Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

(1) Name: COHNREZNICK LLP

(2) EIN: 33-4144829

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Independent Auditor's Report

To the Pension Committee
Atapco Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Atapco Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statements of net assets available for benefits and statements of accumulated plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and statements of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a significant likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental Schedules of Assets (Held at End of Year) (Schedule H, Line 4i) and Reportable Transactions (Schedule H, Line 4j) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Atapco Pension Plan

Notes to Financial Statements December 31, 2024 and 2023

Note 1 - Description of Plan

The following description of the Atapco Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a voluntary contributory-defined benefit cash balance plan covering all full-time employees of American Trading and Production Corporation (the "Company") who have completed three months of qualifying service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, covered participants who elect to participate in the Plan must contribute 1.5% of their base salary, up to the Social Security wage base, plus 3% of the excess of their regular base salary over the Social Security wage base, as defined in the Plan. Interest will be credited to each participant's account on an accrual basis, based upon the 30-year United States Treasury rates.

The Plan provides for a matching benefit by the Company to a participant with less than five years of service in the amount of \$4.66 for each \$1.00 contributed by the participant up to the Social Security wage base and \$3.16 for each \$1.00 contributed by the participant above the Social Security wage base. For participants with five or more years of service, the Company's matching benefit for each \$1.00 contributed by the participant is \$5.66 and \$3.66 up to and above the Social Security wage base, respectively. The Plan also provides special longevity and grandfathered benefits, which increase a participant's account based on certain service milestones. The Plan special longevity contributions were frozen as of January 1, 2008, and a one-time credit of \$10,000 was contributed to all active employees who were participants as of January 1, 2008.

Funding policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirements. During 2024 and 2023, the Company made no contributions to the Plan. The Company met the minimum funding requirements under ERISA for the years ended December 31, 2024 and 2023.

Vesting

Participants are vested 100% immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service.

Pension benefits

Participants entering the Plan after January 1, 1989 receive pension benefits based on a cash balance formula. Participants are eligible to receive benefits upon termination of employment due to retirement, disability, death, or other termination. Participants may elect to receive benefits either as a lump-sum distribution equal to the present value of an annuity or in the form of annuity payments. The lump-sum and annuity payments are reduced by certain amounts for participants who elect to receive benefits prior to normal retirement age. In addition to the above benefits, grandfathered participants (participants enrolled in the predecessor plan prior to January 1, 1989) may receive an alternative defined benefit based on final average compensation and the number of years of credited service with the Company.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from Plan participants are recorded in the year in which employee contributions are withheld from compensation.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Certain administrative services are provided to the Plan by the Company. Certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through October 14, 2025, the date the financial statements were available to be issued.

Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards Board issued Accounting Standards Codification 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Atapco Pension Plan

Notes to Financial Statements December 31, 2024 and 2023

- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market and mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds and money market funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts: The Money Market Separate Account is comprised of Separate Account Funds valued at the Accumulation Unit Value ("AUV") based on the underlying mutual funds on the last business day of the Plan year as determined by Principal Global Investors, an affiliate of Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company ("Trustee"), the trustee of the Plan. Investments measured at AUV are considered an equivalent of NAV under Accounting Standards Update 2015-07 and therefore used as a practical expedient. Redemptions may occur on a daily basis.

Atapco Pension Plan

Notes to Financial Statements December 31, 2024 and 2023

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	2024			Total
	Level 1	Level 2	Level 3	
Money market funds	\$ 241,877	\$ -	\$ -	\$ 241,877
Mutual funds	24,458,570	-	-	24,458,570
Total assets in the fair value hierarchy	22,471,838	-	-	24,700,447
Investments measured at net asset value (a)	-	-	-	95,518
Total investments at fair value	\$ 22,471,838	\$ -	\$ -	\$ 24,795,965
	2023			Total
	Level 1	Level 2	Level 3	
Money market funds	\$ 200,424	\$ -	\$ -	\$ 200,424
Mutual funds	22,271,414	-	-	22,271,414
Total assets in the fair value hierarchy	22,471,838	-	-	22,471,838
Investments measured at net asset value (a)	-	-	-	77,607
Total investments at fair value	\$ 22,471,838	\$ -	\$ -	\$ 22,549,445

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

For the years ended December 31, 2024 and 2023, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Fair value of investments in entities that use NAV

The following table summarizes investments for which fair value is measured using NAV per share practical expedient as of December 31, 2024 and 2023, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan:

Note 4 - Actuarial present value of accumulated plan benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, attributable under the Plan's provisions to the service employees have rendered. Benefits payable under all circumstances (retirement, death, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits was determined by the actuarial firm of Principal Financial Group, an affiliate of Principal Trust Company, the trustee, and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Significant assumptions underlying the actuarial computations are as follows:

Investment return	7.25%
Retirement age	50% at Age 62 for active participants 50% at Age 65 for active participants Age 65 for terminated vested participants
Mortality	Pri-2012 White collar base rate with Principal Mortality Improvement Scale (2024)

Changes in actuarial assumptions included interest rates used to determine the funding target and target normal cost, which changed from three segment rates of 4.75%, 5.00% and 5.74% to three segment rates of 4.75%, 4.87% and 5.59%. The investment return rates were 7.25% and 7.00%, respectively, for both pre-retirement and post-retirement during the Plan years ended December 31, 2024 and 2023.

The foregoing actuarial assumptions are based on the presumption the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2025 and 2024, respectively. Had the valuations been performed as of December 31, 2024 and 2023, respectively, there would be no material differences.

Atapco Pension Plan

Notes to Financial Statements December 31, 2024 and 2023

The active employees' accumulated contributions, including interest, amounted to \$3,754,011 and \$2,817,408 as of December 31, 2024 and 2023, respectively. Interest has been credited to employees' contributions based upon quarterly established interest rates. The average rate used to credit interest on employee contributions for the Plan years ended December 31, 2024 and 2023 was approximately 4.04% and 3.94%, respectively.

Note 5 - Plan termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of an annuity under the Plan.
3. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
4. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).
5. All other vested benefits not insured by the PBGC.
6. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Note 6 - Certified financial information

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain investments held at December 31, 2024 and 2023, and investment income for the years then ended, that are disclosed in the accompanying financial statements and supplemental schedules, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Principal Trust Company (the "Trustee").

Atapco Pension Plan

Notes to Financial Statements December 31, 2024 and 2023

The following information has been certified by the Trustee as of and for the years ended December 31, 2024 and 2023, and therefore was not audited:

	<u>2024</u>	<u>2023</u>
Investments at fair value	\$ 23,443,451	\$ 21,321,488
Net appreciation in fair value of investments	1,720,190	2,723,060
Interest and dividends	820,967	730,771

Note 7 - Tax status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 10, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Related party transactions and party-in-interest transactions

Certain Plan investments are held by Principal Financial Group, an affiliate of the Trustee. Transactions with Principal Financial Group and the Trustee (collectively referred to as "Principal") qualify as party-in-interest transactions. During the years ended December 31, 2024 and 2023, the Plan paid \$59,706 and \$61,950 to Principal for services provided to the Plan.

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is reasonably possible that changes in these estimates and assumptions in the near-term could materially affect the amounts reported and disclosed in the financial statements.

Assumptions prescribed by law

Mortality Before benefit payment period
 None
 During benefit payment period
 IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

Inflation 2.40% increase per year.
 Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return 7.00% for the current plan year.
 The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement Active participants

Age	Probability of retirement
62	50%
65	Remaining participants

Inactive participants are assumed to retire at age 65.

This assumption is based on the results of recent experience analysis and anticipated future experience.

Upcoming year salary increase The preceding year's salary is increased by 4.00% at each age. Note: not used for Plan accounting calculations.

Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies along with more recent experience of the plan participants.

Disability None. Due to the size of the plan and limited experience, we are not recognizing a disability assumption prior to retirement.

Marriage	<p>75% married; husbands are 3 years older than wives.</p> <p>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</p>
Withdrawal	<p>None. Due to the size of the plan and limited experience, we're not recognizing a withdrawal assumption prior to retirement.</p>
Wage base increase	<p>3.50% per year.</p> <p>Our Wage Base increase assumption are based on inflation and the real wage differential forecast from Social Security Trustee Report. Based on average annual real wage growth forecast from the Social Security Trustee report and historical averages, our best estimate places this assumption at 3.50%.</p>
Compensation limit increase	<p>2.40% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See Calculated deduction in Rules and regulations.</p> <p>Compensation limit increase is consistent with the inflation assumption.</p>
Form of benefit and basis	<p>100% of active participants will elect a benefit paid in a lump sum at the assumed retirement ages. The lump sum benefit is based on the Applicable Mortality and the plan's funding target interest rates, as prescribed.</p> <p>Participants who are already terminated on the valuation date with only a cash balance account are assumed to receive their benefit paid in a lump sum at their normal retirement age.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p>
Cash balance interest crediting rate	<p>4.00% compounded annually</p> <p>The plan defines the interest crediting rate as the 30-year Treasury rate. See the details on forward looking expectation on Treasury yields in the Long Term Capital Market assumptions link.</p>

Methods prescribed by law

Liability measure	<p>Funding target is the value of the current accrued account balance. The target normal cost is based on the amount of expected increase in the account balance in the current plan year.</p>
-------------------	--

Methods selected by plan sponsor

Asset method The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates 24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.01%	5.13%	5.15%

Methods elected by actuary

Retirees Assets and liabilities for current and future retirees are included.

Vested benefits A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant’s vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan’s regular funding target and target normal cost.

In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The White collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe “Approach 1” is reasonable for this plan.

Due to the size of the plan and limited experience, we are assuming no mortality before benefit payment period.

Mortality improvement Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None ¹

¹Based on the sponsor’s input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See [Mortality documentation](#) for rationale and additional information.

[Interest rate used to value liabilities](#)

6.25%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

[Treatment of administrative expenses](#)

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

[Basis for lump sums](#)

[Interest rate](#)

Based on the three segment yield curve: 3.55%/3.95%/4.95%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

[Mortality](#)

We have selected the same [mortality](#) assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
 Atapco Pension Plan
 EIN 51-0363543 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 1/17/2014 including Amendment 4 signed 4/09/2024.

Plan eligibility

Age	No age requirement.
Service	Three months of service.
Entry Date	The first day of the month coinciding with or following the date on which an employee meets the eligibility requirements. Interns are not eligible to participate in the plan.

Normal retirement benefit

Age	Attained age 65; however, after January 1, 1988 a participant whose employment commencement date is on or after attainment of age 60, normal retirement age shall be five years of plan participation.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement). For a grandfathered participant, the normal form of benefit is a single life annuity with five years certain.

Schedule SB, Part V - Summary of Plan Provisions
 Atapco Pension Plan
 EIN 51-0363543 Plan No. 001

Cash balance account

An employee's cash balance account will be determined based on the following annual credits as a percentage of average compensation.

	Less than 5 years of service		5 or more years of service	
	Up to taxable wage base	Over taxable wage base	Up to taxable wage base	Over taxable wage base
Employee	1.50%	3.00%	1.50%	3.00%
Atapco	7.00%	9.50%	8.50%	11.00%
Total	8.50%	12.50%	10.00%	14.00%

Effective January 1, 2008, each active employee's cash balance account was credited with \$10,000. The cash balance account is credited with interest based on 30 year Treasury rates.

Effective January 1, 2008, upon retirement or termination, a participant's cash balance account is increased based on years of completed service as of January 1, 2008 and the factors following.

Years of service as of 01/01/2008		Years of service as of 01/01/2008	
	Increase		Increase
Less than 5	0.00%	18	13.52%
5	0.00%	19	14.62%
6	1.00%	20	15.72%
7	2.00%	21	16.88%
8	3.00%	22	18.04%
9	4.00%	23	19.19%
10	5.00%	24	20.35%
11	6.05%	25	21.51%
12	7.09%	26	22.73%
13	8.14%	27	23.94%
14	9.18%	28	25.16%
15	10.23%	29	26.37%
16	11.33%	30 or more	27.59%
17	12.43%		

Normal retirement benefit For a participant in the prior Atapco plan as of 12/31/1988, who terminates after 12/31/1989, the greater of a) or b) below.

- a) The sum of:
 - 1) The American Trading Pension Plan benefit at 12/31/1988
 - 2) The cash balance account
- b) The sum of:
 - 1) 1.25% of average compensation not in excess of the integration level, multiplied by accrual service (maximum 35 years).
 - 2) 1.75% of average compensation in excess of the integration level, multiplied by accrual service (maximum 35 years).
 - 3) 1.25% of average compensation, multiplied by accrual service in excess of 35 years.

For participants in the plan on or after 1/1/1990, the normal retirement benefit is the cash balance account.

Increase in benefit A participant who participated in the prior Atapco plan as of 12/31/1988, who was a participant in the plan as of 12/31/1998 and who was an employee on 12/31/1999 is eligible for an increase. An increase shall also apply to an employee who participated in the plan as of 12/31/1998 and who was terminated prior to 12/31/1999 without cause.

A participant's benefit calculated through 12/31/1998 according to the grandfathered benefit shall be increased by 20%.

Retirees and beneficiaries currently receiving monthly payments were granted a 6% increase effective October 1, 2006.

Late retirement benefit

Age	No maximum age
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date. For the cash balance benefits, the interest credits serve as the actuarial increase.

Early retirement benefit

Age	Attained age 55.
Service	Ten years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced to reflect the fact that early retirement date precedes normal retirement date, according to the information below. Reduction factors for the Cash Balance Account as well as part b) of the benefit formula shown above.

Age at retirement	Social Security normal retirement age		
	65	66	67
65	1.00	1.00	1.00
64	1.00	1.00	1.00
63	1.00	1.00	0.95
62	1.00	0.95	0.87
61	0.95	0.87	0.83
60	0.87	0.83	0.79
59	0.83	0.79	0.74

57	0.74	0.70	0.65
56	0.70	0.65	0.60
55	0.65	0.60	0.55

The accrued benefit as of 12/31/1988 is reduced by 5% per year prior to age 62.

Termination benefit

Vesting percentage	100% after three years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Eligibility	Qualified for disability benefits under the Federal Social Security Act.
Service	Ten years of vesting service
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	A disabled participant continues to accrue service from the date of disability through normal retirement date. Also, the compensation and integration level used for benefit purposes when a disabled participant retires are assumed to be the same as the date immediately prior to the date of total disability.

Death benefit

Amount	<p>If a vested active participant dies before he retires, his beneficiary can choose from the following two options:</p> <ol style="list-style-type: none">1) An annuity equal to 50% of the normal retirement benefit the participant would have received if he had terminated employment just prior to death and elected to have his retirement benefit commence at the earliest possible date in the form of a 50% QPSA.2) The largest of:<ol style="list-style-type: none">a) One times the annual salary of the participant at the date of deathb) The cash balance accountc) The participant's contributions with interestd) The commuted value of the payment over 5 years of the early or normal pension which the participant would have been entitled had he retired as of the last day of the month preceding his death (only if employee was eligible to retire at date of death)e) Actuarial equivalent of the 100% joint and survivor benefit
---------------	--

Employee contributions

Amount	1.5% of compensation up to the Social Security Wage Base and 3% of compensation in excess of the Social Security Wage Base. Interest is credited at 120% of the federal mid-term rate.
---------------	--

Definitions

Average compensation	Participant's compensation averaged over the highest 60 consecutive months during the 120 months immediately preceding the month in which his employment terminates.
Accrual service	Each year and any fraction of a year an employee is a participant in the plan. Accrual service begins at date of participation.
Vesting service	A computation period for which a participant is credited with 1,000 hours or service. Accrual service begins at date of hire.
Integration level	The monthly average of the social security taxable wage bases in effect under section 230 of the social security act for each year in the 35 year period ending with the year the employee attains social security retirement age.

Optional forms of benefit payments

The optional forms of benefit payments are:

Monthly annuity payable for life, or 5, 10, or 15 years certain and life

Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100.

Monthly annuity for life with modified cash refund of employee contributions and/or transfer value

Escalating life annuity (only for the accrued benefit as of 12/31/2005)

Single sum payment equal to the present value of the retirement benefit

The optional form conversion basis is 7.5% interest and the applicable mortality table as set forth in Code Section 417 for payments other than lump sums.

Lump sum provisions

Small amount force out (SAFO) – allowed up to \$7,000.

Lump sums in excess of SAFO - are allowed at termination of employment and retirement.

Conversion – greater of the deferred or immediate rate with early retirement factor based on the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the first calendar month preceding the first day of the stability period, which is the successive period of one calendar quarter that contains the annuity starting date for distribution and for which the applicable interest rate remains constant.

The optional form conversion basis for late retirement and required minimum distribution is the applicable interest and applicable mortality table as set forth in Code Section 417.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 25 – Change in Method
Atapco Pension Plan
EIN 51-0363543 Plan No. 001

The Employee Retirement Income Security Act of 1974, Section 103(c)(4), requires the plan administrator to furnish an explanation of a change in the enrolled actuary as part of the annual report. There was a change in enrolled actuaries since last year. The actuarial valuation work continues to be done by Principal Life Insurance Company. However, the individual involved with this plan as the enrolled actuary has changed due to a change in the plan assignment among enrolled actuaries at Principal Life Insurance Company.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Atapco Pension Plan
EIN 51-0363543 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The cash balance interest crediting rate has increased from 3.50% to 4.00%.
