Independent Auditor's Report

Baptist Ventures, Inc. 401(k) Plan
Montgomery, Alabama

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Baptist Ventures, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate to the best of their knowledge and belief.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule H, item 4i - schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baptist Ventures, Inc. 401(k) Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 1 - Plan Description

The following description of the Baptist Ventures, Inc. 401(k) Plan (the Plan) provides only general information. Baptist Ventures, Inc. (the Company) is the Plan Sponsor. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan was established for the benefit of all eligible employees of the for-profit subsidiaries of the Company. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility - Employees shall become eligible for the Plan on the date of employment. Employees classified as independent contractors who are subsequently determined by the Internal Revenue Service (IRS) to be employees and employees of subsidiaries who have not specifically adopted this Plan are not eligible to participate in the Plan.

Employer contributions - The Company contributes a matching contribution based on a fixed contribution formula up to 6% of compensation each Plan year into the Health Care Authority for Baptist Health Matching Dollar Plan (a separate plan established by the Company). The fixed matching contribution formula is \$0.35 for every \$1 of the participant's salary reduction for employees with less than 10 years of continuous service and \$0.50 for every \$1 of the participant's salary reduction for employees with 10 or more years of continuous service. For the years ended December 31, 2024 and 2023, the matching contribution was \$111,596 and \$99,527, respectively. Refer to the Plan agreement for the Health Care Authority for Baptist Health Matching Dollar Plan for a more complete description of the provisions of that Plan.

Participant contributions - Participants are automatically enrolled at an automatic elective deferrals percentage of 3% with an automatic increase of 1% annually beginning on the anniversary of the employee's automatic enrollment date, but not in excess of 6% (maximum automatic elective deferrals percentage). Employees and participants have the right to amend the stated automatic elective deferrals percentage. The automatic escalation feature applies to all automatically enrolled employees and participants who have not elected to amend the stated automatic elective deferrals percentage of 3%. Amounts are subject to certain limitations under the Internal Revenue Code (IRC). The Plan allows for Roth deferrals.

Participants who have attained the age of 50 before the end of the Plan year are eligible for catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant accounts - Each participant's account is credited with the participant's contributions and allocations of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon.

Notes receivable from participants - Participants may borrow from their accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms are available from one to five years (10 years for the purchase of a principal residence) with various maturity dates. The loans are secured by the balances in the participants' accounts. For December 31, 2024 and 2023, the interest rate ranges from 4.25% to 9.50%.

Baptist Ventures, Inc. 401(k) Plan
Notes to Financial Statements
December 31, 2024 and 2023

Notes receivable from participants are issued directly from a participant's account. Repayments on the notes are made through payroll deduction. At December 31, 2024 and 2023, there were \$149,886 and \$105,593 in outstanding notes receivable from participants, respectively. Notes receivable from participants at December 31, 2024 and 2023 includes \$9,916 and \$4,277, respectively, of receivables from active participants that have defaulted on repayment, but for which a distributable event, as defined in the Plan document, has not occurred.

Policy loans - Policy loans are issued directly from funds owned by Variable Annuity Life Insurance Company and not directly from a participant's account. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover the outstanding loan, accrued interest, and administrative charges in case of default. Repayments on policy loans are made directly by the participant. Policy loans are not shown in the statements of net assets available for benefits or in the statements of changes in net assets available for benefits. At December 31, 2024 and 2023, there were no policy loans.

Payment of benefits - Upon discontinuance of service due to termination of employment, normal retirement (age 65), early retirement (age 55 and five years of service), death or disability, a participant or his/her beneficiary may elect to receive the value of the vested interest in his/her account. The normal form of payment of benefits is a lump sum. Optional forms of payments the participant can elect to receive are installments, partial withdrawals, or different forms of annuities.

In-service withdrawals are allowed for financial hardships, early retirement (age 55) or age 59½ without requiring the participant to terminate employment.

Forfeited accounts - The Plan does not contain forfeited accounts due to immediate 100% vesting of participant accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan has guaranteed investment contracts with Transamerica Financial Life Insurance Company (TFLIC) and Variable Annuity Life Insurance Company (VALIC), which the Plan Sponsor has determined meet the fully benefit-responsive investment contract criteria and, therefore, are reported at contract value. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. See Note 5 for discussions of the investment contracts.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

**Baptist Ventures, Inc. 401(k) Plan
Notes to Financial Statements
December 31, 2024 and 2023**

Investment valuation and income recognition - Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the Custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2024 and 2023. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the loan is reclassified as a benefit payment to the participant when a distributable event, as defined in the Plan document, occurs.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements.

Note 3 - Certified Investments

The following is a summary of certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, as of December 31, 2024 and 2023, that was obtained by management and agreed to or derived from information certified as complete and accurate, to the best of their knowledge and belief, by State Street Bank and Trust Company, Transamerica Financial Life Insurance Company, Inc., and Variable Annuity Life Insurance Company (the Custodians of the Plan):

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included with Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

Collective investment trust fund - Vanguard Fiduciary Trust Company Target Retirement Trust II: Valued at net asset value based upon the fair values of the underlying net assets of the trusts, as determined by the issuer.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end as reported on the active market.

Collective investment trust fund - Winslow Large Cap Growth: Valued at the NAV of the units held by the Plan at year end based on information provided by the issuer as of year end. The fund's investment objective is long-term capital appreciation by using a fundamental, bottom-up investment process which center on identifying growth companies. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. The NAV per unit of the fund is calculated as of the close of business each business day by dividing the total value of assets, less accrued expenses, and liabilities, by the number of units outstanding. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a withdrawal in excess of 20% of such Plan's investment, the Plan must notify the fund's Trustee directly, in writing, five business days prior to the applicable withdrawal date. The collective investment trust is a direct filing entity.

Note 4 - Fair Value Measurements (continued)

The following tables set forth by Level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Collective investment trusts		\$ 5,125,265		\$ 5,125,265
Mutual funds	\$ 3,708,227			3,708,227
Total assets in the fair value hierarchy	3,708,227	5,125,265		8,833,492
Investments measured at net asset value (a)				146,569
Investments at fair value	\$ 3,708,227	\$ 5,125,265	\$ -	\$ 8,980,061

Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Collective investment Trust		\$ 5,050,091		\$ 5,050,091
Mutual funds	\$ 3,224,894			3,224,894
Total assets in the fair value hierarchy	3,224,894	5,050,091		8,274,985
Investments measured at net asset value (a)				96,577
Investments at fair value	\$ 3,224,894	\$ 5,050,091	\$ -	\$ 8,371,562

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2024 and 2023. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value at December 31, 2024	Fair Value at December 31, 2023	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period

Note 5 - Investment Contracts

The Plan invests in a portfolio of investment contracts with TFLIC and VALIC as shown in the following table:

	<u>2024</u>	<u>2023</u>
Traditional Investment Contracts		
Guaranteed investment contract	\$ 1,279,627	\$ 1,338,606
VALIC fixed account plus	15,144	14,703
VALIC short term fixed account	90	87
Total investment contracts	<u>\$ 1,294,861</u>	<u>\$ 1,353,396</u>

TFLIC guaranteed investment option (TFLIC GIO) - The Plan invests in a stable value product that guarantees principal and interest which has been determined to be fully benefit-responsive. The guarantees are provided through a group annuity contract issued by TLIC. The contract has a portfolio interest rate design in which all deposits are credited with the same interest rate, are credited on a daily basis and there is no set maturity date. The contract issuer is contractually obligated to repay the principal and interest at a specified rate. The declared rate shall be set periodically, but shall not be reduced for a period of at least 12 months following the reset date. The declaration rate may be increased at any time, but a reduction requires 45-day notice. In no event would the declared rate of interest be less than the contracts minimum guaranteed interest rate. The minimum guaranteed interest rate is 1.3%. The TFLIC GIO does not have a maturity date or penalties for qualified participant withdrawals. Certain events within control of the Plan Sponsor could limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) mergers, (2) layoffs, (3) bankruptcy, (4) the creation of a competing fund, (5) employee communications that influence contributions to or withdrawals or loans from the plan option (6) the occurrence of an insolvency event, (7) the disqualification of the plan, and (7) early retirement incentive programs. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

VALIC investment contracts - The Plan invests in investment contracts at VALIC which have been determined to be fully benefit-responsive investment contracts. The VALIC contracts consist of the Portfolio Director Group Fixed and Variable Deferred Annuity Contract. VALIC maintains the contributions in its general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rates that are guaranteed to the Plan, with a minimum guaranteed rate of 3%. There are no reserves against the contract value for credit risk of the contract issuers or otherwise. The crediting interest rates are based on formulas agreed upon with the issuers. Such interest rates are reviewed monthly and reset at least as frequently as monthly.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contracts do not permit the insurance company to terminate the agreements prior to the scheduled maturity dates.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7 - Tax Status

The Plan adopted a nonstandardized form of a pre-approved plan sponsored by Transamerica Retirement Solutions, LLC. The pre-approved plan has received an opinion letter from the IRS dated June 30, 2020, as to the pre-approved plan's qualified status. The pre-approved plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Related Party Transactions

Certain Plan investments are managed by TFLIC and VALIC. State Street Bank and Trust Company, TFLIC, and VALIC are the Custodians of the Plan investments. Therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for investment services are included in net appreciation (depreciation) in fair value of investments. Total Plan recordkeeping fees were \$9,734 and \$10,211 for the years ended December 31, 2024 and 2023, respectively.
