INDEPENDENT AUDITOR'S REPORT

To the Participants and Investment Committee of the
Hussmann Pension Plan for Certain Active and Inactive
Employees

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Hussmann Pension Plan for Certain Active and Inactive Employees, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2023, and the statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Hussmann Pension Plan for Certain Active and Inactive Employees's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of Hussmann Pension Plan for Certain Active and Inactive Employees and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hussmann Pension Plan for Certain Active and Inactive Employees's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hussmann Pension Plan for Certain Active and Inactive Employees's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hussmann Pension Plan for Certain Active and Inactive Employees's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Husmann Pension Plan for Certain Active and Inactive Employees
Notes to Financial Statements
December 31, 2024 and 2023

1. DESCRIPTION OF THE PLAN

The following brief description of the Husmann Pension Plan for Certain Active and Inactive Employees (the "Plan") is intended for general information purposes. Participants should refer to the Plan document for complete information.

General

The Plan is a defined benefit pension plan covering eligible non-union hourly, salaried, and bargained employees of Husmann Corporation, (the "Company") a wholly owned subsidiary of Panasonic Corporation of North America, and any affiliate who has adopted the Plan. It is subject to the provisions of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). This Plan was created as of November 15, 2017 to only include inactive participants and certain active employees no longer accruing benefits.

The Northern Trust Company, as trustee (the "Trustee"), has the authority and responsibility to hold, manage and protect the assets of the Plan in accordance with the provisions of the trust agreement and ERISA requirements.

During 2023, in an effort to reduce the future accumulated benefit plan obligation of the Plan, the Board of Directors of the Plan Sponsor entered into an annuity buyout agreement with Securian Financial Group to transfer future monthly payments for participants with a monthly benefit of \$1,000 or less (See Note 10) and offered a one-time lump-sum, cashout option for vested terminated participants. As of December 31, 2024 and 2023, lump sum payments totaling \$1,264,898 and \$8,990,593, respectively, were made under this option.

On October 8, 2024, the Plan was amended to freeze benefit accruals under the Plan for all union hourly employees as of November 30, 2024.

Pension benefits

Employees who satisfy the Plan's eligibility requirement become fully vested in accordance with the vesting schedule set forth in the Plan and are entitled to annual pension benefits beginning at the normal retirement age (65). Benefits are calculated based upon their total years and months of credited service. The benefit calculation for non-collectively bargained employees, expressed as a single life annuity, is based on credited service, average compensation in the highest consecutive five of the final ten years of employment and the Plan's benefit formula. The benefit calculation for collectively bargained employees, expressed as a single life annuity, is based on credited service and a negotiated flat-dollar accrual rate established by the Plan. Early retirement benefits are available and require age and service requirements be met.

1. DESCRIPTION OF THE PLAN (continued)

Death and disability benefits

Pre-retirement death benefits are paid pursuant to the applicable appendix of the Plan and applicable laws. Certain vested participants who become disabled are entitled to a vested deferred retirement benefit calculated in the same manner as an early retirement benefit. Vesting is based on the vesting schedule set forth in the Plan.

Funding policy

The Company's funding policy is to make annual minimum contributions as required by law and determined by the actuary, and other contributions in its discretion as allowed by law. The actuary determines the required contributions using the Projected Unit Credit Cost Method. For the Plan years ended December 31, 2024 or 2023, the Company did not contribute to the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. "GAAP").

Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Valuation of investments and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Payment of benefits

Participant benefit payments are recorded at the time of distribution.

Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments in the accompanying statements of changes in net assets available for benefits.

Subsequent events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 14, 2025, the date the financial statements were available for issue.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service rendered by the Plan's participants. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries; (ii) beneficiaries of employees who have died; and (iii) present employees or their beneficiaries. Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation at January 1, 2024, were as follows:

- Retirement ages, which start at 55 and use actual plan experience;
- The lump sum interest rate was updated to the 417(e) rates for the November preceding the plan year and the lump sum mortality was updated to be the current year's 417(e) table.

The following assumptions were changed during the 2024 Plan year:

- The mortality projection scale has been updated from MSS-2022 to MSS-2023;

Hussmann Pension Plan for Certain Active and Inactive Employees
Notes to Financial Statements
December 31, 2024 and 2023

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (continued)

- Investment returns are equal to 6.3% and 5.9% in 2024 and 2023, respectively.
- Plan expenses added to current year normal cost are \$1,300,000 and \$1,520,000 during 2024 and 2023, respectively.

As of January 1, 2024, the foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuations been performed as of December 31 there would be no material difference.

4. CERTIFICATION

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan, has certified to the completeness and accuracy of the Master Trust investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023; and the related Master Trust investment activity reflected in the statements of changes in net assets available for benefits for the years then ended. See Note 6 for the certified Master Trust investment values and activity.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology included:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements
December 31, 2024 and 2023

5. FAIR VALUE MEASUREMENTS (continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable relevant inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Registered investment companies: Valued at the daily closing price as reported by the fund. The funds held by the Plan are registered with the Securities Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The funds held by the Plan are deemed to be actively traded and classified as Level 1.

Collective Trust – Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

6. INTEREST IN HUSSMANN CORPORATION MASTER PENSION TRUST

A significant portion of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and the Hussmann Pension Plan for Certain Participants with Frozen Benefits. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee, for the years ended December 31, 2024 and 2023.

The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 82%. Total investment income (including net appreciation in the fair value of investments) of the Master Trust is allocated to the individual plans based upon the amount of time the Plan's assets were invested in the Master Trust.

6. INTEREST IN HUSSMANN CORPORATION MASTER PENSION TRUST (continued)

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2024 and 2023, there were no significant transfers in or out of levels 1, 2, or 3.

The following table sets forth additional disclosures of the Master Trust investments whose fair value are estimated using net asset value per share (or its equivalent) as of December 31, 2024 and 2023:

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to participants in an order of priority determined in accordance with ERISA and applicable regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan be terminated will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

8. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

ERISA defines party-in-interest similar to a related party under U.S. GAAP, except that ERISA's definition is broader and includes all entities and individuals that provide services to the Plan; however, these entities may not necessarily be related parties. Plan management did not identify any related parties to the Plan that were not also considered to be parties-in-interest. The Plan did not enter into any material related party transactions during the Plan year related to compensation, arrangements, expense allowances or similar items.

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, and an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Company pays certain fees and expenses on behalf of the Plan. These transactions qualify as party-in-interest transactions. Such transactions are permitted under provisions of the Plan and are specifically exempt from prohibition of party-in-interest transactions under ERISA.

The Plan has invested in collective trust funds managed by Mercer Trust Company. Mercer Trust Company is a related party to Mercer, the Plan's actuary and record keeper. These transactions qualify as party-in-interest transactions. These transactions are allowable party-in-interest transactions under Section 408(b)(8) of the ERISA regulations. Fees paid to Mercer Trust Company during the years ending December 31, 2024 and 2023 were \$505,782 and \$706,129, respectively.

Fees paid to the Trustee during the years ending December 31, 2024 and 2023 were \$52,679 and \$54,196, respectively.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

10. PURCHASE OF ANNUITY CONTRACTS

On November 6th, 2023, the Board of Directors elected to enter into an agreement with Securian Financial Group, who will assume a subset of retiree liabilities for the Husmann Pension Plan for Certain Active and Inactive Employees. As part of an annuity buyout participants receiving a monthly benefit of \$1,000 or less were transferred to Securian who has taken on the responsibility of providing these participants with their monthly benefit. This resulted in a purchase payment to Securian in the amount of \$13,802,128.

As part of the annuity buyout process in 2024, it was determined that certain participants were not eligible to be transferred to Securian and instead remained in the Plan. As a result, Securian issued a refund to the Plan in 2025 in the amount of \$720,273. This amount is shown as a receivable to the plan in the Statements of Net Assets Available for Benefit. The Plan had additional annuity buyout activity in 2024 in the amount of \$9,765. This amount is netted with the purchase of annuity contracts activity in the Statements of Changes in Net Assets Available for Benefits.

11. TAX STATUS

The Plan has received a favorable determination letter from the Internal Revenue Service dated September 6, 2018, which states that the Plan and its underlying trust qualify under the applicable provisions of the Internal Revenue Code (the "Code") and, therefore, are exempt from federal income taxes. In addition, the Plan Administrator believes that the Plan is designed and is currently being operated in material compliance with the applicable requirements of the Code and has no income subject to unrelated business income tax. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Schedule SB, line V – Statement of Actuarial Assumptions/Methods

Rationale for economic assumptions

- **Expected investment return** – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan’s target asset mix, and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting’s Capital Markets Outlook for the plan’s Target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for investment expenses to be paid from plan assets.
- **Expenses** – The amount is based on the average noninvestment-related (and non-PBGC Premium) expenses that were paid out of the plan in the past three fiscal years and the expected change in PBGC premiums from the prior year to the current year.

Demographic assumptions

- **Withdrawal** See table of sample rates. In addition, the rates of withdrawal used for the first three years of service are 30%, 25% and 20%, respectively.
- **Disability incidence** Salaried and Non-bargaining employees – 1985 Wyatt Pension Disability Study Unisex Class One rates of disablement.

Rationale for demographic assumptions

- **Withdrawal** – Withdrawal rates have been developed based on the actuary’s experience with similar plans. Annual review of the experience gains and losses has shown that these rates provide similar results to the actual rates of withdrawal experienced under the plan.
- **Disability incidence** – Disability rates were based on published tables for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.
- **Retirement rates** – Retirement rates have been developed based on the actuary’s experience with similar plans and the retirement subsidies the plan offers at various ages. Annual review of the experience gains and losses has shown that these rates provide similar results to the actual rates of retirement experienced under the plan.
- **Form of payment** – Form of payment rates have been developed based on the actuary’s experience with similar plans. Annual review of the experience gains and losses has shown that these rates provide similar results to the actual rates of retirement experienced under the plan.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Schedule SB, line V – Statement of Actuarial Assumptions/Methods**Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** MRA provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Early retirement	
• Eligibility	First day of the month next following the attainment of age 55 and the completion of ten years of Continuous Service.
• Benefit	Accrued Benefit earned to the date of termination reduced 6% per year from age 65. For Bridgeton, benefit is reduced from age 60 with 30 years of Continuous Service.
Late retirement	
• Eligibility	Actual retirement may be deferred.
• Benefit	Normal Retirement Benefit calculated using Credited Service at late retirement date.
Deferred vested	
• Eligibility	Completion of five years of Continuous Service.
• Benefit	Accrued Benefit payable at age 65. If payment commences prior to age 65, the benefit is reduced in the same manner as the Early Retirement Benefit.
Disability	
• Eligibility	For Bridgeton, physical or mental illness which prevents a participant from performing his job and is considered permanent as certified by a qualified physician. The disability must have lasted five months. No other hourly locations have disability benefits.
• Benefit	For Bridgeton, immediate unreduced annuity commencing as early as five months and as late as 18 months after last day of employment (period of deferral). The period of deferral is counted as Credited Service. At age 65, the benefit is adjusted to reflect additional Credited Service equal to the difference between 24 months and the period of deferral.
Pre-retirement death	
• Eligibility	For Bridgeton, completion of ten years of Credited Service. No other hourly locations have additional death benefits
• Benefit prior to early retirement	For Bridgeton, designated beneficiary receives 60 monthly pension payments (or an equivalent lump sum) of the Participant's monthly Accrued Benefit, unreduced for an early commencement of payment. The benefit which would have been payable to the spouse assuming the employee terminated employment on the day before he died (or, if earlier, on his actual date of termination employment) and elected the 50% Joint and Survivor Annuity Option to commence on his earliest possible retirement date. The benefit is payable in the form of a life annuity to the spouse commencing on the Participant's earliest retirement date.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as established effective November 15, 2017 are included in this valuation:

- **Most recent plan amendments included:** None
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* Since suspension of benefits notices are given to active employees, late retirement actuarial increases apply to participants who defer retirement beyond age 70½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase using the plan's actuarial equivalence.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2023 to 2024.

Effective November 30, 2024 all benefit accruals for bargaining employees are frozen.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by ARPA took effect for the. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.

Shortfall bases					
Year established		Outstanding balance	Years remaining		2024 installment
2023	\$	16,031,514	14	\$	1,530,094
2024		(2,489,930)	15	\$	(226,535)
Total	\$	13,541,584		\$	1,303,559

Schedule SB, line 24 — Change in Actuarial Assumptions

- The expense component of normal cost decreased from \$1,520,000 to \$1,300,000 to reflect our expectations for the current plan year.
- The lump sum interest rate was updated to be the current year's 417(e) rates for the November preceding the plan year and the lump sum mortality was updated to be the current year's 417(e) table.
- The expected return on assets for 2024 was higher to 6.30%. This will impact the valuation in 2025.
