Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

(1) Name: **ARMANINO LLP**

(2) EIN: **33-2514127**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		5000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

INDEPENDENT AUDITOR'S REPORT

To the Participants and the Benefit Committee
Silgan Plastics Pension Plan for Salaried Employees

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Silgan Plastics Pension Plan for Salaried Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Silgan Plastics Pension Plan for Salaried Employees's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Silgan Plastics Pension Plan for Salaried Employees and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Silgan Plastics Pension Plan for Salaried Employees's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits the section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Silgan Plastics Pension Plan for Salaried Employees's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Silgan Plastics Pension Plan for Salaried Employees's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Silgan Plastics Pension Plan for Salaried Employees
Notes to Financial Statements
December 31, 2024 and 2023

1. DESCRIPTION OF THE PLAN

The following description of the Silgan Plastics Pension Plan for Salaried Employees (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established as of January 1, 1988, by Silgan Plastics LLC (the "Company") to provide retirement benefits to its salaried employees and death benefits to its employees' beneficiaries in accordance with the Plan's provisions. The Plan is noncontributory on the part of the employees.

Plan freeze

The Benefit Committee of the Company, the Plan's sponsor, voted to amend the Plan to exclude employees hired after 2006 from participation in the Plan. Accordingly, an employee whose first day in covered employment is after December 31, 2006, shall not be eligible to participate in the Plan. In addition, a former participant shall not be eligible to participate in the Plan if reemployed after December 31, 2006.

Contributions

The Plan is a defined benefit plan funded by the Company's quarterly or annual contributions, which are based on actuarial determinations designed to provide the Plan with assets sufficient to meet the benefits to be paid to plan participants and minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan has met the minimum funding requirements of ERISA in 2024 and 2023.

Benefits

The Summary Plan Description, which is provided to participants, contains a description of the provisions of the Plan, including vesting provisions, types of benefits, and the manner in which benefits are calculated, based upon the Plan where the participant is located. The Plan provides for payment of benefits from the Plan to eligible employees on the basis of credited service. The Plan may be amended to equitably reduce or increase benefits based on periodic actuarial evaluation of the contingent liabilities of the Plan in comparison with the Plan's assets and projected future contributions, subject to applicable limitations stipulated in ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("US GAAP").

Notes to Financial Statements
December 31, 2024 and 2023

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of estimates

The preparation of financial statements in conformity with US GAAP requires the Plan Sponsor to make estimates and assumptions that affect certain reported amounts of assets and liabilities therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits (see Note 6) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the employees prior to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or actuarial assumptions used in the valuation as of January 1, 2024). The significant assumptions are further described in Note 6. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered prior to the valuation date.

Investment valuation and income recognition

The Plan's investments and those investments held in the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion of fair value measurements.

Payment of benefits

Benefit payments to participants are recorded when distributed.

Administrative expenses

Historically, most administrative expenses have been paid by the Plan. All other administrative expenses are paid by the Company.

Subsequent events

Subsequent events were evaluated through October 15, 2025, which is the date the financial statements were available to be issued.

3. INVESTMENT INFORMATION CERTIFIED BY THE TRUSTEE

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2024 and 2023, and investment income from investment in the Master Trust for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Principal Bank, the trustee.

4. INVESTMENT IN THE MASTER TRUST

A portion of the plan's investments are in the Silgan Plastics Asset Account Master Trust ("Master Trust"), which was established for the investment of assets of the Plan and the Silgan Plastics Pension Plan for Salaried Employees. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Principal Bank ("Trustee").

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 56%. Total investment income (including net appreciation (depreciation) in the fair value of investments) of the Master Trust is allocated to the individual Plans based upon the amount of time the Plans' assets were invested in the Master Trust

The following table presents the investments and other assets and liabilities of the Master Trust as of December 31, 2024:

	<u>Master Trust</u>	<u>Plan's Interest</u>

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quote prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Financial assets or liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. During 2024 and 2023, no transfers occurred between the fair value levels.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at December 31, 2024 and 2023.

Silgan Plastics Pension Plan for Salaried Employees
Notes to Financial Statements
December 31, 2024 and 2023

5. FAIR VALUE MEASUREMENTS (continued)

Collective trust funds: The collective trust funds consisting of debt or equity securities are groups of investments similar to mutual funds. They are valued at the net asset value ("NAV") provided by the administrator of the fund. The NAV is based on the market value of the underlying assets owned by the fund on the valuation date minus its liabilities and then divided by the number of shares outstanding.

Short-term investments: Short-term investments are not part of the Master Trust. They reside in a sweep fund and are part of a collective fund. The general purpose of short-term investments is to provide the Plan with vehicles for collective investment and reinvestment of cash for short periods of time in money market investments such as variable amounts notes, commercial paper, U.S. government securities, certificates of deposit of banks and savings institutions, and other short-term debt obligations.

Corporate and municipal bonds, CMO's and asset-backed securities: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar investments, the investments are valued under a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

US Treasury bonds: Valued using quoted prices as reported in active exchanges.

Mutual and exchange-traded funds: Valued at the daily closing price as reported by the fund. Mutual and exchange-traded funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission ("SEC"). These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the short-term investments at fair value as of December 31, 2024:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>
Short-term investments	<u>\$ 15,090</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 15,090</u>

The following table sets forth by level, within the fair value hierarchy, the short-term investments at fair value as of December 31, 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>
Short-term investments	<u>\$ 5,847</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,847</u>

6. ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefit information at January 1, 2024 is as follows:

Participants currently receiving benefits	\$ 49,432,186
Other participants	<u>25,268,033</u>
	74,700,219
Nonvested benefits	<u>2,388</u>
	<u><u>\$ 74,702,607</u></u>

The accumulated plan benefits as presented above changed between the valuation dates as follows:

Actuarial present value of accumulated plan benefits at January 1, 2023	\$ <u>72,253,074</u>
Changes attributable to:	
Benefits accumulated	797,795
Actuarial (gains)/losses	736,121
Decrease in discount period	3,947,717
Benefits paid	(4,926,610)
Assumption changes	<u>1,894,510</u>
	<u>2,449,533</u>
Actuarial present value of accumulated plan benefits as of January 1, 2024	<u><u>\$ 74,702,607</u></u>

* The actuarial present value of accumulated benefits was calculated as of January 1, 2024, for the year ended December 31, 2023. If the actuarial valuation was performed as of December 31, 2023, there would be no material differences.

Significant assumptions used in the actuarial valuation at January 1, 2024 are as follows:

- The mortality assumption is based on the Mercer Industry Longevity Experience Study healthy annuitant tables of rates for Consumer Goods and Food & Drink Industries projected from 2010 with MMP2021 for annuitants; Pri-2012 from 2012 with MMP2021 for non-annuitants.
- Discount rate - 5.32%
- Administrative expenses - \$400,000
- Retirement age - graded rates from 55 to 70

Changes in assumptions since the prior valuation are as follows:

- The discount rate for benefit obligations was changed from 5.59% at January 1, 2023, to 5.32% at January 1, 2024, respectively.

Silgan Plastics Pension Plan for Salaried Employees
Notes to Financial Statements
December 31, 2024 and 2023

6. ACCUMULATED PLAN BENEFITS (continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. In the event of the Plan's termination, different actuarial assumptions and other factors might be applicable in determining the actuarial value of accumulated plan benefits.

7. TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated July 11, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "IRC"), therefore, the related trust is exempt from taxation. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax position taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan holds units of a master trust managed by Principal Bank, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Silgan Plastics Pension Plan for Salaried Employees
Notes to Financial Statements
December 31, 2024 and 2023

10. PLAN TERMINATION

Currently, there is no intention by the Company to terminate the Plan. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guarantee, while other benefits may not be provided for at all. In the event the Plan should terminate, the Plan's assets will be allocated among participants and beneficiaries of the Plan, generally in the following order:

- Benefits to participants who began receiving benefits at least three years before the Plan's termination based upon plan provisions in effect five years prior to termination
- all other benefits guaranteed by the PBGC
- all other vested benefits not guaranteed by the PBGC
- all other accrued benefits

Certain benefits under the Plan are insured by the PBGC should the Plan terminate with insufficient assets. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, for the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2024, that ceiling is \$7,108 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by the PBGC.

11. SUBSEQUENT EVENTS

Effective March 31, 2025, the Silgan Plastics Salaried Employees' Pension Plan was restructured to transfer certain participants and related plan obligations to the Silgan Non-Union Pension Plan (Silgan Containers). Under the terms of the restructuring, all active participants located in Triadelphia, along with all inactive participants (including deferred vested participants, retirees, and beneficiaries), were transferred to the Silgan Non-Union Pension Plan.

Notes to Financial Statements
December 31, 2024 and 2023

11. SUBSEQUENT EVENTS (continued)

The transfer encompassed a total of 527 participants (13 active, 109 deferred vested, and 405 retirees and beneficiaries) and resulted in the transfer of approximately \$77,591,076 in plan assets and approximately 83% of the Plan's liabilities, measured as of March 31, 2025.

Following the transfer, the Silgan Plastics Salaried Employees' Pension Plan retained 48 participants, with approximately \$16,064,520 in plan assets and approximately 17% of the Plan's liabilities, also measured as of March 31, 2025.

In addition, effective March 31, 2025, 126 active participants were transferred from the Silgan Plastics Hourly-Paid Employees' Pension Plan to the Silgan Plastics Employees' Salaried Pension Plan. This transfer resulted in the addition of approximately \$17,202,994 in plan assets and approximately 24% of the Hourly Plan's liabilities, measured as of March 31, 2025.

Also, effective March 31, 2025, the Silgan Plastics Salaried Employees' Pension Plan was renamed the Plastics Employees' Pension Plan.

At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Silgan Plastics regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Silgan Plastics and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor generally furnished participant data as of January 1, 2024 via the eepoint administration system, with bonus and target incentive received directly from the plan sponsor. Information on assets was supplied by the trustee. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rate of increase in compensation	Assumed compensation increases are based on plan sponsor expectations.
Assumed return for asset smoothing	The assumed return for asset smoothing is the third segment rate from the prior year. Although we have not explicitly determined an expected return on assets, based on an analysis of the plan sponsor's investment policy we believe the rate to be above the third segment rate.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination	Termination rates were based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement date for deferred benefits:	
<ul style="list-style-type: none">• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
<ul style="list-style-type: none">• Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law," as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2024

For each active participant, an expected retirement age was calculated, weighed in proportion to the probability that the individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 65 is the arithmetic average of the expected retirement ages of all such participants on January 1, 2024.

At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Silgan Plastics regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Silgan Plastics and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor generally furnished participant data as of January 1, 2024 via the eepoint administration system, with bonus and target incentive received directly from the plan sponsor. Information on assets was supplied by the trustee. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rate of increase in compensation	Assumed compensation increases are based on plan sponsor expectations.
Assumed return for asset smoothing	The assumed return for asset smoothing is the third segment rate from the prior year. Although we have not explicitly determined an expected return on assets, based on an analysis of the plan sponsor's investment policy we believe the rate to be above the third segment rate.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination Termination rates were based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement Retirement rates were based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Benefit commencement date for deferred benefits:

- Preretirement death benefit Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
- Deferred vested benefit Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

Prescribed Methods

Funding methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law," as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Monthly Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD.
Early retirement	Monthly pension benefit determined as of early retirement date. The benefit is reduced by 3.0% for each year of payment prior to age 65. For Woodstock participants, the benefit is reduced by 2% for the first five years prior to age 65 and then 4% for the next five years.
Postponed retirement	Monthly pension benefit determined as of the actual retirement date.
Termination with deferred vested benefit	Monthly pension benefit determined as of termination date, reduced as for early retirement. If the participant terminates with ten years of service, the reduction is 3% per year. Otherwise, the reduction is actuarially equivalent.
Termination as a result of disability	Monthly pension benefit determined as of the earlier of age 60 or date of retirement. Vesting and pension service include periods while receiving long-term disability benefits. Earnings are assumed to continue during the period at the rate in effect in the year prior to disability.
Death with preretirement spouse benefits	Monthly preretirement spouse benefit is payable for life commencing at the date the participant would have attained age 55 or date of death, if later. If the participant had attained age 50 with 10 years of vesting service or had 20 years of vesting service or was disabled and over age 55, the reduced death benefit is payable immediately to the spouse. The death benefit for a participant who has separated from service prior to death is also reduced for the period the coverage was in effect.
Forms of payment	Preretirement spouse benefits are payable only as described above. Monthly pension benefits are paid for the participant's lifetime, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Optional Forms of Payment

In addition to the normal form of payment, participants are eligible to elect the following actuarially equivalent optional forms:

Certain and Life – An annuity payment for the participant's lifetime, and upon the participant's death an annuity payable to the beneficiary for the remainder of the certain period.

Joint and Survivor Annuity – An annuity payable for the participant's lifetime and upon death, an annuity payable to the beneficiary based on the percentage elected and using conversion factors based on the plan actuarial equivalent basis.

Social Security Level Income Option – An annuity payable for the participant's lifetime where a larger monthly benefit is paid before a specified age, and a smaller monthly benefit is paid after the specified age. The option is intended to provide level income before and after the start of Social Security benefits.

Lump Sum – A single one-time payment of the total value of the participant's benefit. Once the payment is made, no further benefits are due from the plan. This option is only available for P.E.T. Chemical participants.
