Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **RODL LANGFORD DE KOCK LLP**

(2) EIN: **58-2594719**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

INDEPENDENT AUDITORS' REPORT

To the Participants of
Viscofan USA, Inc. Retirement Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Viscofan USA, Inc. Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution, Principal Trust Company, as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditors' Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Rödl & Partner

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements conform with the Plan's provisions, including maintaining sufficient records with respect to each of the participants to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance. Therefore, it is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Rödl & Partner

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental Schedules *H, Line 4i – Schedule of Assets (Held at End of Year)* and *H, Line 4j – Schedule of Reportable Transactions*, as of and for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

VISCOFAN USA, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

1. GENERAL DESCRIPTION OF PLAN

The following description of the Viscofan USA, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering salaried employees of Viscofan USA, Inc. (the "Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code (the "IRC").

The Plan was frozen effective January 31, 2008. Since then, no additional participants can be added to the Plan, and no additional benefits accrue under the Plan.

Pension benefits

Employees are 100% vested after completing five years of service. Employees withdrawing for reasons other than retirement, death, or disability will forfeit the nonvested portion of their benefit. This forfeited portion reduces the Sponsor's contributions to the Plan. Prior to September 30, 2003, normal retirement was at or after age 62, 63, 64, or 65 at the participant's election. Effective October 1, 2003, the normal retirement date changed to the date on which a participant attains age 65. Employees will receive the value of their accumulated benefits as a lump-sum distribution if it is less than \$5,000, subject to automatic rollover requirements of the United States Department of Labor (the "DOL"). If the value is more than \$5,000, pension benefits are paid as a life annuity, if the employee is single, or as an actuarially equivalent 50% joint and survivor annuity, if the employee is married, or as an actuarially equivalent alternative.

A participant's pension is based on the pension formula stated below and equal to the sum of the amounts described in (a), (b), and (c) below:

- (a) Beginning October 1, 2003,
 - (i) 1.3% of a participant's actual pay for each plan year or portion of a plan year after September 30, 2003, while he or she is a participant (limited to a total of 40 years when combined with credited service earned prior to October 1, 2003),
 - (ii) 0.5% of a participant's actual pay above the participant's covered compensation level for each plan year or portion of a plan year after September 30, 2003, while he or she is a participant (limited to a total of 35 years when combined with credited service earned prior to October 1, 2003).
- (b) From January 1, 1989, to September 30, 2003,
 - (i) 1.3% of a participant's average pay, multiplied by the participant's years (including fractional years) of credited service from January 1, 1989, to September 30, 2003, not to exceed 40 years when combined with credited service prior to January 1, 1989,
 - (ii) 0.5% of a participant's average pay above the participant's 2003 covered compensation level, multiplied by the participant's years (including fractional years) of credited service from January 1, 1989, to September 30, 2003, not to exceed 35 years when combined with credited service prior to January 1, 1989.
- (c) The portion of a participant's accrued benefit attributable to his or her participation under the Retirement Plan of Johnson & Johnson and Affiliated Companies as of January 1, 1989, multiplied by the participant's "new compensation fraction." The participant's "new compensation fraction" means a fraction (not less than 1) of:
 - (i) the numerator which is the participant's average pay; and

(ii) the denominator of which is the participant's average pay as of January 1, 1989.

For purposes of determining pension benefits, average pay means the highest average of total annual pay during any 60 consecutive calendar months within the 120-calendar-month period immediately prior to normal retirement date or, if earlier, actual retirement date or date of termination. If the participant is employed for less than 120 months, the highest average of total annual pay during any 60 consecutive calendar months within the period of employment to normal retirement date is used or, if earlier, the actual retirement date or date of termination is used.

Effective October 1, 2003, actual pay is used to determine the pension benefit. Actual pay is total compensation from the Sponsor, including base salary, bonus, commissions, and overtime. Certain amounts are excluded in determining actual pay such as fringe benefits, welfare benefits, expenses reimbursements, moving expenses, and similar amounts.

The Plan also provides death and disability benefits to, or on behalf of, eligible employees. Once vested, a 50% survivor death benefit is provided for the protected spouse of a married participant, payable on the date the participant would have been eligible to commence benefits had he or she survived and terminated employment. A single participant is entitled to five years of certain and continuous coverage once he or she attains age 55 and completes ten years of credited service. Additionally, disability benefits are determined when active employees are unable to continue performing their regular duties for the Sponsor for their customary hours of employment. Benefits determined are based on Social Security benefits at age 65, service benefit commencement date (age 55 or later, as participant elects), and average pay to benefits commencement date based on the rate of pay on disability retirement date, reduced for earlier commencement. Payment may be deferred if benefits payable under the Sponsor-insured disability plan would be reduced.

Funding

The Sponsor contributes such amounts as necessary on an actuarial determined basis to provide the Plan with assets sufficient to meet benefit payments to Plan participants. The contributions are designed to fund the Plan's current service costs on a current basis and to fund any estimated unfunded prior service costs over 30 years. The yield (interest, dividends, and net realized and unrealized gains and losses) on investments of the Plan will adjust future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The funding method for determining current cost is the projected unit credit method. ERISA minimum funding requirements were met for the years ended December 31, 2024 and 2023.

Administrative fees

Administrative fees paid by the Plan include custodial fees, actuarial fees, accounting fees, and insurance premiums.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Payment of benefits

Benefits are recorded when paid.

Investment valuation and income recognition

Investments are reported at fair value as determined by Principal Trust Company (the "Custodian"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements. Net appreciation/depreciation in the fair value of investments includes realized and unrealized gains and losses on investments purchased and sold, as well as held, during the year.

Use of estimates in financial statement preparation

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Indirect investment-related expenses are included in net appreciation/depreciation of fair value of investments.

Actuarial present value of accumulated benefits

Accumulated benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based upon the participants' years of service and average compensation as defined in the Plan. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) qualify for distribution, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated benefits is determined by an actuary from Principal (the "Actuary") and is the amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment of benefits. The significant actuarial assumptions used in the valuations as of December 31, 2024 and 2023 were (a) life expectancy of participants (the Static Mortality Tables prescribed under IRC Section 430 were used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) a discount rate (5.00% for 2024 and 5.25% for 2023), compounded annually. The foregoing actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits. Actuarial computations made by the Actuary reflect changes associated with the freezing of benefits under the Plan as described in Note 1.

Subsequent events

The Sponsor has evaluated subsequent events through October 15, 2025, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE PLAN CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan's independent auditors did not perform any auditing procedures with respect to the following information certified by the Custodian, except for comparing such information certified by the Custodian to information included in the Plan's financial statements and supplemental schedules.

The following information included in the accompanying financial statements and supplemental schedules was prepared and certified to be complete and accurate by the Custodian as of and for the years ended December 31:

	<u>2024</u>	<u>2023</u>
Investments at fair value:		
Pooled separate accounts	<u>\$ 12,303,124</u>	<u>\$ 12,248,029</u>
Investment income:		
Net appreciation in fair value of investments	<u>\$ 1,086,967</u>	

4. ACTUARIAL INFORMATION

Accumulated benefits at December 31, 2024 and 2023, the dates of the latest actuarial valuations, are as follows:

	<u>2024</u>	<u>2023</u>
Actuarial present value of accumulated benefits		
Vested benefits:		
Participants currently receiving benefits	\$ 10,587,261	\$ 10,599,813
Other participants	<u>2,359,851</u>	<u>2,257,955</u>
	<u>\$ 12,947,112</u>	<u>\$ 12,857,768</u>

Changes in accumulated benefits during the years ended December 31, 2024 and 2023, are as follows:

	<u>2024</u>	<u>2023</u>
Actuarial present value of accumulated benefits at beginning of year	<u>\$ 12,857,768</u>	<u>\$ 12,618,368</u>
Increase (decrease) during the year attributable to:		
Change in actuarial assumptions *	250,176	495,680
Benefits accumulated and actuarial gain or loss **	300,977	139,813
Increase of interest due to decrease in discount period	646,317	694,636
Benefits paid	<u>(1,108,126)</u>	<u>(1,090,729)</u>
Net increase	<u>89,344</u>	<u>239,400</u>
Actuarial present value of accumulated benefits at end of year	<u>\$ 12,947,112</u>	<u>\$ 12,857,768</u>

* The discount rate used was 5.00% and 5.25% for the years ended December 31, 2024 and 2023, respectively.

** Actuarial gain or loss is a result of actual results during the year differing from actuarial assumptions.

The Plan's Adjusted Funding Target Attainment Percentage ("AFTAP") was 93.44% and 97.16% for the plan years 2024 and 2023, respectively.

In 2024 and 2023, no methods affecting the comparability of results were changed since the last valuation.

5. RELATED PARTY TRANSACTIONS

The Sponsor pays certain administrative costs on behalf of the Plan. The Sponsor also provides recordkeeping and administrative services to the Plan at no cost. The Plan's investments are managed by the Custodian and, as such, qualify as party-in-interest transactions.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Therefore, it is reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in the statements of net assets available for benefits.

7. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodology used for assets measured at fair value. There were no changes in the methodology used for the year ended December 31, 2024.

- Pooled separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year-end. The NAV, as provided by the Custodian, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Sponsor believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. As of December 31, 2024 and 2023, the Plan's investments are in pooled separate accounts which are valued using NAV as a practical expedient and thus not required to be leveled.

8. TAX STATUS

The Plan utilizes a volume submitter plan document sponsored by Principal Life Insurance Company, who was informed by the Internal Revenue Service (“IRS”) by a letter dated March 30, 2018, that the Plan, as amended, is designed and being operated in accordance with applicable sections of the IRC. Though the Plan has not received a determination from the IRS, the Sponsor and the Plan’s tax counsel believe that the Plan is designed and being operated in accordance with the applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require the Plan’s management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax in progress and the Sponsor believes that the Plan is no longer subject to income tax examinations for years prior to 2021.

9. PLAN TERMINATION

As discussed in Note 1, the Sponsor has frozen benefits under the Plan. If the Plan is terminated, the net assets of the Plan will be distributed to the participants in an order of priority determined in accordance with ERISA and its applicable regulations, and with the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporations (“PBGC”). Generally, the PBGC guarantees most vested normal retirement-age benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to the statutory ceiling on the amount of a participant’s monthly benefit. For terminations occurring during the years ended December 31, 2024 and 2023, that ceiling was \$7,108 and \$6,750 per month, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. For older annuitants, the corresponding ceilings are actuarially adjusted upwards.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan’s assets to provide these benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

10. SUBSEQUENT EVENT

Effective January 1, 2025, the Sponsor increased the threshold for forced distributions of terminated participants from \$5,000 to \$7,000 as permitted under the SECURE 2.0 Act.

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.01%	5.13%	5.15%

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post-retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality Based on Pri-2012 total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

Mortality base rates

Before benefit payment period
 Employee amount-weighted, male and female

During benefit payment period
 Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None ¹

¹ Based on the sponsor's input, plan experience does not show a need for long-term excess death or COVID death load adjustments.

See Mortality documentation for rationale and additional information.

Interest rate used to value liabilities

5.25%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note – expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Viscofan USA, Inc. Retirement Plan
EIN 63-1196441 Plan No. 007

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has decreased from 6.25% to 5.50%. This rate is used in the calculation of the actuarial value of plan assets.
