Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **KATZ, SAPPER, & MILLER LLP**

(2) EIN: **35-1090346**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☒ Yes ☐ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year 0.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) ☒ Yes ☐ No ☐ Not determined

If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year 557400.

Independent Auditor's Report

To the Plan Administrator
Pension Plan for Collectively Bargained Indianapolis Water Employees

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have audited the accompanying financial statements of Pension Plan for Collectively Bargained Indianapolis Water Employees, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets in liquidation available for benefits as of December 31, 2024 and the statement of net assets available for benefits as of December 31, 2023, the statement of changes in net assets in liquidation available for benefits for the year ended December 31, 2024, the statement of changes in net assets available for benefits for the year ended December 31, 2023.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Pension Plan for Collectively Bargained Indianapolis Water Employees' financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pension Plan for Collectively Bargained Indianapolis Water Employees and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pension Plan for Collectively Bargained Indianapolis Water Employees' ability to continue as a going concern within one year after the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pension Plan for Collectively Bargained Indianapolis Water Employees' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pension Plan for Collectively Bargained Indianapolis Water Employees' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Plan Termination and Basis of Accounting

As discussed in Note 1 to the financial statements, on May 15, 2024, the Board of Directors of the Employer approved a resolution to terminate the Plan, effective September 30, 2024. In accordance with accounting principles generally accepted in the United States, the Plan has changed its basis of accounting from the accrual basis used in presenting the 2023 financial statements to the liquidation basis used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024, and schedule of reportable transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

PENSION PLAN FOR COLLECTIVELY BARGAINED INDIANAPOLIS WATER EMPLOYEES

NOTES TO FINANCIAL STATEMENTS December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF PLAN

The following description of Pension Plan for Collectively Bargained Indianapolis Water Employees (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan, originally organized as a defined benefit pension plan effective January 1, 1950, was sponsored by WASCO, LLC (the Employer prior to August 26, 2011) and is currently sponsored by Citizens Energy Group (the Employer since August 26, 2011). The Plan currently covers the production and maintenance employees who are members of the National Conference of Firemen and Oilers, the S.E.I.U. Local 131, and who are designated as Indianapolis Water Employees. Employees are not eligible to participate in the Plan if they were hired after May 12, 2004. Effective December 31, 2003, all benefit accruals under the Plan were frozen. Therefore, all benefit accruals relate to service prior to the date the Employer became the Plan's Sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Benefits Committee of Citizens Energy Group is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors of the Employer.

Plan Termination: On May 15, 2024, the Board of Directors of the Employer approved a resolution to terminate the Plan, with an effective date of September 30, 2024. As a result of the Plan's termination, all Plan participants became 100% vested in their respected account balances.

All Plan assets will be distributed to the respective participants in the form of a lump-sum cash distribution, a rollover into another qualified plan or Individual Retirement Account (IRA), or through the purchase of an annuity contract from an insurance company, in accordance with the Plan agreement.

Funding Policy: The Plan's funding policy was for the Employer to contribute an amount which would meet or exceed the annual ERISA minimum funding requirement. During 2024 and 2023, the Employer made contributions of \$0 and \$381,000, respectively. Contributions to the Plan were made annually by the Employer as calculated by the Plan's independent actuary to fund the Plan's current service costs and to fund the benefits to be paid to Plan participants. At December 31, 2024 and 2023, the Plan had met the ERISA minimum funding requirements.

Vesting: All Plan participants were 100% vested in their account balances due to the Plan's termination.

Payment of Benefits: Prior to the Plan's termination, benefits under the Plan were based on the participant's years of credited service and average compensation. Plan participants could commence benefit payments upon reaching the Plan's normal retirement age. Normal retirement age with respect to a participant who had ceased receiving benefit accruals but had not terminated employment was the latest of age 55, the date when benefit accruals ceased, or December 28, 2010. Normal retirement age with respect to all other participants was the later of age 65 or the 5th anniversary of employment. Participants could also be eligible for early retirement, late retirement, or disability retirement as defined in the Plan Agreement.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Normal retirement benefits were paid monthly commencing on the participant's retirement date and continued throughout his or her lifetime in the form of an annuity or joint and survivor annuity, if married. The accrued benefit was calculated based on years of service, age, and compensation while employed. The monthly benefit of a participant electing early retirement was reduced, as defined in the Plan Agreement, based on the number of months which preceded the participant's normal retirement date. The monthly benefit of a participant electing late retirement was based on the credited years of service at the retirement date. Retirement benefits could also be elected as a lump-sum payment.

Basis of Accounting: Due to the Plan's termination and in accordance with accounting principles generally accepted in the United States of America, the Plan changed its basis of accounting from the accrual basis used in presenting the December 31, 2023 financial statements, to the liquidation basis used in presenting the December 31, 2024 financial statements. Because the effect on the financial statements was not material, the Plan has presented the statement of changes in net assets in liquidation available for benefits using the liquidation basis for the entire year ended December 31, 2024.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the actuarial present value of accumulated Plan benefits and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Benefits Committee of Citizens Energy Group determines the Plan's valuation policies utilizing information provided by the Plan's investment advisor and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits were recorded when paid.

Expenses: Administrative expenses for maintaining the Plan could be paid by the Employer or the Plan, at the Employer's discretion.

Tax Status: The Internal Revenue Service (IRS) has determined and informed the Employer by a letter dated March 30, 2017, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. The Plan's management received a favorable determination letter dated May 5, 2025, from the IRS in response to its submission of Form 5310, *Application for Determination for Terminating Plan*. Therefore, the Plan Administrator believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process.

Subsequent Events: The Plan Administrator has evaluated the financial statements for subsequent events occurring through October 13, 2025, the date the financial statements were available to be issued. See Note 10.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan has categorized its assets and liabilities that are measured at fair value into a three-level fair value hierarchy. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. In situations where there is little or no market activity for the asset or liability, the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Following is a description of the valuation methodologies used by the Plan for assets that are measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Registered Investment Companies (Mutual Funds) and Money Market Fund Shares: Valued at the daily closing price as reported by the funds. These funds are required to publish their daily net asset value (NAV) and to transact at that price. These funds held by the Plan are deemed to be actively traded.

Collective Trust Fund: Valued at the unit price reported by the sponsoring bank. The underlying investments owned by the fund include a diversified portfolio of high quality, short-term instruments of domestic and foreign issues with an overall dollar-weighted average maturity of 60 days or less, and may include other collective trust funds quoted using the unit value of the respective fund. The unit price is based on the fair value of these underlying investments owned, less any accrual of fees and expenses borne by the fund, and divided by the number of units outstanding. The unit price is readily determinable and quoted on the active private market on which participants can transact daily with no redemption restrictions on these investments.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the reporting date.

Following is a summary, within each level of the fair value hierarchy, of the Plan's assets that are measured at fair value on a recurring basis as of December 31, 2024 and 2023:

2024	Level 1	Level 2	Total
Registered investment companies	\$7,126,760	\$ -	\$7,126,760
Money market fund shares	395,446	-	395,446
Collective trust fund	-	285,633	285,633
Total Investments at Fair Value	<u>\$7,522,206</u>	<u>\$285,633</u>	<u>\$7,807,839</u>

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

2023	Level 1	Level 2	Total
Registered investment companies	\$8,233,071	\$ -	\$8,233,071
Collective trust fund	<u>-</u>	<u>29,160</u>	<u>29,160</u>
Total Investments at Fair Value	<u>\$8,233,071</u>	<u>\$ 29,160</u>	<u>\$8,262,231</u>

NOTE 4 - INVESTMENT INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED INFORMATION)

All Plan information related to investments held at December 31, 2024 and 2023, and net appreciation or depreciation in fair value of investments, interest and dividends for the years ended December 31, 2024 and 2023, disclosed in the accompanying financial statements and supplemental schedules was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by Principal Bank, the Plan's trustee, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service Plan participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The Plan's consulting actuary calculates the actuarial present value of accumulated plan benefits by applying actuarial assumptions to adjust the accumulated plan benefits for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits at January 1, 2024, was as follows:

Actuarial Present Value of Accumulated Plan Benefits:

Vested:

Participants currently receiving payments	\$1,316,598
---	-------------

Other participants	<u>5,164,899</u>
	6,481,497

Nonvested	<u>313,114</u>
-----------	----------------

Balance at End of Year	<u>\$6,794,611</u>
------------------------	--------------------

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2024, was as follows:

Actuarial Present Value of Accumulated Plan Benefits at Beginning of Year	<u>\$ 6,644,433</u>
Changes during the year attributed to:	
Benefits paid	(1,184,276)
Interest	394,394
Benefits accumulated and actuarial gains	27,648
Change in actuarial assumptions	<u>912,412</u>
Net Increase (Decrease)	<u>150,178</u>
Actuarial Present Value of Accumulated Plan Benefits at End of Year	<u>\$ 6,794,611</u>

The significant actuarial assumptions used in the valuations as of the beginning of the 2024 Plan year are as follows:

Assumed Rate of Interest:	4.67%
Normal Retirement Age:	Age 65
Mortality Basis:	PRI-2012 separate employee/retiree/ contingent survivor, no collar, generational tables for males and females and projected forward with MP-2021 projection scale

There were no significant changes in the Plan's actuarial assumptions for the year ended January 1, 2024, other than the updating of interest rates and mortality tables in accordance with the Pension Protection Act of 2006 (PPA).

The forgoing actuarial assumptions are based on the presumption that the Plan will continue. The Plan is in the process of being terminated, and therefore different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The actuarial present value of accumulated Plan benefits as of and for the year ended January 1, 2024, do not reflect any changes related to the Plan termination.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan has arrangements with several third-party service providers. The Plan pays certain expenses related to the Plan's operation, administration, and investment activity. The Plan's expenses may be paid directly to the respective service provider or indirectly through the Plan's investments returns. Therefore, these transactions qualify as exempt party-in-interest transactions under ERISA.

The Employer provides certain accounting, administrative, and investment management services to the Plan for which it receives no compensation.

NOTE 7 - PLAN AMENDMENT

On May 15, 2024, the Board of Directors of the Employer approved a resolution to terminate the Plan and approved an amendment to the Plan Agreement on August 19, 2024, to effectuate the Plan's termination provisions effective September 30, 2024. See Note 1.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan's investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Plan contributions and the actuarial present value of benefit obligations are calculated and reported based on certain assumptions pertaining to interest rates and participant demographics, which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in estimates and assumptions in the near term could be material to the Plan's financial statements.

NOTE 9 - FUNDING STATUS

Based on funding regulations required by the Pension Protection Act of 2006, no benefit restrictions were associated with the current Plan year, and the Plan is not considered "At Risk" for the current Plan year, as the number of Plan participants is less than 500 and the Plan's funding target percentage is 138.33%.

NOTE 10 - SUBSEQUENT EVENTS

As a result of the Plan termination, all the Plan's remaining assets are expected to be distributed as applicable to the respective participants and used to pay any related Plan expenses during the 2025 Plan year, at which time the Plan and its related trust will cease to exist.

As part of the Plan's termination process, the Plan Sponsor has filed required forms with the Pension Benefit Guaranty Corporation (PBGC). The Plan Sponsor has received an acknowledgement letter dated March 17, 2025, from the PBGC that it is conducting an audit relating to the Plan's termination and related submission.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions for January 1, 2024 funding valuation**

Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	0	
	Stabilized	Nonstabilized
• First 5 years	4.75%	4.37%
• Next 15 years	4.96%	4.96%
• Over 20 years	5.59%	4.95%
Mortality sponsor elections		
• Healthy and disabled participants	Section 430(h)(3) prescribed separate generational annuitant and non-annuitant mortality tables for 2024 plan year funding valuations. These tables are based on the Pri-2012 mortality tables projected with the IRS-modified MP-2021 mortality improvement scale, in accordance with IRS regulation 1.430(h)(3)-1.	
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.	
Other economic assumptions		
• Salary increases	N/A	
• Flat-dollar benefit increases	N/A	
• Social Security taxable wage base increases	N/A	
• Inflation	N/A	
• Expected investment return	6.03% for 2024, 6.21% for 2023	
• Administrative expenses	\$20,000 added to current year normal cost	

Rationale for select assumptions

- **Discount rate sponsor elections for funding** - Assumption prescribed by IRC Section 430 and relevant regulations based on plan sponsor elections on segment rate and look-back period.
- **Mortality sponsor elections for funding** – Assumptions prescribed by IRC Section 430 and relevant regulations based on plan sponsor elections.
- **417(e) lump sums for funding** – Assumptions prescribed by IRS.
- **Expected investment return for funding** – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published as of January 2024 in Mercer Investment LLC's Capital Markets Outlook for the plan's target asset mix as of January 1, 2024. The expected return on assets assumption is net of an adjustment of 12 bps for investment expenses assumed to be paid from plan assets (dependent on plan size and allocation).
- **Administrative expenses** – Administrative expenses are based on last year actual non-PBGC expenses, plus an estimate of the PBGC premium due for the current year, rounded to the nearest \$10,000.

60	0.450%	0.605%	0.00%

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for demographic assumptions**

- **Withdrawal** – The rates in Table 2 are relatively low which is consistent with the experience of this plan. While the plan is not large enough to perform a credible experience study, actual experience compared to the assumed turnover is monitored each year to ensure the table continues to be a good fit for this assumption.
- **Disability incidence** – While the plan is not large enough to perform a credible experience study, actual experience compared to the assumed disability is monitored each year to ensure these rates continues to be a good fit for this assumption.
- **Retirement age** – The retirement rates were developed as a rounded estimate of actual past experience. While the plan is not large enough to perform a credible experience study, actual experience compared to the assumed retirement rates is monitored each year to ensure the table continues to be a good fit for this assumption.
- **Benefit commencement age** – Deferred vested participants are assumed to start at Normal Retirement Date with an unreduced benefit. Early commencement benefits for deferred vested participants are not subsidized.
- **Spouse assumptions** – This assumption is based on past experience of the plan.
- **Form of payment** – The form of payment assumption is based on past experience of the plan in that it is uncommon for a participant to elect an annuity form of payment.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all participants as of the valuation date.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** Insurance contracts payable under the former AUL plan are excluded from liabilities.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions for January 1, 2024 funding valuation**

Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	0	
	Stabilized	Nonstabilized
• First 5 years	4.75%	4.37%
• Next 15 years	4.96%	4.96%
• Over 20 years	5.59%	4.95%
Mortality sponsor elections		
• Healthy and disabled participants	Section 430(h)(3) prescribed separate generational annuitant and non-annuitant mortality tables for 2024 plan year funding valuations. These tables are based on the Pri-2012 mortality tables projected with the IRS-modified MP-2021 mortality improvement scale, in accordance with IRS regulation 1.430(h)(3)-1.	
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.	
Other economic assumptions		
• Salary increases	N/A	
• Flat-dollar benefit increases	N/A	
• Social Security taxable wage base increases	N/A	
• Inflation	N/A	
• Expected investment return	6.03% for 2024, 6.21% for 2023	
• Administrative expenses	\$20,000 added to current year normal cost	

Rationale for select assumptions

- **Discount rate sponsor elections for funding** - Assumption prescribed by IRC Section 430 and relevant regulations based on plan sponsor elections on segment rate and look-back period.
- **Mortality sponsor elections for funding** – Assumptions prescribed by IRC Section 430 and relevant regulations based on plan sponsor elections.
- **417(e) lump sums for funding** – Assumptions prescribed by IRS.
- **Expected investment return for funding** – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published as of January 2024 in Mercer Investment LLC's Capital Markets Outlook for the plan's target asset mix as of January 1, 2024. The expected return on assets assumption is net of an adjustment of 12 bps for investment expenses assumed to be paid from plan assets (dependent on plan size and allocation).
- **Administrative expenses** – Administrative expenses are based on last year actual non-PBGC expenses, plus an estimate of the PBGC premium due for the current year, rounded to the nearest \$10,000.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for demographic assumptions**

- **Withdrawal** – The rates in Table 2 are relatively low which is consistent with the experience of this plan. While the plan is not large enough to perform a credible experience study, actual experience compared to the assumed turnover is monitored each year to ensure the table continues to be a good fit for this assumption.
- **Disability incidence** – While the plan is not large enough to perform a credible experience study, actual experience compared to the assumed disability is monitored each year to ensure these rates continues to be a good fit for this assumption.
- **Retirement age** – The retirement rates were developed as a rounded estimate of actual past experience. While the plan is not large enough to perform a credible experience study, actual experience compared to the assumed retirement rates is monitored each year to ensure the table continues to be a good fit for this assumption.
- **Benefit commencement age** – Deferred vested participants are assumed to start at Normal Retirement Date with an unreduced benefit. Early commencement benefits for deferred vested participants are not subsidized.
- **Spouse assumptions** – This assumption is based on past experience of the plan.
- **Form of payment** – The form of payment assumption is based on past experience of the plan in that it is uncommon for a participant to elect an annuity form of payment.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all participants as of the valuation date.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** Insurance contracts payable under the former AUL plan are excluded from liabilities.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: January 1, 1950 Restated plan: January 1, 2015 Plan year: Calendar Year
Status of the plan	Employees hired or rehired on or after May 12, 2004 are not eligible to participate in the plan. The plan froze benefit accruals as of September 30, 2011. The plan is also terminated as of September 30, 2024.
Significant events that occurred during the year	The plan was amended to terminate as of September 30, 2024. We are not aware of any other significant events that would impact the results presented in this report.

Definitions

• Covered employees	A person, who is designated on the payroll records of the Employer as an Indianapolis Water Employee, is a member of the P&M union group and receives compensation that the employer initially reports on a federal wage and tax statement.
• Participation	An employee becomes a participant on the January 1 or July 1 after his completion of one year of service. Employees hired or rehired on or after May 12, 2004 are not eligible to participate in the plan.
• Employee contributions	None
• Service	For the period ending December 31, 1975, an employee is credited with Accrual Service and Vesting Service equal to the greater of: - the number of years of continuous service (rounded to the nearest month), or - the number of Plan Years during which he completed at least 1,000 Hours of Service. After December 31, 1975, an employee is credited with one year of Accrual Service and Vesting Service for each Plan Year during which he completes at least 1,000 Hours of Service. If the employee does not complete 1,000 Hours of Service during the first year or the last year of his employment, he will receive 1/12th year of Accrual Service for each calendar month during which he completes at least 83 Hours of Service. Accrual Service is frozen effective September 30, 2011.
• Final average monthly earnings	A participant's average monthly earnings is the average of his Monthly Basic Salary for the 36 consecutive calendar months that produce the highest average. The maximum salary allowable for a calendar year is \$150,000, effective January 1, 1994. This figure is indexed to future inflation increases, rounded down to the next lower \$5,000. Earnings after the plan freeze will not be considered when determining average monthly earnings.
• Accrued benefit	The monthly amount of a participant's accrued benefit is the sum of: 0.85% of the first \$833.00 of average monthly earnings, multiplied by years of Accrual Service up to 20 years; 1.02% of the first \$833.00 of average monthly earnings, multiplied by the next 10 years of Accrual Service; 1.13% of the first \$833.00 of average monthly earnings, multiplied by years of Accrual Service in excess of 30 years; and

Schedule SB, Part V — Summary of Plan Provisions

	1.25% of average monthly earnings in excess of \$833.00, multiplied by total years of Accrual Service (maximum of 50 years). The Accrued Benefit is subject to a minimum benefit of \$20.00 multiplied by years of Accrual Service. In addition, there is a minimum accrued benefit determined pursuant to Part II, Option 3 (formula with extended wear-away), at the Appendix of Revenue Procedure 94-13. Benefits are frozen effective September 30, 2011.
Normal retirement	
• Eligibility	For participants hired before age 60, age 65 For participants hired after age 60, completion of 5 years of Vesting Service
• Benefit	Accrued Benefit
Early retirement	
• Eligibility	Completion of 5 years of Vesting Service on the first day of any month after: - Attaining age 55 and the sum of attained age and years of Vesting Service is at least 70; or - Attained age plus years of Vesting Service total 75 Effective November 1, 2022, participants who remain actively employed after age 59 ½ can elect a distribution of their benefit at any time while continuing employment.
• Benefit	If at least 60 years of age with 30 or more years of Vesting Service, the full Accrued Benefit Otherwise, Accrued Benefit reduced 0.25% for each of the first 120 months and actuarially for each additional month by which Early Retirement Date precedes Normal Retirement Date
Late retirement	
• Eligibility	Retirement after Normal Retirement Date
• Benefit	Accrued Benefit determined as of Late Retirement Date taking into account service and monthly earnings after Normal Retirement Date
Deferred vested	
• Eligibility	Completion of 5 years of Vesting Service
• Benefit	Upon attainment of age 65, the participant will receive the Accrued Benefit. The participant may elect earlier commencement of benefits any time after satisfying the requirements for early retirement (without accumulating any additional Vesting Service), in which case the Accrued Benefit is reduced 1/180th for each of the first 60 months, 1/360th for each of the next 60 months, and actuarially thereafter for each month by which the commencement date precedes Normal Retirement Date.
Disability	
• Eligibility	Totally and permanently disabled after age 50
• Benefit	Accrued Benefit reduced as for early retirement.
Pre-retirement death	
• Eligibility	Surviving spouse of a participant who had completed 5 years of Vesting Service by the date of death

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	If the participant was not yet eligible for early retirement, the benefit is calculated as if terminated employment on date of death, survived to the Earliest Retirement Age, retired with an immediate joint and 50% survivor annuity at the Earliest Retirement Age, and died on the day after the Earliest Retirement Age. If the participant was eligible for early retirement at the time of death, the benefit is calculated as if the participant has retired on the day before the participant's date of death under the joint and 50% survivor option. A special death benefit may also apply to surviving spouses in certain cases.
Form of benefits	
• Automatic form for unmarried participants	Life Annuity
• Automatic form for married participants	Actuarially reduced 50% joint and survivor annuity unless specifically rejected
• Optional forms	• 5 or 10 year certain and life • 100%, 75%, 66 2/3% or 50% joint and survivor • Modified cash refund • Lump-sum option
• Optional form conversion factors	Actuarial Equivalent or Actuarially Equivalent means, as applied to a benefit under the Plan, a benefit having the same actuarially determined value as the benefit that the Actuarial Equivalent replaces. The determination of an Actuarial Equivalent will be based on the following actuarial assumptions below: • Interest Rate - An interest rate of 7% per annum • Mortality — For participants, the Unisex Pension 1984 Mortality table (UP-1984 Table) with ages set forward one half year. This age adjustment is determined by interpolating (straight line) between mortality rates with no age adjustment and mortality rates with ages set forward one year. — For beneficiaries, the Unisex Pension 1984 Mortality Table (UP-1984 Table) with ages set back three and one half years. This setback is determined by interpolating (straight line) between mortality rates with a three-year age setback and mortality rates with a four-year age setback.
• Lump Sum basis	The interest rates are a 3-month average of the 417(e) minimum segment rates for the prior September, October, and November. The mortality table is the 50/50 male/female blend of the combined non-annuitant/annuitant mortality rates prescribed by the IRS.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. As of the freeze date, the limit is \$245,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2015, including amendment #1 effective November 1, 2022, are included in this valuation:

- **Most recent plan amendments included:** The amendment to terminate the plan as of September 30, 2024 under standard IRS plan termination regulations.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include increases for current participants over age 70½. There are no current actives over age 70 ½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increase. There are currently five deferred vested participants over age 65.
- **Benefits excluded:** Special pre-retirement death benefits available to a surviving spouse prior to age 62 under plan document section 7.09 have been excluded due to the low probability of events occurring that would result in the payment of this special death benefit.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** The plan is not top-heavy because it is a collectively bargained plan.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - Plan amendments: See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - Benefit accruals: The plan is frozen.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions**Plan provision changes since prior valuation**

Maximum benefit amounts under IRS rules were updated from 2023 to 2024.

The plan was amended to terminate the plan effective September 30, 2024 under standard IRS plan termination regulations. The plan termination is not reflected in the January 1, 2024 valuation except to the effect that it creates a short plan year (January 1, 2024 to September 30, 2024) for minimum funding purposes. Otherwise an ongoing plan is assumed for valuation purposes.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Interest rates were updated in accordance with PPA to use 2024 rates.
- Mortality rates (including lump sum mortality) were updated in accordance with PPA.
- The expected investment return assumption was updated to 6.03% for 2024 from 6.21% for 2023. This was done to reflect current year expectations based on Mercer Investment LLC's *Capital Market Outlook*.
- The administrative expense load decreased from \$50,000 to \$20,000 due to less PBGC premiums expenses this year.

• Eligibility	Completion of 5 years of Vesting Service
• Benefit	Upon attainment of age 65, the participant will receive the Accrued Benefit. The participant may elect earlier commencement of benefits any time after satisfying the requirements for early retirement (without accumulating any additional Vesting Service), in which case the Accrued Benefit is reduced 1/180th for each of the first 60 months, 1/360th for each of the next 60 months, and actuarially thereafter for each month by which the commencement date precedes Normal Retirement Date.
Disability	
• Eligibility	Totally and permanently disabled after age 50
• Benefit	Accrued Benefit reduced as for early retirement.
Pre-retirement death	
• Eligibility	Surviving spouse of a participant who had completed 5 years of Vesting Service by the date of death

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	If the participant was not yet eligible for early retirement, the benefit is calculated as if terminated employment on date of death, survived to the Earliest Retirement Age, retired with an immediate joint and 50% survivor annuity at the Earliest Retirement Age, and died on the day after the Earliest Retirement Age. If the participant was eligible for early retirement at the time of death, the benefit is calculated as if the participant has retired on the day before the participant's date of death under the joint and 50% survivor option. A special death benefit may also apply to surviving spouses in certain cases.
Form of benefits	
• Automatic form for unmarried participants	Life Annuity
• Automatic form for married participants	Actuarially reduced 50% joint and survivor annuity unless specifically rejected
• Optional forms	• 5 or 10 year certain and life • 100%, 75%, 66 2/3% or 50% joint and survivor • Modified cash refund • Lump-sum option
• Optional form conversion factors	Actuarial Equivalent or Actuarially Equivalent means, as applied to a benefit under the Plan, a benefit having the same actuarially determined value as the benefit that the Actuarial Equivalent replaces. The determination of an Actuarial Equivalent will be based on the following actuarial assumptions below: • Interest Rate - An interest rate of 7% per annum • Mortality — For participants, the Unisex Pension 1984 Mortality table (UP-1984 Table) with ages set forward one half year. This age adjustment is determined by interpolating (straight line) between mortality rates with no age adjustment and mortality rates with ages set forward one year. — For beneficiaries, the Unisex Pension 1984 Mortality Table (UP-1984 Table) with ages set back three and one half years. This setback is determined by interpolating (straight line) between mortality rates with a three-year age setback and mortality rates with a four-year age setback.
• Lump Sum basis	The interest rates are a 3-month average of the 417(e) minimum segment rates for the prior September, October, and November. The mortality table is the 50/50 male/female blend of the combined non-annuitant/annuitant mortality rates prescribed by the IRS.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. As of the freeze date, the limit is \$245,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2015, including amendment #1 effective November 1, 2022, are included in this valuation:

- **Most recent plan amendments included:** The amendment to terminate the plan as of September 30, 2024 under standard IRS plan termination regulations.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include increases for current participants over age 70½. There are no current actives over age 70 ½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increase. There are currently five deferred vested participants over age 65.
- **Benefits excluded:** Special pre-retirement death benefits available to a surviving spouse prior to age 62 under plan document section 7.09 have been excluded due to the low probability of events occurring that would result in the payment of this special death benefit.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** The plan is not top-heavy because it is a collectively bargained plan.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - Plan amendments: See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - Benefit accruals: The plan is frozen.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

Plan provision changes since prior valuation

Maximum benefit amounts under IRS rules were updated from 2023 to 2024.

The plan was amended to terminate the plan effective September 30, 2024 under standard IRS plan termination regulations. The plan termination is not reflected in the January 1, 2024 valuation except to the effect that it creates a short plan year (January 1, 2024 to September 30, 2024) for minimum funding purposes. Otherwise an ongoing plan is assumed for valuation purposes.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Interest rates were updated in accordance with PPA to use 2024 rates.
- Mortality rates (including lump sum mortality) were updated in accordance with PPA.
- The expected investment return assumption was updated to 6.03% for 2024 from 6.21% for 2023. This was done to reflect current year expectations based on Mercer Investment LLC's *Capital Market Outlook*.
- The administrative expense load decreased from \$50,000 to \$20,000 due to less PBGC premiums expenses this year.
