Report of Independent Auditors

The Coca-Cola Company Benefits Committee
The Coca-Cola Company Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Coca-Cola Company Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024, and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted

in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of non-exempt transactions for the year ended December 31, 2024 (referred to as the “supplemental schedule”), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule is presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

THE COCA-COLA COMPANY PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Description of the Plan

General

The Coca-Cola Company Pension Plan (the “Plan”) is a defined benefit pension plan covering substantially all domestic employees of The Coca-Cola Company and certain subsidiaries (the “Company”) and those employees who are U.S. citizens working outside the U.S. and who are employees of certain foreign affiliates and domestic subsidiaries. The Plan is administered by The Coca-Cola Company Benefits Committee (the “Committee”) which, as administrator, has complete control of and sole discretion over the administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Prior to January 1, 2013, the Company or its subsidiaries maintained, among others, the following three pension plans: (1) The Plan; (2) The Coca-Cola Company Cash Balance Pension Plan (the “Pre 2013 Cash Balance Plan”); and (3) The Coca-Cola Refreshments Employees’ Pension Plan (the “CCR Prior Pension Plan”). Effective January 1, 2013, the Plan and the CCR Prior Pension Plan were merged into the Pre-2013 Cash Balance Plan which was renamed as The Coca-Cola Company Pension Plan.

Participants in the Plan on December 31, 2011, may be subject to some, or all the provisions set forth in the Plan document's Plan Addendum. Participants in the CCR Prior Pension Plan on December 31, 2011, may be subject to some or all of the provisions set forth in the CCR Prior Pension Plan Addendum. Participants hired on or after January 1, 2012, are not covered by either of the Addendums.

Lump Sum Expansion

Effective October 1, 2023, the Plan was amended to expand lump sum payment options to all terminated participants. Prior to this date, certain terminated participants did not have access to a lump sum payment option. As part of this initiative, approximately 12,700 terminated participants were provided an election kit to receive a lump sum in 2023.

Pension Benefits

Participants with one or more years of vesting service are entitled to pension benefits. The Plan permits early retirement beginning at age 55 for participants with at least 10 years of vesting service or beginning at age 60.

The Plan allows participants to choose the method of payment under which the pension benefit is paid. The available methods of payment are (1) life annuity; (2) 50% joint and survivor annuity; (3) 75% joint and survivor annuity; (4) 100% joint and survivor annuity; or (5) a single lump sum cash payment.

The Plan has a two-part formula. The first part retains a final average pay structure, where service was frozen as of December 31, 2009, with pay escalating for the lesser of 10 years and frozen as of December 31, 2019. The second part of the formula is a cash balance formula, which commenced January 1, 2010 under which employees received credits based on age, service, pay and interest. Effective July 1, 2012, all employees began receiving a fixed pay credit (as a percentage of eligible income) on an annual basis. As of July 1, 2022, pay credits were increased to a minimum of 5.5% and credited on a monthly basis. Participants previously eligible for an age-based pay credit in excess of the new 5.5% pay credit will transition to the new formula after a period of five years.

Contributions

The Company’s funding policy is to contribute amounts as are necessary to provide assets sufficient to meet the benefits estimated to be paid to Plan participants based on annual actuarial valuations. The Company made no contributions to the Plan for the year ended December 31, 2024. The Plan has met the ERISA minimum funding requirements for 2024 through a funding balance election.

401(h) Account

The Plan includes a medical benefit component to fund a portion of the postretirement benefit obligations for retirees and their eligible dependents in accordance with Section 401(h) of the Internal Revenue Code (“IRC”). A separate account has been established for the Plan in The Coca-Cola Company Master Retirement Trust (the “Master Trust”) for the assets related to the medical benefit component (“401(h) account”). In accordance with IRC Section 401(h), the assets in the 401(h)

THE COCA-COLA COMPANY PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their eligible dependents. These health benefits are subordinate to the retirement benefits provided by the Plan. The obligations for health benefits are not included in this Plan's obligations in the accumulated plan benefits shown in Note 3. Plan participants do not contribute to the 401(h) account. Employer contributions to the 401(h) account are determined annually, are made at the discretion of the Company, and are conditioned upon deductibility.

Plan Termination

The Company has the right, under the Plan, to discontinue its contributions or terminate the Plan at any time. In the event of the termination of the Plan, the Plan provides that the net assets of the Plan are to be set aside first for the payment of vested benefits to retirees and beneficiaries and second to the remaining participants on a pro rata basis. Whether a participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Additional information about the Plan agreement, its eligibility, vesting and benefit provisions, and the PBGC benefit guaranty is contained in the Summary Plan Description or Plan document.

Note 2 – Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Reclassifications

Certain prior year amounts in Note 5 have been reclassified to conform with the current year presentation. These reclassifications had no effect on the previously reported net assets and changes in net assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates (see Note 6).

Valuation of Investments

The Plan, including the 401(h) account, participates in The Coca-Cola Company Master Retirement Trust ("Master Trust") administered by The Northern Trust Company (the "Trustee"). The investment of the Plan is equal to its allocable portion of net assets of the Master Trust. The investments in the Master Trust are stated at fair value (see Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

Plan Expenses

At the discretion of the Committee, all costs and expenses incurred in administering the Plan are paid either by the Company or by the Plan. Expenses paid by the Company are excluded from these financial statements.

Benefit Payments

Benefit payments to participants are recorded in the year in which they are paid.

THE COCA-COLA COMPANY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS

Note 3 – Accumulated Plan Benefits

Accumulated plan benefits are projected future payments that are attributable under the Plan's provisions to services rendered by the employees. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent they are deemed attributable to employee services rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary. These amounts result from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefits information as of December 31 of each Plan year is as follows:

	2024	2023
Vested benefits:		
Participants currently receiving benefits	\$ 2,056,885,561	\$ 2,085,743,660
Other vested benefits	1,492,728,631	1,517,281,896
Total vested benefits	3,549,614,192	3,603,025,556
Non-vested benefits	14,877,516	21,789,681
Total actuarial present value of accumulated plan benefits	\$ 3,564,491,708	\$ 3,624,815,237

Changes in the actuarial present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits at December 31, 2023	\$ 3,624,815,237
Increase (decrease) attributable to:	
Benefits accumulated	51,536,857

Interest due to decrease in the discount period	237,368,857
Benefits paid	(319,552,882)
Assumption changes	(42,547,420)
Net increase (decrease)	(60,323,529)
Actuarial present value of accumulated plan benefits at December 31, 2024	\$ 3,564,491,708

THE COCA-COLA COMPANY PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

The method and significant assumptions used in the December 31, 2024 and 2023 actuarial valuations are as follows:

Method	Unit Credit Cost
Interest rate	6.75% (2024 and 2023)
Mortality basis	2024 and 2023 mortality rates were updated to the Pri-2012 sex distinct tables with separate mortality rates for annuitants, non-annuitants, and contingent survivors. The table is projected with MP-2021 (2024 and 2023) improvement scale, modified to reflect a long-term improvement rate of 0.75%.
Average retirement age	Graduated table of ages between 55 and 70
Commencement of benefits	- Retirement benefit – 75% of participants are assumed to commence immediately and 25% of participants are assumed to commence at social security retirement age. - Deferred vested benefit (active) – 75% of participants are assumed to commence immediately and 25% of participants are assumed to commence at social security retirement age. - Deferred vested benefit (inactive, less than age 62) – Annuities are assumed to commence at the later of age 62 and current age. Lump sums are assumed to commence five years after termination. - Disability benefit – Benefits commence after completion of eligibility for additional cash balance credits due to disability. - Pre-retirement death benefit – Benefits commence at the participant's date of death.

Lump sums were valued using a long-term interest rate of 6% and the substitution of annuity form under Internal Revenue Service ("IRS") Proposed Regulation 1.430(d)-1(f)(4).

The impact of changes in the assumed age(s) that participants are expected to receive a distribution is reflected in the assumption changes in the changes in actuarial present value of accumulated plan benefits noted above.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4 – Information Certified by the Trustee

The investment information regarding the Master Trust (including investment information for the 401(h) account) disclosed in the accompanying financial statements and notes (see Note 5), including investments held at December 31, 2024 and 2023 and net investment gain (loss) from Master Trust for the year ended December 31, 2024, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

Note 5 – The Coca-Cola Company Master Retirement Trust

Master Trust assets are allocated among participating plans by assigning to each plan those transactions (primarily contributions, benefit payments and specific administrative expenses) which can be specifically identified. Income and expenses resulting from the collective investment of the assets of the Master Trust are allocated among all plans (daily) in proportion to the fair value of the assets assigned to each plan.

The Plan's interest in the Master Trust, excluding the 401(h) account, as a percentage of net assets of the Master Trust was 98.19% and 98.33% at December 31, 2024 and 2023, respectively. Investment income is credited to each plan based upon the proportionate share of total Master Trust investments held by that plan.

Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, defines fair value and expanded disclosures about fair value measurements. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also established a fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include certain registered investment companies, certain common stock and preferred stock equities. These investments are traded daily in public markets in the United States and/or other countries. The fair value of these investments is based on the last reported price quoted in an active market on the last day of the plan year.

Investments that trade in markets that are not considered to be actively traded daily, but are valued based on dealer and broker quotations, bid prices, or alternative pricing sources using observable inputs, are classified within Level 2. These include certain U.S. Government and foreign obligations, investment grade corporate bonds and bank loans, less liquid listed securities, certain government agency securities, certain registered investment companies, time deposits, and foreign currency exchange purchase and sales contracts.

Investments classified within Level 3 have significant unobservable inputs or they are not traded at all. These include certain corporate stocks, certain bonds, and insurance contracts. Applicable corporate stocks and bonds categorized as Level 3 utilize unobservable inputs such as extrapolated data points for curves, and mid, bid, ask/offer quotes which are uncorroborated market data obtained from a broker or investment manager. Insurance contracts use unobservable inputs such as estimated contract net asset values ("NAV") and adjustments to NAV based on liquidity issues and are categorized as Level 3 if the redemption is postponed, suspended, or otherwise unavailable for a period of time.

NOTES TO THE FINANCIAL STATEMENTS

- ⁹ This class represents funds investing in companies that have the potential to perform well (the long portfolio) and those that are expected to do poorly (the short portfolio). Investments may include equities in the U.S., international, global or emerging markets.
- ¹⁰ This class represents funds investing primarily in strategies involving options on futures contracts and foreign exchange contracts. Many of these funds employ a discretionary trading strategy to allocate capital to relatively short-term trading opportunities around the world.
- ¹¹ This class represents funds investing primarily in strategies designed to benefit from changes in pricing discrepancies between related securities. The strategies include equity market neutral – statistical arbitrage, convertible arbitrage and fixed income arbitrage.
- ¹² This class represents funds investing primarily in the securities of companies involved in significant transaction events, such as spin-offs, mergers and acquisitions, bankruptcies, recapitalizations and share buybacks.
- ¹³ This class represents funds utilizing short-term, opportunistic trading strategies to capitalize on market fluctuations while utilizing a wide range of instruments (i.e., equities, currencies, commodities, derivatives). The strategies include global macro, trend following and momentum trading.
- ¹⁴ This class represents funds investing in fixed income securities that have the potential to perform well (the long portfolio) and those that are expected to do poorly (the short portfolio). Investments may include corporate issues or structured/securitized exposures in the U.S., international, global or emerging markets.
- ¹⁵ Closed-end funds are generally not eligible for redemption. Distributions from these funds will be received as the underlying assets are liquidated or distributed.
- ¹⁶ Withdrawals from the funds are available quarterly, subject to available cash, as determined by the fund's trustee. To the extent that redemption requests exceed available cash, distributions are prorated based on the Master Trust's interest in the fund. Withdrawals will be processed on a quarterly basis based on calendar quarter-end valuations. Available cash is defined as excess cash after provision for outstanding future capital commitments and other operating reserves.

As of December 31, 2023, the fair value, unfunded commitments and redemption rules of those investments are as follows:

Derivative Financial Instruments

Under the oversight of the Assets Management Committee of the Company, the Master Trust makes use of several investment strategies involving limited use of derivative investments. Consistent with applicable policies and procedures, certain investment managers can use derivatives for various strategies which can include portfolio structuring, interest rate hedging, return enhancement and foreign currency fluctuations. The Assets Management Committee has established a control environment which includes policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities. The objective for holding derivative financial instruments must be consistent with the overall investment strategy for all investments held by the respective investment managers. The Master Trust does not directly hold any derivatives that are designated as hedging instruments for the overall Master Trust portfolio. Changes in the fair value (i.e. gains or losses) of the derivatives are recorded in the line item net investment gain (loss) from Master Trust in the accompanying statement of changes in net assets available for benefits.

The following are the estimated fair values of derivative instruments as of December 31, 2024 and 2023 shown at the gross amounts:

	December 31, 2024		December 31, 2023	
	Gross Assets	Gross Liabilities	Gross Assets	Gross Liabilities
Futures contracts	\$ 44,122,424	\$ (44,122,424)	\$ 1,491,185	\$ (1,491,185)
Foreign exchange contracts	59,749,146	(58,958,363)	75,216,836	(75,677,236)
Total investments at fair value	\$ 103,871,570	\$ (103,080,787)	\$ 76,708,021	\$ (77,168,421)

The notional amounts represent the principal amount, not the amount of risk. The following table presents the notional amounts of derivative instruments as of December 31, 2024 and 2023:

	December 31, 2024	December 31, 2023
Futures contracts	\$ 2,438,359,543	\$ 1,822,972,431
Total notional value	\$ 2,438,359,543	\$ 1,822,972,431

For the years ended December 31, 2024 and 2023, the amount of gain or loss recognized as Master Trust investment gain or loss in the statement of changes in net assets available for benefits attributable to derivative instruments is as follows:

	December 31, 2024	December 31, 2023
Foreign exchange contracts	\$ 425,393	\$ (939,158)
Total gain (loss)	\$ 425,393	\$ (939,158)

Futures Contracts

The Master Trust uses futures contracts to manage exposure to markets. Futures contracts are standardized agreements to buy or sell a specific amount of a financial instrument on a future date for a specified price. Futures contracts are marked to

THE COCA-COLA COMPANY PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

market daily and are valued based upon their quoted daily price. The primary risks associated with futures are the accuracy of the correlation between the value of bonds or equities and the price of the futures contracts.

Foreign Exchange Contracts

The Master Trust had 48 open foreign exchange contracts as of December 31, 2024 with expiration dates through March 2025.

The future value of these derivative financial instruments and the related currency positions are subject to offsetting market risks resulting from foreign currency exchange rate volatility. Current market pricing models were used to estimate the fair values of the foreign currency exchange contracts.

Securities Lending

The Master Trust has an agreement with the Trustee authorizing the Trustee to lend securities held in the Master Trust to third parties. The Trustee must obtain collateral from the borrower in the form of cash, letters of credit issued by an entity other than the borrower, or acceptable securities. At all times, the borrower must maintain cash or equivalent collateral equal in value to at least 102% of the value of securities loaned. Both the collateral and the securities loaned are marked to market daily so that all loaned securities are always fully collateralized. If the loaned securities are not returned by the borrowers, the Trustee will at its own expense either replace the loaned securities or, if unable to purchase those securities on the open market, credit the Master Trust with cash equal to the fair value of the loaned securities. The amount of collateral held under securities lending is reported as an asset and a corresponding liability in the investment in the Master Trust.

The Master Trust and Trustee each receive a percentage of the net income derived from securities lending activities based on the type of securities. Income earned from securities lending activities during the year ended December 31, 2024 was \$18,781,733, net of Trustee fees of \$240,210 and rebates of \$17,820,485.

Although the Master Trust's securities lending activities are collateralized as described above, they involve both market and credit risk. In this context, market risk refers to the possibility that the borrowers of securities will be unable to collateralize the loan upon a sudden material change in fair value of the loaned securities or the collateral. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts.

The fair value of securities loaned by the Master Trust as of December 31, 2024 and 2023:

	December 31, 2024	December 31, 2023
Corporate bonds	\$ 110,601,398	\$ 74,544,449
Government bonds	179,562,444	260,059,965
Total fair value	\$ 290,163,842	\$ 334,604,414

Transactions with Parties-in-Interest

The Plan does not consider Company contributions or benefits accrued or paid for participants as party-in-interest transactions. Fees paid during the year for investment management, auditing, actuarial and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services. Certain investments, managed by The Northern Trust Company, the Trustee as defined by the Plan, qualify as party-in-interest transactions. Investments managed by Willis Towers Watson qualify as party-in-interest transactions as Willis Towers Watson provides actuarial services to the Plan.

The Coca-Cola Company is considered a party-in-interest. As of December 31, 2024 and 2023, the Master Trust held 2,566,157 and 3,189,600, respectively, shares of common stock of The Coca-Cola Company with a fair value of \$159,768,935 and \$187,963,128, respectively. During the year ended December 31, 2024, the Master Trust had dividends received of \$5,585,677. As of December 31, 2024, the Master Trust held corporate bonds of The Coca-Cola Company with a fair value of \$1,265,396. The Master Trust did not hold corporate bonds of The Coca-Cola Company as of December 31, 2023.

THE COCA-COLA COMPANY PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

Note 6 – Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Further, investments in limited partnerships and other alternative investments are not publicly traded and are subject to greater liquidity risk than market traded investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions, if any, are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported in the financial statements and notes.

Note 7 – Income Tax Status

The Plan resulted from the merger of The Coca-Cola Company Pension Plan and the Coca-Cola Refreshments Employees' Pension Plan into The Coca-Cola Company Cash Balance Plan, which was subsequently renamed The Coca-Cola Company Pension Plan. The Coca-Cola Company Pension Plan, which was the largest of the former plans, received its latest determination letter on April 29, 2021 in which the IRS stated that the Plan followed the applicable requirements of the IRC and is, therefore, not subject to tax under present federal income tax laws. The Plan has been amended subsequent to filing the request for the latest determination letter. However, the Plan administrator and the Plan's tax counsel believe the Plan is currently designated and being operated in compliance with applicable laws of the IRC. The Plan sponsor has indicated that it will take the necessary steps, if any, to maintain the qualified tax status of the Plan.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as of December 31 per the financial statements to the Form 5500:

	2024	2023
Net assets available for benefits per the financial statements	\$ 3,775,411,188	\$ 4,049,072,261
Net assets held in 401(h) account included as assets in Form 5500	69,452,781	68,577,545
Net assets available for benefits per Form 5500	\$ 3,844,863,969	\$ 4,117,649,806

The net assets of the 401(h) account included in Form 5500 are not available to pay pension benefits but can be used only to pay retiree health benefits.

The following is a reconciliation of net investment gain (loss) per the financial statements to Form 5500 for the year ended December 31, 2024:

Net investment gain (loss) from Master Trust per the financial statements	\$ 70,394,130
Net increase (decrease) for the 401(h) account	875,236
Administrative expenses reported at Master Trust level	(24,502,321)
Net investment gain (loss) from Master Trust per Form 5500	\$ 46,767,045

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

- Preretirement death benefit

Schedules Three, Four, Five and Six Participants: The later of the death of the active participant or the date the participant would have attained early retirement eligibility.

All other Participants: Benefits commence at the participant's date of death.
- Deferred vested benefit (active on valuation date)

All Participants: Annuities are assumed to commence at later of age 62 and current age. Lump sums are assumed to commence immediately.
- Deferred vested benefit (inactive on valuation date)

Schedules Three, Four, Five and Six Participants: Annuities are assumed to commence at later of age 60 and current age. Lump sums are assumed to commence immediately.

All Other Participants: Annuities are assumed to commence at later of age 62 and current age. Participants that are age 62 or older as of the valuation date have a 25% election rate for each of the four years following the valuation date. Lump sums are assumed to commence five years after date of termination.
- Disability benefit

Basic Plan, Schedule One and Schedule Two Participants: Benefits commence after completion of eligibility for additional cash balance credits due to disability.

Schedule Three Participants: Disabled participants are assumed to commence benefits at earliest unreduced age.

Schedule Four Participants: Immediately, if the participant has 10 years of service upon date of disablement. Otherwise, the later of age 60 or date of disability.

Schedule Five Participants: Same as Deferred vested benefit or Retirement benefit, depending on eligibility at date of disablement.

Schedule Six Participants: Immediately, if participant has 15 years of service upon date of disablement. Otherwise, normal retirement date.
- Retirement benefit

All Participants: Benefits commence immediately.

Lump sums

For funding purposes, these amounts are determined using the yield curve used to calculate target liability. For ASC 960 purposes, these amounts are determined using a long-term interest rate of 6.0%. For both funding and ASC 960 purposes the mortality table used is the prescribed mortality assumption under section 430(h)(3)(A) of the Internal Revenue Code using static tables with combined mortality rates for annuitants and non-annuitants.

Form of payment

Basic Plan Participants:

Under age 55: 95% of participants are assumed to elect a lump sum and 5% are assumed to elect a single life annuity.

Age 55 and older: 85% of participants are assumed to elect a lump sum and 15% are assumed to elect a single life annuity.

Schedule One and Schedule Two Participants:

Under age 55: 95% of participants are assumed to elect a lump sum and 5% are assumed to elect a single life annuity.

Age 55 and older: 75% of participants are assumed to elect a lump sum and 25% are assumed to elect a single life annuity.

For purposes of spousal survivor benefit coverage, 100% of participants are assumed to elect a lump sum.

Schedule Three, Schedule Four, and Schedule Five Participants:

For future retirees, 50% of participants are assumed to elect a single life annuity and 50% are assumed to elect a 50% joint and survivor annuity, if applicable. For purposes of spousal survivor coverage, 100% of participants are assumed to elect 50% joint and survivor coverage.

For Hartford, Naugatuck, and Detroit (hired prior to March 21, 2005 only) participants:

80% of retirement eligible participants and 60% of non-retirement eligible participants are assumed to receive their accrued benefits in the form of a lump sum at the time of termination or retirement. The lump-sum interest rate is assumed equal to the discount rate.

The remaining 20% of retirement eligible participants and 40% of non-retirement eligible participants are assumed to elect an annuity.

All participants with deferred benefits are assumed to receive their accrued benefits as an annuity.

SCHEDULE SB ATTACHMENTS

Schedule Six Participants:

For future retirees, 50% are assumed to elect a lump sum benefit, 25% are assumed to elect a single life annuity and 25% are assumed to elect a 50% joint and survivor annuity. For purposes of spousal survivor benefit coverage, 100% of participants are assumed to elect 50% joint and survivor coverage.

Percent married

For purposes of valuing the pre-retirement surviving spouse's benefit, 90% of eligible participants are assumed to be married.

Spouse age

For purposes of valuing the pre-retirement surviving spouse's benefit, husbands are assumed to be 3 years older than wives.

Plan compensation

Future compensation is determined as:

Sum of (a) and (b) reduced by (c):

- a. Base compensation as of the valuation date
- b. 120% of target bonus (target bonus percentage as of the valuation date times base pay as of the valuation date)
- c. Assumed base pay and bonus deferrals to the Deferred Compensation Plan (assumed to be the same deferral percentages as elected in the prior year)

Each Employee's Compensation that is taken into account under the Plan will be limited to the cost-of-living factor under IRS Code Section 401(a)(17).

Timing of benefit payments

Annuities and lump sums are assumed to be made uniformly throughout the year and, on average, at mid-year.

Decrement Timing

The assumptions used are collectively called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum allowed under IRC Section 401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Methods

Valuation date

First day of plan year

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits were valued with the exception of obligations attributable to reciprocity agreements, which were assumed to have a minimal cost impact.

Sources of Data and Other Information

Employee data was supplied by the employer as of the census date. Data on persons receiving benefits was supplied by the employer. An audit of the data was not made. A check of data was done, reconciling last year's data with the new data. This reconciliation accounted for the changes to the covered population. Data was checked for internal consistency and for consistency with last year's data. All asset data including administrative expenses for 2024 were provided by Northern Trust.

Additionally, the following assumptions were made for missing or apparently inconsistent data elements:

- For participants where the vested terminated benefit cannot be estimated, the average deferred benefit is assumed.
- Where beneficiary date of birth or sex was not provided, an assumption was made based on the participant information.
- For alternate payees whose assigned benefit is not available as of the valuation date, the benefit is assumed to be the average benefit among a similar peer group within the population.
- Due to available data in the administration system as of the valuation date, a cash balance calculation is not readily available for a small number of participants. For such individuals, a cash balance amount is estimated.

These assumptions affected an insignificant number of participants resulting in an immaterial effect on the valuation.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash Balance Interest crediting rate

The plan credits interest to cash balance accounts using 150 basis points plus the discount rate on six-month Treasury Bills (not less than 3.80% minimum for all participants employed on or after July 1, 2022, and all cash balance benefit accrued under Schedule One), determined based on the closing rate on the last business day of September immediately preceding the applicable Plan year.

Initial rate: To determine the benefit obligations under the plan, TCCC sets the initial rate equal to the current cash balance interest crediting rate.

Ultimate rate: TCCC has selected an expected ultimate interest crediting rate that is discount rate minus 140 basis points, reached linearly from the initial rate over a period of 10 years;

Per the provisions of the Plan, the cash balance interest crediting rate shall never be less than 3.80% in any year of the graded schedule developed above for all participants employed on or after July 1, 2022 and cash balance benefits accrued under Schedule One.

	The interest crediting rate assumption is not a long-term best estimate, but is rather based on current market conditions plus an expected long-term spread to the discount rate. We believe that the selected assumption does not significantly conflict with what would be reasonable.
Rates of increase in compensation	Assumed compensation increases were chosen by the plan sponsor and represent an estimate of future experience. Rates were based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. We believe that the assumption chosen does not significantly conflict with what would be reasonable based on current and expected future CPI and GDP growth, taking into account historical variability.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the discount rates assumed are effectively the same as described above for the discount rate.
Expected rate of return on plan assets	We understand that the expected return on assets assumption reflects the plan sponsor’s estimate of future experience for trust asset returns, reflecting the plan’s current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor’s expectations for future market conditions. WTW’s determination that this assumption does not significantly conflict with what would be reasonable is informed by analysis of recent and historical data, including the variability thereof, for CPI, GDP growth, real returns on the various classes of assets held by the trust, recent trends, and expected active management premiums experienced by the trust.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration, and trustee fees to be paid from the trust).

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h). Mortality tables do not reflect mortality improvements beyond the valuation date.
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h). Mortality tables do not reflect mortality improvements beyond the valuation date.

Termination

Termination rates were based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Disability

Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Retirement

Retirement rates were based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Benefit commencement date for deferred benefits:

- Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.
- Deferred vested benefit
Deferred vested participants are assumed to begin benefits at age 62 (or current age if later). This deferment age assumption is based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Lump sums are assumed to commence five years after termination date. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.
- Deferred vested benefit – System of the Future
For Schedule Three, Schedule Four, and Schedule Five participants who terminate employment as part of System of the Future timing of retirement benefits is assumed to be the same as active employees. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods since prior valuation

In addition to the prescribed changes in the discount rate, the only other changes were:

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality tables used to calculate the funding target and target normal cost was changed from using IRS approved Section 430 plan-specific substitute mortality tables to a generational projection as required by guidance issued by IRS under IRC §430.
- The assumed plan-related expenses added to the target normal cost were changed from \$19,000,000 for 2023 to \$13,400,000 for 2024.
- The cash balance interest crediting rate for the Basic Plan and Schedule Two was changed from 5.32% in 2023 to 6.82% in 2024. This rate is trended linearly over 10 years to 3.72%.
- The enhanced retirement rates for certain former union employees benefitting from reciprocity were removed.
- The lump sum/annuity conversion mortality assumption was updated to the table set forth in IRC §417(e)(3) for lump sums for the upcoming plan year.

SCHEDULE SB ATTACHMENTS

Late Retirement

The Participant who retires after his Normal Retirement Date will receive his monthly retirement benefit as of his actual retirement date.

Accrued Benefits

For each year of service, a member's notional cash balance account will be credited as follows:

1. *Pay Credits:* Pay credits will be credited to each member's account balance as follows:

- a. Prior to July 1, 2022: 3.0% of salary (credited annually)
- b. After June 30, 2022: 5.5% of salary (credited monthly)

For member's employed in Puerto Rico, effective January 1, 2021, the notional cash balance account will receive no future pay credits.

2. *Transitional Credits:* A member of the KO Prior Pension Plan who terminated between 1/1/2010 and 12/31/2011, who was subsequently rehired after 1/1/2012, and whose age plus service was greater than or equal to 55 as of 1/1/2010 is credited with an additional 2.0% of his salary for each year of service. Effective July 1, 2022, the transitional pay credit is eliminated.
3. *Interest Credits:* Interest credits will be credited to each member's account balance each month and are based on 150 basis points plus the discount rate on six-month Treasury Bills, determined based on the closing rate on the last business day of September immediately preceding the applicable Plan year. Effective July 1, 2022, a minimum 3.80% interest crediting rate was added for any participant who works an hour of service on or after July 1, 2022.
4. *Transaction Credits:* Certain transferred employees that are part of specified transactions may be eligible for Transaction Credits equal to two times Plan Compensation times the sum of:
 - Pay credit percentage plus
 - Transition credit percentage plus
 - The TCCC maximum 401(k) employer match (3.5%) less the receiving employer's maximum 401(k) match. Note, this final value may be negative.

Early Retirement Benefit

Disability Benefit

Eligibility: Any participant who incurs a disability while still employed and after the participant has completed at least 1 year of vesting service will begin to receive early retirement income or termination benefit on his disability retirement date (no later than third anniversary of his or her becoming disabled).

Benefit: The cash balance account is payable as an immediate lump sum or other actuarially equivalent forms.

Vested Benefits upon Termination of Service

Vesting: Participants will become fully vested upon completion of 1 year of vesting service. Certain transferred employees that are part of specified transactions under System of the Future and other transactions will become 100% vested upon the date of the closing when they are transferred.

Benefit: The cash balance account is payable as an immediate lump sum or other actuarially equivalent forms.

Death Benefits for Participants in Active Service

Eligibility: Death while eligible for early, normal, late, disability or vested retirement benefits.

Benefit: The cash balance account is payable as an immediate lump sum or other actuarially equivalent forms.

Optional Forms of Retirement Income in Lieu of Normal Form

1. Joint and 50% survivor annuity
2. Joint and 75% survivor annuity
3. Joint and 100% survivor annuity
4. Lump Sum

The actuarial equivalence basis for these optional forms of payment is the Revenue Ruling 2001-62 Mortality Table and an interest rate of 7%. For conversion between the normal form and lump sum, the actuarial equivalence basis is the applicable mortality table and the interest rates specified by Code Section 417(e)(3) for September of the year preceding the plan year the payment is made. The lump sum for the cash balance benefit is the value of the balance at commencement.

Disability Service

Computed in whole and partial years beginning on the date that a disabled participant's regular compensation ceases and continuing until the earlier of the participant's recovery date or benefit commencement date. Periods during which the participant is eligible for Social Security disability are excluded.

Plan Compensation

Participant's wages for purposes of income tax withholding plus all pre-tax salary deferrals made to any §401(k), §125, or §132(f). Compensation excludes amounts paid or deferred under a nonqualified deferred compensation plan or any other formal incentive arrangement, severance payments, tuition, relocation, and other expense reimbursements, taxable income from stock option transactions, and restricted stock transactions, welfare benefits, cash and noncash fringe benefits, extraordinary remuneration associated with international assignment, and most wages received after the Participant's date of termination. Plan Compensation is limited to \$150,000 (\$200,000 after December 31, 2001) as adjusted annually by a cost-of-living factor under IRS Code Section 401(a)(17).

Final Average Compensation/Salary

The average of the highest five consecutive years of Plan Compensation during eleven consecutive plan years ending with the year of termination or retirement (inclusive). The averaging period is limited to the number of years in which vesting service is granted.

Normal Retirement Benefit

Normal Retirement Date: The first of the month on or after the date the Participant reaches age 65

Benefit: Accrued Benefit determined as of Normal Retirement Date.

Late Retirement

The Participant who retires after his Normal Retirement Date will receive his monthly retirement benefit as of his actual retirement date.

Accrued Benefits

The accrued benefit of a participant shall be equal to the sum of Portion A plus Portion B:

Portion A (defined as a monthly annuity):

One-twelfth (1/12) of the greater of (1) and (2), minus (3):

1. The sum of (a), (b), and (c) :
 - a. 1.5% of Average Compensation multiplied by the years of Disability Service.
 - b. 1.1% of Average Compensation plus .4% of Average Compensation in excess of Covered Compensation multiplied by each year of Benefit Service up to 35 years.
 - c. 1.45% of Average Compensation multiplied by the years of Benefit Service in excess of 35 years.
2. \$60 multiplied by the sum of the years of Benefit Service and Disability Service.
3. Retirement Benefits from other plans to which the company contributes, including any annuity purchase under a prior plan.

Benefit Service and Disability Service were frozen on December 31, 2009. Average Compensation and Covered Compensation is frozen as of December 31, 2019.

Portion B (defined as a lump sum):

A member's notional cash balance account will be credited with the following percentage of salary:

Age	Prior to July 1, 2022 (Credited Annually)	July 1, 2022 – June 30, 2027 (Credited Monthly)	After July 1, 2027 (Credited Monthly)
Under 35	3.0%	5.5%	5.5%
35 - 39	4.0%	5.5%	5.5%

Grandfathering Eligibility: For participants who met early retirement eligibility as of December 31, 2009, the accrued benefit is the maximum of the benefits described above (A plus B) and the A Portion without the freeze on Service and Average Compensation.

Early Retirement Benefit

Eligibility: The first of the month on or after the earlier of:

- a. age 55 with completed 10 years of service, or
- b. age 60

Benefit: **Portion A**
The accrued monthly benefit determined as of Early Retirement Date reduced by 3.0% for each year prior to age 62 that the benefit commenced. Participants who elect to receive their benefit as a lump sum will receive the present value to this reduced annuity benefit.

Portion B
The cash balance account as of termination may be received as an immediate lump sum or it may be converted to an actuarially equivalent annuity.

Bridge Benefit
Participants that commence benefit prior to age 62 are eligible to receive a temporary income of \$18 multiplied by the sum of the years of Benefit and Disability Service as of January 1, 2010 (or as of date of retirement for participants who are eligible for early retirement as of January 1, 2010). The temporary benefit will end on the earlier of :

- a. The first of the month of death of the participant, or
- b. First of the month that the participant becomes eligible to receive social security benefits.

Solely for purposes of this Bridge Benefit, Benefit and Disability Service will include all years of service at retirement for active participants in the Atlanta Bev Base and Cidra locations as of October 15, 2013 (unless such participant is employed in Puerto Rico, in which case Benefit Service for the Bridge Benefit is frozen effective January 1, 2021)

Disability Benefit

Eligibility: Any participant who incurs a disability while still employed and after the participant has completed at least 1 year of vesting service will begin to receive early retirement income or termination benefit on his disability retirement date.

Benefit:

Portion A

Accrued benefit as of the participant's normal retirement date if the participant remains disabled until normal retirement date or termination date. Service will be determined as of January 1, 2010 (unless the participant meets the grandfathering eligibility.)

Portion B

Employees who are disabled on or before December 31, 2009 will receive pay credits to their cash balance account for as long as they remain disabled. Employees who are disabled on or after January 1, 2010, will receive pay credits to their cash balance account for a maximum of three years, after which they will be terminated.

The total accrued benefit as of termination may be converted to an immediate lump sum or an actuarially equivalent annuity.

Vested Benefits upon Termination of Service

Vesting:

Participants will become fully vested on the earlier of age 60 and completion of 5 years of vesting service. For terminations on or after January 1, 2010 and on or before June 30, 2022, the service requirement will be reduced to 3 years. Associates transferring to bottlers as a part of System of the Future or another specified transactions will also be immediately vested. For terminations on or after July 1, 2022, the service requirement will be reduced to 1 year.

Termination Benefit:

Portion A

Monthly accrued benefit formula determined as of the participant's termination date reduced by 4.8% for each year from age 55 to 65 and reduced further to the age that the benefit commences using the plan's actuarial equivalence.

Portion B

The cash balance account as of termination may be received as an immediate lump sum or it may be converted to an actuarially equivalent annuity.

Death Benefits for Participants in Active Service

Eligibility:

Death while eligible for early, normal, late, disability or vested retirement benefits.

Benefit:

The beneficiary of the deceased participant will receive the accrued benefit, reduced as follows:

Portion A

Lump sum value of the participant's unreduced accrued benefit, payable as if the participant had terminated immediately prior to death.

Portion B

The cash balance account is payable as an immediate lump sum. Actuarially equivalent forms of payment are available.

Optional Forms of Retirement Income in Lieu of Normal Form

1. Joint and 50% survivor annuity
2. Joint and 75% survivor annuity
3. Joint and 100% survivor annuity
4. Lump sum

The actuarial equivalence basis for these optional forms of payment is the Revenue Ruling 2001-62 Mortality Table and an interest rate of 7%. For conversion between the normal form and lump sum for both Portion A and Portion B, the actuarial equivalence basis is the applicable mortality table and the interest rates specified by Code Section 417(e)(3) for September of the year preceding the plan year the payment is made. For participants with a Portion A benefit who are early retirement eligible, the lump sum is calculated as the present value of the immediate annuity. For participants with a Portion A who are not yet early retirement eligible, but have more than 10 years of vesting service, the lump sum is calculated as the present value of deferred to age 55 annuity. For all other participants with a Portion A, the lump sum is calculated as the present value of the deferred to age 60 annuity. The lump sum for Portion B is the value of the balance at commencement.

2008 – 2011 Involuntary Termination Retirement Enhancement Program (ESP) and 2015 – 2016 Special Separation Program (SSP)

TCCC is providing an enhanced benefit to eligible individuals who are involuntarily terminated as a result of a company reorganization who were at least age 50 and had attained 10 years of vesting service. The enhanced benefits for participants who terminated under the program are reflected in this valuation.

The Coca-Cola Company Pension Plan (for benefits accrued under the CCR Prior Pension Plan)

Effective date and most recent amendment

The plan was originally effective January 1, 1997. The merged plan was originally effective January 1, 2012 and restated for the merging of plans, effective January 1, 2013. Most recent amendment was dated March 2023.

Plan year

The twelve-month period ending December 31.

Eligibility

All non-union employees who are classified as eligible employees, including non-union employees of the Philadelphia Coca-Cola Bottling Company and employees of Odwalla as of December 31, 2011. Effective January 1, 2012, the plan is closed to new hires and rehires.

Participation

Earlier of (i) or (ii).

- (i) An eligible employee who was a participant under a predecessor plan as of the merger date shall be a participant under this plan as of the merger date.
- (ii) First day of the month coinciding with or following the later of the employee's 18th birthday, the completion of one year of eligibility service, or the first day on which the employee became an eligible employee.

Certain transferred employees that are part of specified transactions will become plan participants upon the date of the closing when they are transferred.

Eligibility service

An employee shall be credited with one year of eligibility service for all periods of service commencing with the employee's first day of employment or reemployment and ending on the employee's termination date.

Benefit service

A participant shall be credited with one month of benefit service for each month (i) for which he is credited with at least one hour of service (received pay) and (ii) during which he is an eligible employee in the year of eligibility service. Special rules apply for employees who participated prior to January 1, 2001 or terminated prior to 2001.

No benefit service shall be credited to any participant on or after January 1, 2011.

Vesting service

For services performed before January 1, 2011, one year is credited for each calendar year in which an employee earned pay during six months. This includes all periods of employment with CCR or any predecessor company.

Effective January 1, 2011, vesting service is based on elapsed time.

Total earnings

Base pay, overtime, commission, bonus, vacation, sick pay, and pre-tax contributions to the Deferred Compensation Plan and flex plans.

Final average earnings

Average of the highest three consecutive complete calendar years' Total Earnings of the last ten calendar years prior to retirement or termination. Pay earned on or after January 1, 2011 is disregarded in calculating Final Average Earnings.

Final average earnings benefit

1.15% of Final Average Earnings times years of Benefit Service.

A minimum accrued benefit applies to employees who were participants in a predecessor plan. The minimum accrued benefit is equal to the sum of the employee's frozen accrued benefit determined under the predecessor plan as of the merger date, plus the new plan formula applied to service on and after the date the predecessor plan merged into the CCR plan.

Effective January 1, 2011, benefits ceased to accrue under the formula described above. Benefits are instead accrued based on the cash balance formula described below.

Non-union employees of the Philadelphia Coca-Cola Bottling Company have a frozen accrued benefit determined as of December 31, 2011. Beginning on January 1, 2012, these participants began to accrue based on the cash balance formula described below.

Cash balance account

The sum of pay credits, transition credits, interest credits, temporary credits, and transaction credits.

Pay credits

Pay credits begin January 1, 2011 and are equal to a percent of Total Earnings based on the table below:

Age	Prior to July 1, 2022 (Credited Annually)	After July 1, 2022 (Credited Monthly)
Under 35	3.0%	5.5%
35-49	4.0%	5.5%
50+	5.0%	5.5%

Prior to July 1, 2022, pay credits are based on the participants' age as of December 31 and are credited as of the last day of the plan year, or on the last day of the month of termination, if earlier. After July 1, 2022, pay credits are credited monthly.

Transition credits

Transition credits are granted for years 2011-2017. Participants are eligible for transition credits if, as of January 1, 2011, their age plus vesting service is greater than or equal to 70 or they are age 50 with at least 10 years of vesting service. In addition a participant must be actively employed or on disability on January 1, 2011 to be eligible for transition credits. Transition credits are equal to a percent of Total Earnings based on the table below:

Age plus Vesting Service	Transition Credit
60-69	3%
70-79	6%
80+	9%

Transition credits are posted to a participant's account as of December 31, or as of the last day of the month of termination, if earlier.

Interest credits

Interest credits are posted to the participant's account monthly. Interest is based on the account balance at the beginning of the month.

Prior to January 1, 2013, the annual interest crediting rate is 3%. Effective January 1, 2013, the annual interest crediting rate is the six-month U.S. Treasury bill yield in effect on September 30 of the prior plan year, plus 150 basis points.

In no event shall the participant's Cash Balance Account be less than the participant's Cash Balance Account as of December 31, 2012 with such Cash Balance Account credited with 3% interest credits until the participant's annuity start date.

Effective July 1, 2022, the minimum annual interest crediting rate for active employees is 3.80%.

Temporary Credits

The 2013 and 2014 Pay Credits and Transition Credits shall be increased by 2.75% and 4.50% to make up for the reduction in the 2013 and 2014 Interest Crediting Rates for participants that remain active until December 31, 2013 and December 31, 2014, respectively.

Transaction Credits

Certain transferred employees that are part of specified transactions may be eligible for Transaction Credits equal to two times Total Earnings times the sum of:

- Pay credit percentage plus
- Transition credit percentage plus
- The TCCC maximum 401(k) employer match (3.5%) less the receiving employer's maximum 401(k) match. Note, this final value may be negative.

Normal retirement

Eligibility — Normal Retirement Age (NRA) is based on year of birth:

Year of Birth	NRA
Prior to 1938	65
1938 – 1954	66
After 1954	67

Final Average Earnings Benefit — Accrued benefit at NRA.

Early retirement

Eligibility — Age 55 with 1 year of Vesting Service.

Final Average Earnings Benefit — The accrued benefit payable at NRA is reduced 5/9% for each of the first 60 months and 5/18% for each month thereafter that early retirement benefit payments begin before NRA (factors are rounded to three digits). The predecessor plan early retirement factors are applied to the predecessor plan accrued benefit.

For 2009 and 2010 hires, as well as participants hired prior to January 1, 2011 and actively employed at the Brandon, Florida location on October 15, 2015, early retirement factors will be based on provisions under Schedule One – KO Prior Pension Plan.

Cash Balance Annuity Benefit — The benefit payable upon early retirement is equal to the actuarial equivalent of the participant's cash balance account.

Supplemental early retirement

Eligibility — A participant must be between ages 55 and 62 when they retire and their age plus vesting service (both expressed in years and completed months) must equal 60 years or more on July 1, 1993 (Rule of 60). In addition, the participant must be credited with at least ten years of vesting service as of their early retirement date. Lastly, the participant must be part of a business acquired by the employer prior to January 1, 2000.

Benefit — Temporary monthly supplemental early retirement benefit is equal to vesting service times the dollar amount shown below. This benefit is payable until age 62.

Years of Vesting Service	Dollar Amount
10 – 19	\$6
20 – 29	12
30 or more	18

Special proration rules apply for participants who satisfy Rule of 56 to Rule of 59. As part of an early retirement window, participants who terminate between July 1, 2001 and June 30, 2002 or between May 1, 2005 and April 30, 2006 will be eligible for this benefit even if they have not attained age 55 when they terminate.

Participants active in the plan at January 1, 2011 are eligible to receive the supplemental early retirement benefit equal to \$18 times frozen vesting service at December 31, 2010. This benefit is available as a lump sum.

Late retirement

Eligibility — Retirement after NRA.

Final Average Earnings Benefit — The greater of the final average earnings accrued benefit calculated as of the late retirement date, or the final average earnings accrued benefit determined as of the normal retirement date actuarially increased to the date of late retirement.

Cash Balance Annuity Benefit – The benefit payable upon late retirement is equal to the actuarial equivalent of the participant's cash balance account.

Disability retirement

Eligibility — Three years of vesting service and receiving company-provided LTD or Social Security disability benefits.

Final Average Earnings Benefit — Normal retirement benefit based on continued accrual of benefit service to the earlier of December 31, 2010 or NRA. Total Earnings during disability is assumed equal to Total Earnings in the calendar year prior to disability.

Cash Balance Annuity Benefit — The benefit payable upon disability retirement is the actuarial equivalent of the participant's cash balance account. No more than five years of pay and transition credits, if eligible, will be credited after December 31, 2010 for participants who become disabled prior to January 1, 2011. No more than three years of pay and transition credits, if eligible, will be credited after December 31, 2010 for participants who become disabled January 1, 2011 and after. Pay and transition credit, if eligible, based on Total Earnings for the calendar year prior to the year of disability.

Deferred vested benefit

Eligibility — Generally, 1 year of Vesting Service. Certain transferred employees that are part of specified transactions will be 100% vested in their benefits upon the date of the closing when they are transferred.

Final Average Earnings Benefit — Accrued benefit at termination, payable at NRA. Reduced benefit available at age 55 using early retirement reduction factors. Participants who terminate on or after July 1, 2010 may elect to receive an immediate annuity that is the actuarial equivalent of the NRA accrued benefit.

Cash Balance Annuity Benefit, if eligible — The benefit payable upon deferred vested retirement is equal to the actuarial equivalent of the participant's cash balance account.

For Marmora, Moorestown, and Philadelphia:

Before October 1, 2012, one year for each 12 month period ending on September 30 in which the employee completes 1,000 hours of service.

After September 30, 2012 and before January 1, 2013, 0.25 years of Benefit Service is credited with at least 250 hours worked.

After December 31, 2013, one year is granted for each Plan Year in which the employee completes 1,000 hours of service.

For Duluth, Maryland Heights, St. Louis, and Youngstown:

Benefit service for employment covered by the Teamsters Central States Pension Fund is equal to Contributory and Non-Contributory Credit earned under that plan.

Vesting Service

Generally, one year of Vesting Service is credited if the employee works one hour or more in at least five months during a calendar year, starting from date of hire.

Certain transferred employees that are part of specified transactions under System of the Future will become 100% vested upon the date of the closing when they are transferred.

For Certain Hourly (Lansing):

After January 1, 1989, one year for each calendar year in which an employee completes 1,000 hours of service. Vesting Service earned under a prior plan on December 31, 1988 is included in this plan.

For Detroit:

On or after March 19, 1975, one year for each calendar year in which an employee completes 1,000 hours of service. Vesting Service earned under a prior plan on March 18, 1975 is included in this plan.

For Hartford and Naugatuck:

One year for each calendar year in which an employee completes 750 hours of service.

For Marmora, Moorestown, and Philadelphia:

Before October 1, 2012, one year for each calendar year in which an employee completes 1,000 hours of service.

After December 31, 2013, one year is granted for each Plan Year in which the employee completes 1,000 hours of service.

Additionally, one year of service shall be granted for each of the following periods during which the employee completes 1,000 hours of service: October 1, 2012 through September 30, 2013, and January 1, 2013 through December 31, 2013.

Accrued Benefit

For each year of Benefit Service, a monthly amount is accrued. This amount varies by union local. See Plan Provisions for Specific Union Locals.

Normal retirement

Eligibility — Age 65.

Benefit — The Accrued Benefit earned as of the Normal Retirement Date.

Early retirement

Eligibility — Generally, age 55 and 5 years of Vesting Service. Other eligibility conditions vary by union local. See Plan Provisions for Specific Union Locals.

Benefit — Accrued Benefit is generally reduced for early retirement. The reduction varies by union local. See Plan Provisions for Specific Union Locals.

Late retirement

Eligibility — Retirement after eligibility for normal retirement.

Benefit — The greater of the Accrued Benefit calculated as of the late retirement date or the Accrued Benefit calculated as of the normal retirement date actuarially increased to the late retirement date.

Disability Retirement

Eligibility — Eligibility varies by union local. See Plan Provisions for Specific Union Locals.

Benefit — Benefit amount varies by union local. See Plan Provisions for Specific Union Locals.

Deferred Vested Benefit

Eligibility — Generally, age 55 and 5 years of Vesting Service. Other eligibility conditions vary by union local. See Plan Provisions for Specific Union Locals.

Benefit — Accrued Benefit is generally reduced for early retirement. The reduction varies by union local. See Plan Provisions for Specific Union Locals.

Increased benefit for certain participants (Hartford and Naugatuck)

Eligibility — Retirement after age 57 and 22 years of Benefit Service.

Benefit — Accrued Benefit is increased by approximately 5% for each year after reaching age 57 and 22 years of Benefit Service. Increases cease upon age 64. Benefit accruals are limited, as necessary, to conform to the IRS accrual rules.

Pre-retirement death benefit

Eligibility — Fully vested and married.

Benefit — If the participant dies prior to retirement and has a qualified spouse, the surviving spouse is eligible to receive a death benefit, the amount of which varies by union local. See Plan Provisions for Specific Union Locals. If the participant was not eligible for early retirement at the time of death, the benefit may be payable to the spouse on the date when the participant would have become eligible. If the participant was eligible for early retirement at the time of death, the benefit may be payable immediately.

Employee contributions

Hartford and Naugatuck:

The predecessor plan required employee contributions for participation prior to February 1, 1995.

All other union locals:

None.

Normal form of benefit

Generally, single life annuity or, if married, actuarially equivalent 50% Joint and Survivor Annuity. The normal form may vary by union local. See Plan Provisions for Specific Union Locals.

Optional forms of benefit in lieu of normal form

Generally, the following optional benefit forms are available:

1. Life Annuity
2. 10 Year Certain and Life Annuity
3. Joint and 100% Survivor Annuity
4. Joint and 75% Survivor Annuity
5. Joint and 50% Survivor Annuity
6. Lump Sum

Other optional forms may be available for certain union locals.

Generally, the actuarial equivalence for these optional forms of payment is the 1983 GAT mortality tables with an interest rate of 5.0%. For Detroit participants, the actuarial equivalence basis for annuities is the 1971 Group Annuity Mortality Table and an interest rate of 7%. For participants at Detroit, Hartford, and Naugatuck, a lump sum optional form is also available. For such participants who are early retirement eligible, the lump sum is calculated as the present value of the immediate annuity. Otherwise, the lump sum is calculated as the present value of the deferred to normal retirement benefit. For Detroit participants, the actuarial equivalence basis is specified by Code Section 417(e)(3), with interest rates from October of the year preceding the plan year the payment is made. For Hartford and Naugatuck participants, the actuarial equivalence basis for determining the lump sum value is the 1984 Unisex Pension Mortality Table and an interest rate of 7%.

The Coca-Cola Company

Plan

The Coca-Cola Company Pension Plan (for benefits accrued under the Midwest Coca-Cola Bottling Company Pension Plan for Bargaining Employees)

Effective date and most recent amendment

The plan was originally effective January 1, 1997, restated most recently as of January 1, 2002, and most recently amended effective August 6, 2018. Effective December 31, 2022, the plan was merged into The Coca-Cola Company Pension Plan. The most recent amendment was dated March 2023.

Plan Year

The twelve-month period ending December 31st.

Eligibility

Employees of The Coca-Cola Company who are members of Teamsters Local #792.

Eligible employees begin to participate on the first of the month after completing one year of service and attaining age 21.

Benefit service

One month for each month of employment in which the employee works at least one hour as an employee covered by this plan.

Benefit service granted for employment prior to January 1, 1991 is equal to Contributory and Non-Contributory Credit under the Teamsters Central States Pension Fund.

Vesting service

One year of vesting service is credited if the employee works one hour or more in at least five months during a calendar year.

Vesting service granted for employment prior to January 1, 1991 is equal to the vesting service and non-contributory service credited under the Teamsters Central States Pension Fund.

Certain transferred employees that are part of specified transactions under System of the Future will become 100% vested upon the date of the closing when they are transferred.

Employees transferred as part of specified transactions under System of the Future will continue earning vesting service as long as they continue employment with their new employer.

Accrued benefit

For each year of Benefit Service, a monthly amount is accrued as shown on the table below. The total accrued benefit is offset by the benefit accrued under the Teamsters Central States Pension Fund.

Benefit service

One year of benefit service for each calendar year with 1,600 hours. 300 hours for any month in which the employee would be credited with one hour worked for service credited on or after June 1, 2003. Partial years of service granted are in accordance with the following schedule.

Worked	Years of Benefit Service
1,600 or more	1.0
1,200-1,600	0.8
800-1,200	0.6
400-800	0.4
<400	0.0

Vesting service

One year of vesting service is credited if the employee works 750 hours or more during a Plan Year.

Certain transferred employees that are part of specified transactions under System of the Future will become 100% vested upon the date of the closing when they are transferred.

Employees transferred as part of specified transactions under System of the Future will continue earning vesting service as long as they continue employment with their new employer.

Accrued benefit

The accrued benefit is equal to the Total Accrued Benefit less the Prior Plan Pension. The Total Accrued Benefit is equal to the following Applicable Amount multiplied by years of Benefit Service credited during the periods shown in the table below:

For Years of Benefit Service Credited	Applicable Amount
Before 1/1/2005	\$81
1/1/2005 – 12/31/2005	
If the Participant's date of termination is before June 1, 2005	\$81
If the Participant's date of termination is on or after June 1, 2005	\$83
1/1/2006 and later years	
If the Participant's date of termination is before June 1, 2006	\$83

Benefit Service

Each calendar year during which a participant earns at least 1,800 hours of service. Partial years of benefit service can be credited in the amount of 1/10 year of benefit service for each 180 hours, and 1/10 years of benefit service for any remaining of at least 90 (if the calendar year is the year of employment, termination or retirement or at least 1,000 hours of service was earned).

Any non-vested participant who incurs a five-year break in service will lose all his credited benefit service earned prior to the five-year break.

Employees of the Truesdale Plant will be credited with 1/12 of a year of service for each month beginning on March 28, 2003 in which the participant is credited with at least one hour of service as an employee eligible to participate in the Plan.

Benefit service will not be credited for any period during which the participant earned vested accrued benefit under any other retirement plan to which the Company or any Affiliated Company contributed.

Vesting Service

Each calendar year during which a participant earns at least 1,000 hours of service. If a participant fails to complete at least 1,000 hours of service, partial years are credited as 1/10 year for each 100 hours of service completed in calendar years of employment, termination or retirement.

Any non-vested participant who incurs a five-year break in service will lose all his credited vesting service earned prior to the five-year break.

Normal Retirement Benefit

Normal Retirement Date:

The first of the month on or after the date the Participant reaches age 65.

Monthly Benefit:

Accrued Benefit determined as of Normal Retirement Date

Late Retirement

Early Retirement Benefit

Eligibility:

Truesdale Plant Employees

The first of the month on or after the participant reached age 55 and completed 5 years of service. For participants transferring to Refresco in October 2021, eligibility is age 55 only.

All others

The first day of the month on or after date the participant reaches age 60 and completed 15 years of vesting service.

Monthly Benefit:

Truesdale Plant Employees

The accrued benefit at normal retirement is reduced by five-ninths of one percent (5/9 of 1%) for each of the first 60 months and five-eighteenhs of one percent (5/18 of 1%) for each of the next 60 months by which retirement precedes age 65.

All others

Monthly retirement benefit determined as of the early retirement date reduced 7.2% for each year that the participants benefit commencement date precedes the normal retirement date.

Disability Benefit

Eligibility:

Any participant who incurs a total and permanent disability while still employed and after the participant has completed at least 15 years of vesting service will begin to receive retirement income on his disability retirement date in the amount of the normal retirement benefit unreduced.

Monthly Benefit:

Vested Benefits Upon Termination of Service

<u>Vesting:</u>	Participants will become fully vested on the earlier of age 60 and completion of 5 years of vesting service. All participants transferring to Refresco in October 2021 are immediately vested.
<u>Termination Benefit:</u>	Monthly accrued benefit determined as of the participant's termination date reduced for early retirement for each year prior to age 65 that the benefit commenced.

Death Benefits for Participants in Active Service

<u>Eligibility:</u>	If the participant dies while eligible for early, normal, late, disability or vested retirement benefits, with a surviving spouse or non-spouse beneficiary (on or after early retirement date).
<u>Monthly Benefit:</u>	The surviving spouse of the deceased participant will receive the retirement income equal to the applicable percentage of the reduced actuarial equivalent amount payable to the participant as the 50% survivor benefit as of the first day of the month on or after the participant's normal retirement date or on the first day of the month on or after the participant's early retirement date.

Optional Forms of Retirement Income in Lieu of Normal Form

1. Straight Life Annuity
2. Joint and 50% survivor annuity
3. Joint and 75% survivor annuity
4. Joint and 100% survivor annuity
5. Lump Sum

The actuarial equivalence for these annuity optional forms of payment is the Revenue Ruling 2001-62 Mortality Table and an interest rate of 7%.

For conversion between the normal form and lump sum, the actuarial equivalence basis is the applicable mortality table and the interest rates specified by Code Section 417(e)(3) for September of the year preceding the plan year the payment is made.
