## INDEPENDENT AUDITORS' REPORT

To the Plan Administrator, Participants and Beneficiaries  
of the Capgemini Cash Balance Retirement Plan

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audits of the financial statements of Capgemini Cash Balance Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for each of the years then ended, and the statement of accumulated plan benefits as of December 31, 2023 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from Fidelity Trust Management Company as of December 31, 2024 and 2023, and for each of the years then ended, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the *Auditors’ Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors’ Responsibilities for the Audit of the Financial Statements***

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Other Matter**

##### *Supplemental Schedule Required by ERISA*

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## CAPGEMINI CASH BALANCE RETIREMENT PLAN

### Notes to Financial Statements December 31, 2024 and 2023

#### NOTE A - DESCRIPTION OF THE PLAN

The following brief description of the Capgemini Cash Balance Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

##### [1] General:

The Plan is a noncontributory defined benefit plan which covers vice presidents or above (referred to as "Covered Persons") of Capgemini America, Inc. (the "Company" or "Plan Sponsor") who are 21 or older and have one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The trustee of the Plan is Fidelity Management Trust Company and the recordkeeper and actuary of the Plan is Fidelity Investments Institutional Operations Company, Inc.

The Plan is administered by the Investment Advisory Committee (the "Committee"). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Effective January 2020, all future benefit accruals under the Plan were frozen and therefore no individuals shall accrue any new or additional benefit under the Plan.

##### [2] Pension benefits:

The Plan provides for an annuity to a participant equal to his or her accrued benefit, which is calculated based on a participant's cash balance account and an annuity factor based on actuarial equivalence. Participants may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination. If a participant dies before his or her pension commencement date, a death benefit equal to his or her accrued benefit is paid to the participant's beneficiary.

Normal retirement date is the later of the date on which a participant attains age 65 or the earlier of the fifth anniversary of the date of the participant's commencement of participation in the Plan or the date on which the participant completes three years of vesting service.

##### [3] Death and disability benefits:

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

##### [4] Participant accounts:

Under the Plan provisions, amounts are credited by Capgemini America, Inc. to the participants' hypothetical accounts. As of January 1, 2020, the accounts are no longer allocated compensation credits as all future benefit accruals under the Plan were frozen.

## Notes to Financial Statements December 31, 2024 and 2023

### NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

#### [4] Participant accounts: (continued)

Participants' hypothetical accounts receive interest credits at the end of each month. The annual rate of interest used to determine the interest credit for the Plan year was 6% as of both December 31, 2024 and 2023.

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### [1] Basis of accounting:

The financial statements of the Plan are prepared on the accrual method of accounting.

#### [2] Subsequent events:

The Plan has evaluated subsequent events through October 14, 2025, the date the financial statements were available to be issued.

#### [3] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and benefit obligations and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

#### [4] Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and trustees. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

#### [5] Actuarial present value of accumulated plan benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation as of the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date.

## CAPGEMINI CASH BALANCE RETIREMENT PLAN

### Notes to Financial Statements December 31, 2024 and 2023

#### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### [5] Actuarial present value of accumulated plan benefits: (continued)

The significant actuarial assumptions used in the valuations as of January 1, 2024 were:

Discount rate	4.59%
Retirement age	Retirement age determined by rates graded by age from 55 to 65 and above
Asset valuation	Market value
Mortality table	Pri-2012 White Collar Mortality Tables with MP-2021 Mortality Improvement Scale

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2024. Had the valuations been performed as of the respective December 31, 2023, there would be no material differences.

##### [6] Payment of benefits:

Benefits are recorded when paid.

##### [7] Administrative expenses:

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from the Plan's financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

#### NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Fidelity Trust Management Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments and related investment activity in the accompanying statements of net assets as of December 31, 2024 and 2023, the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2024.

#### NOTE D - FUNDING POLICY

The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. During 2024 and 2023, the Company made contributions of \$1,000,000. The Company's contributions for 2024 and 2023 exceeded the minimum funding requirements of ERISA.

## CAPGEMINI CASH BALANCE RETIREMENT PLAN

### Notes to Financial Statements December 31, 2024 and 2023

#### NOTE E - ADJUSTED FUNDING TARGET ATTAINMENT PERCENTAGE (“AFTAP”)

The Pension Protection Act (the “Act”) included many provisions and numerous revisions to rules surrounding defined benefit plans, including rules that govern Plan funding. The Act established minimum funding standards for defined benefit plans and limited benefit increases and accruals for underfunded plans. Pursuant to the Act, each year the actuaries are required to certify to the Plan’s funded percentage. The Plan received such certification for the 2024 Plan year for the AFTAP, which is one way of measuring the funded status of a plan using actuarial assumptions mandated by the Internal Revenue Service (“IRS”), and the actuary determined that the 2023 AFTAP for the Plan is 97.86%.

#### NOTE F - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board’s (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1* - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2* - Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3* - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Common/Collective Trust Funds* – Common/collective trust funds are comprised of shares or units in commingled funds that are not publicly traded. The underlying assets in these funds are primarily publicly traded equity securities, fixed income securities and commodity-related securities and are valued at their net asset value (“NAV”), as a practical expedient, that is calculated by the investment manager or sponsor of the fund and have varying liquidity, redemption period notices and other restrictions. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

*Mutual funds* – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

### Notes to Financial Statements December 31, 2024 and 2023

#### NOTE F - FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2024 and 2023:

#### Investment Assets at Fair Value as of December 31, 2024

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Short-term Investment funds (cash equivalents)	\$ 884,193	\$ -	\$ -	\$ 884,193
Mutual funds	6,000,087	-	-	6,000,087
Total investment assets in the fair value hierarchy	<u>\$ 6,884,280</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 6,884,280</u>
Investments measured at net asset value - Common/collective trusts (A)				<u>95,120,011</u>
Investments at fair value				<u>\$ 102,004,291</u>

(A) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

#### Investment Assets at Fair Value as of December 31, 2023

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Short-term Investment funds (cash equivalents)	\$ 365,912	\$ -	\$ -	\$ 365,912
Mutual funds	4,172,115	-	-	4,172,115
Total investment assets in the fair value hierarchy	<u>\$ 4,538,027</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,538,027</u>
Investments measured at net asset value - Common/collective trusts (A)				99,116,503
Investments at fair value				<u>\$ 103,654,530</u>

(A) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

## CAPGEMINI CASH BALANCE RETIREMENT PLAN

### Notes to Financial Statements December 31, 2024 and 2023

#### NOTE F - FAIR VALUE MEASUREMENTS (CONTINUED)

##### Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

##### Fair Value of Investments in Entities that Use Net Asset Value

The following tables summarize investments measured at fair value based on NAV per share as of December 31, 2024 and 2023. There are no unfunded commitments or redemption restrictions as of December 31, 2024 and 2023.

##### Investment Assets at Fair Value as of December 31, 2024

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Plan Level Redemption Notice Period</u>
Common collective trusts	\$ 95,120,011	N/A	Daily	None

##### Investment Assets at Fair Value as of December 31, 2023

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Plan Level Redemption Notice Period</u>
Common collective trusts	\$ 99,116,503	N/A	Daily	None

##### Common/Collective Trust Fund Investment Strategies

This investment class includes numerous funds that invest in various asset classes, including U.S. equity, international equity, fixed income securities, real estate and mortgage-backed securities. These investments account for their portfolio of assets at fair value and calculate the NAV per share of the fund on either a daily or monthly basis. The NAV is used as a practical expedient for determining the fair value of these investments.

#### NOTE G - TAX STATUS

The IRS has determined and informed the Company by a letter dated April 8, 2015, that the Plan is qualified under the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the tax determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

## **CAPGEMINI CASH BALANCE RETIREMENT PLAN**

### **Notes to Financial Statements December 31, 2024 and 2023**

#### **NOTE G - TAX STATUS (CONTINUED)**

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

#### **NOTE H - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS**

Certain investments are units of a common/collective trust managed by Fidelity Management Trust Company ("Fidelity"). Fidelity is the Plan trustee; therefore, transactions related to these investments qualify as party-in-interest transactions. Fees paid by the Plan were approximately \$703,433 and \$982,416 for the years ended December 31, 2024 and 2023, respectively.

#### **NOTE I - RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2024 may not necessarily be indicative of amounts that could be realized in a current market exchange.

Cash and cash equivalents may at times exceed federally insured limits. The Plan has not experienced any losses in such accounts. The Plan believes it is not exposed to any significant credit risk on cash and cash equivalents.

#### **NOTE J - MUTUAL FUND FEES**

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

## CAPGEMINI CASH BALANCE RETIREMENT PLAN

### Notes to Financial Statements December 31, 2024 and 2023

#### NOTE K - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions as set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (the "PBGC") (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

### Actuarial Assumptions and Methods

**Interest rate** for PPA funding liability and normal cost for the minimum required contribution (MRC) is based on the segment rates provided by ARPA: 4.75% for the first 5 years, 4.87% for the next 15 years, and 5.59% thereafter (previously based on the segment rates provided by ARPA: 4.75% for the first 5 years, 5.00% for the next 15 years, and 5.74% thereafter).

**Lump Sum Conversion Interest Rates:** Interest rates are equal to the respective valuation segment rates.

**Salary Scale:** N/A

**Administrative Expenses:** \$510,000. Estimated based on the average of the non-investment related administrative expenses, net of PBGC premiums, paid from the Trust in the prior three years, plus current year's PBGC premium (previously \$550,000).

**Mortality:** IRS 2024 Generational Mortality Table as prescribed by IRC Section 430 for plans with more than 500 participants. This is a fully generational mortality table based on the Pri-2012 Total Mortality Tables projected with the adjusted MP 2021 Mortality Improvement Scale with annual mortality improvements capped at 0.78% as required by Secure 2.0 Act. This plan does not have a large enough population to vary from the standard tables. (Previously IRS 2023 Static Mortality Table.)

**Marital Status:** 85% of males and 50% of females are assumed married, with females 3 years younger than males.

**Maximum Benefit:** \$275,000 for 2024. For determining limitations under funding amounts, no future increases in the IRC Section 415 limit have been reflected.

**Maximum Salary:** \$345,000 for 2024. For determining limitations under funding amounts, no future increases in the salary limit have been reflected.

**Form of Payment:** It has been assumed benefits will be paid in a single lump sum payment. To the extent optional forms of payment are elected and conversions are determined under an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method.

**Actuarial Assumptions and Methods** (continued)

**Actuarial Value of Plan Assets for Funding Purposes:**

The actuarial value of assets is equal to the market value of assets (including discounted employer contributions receivable) on the valuation date, less 50% of the prior year's investment gains/ (losses).

Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (at an assumed rate of 7.25%, not to exceed the third segment rate for that year) over the actual return on the market value (including employer contributions receivable) for any given year.

The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets (including discounted employer contributions receivable).

**Actuarial Cost Method:** The unit credit cost method is used for ERISA funding target (FT) purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

## **Plan Provisions**

**Name of Plan:** Capgemini Cash Balance Retirement Plan.

**Employer Identification Number / Plan Number:** 22-2575929/001.

**Effective Date:** May 23, 2000; Restated as of January 1, 2020.

**Eligibility:** All Covered Persons who have attained age 21 and completed at least 1 year of eligibility service.

**Participation Date:** Date of becoming an eligible employee. The Plan was closed to new entrants on January 1, 2017. All employees who were hired or became a Covered Person on or after January 1, 2017 will not become a participant in the Plan.

### **Definitions:**

*Vesting service:* A year of vesting service is credited if 12 months of service are completed, including all periods of service with the controlled group, whether or not consecutive. A month of service is included in vesting service if at least 15 days of each month are included in an employee's period of service.

*Eligibility service:* A year of eligible service is credited if 365 days of service are completed, including all periods of service with the controlled group, whether or not consecutive.

*Compensation:* Compensation generally includes all pay, excluding certain amounts such as moving allowances, differentials, overseas allowances, and severance payments.

*Normal retirement date (NRD):* The later of (1) the participant's 65th birthday; or (2) the earlier of the fifth anniversary of participation or the date on which the participant completes 5 years of vesting service.

**Plan Provisions** (continued)

*Accrued Benefit:* Effective December 31, 2019, all accrued benefits were frozen. A monthly benefit actuarially equivalent to the value of the cash balance account at retirement comprised of interest credits and annual cash balance credits as follows:

*Interest Credits:* Effective January 1, 2016, interest is credited to the cash balance account as of the beginning of the year at an annual rate of 6% at the end of each year (previously, the rate was 7%). In determining the Accrued Benefit, interest is credited to the later of the Normal Retirement Date or benefit commencement.

*Annual Cash Balance Credits:* Beginning with the 2020 plan year the benefit has been frozen and no further cash balance credits will be provided. Prior to 2020, at the end of each Plan Year, the cash balance account is credited with an amount equal to:

1. Plan year compensation, times
2. The fraction of the year during which the employee was a covered person (measured in months as a covered person divided by 12), times
3. A percentage factor based on age at the beginning of the plan year as follows:
