INDEPENDENT AUDITORS' REPORT

To the Benefits Committee and Participants of the Retirement Program for Employees of EnPro Industries, Inc. and Affiliated Companies:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Retirement Program for Employees of EnPro Industries, Inc. and Affiliated Companies (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 (in liquidation) and 2023 (ongoing), the related statements of changes in net assets available for benefits for the years then ended (in liquidation and ongoing, respectively), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with generally accepted accounting principles in the United States of America ("GAAP").
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with generally accepted auditing standards in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Terminating Plan and Liquidation Basis of Accounting

As further discussed in Note 1 to the financial statements, the Benefits Committee, as authorized by Board of Directors of EnPro Industries, Inc. and Affiliated Companies, adopted a resolution on April 15, 2024, to terminate the Plan and management determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the ongoing basis of accounting used in presenting the 2023 financial statements to the liquidation basis of accounting used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 and schedule of reportable transactions for the year ended December 31, 2024 (the "ERISA-required supplemental schedules") are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the ERISA-required supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the ERISA-required supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the ERISA-required supplemental schedules, we evaluated whether the ERISA-required supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the ERISA-required supplemental schedules, other than the information in the ERISA-required supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the ERISA-required supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

RETIREMENT PROGRAM FOR EMPLOYEES OF ENPRO INDUSTRIES, INC. AND AFFILIATED COMPANIES

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN

The following description of the Retirement Program for Employees of EnPro Industries, Inc. and Affiliated Companies (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined benefit pension plan providing retirement, disability and death benefits to all eligible employees of Enpro Inc. (the "Employer") and affiliated companies. Effective January 1, 2010, the Plan was frozen to new entrants. The Plan is administered by the Benefits Committee, whose members are appointed by the Compensation Committee of the Board of Directors of the Employer. The Benefits Committee has overall responsibility for the operation and administration of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective December 31, 2023, the Pension Plan for Hourly Employees of Garlock Sealing Technologies LLC (Palmyra, New York) ("Garlock Plan") was merged into and became a component document of the Plan. The net assets of the Garlock Plan were transferred to the Plan on December 29, 2023, however, the transfer to the Plan's trust was not finalized as of December 31, 2023. Accordingly, the transferred balance is recorded as an other receivable on the accompanying statement of net assets available for benefits as of December 31, 2023. All benefits earned under the Garlock Plan and contributions due, if any, to the Garlock Plan, are payable or receivable in accordance with the Garlock Plan out of or into the Plan. Management of the Employer believes that the merger was a tax-exempt transaction under the applicable provisions of the Internal Revenue Code ("IRC") and, therefore, is not subject to federal income taxes.

On February 15, 2024, the Board of Directors of the Employer ratified and confirmed resolutions approving the termination of the Plan, including the Garlock Plan as a component document thereunder, and authorized the Benefits Committee to effectuate and facilitate the termination. On April 15, 2024, the Benefits Committee adopted resolutions and amended the plan document to terminate the Plan effective July 31, 2024. Participants will have the option to receive their benefits in the form of a lump sum payment measured at the net present value of all future payments. On October 7, 2025, the Plan entered into an agreement with an annuity provider to provide annuity benefits beginning on January 1, 2026 for all participants who do not elect the lump sum payment option. Due to the ongoing nature of liquidation activities, obligations and expenses related to plan termination are not readily determinable as of October 14, 2025. The Plan expects to complete all liquidation activities by December 31, 2025.

Funding Policy - Contributions to provide benefits under the Plan are made solely by the Employer. The Plan's funding policy is to make contributions to the Plan between the minimum required amount and the maximum tax-deductible amount, as determined by the Plan's independent actuary. For the year ended December 31, 2024, no contributions were made by the Employer. For the year ended December 31, 2023, the Employer made contributions of \$335,619. Plan met the minimum funding requirements of ERISA for both years.

Pension Benefits - Upon retirement, benefits are paid monthly during the lifetime of the retiree and, if applicable, during the lifetime of a surviving annuitant. A participant with an eligible spouse will have his or her benefit paid in the form of a joint and survivor annuity unless the participant elects not to receive it in this form. The amount of the monthly benefit is based on the participant's years of service and other factors as defined in the plan document.

Effective December 31, 2020, all benefit accruals under the Plan ceased.

Death and Disability Benefits - If a participant who has completed five years of service dies before making application for his or her pension benefits, the Plan provides for a reduced benefit to be paid to the surviving spouse or beneficiary. A participant, who becomes totally and permanently disabled, regardless of years of service, is eligible to receive a benefit computed based on normal retirement.

Effective December 31, 2020, all benefit accruals under the Plan ceased.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - As of and for the year ended December 31, 2023, the financial statements have been prepared on the accrual basis of accounting. Effective February 15, 2024, the Board of Directors of the Employer adopted a resolution to terminate the Plan. As a result, the Plan's financial statements as of and for the year ended December 31, 2024 have been prepared on the liquidation basis of accounting in accordance with generally accepted accounting principles in the United States of America ("GAAP"). This basis of accounting is considered appropriate when, among other things, liquidation of the Plan is imminent and the net realization of assets are reasonably determinable. Under the liquidation basis of accounting, assets are stated at their estimated net realized cash value and liabilities are stated at their anticipated settlement amounts.

Use of Accounting Estimates - The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and Vanguard Fiduciary Trust Company and PNC Financial Services Group, Inc., the Trustees of the Plan. See Note 4 for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Plan's expenses are paid either by the Plan or by the Employer, as provided by the plan document. Expenses that are paid directly by the Employer are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the statements of changes in net assets available for benefits.

Subsequent Events - Management has evaluated subsequent events through October 14, 2025, which is the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY TRUSTEES

The following is a summary of the Plan's investment information as of December 31, 2024 and 2023, and for the years then ended, included in the financial statements and supplemental schedules, that was prepared by, or derived from, information prepared by the Trustees and furnished to management. Management has obtained certifications from the Trustees that such information is complete and accurate as of and for the years ended December 31, 2024 and 2023.

	<u>2024</u>	<u>2023</u>
Assets:		
Mutual funds	\$ -	\$ 222,159,915
Interest-bearing cash	\$ 59,168,338	\$ 1,335,365
Corporate bonds	\$ 170,452,459	\$ -
Government bonds	\$ 19,940,973	\$ -
Investment income (loss):		
Net appreciation (depreciation) in fair value of investments	\$ (500,294)	\$ 15,891,469
Interest and dividend income	\$ 2,400,982	\$ 4,086,243

4. FAIR VALUE MEASUREMENTS

GAAP provides the framework for measuring fair value by utilizing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Interest-bearing cash: Valued at the ending cash balance plus any accrued interest held by the Plan as of year-end.

Corporate and government bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Interest-bearing cash	\$ 59,168,338	\$ -	\$ -	\$ 59,168,338
Corporate bonds	-	170,452,459	-	170,452,459
Government bonds	-	19,940,973	-	19,940,973
Investments, at fair value	<u>\$ 59,168,338</u>	<u>\$190,393,432</u>	<u>\$ -</u>	<u>\$249,561,770</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$222,159,915	\$ -	\$ -	\$222,159,915
Interest-bearing cash	<u>1,335,365</u>	<u>-</u>	<u>-</u>	<u>1,335,365</u>
Investments, at fair value	<u>\$223,495,280</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$223,495,280</u>

5. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain investments of the Plan are managed by the Trustees, as defined by the plan document, and therefore, these transactions qualify as exempt party in interest transactions. Fees incurred by the Plan for investment management services were included as a reduction of the return earned on each fund. The Trustees receives investment and administrative fees as a result of these activities. Certain other third party administrative expenses were paid by the Employer on behalf of the Plan. These transactions qualify as exempt party in interest transactions.

6. TAX STATUS

The Plan was restated as of January 1, 2016 to comply with required and elective changes in the Plan's terms. The Plan has submitted a request to the IRS to receive a determination letter and is waiting for a response. However, management believes the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax period in progress.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the accompanying financial statements to Form 5500 as of December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per the accompanying financial statements	\$ 249,170,342	\$ 266,387,301
Add: Additional administrative expenses payable not reported in Form 5500	<u>391,428</u>	<u>176,780</u>
Net assets available for benefits per Form 5500	<u>\$ 249,561,770</u>	<u>\$ 266,564,081</u>

The following is a reconciliation of the change in net assets available for benefits per the accompanying financial statements to Form 5500 for the years ended December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Change in net assets available for benefits per the accompanying financial statements	\$ (17,216,959)	\$ 5,703,684
Add: Additional administrative expenses payable not reported in Form 5500, end of year	391,428	176,780
Less: Additional administrative expenses payable not reported in Form 5500, beginning of year	(176,780)	(136,766)
Add: Additional contribution receivable not reported in Form 5500, beginning of year	-	3,000,000
Change in net assets available for benefits per Form 5500	<u>\$ (17,002,311)</u>	<u>\$ 8,743,698</u>

9. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, 2023, there would be no material differences.

The significant actuarial assumptions used in the valuations as of December 31, 2023 were:

Discount rate	5.50%
Mortality basis after normal retirement age	Pri-2012 separate annuitant/non-annuitant generational tables back projected to 2012 with future improvement using the MP-2021 projection scale.

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. When the Plan updates its actuarial valuation for plan termination, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of December 31, 2023 was as follows:

Vested benefits:	
Active participants	\$ 25,704,294
Inactive participants receiving benefits	171,696,955
Inactive participants with deferred benefits	<u>44,838,428</u>
Total vested benefits	242,239,677
Nonvested benefits	<u>-</u>

Actuarial present value of accumulated plan benefits as of end of year	<u>\$ 242,239,677</u>
--	-----------------------

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2023 was as follows:

Actuarial present value of accumulated plan benefits as of beginning of year	<u>\$ 205,083,034</u>
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	11,094,935
Change in actuarial assumptions	1,907,613
Benefits paid	(13,918,376)
Actuarial gains	270,737
Plan merger	<u>37,801,734</u>
Net increase	<u>37,156,643</u>
Actuarial present value of accumulated plan benefits as of end of year	<u>\$ 242,239,677</u>

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

- Applicable month September
- Interest rate basis 3-Segment Rates

Interest rates	Reflecting Stabilization	Not Reflecting Stabilization
• First segment rate	4.75%	3.62%
• Second segment rate	4.87%	4.46%
• Third segment rate	5.59%	4.52%
• Effective interest rate	5.08%	4.42%

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Annual rates of increase

- Compensation N/A
- Future Social Security wage bases N/A
- Statutory limits on compensation N/A

Plan-related expenses The amount included this year for plan-related expenses is \$666,410. (0.25% of the market value of assets as of the valuation date without receivable contributions)

Demographic Assumptions

Inclusion date Participants are included with the valuation date coincident with or next following their date of entry into the plan.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality

- **Healthy** Separate rates for non-annuitants (based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using IRS-adjusted Scale MP-2021) and annuitants (based on RP-2014 “Healthy Annuitants” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using IRS-adjusted Scale MP-2021).
- **Disabled** Alternative disabled life mortality tables as defined under Revenue Ruling 96-7; mortality improvements beyond the valuation date are not reflected.

Termination The rates at which participants are assumed to terminate employment are shown below:

Form of payment	Participants are assumed to elect the normal form of payment applicable to single participants.
Percent married	For purposes of valuing the pre-retirement surviving spouse's benefit, 65% of eligible participants are assumed to be married.
Spouse age	Female spouses 3 years younger than male spouses
Covered pay	Not applicable. Benefit accruals are completely frozen.
Timing of benefit payments	Benefit payments are assumed to be made uniformly throughout the year and, on average, at mid-year.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430. Due to the short plan year caused by the plan termination, the target normal cost was prorated by 7/12.
Decrement Timing	The assumptions used are collectively called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met, or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (5.60% for the 2023 plan year) with such expected earnings limited as described in IRS Notice 2009-22. The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued apart from certain lump sum forms of payment.

The plan pays small benefits (with a present value up to \$100,000 for EnPro participants and \$75,000 for former Garlock participants) in a single lump sum payment. Such lump sums are not explicitly valued due to lack of election experience. Rather, such participants' benefits are valued using the benefit choice assumptions described above.

WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, Schwab, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor and Vanguard. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year. Plan-related expenses are estimated by determining a basis point share of the January 1 fair value of assets excluding receivables and represents the plan sponsor's best estimate for future expenses.
Assumed return for asset smoothing	The assumed return used for asset smoothing (5.60% for 2023) is the expected return on assets assumption chosen by the Company for the 2023 fiscal year under U.S. GAAP. This rate is less than the 2023 third segment rate of 5.74% and therefore 5.60% should be used per existing guidance. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

Assumptions Rationale - Significant Demographic Assumptions

Healthy mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2019. Annual consideration will be given to whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates were based on a table that has widespread use in pension valuations. The plan itself does not have credible disability incidence experience, so a national table is used.

Retirement

Retirement rates were based on an experience study conducted in 2019. Annual consideration will be given to whether any conditions have changed that would be expected to produce different results in the future.

Benefit commencement date for deferred benefits:

- Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.
- Deferred vested benefit
Deferred vested participants are assumed to begin benefits at age 55, 60, 62 or 65 (or current age if later). This assumption is based on an experience study conducted in 2019.

Form of payment

Normal form of payment – generally a life annuity but life annuity with years certain for a few locations. About half of participants in payment status as of January 1, 2024 are receiving life or certain and life annuities (normal form for single participants). For former Garlock plan participants, about two-thirds of retirees in payment status as of 1/1/2024 are receiving life annuities. Other annuity forms of payments are actuarially equivalent to the normal form.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430.

Benefits Paid Upon the Following Events

Normal retirement	The monthly pension benefit determined as of NRD
Early retirement	The benefit is unreduced if taken at age 62. There is a 1/3 of 1% reduction for each month benefit is taken prior to age 62. For benefit increases after December 31, 2006, there is a 5/12 of 1% reduction for each month benefit is taken prior to age 65.
Postponed retirement	The monthly pension benefit determined as of the actual retirement date
Deferred vested termination	The accrued benefit payable at normal retirement or in a reduced amount as early as age 55
Disablement	The accrued benefit deferred to normal retirement date
Preretirement death	If death occurs before eligibility for early retirement, the benefit equals what the spouse would have received if the member had survived to the earliest allowable retirement age and retired under the normal form of payment on that date. The benefit is based on service to the member's date of death and is payable beginning on the earliest date on which the member would have met the requirement for early retirement.

Other Plan Provisions

Forms of payment	The normal form of payment for single participants is a Life Only annuity. However, if the participant has a spouse on his annuity commencement date, he will be assumed to have elected a Joint and 50% Contingent Annuity option, naming his spouse as contingent beneficiary; such benefit is actuarially equivalent to the normal Life Only form of payment. A participant entitled to receive a retirement benefit may also elect an optional form of payment of equivalent actuarial value based on the 1963 George B. Buck mortality table with an 85/15 male/female split and a 7% interest rate. Effective November 1, 2019, a lump sum form of payment is available to active employees retiring from the Company. The lump sum is limited to those present values less than \$100,000.

Early retirement	The benefit is reduced 5% for each year benefit commences prior to age 65. Bay Minette benefit is reduced 3% for first 3 years and 4% for every year thereafter.
Postponed retirement	The monthly pension benefit determined as of the actual retirement date
Deferred vested termination	The benefit accrued to the date of termination is payable at normal retirement age or in a reduced amount at early retirement age.
Disablement	Benefit equals the accrued normal retirement benefit payable immediately. Pikotek and Plastomer Technologies: None provided, same as vested terminated benefit
Preretirement death	If death occurs before eligibility for early retirement, the benefit equals what the spouse would have received if the member had survived to the earliest allowable retirement age and retired under the normal form of payment on that date. The benefit is based on service to the member's date of death and is payable beginning on the earliest date on which the member would have met the requirement for early retirement.

Other Plan Provisions

Forms of payment	The normal form of payment for single participants is a Life Only annuity. However, if the participant has a spouse on his annuity commencement date, he will be assumed to have elected a Joint and 50% Contingent Annuity option, naming his spouse as contingent beneficiary; such benefit is actuarially equivalent to the normal Life Only form of payment based on the 1963 George B. Buck mortality table with an 85/15 male/female split and a 7% interest rate. Effective November 1, 2019, a lump sum form of payment is available to active employees retiring from the Company. The lump sum is limited to those present values less than \$100,000.

SCHEDULE SB ATTACHMENTS

If a member dies after completing 5 years of service but prior to attaining 50 with 15 years of service or eligibility for early retirement, his spouse will receive 50% of the vested benefit accrued at the time of death, reduced by the joint and survivor factor and early commencement factor (if applicable). The benefit is payable beginning on the earliest date on which the member would have met the requirement for early retirement if the member completed 10 years of service, otherwise on what would have been the member's normal retirement date.

Other Plan Provisions

Forms of payment

The normal form of payment for single participants is a Life Only annuity. However, if the participant has a spouse on his annuity commencement date, he will be assumed to have elected a Joint and 50% Contingent Annuity option, naming his spouse as contingent beneficiary; such benefit is actuarially equivalent to the normal Life Only form of payment. A participant entitled to receive a retirement benefit may also elect an optional form of payment of equivalent actuarial value.

In addition to the 50% Qualified Joint and Contingent Annuity, the plan provides a number of optional payment forms that are actuarially equivalent to the Life Only form of payment, including a 66-2/3%, a 75%, and a 100% Joint and Contingent benefit for married employees. Actuarial equivalence is based on the 1963 George B. Buck Mortality Table with a fixed blend of 85% males and 15% females and a 7% interest rate. In addition, the plan also provides a Level Income option which produces a level combined pension from the plan and Social Security. Lastly, de minimis lump sum distributions are offered based on the applicable mortality table and applicable interest rate defined in IRS Code Section 417(e). The lookback month is November of the preceding plan year.

Effective November 1, 2019, a lump sum form of payment is available to active employees retiring from the Company. The lump sum is limited to those present values less than \$75,000.
