Report of Independent Auditors

To the General Partner of Private Equity Partners IX Mgr LP

Opinion

We have audited the accompanying financial statements of Private Equity Partners IX Mgr LP (the "Partnership"), which comprise the statement of assets, liabilities and partners' capital, including the statement of portfolio investments, as of December 31, 2024, and the related statements of operations, of changes in partners' capital and of cash flows, including the related notes for the year then ended (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Partnership as of December 31, 2024, and the results of its operations, changes in its partners' capital and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Partnership and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Partnership's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Partnership's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to Financial Statements

December 31, 2024

(1) Organization and Business Purpose

Private Equity Partners IX Mgr LP (the “Partnership”), a Delaware limited partnership, was formed for the principal purpose of investing in pooled investment vehicles via capital commitments to the issuers of such investments (“Partnership Investments”). The Partnership may receive distributions-in-kind of the underlying investments held by the Partnership Investments (“Security Investments” and together with Partnership Investments, “Portfolio Investments”). The Partnership is permitted to invest both domestically and internationally across all sectors of the private equity market.

Access General Partner LLC (the “General Partner”) is the general partner of the Partnership. Goldman Sachs Asset Management, L.P. (the “Investment Manager”), an indirect wholly owned subsidiary of The Goldman Sachs Group, Inc., is the investment manager of the Partnership and is registered with the United States Securities and Exchange Commission as a registered investment adviser under the Investment Advisers Act of 1940, as amended. The General Partner may delegate to the Investment Manager, the authority to make certain decisions and undertake certain actions on behalf of the Partnership.

The Partnership commenced operations on December 21, 2006 and will continue in existence until one year after the date by which all of the Partnership’s Portfolio Investments have been liquidated and the Partnership’s obligations (including, without limitation, contingent obligations) have terminated. The Partnership may also be dissolved earlier as requested by the General Partner or its term may be further extended by the General Partner with the approval of a majority in interest of the limited partners in accordance with the Amended and Restated Agreement of Limited Partnership (the “Partnership Agreement”).

The Investment Manager has determined that the Partnership is an investment company in conformity with accounting principles generally accepted in the United States of America (“GAAP”). Therefore, the Partnership follows the accounting and reporting guidance for investment companies.

(2) Significant Accounting Policies

(a) Basis of Presentation

The preparation of the financial statements in conformity with GAAP requires the Investment Manager to make estimates and assumptions that may affect the reported amounts. Actual amounts could differ from the estimates included in the financial statements herein.

All balances are expressed in United States dollars, the Partnership’s functional currency.

(b) Fair Value Measurements

The Partnership measures its investments at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e. the exit price) in an orderly transaction between market participants at the measurement date. The Investment Manager is responsible for the implementation and maintenance of internal controls and procedures related to the valuation of the Partnership’s investments. In the absence of quoted market prices, fair value is determined by the Investment Manager. Due to the inherent uncertainties of valuation, these estimated fair values may differ significantly from the values that would have been realized had a readily available market for these investments existed, and these differences could be material.

Private Equity Partners IX Mgr LP

Notes to Financial Statements

December 31, 2024

During the course of acquiring investments, the Investment Manager undertakes due diligence procedures that include an assessment of the valuation policies of the Portfolio Investments. The Investment Manager generally relies on valuations provided by the general partners of its Portfolio Investments, if appropriate. Valuations are prepared in accordance with the Investment Manager's valuation policy and subject to verification procedures. Periodically, a "Valuation Committee" of the Investment Manager convenes to approve and oversee the application of valuation policies, and review various valuation risk metrics for the Portfolio Investments held by the Partnership, including investments for which market quotations are not readily available with escalation to the General Partner as necessary.

Investments in other pooled investment vehicles (i.e. limited partner or non-managing member interests ("LP/LLC Interests")), without a readily determinable fair value, are generally valued at the most recent net asset value ("NAV") per unit or capital account information available from the general partners of such vehicles. To the extent that no NAV is available from a general partner or the NAV supplied by a general partner is deemed not to be indicative of its fair value, or it is probable that as of the measurement date the LP/LLC Interests will be sold for a different value, then the fair value of the pooled investment vehicle is determined, in good faith by the Investment Manager, by using fair value techniques. The Investment Manager may consider additional information sourced from the general partner of the pooled investment vehicle or other market information in arriving at the fair value estimate.

Securities listed on any U.S. or non-U.S. stock exchange or on NASDAQ are valued at the last sale price on the exchange in which they are principally traded, on the valuation date; if there is no sale on the valuation day, securities are valued at the closing bid price, or in the case of securities sold short, at the closing ask price.

(c) Income Taxes

No provision has been made in the accompanying financial statements for federal, state or local income taxes of the General Partner or limited partners. All partners are individually responsible for reporting their share of Partnership income or loss. Interest, dividends and other income from non-U.S. sources and capital gains on the sale of securities of non-U.S. issuers realized by the Partnership or passed through from the underlying Partnership Investments may be subject to withholding and other taxes levied by the jurisdiction from which the income is sourced. The Partnership reports on the accrual basis of accounting for financial statement and tax purposes.

GAAP requires that the Partnership recognize tax liabilities and related interest and penalties where beneficial tax positions taken do not meet the requisite threshold for recognition. These are recorded, where applicable, as realized and unrealized losses in the Partnership's Statement of Assets, Liabilities and Partners' Capital, Statement of Operations, Statement of Changes in Partners' Capital and Statement of Cash Flows. The General Partner has reviewed the Partnership's tax positions for all open tax years, based on statutes of limitation for tax assessments which vary by jurisdiction, if applicable, and has concluded that no provision for income tax is required in the Partnership's financial statements. The Partnership may be subject to potential examination by certain taxing authorities in various jurisdictions. Any potential tax liability is also subject to ongoing interpretation of laws by taxing authorities. The tax years under potential examination vary by jurisdiction.

(d) Investment Transactions, Income and Expenses

The Partnership records its investment transactions on a trade date basis (for publicly traded investments) or upon closing of the transaction (for private investments).

Net earnings (loss) from Partnership Investments represents the Partnership's share of profits and losses (including net investment income and loss and realized gains and losses from the disposition of investments), net of any applicable incentive allocation, arising from its Partnership Investments, as determined by the Investment Manager considering information reported by the general partners of the Partnership Investments, and realized gains and losses from the sales of Security Investments by the Partnership, as applicable. A Partnership Investment's cost basis, as reported in the Statement of Portfolio Investments, is increased by the Partnership's share of net earnings from the Partnership Investment and decreased by the Partnership's share of net loss from the Partnership Investment. The Partnership's cost basis in a Security Investment is equal to the fair value of the Security Investment received on the date it is distributed from the Partnership Investment.

Unrealized gains and losses from the Portfolio Investments are included in net change in unrealized appreciation/(depreciation) on Partnership Investments and net change in unrealized appreciation/(depreciation) on Security Investment, as applicable, in the Statement of Operations.

Expenses are recorded on the accrual basis.

(e) Translation of Foreign Assets and Liabilities

Assets and liabilities denominated in foreign currencies are translated into United States dollars at the year-end rates of exchange. Transactions in foreign currencies during the year are translated into United States dollars at the prevailing exchange rate on the respective dates of the transactions.

Any realized and unrealized foreign currency exchange gains and losses from non-U.S. dollar denominated investments arising from changes in foreign currency exchange rates are included in net earnings (loss) from Partnership Investments and net change in unrealized appreciation/(depreciation) on Partnership Investments, in the Statement of Operations.

Any realized and unrealized foreign currency exchange gains and losses from non-U.S. dollar denominated assets/liabilities arising from changes in foreign currency exchange rates are included in net realized gain (loss) from foreign currency transactions and net change in unrealized appreciation/(depreciation) on foreign currency translation in the Statement of Operations.

(f) Recent Accounting Pronouncements

In June 2022, the FASB issued ASU No.2022-03, Fair Value Measurement (Topic 820) – Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions. The amendments in the ASU clarify that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, should not be considered in measuring fair value. The ASU is effective for interim and annual reporting periods beginning after December 15, 2024, with the option of early adoption. As of the financial reporting period, the Investment Manager is currently evaluating the impact, if any, of applying ASU 2022-03.

(3) Cash and Cash Equivalents

Cash and cash equivalents may consist of deposits held at a bank, custodian bank or an investment in a money market fund to which the Partnership is exposed to credit risk. As of December 31, 2024, the Partnership held deposits of \$1,078,505 at a bank, which includes foreign currency of \$60,975 (cost: \$60,975), and held \$4,668,940 in Fidelity Institutional Money Market Government Portfolio - Class I, an unaffiliated money market fund. Investments in money market funds are recorded at NAV per share.

(4) Portfolio Investments, at fair value

GAAP establishes a fair value hierarchy and specifies that a valuation technique used to measure fair value shall maximize the use of observable inputs and minimize the use of unobservable inputs. Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1—Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2—Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable (including, but not limited to, quoted prices for similar securities), either directly or indirectly;
- Level 3—Prices or valuations that require significant unobservable inputs (including assumptions in determining fair value measurement).

The fair valuation technique depends on the investment characteristics and the availability of observable inputs. Investments are classified within the level of the lowest significant input considered in determining fair value. The Partnership uses NAV as its measure of fair value for investments in LP/LLC Interests when (i) the investment does not have a readily determinable fair value and (ii) the NAV of the investment is calculated in a manner consistent with the measurement principles of investment company accounting, including measurement of the underlying investments at fair value. In evaluating the level at which the investments have been classified, the Partnership has assessed factors including, but not limited to, price transparency. An investment in LP/LLC Interests using NAV as its measure of fair value is excluded from the fair value hierarchy.

Investments at fair value as of December 31, 2024 of \$28,094,575 are excluded from the fair value hierarchy leveling as the fair value of the investments were measured at NAV.

Included in cash and cash equivalents in the Statement of Assets, Liabilities and Partners' Capital are investments in a money market fund with a fair value of \$4,668,940 which were classified as Level 1 assets as of December 31, 2024.

The following table summarizes the unfunded commitments to the Partnership Investments as of December 31, 2024.

	Unfunded Commitments (in millions)
Partnership Investments ^{(1), (2)}	\$ 11.9

⁽¹⁾ The Partnership invests in private equity funds that invest in buyouts, industry focused services, venture capital and other strategies. These investments generally cannot be redeemed. Instead, the nature of the investments in this category is that distributions are generally received through the liquidation of the underlying assets of the Partnership. As of December 31, 2024, timing of liquidation for the investments held by the Partnership is unknown.

⁽²⁾ As of December 31, 2024, the Partnership Investments as a whole, predominantly have the following allocation of strategies (percentages are based on partners' capital) - Buyouts: 41.7%; Venture Capital: 16.3%; Industry Focused Services: 22.6%; Energy: 0.2%; Other: 4.8%

The Partnership Investments include closed investment vehicles which provide for no liquidity or redemption option and are not readily marketable.

Interests in the Partnership Investments may include certain general partner interests in underlying Partnership Investments and Alternative Investment Vehicles ("AIVs") that are used by the general partners of the Partnership Investments to hold certain investments.

The following table summarizes the Partnership's exposure in underlying portfolio companies held directly, or indirectly through the LP/LLC Interests of the Partnership Investments, which constitute greater than 5% of the Partnership's total partners' capital as of December 31, 2024 (based on best available information as of the reporting date):

(1) Differences in the calculation of investments in the Partnership that constitute more than 5% of the Partnership's total partners' capital and the Partnership's share of underlying portfolio companies that are greater than 5% of the Partnership's total partners' capital may arise due to the effect of carried interest and/or leverage at the Portfolio Investment level.

(2) Held through Gridiron Holdings, LLC

(3) Held through PV Holdings S.á.r.l. (Lux) via PV Holdings I S.á.r.l. (Lux)

(5) Capital Contributions and Distributions

The General Partner, Goldman Special Limited Partner and Limited Partners have committed to make capital contributions in an aggregate amount of \$511,975,000.

Cumulative capital contributions as of December 31, 2024 were \$522,709,514. Cumulative distributions as of December 31, 2024 were \$896,867,596, of which \$70,922,153 represented recallable distributions and \$462,395 represented Short-term Distributions. As of December 31, 2024, 88.24% of committed capital has been funded, including the impact of recallable distributions by the Partnership. Cumulative capital contributions exceeded commitments due to capital being called out of recallable distributions.

(6) Management Fee

In accordance with the Partnership Agreement, the Investment Manager receives from the Partnership a management fee (the "Management Fee") as compensation for its management and administrative services. The Management Fee is allocable to all limited partners, exclusive of the Goldman Special Limited Partner, an affiliate of the Investment Manager. The Management Fee is payable quarterly in arrears. Prior to the last day of the fifth anniversary of the funding date of the first capital call of the Partnership (the "Anniversary Date"), the Management Fee will be equal to (i) 1.25% per annum of such limited partner's capital commitment if such limited partner's capital commitment is less than \$5 million, (ii) 1.00% per annum of such limited partner's capital commitment if such limited partner's capital commitment is equal to or greater than \$5 million, but less than \$100 million, (iii) 0.80% per annum of such limited partner's capital commitment if such limited partner's capital commitment is equal to or greater than \$100 million, but less than \$150 million and (iv) 0.75% per annum of such limited partner's capital commitment if such limited partner's capital commitment is equal to or greater than \$150 million. In the years following the Anniversary Date, the Management Fee will be charged at rates equal to 75% of the applicable rates for the preceding year. For the period January 1, 2024 through January 30, 2024, the Management Fee was calculated based on rates of 0.0396%, 0.0317%, 0.0253% and 0.0238% per annum of capital commitments, as applicable. Beginning January 31, 2024, the Management Fee was calculated based on rates of 0.0297%, 0.0238%, 0.0190% and 0.0178% per annum of capital commitments, as applicable.

Effective January 31, 2023,, the Investment Manager has voluntarily waived the Management Fee. During the year ended December 31, 2024, the waiver amounted to \$106,369.

(7) Allocation of Partnership Profits and Losses

Partnership profits and losses, other than the Management Fee, are initially allocated pro rata in accordance with each partner's capital commitment and ultimately distributed in accordance with the provisions of the Partnership Agreement. The Investment Manager determines the amount and timing of all distributions.

Short-term Distributions (as defined in the Partnership Agreement) will be made pro rata in accordance with each partner's respective capital commitment. Distributions, other than Short-term Distributions, are made pro rata in accordance with each partner's capital commitment until the partners have received aggregate distributions equaling the sum of (i) Contributed Capital (as defined in the Partnership Agreement) and (ii) Preferred Return (as defined in the Partnership Agreement) of 8% per annum, compounded annually on unreturned Contributed Capital.

The Goldman Special Limited Partner is then entitled to receive aggregate distributions equal to 5% of positive net cash flow from Portfolio Investments (the "Catch-up Amount").

Distributions subsequent to the Catch-up Amount are allocated as follows: 5% of each partner's share of positive net cash flow from Portfolio Investments to the Goldman Special Limited Partner (and together with the Catch-up Amount, "Carried Interest"); and the remainder to the partners in accordance with each partner's capital commitment. Losses will be allocated in a manner designed to reverse appropriately, on a cumulative basis, allocations theretofore made.

As of December 31, 2024, a cumulative provision for Carried Interest allocation to the Goldman Special Limited Partner of \$22,377,872 has been made. Total distributions made amount to \$18,998,931, of which \$1,901,807 represented tax distributions.

(8) Related Party Transactions

Private Equity Partners IX LP, Private Equity Partners IX Offshore Holdings LP and Private Equity Partners IX PMD QP LP, three private equity partnerships also managed by the Investment Manager, may invest alongside the Partnership. Certain other affiliates of the Investment Manager may also invest alongside the Partnership.

The Goldman Special Limited Partner is a limited partner of the Partnership and is an affiliate of the Investment Manager. The capital commitment to the Partnership by the Goldman Special Limited Partner is \$4,500,000, of which \$4,464,495 has been contributed as of December 31, 2024. Cumulative distributions as of December 31, 2024 were \$28,787,321, of which \$629,522 represented recallable distributions and \$4,064 represented Short-term Distributions.

The capital commitment to the Partnership by the General Partner is \$1,000, of which \$992 has been contributed as of December 31, 2024. Cumulative distributions as of December 31, 2024 were \$1,737, of which \$139 represented recallable distributions and \$1 represented Short-term Distributions.

Due to limited partners amounting to \$643,310 includes withholding tax refunds due to the limited partners from the Partnership. Such amounts are payable by the Partnership in the ordinary course of business.

(9) Indemnifications

In the normal course of business, the Partnership enters into contracts whereby the Partnership agrees to indemnify various parties, including with respect to representations made by the Partnership. Any exposure of the Partnership under these arrangements could involve future claims that may be made against the Partnership. Currently, no such claims exist or are expected to arise and, accordingly, the Partnership has not accrued any liability in connection with such indemnifications.

(10) Financial Instruments and Associated Risks

The Partnership's investing activities expose it to various types of risks that are associated with the markets and financial instruments in which it invests. The significant financial risks to which the Partnership is exposed include, but are not limited to, market risk, liquidity risk, credit risk, interest rate risk and concentration risk. This is not meant to be a comprehensive list of the risks of the Partnership.

(a) Market Risk

Market risk encompasses the potential for both losses and gains and includes, but is not limited to, price risk and currency risk.

(i) Price Risk

The Partnership's investments are long-term and highly illiquid and there is no assurance that the Partnership will achieve its investment objectives including targeted returns.

(ii) Currency Risk

The Partnership may invest in financial instruments denominated in currencies other than its functional currency and therefore may be exposed to the risk that changes in exchange rates may have an adverse effect on the Partnership.

(b) Liquidity Risk

Liquidity risk is the risk that the Partnership will encounter difficulty in meeting obligations associated with financial liabilities. Among other things, liquidity could be impaired by an inability to access adequate sources of financing, the failure of limited partners to meet capital calls and unhedged currency risk of foreign denominated investment commitments. These situations may arise due to circumstances outside of the Investment Manager's control, such as a general market disruption or an operational challenge affecting the Partnership or third parties.

(c) Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Investment portfolios with debt securities are subject to credit risk. Credit risk refers to the likelihood that an issuer will default in the payment of principal and/or interest on an instrument.

Hedging strategies, which could involve a variety of derivative transactions may be used. While these transactions may reduce the market and liquidity risks associated with an investment, the risks posed by

Private Equity Partners IX Mgr LP

Notes to Financial Statements

December 31, 2024

these transactions include the risk that counterparties will default on their obligations and the transaction will not adequately reduce the original market and liquidity risks.

(d) Interest Rate Risk

The Partnership may also have a credit facility with a financial institution. The Partnership may face a heightened level of interest rate risk in connection with the type and extent of certain monetary policy changes made by the Federal Reserve, such as target interest rate changes. A wide variety of market factors can cause interest rates to rise, including central bank monetary policy, rising inflation and changes in general economic conditions. The risks associated with changing interest rates may have unpredictable effects on the markets and the Partnership's investments and its facility with financial institutions. A sudden or unpredictable increase in interest rates may cause increased volatility in the market and may decrease the liquidity of the Partnership's investments, which would make it harder for the Partnership to sell the investments at an advantageous time. Additionally, changes in market rates may result in declining yields upon reinvestment of excess cash balances.

(e) Concentration Risk

The Partnership may invest directly or indirectly in a limited number of investments and those investments may be concentrated in a particular industry or geographic region. A consequence of this concentration is that performance may be more favorably or unfavorably affected by the performance of individual investments, industries or regions.

(11) Financial Highlights

The limited partners' Internal Rate of Return ("IRR") since inception of the Partnership, net of Carried Interest, if any, to the Goldman Special Limited Partner, is 10.87% through December 31, 2023 and 10.82% through December 31, 2024. The IRR is computed based on the dates of contributions and distributions, and the limited partners' ending capital (residual value) as of the measurement date.

The ratios of net investment income (loss) and operating expenses to average limited partners' capital and to committed capital are as follows:

	Average Limited Partners' Capital	Limited Partners' Capital Commitments
Net investment income (loss) ratio: ⁽¹⁾	(0.20)%	
Expense ratios: ⁽²⁾⁽³⁾		
Operating expense	0.93%	0.07%
Operating expense (including the effect of the change in provision for Carried Interest allocation) ⁽⁴⁾	0.78%	0.05%

Private Equity Partners IX Mgr LP

Notes to Financial Statements

December 31, 2024

- ⁽¹⁾ The net investment income (loss) to average limited partners' capital ratio is calculated using the limited partners' share of dividend income, interest income and operating expenses of the Partnership, as applicable. The net investment income (loss) ratio, excluding \$106,369 of voluntary Management Fee waiver, would have been (0.50)%.
- ⁽²⁾ The net investment income (loss) and operating expense ratios are based on the net investment income (loss) and expenses of the Partnership and do not include the Partnership's proportionate share of any net investment income (loss) or expenses from the Portfolio Investments.
- ⁽³⁾ The expense ratios are calculated using the limited partners' share of operating expenses of the Partnership, as reported in the Statement of Operations. As the Partnership's expenses are largely based on the limited partners' committed capital rather than their average capital, supplemental information has been provided disclosing the expense ratios as a percentage of the limited partners' committed capital. The operating expense ratios, excluding \$106,369 of voluntary Management Fee waiver, would have been 1.23% and 0.09%, to average limited partners' capital and to limited partners' capital commitments, respectively.
- ⁽⁴⁾ The expense ratio is decreased due to the effect of a reallocation of Carried Interest from the Carried Interest Partner to the Limited Partners as shown on the Statement of Changes in Partners' Capital in accordance with the terms outlined in Note 7.

These financial highlights are for the limited partners taken as a whole, exclusive of the Goldman Special Limited Partner, for the year ended December 31, 2024.

An individual limited partner's results may vary based on different Management Fee arrangements, if any, and the timing of capital contributions and distributions.

The Partnership was created to generate long-term capital gains rather than net investment income. Accordingly, although required by GAAP, the net investment income (loss) ratio reflected above is not consistent with the Partnership's general investment philosophy and therefore may not necessarily be an appropriate measure for the Partnership.

(12) Subsequent Events

For purposes of these financial statements, subsequent events were evaluated through the date of the report of the independent auditors, which is the date the financial statements were available to be issued and no material events have occurred that would require recognition or disclosure.
