INDEPENDENT AUDITOR'S REPORT

**To the Trustees
of the Accutrex Products, Inc. Employees Stock Ownership Plan
Canonsburg, Pennsylvania**

Opinion

We have audited the financial statements of Accutrex Products, Inc. Employees Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Accutrex Products, Inc. Employees Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years ended December 31, 2024 and 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Accutrex Products, Inc. Employees Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Accutrex Products, Inc. Employees Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Accutrex Products, Inc. Employees Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Accutrex Products, Inc. Employees Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Accutrex Products, Inc. Employees Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan, which was established on January 1, 1987, is noncontributory. The Plan was extended to all eligible employees of Accutrex Products, Inc. and its subsidiary (the “Company”). An employee was eligible after six months of employment and completion of 1,000 hours of service within a consecutive 12-month period. An eligible employee became a participant on the first day of the plan year following the date the employee became eligible. The Plan was amended and then frozen as to eligibility and benefits as of January 1, 2022, meaning otherwise eligible employees may not enter the Plan after January 1, 2022. In addition, the Company will no longer make contributions to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company’s Board of Directors and the plan administrator control and manage the operation and administration of the Plan. The Board of Directors has appointed a trustee of the Plan to serve as an advisor to the plan administrator.

Distributions from Company

The Company makes discretionary distributions to its shareholders consistent with the Company’s status as an S Corporation. Distributions are allocated to each participant’s account on the basis of his or her company stock account to total company stock accounts for all participants. Distributions totaled \$198,497 and \$21,634 for the years ended December 31, 2024 and 2023, respectively.

Contributions

Prior to the January 1, 2022 amendment, the Company contributed to the Plan, in the form of either common stock of the Company or cash, at the discretion of the Board of Directors of the Company. Contributions were made to the trustee to be held and invested for the exclusive benefit of the participants. No contributions were authorized by the Board of Directors for the years ended December 31, 2024 and 2023. The amendment to freeze the plan effective January 1, 2022 stated that the Company would no longer make contributions to the Plan.

Payment of Benefits

Distributions on account of death, disability, termination, or retirement are made in a lump sum in the plan year following the event. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash only. Involuntary cash outs are up to \$1,000 and hardship withdrawals are not permitted by the Plan. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

NOTE 1 - DESCRIPTION OF THE PLAN - CONTINUED

Administrative Expenses

As provided in the plan document, administrative expenses may be paid either by the Plan or by the Company. The Company does pay some of the operating expenses of the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Shares of common stock attributable to the Company's contribution to the Plan (prior to January 1, 2022), employer cash contributions (prior to January 1, 2022) and forfeitures of other participants' shares upon termination are allocated annually to the participants' accounts, generally on the basis of their eligible annual compensation (subject to the maximum specified in the plan document and statutory limitations) to total eligible compensation for all participants. Forfeitures are allocated among participant accounts in the same proportion that each participant's compensation bears to total compensation of all participants. Allocations of gains (losses) and administrative expenses are based upon participant account balances, as defined in the plan document.

Administration of Plan Assets

The Plan's assets, which consist principally of Company common shares, are held by the trustee of the Plan. Company contributions were previously held and managed by the trustee, which invests cash received, interest and dividend income, and makes distributions to participants. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

EMPLOYEES STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN - CONTINUED

Vesting

Participants are fully vested in their account upon attaining the normal retirement age of 65, upon becoming disabled or at death. Upon termination prior to reaching normal retirement age, a participant is entitled to receive any vested interest in the Plan at the date of the termination. The Plan provides for the vesting of amounts contributed by the Company on a graduated percentage basis:

<u>Years of Service</u>	<u>Percent of Nonforfeitable Interest</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Put Option

Under federal income tax regulations, the company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no established market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants approaching retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least 55 or complete their 10th year of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who are at least age 62 may diversify up to 100%. The election to diversify is made subsequent to year-end, based upon shares of Company stock in the participant's account at year-end.

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN - CONTINUED

Forfeitures

A forfeiture results from the non-vested portion of a terminated participant's allocated stock and cash accounts. The Plan requires that if any terminated participant who received a distribution is re-employed and repays the full amount of the previous distribution before incurring five consecutive one-year breaks in service, the originally forfeited amount must be restored. During 2024 and 2023, no restorations were required, and forfeitures of \$0 and \$1,018, respectively, were reallocated to the remaining participants. Forfeited non-vested accounts to be allocated to participant accounts in future years as of December 31, 2024 and 2023 were \$0 and \$5,681, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investment in the common stock of the Company of \$3,055,529 and \$3,611,224 represents 192,779 and 226,410 shares valued at \$15.85 and \$15.95 per share, respectively, at December 31, 2024 and 2023, and is presented at fair value as determined. The Plan's investments in exchange traded funds and a money market fund are presented at fair value, based upon quoted market prices.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized gains and losses on the sale of securities is recorded using an average cost or first-in-first-out basis, which is determined by the plan trustee at the time the security is purchased. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participants in the Plan do not direct the investment of contributions or own specific securities, but they have an interest therein represented by units valued as of the valuation date. All units were allocated at December 31, 2024 and 2023. Investment income is allocated on the basis of a participant's units to total units for all participants.

NOTE 3 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 3 - FAIR VALUE MEASUREMENTS - CONTINUED

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money Market Fund and Exchange Traded Funds - Money market fund approximates fair value due to the short-term nature of such instruments. Exchange traded funds are valued at the daily closing price as reported by the fund. Exchange traded funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The exchange traded funds held by the Plan are deemed to be actively traded.

Investment in Accutrex Products, Inc. Common Stock - The fair value of the Company's common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Board of Directors directs the Trustee to pay all liabilities and expenses of the ESOP. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 6 - TAX STATUS

The Plan has received a determination letter from the IRS dated October 8, 2015, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
