INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Jorgensen & Co. Employee Stock Ownership Plan and Trust
Fresno, California

Opinion

We have audited the financial statements of Jorgensen & Co. Employee Stock Ownership Plan and Trust (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023; the related statements of changes in net assets available for benefits for the years then ended; and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

INDEPENDENT AUDITORS' REPORT

(Continued)

Auditors' Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance, and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

INDEPENDENT AUDITORS' REPORT

(Continued)

Supplementary Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplementary schedule, we evaluated whether the supplementary schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Jorgensen & Co. Employee Stock Ownership Plan and Trust

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of Jorgensen & Co. Employee Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General The Plan is an employee stock ownership plan (ESOP) covering substantially all employees of Jorgensen & Co. (the Company) who have completed one year of service with a minimum of 1,000 service hours and are age 21 or older. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the *Internal Revenue Code of 1986* (IRC), and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Plan was originally established as of January 1, 1994, and has been subsequently amended and restated. The Plan is authorized to receive Company contributions in the form of cash or Company stock. The Plan may also purchase Company stock from the Company or its shareholders and may leverage such purchases with borrowings directly from, or guaranteed by, the Company. Once the Plan enters into a leveraged transaction, Company contributions are first used to pay outstanding debt of the Plan; then, to purchase shares of Company stock available for purchase; and finally, to invest in savings accounts, certificates of deposit, short-term commercial paper, insurance, stocks, bonds, or other investments. The Plan administrator is responsible for oversight of the Plan.

Contributions Contributions may be made at the discretion of the Company's Board of Directors to provide for current distributions and administrative expenses, not to exceed 25% of the compensation paid to the participants during the Plan year. Such contributions shall not exceed the maximum allowable as a deductible expense for federal income tax purposes. The Company made contributions of \$526,019 and \$413,143 to the Plan for the years ended December 31, 2024 and 2023, respectively. Participant contributions are not permitted.

Participant Accounts Each participant's account is credited with an allocation of currently released shares, forfeitures of terminated participants' nonvested account balances, investment gains or losses, and certain administrative expenses. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance, adjusted for current-year Company contributions and forfeitures, relative to the total of all the participants' accounts.

Vesting Company contributions are subject to vesting. A participant is 100% vested after six years of credited service. Participants are credited with one year of service for each Plan year in which they worked at least 1,000 hours.

Jorgensen & Co. Employee Stock Ownership Plan and Trust

NOTES TO THE FINANCIAL STATEMENTS

(Continued)

Payment of Benefits Upon termination of service, a participant may elect to receive cash distributions in a lump sum, in payments over a fixed number of years, or a combination of both, subject to certain Plan restrictions. For any year for which the Company has elected to be treated as an S corporation, distributions will be made entirely in cash. If the S election is terminated, distribution may be made in shares of Company stock, cash, or a combination of both, as determined by the Company. Under the provisions of the Plan, any shares of Company stock distributed by the Company shall be subject to a “right of first refusal” by the Company. If the distribution is due to the participant reaching normal retirement age, disability, or death, and the participant or beneficiary elects, the distribution shall commence not later than one year after the end of the Plan year in which the participant has a severance from employment. If a distribution is due to other than the participant reaching normal retirement age, disability, or death, and the participant elects, the distribution of the vested portion shall commence during, but before the end of, the sixth Plan year following the Plan year the participant has a severance from employment. A participant may elect to defer commencement of distributions; however, in no event shall the distribution begin later than the latest of either the 60th day after the close of the Plan year in which the participant reaches normal retirement age; reaches the 10th anniversary of participation; or the participant terminates service. Vested accounts of less than \$5,000 will be paid in a lump sum; vested accounts greater than \$5,000 will generally be paid in equal annual payments over a five-year period. The Plan provides for eligible rollover distributions. The amount to be distributed is based upon the valuation dated immediately preceding the distribution. Under the provisions of the Plan, the Company is obligated to repurchase nonpublicly traded participant shares which have been distributed under the terms of the Plan.

At December 31, 2024 and 2023, there were no amounts allocated to participants who elected to withdraw from the Plan but have not yet been paid.

Forfeitures Forfeited nonvested shares are allocated to remaining participants based on the relationship of the participant’s eligible compensation to total eligible compensation for the Plan year. For the years ended December 31, 2024 and 2023, \$11,073 and \$10,715 of the forfeited account balances were allocated to participants, respectively. At December 31, 2024 and 2023, \$16,077 and \$17,041, respectively, in forfeitures were available to allocate to participants in future years.

Plan Termination The Company reserves the right to terminate the Plan at any time. Upon termination of the Plan, the Plan administrator directs the trustees to pay all liabilities and expenses of the Plan and sell shares of financed stock held as collateral to the extent they determine such sale would be necessary to repay the loan. Subsequently, the interest of each participant in the Plan will be distributed to such participant, or to the participant’s beneficiary, at the time prescribed by the Plan terms and the IRC.

Voting Rights Each participant is entitled to exercise voting rights attributed to the shares allocated to the participant’s account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

NOTES TO THE FINANCIAL STATEMENTS

Put Option Under federal income tax regulations, Company stock that is held by the Plan in trust for its participants that is not readily tradable on an established market, or is subject to trading limitations, must include a put option. The purpose of the put option is to ensure that the participant has the ability to liquidate any Company stock that the participant receives from the Plan. The put option is a right to demand that the Company buy any shares of its stock distributed to participants in years during which the Company has not elected to be treated as an S corporation and for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. During 2024 and 2023, the Company repurchased 1,541.84506 and 5,357.42164 shares from participants, respectively.

Diversification Diversification is offered to participants nearing retirement age so that they may have the opportunity to shift a portion of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 and with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to the participant's account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify can elect to receive a cash distribution or to have funds transferred to the Jorgensen 401(k) Plan or another qualified retirement plan. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end. At December 31, 2024 and 2023, there were 4,553.31006 and 2,694.434320 shares with a value of \$378,835 and \$200,708, which were eligible for diversification, respectively. At December 31, 2024 and 2023, the value of shares of participants who have elected diversification was \$128,282 and \$25,905, respectively.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The Plan uses the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition The shares of Company common stock are reported at fair value. Fair value measurements are discussed below. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average-cost method. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair Value Measurements The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at December 31, 2024 and 2023, which is described in the following paragraph.

Investment in Company Common Stock: This stock is valued by an independent appraiser in order to derive an approximation of fair value as of the end of the Plan year. The appraisal was based upon a combination of market, future income, and asset-based valuation techniques. The market approach valuation technique used by the appraiser is the direct market data method, which utilizes recent purchase and sale transaction data of other businesses within the same industry. The income valuation technique used by the appraiser is discounted cash flow, which relies on the development of an earnings projection for the Company for a reasonable period of time. The asset-based approach valuation technique used by the appraiser is the adjusted net asset method, which uses the fair market value of the Company's assets and liabilities. These techniques utilize current and historical financial position and projected future earnings, with consideration for certain economic trends and regulatory changes in the industry in which the Company operates.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a preliminary report of estimated per-share value that a participant will receive upon distribution. Management and the Plan administrator approve the report after detailed review and discussion. The results of this process are documented in the minutes of the Plan administrator.

See note 4 for the classification of these assets within the fair value hierarchy.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits Benefits are recorded when paid.

Expenses Certain expenses of administering the Plan may be paid either by the Plan or by the Company. Expenses that are paid by the Company are excluded from these financial statements. These expenses may include legal counsel, investment consultants, recordkeepers, auditors, and other paid providers.

Evaluation of Subsequent Events The Plan has evaluated subsequent events through October 6, 2025, the date the financial statements were available to be issued.

4. FAIR VALUE MEASUREMENTS

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

December 31, 2024	Level 1	Level 2	Level 3	Total
Investment in Company common stock	\$ -	\$ -	\$ 7,166,104	\$ 7,166,104

December 31, 2023	Level 1	Level 2	Level 3	Total
Investment in Company common stock	\$ -	\$ -	\$ 6,916,704	\$ 6,916,704

There were no transfers into or out of level 3 investments for the years ended December 31, 2024 and 2023. The Plan's policy is to recognize transfers into and out of level 3 as of the actual date of the event or change in circumstances.

5. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock. These are related-party and party-in-interest transactions. The Plan has a number of service providers that are considered parties in interest under ERISA.

6. TAX STATUS

The Internal Revenue Service has determined, and informed the Company by a letter dated September 24, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and operating in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified and the related trust is tax exempt.

7. RISKS AND UNCERTAINTIES

Plan investments consist entirely of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the Company common stock and uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the Company common stock will occur in the near term, and that such changes could materially affect the amounts reported on the statements of net assets available for benefits.

The Company is subject to legal proceedings and claims that arise in the ordinary course of business that could have a material adverse effect on the value of the Company stock in future periods.
