INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Consolidated Venator US Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of Consolidated Venator US Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 (In Liquidation) and 2023 (Going Concern), and the related statements of changes in net assets available for benefits for the years ended December 31, 2024 (In Liquidation) and December 31, 2023 (Going Concern), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Consolidated Venator US Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of Consolidated Venator US Pension Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Consolidated Venator US Pension Plan does not have sufficient accounting records relating to certain participant account balances. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Emphasis of Matter - Terminating Plan and Liquidation Basis of Accounting

As further discussed in Note 1 to the financial statements, the Board of Managers of Oxerra Americas, LLC, the plan's sponsor, voted in April 2024 to terminate the plan. In accordance with accounting principles generally accepted in the United States of America, the plan has changed its basis of accounting from the going concern plan basis used in presenting the 2023 financial statements to the liquidation basis used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of Consolidated Venator US Pension Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of Consolidated Venator US Pension Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2024 and schedule H, line 4j - schedule of reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 (In Liquidation) and 2023 (Going Concern)

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Consolidated Venator US Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit pension plan that was established April 1, 1995 covering certain employees of Venator Americas LLC represented under a collective bargaining agreement with the International Union, United Automobiles, Aerospace and Agricultural Implement Workers of America (UAW) and its Affiliate Local 282 in order to provide retirement benefits for employees employed at the St. Louis Plant. On December 31, 2019, the United Steelworkers of America-Huntsman Pigments Americas LLC Union Employees’ Pension Plan (the “USW Plan”) was merged into the Plan and covers certain employees represented under a collective bargaining agreement with United Steelworkers of America AFL-CIO-CLC on behalf of Local 12328 in order to provide retirement benefits for employees employed at the Beltsville Plant. Each participant will continue to be governed by the benefit formulas and other terms and conditions that were in effect as of December 30, 2019, prior to the merger.

Effective April 3, 2023, Venator Americas LLC was part of an acquisition by Cathay Industries. Upon the close of the acquisition, Cathay Industries rebranded as Oxerra Group and the plan sponsor of the Plan changed its name to Oxerra Americas, LLC. Venator Americas LLC and Oxerra Americas, LLC are referred to as the Company.

The St. Louis (the “St. Louis Plant”) and Beltsville (the “Beltsville Plant”) Plants (together the “Plants”) were closed in December 2017 and November 2018, respectively, and are no longer in operation. The employees were terminated and shall not be rehired. No employees shall be eligible to participate in the Plan subsequent the closing of the Plants. All employees became fully vested on termination.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). SEI Private Trust Company (SEI) is the Plan’s trustee and custodian. Willis Towers Watson is the Plan’s actuary.

Plan Termination and Liquidation

In April 2024, the Oxerra Americas, LLC elected to terminate the Plan subject to the provisions set forth in ERISA. The Plan was amended effective June 30, 2024, to freeze the accrued benefit provision and distribute all benefits to an insurance company for eligible participants. After completing the distribution calculations, the Plan engaged with an insurance company to purchase an annuity contract to initiate the liquidation process and make pension benefit payments to participants currently receiving or commencing benefit payments in the future. The liquidation process began in August 2024, transferring Plan assets in the amount of \$6,689,022 to the insurance company for the annuity purchase. Upon transfer of the benefit obligations to the insurance company, the Plan has no further obligation to pay such benefits. The remaining Plan assets were liquidated in September 2025.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Pension Benefits (Prior to Termination)

St. Louis Plant

Participants are eligible for normal retirement benefits upon reaching age 65. The amount of individual pension benefits is calculated based upon years of service and a monthly rate, as defined in the Plan. The Plan also provides for the payment of benefits to a qualified participant who has become permanently disabled and completed five years of vesting service. If a participant dies, monthly pension benefits are payable to the participant's beneficiary subject to certain limitations, as defined by the Plan. Benefits are payable in the form of a qualified joint and survivor annuity or a single life annuity paid in monthly installments.

The Plan permits early retirement for participants with five years of vesting service and attainment of age 55. These participants may elect to receive early retirement monthly pension benefits in an amount equal to the calculated pension benefit the participant would have been entitled to receive under the normal retirement calculation, reduced by 1) five-twelfths of one percent (5/12%) for each of the first 24 months and one-third of one percent (1/3%) for each month in excess of 24 months for which the early retirement date precedes the normal retirement date by more than three years or the participant is terminated after attainment of age 55 and completion of five years of vesting service, or 2) one-half of one percent (1/2%) for each month for which the early retirement date precedes the normal retirement date or the participant is terminated after the completion of five years of vesting service and before attainment of age 55.

Beltsville Plant

Participants are eligible for normal retirement benefits upon reaching age 65. The amount of individual pension benefits is calculated based upon years of service and a monthly rate, as defined in the Plan. The Plan also provides for the payment of benefits to a qualified participant who has become permanently disabled and completed ten years of vesting service. If a participant dies, monthly pension benefits are payable to the participant's beneficiary subject to certain limitations, as defined by the Plan. Benefits are payable in the form of a qualified joint and survivor annuity or a single life annuity paid in monthly installments.

The Plan permits early retirement for participants with ten years of vesting service and attainment of age 62. These participants may elect to receive early retirement monthly pension benefits in an amount equal to the calculated pension benefit the participant would have been entitled to receive under the normal retirement calculation, reduced by five-tenth percent (0.5%) for each month by which the early retirement date precedes the normal retirement date.

Funding Policy

The Company's funding policy is to make contributions to the Plan that are actuarially determined, such that all employees' benefits will be fully provided for by the time they retire. Employee contributions and rollovers are not allowed. The Plan has met ERISA minimum funding requirements.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the liquidation basis of accounting for 2024 and the accrual (going concern) basis of accounting for 2023.

Investment Valuation and Income Recognition

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments are recorded when distributed.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided in the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Accordingly, actual results could differ from those estimates.

NOTE 3 - FAIR VALUE MEASUREMENTS

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

CONSOLIDATED VENATOR US PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 (In Liquidation) and 2023 (Going Concern)

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2024 or 2023.

The following tables set forth by level, within the fair value hierarchy, the investments in the Plan at fair value as of December 31, 2024 and 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) beneficiaries of employees who have died. Benefits are adjusted for early retirement, joint survivor annuity options, disability and death prior to retirement. Benefits payable under all circumstances – retirement, death, and disability – are included, to the extent they are deemed attributable to employee service rendered to the valuation date (as of the beginning of the year).

The actuarial present value of accumulated plan benefits, determined by an independent actuary from Willis Towers Watson, is the amount that results from applying actuarial assumptions to (a) adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and (b) the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. Actuarial determinations are based upon the average asset value method. The significant actuarial assumptions used in the valuations were (a) life expectancy of participants (Pri-2012 tables, without collar or amount adjustments, projected forward using Scale MP-2021), and (b) investment return (6.00% and 7.75% at December 31, 2023 and December 2022, respectively). No actuarial assumptions related to retirement age were used in the valuations as there are no active participants in the Plan. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. The Plan has elected to terminate and different actuarial assumptions and other factors were applicable in determining the automatic lump sum distributions.

The actuarial present value of the Plan's accumulated plan benefits at December 31, 2023 (date of the most recent valuation) is as follows:

Vested benefits of participants and beneficiaries currently receiving payments	\$5,376,971
Other vested benefits	<u>1,179,400</u>
Actuarial present value of accumulated plan benefits	<u>\$6,556,371</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2023 (date of the most recent valuation) is as follows:

Actuarial present value of accumulated plan benefits at December 31, 2022	<u>\$5,919,337</u>
Additions:	
Assumption changes	895,038
Interest due to decrease in the discount period	<u>437,655</u>

NOTE 5 - INFORMATION CERTIFIED

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, SEI, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2024, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023 and the schedule H, line 4j - schedule of reportable transactions for the year ended December 31, 2024.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are in shares of mutual funds managed by affiliates of SEI. Therefore, these investments qualify as party-in-interest transactions. These transactions are considered to be exempt party-in-interest transactions and are not considered prohibited transactions under the Department of Labor’s Rules and Regulations.

NOTE 7 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated December 3, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan to determine if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 (In Liquidation) and 2023 (Going Concern)

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 - SUBSEQUENT EVENTS

In May 2025, the Plan received a favorable determination letter from the IRS approving the termination of the Plan.

Management has evaluated subsequent events through October 14, 2025, the date the financial statements were available to be issued.

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

- Applicable month September 2023
- Interest rate basis IRC §430 Funding Segment Rates (24-month average)

Interest rates	Reflecting Corridors	Not Reflecting Corridors
----------------	----------------------	--------------------------

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Plan Name: Consolidated Venator US Pension Plan

SCHEDULE SB ATTACHMENTS

Mortality	Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).
Form of Payment	Terminated vested participants are assumed to elect a single life annuity
Benefit commencement date	Terminated vested participants are assumed to commence on normal retirement date
Timing of benefit payments	Annuity payments are payable monthly in the middle of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant’s rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant’s rounded age at the middle of the year.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued except the disability benefit. Based on discussions with the plan sponsor, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Oxerra Americas, LLC furnished participant data as of January 1, 2024. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-Related Expenses	The plan-related expenses are set to the prior year plan related expenses, adjusted for prior year PBGC premiums, plus the current year expected PBGC premium.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h). For plan accounting purposes, assumptions were selected by the plan sponsor and, as required by U.S. GAAP, represent a best estimate of future experience.
------------------	--

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Changes in assumptions and methods since prior valuation	<ul style="list-style-type: none">• The mortality table and improvement scale used to calculate the funding target and target normal cost was updated as required by guidance issued by IRS under IRC §430.• The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.• The assumed plan-related expenses added to the target normal cost were changed from \$52,808 to \$50,177¹.
---	--

¹ Assumed plan related expenses shown here were not prorated for hypothetical short plan year as it was not material in calculating the minimum required contribution. If prorated for 7/12 this value would be 29,270.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Name	Consolidated Venator US Pension Plan
Valuation Date	January 1, 2024
Enrolled Actuary	Louis N. Palacios
Enrollment Number	23-08101

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

SCHEDULE SB ATTACHMENTS

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

- Applicable month September 2023
- Interest rate basis IRC §430 Funding Segment Rates (24-month average)

Interest rates	Reflecting Corridors	Not Reflecting Corridors
----------------	----------------------	--------------------------

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Plan Name: Consolidated Venator US Pension Plan
EIN / PN: 06-0850804/003

SCHEDULE SB ATTACHMENTS

Mortality	Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).
Form of Payment	Terminated vested participants are assumed to elect a single life annuity
Benefit commencement date	Terminated vested participants are assumed to commence on normal retirement date
Timing of benefit payments	Annuity payments are payable monthly in the middle of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant’s rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant’s rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued except the disability benefit. Based on discussions with the plan sponsor, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Oxerra Americas, LLC furnished participant data as of January 1, 2024. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted on December 31, 2019. The Beltsville Plan was merged into the St. Louis plan and the plan was renamed the Consolidated Venator US Pension Plan.

For Legacy St. Louis Participants:

Covered employees	Employees covered by a collective bargaining agreement between the participating company and the International Union, United Automobiles, Aerospace and Agricultural Implement Workers of America (UAW) and its affiliate Local 282 are eligible for participation.
Participation date	Date of becoming a covered employee; Eligible employees become members in the plan on the first of the month following employment.

Definitions

Vesting service	One year for each 1,000-hour calendar year of employment by Oxerra Americas, LLC. If a member completes less than 1,000 hours of service in the year of employment or the year of termination or retirement, 1/12 of a year shall be credited for each full calendar month of service. 15 days or more of service shall count as a full calendar month.
Pension service	Years of vesting service after the effective date plus benefit service accrued under the previous plan.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65 with five years of pension service.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted on December 31, 2019. The Beltsville Plan was merged into the St. Louis plan and the plan was renamed the Consolidated Venator US Pension Plan.

For Legacy St. Louis Participants:

Covered employees	Employees covered by a collective bargaining agreement between the participating company and the International Union, United Automobiles, Aerospace and Agricultural Implement Workers of America (UAW) and its affiliate Local 282 are eligible for participation.
Participation date	Date of becoming a covered employee; Eligible employees become members in the plan on the first of the month following employment.

Definitions

Vesting service	One year for each 1,000-hour calendar year of employment by Oxerra Americas, LLC. If a member completes less than 1,000 hours of service in the year of employment or the year of termination or retirement, 1/12 of a year shall be credited for each full calendar month of service. 15 days or more of service shall count as a full calendar month.
Pension service	Years of vesting service after the effective date plus benefit service accrued under the previous plan.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65 with five years of pension service.
