## Independent Auditor's Report

To the Plan Administrator  
MTI Boats Employee Stock Ownership Plan  
Wentzville, Missouri

### ***Opinion***

We have audited the financial statements of MTI Boats Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2024, and the related statement of changes in net assets (deficit) available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of MTI Boats Employee Stock Ownership Plan as of December 31, 2024, and the changes in net assets (deficit) available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of MTI Boats Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about MTI Boats Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of MTI Boats Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about MTI Boats Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Other Matter - Supplemental Schedules Required by ERISA**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j - Schedule of Reportable Transactions, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## Notes to the Financial Statements

### Note 1: Description of Plan

The following description of the MTI Boats Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

#### General

The MTI Boats Employee Stock Ownership Plan (the Plan) was established effective January 1, 2023. The Plan is a defined contribution retirement plan sponsored by MTI Boats, Inc. (the "Company" or "Employer"), intended to constitute an employee stock ownership plan (ESOP) under Section 4975(e)(7) of the Internal Revenue Code (IRC) and as a stock bonus plan, under Section 401(a) of the IRC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by a committee that functions as the Plan administrator; these individuals are the current Board of Directors of the Company. The trust department of an independent third-party bank is the Plan's Trustee.

In 2024, the Plan purchased Company common stock using the proceeds of a note payable to the Company and holds the stock in a Trust established under the Plan (see Note 5).

The Company's bank borrowing is collateralized by the Plan's unallocated shares of MTI Boats, Inc. common stock and is guaranteed by the Company. As the Plan makes principal and interest payments, an appropriate percentage of stock is allocated to eligible participant's accounts. Shares are allocated to each participant's account based upon the individual participant's eligible compensation, as defined, in relation to the total eligible compensation for all participants. The lender has no rights against shares once they are allocated under the Plan. Accordingly, the statement of net assets (deficit) available for benefits and statement of changes in net assets (deficit) available for benefits present separately the shares allocated to participants and the shares not yet allocated.

#### Eligibility

The Plan covers substantially all employees of all members of the Company who meet certain eligibility requirements, including the completion of 1,000 hours of service during a 12-month period from the employee's hire date. Employees enter the Plan coincident with first day of January or July of each Plan Year after the completion of eligibility requirements. The Plan excludes employees covered by collective bargaining agreements, nonresident aliens with no U.S. source income and temporary or leased employees.

#### Employer Contributions

Each Plan year, the Company contributes to the Plan a discretionary amount, as determined by the Company's board of directors. Contributions may be paid in cash, common stock shares of the Company, or other property. The Company's contribution must be established by resolution of the Company's Board of Directors and Paid to the Trust not later than the due date for filing the Company's federal income tax return for that year, including extensions of such date. Contributions are allocated to participants based upon the ratio of the participant's eligible compensation, as defined, to total eligible compensation of all participants. In order to receive an allocation of the Company's contribution, a participant must complete 1,000 hours of service and be employed on the last day of the Plan year, unless termination is a result of death, disability, or retirement. Employee contributions are not permitted by the Plan. Contributions are subject to certain limitations.

## Notes to the Financial Statements

### Note 1: Description of Plan (Continued)

#### Employer Contributions (Continued)

The Company made two employer contributions during the year ended December 31, 2024. The first contribution was recorded and paid in December 2024 totaling \$1,174,211. The second 2024 Plan year contribution was recorded at December 31, 2024 but not paid until April 2025. This second contribution totaled \$1,394,000 and is recorded as the employer contribution receivable on the statement of net assets (deficit) available for benefits at December 31, 2024 and as employer contributions on the statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2024.

#### Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of the shares of the Company's common stock released by the Trustee from the unallocated account, Company discretionary contributions, dividends, Plan earnings, and forfeitures of terminated participants' non-vested accounts. Allocations of Plan earnings are based on the value of Plan assets at the beginning of the Plan year, less forfeitures and withdrawals made during the plan year. Employer contributions, forfeitures, and most of the shares released from the unallocated account are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Company dividends are allocated to each participant's account based on the participant's share of company stock.

#### Vesting

Company contributions, plus actual earnings thereon, vest at a rate of 20% per year starting with the second year of service. A participant is 100% vested after the completion of six years of credited service. Notwithstanding the above, participants shall, however, become 100% vested in the account upon attaining normal retirement age of 65.

#### Forfeitures

The Company allocates forfeited amounts among the remaining participants for the Plan year during which the forfeiture occurs, in the same manner as the allocation of the employer contributions. There were no forfeitures for the year ended December 31, 2024.

#### Distributions

Distributions from the Plan will be made after a participant retires, dies, becomes disabled, or otherwise terminates employment. If a participant's vested account balance does not exceed \$1,000, the Plan administrator will automatically distribute the account balance without the participant's consent. If a participant's vested account balance is between \$1,000 and \$5,000, the distribution will be in the form of a lump sum directly to an IRA established by the Plan administrator. Participants with vested account balances exceeding \$5,000 will only be distributed based on the participant's election; however, if the participant does not elect to receive a distribution of their account balance upon termination, the Plan administrator, has the option to elect to "cash out" as of the Plan year-end.

### Note 1: Description of Plan (Continued)

#### Distributions (Continued)

During the year ended December 31, 2024, the Plan increased the dollar limit for mandatory distributions to individual retirement accounts for balances between \$1,000 and \$5,000 to balances between \$1,000 and \$7,000.

#### Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 years of age with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to their account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

#### Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

#### Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

### Note 2: Summary of Significant Accounting Policies

#### Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

#### Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Management considers the fair value of the investment in MTI Boats, Inc. common stock to be a significant estimate (see Notes 4 and 9). Actual results may differ from these estimates.

# MTI Boats Employee Stock Ownership Plan

## Notes to the Financial Statements

---

### **Note 2: Summary of Significant Accounting Policies** (Continued)

#### **Investment Valuation and Income Recognition**

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value of the shares of Company common stock is determined based on an annual independent appraisal. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### **Allocations**

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

#### **Payment of Benefits**

Benefits are recorded when they become due and payable to participants.

#### **Administrative Expenses**

All expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

#### **Subsequent Events**

The Company has evaluated subsequent events through October 14, 2025, which is the date the financial statements were available to be issued.

# MTI Boats Employee Stock Ownership Plan

## Notes to the Financial Statements

### Note 3: Investments

The Plan's initial investment in Company securities consisted of 100,400 shares of the common stock of MTI Boats, Inc. The shares were acquired on September 24, 2024 for \$970.73 per share. The previous owner purchased certain assets from the Company concurrently with the sale totaling \$852,251 that reduced the share price to \$962.22 per share. The estimated fair market value, determined by independent appraisal as of December 31, 2024 was \$20.21 per share. 2,060 shares were initially allocated on the acquisition date using the \$2,000,000 employer contribution to the Plan as of December 31, 2023. During the Plan year ended December 31, 2024, 360 shares were released to eligible Plan participants.

Investments at fair value are allocated as follows as of December 31, 2024:

	Allocated	Unallocated	Total
Shares of common stock	2,420	97,980	100,400
Cost	\$ 2,346,751	\$ 94,259,739	\$ 96,606,490
Fair value	\$ 48,924	\$ 1,980,160	\$ 2,029,084

### Note 4: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs:

The three levels of the fair value hierarchy are described, as follows:

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

# MTI Boats Employee Stock Ownership Plan

## Notes to the Financial Statements

---

### Note 4: Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments are reported at fair value in the accompanying statement of net assets (deficit) available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at fair value.

*Company Common Stock:* The fair value of the Company common stock held by the Plan is valued at estimated fair value based on an independent third-party appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at estimated fair value as of December 31, 2024:

December 31, 2024	Fair Value Measurements Using:			
	Level 1	Level 2	Level 3	Total
MTI Boats, Inc. common stock	\$ -	\$ -	\$ 2,029,084	\$ 2,029,084
Total	\$ -	\$ -	\$ 2,029,084	\$ 2,029,084

The following table represents the Plan's Level III financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

	2024 Investment in MTI Boats, Inc. Common Stock
Balance, beginning of the year	\$ -
Acquisition of 100,400 shares	96,606,490
Unrealized loss related to assets held at reporting date	(94,577,406)

# MTI Boats Employee Stock Ownership Plan

## Notes to the Financial Statements

---

### Note 5: Notes Payable

In 2024, the Plan entered into a \$94,606,491 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral times the ratio of current year payments plus all future years principal and interest payments. This resulted in 368 shares being released and allocated for the Plan year ended December 31, 2024.

---

2024

MTI Boats, Inc., interest at a rate of 4.37%, first principal and interest payment of \$1,174,211 and thereafter annual principal and interest payments of \$4,313,430 with final payment due on December 31, 2098; secured by unallocated MTI Boats, Inc. common stock purchased with proceeds from this note. Original principal was \$94,606,491 \$ 94,539,278

The scheduled amortization of the loan for the next five years is as follows:

2025	\$ 182,064
2026	190,019
2027	198,323
2028	206,990
2029	216,035
Thereafter	93,545,847
<hr/>	
Total	<u>\$ 94,539,278</u>

### Note 6: Administration of Plan Assets

The Plan's assets, which consist of Company common shares, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, who invests cash received as a result of cash contributions and interest and dividend income, and makes distributions to participants. The Trustee also administers the payment of principal and interest on the loan, which is reimbursed to the Trustee through contributions, as determined by the Company.

The Plan is administered by the Company and certain administrative functions are outsourced to a third-party administrator. Certain officers of the Company are Plan trustees. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

### Note 7: Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 10, 2025 that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the IRC. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax exempt.

### **Note 8: Parties-in-Interest and Related Party Transactions**

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions under ERISA. The plan has a number of service providers. Such parties are parties in interest under ERISA.

### **Note 9: Risks and Uncertainties**

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, boating industry and market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

### **Note 10: Plan Termination**

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions and the regulations of ERISA. Upon such termination of the Plan, the interest of each participant in the Plan will be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination or partial termination of the Plan, and upon complete discontinuance of contributions under the Plan, each Participant shall automatically become 100% vested in all their accounts under the Plan.
