Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BDO USA, P.C.**

(2) EIN: **13-5381590**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		5000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) ☒ Yes ☐ No ☐ Not determined

If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year 544612.

Independent Auditor's Report

The Participants and Plan Administrator
Retirement Plan for Employees of
Carmeuse Lime, Inc. and Subsidiaries
Pittsburgh, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of the Retirement Plan for Employees of Carmeuse Lime, Inc. and Subsidiaries (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for plan benefits as of December 31, 2024 (in liquidation) and 2023 (ongoing), and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2024 (in liquidation), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Plan Termination and Liquidation Basis of Accounting

As further discussed in Note 1 to the financial statements, the trustees of the Plan made a decision to terminate the Plan effective June 30, 2024, and management determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the ongoing basis of accounting used in presenting the 2023 financial statements to the liquidation basis of accounting used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the

override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at Year End) as of December 31, 2024 (In liquidation) and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024 (In liquidation) are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The

information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Retirement Plan for Employees of Carmeuse Lime, Inc. and Subsidiaries

Notes to the Financial Statements

1. Plan Description

The following brief description of the Retirement Plan for Employees of Carmeuse Lime, Inc. and Subsidiaries (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan (except as described in the contributions section below) sponsored by Carmeuse Lime, Inc. (Carmeuse). The Plan was established on July 1, 1950, and covers employees who have completed the eligibility requirements as stipulated in the Plan document. The Plan is closed to all salaried employees hired on or after January 1, 2007 for the Carmeuse Subplan and after December 31, 2005 for the Oglebay Norton Subplan.

In addition, after September 1, 2009, years of service benefits are frozen for all non-bargained participants. However, future compensation continued to grow for retirement benefit calculation purposes at a rate of 2% per year, calculated on a Plan-year basis commencing as of January 1, 2010 (the First Adjustment Date). For purposes of determining the initial rate of compensation to be adjusted as of the First Adjustment Date, 2009 Plan-year compensation was used. The compensation amount calculated in this manner shall not increase after December 31, 2014 and the compensation amount calculated for a participant in the manner as of December 31, 2014 shall be the participant's final compensation for all plan purposes. The Plan is closed to new participants for hourly employees with various effective dates, and benefits are frozen for all groups of bargained hourly employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective September 1, 2016, a participant, surviving spouse, or alternate payee who satisfies certain eligibility requirements may elect to receive the accrued benefit under the Plan in a single lump-sum payment or any other optional forms of benefit that are otherwise available.

Contributions

Prior to July 1, 1978, benefits under the Carmeuse Subplan were funded by employee and employer contributions. Effective July 1, 1978, the Carmeuse Subplan became noncontributory. Employees' net accumulated contributions as of December 31, 2024 and 2023 were \$14,583.

Prior to September 1, 2009, benefits under one of the Oglebay Norton Subparts were funded by employee and employer contributions. Effective September 1, 2009, this Oglebay Norton Subpart became noncontributory. Employees' net accumulated contributions as of December 31, 2024 and 2023 were \$19,806 and \$20,731 respectively.

Carmeuse has agreed to contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The amounts funded are actuarially determined by consulting actuaries using the present value of accrued benefits method (see Note 5). The Plan has met the ERISA minimum funding requirements in 2024 and 2023.

Retirement Plan for Employees of Carmeuse Lime, Inc. and Subsidiaries

Notes to the Financial Statements

Pension Benefits

The Plan consists of two Subplans, one each for Carmeuse and Oglebay Norton. In general, a participant's eligibility for a pension, crediting of service, and benefit calculation formulas shall be governed by the terms of the Subplan that is applicable to such participant.

Plan Termination

On May 3, 2024 the Board of Directors of Carmeuse approved to terminate the Plan effective June 30, 2024 and directed the Plan administrator and the Retirement Plans Committee of Carmeuse Americas to proceed with the termination process in accordance with applicable legal requirements.

The Plan is terminating under the Pension Benefit Guaranty Corporation (PBGC) "standard termination" process. After appropriate regulatory filings with the IRS and PBGC are completed, the Plan will offer lump sum payments to certain Plan participants who are not already receiving annuity payments and settle all the remaining benefits owed by the Plan through a group annuity contract with a reputable and secure insurance company. Carmeuse Lime, Inc. is committed to make contributions, as necessary, to fully fund the Plan benefit obligations.

During 2025, Carmeuse offered a lump-sum benefit payout option to certain Plan participants. Carmeuse expects to complete the purchase of group annuity contracts that will transfer any remaining pension benefit obligation to an insurance company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying 2023 financial statements have been prepared on the accrual basis of accounting.

The 2024 financial statements have been prepared under the liquidation basis. This basis was adopted when liquidation was deemed imminent in accordance with Accounting Standards Update (ASU) 2013-07, *Liquidation Basis of Accounting*. Plan management determined that liquidation was imminent upon adoption of the resolution to terminate the Plan effective June 30, 2024. Under the liquidation basis of accounting, assets are measured at their net realizable value, estimated by fair value reduced by surrender charges, penalties and redemption charges, and disposal expenses, to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process. Liabilities are measured using the accrual basis of accounting, including any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Retirement Plan for Employees of Carmeuse Lime, Inc. and Subsidiaries

Notes to the Financial Statements

Investment Valuation

The Plan's investments are reported at fair value. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at a measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Companies consider the principal or most advantageous market in which they would transact and consider the assumptions that market participants would use when pricing the asset or liability.

The three levels of inputs that may be used to measure fair value are as follows:

Level 1 - This level consists of observable inputs such as quoted prices in active markets for identical investments that the Plan has the ability to access.

Level 2 - Inputs include:

- a. Quoted prices for similar assets or liabilities in active markets.
- b. Quoted prices for identical or similar assets or liabilities in inactive markets.
- c. Inputs, other than quoted prices in active markets, that are observable either directly or indirectly.
- d. Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Level 3 - This level consists of unobservable inputs in which there is little or no market activity for the asset or liability, which require the reporting entity to develop its own estimates and assumptions relating to the pricing of the asset or liability including assumptions regarding risk.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Common Collective Trust - The fair values of participation units held in collective trusts are based on the net asset value (NAV) reported by the fund managers as of the financial statement dates and recent transaction prices. The fund is valued using the NAV provided by the administrator of the trust on the last day of the Plan's year-end. The NAV is based on the value of the underlying assets by the trust, minus its liabilities, and then divided by the number of shares outstanding. NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

U.S. Treasury and Agency Obligations - Fair values are modeled by external pricing vendors using estimated bid prices that a dealer would pay for a security or, in limited cases, an internal trade price, used only when a more reliable price cannot be obtained, and are classified within Level 2 of the fair value hierarchy.

Retirement Plan for Employees of Carmeuse Lime, Inc. and Subsidiaries

Notes to the Financial Statements

Mutual Funds - These are valued at the NAV of shares held by the Plan at year-end and are classified within Level 1 of the fair value hierarchy.

Cash Held in Money Market Fund - This is valued at the closing price reported by the fund sponsor from an actively traded exchange.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment gain or loss includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on an employee's years of credited service. The accumulated plan benefits for active employees, as well as retired and terminated employees, are based on a participant's age and years of credited service. Benefits for certain groups of participants are based on estimated average compensation and for other groups of participants are based on a flat rate per month per year of credited service. Benefits payable under all circumstances, retirement, death, disability, and termination of employment, are included, to the extent they are deemed attributable to employee service rendered to the valuation date. In a terminating plan, assumptions for the present value of accumulated plan benefits should generally consider the possibility of additional potential costs of annuitizing participants, if participants were to elect so.

Administrative Fees

Administrative fees are paid by the Plan, as provided by the Plan document.

Payments of Benefits

Benefits are recorded when paid.

Consideration of Subsequent Events

Carmeuse evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through October 15, 2025, the date the financial statements were approved and authorized for issuance. There were no material subsequent events that required recognition or additional disclosures in these financial statements other than the Plan termination disclosed in Note 1.

4. Common Collective Trust

The Plan has invested in the SEI Structured Credit Collective Fund (Credit Fund). The Credit Fund's objective is to generate high total returns by investing in a portfolio comprised of collateralized debt obligations, which includes collateralized loan obligations and other structured credit investments.

Sales and redemptions of participant units are transacted at NAV. Withdrawals from the Credit Fund may be made as of the valuation date on the last business day of a calendar quarter. Redemptions require 90 days' notice for the Credit Fund. If the Plan withdraws the entire balance of the fund, 10% is held in escrow until the completion of the fund's annual audit. The funds have no unfunded commitments.

5. Actuarial Present Value of Accumulated Plan Benefits

Consulting actuaries from Willis Towers Watson at January 1, 2025 and 2024 estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money, through discounts for interest, and the probability of payment, by means of

Retirement Plan for Employees of Carmeuse Lime, Inc. and Subsidiaries

Notes to the Financial Statements

decrements such as for death, disability, withdrawal, or retirement, between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computations are as follows:

Factor	Assumption
Interest rate	For annuitants and non-annuitants, 4.92%.
Retirement age	Retirement age varies based on location and applicable Subplan.
Mortality basis	2012 base rates from the Pri-2012 blended annuitant and contingent survivor benefit-weighted tables projected forward using MP-2021.
Lump-sum election rate	Active participants - 80% Terminated vested participants - 55%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. As described in Note 1, the decision to terminate the Plan was made after the December 31, 2023 valuation date. Different actuarial assumptions and other factors, such as amendments, are applicable in the December 31, 2024 actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025. Had the valuations been performed as of December 31, 2024, there would be no material differences.

The accumulated plan benefits information is as follows:

The changes in accumulated plan benefits were as follows:

Actuarial Present Value of Accumulated Plan Benefits, January 1, 2024 (Ongoing)	\$ 124,473,746
Increase (decrease) during the year attributed to:	
Decrease in the discount period	5,254,030

Assumption changes*	1,580,080
Actuarial Present Value of Accumulated Plan Benefits, December 31, 2024 (In Liquidation)	\$ 118,556,762

* The changes in the actuarial assumptions include updates to the discount rate used to calculate the present value of accumulated benefits due and the change to the settlement liability.

6. Certification of Financial Information

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedules, related to investments held as of December 31, 2024 and 2023, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by SEI Private Trust Company a qualified institution and the trustee.

7. Income Tax Status

The Internal Revenue Service determined and informed Carmeuse by letter dated May 23, 2017 that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (the Code). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in the near term could materially affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

As of December 31, 2024 and 2023, there were two investments held that individually accounted for more than 10% of total investments. See the supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at December 31, 2024.

Retirement Plan for Employees of Carmeuse Lime, Inc. and Subsidiaries

Notes to the Financial Statements

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Related Party and Party-in-Interest Transactions

Certain Plan investments were managed by SEI Investments Management Corporation, the Plan's investment advisor. SEI Investments Management Corporation is an affiliate of the Plan's trustee at December 31, 2024 and 2023. These transactions qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA guidelines.

Certain administrative functions are performed by officers or employees of Carmeuse at no cost to the Plan. These transactions are not deemed prohibited transactions because they are covered by statutory or administrative exemptions from the Code and ERISA's rules on prohibited transactions.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

<i>December 31,</i>	<i>2024</i>
Net assets available for benefits per the financial statements	\$ 118,479,602

Sources of Data and Other Information

Carmeuse Lime, Inc., through its administrator platform, furnished participant data as of January 1, 2024. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Decrement Timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements, the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the three immediately preceding months, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued except any plant shutdown benefits. Based on discussions with Carmeuse Lime, Inc., such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued, until and unless the triggering event occurs. WTW has reviewed the plan provisions with Carmeuse Lime, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$5,000 in a single lump sum payment) and offers a lump sum option for salaried participants with a present value up to \$100,000. Such lump sums are not explicitly valued as such; rather such participants' benefits are valued using the benefit choice assumptions described above.

Assumptions Rationale – Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Lump sum conversion rate

As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming plan year (including, for example, expected actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Disabled Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Lump Sum Mortality

Assumptions used for funding purposes are as prescribed by IRC §417(e)(3) for 2024.

Termination

Termination rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Termination rates for at-risk funding calculations are as required by IRC §430.

Disability

Disability rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed disability rates differ by gender because of observed differences in disability rates by gender.

Retirement

Retirement rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Benefit commencement date for deferred benefits:

- Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. Experience indicates that most spouses do take the benefit as soon as it is available.
- Deferred vested benefit
Deferred vested participants' assumed commencement age is a single age dependent on legacy group intended to capture the average age at commencement.

Form of payment

Former MLO Salaried and Hourly participants are assumed to take lump sums based on observed experience.

For all other union participants 70% are expected to take a lump sum and all other participants are expected to take the normal form of payment for single participants.

For all other non-union participants 100% are expected to take a lump sum.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	---

Changes in Assumptions and Methods

Changes in assumptions since prior valuation	• The required mortality table used to calculate the funding target and normal cost was updated, including to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430. • The assumed plan-related expenses added to the target normal cost were changed from \$990,000 in 2023 to \$649,979 in 2024. • The lump sum basis used to calculate the funding target and target normal cost was updated to use the applicable mortality table under IRC §417(e)(3) for 2024.
Change in method since prior valuation	• None.

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of January 1, 2024

For each active participant, an expected retirement age was calculated, weighted in proportion to the probability that the individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 64 is the arithmetic average of the expected retirement ages of all such participants on 1/1/2024.

Schedule SB, Part V Summary of Plan Provisions

The plan provisions below represent the provisions covering active employees of Carmeuse Lime, Inc. Additionally, some former employees' benefits are determined using provisions not summarized below.

Legacy Carmeuse Salaried Employees

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective January 1, 2017.

Covered Employees	All salaried employees of Carmeuse Lime, Inc., other than former Oglebay Norton employees.
Participation Date	Date of completion of one year of vesting service. Participation was frozen on January 1, 2007.

Definitions

Vesting service	Years and months of service as a covered employee. For former Marblehead and Lafarge participants, vesting service for periods of employment prior to January 1, 2002 is based on the terms of the prior plan.
Pension service	Years and months of service as a covered employee. For former Marblehead and Lafarge participants, pension service for periods of employment prior to January 1, 2002 is based on the terms of the prior plan. Pension service was frozen for all participants on August 31, 2009.
Pensionable pay	Regular remuneration for services rendered, including commissions, overtime, shift differentials, premium pay for overtime and incentive compensation, but not including incentive compensation paid on a deferred basis.

SCHEDULE SB ATTACHMENTS

Average earnings

The average of the highest 60 consecutive months of pensionable pay out of the last 120 months prior to termination.

Beginning on January 1, 2010, the formula for determining average earnings was changed. Average earnings as of December 31, 2009 (and prior periods) are determined as described above. Average earnings for periods on or after January 1, 2010 will be determined by using projected pensionable pay, which is 2009 pensionable pay projected forward at 2% per year, rather than actual pensionable pay, in the formula above. In no event will average earnings be lower than the December 31, 2009 average earnings projected forward at 2% per year.

Average earnings were frozen as of December 31, 2014.

Covered compensation

The average of the Social Security (OASDI) Taxable Wage Bases for the 35-year period ending with the last day of the calendar year in which the participant attains Social Security Retirement Age.

For terminations prior to Social Security Retirement Age, future wage bases are assumed to be equal to that in the year of termination.

Beginning on January 1, 2010, covered compensation is determined by using a projected Social Security (OASDI) Taxable Wage Base, which is the 2009 Wage Base projected forward to the year of termination at 2% per year, rather than the actual Wage Bases in the calculations above. For terminations after December 31, 2014, the 2014 covered compensation will be used.

Prior plan monthly pension benefit

For former Marblehead or Lafarge participants, the benefit accrued under either the Marblehead Lime Retirement Plan or the Lafarge Lime Retirement Plan on December 31, 2001.

Normal retirement date (NRD)

First of the month coinciding with or next following the attainment of age 65.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit payable immediately.
Early retirement	The greater of (a) and (b): (a) The monthly pension benefit under formula (a) above, payable immediately, reduced by 6% for each year that benefit commencement precedes age 62. (b) The monthly pension benefit under formula (b) above, payable immediately, reduced as follows: i. Benefit earned after January 1, 2002: Reduced by 6% for each year that benefit commencement precedes age 62. ii. Prior plan monthly pension benefit: Reduced according to the factors applicable under the relevant prior plan.
Postponed retirement	Monthly pension benefit payable immediately.
Vested termination	Monthly pension benefit payable at NRD. Benefits can commence as early as age 55, and will be reduced for commencement prior to NRD using an actuarially-equivalent reduction factor. In no event can the benefit be lower than the prior plan monthly pension benefit, reduced according to the terms of the relevant prior plan.
Disability	Monthly pension benefit payable at NRD, calculated using pension service projected to age 65 and earnings at disablement.
Preretirement death	The monthly preretirement spouse benefit is payable to a surviving spouse. For deaths after the earliest date a participant could elect to commence retirement benefits, the benefit is payable immediately. For deaths prior to the earliest date a participant could elect to commence retirement benefits, the benefit is payable at the earliest date the participant could have commenced benefits had he or she survived.

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 100% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 50% joint and survivor annuity, a 100% joint and survivor annuity, a 50% joint and survivor annuity with a pop-up, a 100% joint and survivor annuity with a pop-up, and a life annuity, and a lump sum if the present value is under \$100,000. In addition, some additional forms of payment are available for the prior plan monthly pension benefit.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Employee contributions

Made to the plan prior to July 1, 1978.

Covered compensation	The average of the Social Security (OASDI) Taxable Wage Bases for the 35-year period ending with the last day of the calendar year in which the participant attains Social Security Retirement Age. For terminations prior to Social Security Retirement Age, future wage bases are assumed to be equal to that in the year of termination. Beginning on January 1, 2010, covered compensation is determined by using a projected Social Security (OASDI) Taxable Wage Base, which is the 2009 Wage Base projected forward to the year of termination at 2% per year, rather than the actual Wage Bases in the calculations above. For terminations after December 31, 2014, the 2014 covered compensation will be used.

For purposes of the "0.5%" portion of the formula in (a) above, average earnings are calculated by first limiting each year's pensionable pay to the Social Security (OASDI) Taxable Wage Base for that year, then limiting the resulting average to covered compensation. Note that the Social Security (OASDI) Taxable Wage Base for years after 2009 is determined by projecting the 2009 Taxable Wage Base forward at 2% per year.

Preretirement death

The monthly preretirement spouse benefit is payable to a surviving spouse. For deaths after the earliest date a participant could elect to commence retirement benefits, the benefit is payable immediately. For deaths prior to the earliest date a participant could elect to commence retirement benefits, the benefit is payable at the earliest date the participant could have commenced benefits had he or she survived.

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 100% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 50% joint and survivor annuity, a 100% joint and survivor annuity, a 50% joint and survivor annuity with a pop-up, a 100% joint and survivor annuity with a pop-up, and a life annuity, and a lump sum if the present value is under \$100,000. In addition, the benefit accrued on January 1, 2002 can be paid as a five-year certain annuity or a ten-year certain annuity.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. Former Michigan Limestone Operations (MLO) Limited Partnership Pension Plan for Salaried Employees

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective January 1, 2017.

Covered Employees Only salaried employees of the company who were participants in the MLO Limited Partnership Pension Plan on April 17, 2000 (except the President of MLO) are eligible.

Participation Date Date of hire. No one hired or rehired after December 31, 2005, will be eligible to participate in the plan.

Definitions

Continuous service Continuous Service is equal to elapsed employment with the company, calculated to the nearest month. Certain periods of absence, including layoff or disability, are considered. Continuous service used to calculate benefit amounts (but not for eligibility for a pension) was frozen for all participants on August 31, 2009.

Pensionable pay Total W-2 pay including Code sections 401(k) and 125 employee deferrals, but excluding automatic cost-of-living adjustments, up to the applicable 401(a)(17) annual compensation limit.

Average earnings The maximum average monthly earnings computed based on the 60 consecutive calendar months of pensionable pay over the last 120 months prior to retirement that produce the highest total. Beginning on January 1, 2010, the formula for determining average earnings was changed. Average earnings as of December 31, 2009 (and prior periods) are determined as described above. Average earnings for periods on or after January 1, 2010 will be determined by using projected pensionable pay, which is 2009 pensionable pay projected forward at 2% per year, rather than actual pensionable pay, in the formula above. In no event will average earnings be lower than the December 31, 2009 average earnings projected forward at 2% per year.

Average earnings were frozen as of December 31, 2014.

Special payment A single sum amount equal to 12 weeks of vacation pay multiplied by the rate of the participant's vacation pay per week as of December 31, 2014.

Regular accrued benefit A monthly life annuity equal to the greater of (a) or (b), but subject to the limitation of (c):

- (a) 105% of the employee's Average Monthly Earnings times the sum of 1.1% times years of Continuous Service up to 30 years plus 1.2% times years of Continuous Service in excess of 30 years, or
- (b) \$19.00 times years of Continuous Service up to 15 years, plus \$20.50 times years of Continuous Service in excess of 15 up to 30 years, plus \$22.00 times years of Continuous Service in excess of 30 years.
- (c) Upon the earlier of age 62 or eligibility for Social Security benefits, the total of monthly pension (excluding any supplementary pension) and monthly amount of Social Security is not to exceed the product of 70%, plus 1% for each year of Continuous Service in excess of 15 years, and the monthly average of the highest two of the last 10 calendar years of W-2 earnings prior to retirement.

This benefit is offset by the amount payable by USX (the September 23, 1987 accrued benefit).

Key operational personnel will receive an addition to their benefit equal to 39% of their accrued 2000 non-contributory benefit.

The accrued benefit for employees who elected prior to December 31, 2005 to participate in the company match option of the Oglebay Norton Incentive Savings Plan was frozen as of December 31, 2005.

Contributory accrued benefit A monthly life annuity equal to the sum of (a) and (b):

- (a) A Base Pension equal to 1/12 of 1% of the total amount of compensation, and
- (b) A Supplemental Amount equal to 30% of the Base Pension.

This benefit is only for participants who annually contributed 1% of their pensionable pay prior to September 1, 2009. Contributions are not permitted to the plan on or after September 1, 2009.

Definitions

Vesting service

Vesting service is years of employment within the controlled group, computed to the nearest 1/12th of a year.

Benefit service

Benefit Service is years of employment with the company, computed to the nearest 1/12th of a year. Employees who became participants due to their employment with following companies receive no benefit service prior to their entry date:

Colorado Silica	March 9, 1998
Port Inland	April 28, 1998
Minerals	May 1, 1999

Benefit service was frozen for all participants on August 31, 2009.

Pensionable pay

Total W-2 pay including Code Sections 401(k) and 125 employee deferrals up to the applicable 401(a)(17) annual compensation limit. Amounts attributable to group life insurance and other welfare benefit plans as well as amounts paid to HCEs under an executive benefit program are excluded as are amounts attributable to the greater exercise of stock options.

Average earnings

The average of the highest 60 consecutive months of pensionable pay out of the last 120 months prior to termination.

Beginning on January 1, 2010, the formula for determining average earnings was changed. Average earnings as of December 31, 2009 (and prior periods) are determined as described above. Average earnings for periods on or after January 1, 2010 will be determined by using projected pensionable pay, which is 2009 pensionable pay projected forward at 2% per year, rather than actual pensionable pay, in the formula above. In no event will average earnings be lower than the December 31, 2009 average earnings projected forward at 2% per year.

Average earnings were frozen as of December 31, 2014.

Luttrell Pension Plan

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective January 1, 2017.

Covered Employees Collectively bargained employees of Tenn Luttrell represented by the International Chemical Workers Union Council and its local 1036-C.

Participation Date The first day of the month coincident with or next following the crediting of an hour of service with Tenn Luttrell. Participation was frozen on November 1, 2009.

Definitions

Vesting service For periods of employment prior to January 1, 1984, vesting service as determined under the prior plan. For periods of employment after December 31, 1983, one year of vesting service is earned for each plan year in which 1,000 hours are worked. Employees of Tenn Luttrell Lime Company receive vesting service from their hire date. Employees of Blue Ridge Mining receive vesting service only for service after November 1, 1988.

Benefit accrual service Employees receive a full year of Benefit Accrual Service if they work at least 1,000 hours in a Plan Year. Employees will receive a fractional year of Benefit Accrual Service if their annualized hours for the fractional year exceed 1,000.

For employees who worked for Tenn Luttrell Lime Company or Blue Ridge Mining, benefit service accrual can begin no earlier than April 24, 1984, or November 1, 1988, respectively.

Benefit accrual service was frozen for all participants as of January 31, 2010.

Compensation Total W-2 pay including 401(k) or 125 or 132(f) employee elective deferrals, up to the applicable annual IRC §401(a)(17) compensation limit. Bonuses and overtime pay are included, but car allowances and the compensatory portion of the exercise of stock options are not included.

Preretirement death

The surviving spouse of a vested participant who dies prior to commencement of benefits is entitled to the benefit the spouse would have received had the participant retired with a 100% Joint and Survivor annuity at the earliest retirement date and then died.

Other Plan Provisions

Benefits available as lump sums

This plan provides for mandatory cash outs of lump sums of \$1,000 or less. Lump sums of greater than \$1,000 may be paid at the participant's election, subject to spousal consent if the value exceeds \$5,000.

Optional forms of benefit

The normal form for a single participant is a life annuity with 60 guaranteed payments. For a married participant the normal form is a 100% Joint and Survivor Annuity that is actuarially equivalent to the benefit for a single participant.

Other forms available: 50%, 66 2/3% and 75% Joint and Survivor Annuities, 10-year Certain and Continuous Annuity, and Life Annuity. All optional forms are actuarially equivalent to the normal form.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code.
