INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
GaN Corporation Employee Stock Ownership Plan
Huntsville, Alabama

Opinion

We have audited the accompanying financial statements of GaN Corporation Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of GaN Corporation Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of GaN Corporation Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about GaN Corporation Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of GaN Corporation Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about GaN Corporation Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements

or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**GAN CORPORATION EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023**

NOTE 1 – DESCRIPTION OF PLAN

The following description of the GaN Corporation Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions. The Plan Sponsor is GaN Corporation (the Company) as defined by the Employee Retirement Income Security Act of 1974 (ERISA).

Date of Management’s Review

Management has evaluated subsequent events through October 15, 2025, the date on which the financial statements were available to be issued.

General

The Company established the Plan effective as of January 1, 2015. As of the effective date, the Plan is a defined contribution plan designed to comply with Section 4975(e)(7) of the Internal Revenue Code (hereinafter referred to as the “Code”) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subjected to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The majority shareholder of the Company is the Plan’s Trustee.

Eligibility

Employees of the Company are generally eligible to participate in the Plan following the completion of one year of service, providing they worked at least 1,000 hours during that Plan year. Participants who do not have at least 1,000 hours of service during that Plan year are generally not eligible for an allocation of Company contributions for that year.

Contributions

Contributions to the Plan, as determined by the Plan Sponsor, are discretionary and based on the Plan Sponsor’s financial performance and condition. Contributions may be made in cash, stock of the Plan Sponsor, or a combination of both. Shares of the Company’s stock will be valued at their then fair value. During any year which the Company has elected to be treated as a Subchapter S Corporation, the Plan may also receive its share of any distributed earnings (S Corporation Distributions) paid to the Company’s stockholders. The contribution for each year is allocated to each participant’s account based upon the relation of the participant’s compensation to total compensation for the Plan year.

There were no discretionary contributions made during the year ended December 31, 2024.

Participant Accounts

Each participant’s account is credited with an allocation of the Plan Sponsor’s contributions, dividends, Plan earnings, and forfeitures of terminated participants’ nonvested accounts. Allocations are based on the proportion that each participant’s compensation, as defined in the Plan Document, for that year bears to the total compensation of all participants. The benefit to which a participant is entitled is the benefit that can be provided from that participant’s account.

See accompanying independent auditors’ report

**GAN CORPORATION EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED
DECEMBER 31, 2024 AND 2023**

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Vesting

The vesting of a participant's Plan benefit is based on years of service. There is a graded scale for vesting based on years of service; a participant is 20 percent vested after two years and 100 percent vested after six years of service (as defined in the Plan Document). Participants are automatically fully vested upon attainment of retirement age or if employment ends due to death, disability, or retirement.

Payment of Benefits

Distributions on account of death, disability, or retirement are made as soon as administratively feasible following the participant's separation from service beginning no later than one year after the close of the Plan year in which such event occurs. Distributions are made in cash or in the form of Company stock. Distributions are based on the value of the Company's stock as of December 31 of the Plan year coinciding with or immediately preceding the date of actual distribution of Plan benefits. Distributions are either made in a single, lump-sum payment or in the form of substantially equal installments over a period of not more than five years. Distributions in excess of \$800,000 shall be extended one additional year, but not more than five additional years, for each \$160,000 by which such balance exceeds \$800,000.

Voting Rights

All Company common stock held by the Plan will be voted by the Trustee. Notwithstanding the foregoing, participants and/or beneficiaries will be entitled to direct the voting of any voting shares allocated to their Company stock accounts with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all the assets of a trade or business, or other similar transactions prescribed by regulation. The Trustee will vote any allocated shares for which a participant has failed to give timely voting direction.

Put Option

Under federal income tax regulations, the Company's stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, and includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash in exchange for his/her stock.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Administrative Expenses

All expenses of maintaining the Plan are paid by the Plan unless paid by the Plan Sponsor. Investment related expenses are included in the net appreciation of fair value of investments.

See accompanying independent auditors' report

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Forfeited Amounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation for the Plan year. There were no forfeitures allocated to the participants during the year ended December 31, 2024. Forfeited nonvested accounts to be allocated to participant accounts as of December 31, 2024 and 2023, totaled \$0 and \$52,828, respectively.

Excess Contributions Payable

Amounts payable to the Company for excess distributed earnings (S Corporation Distributions) are recorded as a liability with a corresponding reduction to dividends. Excess contributions payable totaled \$3,750 and \$3,750 as of December 31, 2024 and 2023, respectively.

Plan Transfers

When a participant terminates employment, the Administrator may exchange cash held in the Plan for shares of Company stock held in the Company stock account of the participant, valued at the last valuation date. The Administrator may transfer the cash exchanged for the Company stock to the GaN Corporation 401(k) Plan and such cash will be held and subject to the terms of the 401(k) Plan. The Administrator notifies any participant in the event any Company stock is purchased under the provision.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair value. Fair value of the Company stock is determined by an annual independent appraisal. Other investments are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. The Plan's Trustee determines the Plan's valuation policies utilizing information provided by the independent appraiser for the Company stock. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded when paid.

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024.

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

GaN Corporation Common Stock: Valued at the estimated fair value based on an independent appraisal. The appraiser takes into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of the Company’s assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for limited marketability.

Money Market Fund: Valued at the daily closing price as reported by the fund.

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2024 and 2023:

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

<u>Instrument</u>	<u>Fair Value</u>	<u>Principal Valuation Technique</u>	<u>Unobservable Inputs</u>
GaN Corporation common stock	\$ -	Income	EBITDA, Net Income, Weighted average, Cost of capital, Discount rate, Discount for lack of marketability
		Market	Public comparables, EBITDA Revenue multiple, Multiple discount for lack of marketability

The valuation process involves the Trustee’s selection of an independent appraiser. Plan management accumulates the data for the appraiser from reviewed financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution which Plan management, along with the ESOP Trustee, reviews in detail, discusses and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – RELATED PARTY AND PARTY-IN INTEREST TRANSACTIONS

The Plan invests in Company common stock, which are related party and party-in-interest transactions. As described in Note 1, the Company pays certain Plan expenses. The Plan has a number of service providers that are parties-in-interest under ERISA.

NOTE 6 – STOCK SALE

In accordance with the Stock Redemption Agreement (the Agreement) dated December 31, 2024, the Company redeemed 977,433.004 shares of the Company’s common stock from the ESOP Trust for \$1.57 per share.

NOTE 7 – PLAN TERMINATION

The Company intends to terminate the Plan during the year ended December 31, 2025, subject to Plan provisions. Upon termination of the Plan, the benefits of the Plan participants and other liabilities under the Plan will be determined with respect to the date of Plan termination, and all Plan assets will be distributed to satisfy those liabilities in accordance with the terms of the Plan as soon as administratively feasible after the date of termination. After all adjustments required under the Plan have been made, each affected participant's benefits will be nonforfeitable. The interest of each participant will be distributed to the participant as described in the Plan terms.

NOTE 8 – TAX STATUS

The Internal Revenue Service has determined and informed the Plan Sponsor, by a letter dated August 17, 2017, that the Plan is qualified and the Trust established under the Plan is tax-exempt under the appropriate sections of the Code. The Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code.

Tax positions are recognized in the financial statements when it is more likely than not that the position will be sustained upon examination by the tax authorities. The Plan Sponsor has concluded that as of December 31, 2024, the Plan had no significant uncertain tax positions or material amounts of unrecognized tax benefits that qualify for either recognition or disclosure in the financial statements for open tax years based on an assessment of many factors including experience and interpretations of tax laws.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan investments consist principally of the Company's common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Market risks include global events which could impact the value of investments, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the common stock, it is at least reasonably possible that changes in the value of common stock will occur in the near term and such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.
