Asset and Liability Statement

1

Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☒ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **CROWE LLP**

(2) EIN: **35-0921680**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		8500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☐ Yes ☒ No

REPORT OF INDEPENDENT AUDITORS

To the Benefits Administrative Committee of
Lyondell Chemical Company a Delaware Corporation
and Plan Administrator of LyondellBasell Pension Plan
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements

We have performed an audit of the financial statements of LyondellBasell Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements (2024 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2024 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024, and for the year then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the 2024 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section

- the amounts and disclosures in the accompanying 2024 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion on the 2024 financial statements.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Auditor's Report on the 2023 Financial Statements

Predecessor auditors performed an audit of the 2023 financial statements of LyondellBasell Pension Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated September 26, 2024, indicated that (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

LYONDELLBASELL PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

1. Description of Plan

General – The LyondellBasell Pension Plan (“LBPP” or the “Plan”) is a defined benefit plan for non-represented employees of Lyondell Chemical Company (“Lyondell” or “Company”) and its US-based affiliates and subsidiaries (“participating employers”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Participants should refer to the Plan document for a complete description of the Plan provisions.

Pension Benefits – Eligible employees become participants in the Plan immediately upon employment and are fully vested in their benefits upon the earlier of completion of three years of service, death or attainment of age 65 while employed. With respect to the Plan benefits accrued prior to January 1, 2009, participants are entitled to monthly pension benefits upon retiring on or after the normal retirement age of 65, as defined in the Plan document, and with respect to most participants, the Plan also permits early retirement at a reduced benefit level for participants retiring after reaching age 55 with ten or more years of service as defined in the Plan. If a participant is vested but terminates employment prior to eligibility for normal or early retirement, the participant is eligible for a deferred pension benefit commencing at age 65 or, if the participant terminates with ten or more years of membership service, as early as age 55, subject to reduction for early commencement. Participants receive these accumulated plan benefits as a monthly benefit or in an optional form available under the Plan. These benefits accrued through December 31, 2008 were calculated using the Plan’s final average pay benefit formula as defined in the Plan document.

Benefits accrued from and after January 1, 2009 are calculated using the Plan’s cash balance benefit formula as defined in the Plan document. The cash balance formula credits dollar amounts as a percentage of pay (pay credits) and at a stated interest rate (interest credits). Certain participants (“Grandfathered Members”) are entitled to additional pay credits (“Transition Credits”) under the cash balance formula based on age and benefit service on December 31, 2008 or December 31, 2009, as described in the Plan document. Vested benefits accrued from January 1, 2009 are payable upon separation from service as a monthly benefit or in an optional form available under the Plan.

Death Benefits – If a participant dies, any death benefits are paid to the participant’s beneficiary, as described in the Plan document.

Contributions – LBPP contributions are made by Lyondell and the participating employers. Participant contributions are not permitted under the terms of the Plan.

Administration – The Plan is administered by the Benefits Administrative Committee (“BAC”). TELUS is the Plan’s recordkeeper and WTW is the Plan’s actuary. Plan assets are maintained in the LyondellBasell Master Trust (“Master Trust”) under the custody of The Bank of New York Mellon (“Trustee”). Management of portfolio assets is directed by investment managers hired and monitored by the Benefits Finance Committee (“BFC”). Both the BAC and BFC consist of individuals appointed by the Lyondell Board of Directors.

LYONDELLBASELL PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Presentation of Currency – Amounts are expressed in dollars unless otherwise noted.

Use of Estimates – The preparation of the Plan’s financial statements in conformity with U.S. GAAP requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits at the date of the financial statements, the changes in net assets available for benefits and changes in accumulated plan benefits during the reporting period, and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – A separate account for the Plan is maintained by the Master Trust reflecting the Plan’s share of the Master Trust. Interest in the Master Trust is determined on a monthly basis and is based upon the beginning of the month value of the Plan’s interest in the Master Trust plus actual contributions and allocated investment income (loss), less actual distributions and an allocation of administrative expenses. Investments of the Master Trust are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The BFC determines the Plan’s valuation policies utilizing information provided by the investment managers and Trustee. See Note 9 for discussion of fair value measurements.

From time to time the Master Trust’s investment managers may use derivative financial instruments including forward exchange contracts and future contracts. Derivative instruments are used primarily to mitigate exposure to foreign exchange rate and interest rate fluctuations as well as manage the investment mix in the portfolio. The Master Trust’s interest in funds which utilize such financial instruments is not considered significant to the Plan’s financial statements.

Purchases and sales of securities by the Master Trust are accounted for on a trade date basis (the date the order to buy or sell is originated). Gains or losses on the sale or distribution of securities are computed on a first-in, first-out basis. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned. The net appreciation or depreciation in the fair value of investments, which consist of the realized gains or losses and the unrealized appreciation or depreciation on those investments, is included in “Investment income (loss) from the LyondellBasell Master Trust” in the Statements of Changes in Net Assets Available for Benefits.

Interest and dividends earned, net appreciation or depreciation in the fair value of investments, and expenses incurred under the collective investment accounts of the Master Trust are allocated to the Plan based upon the average monthly investment balance in the Master Trust of each plan participating in the trust.

Risks and Uncertainties – The Master Trust invests in a combination of common and preferred stock, fixed income securities, bank common and commingled funds, short-term investments, open ended real estate funds, hedge funds, private equity funds, convertible securities, U.S. government securities, and cash and cash equivalents. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Changes in the values of investment securities will continue to occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

LYONDELLBASELL PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

Benefits Paid to Participants – Benefits are paid by the Plan and are recorded when paid.

Administrative Expenses – Certain administrative expenses are paid by the Plan and the Company. Administrative expenses paid by the Master Trust and allocated to the Plan were \$4,437,721 and \$5,189,459 for the years ended December 31, 2024 and 2023, respectively, and are included in “Investment income (loss) from the LyondellBasell Master Trust” in the Statements of Changes in Net Assets Available for Benefits.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, which are attributable under the Plan’s provisions to the service that employees have rendered, as of the beginning of the plan year. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits payable under all circumstances, including retirement, death, and termination of employment, are included to the extent that the circumstances are deemed attributable to employee services rendered up to the valuation date.

The 2023 actuarial present value of accumulated plan benefits was determined by WTW. The actuarial method used to determine the present value of accumulated plan benefits is the unit credit actuarial cost method. The more significant assumptions underlying the actuarial valuation are as follows:

	<u>December 31, 2023</u>
Investment return	7.25% per year
Interest rate	7.25% per year
Mortality table	Pri-2012 separate employee/annuitant/ contingent survivor healthy mortality tables for males and females, projected generationally using sex-distinct Scale MP-2021
Assumed average retirement age	63 years of age

The increase attributable to changes in actuarial assumptions was due to an increase to the interest crediting rate and updated mortality assumptions.

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based upon certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change.

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTES TO THE FINANCIAL STATEMENTS

4. Funding Policy

The funding policy of the Company is to satisfy legal minimum funding requirements, with the discretion to make additional contributions from time to time. Fluctuations in the return (interest, dividends, and net appreciation or depreciation in fair value) on investments of the Plan from the assumed rate serve to reduce or increase the future contributions required to provide for the benefits defined under the Plan.

Contributions for the years ended December 31, 2024 and 2023 were \$22,200,000 and \$24,600,000, respectively, as determined by the Plan's actuaries, and met the minimum funding requirements under ERISA and the Internal Revenue Code (the "Code"), each as amended by the Pension Protection Act.

5. Plan Termination

Although it has not expressed any intention to do so, Lyondell has the right, under the terms of the Plan document, to discontinue benefit accruals at any time and to terminate the Plan, subject to the applicable provisions of ERISA and the Code.

Participants' retirement allowances under the Plan are insured to the extent required by law through the Pension Benefit Guaranty Corporation ("PBGC"). If the Plan were to be terminated, priorities of payment of benefits would be made in accordance with the requirements of ERISA and the Code.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

6. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated April 27, 2021, that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. U.S. GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions of the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan and related Master Trust are designed in accordance with applicable sections of the Code. The BAC believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, that the related trust is tax-exempt. Accordingly, no provision is made for federal income taxes.

7. Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements are complete and accurate:

- Plan interest in the Master Trust, at fair value, excluding accrued administrative expenses of \$1,255,220 and \$736,521 at December 31, 2024 and 2023, respectively
- Investment income from the Master Trust
- Investment amounts as shown in Note 8 and Note 9

NOTES TO THE FINANCIAL STATEMENTS

8. Interest in LyondellBasell Master Trust

The Master Trust is a pooled investment trust composed of the beneficial interests of certain participating defined benefit plans (“Master Trust Plans”) of Lyondell and certain of its subsidiaries and affiliates. The Master Trust consists of a portfolio of investments in a combination of common and preferred stock, fixed income securities, bank common and commingled funds, short-term investments, open ended real estate funds, hedge funds, private equity funds, convertible securities, U.S. government securities, and cash and cash equivalents.

Plans participating in the Master Trust do not own specific securities or other assets in the Master Trust but have an undivided interest in the Master Trust. The Plan holds a 93.1% and 93.6% undivided interest in the Master Trust at December 31, 2024 and 2023, respectively. Investment income (loss) related to the Master Trust is allocated to the Master Trust Plans based upon each plan’s average monthly investment balance in the Master Trust.

The net assets of the Master Trust as of December 31, 2024 are as follows:

9. Fair Value Measurements

ASC 820, *Fair Value Measurements*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally-developed market assumptions. In accordance with ASC 820, fair value measurements are classified using the following hierarchy:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.

Level 3 – Model-derived valuations in which one or more significant inputs or significant value-drivers are unobservable.

When available, quoted market prices are used to determine fair value and such measurements are classified within Level 1. In some cases where market prices are not available, observable market based inputs are used to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon internally-developed models that use, where possible, current market-based parameters such as interest rates, yield curves and currency rates. These measurements are classified within Level 3.

Fair value measurements are classified according to the lowest level input or value-driver that is significant to the valuation. A measurement may therefore be classified within Level 3 even though there may be significant inputs that are readily observable.

Changes in Fair Value Levels – Management reviews the disclosures regarding fair value measurements annually at year end. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified as Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which cases it is reclassified as Level 3.

LYONDELLBASELL PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

Valuation methodologies used for major investment types measured at fair value include:

Common and preferred stock – Valued at the closing price reported on the active market on which the individual securities are traded.

Fixed income securities – Certain securities that are not traded on an exchange are valued at the closing price reported by pricing services. Other securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Commingled funds – Valued based upon the net asset values of units of such commingled trust funds held by the Master Trust at year end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from, or corroborated by, observable market data by correlation or other means.

Real estate – Valued based upon the net asset value of units of the real estate fund or partnership held by the Master Trust at year end.

Hedge funds – Valued based upon the unit values of such alternative investments held by the Master Trust at year end. Unit values are based on the fair value of the underlying assets of the fund.

Private equity – Valued based upon the unit values of such alternative investments held by the Master Trust at year end. Unit values are based on the fair value of the underlying assets of the fund. Certain securities held in the fund are valued at the closing price reported on the exchange or other established quotation service for over-the-counter securities. Other assets held in the fund are valued based on the most recent financial statements prepared by the fund manager.

Convertible securities – Valued at the quoted prices for similar assets or liabilities in active markets.

U.S. government securities – Certain securities, including Separate Trading of Registered Interest and Principal of Securities (“STRIPS”), are valued at the closing price reported on the active market on which the individual securities are traded.

Cash and cash equivalents – Valued at the quoted prices for identical assets or liabilities in active markets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

* In accordance with Fair Value Measurement Topic 820, Subtopic 10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The net asset value (“NAV”), as provided by the Trustee, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The amounts presented in this table are intended to facilitate reconciliation to the Financial Statements.

NOTES TO THE FINANCIAL STATEMENTS

10. Related-Party and Party-in-Interest Transactions

The Plan, through its interest in the Master Trust, holds shares of short-term investment and S&P Index funds managed by Mellon Capital, a subsidiary of The Bank of New York Mellon, the Trustee of the Plan. These transactions fall under the definition of a party-in-interest transaction; however, the Company does not believe that they give rise to prohibited transactions under ERISA.

11. Commitments and Contingencies

The Plan is subject to commitments and contingencies arising from the ordinary course of business to which the Plan is a party. It is management's belief that the ultimate resolution of these commitments and contingencies will not have a material adverse impact on the Plan's financial statements.

12. Subsequent Events

The Company has evaluated subsequent events through October 15, 2025, the date the financial statements were available to be issued.

Economic Assumptions

Interest rate basis

- Applicable month September
- Interest rate basis 3-Segment Rates

Interest rates

	Reflecting Stabilization	Not Reflecting Stabilization
• First segment rate	4.75%	3.62%
• Second segment rate	4.87%	4.46%
• Third segment rate	5.59%	4.52%
• Effective interest rate	5.09%	4.42%

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates and may be inconsistent with other economic assumptions used in the valuation.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. We are not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third-party administrator, furnished participant data as of January 1, 2024 for the LyondellBasell Pension Plan. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made when data was not available. These assumptions were communicated to LyondellBasell Industries in a letter dated August 22, 2024.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest accumulation rate	Cash balance interest accumulation rate is based on the recent yield from the security used by the plan to determine interest accumulation; it has been set equal to the 30-Year Treasury rate as of November 30 preceding the valuation date.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the interest rate.
Plan-related expenses	Plan-related expenses are based on the prior year expenses paid from the trust, adjusted (if material) for expected changes in the upcoming year (including, for example, expected PBGC premiums and actuarial, accounting, legal administration and trustee fees to be paid from the trust).
Rates of increase in:	
• Compensation	The salary increase assumption is based on an experience study undertaken by Mercer using LyondellBasell Retirement Plan experience from January 1, 2013 through January 1, 2018. The resulting assumption balances the plan’s historical experience (adjusted for expectations of future inflation and national real wage increases).

- **Assumed return for asset smoothing**

We understand the expected investment return represents the plan sponsor's estimate of future experience for the trust asset returns net of plan expenses. The assumed return was chosen by the client with the help of their investment advisers for the 2024 plan year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Disabled Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination

LBPP, Former Basell and Cain: Termination rates were based on an experience study conducted by Mercer in 2018, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Other Former Consolidated: Termination rates were based on an experience study conducted by Aon in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

We believe the assumptions selected do not significantly conflict with what would be reasonable because they reflect plan experience and the plan sponsor's expectations regarding future participant behavior.

Disability

Disability rates were based on an experience study conducted by Mercer in 2018, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Other Former Consolidated: Retirement rates were based on an experience study conducted by Aon, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Benefit commencement date for deferred vested benefits

LBPP, Former Basell and Cain: Deferred vested participants' assumed commencement ages were based on an experience study conducted by Mercer in 2018, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Other Former Consolidated: Deferred vested participants' assumed commencement ages were based on an experience study conducted by Aon, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Spouse age

The assumed age differences for spouses were based on an experience study conducted by Mercer in 2018 combined with best estimates for future experience with consideration given to whether any conditions have changed that would be expected to produce different results in the future.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was changed from using a static projection of mortality improvement to a generational projection and the base table was updated as required by guidance issued by IRS under IRC §430.

SCHEDULE SB ATTACHMENTS

The cash balance interest accumulation rate increased from 3.80% to 4.54%.

The assumption for statutory limits on compensation and inflation was decreased from 3.00% to 2.70%.

The assumed plan-related expenses added to the target normal cost were changed from \$9,323,000 for the prior valuation to \$9,523,000 for the current valuation to account for higher expected expenses to be paid from the trust driven primarily by PBGC premiums.

Change in methods since prior valuation

No method changes have occurred since the January 1, 2023 valuation.

Statement by Enrolled Actuary	
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

- Applicable month September
- Interest rate basis 3-Segment Rates

Interest rates

	Reflecting Stabilization	Not Reflecting Stabilization
• First segment rate	4.75%	3.62%
• Second segment rate	4.87%	4.46%
• Third segment rate	5.59%	4.52%
• Effective interest rate	5.09%	4.42%

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates and may be inconsistent with other economic assumptions used in the valuation.

- Expected investment return 7.25% for plan year 2023 and 2024

Other economic assumptions

- 417(e) lump sums
Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.

Plan-related expenses

\$9,523,000; Expected administrative expenses (assumed to equal prior year administrative expenses but adjusted for PBGC premiums, with current year PBGC premiums replacing prior year) discounted with the effective interest rate to the beginning of the year are included in normal cost.

Demographic Assumptions

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. We are not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third-party administrator, furnished participant data as of January 1, 2024 for the LyondellBasell Pension Plan. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made when data was not available. These assumptions were communicated to LyondellBasell Industries in a letter dated August 22, 2024.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest accumulation rate	Cash balance interest accumulation rate is based on the recent yield from the security used by the plan to determine interest accumulation; it has been set equal to the 30-Year Treasury rate as of November 30 preceding the valuation date.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the interest rate.
Plan-related expenses	Plan-related expenses are based on the prior year expenses paid from the trust, adjusted (if material) for expected changes in the upcoming year (including, for example, expected PBGC premiums and actuarial, accounting, legal administration and trustee fees to be paid from the trust).
Rates of increase in:	
• Compensation	The salary increase assumption is based on an experience study undertaken by Mercer using LyondellBasell Retirement Plan experience from January 1, 2013 through January 1, 2018. The resulting assumption balances the plan’s historical experience (adjusted for expectations of future inflation and national real wage increases).

- **Assumed return for asset smoothing**

We understand the expected investment return represents the plan sponsor's estimate of future experience for the trust asset returns net of plan expenses. The assumed return was chosen by the client with the help of their investment advisers for the 2024 plan year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Disabled Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination

LBPP, Former Basell and Cain: Termination rates were based on an experience study conducted by Mercer in 2018, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Other Former Consolidated: Termination rates were based on an experience study conducted by Aon in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

We believe the assumptions selected do not significantly conflict with what would be reasonable because they reflect plan experience and the plan sponsor's expectations regarding future participant behavior.

Disability

Disability rates were based on an experience study conducted by Mercer in 2018, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Retirement

LBPP, Former Basell and Cain: Retirement rates were based on an experience study conducted by Mercer in 2018, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Other Former Consolidated: Retirement rates were based on an experience study conducted by Aon, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Benefit commencement date for deferred vested benefits

LBPP, Former Basell and Cain: Deferred vested participants' assumed commencement ages were based on an experience study conducted by Mercer in 2018, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Other Former Consolidated: Deferred vested participants' assumed commencement ages were based on an experience study conducted by Aon, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Form of payment

LBPP, Former Basell and Cain: Form of payment elections were based on an experience study conducted by Mercer in 2018 combined with best estimates for future experience with consideration given to whether any conditions have changed that would be expected to produce different results in the future.

Other Former Consolidated: Form of payment elections were based on an experience study conducted by Aon combined with best estimates for future experience with consideration given to whether any conditions have changed that would be expected to produce different results in the future.

Percent married

The assumed percentage married were based on an experience study conducted by Mercer in 2018 combined with best estimates for future experience with consideration given to whether any conditions have changed that would be expected to produce different results in the future. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Spouse age

The assumed age differences for spouses were based on an experience study conducted by Mercer in 2018 combined with best estimates for future experience with consideration given to whether any conditions have changed that would be expected to produce different results in the future.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was changed from using a static projection of mortality improvement to a generational projection and the base table was updated as required by guidance issued by IRS under IRC §430.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective May 1, 1987 and was most recently restated effective as of December 31, 2021 and amended on May 16, 2022 to reflect the settlement of retiree obligations through an annuity buyout.

Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Status of the former Consolidated Pension Plan	The former Consolidated Pension Plan contains provisions for numerous discontinued operations. This report only includes a summary of the Consolidated Pension Plan's provisions for groups with active employees (Millennium Corporate, Millennium Petrochemicals, Cain Chemical Inc. Pension Plan, and Basell Pension Plan), all of which are frozen except for the former Basell Pension Plan (accruing for those participating before May 1, 2006).
Significant events that occurred during the year	The plan was amended to purchase annuities for certain in-pay participants with monthly benefits less than \$2,050, transferring their obligation to the chosen insurer.

Plan Benefits

Normal Retirement	Single life annuity which is actuarially equivalent to the Account Balance at the time of payment.
Early retirement benefit	Same as retirement at normal retirement date, based on account balance at commencement date.
Death with Survivor benefit	The spouse of a deceased member of the plan may receive the member's entire Account Balance as a lump sum or as a monthly single life annuity equal to the survivor portion of a 50% joint and survivor annuity, whichever is greater. Other beneficiaries may receive the account balance only as a lump sum.
Forms of payment	Benefits may begin at any time after termination of employment with vested benefits for any reason other than death. Optional forms of payment are lump sum, single life annuity, and joint and survivor annuity (50%, 75% or 100%). Normal form of payment for married participants is 50% joint and survivor annuity. All forms of payment are calculated as the Actuarial Equivalent of the participant's account balance.
Actuarial equivalence for lump sums prior to December 1, 2016 and after December 31, 2018	PPA mortality and interest rates equal to the average of the 3-tiered minimum present value segment rate for the third, fourth and fifth months immediately preceding the first day of the calendar quarter during which the lump sum payment occurs.
Actuarial equivalence for lump sums after November 30, 2016 and before January 1, 2019	PPA mortality and interest rates equal to the second month immediately preceding the first day of the calendar year during which the lump sum payment occurs (with protection of actuarial equivalence basis above).

Disability on or after July 1, 2002

Normal retirement benefit determined as of the earlier of a participant's recovery from disability if they are not reemployed with LyondellBasell, or their benefit determined one year from the date of disability.

Death with deferred survivor benefit The amount the member's spouse would have received if the member had terminated employment on the date of death, survived to the earliest date that a deferred allowance could have commenced, retired with a 50% joint and survivor annuity with the spouse or other designated beneficiary as beneficiary and died the next day. Benefits are payable to the spouse, if married, or the most recent designated beneficiary (or estate, if no designation) if not married.

Death with survivor benefit The amount the member's spouse would have received if the member had retired on the date of death and elected an immediate 50% joint and survivor annuity with the member's spouse or other designated beneficiary as beneficiary and died the next day. Benefits are payable to the spouse, if married, or the most recent designated beneficiary (or estate, if no designation) if not married.

Forms of Payment Survivor benefits may be paid in one of the following forms:

- i. an annuity beginning at the member's earliest retirement age or later
- ii. an actuarially equivalent single cash payment as soon as practicable after the date of death
- iii. an annuity beginning as soon as practicable after the date of death

If a participant is unmarried, the benefit is payable to the beneficiary or estate only as an actuarially equivalent single cash payment as soon as administratively possible.

The normal form of payment for monthly pension benefits is a life annuity with a 60-payment guarantee if the member has no spouse as of the date payments begin, or a 50% joint and survivor annuity if the member is married at the date payments begin.

Optional forms of payment for members prior to July 1, 2002 include:

- i. reserve benefit option
- ii. joint & survivor annuity (100%, 75%, 50%, 25%)
- iii. 120- or 240-months certain and life annuity or a life only annuity
- iv. lump sum payment
- v. level income option

Disability on or after July 1, 2002

Normal retirement benefit determined as of the earlier of a participant's recovery from disability if they are not reemployed with LyondellBasell, or their benefit determined one year from the date of disability.

Survivor benefits

Service on or before June 30, 2002 – the amount the surviving spouse would have received if the participant had terminated and elected an immediate 50% joint and survivor benefit the day before his or her death.

Service on or after July 1, 2002 – the amount the surviving spouse would have received if the member had terminated on his or her date of death, survived to their earliest retirement age (age 55 if more than 10 years of service, age 65 otherwise), elected an immediate 50% joint and survivor annuity, and died the next day

These benefits may be paid in one of the following forms:

- (a) an annuity beginning at the member's earliest retirement age or later;
- (b) an actuarially equivalent lump sum payment as soon as practicable after the date of death;
- (c) an annuity beginning as soon as practicable after the date of death.

If a participant is unmarried, the benefit is payable to the beneficiary or estate only as an actuarially equivalent single cash payment as soon as administratively practicable.

Forms of payment

Survivor benefits are payable only as described above. Monthly pension benefits are paid in the form of a five-year certain and life annuity if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid as a 50% joint and survivor annuity.

Optional forms of payment:

- (i) Single life annuity
- (ii) joint & survivor annuity (100%, 75%, 50%)
- (iii) 120- or 240-months certain and life annuity (if member before June 30, 2002)

Benefit The accrued benefit determined at retirement based on member's age and service at retirement.

Deferred vested

Eligibility Five years of continuous service.

Benefit The accrued benefit determined as of the date of termination payable at 65 or at early retirement age with a reduction. If commencement age precedes age 65 the benefit is reduced 6-2/3% per year.

Disability

Eligibility Participant on long term disability.

Benefit The accrued benefit determined as of the earlier of a participant's recovery from disability if not re-employed or normal retirement age.

Pre-retirement death

Eligibility Five years of continuous service.

Benefit Life annuity payable to the spouse only. Payment commences on the later of date of death or the date the participant would have reached early retirement age. Benefit is calculated as if the participant had terminated on the date of death, survived to earliest commencement date and commenced receiving a 55% joint and survivor benefit.

Other provisions

Normal form of benefits Survivor benefits are payable only as described above. Monthly benefits are paid in the form of a single life annuity if the member has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid as a 55% joint and survivor annuity.

Optional forms of payment Single life annuity. Joint and survivor annuity (100%, 75% and 50%).

Plan Provisions

Effective date and plan year	Original plan: April 30, 1987 Restated plan: January 1, 2011 Plan year: Calendar year
Status of the plan	Effective after July 31, 1988, the plan has frozen benefit accruals and new employees are not eligible to participate in the plan.
Significant events that occurred during the year	None.

Definitions

Eligible employees	All non-union employees of Cain Chemical, Inc. as of the plan effective date. Thereafter, any employee will become a participant upon the first of the month on or after the latest of: (a) the effective date; (b) the date he becomes an eligible employee; or (c) the date the employee attains age 21. No employee will become a participant in this plan after the plan freeze date of July 31, 1988.
Vesting service	Full year is credited for any plan year during which the participant has completed at least 1,000 hours of service.
Benefit service	Service amount was frozen as of July 31, 1988 and credited according to provisions of participant's prior plan.
Accrued benefit	Effective July 31, 1988, the plan was frozen, and no future accrual of benefits is allowed. Furthermore, all participants were fully vested in their accrued benefits. Prior to the July 31, 1988 freeze of the plan, the benefit accrued as follows: Annual benefit equal to the greater of A, B, or C, where: A. = 1.2% of final average pay times benefit service B. = 1.5% of final average pay times benefit service less 50% of the Primary Social Security Benefit C. = \$108 times years of benefit service plus 2/3% of final average pay times years of benefit service (maximum of 15). For each participant who was employed by the employer on July 31, 1988, an additional benefit of 0.5% times benefit service greater than

Deferred vested termination

Vested portion of the accrued benefit payable based on the amount of service at termination as shown in the table below:

<u>Years of vesting service</u>	<u>Age when payment may begin</u>	
	<u>Reduced benefit</u>	<u>Unreduced benefit</u>
Less than 5	Not available	65 and over
5 through 14	55 through 64	65 and over
15 through 29	50 through 64	65 and over
30 or more	50 through 59	60 and over

The benefit is reduced 5/12% per month by which the payments precede the time at which the participants are eligible for unreduced vested retirement benefits.

The prior plan offset is reduced for early commencement according to the table for prior plans in the "Early retirement" section. If commencement occurs before the prior plan offset benefit is available, the offset amount is reduced from earliest available age to commencement age on an actuarially equivalent basis, using UP-84 mortality set back two years and a 6.5% interest assumption.

Disablement

Immediate commencement of the participant's accrued benefit plus a supplement equal to the greater of 50% of the Primary Social Security Benefit or \$90 per month. The supplement is only payable until Social Security benefits become payable.

Preretirement death

The spouse's benefit is equal to the benefit that would have been payable had the participant retired just before death and elected a 50% joint and survivor annuity. This is payable on the date the participant would have been eligible for retirement, reduced for early commencement.

Special surviving spouse benefit

An employer-provided pension benefit will be payable to the specific survivor (spouse, minor children, parents or stepparents in given order) for that survivor's life (or until attainment of age 21 if beneficiary is a minor child). The benefit will be equal to 0.5% of the participant's average monthly compensation multiplied by years of benefit service but not less than \$4 per year of benefit service plus 4% of average monthly compensation. This benefit will be reduced if the survivor is more than five years younger than the participant, or in the case of a retiree, if the retirement benefit has been reduced on account of early retirement.

Forms of payment

Normal form of payment Surviving spouse and disability benefits are payable only as described above. Monthly pension benefits are paid in the form of a life annuity if the member has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid under the 50% joint and survivor option.

Optional forms of payment Single life annuity.

Joint & survivor annuity (100%, 75%, and 50%).

Social Security income-levelling option based on age 62 commencement of Social Security benefits.

Lump sum for Conoco portion of benefit.

Actuarial equivalence for optional forms of payment 1984 Unisex Pension mortality table set back 2 years and an interest rate of 6.50% - for all forms except SSLIO and Conoco lump sum.

For SSLIO and Conoco lump sum, use PPA mortality and interest rates equal to the average of the 3-tiered minimum present value segment rates for the third, fourth and fifth months immediately preceding the first day of the calendar quarter during which the benefit commences, reflecting the appropriate phase-ins.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective May 1, 1987 and was most recently restated effective as of December 31, 2021 and amended on May 16, 2022 to reflect the settlement of retiree obligations through an annuity buyout.

Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Status of the former Consolidated Pension Plan	The former Consolidated Pension Plan contains provisions for numerous discontinued operations. This report only includes a summary of the Consolidated Pension Plan's provisions for groups with active employees (Millennium Corporate, Millennium Petrochemicals, Cain Chemical Inc. Pension Plan, and Basell Pension Plan), all of which are frozen except for the former Basell Pension Plan (accruing for those participating before May 1, 2006).
Significant events that occurred during the year	The plan was amended to purchase annuities for certain in-pay participants with monthly benefits less than \$2,050, transferring their obligation to the chosen insurer.

Plan Benefits

Normal Retirement	Single life annuity which is actuarially equivalent to the Account Balance at the time of payment.
Early retirement benefit	Same as retirement at normal retirement date, based on account balance at commencement date.
Death with Survivor benefit	The spouse of a deceased member of the plan may receive the member's entire Account Balance as a lump sum or as a monthly single life annuity equal to the survivor portion of a 50% joint and survivor annuity, whichever is greater. Other beneficiaries may receive the account balance only as a lump sum.
Forms of payment	Benefits may begin at any time after termination of employment with vested benefits for any reason other than death. Optional forms of payment are lump sum, single life annuity, and joint and survivor annuity (50%, 75% or 100%). Normal form of payment for married participants is 50% joint and survivor annuity. All forms of payment are calculated as the Actuarial Equivalent of the participant's account balance.
Actuarial equivalence for lump sums prior to December 1, 2016 and after December 31, 2018	PPA mortality and interest rates equal to the average of the 3-tiered minimum present value segment rate for the third, fourth and fifth months immediately preceding the first day of the calendar quarter during which the lump sum payment occurs.
Actuarial equivalence for lump sums after November 30, 2016 and before January 1, 2019	PPA mortality and interest rates equal to the second month immediately preceding the first day of the calendar year during which the lump sum payment occurs (with protection of actuarial equivalence basis above).

Disability on or after July 1, 2002

Normal retirement benefit determined as of the earlier of a participant's recovery from disability if they are not reemployed with LyondellBasell, or their benefit determined one year from the date of disability.

Death with deferred survivor benefit The amount the member's spouse would have received if the member had terminated employment on the date of death, survived to the earliest date that a deferred allowance could have commenced, retired with a 50% joint and survivor annuity with the spouse or other designated beneficiary as beneficiary and died the next day. Benefits are payable to the spouse, if married, or the most recent designated beneficiary (or estate, if no designation) if not married.

Death with survivor benefit The amount the member's spouse would have received if the member had retired on the date of death and elected an immediate 50% joint and survivor annuity with the member's spouse or other designated beneficiary as beneficiary and died the next day. Benefits are payable to the spouse, if married, or the most recent designated beneficiary (or estate, if no designation) if not married.

Forms of Payment Survivor benefits may be paid in one of the following forms:

- i. an annuity beginning at the member's earliest retirement age or later
- ii. an actuarially equivalent single cash payment as soon as practicable after the date of death
- iii. an annuity beginning as soon as practicable after the date of death

If a participant is unmarried, the benefit is payable to the beneficiary or estate only as an actuarially equivalent single cash payment as soon as administratively possible.

The normal form of payment for monthly pension benefits is a life annuity with a 60-payment guarantee if the member has no spouse as of the date payments begin, or a 50% joint and survivor annuity if the member is married at the date payments begin.

Optional forms of payment for members prior to July 1, 2002 include:

- i. reserve benefit option
- ii. joint & survivor annuity (100%, 75%, 50%, 25%)
- iii. 120- or 240-months certain and life annuity or a life only annuity
- iv. lump sum payment
- v. level income option

Optional forms of payment for all other members include:

Normal retirement benefit determined as of the earlier of a participant's recovery from disability if they are not reemployed with LyondellBasell, or their benefit at normal retirement date.

Disability on or after July 1, 2002

Normal retirement benefit determined as of the earlier of a participant's recovery from disability if they are not reemployed with LyondellBasell, or their benefit determined one year from the date of disability.

Survivor benefits

Service on or before June 30, 2002 – the amount the surviving spouse would have received if the participant had terminated and elected an immediate 50% joint and survivor benefit the day before his or her death.

Service on or after July 1, 2002 – the amount the surviving spouse would have received if the member had terminated on his or her date of death, survived to their earliest retirement age (age 55 if more than 10 years of service, age 65 otherwise), elected an immediate 50% joint and survivor annuity, and died the next day

These benefits may be paid in one of the following forms:

- (a) an annuity beginning at the member's earliest retirement age or later;
- (b) an actuarially equivalent lump sum payment as soon as practicable after the date of death;
- (c) an annuity beginning as soon as practicable after the date of death.

If a participant is unmarried, the benefit is payable to the beneficiary or estate only as an actuarially equivalent single cash payment as soon as administratively practicable.

Forms of payment

Survivor benefits are payable only as described above. Monthly pension benefits are paid in the form of a five-year certain and life annuity if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid as a 50% joint and survivor annuity.

Optional forms of payment:

- (i) Single life annuity
- (ii) joint & survivor annuity (100%, 75%, 50%)
- (iii) 120- or 240-months certain and life annuity (if member before June 30, 2002)

Benefit The accrued benefit determined at retirement based on member's age and service at retirement.

Deferred vested

Eligibility Five years of continuous service.

Benefit The accrued benefit determined as of the date of termination payable at 65 or at early retirement age with a reduction. If commencement age precedes age 65 the benefit is reduced 6-2/3% per year.

Disability

Eligibility Participant on long term disability.

Benefit The accrued benefit determined as of the earlier of a participant's recovery from disability if not re-employed or normal retirement age.

Pre-retirement death

Eligibility Five years of continuous service.

Benefit Life annuity payable to the spouse only. Payment commences on the later of date of death or the date the participant would have reached early retirement age. Benefit is calculated as if the participant had terminated on the date of death, survived to earliest commencement date and commenced receiving a 55% joint and survivor benefit.

Other provisions

Normal form of benefits Survivor benefits are payable only as described above. Monthly benefits are paid in the form of a single life annuity if the member has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid as a 55% joint and survivor annuity.

Optional forms of payment Single life annuity. Joint and survivor annuity (100%, 75% and 50%).

Actuarial Equivalence See table of sample factors for a 55% joint & survivor annuity based on the spouse age difference assumptions:

<u>Age</u>	<u>Male</u>	<u>Female</u>
55	0.893	0.918
60	0.880	0.915
65	0.880	0.915

Age	Male	Female
55	0.857	0.890
60	0.839	0.883
65	0.828	0.876

The conversion factor for a 50% joint & survivor annuity is .85, increased by .01 for each year that the beneficiary's age exceeds the participant's age (but not greater than 1), or decreased by .01 for each year that participant's age exceeds the beneficiary's age.

The conversion factor for a 100% joint & survivor annuity is .70, increased by .01 for each year that the beneficiary's age exceeds the participant's age (but not greater than 1), or decreased by .01 for each year that participant's age exceeds the beneficiary's age.

For actual factors used see the plan document.

Deferred vested termination

Vested portion of the accrued benefit payable based on the amount of service at termination as shown in the table below:

<u>Years of vesting service</u>	<u>Age when payment may begin</u>	
	<u>Reduced benefit</u>	<u>Unreduced benefit</u>
Less than 5	Not available	65 and over
5 through 14	55 through 64	65 and over
15 through 29	50 through 64	65 and over
30 or more	50 through 59	60 and over

The benefit is reduced 5/12% per month by which the payments precede the time at which the participants are eligible for unreduced vested retirement benefits.

The prior plan offset is reduced for early commencement according to the table for prior plans in the "Early retirement" section. If commencement occurs before the prior plan offset benefit is available, the offset amount is reduced from earliest available age to commencement age on an actuarially equivalent basis, using UP-84 mortality set back two years and a 6.5% interest assumption.

Disablement

Immediate commencement of the participant's accrued benefit plus a supplement equal to the greater of 50% of the Primary Social Security Benefit or \$90 per month. The supplement is only payable until Social Security benefits become payable.

Preretirement death

The spouse's benefit is equal to the benefit that would have been payable had the participant retired just before death and elected a 50% joint and survivor annuity. This is payable on the date the participant would have been eligible for retirement, reduced for early commencement.

Special surviving spouse benefit

An employer-provided pension benefit will be payable to the specific survivor (spouse, minor children, parents or stepparents in given order) for that survivor's life (or until attainment of age 21 if beneficiary is a minor child). The benefit will be equal to 0.5% of the participant's average monthly compensation multiplied by years of benefit service but not less than \$4 per year of benefit service plus 4% of average monthly compensation. This benefit will be reduced if the survivor is more than five years younger than the participant, or in the case of a retiree, if the retirement benefit has been reduced on account of early retirement.
