INDEPENDENT AUDITOR'S REPORT

Board of Directors
The Equity Engineering Group, Inc.
Stock Ownership Plan and Trust:
Cleveland, Ohio

Opinion on the 2024 Financial Statements

We have audited the financial statements of The Equity Engineering Group, Inc. Stock Ownership Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of The Equity Engineering Group, Inc. Stock Ownership Plan and Trust as of December 31, 2024, and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Equity Engineering Group, Inc. Stock Ownership Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements on the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Equity Engineering Group, Inc. Stock Ownership Plan and Trust's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements on the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Equity Engineering Group, Inc. Stock Ownership Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Equity Engineering Group, Inc. Stock Ownership Plan and Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes at End of Year is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Basis for Opinion on the 2023 Financial Statements

The financial statements of The Equity Engineering Group, Inc. Employee Stock Ownership and Trust for the year ended December 31, 2023 were audited by another auditor who expressed an unmodified opinion on those statements on October 15, 2024.

NOTES TO FINANCIAL STATEMENTS

The Equity Engineering Group, Inc. Employee Stock Ownership Plan and Trust

1 Description of Plan

The following description of The Equity Engineering Group, Inc. Employee Stock Ownership Plan and Trust (Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Equity Engineering Group, Inc. (the "Company") established the employee stock ownership plan effective as of October 1, 2012, for all employees of the Company other than leased employees, non-resident aliens, a disqualified person, or employees covered under a collective bargaining agreement. As of October 1, 2012, the Plan operates as an employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by an Employee Benefits Administration Committee which consists of not less than one person appointed by the Sponsor Company. The Plan was restated in 2018 to reflect all prior amendments. The Plan was most recently amended in December 2024 to clarify certain provisions, comply with regulator provisions and incorporate provisions of Secure 2.0.

The Plan purchased the Company common stock by issuing notes payable to the former owners of the Company in a trust established under the Plan.

Eligibility:

All employees of the Company are eligible to participate in the Plan after twelve months of service provided they worked at least 1,000 hours during the Plan year, received compensation during the Plan year, and were employed on the last day of the Plan year and were 21 years of age or older.

Contributions:

Contributions are made by the Company on a discretionary basis. A participant must have worked 1,000 hours during the Plan year and be employed on the last day of the Plan year to be eligible to receive a contribution. Employee contributions are not permitted.

The Company's contributions, if any, may be made in cash or common stock of the Company, or both. For the Plan year ending December 31, 2024, the Company's contributions were made in cash.

For the Plan year ending December 31, 2024, the contribution was allocated based on the ratio of the employees' compensation during the contribution period to the total compensation of all employees during that period.

Participants' Account:

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

NOTES TO FINANCIAL STATEMENTS

The Equity Engineering Group, Inc. Employee Stock Ownership Plan and Trust

1 Description of Plan, Continued:

Participants' Account, Continued:

Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Voting Rights:

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries

Vesting:

Vesting in the Participant's account balance is based on years of service based on the following:

Years of Service	Vested %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Put Option:

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock.

Forfeitures:

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during December 31, 2024, totaled \$12,282. Forfeited non-vested accounts to be allocated to participant accounts in future years as of December 31, 2024 were \$0.

NOTES TO FINANCIAL STATEMENTS

The Equity Engineering Group, Inc. Employee Stock Ownership Plan and Trust

1 Description of Plan, Continued:

Payment of Benefits:

Distributions on account of death, disability, or retirement must commence in the Plan year following the event and shall be paid as a lump sum (or in annual installments for larger accounts) equal to: (1) up to 100% of the participant's cash account, and (2) from the participant's stock account, an amount of up to the greater of: (a) \$100,000, or (b) the minimum annual benefit currently in effect under ERISA and the Tax Code. Distributions for other separations from service must commence in the fifth Plan year following the separation from service and are made in five annual installments, which shall be limited to the greater of: (a) \$100,000, or (b) the minimum annual benefit currently in effect under ERISA and the Tax Code. In all cases and when feasible, distributions may begin at an earlier time at the Plan Sponsor's election as long as such election is not applied in a discriminatory manner. In no event will the amount of any distribution exceed the available balance remaining in the participant's account(s). The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. Benefits are recorded when paid.

Diversification:

Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution, unless eligible for floor price protection, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end. There is a \$500 minimum diversification amount.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investment Valuation

The Plan's investments are stated at fair value. Company common stock is valued by an independent third party appraiser.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2 Summary of Significant Accounting Policies, Continued:

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Reasonable expenses incident to the operation of the Plan, including trustee fees are paid by the Plan and are recorded as incurred. Certain administration fees are paid by the Company. The Company has historically paid the operating expenses for the Plan.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Risks and Uncertainties:

The Plan's investments include Company stock, which is exposed to various risks, such as interest rate, credit, and overall market volatility risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of the Company stock and investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for Plan benefits.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 14, 2025, which is the date the financial statements were available to be issued.

3 Tax Status

On December 19, 2014 the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue code. The Plan has been amended, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

3 Tax Status, Continued:

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2024, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- * Quoted prices for similar assets or liabilities in active markets
- * Quoted prices for identical or similar assets or liabilities in inactive markets
- * Inputs other than quoted prices that are observable for the asset or liability
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Common Stock:

The fair value of the employer's common stock is based on a valuation determined by an independent appraiser. These instruments are classified within Level 3 of the valuation hierarchy.

4 Fair Value Measurements, Continued:

Common Stock, Continued:

The fair value of the Sponsor Company common stock held by the plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

5 Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party in interest transactions.. In addition, the Plan has arrangements with various service providers and these arrangements qualify as party in interest transactions.

6 Loan Payable

In 2012, the Plan entered into a \$11,150,000 term loan agreement with the owners of the Company to acquire all the outstanding common shares of the Company. Unallocated shares are collateral for the loan. In conjunction with the acquisition of the shares, the Plan issued nine individual notes of \$1,238,889 with an interest rate of 4%. During 2020, the Company re-leveraged the debt with an additional loan and purchased 10,740 shares.

Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future year's principal and interest payments. This resulted in 4,062.83 shares being released and allocated for the Plan year ended December 31, 2024.

The agreement provides for the loan to be repaid over 18 years and bears interest at 2.09%. The annual principal and interest payment is 373,218. The fair value of the note payable as of December 31, 2024 and 2023, was approximately \$5,551,275 and \$6,205,475, respectively.

The Plan had a note payable at 4% for \$233,147 at December 31, 2023. The note was fully repaid in 2024.

Future repayments are as follows:

2025	\$	257,197
2026		262,572
2027		268,060
2028		273,662
2029		279,382
Thereafter		4,210,402
Total	\$	<u>5,551,275</u>

7 Administration of Plan Assets

The Plan's assets consist of Company common shares and Cash, which are held by the Trustee of the Plan.

The contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan.
