**To the Participants and Plan Administrator of the
Sayari Labs Inc 401(k) Profit Sharing Plan**
Washington, DC

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Sayari Labs Inc 401(k) Profit Sharing Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Sayari Labs Inc 401(k) Profit Sharing Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**To the Participants and Plan Administrator of the
Sayari Labs Inc 401(k) Profit Sharing Plan**
Washington, DC

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sayari Labs Inc 401(k) Profit Sharing Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sayari Labs Inc 401(k) Profit Sharing Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

**To the Participants and Plan Administrator of the
Sayari Labs Inc 401(k) Profit Sharing Plan**
Washington, DC

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sayari Labs Inc 401(k) Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sayari Labs Inc 401(k) Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

**To the Participants and Plan Administrator of the
Sayari Labs Inc 401(k) Profit Sharing Plan**
Washington, DC

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter

The accompanying statement of net assets available for benefits as of December 31, 2023 and statement of changes in net assets available for benefits for the year then ended were not audited, reviewed, or compiled by us and, accordingly, we do not express an opinion or any other assurance on them.

Sayari Labs Inc 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2024 and 2023 (unaudited)

Note 1: The Plan and its significant accounting policies:

The following description of the Sayari Labs Inc 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established by Sayari Labs Inc (the Company) on January 1, 2018 to provide benefits to eligible employees. The Plan covers all employees of the Company, other than union and leased employees, who are 20 years of age or older. Employees are immediately eligible after meeting the age requirement. The Plan is subject to the provisions of ERISA.

Basis of accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Administration - Under the terms of the Plan, a designated officer of the Company acts as trustee. The Company has contracted with Northwest Plan Services (NWPS) to act as recordkeeper and Charles Schwab Trust Bank to act as custodian. Fees related to the administration of distributions and notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Also included in administrative expenses are investment related expenses.

Investment valuation and income recognition - Investments of the Plan are held by Charles Schwab Trust Bank and invested based solely upon instructions received from participants. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 and 2023. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. The Plan administrator believes all notes receivable from participants are collectible.

Payment of benefits - Benefits are recorded when paid.

Notes to Financial Statements

December 31, 2024 and 2023 (unaudited)

Note 1: The Plan and its significant accounting policies: (continued)

Income taxes - The Plan is using a prototype plan document adopted by its third party administrator. The Internal Revenue Service has determined and informed the third party administrator by a letter dated June 30, 2020, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has not applied for or received an individual determination letter and has been amended since June 30, 2020; the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Use of estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Plan assets may have decreased in value since December 31, 2024 due to normal market fluctuations.

Adoption of new accounting policy - On January 1, 2024, the Plan adopted ASU 2016-13 *Financial Instruments – Credit Losses (topic 326): Measurement of Credit Losses on Financial Instruments*, as amended, which replaces the incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss (CECL) methodology. The measurement of expected credit losses under CECL methodology is applicable to financial assets measured at amortized costs, including contribution receivables and held-to-maturity debt securities. The Plan adopted ASC 326 using the modified method for all financial assets measured at amortized costs. The Plan has analyzed its financial assets and deemed that no adjustment is necessary. Therefore, total net assets available for benefits and change in net assets available for benefits are unchanged due to the adoption of this new standard. The Plan will continue to analyze their financial assets for expected credit loss under this new standard.

Notes to Financial Statements

December 31, 2024 and 2023 (unaudited)

Note 1: The Plan and its significant accounting policies: (continued)

Plan amendments - Effective April 1, 2024, the Plan was amended to amend the definition of statutory compensation from W-2 compensation to withholding compensation.

Note 2: Participation and benefits:

Participant contributions - Participants may elect to have the Company contribute a percentage of their eligible pre-tax compensation up to the amount allowable under current income tax regulations. Participants who elect to have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. These eligible employees may also elect to make Roth elective deferrals. Roth elective deferrals are made after taxes have been withheld. Participants may contribute a combination of pre-tax elective deferrals and Roth elective deferrals. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Contributions withheld are invested in accordance with the participant's direction. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund until changed by the participant.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions - The Company is allowed to make matching contributions as defined in the Plan and as approved by the Company. In 2024 and 2023, the Company matched up to 100% of the first 5% of each eligible participant's compensation contributed to the Plan as deferral contributions. The matching contribution totaled \$1,248,358 and \$972,642 for the years ended December 31, 2024 and 2023, respectively. The Plan also allows for a discretionary profit sharing contribution. No discretionary contribution was made for the years ended December 31, 2024 and 2023.

Participant accounts - Each participant's account is credited with the participant's contributions, Plan earnings or losses, administrative expenses and an allocation of the Company's contribution, if any. Allocation of the Company's matching contributions is based on participant contributions. Allocation of the Company's discretionary profit sharing contribution is based on participants' compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 2: Participation and benefits: (continued)

Vesting - Participants are immediately vested in their salary deferral, rollover contributions, and related earnings. Participants are immediately fully vested in the employer's profit sharing and matching contributions allocated to their account.

Forfeited accounts - At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$-0-. These accounts are used to pay administrative fees and reduce future employer contributions. Forfeitures of \$-0- and \$3,582 were used to reduce employer contributions for the years ended December 31, 2024 and 2023, respectively.

Payment of benefits - Upon termination, the participant or beneficiary will receive the benefits in a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in installments, paid at least annually over a period not exceeding the joint and survivor life expectancy of the participant and beneficiary. The Plan allows for automatic lump-sum distributions of participant vested account balances which do not exceed \$5,000. Automatic lump sum distributions which exceed \$1,000 but are less than \$5,000 may be rolled over into an individual retirement account set up for the participant by the Plan administrator. Effective January 1, 2024, the threshold above increased from \$5,000 to \$7,000.

Notes receivable from participants - The Plan allows participants to borrow a minimum of \$1,000 and up to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the participant's vested account balance and bear interest at the available market financing rates. The loans must be repaid to the Plan within a five year period, unless the loan is used for the purchase of a primary residence. The specific terms and conditions of such loans are established by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Note 3: Certified information:

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2024 and 2023, and net appreciation in fair value of investments and dividends for the years ended December 31, 2024 and 2023, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate by Charles Schwab Trust Bank, the custodian of the Plan.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. In addition, the information in the Form 5500 Supplemental Attachment to Schedule H has been certified by Charles Schwab Trust Bank as of December 31, 2024.

December 31, 2024 and 2023 (unaudited)

Note 4: Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2024 and 2023.

Mutual funds - valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset values (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts - consist of interest-bearing cash, common stock, mutual funds, and unit investment trusts. The common stock is valued at the last trade, close or bid price on the active market on which the individual securities are traded. The unit investment trusts are valued daily at the net asset value of the underlying assets as calculated and reported by the issuer or its agent.

Total investments at fair value	<u>\$ 5,401,266</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,401,266</u>

Note 5: Related party transactions and party in-interest transactions:

Certain Plan investments are shares of mutual funds managed by Charles Schwab. Charles Schwab is the custodian and therefore, these transactions qualify as party in-interest transactions. Fees incurred by the Plan for investment management services are included in administrative expenses. Additionally, the Plan issues loans to participants, which are secured by the participants' accounts. These transactions are considered party in interest transactions.

Note 6: Reconciliation of financial statements to Schedule H of Form 5500:

The differences between the information reported in the financial statements and the information reported in the Form 5500 arise from classification differences in investment income.
