INDEPENDENT AUDITOR'S REPORT

To the Trustee, Plan Administrators and Participants
Ben Tire Distributors, Ltd. Employee Stock Ownership Plan
Indianapolis, Indiana

Opinion

We have audited the financial statements of Ben Tire Distributors, Ltd. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 4, investments amounting to \$26,627,704 and \$31,390,495 as of December 31, 2024 and 2023, respectively, have been reported at estimated fair values as determined by independent appraisals which have been reviewed and approved by Plan management. These amounts represent approximately 97% of net assets available for benefits as of December 31, 2024 and 2023. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

(Continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – PLAN DESCRIPTION

The following brief description of the Ben Tire Distributors, Ltd. (the “Company”) Employee Stock Ownership Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

The Company established the Plan effective as of January 1, 1991. The Plan is an employee stock ownership plan under Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Company. The Plan Trustee is an outside directed trustee appointment by the Company’s Board of Directors.

The Plan purchased Company common stock using the proceeds of bank borrowings and loans from nonfinancial institution lenders (including the Company’s majority shareholder) and holds the stock in a trust established under the Plan. The borrowings were repaid in 2009 by fully deductible Company contributions to the trust fund. As of the year ended December 31, 2009, all shares were allocated to the Plan.

Eligibility: Employees of the Company are generally eligible to participate in the Plan after one year of service, providing they have attained the age of 21 years and worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not actively employed on the last working day of the Plan year are generally not eligible for an allocation of Company contributions for such year.

Payment of Benefits: If a participant terminates on or after attaining age 55 and completing 10 years of service (“Early Retirement Age”), the participant will be entitled to receive the entire amount credited to their account. If a participant terminates after attaining age 65 (“Normal Retirement Age”) or terminates because of total and permanent disability, the participant will be entitled to receive the entire amount credited to their account. If a participant terminates because of death, the entire amount in their account will be paid to their beneficiary. If a participant terminates prior to age 65 and for any reason other than his death or total and permanent disability, the participant will be entitled to receive the vested portion of their account.

Prior to receiving a distribution, the participant (or beneficiary) executes an irrevocable stock transfer authorizing the redemption of their allocated shares of Company stock by the Plan and transfer of the shares to the Company. The Plan in turn distributes cash to the participant and reallocates the shares remaining in the Plan to the remaining participants. Prior to executing the distributions, the Company makes the required cash contribution to the Plan to fund the distributions. During 2024, 2,105 shares were redeemed from the accounts of terminated participants and from the accounts of participants electing diversification (see “Diversification and Transfer of Assets”), of which 589 shares were contributed back to participant accounts. The value of the participant’s account at the time of the distribution is based on the number of shares of Company stock held in the account and the fair value of each share. Fair value of shares for purpose of distributions is based on fair value coinciding with the most recent appraised value.

Employer Contributions: Each year, amounts are contributed at the discretion of the Company’s Board of Directors. The only contributions made by the Company during the Plan year were to fund the distributions, as discussed above. Employee contributions are not permitted.

Administrative Expenses: As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

NOTE 1 – PLAN DESCRIPTION (Continued)

Voting Rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of the Plan participants and beneficiaries.

Participant Accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's stock. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting: If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Vesting begins at 20 percent after two years of service with participants becoming fully vested after six years of service.

Put Option: Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. Under the terms of the Plan Document, if a participant receives benefits in the form of Company stock the shares will either be a) repurchased by the Plan (transferred to the Plan) or b) transferred to and purchased by the Company on the date of the distribution. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. As discussed above, during 2024, participants' shares of Company stock were purchased by the Company and transferred to the Company.

Diversification and Transfer of Assets: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into the Ben Tire Distributors, Ltd. 401(k) Plan ("401(k) Plan"), which offers a more diversified investment mix. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the participant is able to direct the investment of 50% of their account balance, less any shares previously diversified. Participants who elect to diversify receive a cash distribution, which is rolled into their 401(k) Plan account. The transfers of assets to the 401(k) Plan are included in distributions to participants on the statement of changes in net assets available for benefits. The transfers of assets to the 401(k) Plan related to diversification totaled to \$302,006 in 2024. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Forfeitures: Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated non-vested account balances allocated to remaining participants totaled \$1,377 and \$378 at December 31, 2024 and 2023, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates. Fair value of the Plan's investment in Company stock is particularly subject to change.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The Plan has evaluated subsequent events through October 15, 2025, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The Plan's investments at December 31, 2024 and 2023 are presented in the following table:

	<u>2024</u>	<u>2023</u>
Ben Tire Distributors, Ltd. common stock	\$ 26,627,704	\$ 31,390,495
Interest-bearing cash	<u>16,363</u>	<u>15,882</u>
Total investments	<u>\$ 26,644,067</u>	<u>\$ 31,406,377</u>

As of December 31, 2024 and 2023, the Plan held 18,262 and 19,773 shares of Company common stock, respectively. The fair value per share of the Company common stock as of December 31, 2024 and 2023 was \$1,457.98 and \$1,587.43, respectively.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments:

Interest-bearing Cash: Interest-bearing cash primarily consists of a money market deposit account whereby fair value is estimated to approximate the cost basis of the deposit account balance, based upon the liquidity of the account and the credit quality of the issuer (Level 1 inputs).

Company Common Stock: The fair value of the Company common stock is estimated annually, as of the financial statement date, based upon the results of an independent third party appraisal performed by a business appraiser selected by the Plan Trustee who is accredited by National Association of Certified Valuators and Analysts (NACVA). The appraisals are performed using a combination of the income approach using the discounted cash flows method and the market approach based upon valuation multiples of guideline public companies (Level 3 inputs). Under the discounted cash flows method, projections are based upon past performance as identified in audited and unaudited financial statements of the Company and management's projections of the Company's future performance. The resulting cash flow projections are discounted using a market related discount rate (which incorporates the Company's estimated weighted average cost of capital). The guideline public companies method identifies pricing multiples of public companies deemed to be comparable to the Company. Under both approaches a discount for a lack of marketability is applied, since the Company's stock is not readily tradable on an established market. The estimated fair value derived in the December 31, 2024 and 2023 appraisals reflected a weighting of 50% using the discounted cash flows method and 50% using the guideline public companies method. The historical and projected financial information of the Company used by the appraiser is provided to the appraiser by the Company's Controller who reports to the Chief Executive Officer (CEO). The Plan Trustee and the Board of Directors of the Plan sponsor review and evaluate the appraiser's methodology and assumptions, which involves discussions with the appraiser, and the controller and CEO verify the financial information of the Company used in the appraisal. The Plan Trustee, as fiduciary, is responsible for the final approval of the appraisal which is then presented to Plan management and the Board of Directors of the Plan sponsor.

Investments measured at fair value on a recurring basis are summarized below:

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

	Fair Value Measurements as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Investment in Ben Tire				
Distributors Ltd., common stock	\$ -	\$ -	\$ 31,390,495	\$ 31,390,495
Interest-bearing cash	15,882	-	-	15,882
Total assets at fair value	\$ 15,882	\$ -	\$ 31,390,495	\$ 31,406,377

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. All administrative expenses of the Plan are paid directly by the Company.

The Plan invests in Company common stock which is considered a party-in-interest investment. The fair value of the investment in the Company common stock as of December 31, 2024 and 2023 was \$26,627,704 and \$31,390,495, respectively. There were not any shares of Company common stock sold by the Plan or purchased by the Plan during the 2024 Plan year. The Plan did not recognize any dividend income during 2024.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan holds approximately 97% of its assets as of December 31, 2024 and 2023 in common stock of the Company. This security is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near-term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual participant accounts.

NOTE 7 – PLAN TERMINATION

Although the Company has not expressed any intention to terminate the Plan, it can do so at any time, subject to Plan provisions and provisions set forth in ERISA. Upon termination of the Plan, all participant accounts become 100% vested.

NOTE 8 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 15, 2017 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.
