INDEPENDENT AUDITOR'S REPORT

October 14, 2025

To the Trustees of
Masonic Hall and Asylum Employees Retirement Fund:

Opinion on the Financial Statements

We have audited the accompanying financial statements of Masonic Hall and Asylum Employees Retirement Fund (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Responsibilities of Management for the Financial Statements (Continued)

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule of Reportable Transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MASONIC HALL AND ASYLUM EMPLOYEES RETIREMENT FUND

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN

The following description of the Masonic Hall and Asylum Employees Retirement Fund (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan, which became effective January 1, 1960, is a noncontributory defined benefit pension plan covering substantially all employees of the Masonic Hall and Asylum Fund, (the Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All contributions to the Plan are made by the Plan's sponsor.

Effective June 1, 2003, benefits were frozen for employees subject to the collective bargaining agreement, with no further accruals under this plan. Effective December 31, 2010, the plan was frozen to new participants.

Funding Policy

The Plan Sponsor makes contributions to the Plan based on annual valuations made by its actuary in order to meet the minimum funding requirements of ERISA. The Plan met the minimum funding requirement in 2024 and 2023.

Administration

The Plan is administered by the Masonic Hall and Asylum Fund. Morgan Stanley serves as the custodian of the Plan's assets.

Eligibility

Prior to June 1, 2003, all employees of the Plan Sponsor were eligible to participate in the Plan upon completion of 1,000 hours of service within a consecutive 12-month period. Participants became 100% vested after five years of service.

Effective January 1, 2011, the Plan allowed the option for current employees to leave the Plan and enroll in the Masonic Care Community of NY 403(b) Retirement Savings Plan.

Pension Benefits

Under terms of the plan agreement, participants are eligible for monthly benefit payments upon reaching the later of age 65 or their fifth anniversary of commencement of employment. The normal annual retirement pension is equal to 1.1% of an employee's compensation averaged over the five consecutive plan years of service which produce the highest average multiplied by the number of years of employee service. Effective July 1, 1991, the Plan was amended whereby the normal annual retirement pension factor was increased from 1% to 1.1% of average compensation for all employees who retire on or after July 1, 1991. The amendment was retroactive and the 1.1% factor is applied to prior years of service, a maximum of 25 years of service counted. For those governed by the terms of the collective bargaining agreement, the years of service shall be limited to 25 years. Effective January 2001, years of service for service and maintenance participants shall be limited to 30 years.

1. DESCRIPTION OF PLAN (Continued)

Pension Benefits (Continued)

Effective January 1, 1992, the Plan was amended for participants who are not subject to the terms of a collective bargaining agreement whereby the normal retirement pension factor is 1.1% of average annual compensation multiplied by the years of service up to December 31, 1991, plus 2% of average annual compensation multiplied by the years of service from January 1, 1992 to normal retirement date. The total number of years of service is limited to 35 years, with future service limited first.

Effective January 1, 1995, the Plan was amended to change “year of service” to a 12-consecutive-month period during which an employee is credited with at least 1,000 hours of service and to add the following definitions:

- a. For eligibility purposes, the first 12-consecutive-month period shall commence on the date an employee first renders an hour of service. Succeeding computation periods shall begin with the plan year immediately following the plan year within which the employee performed his initial hour of service and each plan year thereafter.
- b. For benefit accrual purposes, the computation period shall be the plan year within which the employee first performed an hour of service and each succeeding plan year.
- c. For vesting purposes, the computation period shall be the plan year within which the employee first performed an hour of service and each succeeding plan year.

The Plan allows for various forms of early retirement and survivor death benefit options.

Effective January 1, 2008, the Plan was amended to allow participants who have attained normal retirement age under the Plan to commence benefits while continuing to work.

Effective December 31, 2008, the Plan was amended for participants who are not subject to the terms of a collective bargaining agreement whereby the normal retirement pension factor shall equal 1.1% of average annual compensation multiplied by the years of service up to December 31, 1991, plus 2% of average annual compensation multiplied by the years of service from January 1, 1992, plus 1.5% of average annual compensation multiplied by the years of service from April 1, 2009 to normal retirement date. Compensation for Plan years beginning on or after January 1, 2009 shall not include compensation in excess of \$200,000.

Effective January 1, 2011, the Plan was amended for participants who are not subject to the terms of a collective bargaining agreement whereby the normal retirement pension factor shall equal 1.1% of average annual compensation multiplied by the years of service up to December 31, 1991, plus 2% of average annual compensation multiplied by the years of service from January 1, 1992 through March 31, 2009, plus 1.5% of average annual compensation multiplied by the years of service from April 1, 2009 through December 31, 2010, plus 1.1% of average annual compensation multiplied by the years of service from January 1, 2011 to normal retirement age.

Effective January 1, 2017 the Plan was amended to exclude highly compensated employees from Plan participation. Participants who were considered highly compensated employees at the time of the amendment were removed from the Plan and enrolled in the Masonic Care Community of NY 403(b) Retirement Savings Plan. Any current participants who reach the Highly Compensated Employee status will be removed at the beginning of the year that they are determined to reach the threshold in effect.

Effective October 14, 2022 the Plan was amended to exclude government sponsored or funded bonuses for all considerations of compensation.

1. DESCRIPTION OF PLAN (Continued)

Death and Disability Benefits

The only death benefit under the Plan is a Qualified Pre-Retirement Survivor Annuity (QPSA) to an eligible spouse. The amount of monthly benefit shall be 50% of the benefit payable to the participant had the participant retired on the day before his death, with the Qualified Joint and Survivor Annuity option in effect. The Plan does not provide for disability benefits.

Benefits Paid to Insurance Carriers for the Provision of Benefits

On November 15, 2023, the Plan entered into a purchase agreement with National Integrity Life Insurance Company (National Integrity), a member of Western & Southern Financial Group, where the Plan agreed to purchase a Group Annuity Contract for \$1,716,000. Upon payment of the premium, National Integrity assumed the obligation to make future annuity payments to a total of 109 Company retirees beginning in 2024.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Cash

Cash includes bank demand deposit accounts, which at times may exceed federally insured limits. The Plan has not experienced any losses in these accounts and believes it is not exposed to any significant credit risk with respect to cash.

Investments and Income Recognition

Investments are stated at fair value. Changes in the current value of investments, including realized gains and losses on assets sold during the year, are reflected in the statement of changes in net assets available for benefits as net appreciation in the fair value of investments. Purchases and sales of investments are reflected on a trade date basis. Dividend and interest income is recorded on the accrual basis.

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying financial statements.

Fair Value Measurements

GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Plan has the ability to access.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurements (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

A description of where the Plan's investments fall within the GAAP hierarchy is provided in Note 3.

Money market funds, common stocks, exchange traded funds, mutual funds and preferred stock: Valued at the closing price reported on the active market exchange in which the security is traded.

Alternative investments: The Plan is invested in a hedge fund that is valued using net asset value (NAV) as reported by the investment manager as a practical expedient. The Plan invests in the hedge fund for the purpose of providing an opportunity to invest in a limited partnership, which in turn, makes investments primarily in exclusively listed global equity securities that are publicly traded on U.S. securities exchanges. The hedge fund may also invest in stock index futures and stock index options. The hedge funds allow redemptions monthly at NAV as of the that date, with 60 days written notice.

The Plan is invested in private equity funds which include real estate and investments in private and public securities and instruments, which may be equity or debt or similar thereto across asset classes, capital structures and geographies. Interests in the private equity funds are based on the valuation provided by the managers of the respective funds, and interests are based on the valuation provided by the managers of the respective funds, and interests are based on the NAV provided by the general partners of the respective partnership as a practical expedient for fair value. Redemptions can be made after the initial lock-up period has lapsed. The initial lock-up periods are ten years and most have two- or three-year optional extensions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no changes in the valuation methodologies used in 2024 and 2023.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

All expenses of administering the Plan are paid by the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to the interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to the uncertainties inherent in this process, it is at least reasonably possible that changes in these estimates and assumptions will occur in the near term and that such changes could materially affect the amounts disclosed in the accompanying financial statements.

Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

3. FAIR VALUE MEASUREMENTS

The following are measured at fair value on a recurring basis at December 31, 2024:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Money market funds	\$ 121,123	\$ -	\$ -	\$ 121,123

Investments, using NAV as practical expedient (a)				<u>2,928,509</u>
				<u>\$ 23,874,361</u>

The following are measured at fair value on a recurring basis at December 31, 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Money market funds	\$ 238,104	\$ -	\$ -	\$ 238,104
Common stocks	3,365,160	-	-	3,365,160
Exchange traded funds	2,712,486	-	-	2,712,486
Mutual funds	9,000,996	-	-	9,000,996
Preferred stock	<u>5,498,987</u>	<u>-</u>	<u>-</u>	<u>5,498,987</u>
Total investments at fair value	<u>\$ 20,815,733</u>	<u>\$ -</u>	<u>\$ -</u>	20,815,733
Investments, using NAV as practical expedient (a)				<u>813,679</u>
				<u>\$ 21,629,412</u>

3. FAIR VALUE MEASUREMENTS (Continued)

- (a) In accordance with the FASB authoritative guidance regarding fair value measurement, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the items presented in the statements of net assets available for benefits.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawals, or retirement) between the valuation date and the expected date of payment. Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change.

Due to the uncertainties inherent in this process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the accompanying financial statements.

Calculations of the present value of accumulated plan benefits under the Plan were made by consulting actuaries as of January 1, 2024 using the unit credit actuarial cost method.

The significant actuarial assumptions used in the valuations as of January 1, 2024 (beginning of plan year) are as follows:

Assumed rate of return on investments	6.50%
Effective discount rate	5.10%
Mortality basis Funding	Blended sex distinct Amount- Weighted Pri-2012 for employees and healthy annuitants
Life expectancy	Sex-distinct Blue Collar Pri-2012 Mortality Tables for employees, healthy annuitants, and contingent survivors with mortality improvements projected using Scale MP-2021 on a generational basis.
Salary scale	2.5%
Normal retirement age	65

The foregoing assumptions are based on the presumptions that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service which employees have rendered and are expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is computed on the assumption of an ongoing plan by applying (a) discounts for interest to reflect the time value of money, and (b) the probability of payment by means of decrements such as for death, disability, or severance between the valuation date and the expected date of payment.

The following is a summary of the actuarial present value of accumulated plan benefits as of January 1, 2024 (beginning of plan year):

Vested:	
Active participants	\$ 16,509,043
Terminated and vested participants	2,247,515
Retired participants	<u>5,106,853</u>
Total vested	23,863,411
Nonvested	<u>4,723</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 23,868,134</u>

The following is a summary of the changes in the actuarial present value of accumulated plan benefits as of January 1, 2024 (beginning of plan year):

Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 25,530,993</u>
Change during the year attributable to:	
Benefits accumulated and other changes	558,221
Increase for interest due to the decrease in the discount period	1,538,327
Changes in actuarial assumptions	(30,565)
Benefits paid	<u>(3,728,842)</u>
Net decrease	<u>(1,662,859)</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 23,868,134</u>

5. PLAN TERMINATION

Masonic Care Community of NY (the Company) has the right to terminate the Plan at any time. In the event of a termination, the net assets shall be allocated among participants in accordance with the priorities set forth in Section 404a of ERISA. Such allocation would be first for the payment of benefits to retired participants, beneficiaries, and those eligible for retirement; second to participants with vested benefits; and then to the remaining participants on a pro rata basis. Any residual assets after the above distributions accrue to the Plan Sponsor. The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all non-forfeitable basic benefits subject to certain limitations prescribed by ERISA.

5. PLAN TERMINATION (Continued)

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

6. INCOME TAX STATUS

The Plan obtained its latest determination letter on March 31, 2010, in which the Internal Revenue Service has ruled that the Plan qualifies under Section 401(a) of the Internal Revenue Code and, therefore, is not subject to income tax under present income tax laws. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income tax has been recorded in the financial statements.

7. PARTY-IN-INTEREST TRANSACTIONS

Morgan Stanley is the custodian of the Plan's assets. As such, transactions between the custodian and the Plan qualify as party-in-interest transactions.

8. RECONCILIATION TO FORM 5500

Certain items have been classified differently between the financial statements and Form 5500. However, net assets available for benefits and changes in net assets available per the financial statements agreed to Form 5500 in total as of and for the years ended December 31, 2024 and 2023.

9. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 14, 2025, which is the date the financial statements were available to be issued.

Actuarial Assumptions and Methods

The valuation of a defined benefit pension plan involves estimates and assumptions about the probability of events occurring far into the future. Examples include assumptions about future employment, mortality, and retirement. Below is a description of the actuarial assumptions and methods used in the valuation.

Funding Target Liability

Valuation Date: January 1, 2024

Demographic Information: The demographic information was provided as of January 1, 2024 by Masonic Care Community. Although we did not audit the data, we did review the data for reasonableness.

Actuarial Cost Method: As required by PPA, the Traditional Unit Credit Cost Method was used.

Asset Valuation Method: The actuarial value of assets is determined by averaging the fair market value of assets as of the valuation date and the adjusted fair market values as of the preceding two valuation dates. This methodology is consistent with that provided in IRS Notice 2009-22.

Anticipated Rate of Return on Plan Assets: 6.50%, based on a review of the Plan's asset allocation, investment policy (as shown in the annual funding notice), and expected returns using recent capital market assumptions published by leading financial organizations.

Actuarial Valuation Software: For purposes of developing the projected future benefit payments as well as determining attributed liabilities and normal costs as of the valuation date, we utilized the ProVal software platform developed by Winklevoss Technologies. We believe this externally developed valuation system is appropriate, was used for its intended purpose, and did not produce unreasonable results.

Interest Rates for Minimum Required Contribution: The September 2023 funding segment rates were utilized as prescribed by IRC Section 430(h) and elected by Masonic Care Community. Below, please find the segment rates after reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv).

Segment	Interest Rate
Segment 1	4.75%
Segment 2	4.87%
Segment 3	5.59%

Effective Interest Rate
5.10%

SECTION V**DATA, ASSUMPTIONS AND PROVISIONS**

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

Interest Rates without reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv): Below, please find the segment rates without reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv). These rates were utilized to determine the low-default risk obligation measurement (“LDROM”) of the accrued benefits as of the Valuation Date.

Segment	Interest Rate
Segment 1	3.62%
Segment 2	4.46%
Segment 3	4.52%

Effective Interest Rate
4.43%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

Rate of Compensation Increase: Salaries are assumed to increase at 2.50% per year, based the Plan Sponsor’s review of historical experience as well as future expectations.

Mortality for Healthy Lives:

Base mortality table: The blended sex distinct Amount-Weighted Pri-2012 mortality tables for employees and healthy annuitants.

Mortality improvements: The base mortality table is adjusted by projecting mortality improvements using the IRS 2024 Adjusted Scale MP-2021 from the year 2012 through 2024, with an additional projection period of 8 years for males and 9 years for females. For ages below 80, the additional projection period is increased by 1 year for each year below age 80. For ages above 80, the additional projection period is reduced (but not below zero) by 1/3 year for each year above 80.

Retirement Incidence: Rates of retirement were based on a review of plan experience and additional factors including the plan’s Normal Retirement Age and the availability of Social Security benefits at different ages. The rates used in this valuation are illustrated below:

Age	Percentage
60	5%
61	5%
62	15%
63	10%
64	5%
65	100%

Current and future vested terminated participants are assumed to retire at age 65.

Turnover: Termination rates were assumed in the valuation, based on The SOA 2003 turnover study small plan age table for 1,000 lives or less. The assumption utilized was selected based on the most recent available experience study released by the Society of Actuaries. Illustrative rates are shown below:

Age	Rate
20	24.30%
25	19.50%
30	15.50%
35	12.10%
40	9.40%
45	7.30%
50	5.60%
55	4.20%

Assumptions used to Convert Annuities to Actuarially Equivalent Lump Sum Amounts: In accordance with IRS Regulation 1.430(d)-1(f)(5)(ii)(B), the annuity is converted to a lump sum using the current applicable mortality table under IRC Section 417(e)(3) that would apply to a distribution with an annuity starting date occurring on the valuation date and the underlying valuation interest rates under IRC Section 430(h)(2).

Administrative Expenses: Actual plan expenses, not including investment advisory fees, paid out of the trust during the previous plan year rounded to the nearest thousand.

Spouse Assumptions: 75% of participants not currently collecting benefits are assumed to be married, with spouses assumed to be the same age as the participant based on the provisions of the Plan and Masonic Care Community's expectation.

Assumed Form of Benefit for Employees Who Made a Special Election to Opt Out of the Defined Benefit Plan on November 19, 2010: Lump Sum Distribution.

Assumed Form of Benefit for Employees Who Did Not Make a Special Election to Opt Out of the Defined Benefit Plan on November 19, 2010: Straight Life Annuity with Five Years Certain.

This assumption is based on a review of recent experience on limited available data; the liability does not deviate significantly due to this assumption.

Actuarial Present Value of Accumulated Plan Benefits (ASC 960)

Interest Rate: 6.50%, based on a review of the Plan's asset allocation, investment policy (as shown in the annual funding notice), and expected returns using recent capital market assumptions published by leading financial organizations.

Mortality: The sex-distinct Amount-Weighted Blue Collar Pri-2012 Mortality Tables for employees, healthy annuitants, and contingent survivors with mortality improvements projected using Scale MP-2021 on a generational basis. This assumption was based on a review of published mortality tables and the demographics and industry of the Plan.

Assumptions used to Convert Annuities to Actuarially Equivalent Lump Sum Amounts: The segment interest rates in the table below. This assumption was selected based on the applicable segment rates under IRC Section 417(e) for the plan year beginning on the valuation date.

Segment	Interest Rate
Segment 1	5.77%
Segment 2	6.14%
Segment 3	6.19%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

Unless specifically mentioned, all remaining assumptions for the Actuarial Present Value of Accumulated Plan Benefits remain the same as described for the Funding Target Liability above.

Weighted Average Retirement Age: 64.0

Plan Provisions

This summary is intended as an outline of plan provisions and does not alter the intent or meaning of the provisions contained in the plan document.

Plan Sponsor: Masonic Care Community
EIN/PN: 13-5563012/001

ELIGIBILITY

Employees become eligible to participate in the Plan on the first day of the month coinciding with or next following the completion of one year of service.

All participants who made the special election to opt out of the Plan effective January 1, 2011 shall cease to be eligible. Furthermore, any employee not given the special choice to remain in the Plan shall no longer be eligible.

As of January 31, 2017, a participant shall not be eligible to participate in the plan for any plan year in which he or she is classified as a highly compensated employee.

EMPLOYEE CONTRIBUTIONS

Participants are not required to contribute.

RETIREMENT

- i. Normal Retirement.* Participant's Normal Retirement Date is the first day of the month coinciding with or next following the date a Participant attains the later of age 65 or completes 5 years of plan service.
- ii. Early Retirement.* Participant's Early Retirement Date is the first day of any month coinciding with or next following the date the Participant attains age 60 and completes 5 years of plan service.
- ii. Late Retirement.* After Normal Retirement Date.
- iii. Disability Retirement.* Disability benefits are not provided, other than under other provisions as to retirement or termination.

BENEFIT AT RETIREMENT

- i. *Normal Retirement Benefit.* A monthly pension benefit will equal (a) or (b):
- (a) For those governed by the terms of the Collective Bargaining Agreement the monthly retirement benefit shall be equal to 1.10% of the Participant's Average Annual Compensation times years of service. Years of service shall be limited to 25 years. Effective January 1, 2001, Years of service for Service & Maintenance participants shall be limited to 30 years. Effective June 1, 2003 benefit accruals were frozen for the collective bargaining participants.
 - (b) For those not governed by the terms of the Collective Bargaining Agreement the monthly retirement benefit shall be equal to (1) + (2) + (3) + (4):
 - (1) 1.10% of Participant's Average Annual Compensation times years of service credited prior to January 1, 1992.
 - (1) 2.00% of Participant's Average Annual Compensation times years of service credited after December 31, 1991 but before April 1, 2009.
 - (2) 1.50% of Participant's Average Annual Compensation times years of service credited after April 1, 2009 but before January 1, 2011.
 - (3) 1.10% of Participant's Average Annual Compensation times years of service credited after January 1, 2011.

Those not governed by the terms of the Collective Bargaining Agreement and employed on September 1, 2010, were given the irrevocable choice to earn future benefits in Masonic Care Community's 403(b) Pension Plan. Effective January 1, 2011, benefit accruals were frozen for the participants who elected to receive employer contributions in the 403(b) plan.

Effective January 31, 2017, benefit accruals were frozen for participants classified as highly compensated employees.

Total years of service in formula (b) above shall be limited to 35 years, where years of service after January 1, 2011 shall be reduced first, years of service from April 1, 2009 to January 1, 2011 shall be reduced next, and if necessary, years of service from January 1, 1992 to March 31, 2009 shall then be reduced.

Average Annual Compensation means the highest average of five consecutive years of Compensation. *Compensation* refers to W-2 compensation.

- ii. *Early Retirement Benefit.* Accrued normal retirement benefit, reduced by 5/12 of 1% for each month by which Early Retirement Date precedes the Participant's Normal Retirement Date

- iii. *Late Retirement Benefit.* The greater of the benefit determined in the same manner as the Normal Retirement Benefit including years of service and compensation after Normal Retirement or the actuarial equivalent of the Normal Retirement Benefit.
- iv. *Maximum Benefits.* The maximum retirement benefit is determined in accordance with Section 415 of the Internal Revenue Code and Regulations.

NORMAL AND OPTIONAL FORMS OF BENEFIT

A monthly income payable for life with 60 payments guaranteed is the normal form of benefit. A joint and survivor annuity with 50% continued to the Participant's Spouse would be automatically payable to each Participant who is married at retirement, unless the Participant and spouse elect otherwise. The Qualified Joint and Survivor Annuity (QJS) and other available optional forms are "actuarially equivalent" to the normal form, meaning that the amount of benefit is determined so as to have the same value when computed using the following actuarial assumptions:

Interest – 7.00% per annum

Mortality – 1984 Unisex Pensioners Table (post-retirement only)

In the event a lump sum payment is made to a terminated or retired participant in lieu of the accrued benefits, the amount shall be calculated on the basis of GATT interest rates. If the determined value of the Participant's accrued benefit is not more than \$25,000 (\$5,000 prior to December 1, 2012 and \$3,500 prior to January 1, 1998), the Participant may elect a lump sum in lieu of a monthly benefit.

If the value of the participant's accrued benefit is more than \$25,000, a lump sum cannot be paid, and when eligible for retirement, the Participant may elect any form of annuity that the Plan provides.

Employees who made a special election to opt out of the Defined Benefit Plan on November 19, 2011, are eligible to receive their benefit in the form of a lump sum.

A lump sum window was offered where the maximum lump sum available to terminated vested participants who elected to receive a benefit between the period of March 21, 2014 to August 29, 2014 was increased to \$40,000 from \$25,000.

A lump sum window was offered where the maximum lump sum available to terminated vested participants who elected to receive a benefit between the period of August 13, 2016 to October 31, 2016 was increased to \$90,000 from \$25,000.

VESTING

Years of service are all years of service with the Employer in which the employee was given credit for 1,000 or more hours of service.

Years of Service	Vested Percentage
Less than 5	0%
5 years or more	100%

DEATH BENEFITS

Prior to December 31, 2010: The only Death Benefit under the Plan is a Qualified Pre-Retirement Survivor Annuity (QPSA) to an eligible spouse. The amount of monthly benefit shall be 50% of the benefit payable to the participant had the participant retired on the day before his death, with the QJS option in effect.

As of January 1, 2011: The Death Benefit for any employee who made the special election to earn future benefits in the 403(b) Pension Plan is payable to any beneficiary. The amount of the monthly benefit shall be the actuarial equivalent amount of the benefit payable to the participant.

The Death Benefit for participants who elected to stay in the Defined Benefit Pension Plan remains the same.

PLAN AMENDMENTS

The Plan was amended, effective January 1, 2000, in accordance with various governmental acts and regulations. The Plan was amended effective June 1, 2003 to freeze benefits of Union Employees.

The Plan was amended effective January 1, 2011 to freeze benefits for those employees not governed by the terms of the Collective Bargaining Agreement and employed on September 1, 2010, who elected to earn future benefits in the 403(b) Pension Plan. Furthermore, the Plan was amended effective January 1, 2011 to adjust the service multiplier for those employees not governed by the terms of the Collective Bargaining Agreement and employed on September 1, 2010 who remained in the Defined Benefit Pension Plan.

The Plan was restated, effective January 1, 2012, in accordance with various EGTRRA provision. The PPA-Heart Act Amendment was executed on April 19th, 2012.

The plan was amended to increase the limit under which participants, who did not make the special election in 2010, can elect lump sum payment options from \$5,000 to \$25,000. The amendment was executed November 16, 2012 and effective as of December 1, 2012.

A lump sum window was offered where the maximum lump sum available to terminated vested participants who elected to receive a benefit between the period of March 21, 2014 to August 29, 2014 was increased to \$40,000 from \$25,000.

The Plan was amended, effective January 31, 2017, to exclude highly compensated employees from earning future accruals. The amendment was executed on December 9, 2016.

The Plan was amended, effective January 1, 2017, to provide accruals to satisfy minimum coverage and participation rules. The amendment was executed on December 9, 2016.

A lump sum window was offered where the maximum lump sum available to terminated vested participants who elected to receive a benefit between the period of August 13, 2016 to October 31, 2016 was increased to \$90,000 from \$25,000.
