Independent Auditors' Report

To the Trustee and Administrative Committee of
All-State International, Inc. Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of All-State International, Inc. Employee Stock Ownership Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of All-State International, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Part IV, Line 4i – Schedule of Assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 - PLAN DESCRIPTION

The following description of the All-State International, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

All-State International, Inc. (the "Company") established the Plan effective as of January 1, 2002. The Plan operates as a leveraged employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by an ESOP committee appointed by the Board of Directors of the Company. The Company's CEO acts as trustee of the Plan (the "Trustee").

The Plan initially purchased shares of Company nonvoting convertible preferred stock using proceeds from the Company and holds the stock in a trust established under the Plan. The borrowing was repaid over a period of seven years by fully deductible Company contributions to the trust fund. As the Plan made each payment of principal, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing was collateralized by the unallocated shares of stock. The Company has no rights against shares once they are allocated under the ESOP. All shares are now allocated.

During 2010, the Plan converted the preferred shares it held into Class A common shares.

Eligibility

Employees of the Company are eligible to participate in the Plan on their one-year anniversary, provided the participant has attained the age of 21, is still an employee at the end of the Plan year and is not covered under a collective bargaining agreement. All new employees are required to work one full year with 1,000 hours of service to be eligible to receive distributions of ESOP shares. Participants who are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Payment of Benefits

No distributions from the Plan, other than diversification as described later, will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), becomes disabled (as defined) or otherwise terminates employment with the Company.

Distributions are made in cash only and are paid in either a lump-sum or in substantially equal periodic payments (made no less frequently than annually and not to exceed six installments) over a period not greater than five years (subject to longer periods if the account balance exceeds \$500,000). The amount to be distributed is based upon the account valuation as of the beginning of the Plan year in which the distribution is made.

NOTE 1 - PLAN DESCRIPTION (CONTINUED)

Payment of Benefits (continued)

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded and not subject to trading limitations. During 2024, the Company repurchased from participants 7,364 shares at prices determined from the independent appraisal.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to certain matters (as defined) put before stockholders of the Company. For all other matters, the Trustee will vote the shares of allocated Company stock, or shares for which no directions are received.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to the Plan's provisions. In the event of Plan termination, participants would become fully vested in their accounts. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the ESOP committee shall direct the Trustee to pay all liabilities and expenses of the trust fund.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated accounts (if any) and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation relative to total eligible compensation.

There were no shares forfeited from terminated non-vested account balances for the year ended December 31, 2024. The Plan's earnings and forfeitures are allocated to each participant's account based on the ratio of the participant's account balance to account balances of all of the participants at the beginning of the year.

NOTE 1 - PLAN DESCRIPTION (CONTINUED)

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Risks and Uncertainties

The Plan's investment consists solely of the Company's common stock, which is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balance in his or her account based on total years of service with the Company. Allocated shares become vested as follows:

Years of service	% of accounts vested
Less than two years	0%
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six years or more	100%

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP") in compliance with the Accounting Standards Codification ("ASC") of the Financial Accounting Standards Board ("FASB").

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Shares of the Company's common stock are valued at fair value. See Note 6 for discussion of fair value measurements. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through October 15, 2025, the date the financial statements were available to be issued.

NOTE 3 - TAX STATUS

The Plan obtained its latest determination letter on April 28, 2017, in which the Internal Revenue Service (the "IRS") has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is

subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 4 - ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist solely of the Company Class A common stock, are held by a third-party trustee.

Company contributions are held and managed by the Trustee, which invests cash received, interest and dividend income and makes distributions to participants.

Officers or employees of the Company perform certain administrative functions. No such officer or employee receives compensation from the Plan.

NOTE 5 – INVESTMENT IN CLASS A COMMON STOCK

The Plan's investment at December 31, 2024 and 2023 consists of the following:

	<u>2024</u>	<u>2023</u>
Sponsor Company		
Class A common stock number of shares	<u>18,336</u>	<u>25,701</u>

NOTE 6 - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under ASC Topic 820, *Fair Value Measurement*, are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	2024		2023	
	Level 3	Total	Level 3	Total
Investment in All-State International, Inc. Class A common stock, at fair value	\$ 22,737	\$ 22,737	\$ 59,112	\$ 59,112

**ALL-STATE INTERNATIONAL, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 6 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2024 and 2023:

Balance, beginning	\$ 59,112	\$ 210,848
Net depreciation in fair value	(19,437)	(128,504)
Distributions to participants	<u>(16,938)</u>	<u>(23,232)</u>
Balance, end	<u>\$ 22,737</u>	<u>\$ 59,112</u>

The fair value of the Company's common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a debt-free discounted cash flow analysis consistent with prior years. The appraiser took into account historical and projected cash flow and net income (loss), return on assets, return on equity, general and specific economic conditions and fair value of the Company's assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP Trustee, reviews in detail, discusses and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 – EMPLOYER CONTRIBUTIONS

During 2024, the Company did not contribute any shares to the Plan.

NOTE 8 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

As disclosed in Note 4, officers or employees of the Company perform certain administrative functions on behalf of the Plan at no cost to the Plan.

The Plan invests in Company common stock which is a party-in-interest transaction as defined by ERISA.
