Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

(1) Name: **FIONDELLA, MILONE & LASARACINA LLP**

(2) EIN: **06-1648707**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		20000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X

Independent Auditors' Report

To the Finance and Pension Committee of the Board of Directors
Stanley Black & Decker, Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Stanley Black & Decker Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Notes 4 and 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Independent Auditors' Report (continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Independent Auditors' Report (continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Stanley Black & Decker Pension Plan

Notes to Financial Statements

Years Ended December 31, 2024 and 2023

1. Description of the Plan

The Stanley Black & Decker Pension Plan (the Plan) is a defined benefit plan which, prior to the plan mergers effective December 31, 2012 (see below), covered substantially all U.S. employees of The Black & Decker Corporation, Black & Decker (U.S.) Inc., Black & Decker Inc. and certain affiliated companies, other than those employees who were covered by other pension plans or by collectively bargained agreements that do not provide for their participation in the Plan. Black & Decker (U.S.) Inc. (the Company) is the Plan sponsor and Plan administrator. The Plan was previously amended whereby after December 31, 2006, with certain exceptions, no new employees would become covered under the Plan.

Effective December 31, 2010, the Plan was amended whereby benefit accruals for all participants under the Plan were frozen as of December 31, 2010. The accrued benefit of any participant shall not exceed the amount of his or her accrued benefit under the Plan as of December 31, 2010, and no participants shall receive benefit service, and no additional benefits shall accrue for any period after December 31, 2010. Also, effective December 31, 2010, participation under the Plan was frozen, so that after December 31, 2010, coverage under the Plan is limited to participants who are already covered under the Plan on December 31, 2010.

Effective December 31, 2012, all of the assets and liabilities of the following defined benefit pension plans transferred to and merged into the Plan: Retirement Plan for Hourly-Rated Employees of Porter-Cable Corporation (Porter-Cable Plan); Retirement Plan for Hourly Employees of Price Pfister, Inc. (Price Pfister Plan); Pension Plan for Hourly Employees of the True Temper Sports Division Represented by the United Steelworkers of America (True Temper Plan); Best Lock Corporation Employees' Pension Plan (Best Lock Plan); Pension Plan for Employees of Sargent & Greenleaf, Inc. (S&G Plan); National Manufacturing Co. Pension Plan (National Manufacturing Plan); Pension Plan for Employees of Lista International Corporation (Lista Plan); effective December 31, 2013, all assets and liabilities of the HSM Electronic Protection Services, Inc. Pension Plan (HSM Plan) were transferred to and merged with the Plan; and, effective December 31, 2018 all assets and liabilities of the Ferry Cap & Set Screw Company Pension Plan for Salaried Employees (Ferry Cap Plan) were transferred to and merged with the Plan (collectively "the Merged Plans"). All benefits under the Merged Plans were frozen prior to the effective dates of the mergers. As a result of these mergers, participants covered under the Merged Plans became participants in the Plan. Separate benefit formulas and other provisions pertaining to benefit determinations are set forth in the Plan that continue to apply after the effective date of the merger, to the participants who were previously covered under the Merged Plans.

Stanley Black & Decker Pension Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

The Company's funding policy is to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax laws plus such additional amounts as the Company may determine to be appropriate. For 2024, there was a minimum required contribution of \$7,474,499, which was fully covered by the application of funding balances available. For 2023, there was a minimum required contribution of \$12,847,415, which was updated from the initially reported amount of \$5,700,000 because the plan sponsor elected to apply prefunding balance to the 2023 minimum required contribution and the Plan was no longer exempt from creating a new shortfall amortization base for 2023. The Company made contributions to the Plan of \$4,301,836 and \$1,913,225 pertaining to 2024 and 2023, respectively. The Plan has met the Employee Retirement Income Security Act (ERISA) minimum funding requirements.

Information about the Plan, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in a Summary Plan Description. Copies are available from the Plan administrator.

2. Significant Accounting Policies

Basis of Accounting and Estimates

The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (US GAAP). US GAAP requires management to make estimates and assumptions that can affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. While management believes that the estimates and assumptions used in the preparation of the financial statements are appropriate, actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investment consists of an interest in the Stanley Black & Decker, Inc. Pension Master Trust (Master Trust) (Notes 4 and 9). The fair value of the Plan's interest in the Master Trust is based on the fair value of the underlying assets held in the Master Trust as adjusted for contributions, investment earnings and losses, actual benefit distributions, and expenses.

Marketable securities within the Master Trust are stated at fair value. Securities traded on national securities exchanges are valued at the last reported sales price on the last business day of the plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices. The Plan, through its investment in the Master Trust, may utilize derivative financial instruments to manage market risk, including futures contracts for trading or hedging purposes. Derivative financial instruments are marked to market and reflected in the net appreciation or (depreciation) amount at fair value in the Statements of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition (continued)

The change in the difference between fair value and the cost of investments is reflected as unrealized appreciation or (depreciation) in the aggregate fair value of investments. The realized gain or (loss) on investments is the difference between the proceeds received and the average cost of investments sold. The total unrealized appreciation or (depreciation) and the realized gain or (loss) is reflected as net appreciation or (depreciation) of Plan assets within the operating results of the Master Trust.

Fair Value of Investments

The Master Trust follows Financial Accounting Standards Board (FASB) Accounting Standards Codification 820, *Fair Value Measurement and Disclosures* (ASC 820), for all financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the Master Trust financial statements on a recurring basis. ASC 820 defines fair value, establishes a fair value hierarchy, and expands disclosures about fair value measurements.

ASC 820 defines fair value as the price that would be received upon sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability.

The fair value is calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities includes consideration of non-performance risk including the Plan's own credit risk.

In addition to defining fair value, ASC 820 defines the disclosure requirements around fair value and establishes a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of three levels which is determined by the lowest level input that is significant to the fair value measurement.

2. Significant Accounting Policies (continued)

Fair Value of Investments (continued)

These levels are:

Level 1 – Inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2 - Inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

Following is a description of the valuation methodologies used for assets measured at fair value within the Master Trust. There have been no changes in the methodologies used to determine fair value at December 31, 2024 and 2023.

Short-Term Investments – Level 1 short-term investments are valued at the closing price reported on the active market on which the individual securities are traded. Level 2 short-term investments are valued based on quoted prices for identical or similar assets or liabilities in non-active markets or pricing models for which inputs are observable.

Equity Investments – Level 1 securities are valued at the closing price reported on the active market on which the individual securities are traded. Level 2 securities, including common collective trusts, are valued using the net asset value or unit value as reported by the investment managers. These net asset values use pricing methodologies which comply with the provisions of ASC 820, have observable assumptions, or observable market data, although as noted, the units are not publicly traded in active markets. Level 3 securities consist mainly of limited partnership funds valued based on third party valuations for which significant unobservable inputs are not reasonably available.

Government Securities – Level 1 government securities are valued at the closing price reported on the active market on which the individual securities are traded. Level 2 government securities are valued at the closing price of similar assets in active markets.

Corporate Securities – Level 2 securities are valued at the closing price of similar assets that have recently traded.

Benefits

Benefit claims are recorded as deductions when they have been approved for payment and paid by the Plan.

Administrative Expenses/Related Party Transactions

To the extent permitted by ERISA, certain Plan actuarial and investment advisory fees, PBGC premiums, and some other direct expenses are paid by the Plan from Master Trust assets. Certain other expenses are paid by the Company.

Annuity Contract

Pursuant to the regulatory guidelines pertaining to the transfer of assets and liabilities from the Plan, a \$30,058,606 group annuity insurance contract was purchased in October 2017 based on the identification and valuation of obligations relating to certain Plan participants as of October 18, 2017. Each participant, alternate payee or beneficiary, who was receiving or entitled to receive monthly annuity payments under the Plan on or before July 1, 2017, that did not exceed a stipulated amount under the Plan and was receiving such annuity payments on the date of purchase of the contract, became entitled to an annuity benefit under the annuity contract commencing January 1, 2018. As a result of the purchase of the annuity insurance contract, the insurer has a legal obligation to make all benefit payments for which it has received the premiums or requested consideration. The Company has no material obligation if the insurance company fails to pay under its obligation. Thus, the annuity insurance contract, and the related benefit obligation is not reflected in the Plan's net assets available for benefits.

3. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments that are attributable under a plan's provisions to services rendered by employees. These include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (i.e. retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Stanley Black & Decker Pension Plan

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The actuarial present value of accumulated plan benefits is determined by the Plans' third party actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

Accumulated plan benefit information at the beginning of the Plan year, is as follows:

	January 1,	
	2024	2023
Vested benefits:		
Participants currently receiving payments	\$ 599,292,548	\$ 532,718,757

Active employees	42,783,155	30,660,715
Total vested benefits	814,124,398	706,986,382
Non-vested benefits	1,776,511	2,050,666
Total present value of accumulated benefits as of January 1	\$ 815,900,909	\$ 709,037,048

The following is a reconciliation of the actuarial present value of accumulated benefits (PVAB) as of January 1, 2024:

Present value of accumulated benefits as of January 1, 2023	\$ 709,037,048
Changes during the year due to:

The rates at which participants are assumed to retire by age are:

	2024	2023
Age 55-58	10%	5%
Age 59:	10%	7.5%
Age 60-61:	10%	10%
Age 62:	20%	20%
Age 63-64:	20%	15%
Age 65	30%	40%
Age 66:	40%	40%
Age 67-68:	40%	20%
Age 69:	40%	25%
Age 70+:	100%	100%

For certain Merged Plans the retirement age which participants are assumed to retire by is age 65.

Changes in actuarial assumptions of \$128,862,505 includes changes in the discount rate and the methodology used to determine the discount rate. Historically the Plan used an arithmetic return offset by administrative expenses. The new methodology for the discount rate now reflects a median 20-year geometric return, offset by administrative expenses as a percentage of plan assets. This methodology uses an estimate of future experience using the geometric return for trust asset returns, reflecting the Plan's current asset allocation and any expected changes during the current plan year, current market conditions and the Plan Sponsor's expectations for future market conditions.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable to determine the actuarial present value of accumulated plan benefits.

4. Information Prepared and Certified by Trustee

The Bank of New York Mellon is Trustee under the Master Trust. All investment information related to the Master Trust that is disclosed in the accompanying financial statements, including investments held at December 31, 2024 and 2023, and net investment income of Master Trust, for the years then ended, was obtained or derived from information supplied to the administrator of the Plan, and certified as complete and accurate by the Trustee.

Stanley Black & Decker Pension Plan

Notes to Financial Statements (continued)

5. Income Tax Status

The Plan, as amended and restated in its entirety effective January 1, 2020, received a determination letter from the Internal Revenue Service dated August 25, 2021, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, is not subject to tax under the present income tax law. Since the form of the Plan is qualified, the Plan is required to operate in accordance with its terms in order to maintain its qualification. The Plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status. The Plan has been amended since the restatement covered by the August 25, 2021 determination letter.

The Plan administrator, which consults regularly with legal counsel regarding Plan matters, believes that the Plan is currently being operated in accordance with its terms. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no tax audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2021.

6. Risks and Uncertainties

The Plan, through its participation in the Master Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Stanley Black & Decker Pension Plan

Notes to Financial Statements (continued)

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

- a. That portion of a participant's benefit derived from his or her own contributions.
- b. Benefits that former employees or their beneficiaries have been receiving for at least three years as of the date of the Plan termination, or that employees who were eligible to retire at least three years prior to the date of the Plan termination would have been receiving if they had retired and received benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest amount that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the PBGC up to applicable limitations (discussed below).
- d. All other vested benefits not insured by the PBGC.
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. There is also a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2024 and 2023, the monthly ceiling was \$7,108 and \$6,750, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination, whichever comes later. For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceiling is actuarially adjusted downward.

The PBGC guarantee described above does not apply to the Plan benefits that are provided pursuant to Group Annuity Contract No. GA-34451 issued by New York Life Insurance Company. This contract is held by the Company to provide Plan benefits for certain participants who were receiving or entitled to receive benefit payments under the Plan immediately prior to October 18, 2017 (see Note 2 – Annuity Contract).

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, the financial condition of the Company and the level of benefits guaranteed by the PBGC.

If participants receive all of their benefits pursuant to the termination of the Plan, any assets remaining after the benefits are provided will be returned to the Company.

8. Party-in-Interest/Related Party Transactions

Plan assets include investments in funds held by The Bank of New York Mellon which serves as the Plan's Trustee and performs certain administrative services for the Plan and as such, these transactions qualify as party-in-interest transactions under ERISA. These party-in-interest transactions are deemed not to be prohibited because they are covered by statutory and administrative exemptions pursuant to the IRC and the rules under ERISA regarding prohibited transactions.

9. Investment in Master Trust

The Plan's investments consist of an interest in the Master Trust. The Master Trust was created and maintained for certain employee pension benefit plans sponsored by the Company, including the Plan. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income or loss less actual distributions and allocated administrative expenses. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was 86.67% and 86.97%, respectively. Investment income and administrative expenses related to the Master Trust are allocated to the individual pension benefit plans for which assets are held under the Master Trust, based upon average monthly balances invested for each plan.

At December 31, 2024 and 2023, the Master Trust held approximately 80% and 75%, respectively, of its assets in government and corporate debt securities with the remainder allocated among various equity investments as well as a small allocation to alternative investments. The short-term investments were split between levels 1 and 2 based on the type of investment, with government securities being assigned to Level 1 and money market instruments being assigned to Level 2. The debt securities were split between levels 1 and 2 based on their liquidity, with U.S. Treasury securities being assigned to Level 1 and corporate debt securities assigned to Level 2. The Master Trust's equity holdings were split between levels 1 and 2 based on the type of investment, with publicly quoted equities held in a separately managed account placed in Level 1 and investments held in commingled funds and similar vehicles, which are recorded at the net asset value based on the market prices of the underlying securities, placed in Level 2.

Stanley Black & Decker Pension Plan

Notes to Financial Statements (continued)

10. Fair Value Measurement (continued)

The Level 3 assets of the Master Trust had no purchases for the year ended December 31, 2024 and sales of \$5,035,981. The Level 3 assets of the Master Trust had purchases of \$290,000 for the year ended December 31, 2023, and sales of \$3,501,186, respectively.

The Master Trust's investments in equity instruments include limited partnership interests, which had an aggregate fair value of \$14,065,454 and \$19,617,914 at December 31, 2024 and 2023, respectively. The fair value of these limited partnership interests is determined by the general partners based upon the Master Trust's pro rata ownership in the investments held by the partnerships. Investments in limited partnerships are recorded at market value using external pricing sources or, when such sources are not readily available or deemed inappropriate, at fair values determined by the general partners. The determination by the general partners of estimated fair values of certain illiquid investments includes, among other methods such as the use of external pricing models, obtaining valuation-related information from third-party investment firms and pricing services, and performing other research activities. Such determinations involve subjective judgment as the value of these limited partnership investments is generally ultimately determined by negotiation between parties in a sales transaction. The carrying value recorded in the financial statements of the Master Trust's investments in these limited partnership interests may differ materially from the amounts ultimately realized from these limited partnership interests and from the values that would have been reported in the financial statements had a ready market for these partnership interests existed.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

10. Fair Value Measurement (continued)

The following tables set forth a summary of Master Trust equity investments which are recorded at net asset value as of December 31, 2024 and 2023, respectively.

	December 31, 2024			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trusts	\$ 72,049,319	n/a	Daily / Semi-Monthly	none

Private equity *	19,617,914	\$ 2,915,000	n/a	n/a

* This category includes several private equity partnerships that have equity ownership in underlying portfolio companies. These partnerships invest for terms of 7 years on average and are generally illiquid. The fair value of these funds has been determined using the net asset value of the ownership interest in the funds, which are determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

At December 31, 2024 and 2023, the Master Trust held no derivative financial instruments.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Decrement timing The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Future increases in maximum benefits and plan compensation limitations Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Actuarial value of assets for determining minimum required contributions Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued All benefits described in the Plan Provisions section of this report were valued based on discussions with Stanley Black & Decker, Inc. regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Stanley Black & Decker, Inc. and based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Stanley Black & Decker, Inc., through its third party administrator Wells Fargo, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

In consultation with the plan sponsor, the following assumptions were made for missing or apparently inconsistent data elements:

- For approximately 8 beneficiaries with postretirement death benefit only were assumed to not be included in the extract.
- For approximately 120 prior deferred prior deferred beneficiaries valued with only PRDB due and provided with a complete death processing code, PRDB was assumed to be paid and excluded from valuation.
- For approximately 7 prior deferred beneficiaries valued with only PRDB due provided on extract with annuity and PRDB due, assumed extract correct and valued annuity and PRDB are due.
- For approximately 7 prior deferred or receiving participants missing from data extract for two consecutive years, assumed no further benefit due and excluded from valuation.
- For approximately 4 deferred participants, beneficiaries, and alternate payees with no accrued benefit provided on the data extract, an average benefit by status group was valued.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are estimated by determining the actual expenses paid from the trust the preceding year, adjusted to reflect changes in the PBGC premiums.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates are based on an experience study conducted in 2017 based on actual participant experience from 2013 to 2016.
Disability	Disability rates are based on plan sponsor expectation for the future with periodic monitoring of observed gains and losses caused by disability patterns different than assumed.
Retirement	Retirement rates are based on experience study conducted in 2017 based on actual participant experience from 2013 to 2016.
Benefit commencement date for deferred benefits:	
• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
• Deferred vested benefit	Deferred vested benefit commencement ages are based on an experience study conducted in 2017 based on actual participant experience from 2013 to 2016.
Form of payment	The assumed form of payment is based on an experience study conducted in 2017 based on actual participant experience from 2013 to 2016.
Percent married	The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.
Spouse age	The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2022 to September 2023 and reflect the interest rate corridors of ARPA.
- The mortality table used to calculate the funding target and target normal cost was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430.
- The expected administrative expenses assumption amount increased from \$5,700,000 for the 2023 plan year to \$2,800,000 for the 2024 plan year.

Schedule SB, Part V Summary of Plan Provisions

Black & Decker Pension Plan

Plan Provisions

The plan was amended and restated January 1, 2020. Most recently amended effective March 1, 2020.

Covered employees One year of eligible service is required for participation. All participants under a prior plan before January 1, 1992 are automatically included. Participation closed to new employees hired on or after January 1, 2007.

Definitions

Vesting service Vesting service is determined on an elapsed time basis with rounding of partial months.

Credited service Credited service is frozen.

Pensionable pay Section 415 compensation plus elective deferrals prior to January 1, 1998 but excluding expense allowances, non-fringe benefits, moving expenses, non-qualified deferred compensation, welfare benefits or payments under Incentive or Equity Plan.

Average earnings Average earnings are frozen.

Normal retirement date (NRD) First day of the month coinciding with or next following the attainment of age 65.

Monthly pension benefit 1.0% of Final Average Pay (base percentage) plus 0.425% of Final Average Pay in excess of Covered Compensation (excess percentage), times Benefit Service Credit after December 31, 1991. Service for the excess formula is limited to 35 years, including service under the Prior Plan.

plus

The benefit calculated under the Prior Plan, as of December 31, 1991 multiplied by Final Average Pay at date of termination divided by Final Average Pay at December 31, 1991, not less than one.

Monthly preretirement death benefit Return of Prior Plan accumulated contributions (if applicable) with credited interest. The spouse will receive a monthly annuity based on the Joint and 50% Survivor Annuity Option.

Eligibility for Benefits

Normal retirement Retirement on NRD

Early retirement Retirement before NRD and on or after both attaining age 55 and five years of vesting service credit. Attaining age 55, for employees covered under a prior plan whose early retirement eligibility was age 55 without regard to service.

Postponed retirement Retirement after NRD.

Vested termination Termination for reasons other than death or retirement after becoming 100% vested with five or more years of vesting service credit, or at age 65, regardless of service.

Disability Disability while in employment and before age 65.

Preretirement death benefit Death of an active, married participant who has completed at least five years of service or a vested terminated married participant.

Benefits Paid Upon the Following Events

Normal retirement Monthly pension benefit determined as of NRD.

Early retirement Normal retirement benefit decreased by 1/4% per month for the first 60 months and by 1/3% per month for the next 60 months that commencement precedes age 65.

For employees meeting the Rule of 90 requirement (age plus vesting service credit equal or exceed 90), no reduction for retirement between ages 62 and 65. Accrued pension decreased by 1/4% per month for the first 24 months and by 1/3% per month for the next 60 months that commencement precedes age 62.

Postponed retirement Monthly pension benefit determined as of actual retirement date.

SCHEDULE SB ATTACHMENTS

Vested termination	Accrued pension based on benefit service credit to termination date. Benefit is payable starting at age 65. Benefits may commence as early as age 55 decreased by 3/4% per month for the first 48 months and 5/12% per month in excess of 48 months prior to age 65. An employee's vested benefit in the Plan cannot be less than his vested benefit under a Prior Plan.
Disablement	Any termination or early retirement benefit for which the participant qualifies. Payments commence as soon as practicable following the approval of the application for benefits.
Preretirement death	If the participant has not reached early retirement eligibility at death, on the date he would have reached early retirement had he lived, or if the participant is eligible for early retirement, immediately. The spouse may defer commencement up to the participant's NRD.

Other Plan Provisions

Forms of payment	For a single participant the normal form of payment is a monthly pension ceasing at the retired participant's death. For a married participant the normal form of payment is a reduced monthly pension which allows for a continuation of payments equal to one half of the reduced pension to the surviving spouse after the participant's death. Any participant may elect, by written application, to receive the normal benefit or other optional forms of benefit payment. Optional forms of payment include: life annuity, 50%, 66 2/3%, 75% and 100% joint and survivor annuities, 5-year or 10-year certain and continuous annuity, and Level Income Annuity (with Social Security). If the present value of Accrued Pension is less than or equal to \$1,000, a cash-out payment will be made.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Monthly preretirement death benefit

For a vested active employee or former employee who dies after attaining age 55, the benefit is calculated as if the employee had retired on the first of the month in which he died with the automatic form of benefit in effect. For such employee who dies prior to attaining age 55, the benefit commences when the deceased employee would have attained age 55 and is calculated as if the employee had terminated employment on his date of death and commenced receiving a reduced deferred vested benefit at age 55 with the automatic form of benefit in effect. For employees who terminated prior to January 1, 1992, Benefits of employees and their surviving spouses are reduced to reflect the cost of the coverage during the period it is in effect, except that there is no charge while the employee is in active service after age 55 or during the deferral period after an employee retires early and defers commencement of his benefit. During the period where a reduction in benefit change is assumed for such coverage, employee can reject coverage but requires spouse's consent.

Eligibility for Benefits

Early retirement

Retirement before NRD and after both attaining age 55 and completing ten years of continuous service

*Active employees, between June 16, 1999 and December 31, 1999, were eligible for early retirement if they were age 54 with ten or more years of continuous service as of December 31, 1999.

Vested termination

Five years of continuous service

Disability

Disability prior to NRD after completing ten years of continuous employment

Benefits Paid Upon the Following Events

Early retirement

Accrued normal retirement pension as of early retirement date commencing at age 62 or reduced if commencing before age 62 by 1/3 of 1% for each month that the benefit commences before age 62.

*Active employees, between June 16, 1999 and December 31, 1999, were eligible for early retirement if they were age 54 with ten or more years of continuous service as of December 31, 1999. Benefits were unreduced for employees age 59 with ten or more years of continuous service.

Vested termination Starting at age 65, a pension calculated as for normal retirement, based on Credited Service to date of termination. If a former employee had ten years of Continuous Service, a reduced benefit is payable commencing between ages 55 and 65. The following schedule shows, for each whole age, the vested early retirement factors used in calculating the benefit:

Vested Early Retirement Factors			
Age	Factor	Age	Factor
55	.387693	60	.605340
56	.422296	61	.665827
57	.460762	62	.734114
58	.503640	63	.811485
59	.551578	64	.899490

Disablement If not eligible to receive a social security disability benefit, twice the normal retirement benefit accrued to date of disability is payable to age 65. After age 65, normal retirement benefit accrued to date of disability is payable. If eligible to receive a social security disability benefit the normal retirement benefit accrued to date of disability is payable.

Other Plan Provisions

Forms of payment

- Normal Life Annuity for unmarried employees, 50% Contingent Annuitant for married employees.
- Optional Single Life Annuity, 50% and 75% Contingent Annuitant option; Social Security option; Life Annuity option, lump sum.

Monthly preretirement death benefit

If the participant meets eligibility requirement (2i) (below), the monthly benefit payable to the spouse is 50% of the participant's accrued benefit determined as if the participant had attained his Normal Retirement Date and retired on the first day of the month following the month in which his death occurred.

If the surviving spouse was more than ten years younger than the participant, the amount of monthly retirement income is reduced to be the Actuarial Equivalent of the monthly benefit that would have been payable to the spouse if the spouse had been exactly ten years younger than the participant.

If the present value of the monthly retirement income payable to the spouse is greater than 100 times the monthly retirement income the participant would have received (under the normal form) at his Normal Retirement Date, had he continued to work until such date, the spouse's monthly retirement income will be reduced by the ratio of:

- (1) 100 times the monthly retirement income in the normal form which would have been payable to the participant at his Normal Retirement Date to
- (2) The present value of the monthly retirement income otherwise payable to the spouse.

If the participant meets eligibility requirement (2ii) (below), the spouse is entitled to a benefit equal to the benefit that would have been payable to the spouse if the Participant had elected to receive his benefits in the 50% joint and survivor form.

Eligibility for Benefits
