Independent Auditor's Report

To the Plan Administrator of
Oncology & Hematology Associates of Southwest Virginia, Inc.
Cash Balance Plan
Roanoke, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Oncology & Hematology Associates of Southwest Virginia, Inc. Cash Balance Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Oncology & Hematology Associates of Southwest Virginia, Inc. Cash Balance Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Oncology & Hematology Associates of Southwest Virginia, Inc. Cash Balance Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Oncology & Hematology Associates of Southwest Virginia, Inc. Cash Balance Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Oncology & Hematology Associates of Southwest Virginia, Inc. Cash Balance Plan’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Oncology & Hematology Associates of Southwest Virginia, Inc. Cash Balance Plan’s ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with

GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified information.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Cash Balance Plan

Notes to Financial Statements

December 31, 2024

Note 1 – Plan Description

The following description of the Oncology & Hematology Associates of Southwest Virginia, Inc. Cash Balance Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a cash balance defined benefit plan covering substantially all employees of Oncology & Hematology Associates of Southwest Virginia, Inc. (the “Plan Sponsor”) as defined in the Plan document. The following classes of employees are excluded from participation in the Plan: physician assistants, nurse practitioners, employee physicians, shareholder physicians, and Highly Compensated Employees other than shareholder physicians. The Plan became effective on January 1, 2020. Employees commence participation in the Plan as of the first day of quarter coinciding with or immediately following the latest of (i) the date they become a covered employee, (ii) the date they attain twenty-one years of age, and (iii) completion of one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Investment of Trust Funds

Plan Sponsor contributions are made to funds held in trust (the Fund) by Matrix Trust Company, the Trustee of the Plan. Assets of the Fund are invested by the Trustee in a diversified portfolio of investments, as directed by the Plan Administrator.

Participant Accounts

A separate Cash Balance Account is established for each participant that accumulates pension credits and interest credits. A participant’s cash balance account shall cease to be maintained as of the participant’s benefit commencement date. A participant’s cash balance account shall be credited as of the end of each calendar quarter with an amount equal to 25% of the applicable pension credit determined in accordance with the following table based on the participant’s rate group:

Rate Group	Applicable Pension Credit
Group A	\$50,000
Group B	\$90,000
Group C	\$120,000
Group D	\$125,000
Group E	\$130,000
Group F	\$150,000
Group G	\$155,000
Group H	\$200,000
Group I	\$220,000
Group J	\$235,000
Group K	\$240,000

Oncology & Hematology Associates of Southwest Virginia, Inc.

Cash Balance Plan

Notes to Financial Statements

December 31, 2024

<u>Rate Group</u>	<u>Applicable Pension Credit</u>
Group L	\$255,000
Group M	\$270,000
Group N	\$280,000
Group O	3.25% of the participant's earnings for the Plan Year

One year of benefit service is credited in completed full years and fractions of years treating each calendar month as 1/12 year of service even if the participant only worked for a portion of such calendar month.

As of the last day of each calendar month, each participant's cash balance account shall be credited with an amount equal to the participant's account balance as of the beginning of the month multiplied by the interest crediting rate, the actual rate of return on the aggregate assets of the Plan for that period, but not less than 3% for non-shareholder participants.

Vesting

Participants are 100% vested in all contributions upon Plan participation.

Benefit Payments

Benefits are determined based on the balance in the participant's cash balance account. Plan benefits are generally payable to a participant by life annuity, joint and survivor annuity, or lump-sum distribution, no later than the last day of the following year next following the end of the Plan year in which one of the following events occur: date such participant terminates employment with the Plan Sponsor, attains age 65, or the participant's normal retirement date. Plan benefits are computed using the unit credit actuarial cost method. If a participant dies prior to distribution of the participant's cash balance account, a death benefit equal to the value of the participant's cash account balance will be paid to the participant's beneficiary. Certain circumstances may limit benefit payments. No benefit payments were limited during fiscal years 2024 or 2023.

Note 2 – Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Oncology & Hematology Associates of Southwest Virginia, Inc.

Cash Balance Plan

Notes to Financial Statements

December 31, 2024

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the participants to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, and (b) present participants or their beneficiaries. The actuarial present value of accumulated Plan benefits is determined by an independent actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of Plan amendments on accumulated Plan benefits is recognized during the year in which such amendments become effective. The valuation date is January 1, 2024.

The accumulated Plan benefit information is as follows:

	January 1, 2024
Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants entitled to deferred benefits	\$ 55,001
Other participants	5,421,441
Total vested benefits	5,476,442
Non-vested benefits	36,701
Total actuarial present value of accumulated Plan benefits	\$ 5,513,143

The changes in the actuarial present value of accumulated Plan benefits are as follows:

Actuarial present value of accumulated Plan benefits as of January 1, 2023	\$ 3,042,231
Decrease in discount period	126,970
Benefits paid	(446,246)
Additional benefits earned, including experience gains and losses	2,790,188
Net increase	2,470,912
Actuarial present value of accumulated Plan benefits as of January 1, 2024	\$ 5,513,143

Oncology & Hematology Associates of Southwest Virginia, Inc.

Cash Balance Plan

Notes to Financial Statements

December 31, 2024

The actuarial assumptions employed to determine Plan liabilities are as follows:

ERISA interest rates	Segmented rates in 2024 and 2023, including 4.75% and 4.75%, respectively, for the first 5 years, 4.87% and 5.00%, respectively, for the next 15 years, and 5.59% and 5.74%, respectively, after 20 years.
Mortality basis	Pri-2012 Total Dataset Mortality Tables projected with MP-2021 Mortality Improvement Scale applied on a generational basis.
Mortality basis (post-retirement)	2024: IRS 2024 Small Plan Combined Static Mortality Table 2023: IRS 2023 Small Plan Combined Static Mortality Table
Retirement rates	Based on 100% retirement at the Normal Retirement Age
Form of payment	Assume all benefits will be paid in a lump sum
Expected investment return	4.50% in 2024 and 2023.

The actuarial assumptions are based on presumptions that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Plan Expenses

Administrative expenses shall be paid by the Plan Sponsor.

Subsequent Events

Subsequent events have been evaluated through October 13, 2025, the date the financial statements were available to be issued.

Note 3 – Funding Policy

The contributions of the Plan Sponsor are determined by the actuary to maintain the Plan as a qualified employee benefit plan meeting the minimum funding standard requirements of the ERISA.

Note 4 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Oncology & Hematology Associates of Southwest Virginia, Inc.

Cash Balance Plan

Notes to Financial Statements

December 31, 2024

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Fair Value Measurements at Reporting Date Using:		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
<u>December 31, 2024</u>			
Collective unit trusts	\$ 8,735,056	\$ -	\$ 8,735,056
Total	\$ 8,735,056	\$ -	\$ 8,735,056
<u>December 31, 2023</u>			
Collective unit trusts	\$ 5,941,255	\$ -	\$ 5,941,255
Total	\$ 5,941,255	\$ -	\$ 5,941,255

Level 2 Fair Value Measurements

The fair values of collective unit trusts are based on inputs that are observable for valuing the asset or liability, either directly or indirectly (i.e., interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). Observable inputs include quoted prices for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

The collective unit trusts invest in securities that have observable Level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. While the underlying assets values are quoted prices, the net asset value (NAV) of a unit in these funds is not publicly quoted. Units can be issued and redeemed on any business day at the NAV. All earnings and losses are reflected in the computation of the NAV and are realized by the participant upon withdrawal. No distributions of income and gain or loss are made to participants.

Note 5 – Plan Termination

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of benefits to the participants in order of priority determined in accordance with ERISA, applicable regulations, and the Plan document.

Oncology & Hematology Associates of Southwest Virginia, Inc.

Cash Balance Plan

Notes to Financial Statements

December 31, 2024

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of the individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note 6 – Tax Status

The Plan is adopted under a volume submitter plan sponsored by Document Agility, Inc. The Internal Revenue Service (IRS) has determined and informed the Plan Sponsor by a letter dated March 30, 2018, that the Plan is designed in accordance with applicable sections of the *Internal Revenue Code (IRC)*. The Plan was subsequently restated, however the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the *IRC*.

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Trustee's Certification

Certain information was certified as complete and accurate by Matrix Trust Company, the Trustee. This information is as follows:

- Investment assets
- Investment transactions
- Investment income
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year)

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Oncology & Hematology Associates of Southwest Virginia, Inc.

Cash Balance Plan

Notes to Financial Statements

December 31, 2024

Any Plan contributions made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Note 9 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

Actuarial Assumptions and Methods (continued)

Turnover Rates: No termination rates have been assumed in the valuation. The actuary has determined that turnover rates are not material to the determination of the Plan's liability.

Retirement: The actuary believes that the best expectation of future experience is 100% retirement at Normal Retirement Age (but not earlier than January 1, 2025). Gains or losses resulting from actual retirement experience will be recognized through the routine application of the actuarial cost method.

Form of Payment: It has been assumed benefits will be paid in a lump sum. To the extent optional forms of payment are elected and conversions are determined on an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method.

Marital Status: Marital status is not applicable in the valuation due to the death benefit being 100% of the vested accrued benefit and the assumed form of payment being a lump sum.

Maximum Benefit: \$275,000 for 2024.

Maximum Salary: \$345,000 for 2024.

Actuarial Assumptions and Methods (continued)

Actuarial Value of Plan Assets for Funding Purposes: The actuarial value of assets is equal to the market value of assets (including discounted employer contributions receivable) on the valuation date.

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT). Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount. Under this method, accrued pension benefits are determined for all eligible active participants reflecting service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. This liability for active participants is then added to the present value of all benefits for inactive participants to determine the total liability under this method.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

EIN: 54-1922084 / PN: 002

Plan Year: 01/01/2024 to 12/31/2024

Valuation Date: 01/01/2024

Name of Plan: Oncology & Hematology Associates of Southwest Virginia, Inc. Cash Balance Plan

Employer Identification Number / Plan Number: 54-1922084 / 002.

Effective Date: January 1, 2020.

Effective date of most recent amendment: January 1, 2024.

Covered Employee: Any Employee of the Employer, excluding physician assistants nurse practitioners, employee physicians, shareholder physicians not identified in Addendum A of the Plan document, and Highly Compensated Employees other than shareholder physicians identified in Addendum A of the Plan document.

Eligibility: Each person shall be eligible to enter on the first day of quarter coinciding with or immediately following the latest of (i) the date he becomes a Covered Employee, (ii) the date he attains twenty-one (21) years of age, or (iii) the completion of one year of service.

Definitions:

Benefit service: One year of benefit service is credited in completed full years and fractions of years treating each calendar month as 1/12 year of service even if the participant only worked for a portion of such calendar month.

Normal Retirement Date (NRD): The first day of the month coinciding with or immediately following the attainment of age 65.

Hypothetical Account Balance: An account maintained on behalf of a Participant which, as of any given date, includes:

- (i) The Participant's Pension Credits through such date, and
- (ii) The Participant's Interest Credits through such date.

Interest Credit: Interest Credits accrue at the end of each calendar month and are equal to the Participant's Hypothetical Account Balance as of the beginning of the calendar month multiplied by the Interest Crediting Rate, the actual rate of return on the aggregate assets of the Plan for that period, but not less than 3% for non-shareholder participants.

Pension Credit: The applicable Annual Credit as determined from the following table based on the Participant's Rate Group. If a Participant is credited with less than a full year of service, the Pension Credit shall be multiplied by a fraction, the numerator of which is the number of months of service credited to the Participant for the Plan Year, and the denominator of which is 12.
