auditor's Report

To the Plan Administrator and Participants of Visteon Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements

We have performed an audit of the financial statements of Visteon Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year ended December 31, 2023, and the related notes to the financial statements (2024 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of Visteon Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024, and for the year then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2024 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section:

- The amounts and disclosures in the accompanying 2024 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of Visteon Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the 2024 financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the 2024 financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Visteon Pension Plan's ability to continue as a going concern for one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the 2024 financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Visteon Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Visteon Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2024 financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—2024 Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter—Auditor's Report on the 2023 Financial Statements

Predecessor auditors performed an audit of the 2023 financial statements of Visteon Pension Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 14, 2024 indicated that (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the united states of america, and (b) the information in the 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2023 supplemental schedule, other than the information in the 2023 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2023 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

Percent married	<u>Corporate Salaried</u> – 91% of males and 50% of females are assumed to be married <u>Systems Salaried and Hourly</u> – 80% of males and 80% of females are assumed to be married Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement
Spouse age	A female spouse is assumed to be four years younger than her husband. A male spouse is assumed to be four years older than his wife.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Visteon regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Visteon and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

Visteon, through its third-party administrator, furnished participant data as of January 1, 2024. Information on assets, contributions, and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations

Assumptions Rationale - Significant Economic Assumptions

Discount Rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash balance account interest crediting rate

The plan credits interest to cash balance accounts using the 30-year Treasury rate from the preceding August. The plan sponsor has selected an assumption that represents the current year rate initially and increases in future years based on expected changes in 30-year Treasury rates per the WTW October 1, 2023 Capital Market Assumptions.

Lump sum conversion rate

As required by IRC 430, lump sums are valued by converting annuities using the current IRC 430 interest rates, so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates differ by age and service because of observed differences in termination rates by age and service.
Retirement	Assumed retirement rates differ by age because of observed differences in retirement rates by age.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	• The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. • The mortality table used to calculate the funding target was updated to reflect the latest mortality and improvement scale, as required by guidance issued by IRS under IRC §430 and was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430. • The cash balance interest crediting rate has been changed to 4.28% in year one (actual rate; 30-year Treasury from preceding August) increasing 50 basis points over next 30 years. 50 basis point increase based on expected increase in 30-year Treasury from initial conditions to normative nominal level in WTW October 1, 2023 Capital Market Assumptions.

Independent Auditor's Report

To the Plan Administrator and Participants of Visteon Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements

We have performed an audit of the financial statements of Visteon Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year ended December 31, 2023, and the related notes to the financial statements (2024 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of Visteon Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024, and for the year then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2024 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section:

- The amounts and disclosures in the accompanying 2024 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of Visteon Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the 2024 financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the 2024 financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Visteon Pension Plan's ability to continue as a going concern for one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the 2024 financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Visteon Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Visteon Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2024 financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—2024 Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter—Auditor's Report on the 2023 Financial Statements

Predecessor auditors performed an audit of the 2023 financial statements of Visteon Pension Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 14, 2024 indicated that (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the united states of america, and (b) the information in the 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2023 supplemental schedule, other than the information in the 2023 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2023 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

Visteon Pension Plan

Notes to the Financial Statements

1. Description of Plan

The following description of the Visteon Pension Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan established effective July 1, 2000, as restated January 1, 2020. The Plan covered eligible employees of Visteon Corporation (the Company), but excludes leased employees, nonresident aliens, independent contractors, and employees covered by another private retirement plan and employees of the participating employer, Visteon Global Technologies who had completed 1 year and were age 21 or older. Participation in the contributory and noncontributory benefit feature in the Plan was closed to employees hired on or after January 1, 2002. Employees hired by certain participating employers and hire on or after January 1, 2002 were eligible to participate in the BalancePlus feature of the Plan. Participation in BalancePlus began on the date of hire for full-time employees. Participation in the Plan was frozen to new participants as of January 1, 2012.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Investment Committee is responsible for oversight of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met in 2024 and 2023.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Pension Benefits

Noncontributory benefits are determined by a fixed dollar benefit level multiplied by the number of years of noncontributory credited service in the Plan. Contributory benefits are determined using a final average pay formula based on contributory credited service in the Plan. The noncontributory and contributory services were frozen as of June 30, 2006 and the final average pay was frozen as of that date.

Visteon Pension Plan

Notes to the Financial Statements

Early retirement supplemental benefits are determined by a fixed benefit rate and credited service. BalancePlus benefits are determined based on the greater of the cash balance account or the pension equity account. Early retirement supplemental benefits are no longer paid for new retirements if the plan participant terminates employment after June 30, 2006.

The cash balance account is based on a hypothetical account which grows with 4% pay credits and interest credits based on the 30-year U.S. Treasury rate. The pension equity account is based on a hypothetical account at age 65 equal to 12.5% of a participant's final average monthly salary, multiplied by the participant's years of credited service, and is reduced for commencement prior to age 65. The monthly benefit is derived using the 30-year U.S. Treasury rate and a mortality table specified by the Internal Revenue Service.

Plan participants are entitled to their plan benefits after terminating employment with vested rights. Benefits are payable in the form of a monthly annuity payable for their lifetime or, if married, in the form of a qualified joint or survivor annuity. A participant who is married may elect a reduced monthly benefit payable during his or her life and, upon his or her death, the participant's surviving spouse will receive 75% of the participant's reduced monthly non-contributory and (if applicable) contributory benefit. Benefits may commence earlier than the retirement age of 65, provided certain eligibility requirements are satisfied. Early retirement supplemental benefits are payable to one month beyond age 62. Vested participants may receive benefits from BalancePlus immediately after termination of employment unless the participant defers benefits until a later date.

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled. Employees eligible for disability benefits prior to June 1, 2007 continued to accrue pay and interest credits under the Plan's cash balance formula. Participation in, and all benefit accruals, including future salary increases, of, the Plan have been frozen.

Effective January 1, 2013, the Plan adopted a lump sum payment option available for participants who terminated service after July 31, 2012 and commence benefits after December 31, 2012 without respect to retirement eligibility. Immediate annuity options are also provided as required to accompany a lump-sum option.

Visteon Pension Plan

Notes to the Financial Statements

Effective August 1, 2024, the plan adopted a new, limited-time lump sum payment program for employees who terminated service prior to August 1, 2012, had not attained age 72 by December 31, 2024, and had not yet commenced benefit payments as of December 1, 2024. The amendment provided participants an opportunity to elect a lump sum distribution. The election period for the lump sum benefit was from October 21, 2024 through November 22, 2024. The lump sum benefits were calculated using the actuarial tables used to determine the actuarial present value of accumulated benefits.

No person can become a participant of the Plan on or after January 1, 2012, and no participant will accrue contribution credits, nor will salary earned after the effective date be considered under the Plan. Interest credits will continue to be earned on any balances accrued as of the effective date.

Vesting

Participants become fully vested at normal retirement age (65) or after attaining three years of service with Visteon, if terminated after January 1, 2008; prior to this date, the vesting requirement was five years. Contributing participants are immediately vesting in their contributions regardless of length of service or age.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Notes to the Financial Statements

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

Reclassifications

Certain items in the prior year financial statements have been reclassified to conform to current year presentation. These reclassifications had no effect on the previously reported changes in net assets available for benefits and net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those amounts.

Subsequent Events

Subsequent events were evaluated through October 15, 2025, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, there would be no material differences. The significant actuarial assumptions used in the valuation were:

Assumption	December 31, 2023
Discount rate	5.16%
Mortality table	Pri-2012 mortality tables with collar adjustments projected generationally using Scale MP-2020
Retirement age	Rates varying from 4.50% at age 55 to 100% at age 75
Administrative expenses	Equal to the actual expenses in the prior year plus estimated current year PBGC premiums
Form of payment	Varies depending on location and wage structure, primarily 87.5% of married participants electing a joint and survivor with single participants electing a life annuity

The discount rate assumption decreased from 5.51% in 2023 to 5.16% in 2024. All other significant assumptions are consistent with those used in the prior year's valuation.

Visteon Pension Plan

Notes to the Financial Statements

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

Interest-bearing cash: These investments are stated at cost, which approximates fair value.

Notes to the Financial Statements

Mutual fund: Valued at the daily closing price as reported by the fund. The mutual fund held by the Plan is an open-end mutual fund that is registered with the U.S Securities and Exchange Commission. This fund is required to publish its daily net asset value (NAV) and to transact at that price. The mutual fund held by the Plan is deemed to be actively traded.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Liability driven investments: Valued using pricing models maximizing the use of observable inputs for similar securities.

Investments measured at net asset value: Consisting of common collective trust funds, limited partnerships, and hedge funds, valued at the net asset value (NAV) of units of a bank collective trusts, partnerships, or hedge funds. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the investments measured at net asset value, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Assets at Fair Value as of December 31, 2024	Level 1	Level 2	Level 3	Assets at NAV	Total

5. Information Certified by a Qualified Institution

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, Northern Trust Company, a qualified institution, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, and the supplemental schedule of assets (held at end of year) as of December 31, 2024, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2024 and 2023.

6. Related-Party and Party In Interest Transactions

The Plan's investments are administered under a contract with Northern Trust Company, the qualified institution of the Plan. Contributions are held and managed by Northern Trust Company, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All other nonvested benefits.

Visteon Pension Plan

Notes to the Financial Statements

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8. Tax Status

The IRS has determined and informed the Company by a letter dated August 17, 2021, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Schedule SB, Part V Summary of Plan Provisions

Visteon Pension Plan

Effective Date The plan as restated January 1, 2020 and amended through end of 2021

The Systems Salaried Pension Plan merged into the Visteon Pension Plan on June 1, 2008, the North Penn Pension Plan merged into the Visteon Pension Plan on December 31, 2008, the UAW Visteon Pension Account Plan merged into the Visteon Pension Plan on December 31, 2012, and the Connersville Bedford Pension Plan merged into the Visteon Pension Plan on March 31, 2014. The following summarizes the benefits for the six benefit structures in the merged Visteon Pension Plan:

- Corporate Salaried employees
- Former Systems Salaried employees (all Systems locations are closed)
- North Penn Hourly employees (closed location)
- UAW Hourly employees (closed location)
- Connersville Hourly employees (closed location)
- Bedford Hourly employees (closed location)

Consequently, the Visteon Pension Plan has seven different benefit structures contained in its plan provisions, a "Traditional" structure for Corporate Salaried employees hired before January 1, 2002, a "BalancePlus" structure for Corporate and Systems Salaried employees hired after January 1, 2002, a Systems Salaried benefit structure for Systems Salaried employees hired before January 1, 2002, a North Penn Hourly benefit structure, a UAW hourly benefit structure, a Connersville Hourly benefit structure, and a Bedford Hourly benefit structure.

Effective October 2011, it was announced that the Visteon Pension Plan would be frozen on December 31, 2011. Participants cease to accrue additional cash balance pay credits and traditional benefit final average earnings increases; however, participants continue to accrue cash balance interest credits and vesting and eligibility service.

In the fall of 2012, there was a limited time program called the Visteon Pension Accelerated Payment Program. Under this program, terminated vested participants who had not commenced their benefit as of the program start date were offered a lump sum or immediate annuity as of December 1, 2012. Alternatively, participants could take no action under the program and would still be entitled to their annuity benefit upon attainment of retirement eligibility.

SCHEDULE SB ATTACHMENTS

In the fall of 2013, there was another limited time Visteon Pension Accelerated Payment Program. This program was similar to the 2012 program, but was offered to terminated vested participants whose benefits could not be readily calculated without manual intervention during the 2012 program or participants who were eligible for the 2012 program but whose election materials were returned by the United States Postal Service as undeliverable. Under the 2013 program, terminated vested participants who had not commenced their benefit as of the program start date were offered a lump sum or immediate annuity as of December 1, 2013. Alternatively, participants could take no action under the program and would still be entitled to their annuity benefit upon attainment of retirement eligibility.

In July 2014, most of the North Penn, Connersville, and Bedford hourly retirees and in-payment beneficiaries' benefits were settled through the purchase of an annuity contract. Assets and liabilities for the affected participants and beneficiaries were transferred to Prudential effective October 1, 2014.

In the fall of 2016, an Early Retirement Window was offered to active participants in the Corporate Salaried, Systems Salaried and BalancePlus benefit structures that met certain age and service requirements. These participants received Special Early Retirement benefits as provided under the Corporate Salaried and Systems Salaried benefit structures, as well as a \$50,000 addition to the Cash Balance accounts for Corporate Salaried and BalancePlus participants. Additionally, 14 non-highly compensated employees received a contribution credit of 2% of December 31, 2016 base salary to their Cash Balance accounts with applicable interest credits.

In January 2020 the required minimum distribution age changed to age 72.

In November 2020, retirees and in-payment beneficiaries in all subplans with monthly benefits less than or equal to \$250 who were in-payment as of January 1, 2020 were settled through the purchase of an annuity contract. Assets and liabilities for the affected participants and beneficiaries were transferred to Pacific Life for payments commencing January 1, 2021. Participants and beneficiaries were excluded if their benefit was impacted by a QDRO, they were disabled retirees who had not yet reached age 55, they resided in New York, their benefit was payable through the Axa Equitable arrangement, or they had a benefit in-payment in one subplan and a deferred benefit in another subplan.

Plan Provisions : Corporate Salaried employees (regardless of date of hire) and Systems Salaried employees hired after January 1, 2002

Background

Visteon was obligated to hold assets for benefits earned prior to July 1, 2000 by Group III employees in a separate dedicated trust for five years. As a result, the liabilities and assets for these employees were legally considered a separate plan and were referred to as the Visteon Pension Plan - Past Service Plan. Liabilities for benefits earned after July 1, 2000 and related assets, along with the BalancePlus Program were referred to as the Visteon Pension Plan - Future Service Plan. As of July 1, 2005 the future service trust was merged into the past service trust and took the common name of Visteon Pension Plan.

The Traditional structure plan provisions are in effect for Visteon Corporate salaried employees hired before 2002 and automatically provide each eligible participant a noncontributory benefit. The noncontributory benefit is a function of service and a dollar amount that varies over time. These same employees eligible to voluntarily contribute a portion of their pay through June 30, 2006 and be provided with a benefit related to service while contributing and their final average earnings. Credited Service under the Traditional Structure is frozen as of June 30, 2006. However, final average earnings continued to recognize future changes in base pay through December 31, 2011 if the participant was a contributing member on that date. All accruals for benefits between June 30, 2006 and December 31, 2011 are based upon the amended cash balance structure.

The BalancePlus structure plan provisions are in effect for Visteon and Systems salaried employees hired after 2001. The benefits provided under this structure are the greater of a cash balance account benefit and a pension equity account benefit. Credited Service used in the pension equity account benefit was frozen on July 1, 2006, however Final Average Pay continued to recognize future changes through December 31, 2011.

Effective July 1, 2006 and through December 31, 2011, participants of the Traditional and the BalancePlus structures accrued benefits under the cash balance formula only.

Effective January 1, 2013, Corporate Salaried participants who terminated on or after August 1, 2012 will be eligible for a total lump sum optional form of payment under all structures of the Plan (if has vested benefit).

The interest crediting rate is the 30-year Treasury rate for the fifth month (August) immediately preceding the first day of the plan year for which the interest credit is being made.

The actuarial equivalence used to convert the cash balance account into an annuity is based on the applicable interest rates and mortality under 417 (e)(3). The plan uses rates from the fifth month (August) preceding the first day of the plan year in which the member's annuity starting date occurs.

- Pension Equity Benefit 12.5% of Final Average Monthly Pay for each year of Credited Service earned before July 1, 2006 converted to an actuarially equivalent immediate annuity.

Post-6/30/2006 Benefit The Post-6/30/2006 benefit is based upon a Cash Balance structure identical to the Cash Balance benefit described above for the BalancePlus structure.

Eligibility for Benefits

Normal retirement Retirement on Normal Retirement Date

Early retirement

- Traditional structure Retirement before Normal Retirement Date after either completing 30 years of Credited Service or after both attaining age 55 and completing 10 years of Credited Service.
- BalancePlus structure Any age with at least 3 years of vesting service.

Postponed retirement Retirement after Normal Retirement Date.

Special early retirement

- Traditional structure Age 55, at least 10 years of Credited Service, and termination caused by the conditions specified in the plan document. In some cases, termination between ages 50 and 55 with 10 years of service qualifies the employee for a deferred Special Early Retirement benefit at age 55 and termination between ages 45 and 50 with 10 years of service qualifies the employee for a deferred early retirement benefit.

- BalancePlus structure Benefits are 100% vested upon death regardless of vesting and marital status.

Benefits Paid Upon the Following Events

Normal Retirement Monthly Accrued Benefit

Early retirement

- Traditional structure Monthly Accrued Benefit determined as of early retirement date, with each benefit component reduced for early commencement. Non-contributory benefit, Part A Contributory Benefit, and 0.25% minimum Contributory Benefit are reduced from age 62. Part B contributory benefits are reduced from age 65. The Cash Balance Benefit is actuarially reduced for early commencement.

Representative reduction factors by component are detailed below:

Age at Benefit	Non-contributory	Part A	Part B

(points equal age plus service at retirement), the non-contributory portion of the benefit is recalculated at age 62 and one month to eliminate the reduction factor.

Interim retirement monthly supplement

If a participant retires early, prior to July 1, 2006, (on or after age 55) with less than 30 years of service, and before age 62, a monthly supplemental benefit payable until the earlier of the participant's death and age 62 and one month. If the participant is born between January 1, 1938 and September 14, 1941, the benefit is paid until the participant is eligible for a 20% reduction in their Social Security benefit.

The amount of the monthly supplement is the Interim Supplement Rate (see Benefit Level Appendix varying by age of retirement) multiplied by years of Credited Service.

30 and out early retirement monthly supplement

If a participant terminates prior to July 1, 2006 with 30 years of service and before age 62, a monthly supplemental benefit starting at early retirement date and payable until the earlier of the participant's death and age 62 and one month. If the participant is born between January 1, 1938 and September 14, 1941, the benefit is paid until the participant is eligible for a 20% reduction in their Social Security benefit.

The amount of the monthly supplement is the monthly 30&Out Supplemental Rate (see Benefit Level Appendix), less the monthly Flat Rate (see Benefit Level Appendix) times years of Credited Service reduced for early commencement. This benefit is offset by the temporary monthly early retirement benefit if a participant is receiving both benefits.

UAW Pension Plan

The UAW Visteon Pension Account Plan merged into the Visteon Pension Plan on December 31, 2012.

The plan originally adopted June 29, 2000 as a flat dollar per month plan with supplemental benefits was redesigned effective May 4, 2004 as a cash balance plan. All participants under the old benefit structure were assumed to terminate as of December 22, 2003 and were automatically vested in their accrued benefit. The liabilities (and corresponding assets) associated with most of these participants were spun-off to Ford. 103 "Former Participants" with liabilities under the old benefit structure remained.

We have assumed that those Former Participants that were not rehired received an automatic cash out from the plan during 2005. Those Former Participants that were rehired began accruing benefits under the new cash balance plan structure starting as of the later of May 4, 2004 and their date of rehire. The liability associated with the vested accrued benefit under the old plan structure remains a liability of the plan for these rehires.

Only the plan provisions associated with the new cash balance design are detailed below.

Covered Employees

Visteon U.S. employees that are members of the United Automobile, Aerospace, Agricultural Implement Workers of America, UAW and hired on or after May 4, 2004.

"Former Participants" employed by Visteon Corporation during some or all of the period from June 29, 2000 to December 22, 2003 also have a vested benefit obligation under the plan.

Monthly Accrued Benefit	Participant's cash balance account on the determination date projected forward with the applicable interest rate (based on the interest rate in effect at the determination date) to the participant's Normal Retirement Date and converted to an actuarially equivalent age 65 monthly annuity.
Contribution Credits	Contribution is credited at the end of the year and varies based on the participant's Employment Status (Group A, Group B, Group C or Skilled Trades) and Base Wage Rate during the respective pay periods throughout the year. The contribution credit equals the hours worked times the contribution rate. This is equivalent to a contribution credit of 5.4% of pay.
Interest Credits	Interest is credited at the end of the year and is equal to the account at the beginning of the year times the applicable interest rate for the year. The applicable interest rate is the 30-year Treasury rate for the third month (October) immediately preceding the first day of the plan year for which the interest credit is being made.
Actuarial Equivalence	The actuarial equivalence used to convert the cash balance account into an annuity is based on the applicable interest rates and mortality under IRC 417(e)(3). The mortality table is a 50/50 blend of male/female mortality rates from the RP 2000 table with mortality improvements and the applicable interest rates are a 3 segment corporate bond rate basis. The plan uses an October look back month for calculations in the following year.

Eligibility for Benefits

Normal retirement	Retirement on Normal Retirement Date (the participant is treated as fully vested regardless of Vesting Service).
Early retirement or termination	Termination after completing three years of Vesting Service. During 2009 Visteon recognized a partial termination of the plan due to headcount reductions during 2008. These participants were vested in 7.01% of their benefit due to the funded position of the plan at December 31, 2008. Connersville and Bedford Pension Plans

In addition to the covered employees detailed below, there are various closed locations covered under the plan, including former employees of (1) Sierra Electronics, (2) Spring City, (3) Jet Propulsion Lab and (4) Philadelphia Divisions. The plan provisions for these groups have not been described because all of the participants at these locations are now inactive.

Visteon now has two separate benefit structures (Part A structure and Part B structure) that govern the "Bedford/Connersville" Plan. Both the Connersville and Bedford Locations are now closed.

A separate benefit structure was established for Bedford hourly participants hired on or after June 13, 2004. This is a cash balance benefit structure. These provisions are not summarized, as there are no participants with a vested benefit under this structure.

Effective January 1, 2013, Corporate Salaried participants who terminated on or after August 1, 2012 and have a vested benefit due under the Connersville/Bedford Plan will be eligible for a total lump sum optional form of payment.

In the fall of 2013, there was another limited time Visteon Pension Accelerated Payment Program. This program was similar to the 2012 program, but was offered to terminated vested participants whose benefits could not be readily calculated without manual intervention during the 2012 program or participants who were eligible for the 2012 program but whose election materials were returned by the United States Postal Service as undeliverable. Under the 2013 program, terminated vested participants who had not commenced their benefit as of the program start date were offered a lump sum or immediate annuity as of December 1, 2013. Alternatively, participants could take no action under the program and would still be entitled to their annuity benefit upon attainment of retirement eligibility.

In July 2014, most of the Connersville and Bedford retirees and in-payment beneficiaries' benefits were settled through the purchase of an annuity contract. Assets and liabilities for the affected participants and beneficiaries were transferred to Prudential effective October 1, 2014. The remaining Connersville and Bedford participants are still covered by these provisions.
