INDEPENDENT AUDITOR'S REPORT

Board of Directors
InfraMap Corp. Employee Stock Ownership Plan

Opinion on the 2024 Financial Statements

We have audited the financial statements of InfraMap Corp. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2024 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Compiled 2023 Financial Statement

Plan management is responsible for the accompanying 2023 financial statement of the Plan, which comprises the statement of net assets available for benefits as of December 31, 2023, and the related notes to the financial statement in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statement, nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by plan management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on the 2023 financial statement.

INFRAMAP CORP. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following is a brief description of the InfraMap Corp. Employee Stock Ownership Plan (Plan) and is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

InfraMap Corp. (Company) established the Plan effective December 31, 2004. The Plan operates as an employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (the IRC), as amended, and is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is designed to invest primarily in the Company's stock. All Plan investments are directed by the trustees. The Plan is administered by the trustees appointed by the Board of Directors.

Eligibility: Employees of the Company are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during the eligibility period. Newly eligible participants enter the Plan on the January 1st or July 1st coincident with or immediately preceding meeting the eligibility requirements.

Contributions: Each plan year, the Company may elect to make discretionary contributions to the Plan. Company contributions can be made in Company stock and/or cash. Employee contributions are not permitted.

Payment of benefits: Distributions on account of death, disability, or retirement commence no later than the plan year following the event. Distributions for other separations from service commence, unless the participant elects otherwise, no later than the fifth plan year following the plan year in which the participant's termination of employment occurred. The participant's balance is paid in up to five annual installments. Distributions are made in cash, or at the discretion of the plan administrator in a uniform and nondiscriminatory manner is Company stock which must immediately be sold to the Company.

Administrative expenses: As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting rights: With regard to certain corporate matters, each participant is entitled to direct the trustees regarding the voting of shares allocated to his or her account and is notified by the Company prior to the time that such rights are to be exercised. With regard to other corporate matters and in instances that instructions have not been given by a participant, the trustees vote for any allocated shares.

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of Company contributions (shares and cash) and forfeitures of terminated participant's non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

INFRAMAP CORP. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Vesting: If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. A participant is 100% vested after 6 years of credited service.

Put option: Stock of the Company that is distributed to its participants is subject to a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants at a put price representative of the fair market value of the stock. In certain circumstances, the Company may pay for the purchase with interest over a period of up to five years.

Diversification: The Plan includes a provision under which participants close to retirement age may move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 and have at least 10 years of participation in the Plan may elect to diversify a portion of their accounts. Diversification is offered to each eligible participant over a six-year period. During a specified period following each of the first five plan years, a participant may diversify up to 25% of the Company shares allocated to his or her account less any amounts previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may either receive a cash distribution, transfer a portion of the account to another qualified plan or have a portion of the account transferred to other investment options within the Plan.

Forfeitures: Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. Forfeitures allocated to participants for the year ended December 31, 2024, consisted of 2,420 shares of Company stock and \$28,069 of other assets.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment valuation and income recognition: Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest is recorded when earned. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year. Realized gains and losses from sales of securities are determined on the average-cost method.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan has evaluated subsequent events through October 13, 2025, the date the financial statements were available to be issued.

INFRAMAP CORP. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Note 3. Investment in Company Stock

The Plan's investment in InfraMap Corp. common stock at December 31, is presented in the following table:

| | (Audited) 2024 | (Compiled) 2023 |
|----------------------|---------------------------------|----------------------------------|
| Number of shares | 14,000 | 14,000 |
| Cost | \$ 807,240 | \$ 807,240 |
| Estimated fair value | \$ 956,340 | \$ 832,580 |

All shares are allocated to Plan participants.

Note 4. Fair Value Measurements

Fair value as defined under U.S. GAAP is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1 Observable inputs such as quoted prices in active markets.

Level 2 Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

| | Assets at Fair Value as of December 31, 2024 (Audited) | | | |
|---------------------------------------|---|----------------|-------------------|---------------------|
| | Level 1 | Level 2 | Level 3 | Total |
| Money market fund | \$ 2,998,136 | \$ - | \$ - | \$ 2,998,136 |
| Investment in Company common stock | - | - | 956,340 | 956,340 |
| Total investments at fair value | \$ 2,998,136 | \$ - | \$ 956,340 | \$ 3,954,476 |

INFRAMAP CORP. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4. Fair Value Measurements (Continued)

| | Assets at Fair Value as of December 31, 2023 (Compiled) | | | |
|---------------------------------------|---|---------|------------|--------------|
| | Level 1 | Level 2 | Level 3 | Total |
| Money market fund | \$ 2,856,750 | \$ - | \$ - | \$ 2,856,750 |
| Investment in Company common stock | - | - | 832,580 | 832,580 |
| Total investments at fair value | \$ 2,856,750 | \$ - | \$ 832,580 | \$ 3,689,330 |

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets (investment in Company common stock) for the years ended December 31, 2024 and 2023:

| | (Audited) | (Compiled) |
|---|------------|------------|
| Balance, beginning of the year | \$ 832,580 | 747,600 |
| Unrealized gains relating to instruments still held at the reporting date | 123,760 | 84,980 |
| Balance, end of the year | \$ 956,340 | \$ 832,580 |

There have been no changes in the methodologies used at December 31, 2024 and 2023. The following is a description of the valuation methodologies used for assets measured at fair value:

Money market fund: The money market fund is a mutual fund that is valued daily at the closing price reported on the active market on which the fund is traded.

Company stock: Investment in Company common stock is reported at fair value based upon an appraisal. This appraisal was based upon a combination of income valuation techniques consistent with prior years as illustrated in the following table.

| Instrument | Fair value | Principal valuation technique | Unobservable inputs |
|---------------------------------------|------------|-------------------------------|---|
| Investment in Company common stock | \$ 956,340 | Income | EBITDA Net income Weighted average cost of capital Discount rate Terminal growth rate Discount for lack of marketability |

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

INFRAMAP CORP. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Note 5. Related Party and Party in Interest Transactions

The Plan invests in Company common stock. As described in Note 1, the Company pays all plan expenses. These are related party and party in interest transactions. The Plan has several service providers. Such providers are parties in interest under ERISA.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the interest of each participant in the Plan would be fully vested.

Note 7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated May 5, 2014, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

A substantial portion of the Plan's assets available for benefits is invested in common stock of the Company and therefore subject to a concentration of risk.
